MINUTES OF PROCEEDINGS
of
THE HONOURABLE LEGISLATIVE COUNCIL

29th December, 1890.

Present :

His Excellency the Governor.

Hon. F. S. Sanguinetti, Acting Col. Secretary.
„ S. Hamilton, Colonial Surgeon.

Hon. F. E. Cobb.
„ J. J. Felton.

The Minutes of the last Meeting, held on the 14th May last, were read and confirmed.

His Excellency said that the first Bill which he had to introduce pursuant to notice was

“An Ordinance for taking the Census of the Falkland Islands.” The taking of the Census in 1891 in the Colonies was one of the subjects considered at the Colonial Conference of 1887, with a view to securing uniformity throughout the Empire, but the Census Act, recently passed, of which he laid a copy on the table, did not differ from that for 1881, to which the Bill now before them was almost precisely similar. He moved the suspension of the standing Rules and Orders and the first reading of the Bill. The Hon. J. J. Felton seconded the motion and the Bill was read a first time.

The Governor moved the second reading of the Bill, seconded by the Hon. the Colonial Surgeon, and the Bill was read a second time.

His Excellency then moved the third reading and passing of the Bill, seconded by the Hon. F. E. Cobb, and the Bill was read a third time and passed.

His Excellency then introduced “An Ordinance to provide for the Insurance of Parcels in the Post,” which he said was framed in consequence of a representation from the Postmaster General, who stated that the system of insurance on parcels from Great Britain to India had already been established, and had worked so satisfactorily that it would probably be established in all the Colonies, and that he was prepared, if this Colony responded, to commence it from the 1st of January, 1891.

Ordinance No. 9 of 1889 would be repealed, but provision was made in Section 2 of the present Ordinance to give compensation for loss or damage of uninsured parcels as in that Ordinance.

His Excellency moved the suspension of the standing Rules and Orders and the first reading of the Bill, this was seconded by the Hon. J. J. Felton, and the Bill was read a first time.

His Excellency then moved the second reading of the Bill, seconded by the Hon. the Colonial Secretary, and the Bill was read a second time.

The Governor then moved the third reading and passing of the Bill, seconded by the Hon. the Colonial Surgeon, and the Bill was read a third time and passed.

The Governor then introduced “An Ordinance for authorizing the Sale and Convey-

ance of certain lands of the Crown to the Falkland Islands Company,” and said: It appears that the object of this Bill is misunderstood, and as it has come to my knowledge that some persons have objected to it, I will before moving the first reading endeavour to explain the circumstances which have led to its introduction.

By the Land Ordinance of 1871 the price of country lands of the Crown is fixed at 4/- per acre, and by Ordinance No. 1 of 1872, lessees of Crown lands are required within ten years from the date of their leases, to purchase 160 acres of land on every section of 6000 acres, and that Ordinance contains a provision that the lessee may at any time during the continuance of the lease, purchase at the upset price of and any further quantity of land comprised in his station. By Ordinance No. 1 of 1879, the price of the land which the lessees were required to purchase was fixed at 2/- an acre.

The price of Crown lands may from time to time be raised or lowered by the Secretary of State.

Most of the leases now in force were granted by Governor D'Arcy in accordance with the provisions of an Ordinance passed in 1870 which gave the lessees the preemptive right of purchase at 2/- an acre. That Ordinance was disallowed, but the lessees were confirmed in the enjoyment of their leases by subsequent Ordinances and for a long time they contended that they had the right to purchase their lands at 2/- an acre. Mr. Blake, Mr. Waldron and others, applied to me for the purchase of their land on those terms, but on my pointing out that they had no such legal right, and that the revenue to be derived from the purchase money at that rate would be less than the rent when raised to £20 a section, they asked me to favour their applications to the Secretary of State for the purchase of their lands at a price which when capitalized would give the same amount of revenue as the £20 rent. This appeared to be as nearly as possible 3/- an acre, and I agreed to forward to the Secretary of State for his consideration any applications which might be made by any of the lessees, for the purchase at that price, of the whole of the land held by them. The first application of this nature was made by the Falkland Islands Company on the 9th September last, which I transmitted to the Secretary of State for his consideration, and he has authorized the sale to be made; but as it would not be expedient to lower the price

of country lands generally to 3/- an acre, which would enable persons to select the best portions of their holdings at that price and reject the valueless land, it has become necessary to pass Ordinances in respect of each sale which is made on these terms to enable the land to be sold at a lower rate than the rate fixed by the Ordinance of 1871. Within the last few days I have received an application from Mr. Bertrand to the Secretary of State for the purchase of his Station at Roy Cove, which will be forwarded in due course, and which when sanctioned will require an Ordinance to enable the sale to be made as in the present case, and so with regard to others who intend to make similar applications.

Previous to the year 1881 all the money received for the sale of Crown Lands had been treated as ordinary revenue, and had been expended in the current service of the Government. In that year I was instructed by the Secretary of State to pass an Ordinance to provide for the renewal of the existing leases at a rental of £10 a section as they respectively expired, in consequence of which I made a full report respecting the Crown Lands, and advised that on the renewal of the leases the rents should be raised to £20 a section, and that all money received from the Land Sales should be capitalized and the interest only be used for current expenditure. I received authority to change the provisions of the Ordinance from £10 to £20, and in that form it was passed as No. 9 of 1882.

Lord Kimberley also approved of my suggestion for capitalizing the proceeds of the sale of Crown Lands, subject to the proviso that the revenue proper to the year in which any sale took place was sufficient to meet the expenditure of the year.

Since that time the proceeds of such sales have not been expended, but are intended to form part of a fund which will produce a sum in aid of revenue equal to that which would have been received in rent had the land not been sold.

The rent of the land now about to be sold to the Falkland Islands Company is at present £226 a year, and if all the leases were renewed it would be £331, while the interest from the purchase money will be £364. In the case of Mr. Bertrand his present rent is £109—if the lease should be renewed it would be £218, and the interest on his purchase money (£9,490) will be £237.

Down to the year 1867 there was not a single settler on the West Falklands. In that year Mr. James Waldron settled on 42,000 acres, and at once expended £10,000 in stocking it with sheep from the River Plate.

At that time the revenue raised in the Colony was only £1000, and of that amount £100 was derived from the sale of Crown Lands, £300 from rent of land, and the rest from Licenses, Auction duties, Wild cattle, and other small receipts. The Imperial Government granted £5875 in aid, besides an expenditure of £1200

by the War Office. In 1869 the whole of the West Falklands was settled, and the revenue from the rents of that Island was £1900—and in 1891 the revenue will be £3457 for the whole Colony. In 1898, when the whole of the rents will have been raised to £20 a section, the revenue from Crown lands will be £5298, and should the lessees purchase the lands on the terms of the proposed Ordinance, the revenue will be still further increased.

It should be a matter of rejoicing to all who have the welfare and prosperity of the Colony at heart, that the settlers on the Crown lands have succeeded, after the expenditure of a large amount of capital and after long years of unremunerative toil, exposure and anxiety, in securing the reward which they deserve, had it been otherwise the Colony would have been in a very miserable condition; as it is, the population since the Colony has been fully settled has increased threefold, employment at good wages has been afforded to a large number of people, and those among them who have been thrifty have saved considerable sums of money, as is evidenced by the large amount deposited in the Government Savings Bank, which now amounts to £20,000, and is regularly increasing, and the fact that many of the industrious shepherds and others are forming grazing Settlements in the neighbouring Republics.

My long term of administration has enabled me to observe accurately the progress which has been and is being made, which, with the opportunities I have had of consulting the records left by my predecessors, enables me to speak with some authority on this question.

I satisfied myself before proposing the increase of the land rent to £20 a section, that it was a fair and just rent for fully stocked stations as shown by the returns to which I had access, and to the statements which were furnished to me, and (looking to the risk attending the price of wool) the calculation of the value of the land in fee at 3/- per acre is in accordance with that rate of rent.

His Excellency then moved the suspension of the standing Rules and Orders and the first reading of the Bill. The Honourable the Colonial Secretary seconded the motion.

The Honourable J. J. Felton moved as an amendment that the following section be added to the Ordinance, which he said applied, as it stood, solely to the Falklands Islands Company.

“Should any other lessee or lessees of country lands of the Crown desire to purchase his or their lands without selection, it shall be lawful for the Governor, with the sanction of one of Her Majesty’s principal Secretaries of State, to sell and convey such lands on the terms hereinbefore provided in the case of the Falkland Islands Company.”

The Honourable F. E. Cobb seconded the motion, and said, he had much pleasure in seconding the amendment proposed by his honourable friend, as it would tend to remove the absurd impression that the Company was specially favoured by the Ordinance; so far

from that being the case he understood that Mr. Blake could have secured the same terms over two years ago. He considered that the policy of selling land outright at a fair value was a proper one, for people would always spend more on their own property than on leased Crown land, however long the leases might be. As an instance of this he said that the Company had ordered the whole of their purchase to be fenced in at once, and that further sub-divisions would follow, thereby leading to the employment of a good deal of labour and doing good all round. No doubt other purchasers would do the same.

The motion was carried without a division and the Bill was amended accordingly.

The Honourable the Colonial Surgeon said there had been a great deal of secrecy about this Bill, which he opposed on the following grounds. First, that the price of four shillings an acre was the proper value of the land, and Second, that the Crown land should not be sold at all. He also said the two unofficial members were interested in the Bill as representing the sheep farmers and he did not see how they could vote in the matter,

His Excellency the Governor reminded the honourable member that the existing law gave the lessees the right of purchase of the land during the term of their leases, and that he had already gone fully into the question of its value, which was a matter for the decision of the Secretary of State.

The Honourable F. E. Cobb said that had this Ordinance been introduced before the sale had been arranged by the Secretary of State, he might as an interested person have felt some hesitation in voting, but as the Ordinance was framed to carry out the Secretary of State's instructions, he looked upon it as a matter of form and would disregard the honourable member's suggestion.

The Council then divided.

For the first reading :

The Hon. the Colonial Secretary.

„ F. E. Cobb.

„ J. J. Felton.

Against :

The Hon. the Colonial Surgeon.

Majority for the first reading of the Bill. 2.
The Bill was then read a first time.

His Excellency then moved the second reading of the Bill, seconded by the Honourable F. E. Cobb, and the Bill was read a second time.

The Honourable the Colonial Secretary moved that the title of the Ordinance be amended by adding the words "and other lessees of the Crown" to the original title.

The Honourable J. J. Felton seconded the motion, which was carried unanimously, and the title of the Bill was amended accordingly.

His Excellency then moved the third reading and passing of the Bill, seconded by the Hon. J. J. Felton, and the Bill was then read a third time and passed.

The Honourable J. J. Felton said that

he hoped the explanatory remarks which His Excellency had addressed to them respecting the Crown lands would be embodied in the minutes of the proceedings.

His Excellency the Governor then said that as the time of his departure from the Colony was drawing near and as in the absence of any immediate necessity for legislation it would probably be the last occasion on which he would meet honourable members in their places, he wished to say a few words before taking leave of them. Although there had on several occasions been differences of opinion between them on public questions, he felt quite sure that in opposing him they were always actuated by honest convictions and motives, and he was certain they gave him credit also for acting according to his views and convictions of right. His sole aim had been the welfare of the Colony and its inhabitants, and it was a matter for which he thought he could justly claim credit that the resources of the Colony had been largely developed during his administration and that the welfare and prosperity of the inhabitants had been increased. It had been his constant wish and endeavour that this end might be attained and he felt sure that he had succeeded in achieving it. No public man, especially the Governor of a Crown Colony such as this one, could expect to escape misrepresentation, but he could afford freely to forgive whoever had maliciously tried to injure him, because he was sensible that they had never been able to do him any harm, and he thought they would probably regret their conduct before they died, or afterwards.

The Honourable F. E. Cobb said, he congratulated his Excellency upon leaving the Colony in a more flourishing condition than it was when he arrived and that although it could not be denied that there had been at times considerable differences of opinion on public matters, and the atmosphere had been much heated on several occasions, he was glad to think that their differences had been confined to public affairs and that he was sure he might say both for the other unofficial member and for himself that they had the greatest respect for his Excellency personally and wished him prolonged life and every happiness in his retirement.

The Honourable J. J. Felton said that he had received every kindness and consideration at His Excellency's hands and that he joined with Mr. Cobb in wishing His Excellency health and prosperity in his retirement.

The Council was then adjourned *sine die*.

The Governor directs attention to the following Government Notice dated, 19th of February, 1886, which was a renewal of similar previous notices to the same effect.

The Governor directs it to be notified that all Memorials or Petitions addressed to him for transmission to the Right Honourable the Secretary of State for the Colonies, must be forwarded to him at least fifteen days before the time of closing the Mail for England, in order that time may be given for the preparation of the report which is required by Rule No. 222 of the Colonial Regulations.

Minutes of a Meeting of the Board of Health of the Falkland Islands held on Saturday the 7th February 1891, at Stanley.

Present:—

The Hon. the Colonial Surgeon, President.

“ “ the Colonial Secretary.

“ “ F. E. Cobb,

“ “ J. J. Felton,

The Chief Constable, Inspector of Nuisances.

The Minutes of the last Meeting were read and confirmed.

The President explained his reasons for calling a Meeting which were to consider what steps should be taken in the case of H. M. S. “Basilisk,” on her return to Stanley from Salvador, in which ship a case of small pox had recently occurred. The President said that after consultation with the Medical Officers of H. M. S. “Cleopatra” and “Beagle,” he was of opinion that it would be proper to isolate the “Basilisk” for a period up to about the 17th instant, when all danger of infection or contagion would in all probability have passed, and that the following Bye Law, if approved by the Governor, would give power to act in this and similar cases.

BYE LAW No. 1.

That whenever on board any ship or vessel which has received pratique from the Health Officer, any contagious or infectious disease shall break out, whilst within the limits of the Colony, it shall be lawful for the Board of Health to take such steps as they may consider necessary for the protection of the Public health by prohibiting communication with the shore or otherwise, for such length of time as in their opinion may be deemed advisable.

Minutes of a Meeting of the Board of Health of the Falkland Islands held on Monday the 9th February, 1891, at Stanley.

Present:—

The Hon. the Colonial Surgeon, President.

“ “ the Colonial Secretary.

“ “ F. E. Cobb.

“ “ J. J. Felton.

The Chief Constable, Inspector of Nuisances.

The minutes of the last Meeting were read and alterations being suggested were amended accordingly.

The President read the following letter which he had received from the Colonial Secretary.

No. 49.

Government Office,
9th February 1891.

Sir.

I have the honour to return to you, approved by the Governor, the Bye Law passed by the Board of Health on the 7th instant.

The President of the
Board of Health.

I have the honour to be,
Sir,

Your obedient servant,

(Signed) FRED. SHEDDEN SANGUINETTI,
Ag. Colonial Secretary.

The Colonial Secretary said the Bye Law having now been approved, it remains for the Board to determine how long H. M. S. “Basilisk” shall be isolated on her arrival in Stanley.

The President said he should be entirely guided by the report of the Medical Officer on board that vessel.

A discussion ensued as to the necessity of isolating the vessel for any lengthened period, but it was the opinion of the President that risk of contagion existed for fourteen days after a patient's convalescence from small pox. It was therefore determined to keep the ship isolated until the 16th of the month, if on her arrival there should be found no symptoms of disease on board.

The Colonial Secretary requested it to be placed on the minutes, that in assenting to the proposal to isolate the “Basilisk” for so long a period he deferred to the professional opinion of the President.

S. HAMILTON,
President.

The Governor directs the publication for the information of Sheep Farmers and persons in the Colony interested in sheep farming, of the following Circular letter which has been addressed to the Sheep Farmers on the subject of Scab in sheep, together with a précis of the replies which have been received on the subject.

Government Office,
Stanley, Falkland Islands,
September 1890.

Sir.

I am desired by the Governor to forward to you a copy of a draft Ordinance, see next page, which it has been proposed shall be enacted in this Colony, dealing with the subject of Scab in Sheep and I am to invite an expression of your opinion as to the expediency of the proposed legislation, (1) in general and (2) as regards the specific clauses of the Draft Bill.

I have the honour to be,

Sir,

Your obedient Servant,

FRED. SHEDDEN SANGUINETTI,
Ag. Colonial Secretary.

Précis of REPLIES.

Falkland Islands
Co.'s. Manager.

Having assisted in drafting the proposed Ordinance thinks it unnecessary to give an opinion regarding its specific clauses, beyond saying that in Clause 4 and Section 5, b. & c., to adopt a period of 12 months for the season, that it is possible for the disease to lie dormant over six months and not show itself until the Autumn rains come on.

Though formerly opposed to further legislation on the subject is reluctantly obliged to say that he now considers nothing but a stringent act will be efficacious. Some farmers do not employ hands enough to make a clean muster of their sheep. Points out the effect of this and the effect of an opposite policy on the part of the Company. What the Company have done others can do. Thinks the proposed Ordinance will merely serve to open the question, but in itself it will be powerless to stop the evil.

Illustrates by the example of legislation in the Australian and other Colonies that scab can be stamped out in this Colony, and expresses surprise why it should be allowed to exist year after year for want of it.

Bertrand W. W.
Roy Cove Station.

Is entirely opposed to the terms of the proposed Ordinance, thinking them prejudicial to the interests of the farmers for certain reasons, viz.

1 & 2. Fencing Ordinance should precede it, as it is impossible with the best shepherding to prevent sheep from straying upon an adjoining Station.

3. A driving Clause absolutely necessary to be inserted in the present Sheep Ordinance, subject to certain conditions for mutual protection, and in this connection points out the power which the existing Sheep Ordinance gives to neighbours to boycott one another and ruin the promising trade in frozen mutton which has lately sprung up.

(To be continued.)

Draft of a proposed Ordinance to amend the Sheep Ordinance, 1867.

Preamble.

WHEREAS it is expedient to extend and amend the Sheep Ordinance No. 3 of 1867.

Be it enacted &c., as follows :—

Title.

1. This Ordinance may be cited as "The Sheep Ordinance Amendment Ordinance 1890."

Governor to make regulations.

2. It shall be lawful for the Governor in Council from time to time, by Proclamation, to make such regulations as he may consider necessary or expedient for the eradication of scab in sheep.

Amendment of Ordinance No. 3 of 1867, clause 2.

3. Clause 2 of Ordinance No 3 of 1867 shall be amended by adding to it as it stands the words "for every sheep so driven, depastured, or suffered to be at large."

Construction of words "infected sheep."

4. In the construction of this Ordinance "infected sheep" shall mean—

(a) Any sheep infected with scab.

(b) Any sheep which have within the preceding $\left\{ \begin{array}{c} 3 \\ 6 \\ 12 \end{array} \right\}$

months been in direct or indirect contact with any sheep so infected.

(c) Any sheep which have been infected and dipped

within a period of $\left\{ \begin{array}{c} 3 \\ 6 \\ 12 \end{array} \right\}$

months after such dipping.

Notice of infection to be given by owners of sheep.

5. Whenever the owner of any sheep shall be or shall become aware or shall have reasonable grounds to suspect that the same are or have become infected with scab, he shall within seven days thereafter give personal notice thereof in writing, with particulars as to where such infected sheep are running, to the owners or managers or all the adjoining runs, and shall also by the first opportunity give the same notice and particulars to the Governor. Any person offending against the provisions of this clause shall, for every case in which he shall fail to give the prescribed notices, be liable to a penalty of not less than £10 nor exceeding £50.

FRED. SHEDDEN SANGUINETTI,
Ag. Postmaster.

The Governor directs the publication for the information of Sheep Farmers and persons in the Colony interested in sheep farming, of the following Circular letter which has been addressed to the Sheep Farmers on the subject of Scab in sheep, together with a précis of the replies which have been received on the subject.

Précis of replies to Circular letter dated 26th September 1890, from the Colonial Secretary to Sheep Farmers on the subject of proposed legislation in the matter of Scab in Sheep.

(Continued from the Gazette of 12th February 1891.)

Birch. T. S.
Wyrley.

Is of opinion that no law to be effectual in the matter of eradicating Scab can be so unless no owner or occupier of land shall be able to give his consent to infected sheep crossing his land.

Draws an example between a Small Pox patient landed in Stanley and a farmer giving his consent to infected sheep crossing his land surrounded by neighbours.

Is of opinion that a time should be fixed, and after that date no person should be allowed to move any of his flock over another's land on any pretext if he have any infected sheep in his flocks.

Prosecutions for infringement of any Ordinance should be directed by the Governor and in no way left for one farmer to institute against another.

Blake. Robert

Having again and again urged Government to take the matter up, is in favour of anything and everything which may tend to help the eradication of Scab.

Thinks the proposed alterations very insufficient, but they are nevertheless steps in the right direction.

Never work "underhanded" or it is impossible to gather the sheep clean off the ground and Scab is ever present.

Pressure must be brought to bear on people utterly careless of their neighbour's weal, or Scab will never be stamped out.

Refers to the example of the Australian Colonies, and some instances in the Falklands, where isolation has been followed by immunity from Scab.

Thinks if a flock be declared Scabby a period of twelve months ought to elapse before that flock can be safely declared clean.]

Mr. Blake further observes, "every flock master knows, that in "the summer very little scab is apparent in sheep, but as soon as the "winter sets in, or even at the close of a wet autumn, the sheep begin "to break, and it depends entirely on the season how soon they "break out, how quickly the disease spreads. Sheep then get a "winter dip, in June or July, this, if properly applied, checks the "spread of the disease, no scab, or hardly any, shows at the following "shearing. That flock is almost certain to break again the following "winter; if it passes through the winter without an outbreak it may "be declared clean."

No man with any experience, would dare give a lean certificate, during the first six months of the year, to a flock that had been dipped for scab during the previous winter.

What some farmers have done in these Islands, in the way of cleaning their stock, others can do.

Cannot comprehend why scab should be allowed to exist here when in other places stringent laws are in existence to stamp it out.

Speaks of a great loss by winter dipping and hopes that the matter will be taken up for legislation. Will do all he can to that end.

Dettleff. William

Is of opinion that Ordinance No. 3 of 1867 has been successful till now and needs no amendment.

Thinks clauses 3 & 4 of the proposed Ordinance would be very hurtful, as farmers have tried varieties of sheep dip and have gone to expenses. The Monopolists would have great advantage over small farmers.

Buckworth.

Considers Section 2 quite unnecessary.

Russell H.

Section 3 is good and cannot well be improved upon.

Section 4 is also good and highly necessary.

(a) should stand.

(b) should be 2 months, and taking out the words "or indirect" in the 2nd line, as indirect would apply from one end of the Island to the other.

The rest of (b) is good.

(c) is also good and should be six months.

Section 5 very good indeed.

Felton. J. J.

The Hon.

Does not think it advisable to alter the existing law by the addition of the proposed amendments.

The unfenced state of many of the boundaries and the boundaries themselves being still matters of question and dispute, make it certain that the proposed alterations would lead to constant disputes and litigation.

States that a new enterprise for the export of frozen mutton has been started at great expense by Messrs. Spearing & Waldron, who are now about to put up works at San Carlos, to enable farmers upon the East to co-operate with them, and who were guaranteed a sufficient quantity of sheep for a term of years, to be delivered at Port Howard and San Carlos, and that the effects of the proposed amendments must be considered in connection with this trade. The proposed amendments would place two or three parties in a position to debar others from obtaining a profitable outlet for surplus stock, or to carry out their arrangements to supply stock for freezing purposes.

The addition of clause 5, and a modified portion of some of the preceding clauses might be of advantage, also the compulsory registration of ear marks and brands, the killing of stray sheep, a right to drive sheep from infected runs through infected runs, &c.

Thinks however that as most of the leases expire next year and as an Ordinance has only lately been passed enabling Lessees to purchase their land, all proposed amendments had better be deferred until boundaries are clearly defined, fresh leases renewed, or arrangements for purchase made.

Going. J. A.

Is of opinion that no fresh legislation on the subject of scab is required.

Scab would be a thing of the past if section 1 of Sheep Ordinance No. 3 of 1867 were rigidly carried out.

Only flaw in that section is a doubt as to the exact meaning of "herded by a shepherd."

Hennah. Henry H.

Does not think there is any need for any such Ordinance provided the Sheep Ordinance of 1867 be rigidly enforced.

Packe. Vere

Thinks the proposed amendment would be very beneficial. At same time thinks a fence law would be more so, making each farmer fence his boundary, or put up so much fencing every year till this is done. It would enable flocks to be more separated, and so to a great extent check scab from spreading.

Fine of £50 in clause 3 for every sheep will be heavy on those who have no boundary fence, as it is impossible to keep sheep from intermixing to a certain extent, without a fence.

Clause 4 (b). Persons ought to be able to tell if sheep are infected six months after direct or indirect contact with infected sheep.

In his opinion sheep infected with scab and dipped cannot be guaranteed clean under 12 months after dipping.

Clause 5. Thinks any farmer could comply with this Clause.

Smith. James

Is of opinion that the present flourishing position of most of the farmers is a proof that the Sheep Ordinance 3 of 1867 is quite sufficient to meet all requirements for the suppression and extinction of Scab.

Thinks Clauses 3 & 4 of proposed Ordinance would be very hurtful to the smaller farmers and would tend to strengthen the already strong monopoly.

Suggests that if possible Ordinance No. 4 of 1870 be strictly adhered to.

Stickney. Bernard

Thinks it is absolutely necessary for the good of the Colony that there should be a Scab Ordinance, and that the Sheep Ordinance No. 3 of 1867, with the amendments attached to Clause 2 in the proposed Ordinance, will be a great improvement. Then the Ordinance will be quite severe enough, and a very good one for a small Colony like this, without any further addition.

As to the construction of words "infected sheep," is of opinion this should mean

(a) Any sheep infected with scab.

(b) Any sheep which have been in contact with any sheep so infected until the flock have been dipped.

(c) Any sheep which have been infected and dipped within a period of twelve months.

Respecting the specific Clauses of the proposed Bill, thinks Clause 5 should most decidedly be inserted.

Stickney. Bros.

Are pleased to see a move has been made at last, and with the opinions of all the Sheep Farmers before Government something ought to be done to protect those who have cleaned their flocks.

Their opinions on the specific Clauses of Bill are

Clause 3. A penalty of £1 sterling per head. When it is known that a neighbour has scab on his station a Farmer should be allowed to seize, kill, and burn any quantity of such neighbour's sheep found at large on his land in addition to the penalty.

Clause 4. Sheep that have been in contact with scab, can by an experienced man be declared clean after six months.

(c) Sheep that have been infected with scab, or Station that has had scab on it, cannot be declared clean within twelve months.

Waldron. Henry.

Remarks—1. A Stringent Sheep Ordinance is necessary to the future prosperity of the Colony.

2. (b & c) in Clause 4 of proposed Bill do not go far enough. What about a neighbour wilfully driving scabby sheep through a neighbour's clean flocks?

Some Clauses of the Canterbury, (New Zealand) Sheep Act would be desirable. Compulsory curing of scab is necessary.

The following Notice to Mariners published on the 1st of January last, by the Board of Trade, relating to Navigation in the neighbourhood of the Falkland Islands, is published for their information.

FALKLAND ISLANDS.**CAUTION TO MARINERS.—CURRENTS.—**

Mariners are warned that during and after long continued S.-Ely. gales, when a heavy sea is rolling in on the S. and S.E. coasts of the Falkland Islands, there is stated to be a strong set to the N.-Wrd., to which set has been attributed the loss of several vessels in the neighbourhood of Bull Point. Vessels from Cape Horn, therefore, intending to sight Beauchère Island, should make due allowance against a possible set of 20 to 30 miles a day to the N.-Wrd.

JASON ISLANDS.—During March 1890, a patch of kelp (always indicative of a rocky bottom and often of a hidden danger) about $\frac{1}{2}$ mile in extent, is reported to have been passed in P.D., 50° 53 $\frac{1}{4}$ ' S., 61° 16 $\frac{3}{4}$ ' W., Nrd., of the Islands, with the W., end of Steeple Jason, approx. S.E. by S. $\frac{1}{2}$ S., 7 to 8 miles. At the time of passing, the wind was N.Ely. strong, with a rough sea, but no breakers were seen; it was estimated to be slack water, and that the kelp would be under water when the tidal stream (which in this locality attains considerable velocity) is running. *December.*

The following Notice to Mariners published on the 1st of January last, by the Board of Trade, relating to Navigation in the neighbourhood of the Falkland Islands, is published for their information.

FALKLAND ISLANDS.

CAUTION TO MARINERS.—CURRENTS.—Mariners are warned that during and after long continued S.-Ely. gales, when a heavy sea is rolling in on the S. and S.E. coasts of the Falkland Islands, there is stated to be a strong set to the N.-Wrd., to which set has been attributed the loss of several vessels in the neighbourhood of Bull Point. Vessels from Cape Horn, therefore, intending to sight Beauchêre Island, should make due allowance against a possible set of 20 to 30 miles a day to the N.-Wrd.

JASON ISLANDS.—During March 1890, a patch of kelp (always indicative of a rocky bottom and often of a hidden danger) about $\frac{1}{2}$ mile in extent, is reported to have been passed in P.D., 50° 53 $\frac{1}{4}$ ' S., 61° 16 $\frac{3}{4}$ ' W., Nrd., of the Islands, with the W., end of Steeple Jason, approx. S.E. by S. $\frac{1}{2}$ S., 7 to 8 miles. At the time of passing, the wind was N.Ely. strong, with a rough sea, but no breakers were seen; it was estimated to be slack water, and that the kelp would be under water when the tidal stream (which in this locality attains considerable velocity) is running. *December.*

Government Office,
25th February, 1891.

Persons are hereby forbidden to land on the Government Water Jetty, which is only capable of sustaining the pipes which run along it, and is not meant for a landing place.

The Governor, after consultation with the Executive Council, directs the publication for the information of Land-holders of the following draft Fencing Ordinance, which it is considered would be advantageously applicable in this Colony before any further consideration of a Scab Ordinance.

An Ordinance to provide for the construction of Dividing Fences.

WHEREAS it is expedient that Dividing Fences should be constructed by the occupiers of adjoining pastoral lands at the joint expense of such occupiers.

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council; as follows:—

Title of Ordinance.

1. This Ordinance shall be called and may be cited as "*The Fences Ordinance 1891*," and shall come into operation on the first day of January one-thousand eight-hundred and ninety-two, and shall be divided into Parts, as follows:—

Part I.—Introduction.

Part II.—Construction of Dividing Fences.

Part III.—Maintenance and repairs of Fences.

Part IV.—Proceedings for the Recovery of Contributions.

Part V.—General Provisions.

PART I. Introduction.

Interpretation of terms.

2, In the construction of this Ordinance the following words and expressions shall, unless there be something on the context repugnant to such construction have the several meanings hereby assigned to them:—

"Justices." Wherever the words justices appear in this Ordinance they shall respectively be deemed to mean three justices of the peace.

"Occupier." Shall include any person who is in the actual occupation of or entitled as owner to occupy any land alienated from the Crown by grant, lease or license, but shall not mean or include any person in the occupation of land held by yearly license, or for any term less than ten years.

"Dividing Fence shall mean a fence separating the lands of different occupiers.

Sufficient fence.

3. Any fence of any of the kinds hereinafter mentioned and described shall be a sufficient fence within the meaning of this Ordinance,

(1). A post and rail fence at least three feet six inches in height of substantial material firmly erected, with no greater distance between the rails or the bottom rail and the ground than one foot. unless there be a wire inserted between the rails and the posts not more than nine feet asunder.

(II). A substantial paling fence at least three feet six inches in height, with no greater distance between the palings than four inches.

(III). A substantial wire fence at least three feet three inches in height, having not less than six wires tightly stretched, with no greater distance between each of the three lowest wires, or the bottom wire and the ground than $5\frac{1}{2}$ inches, and the posts or standards of which are not more than 20 yards apart with intermediate iron or wooden droppers or swingers between them, securely bound to the wires, not more than six feet apart and with not less than six straining posts to the mile.

(IV). A bank or wall of substantial materials at least four feet in height and not less than two feet wide at the bottom and nine inches at the top.

(V). A combination of any of the above mentioned fences at least four feet in height.

Part II. Construction of Dividing Fences.

4. The occupiers of adjoining lands not divided by a sufficient fence shall be liable to join in or contribute to the construction of a dividing fence between such lands in equal proportions.

5. When a river, creek or natural watercourse forms the boundary of contiguous lands, but is not capable of resisting the trespass of cattle, it shall be competent for the occupants of such contiguous lands to agree upon such a line of fence on either side of such river, creek or natural watercourse, as shall secure such fence from the action of floods, and in the event of their not agreeing upon a line of fence it shall be competent for either party to call on the nearest justices they may agree to select, who shall determine the line of fence to be erected, and decide whether any and what compensation in the shape of an annual payment shall be paid to either of the parties occupying such contiguous lands in consideration of loss of occupation of land, and the justices so called in shall be entitled to receive from such occupiers in equal proportions the actual cost of their travelling expenses (if any) incurred by them in visiting and inspecting the ground: But the occupation of lands on either side of such line of fence shall not be deemed adverse possession, and shall not affect the title to or the possession of any such lands save for the purposes of this Ordinance.

6. Any person desiring to compel any other person to contribute to the construction of a dividing fence under the provisions of this Ordinance may serve on such person a notice to fence, which shall be in writing or in print, or partly in writing and partly in print, and shall specify the boundary to be fenced and contain a proposal for fencing the same, and shall specify the kind of fence proposed to be constructed.

Liability of occupiers of adjoining lands to fence.

When river, &c., natural boundary, power to agree on line of fence.

Service of notice to fence.

Proceeding in default
of agreement consequent
on notice of fence.

7. If within one month after the service of any notice to fence, the person serving and the person served with such notice do not agree as to the construction and kind of a fence, any three justices on the complaint of either of them may make an order prescribing the kind of fence to be constructed, and what portion thereof shall be constructed by each such person, and in cases where such further order is necessary the position of such fence, or may refer the determination of the matters to be prescribed by such order to the award of some arbitrator who shall be appointed by an order of such justices, and the award of such arbitrator shall have the same effect as, and be deemed an order of justices, and in case and as often as any arbitrator so appointed die, or neglect, decline, or become incapable to act, any three or more justices may appoint another arbitrator in his place, who shall have the like powers and duties: Provided that in making any such order or award the justices or arbitrator, as the case may be, shall be guided as to which of the kinds of fence hereinbefore described, such justices or arbitrator shall order or award to be constructed by the kind of fence usually constructed in the place where it is proposed to erect such fence.

Proceeding on failure
to carry out agreement
or order of justices.

8. If the person serving and the person served with such notice agree as to the construction of such fence, or if in default of such agreement an order of justices or an award of an arbitrator is made as aforesaid, and in either case either of such persons fail within the time named in that behalf in such agreement, order or award, or if no such time be named within three months after the date of such agreement, order or award, to perform his part of such agreement or to comply with such order or award, then the other of such persons may construct the whole fence as agreed upon or prescribed by such order or award, and may recover half the cost of constructing the same in any court of competent jurisdiction.

Government Office,
24th August, 1891.

The Governor directs the publication of the following Report of the Commission on Scab, with His Excellency's reply thereto

By Command.

FRED. SHEDDEN SANGUINETTI,
Ag. Colonial Secretary.

We have the honour to inform your Excellency that in accordance with the terms of your Commission we have made inquiry as to the desirability or otherwise, of legislation for the eradication of Scab.

2. To facilitate the taking of evidence, a list of questions was drawn up by the Commission, which list we beg to hand your Excellency herewith.

3. We have the honour to transmit herewith a full report as to the names of the witnesses examined before the Commission and of their evidence.

4. We, the Members of the Commission, beg to make the following recommendations; from the weight of evidence taken and in our opinion, a Scab Ordinance is necessary, in the interests of the staple industry of the Colony.

As a Scab Ordinance is wanted as soon as possible, and in order to make it effective, legislation for fencing is also required, the two matters should be embodied in one Ordinance.

The present arrangements for the erection of boundary fences having so far worked satisfactorily and without friction, and as there can be no question, but that the expense and delay occasioned by a survey would be prejudicial to the eradication of Scab, a general survey as a preliminary to a Fencing Ordinance is unnecessary.

(Rider). (President.) I dissent from the conclusion to question (3) as the positions of the fences cannot be defined unless boundaries are established, and much additional expense to the Colony would be entailed in most cases.

SUB HEADS.

It is the general view of the witnesses examined, that the machinery for working a joint Fencing and Scab Ordinance should consist of a Board of practical men for each main Island.

That infected sheep shall mean any sheep infected with Scab, any sheep which have been infected, or exposed to infection, until a clean certificate shall have been granted for the same by the Board.

That there should be a penalty on owners who fail to clean their sheep within a reasonable time—such time to be left to the discretion of the Board.

That in the event of an outbreak of Scab written notice shall be sent at once to neighbours, Board and Governor, and Gazetted.

It is practically the universal opinion that persons should be punished by penal servitude for wilfully communicating Scab, and by a fine in case of negligence.

That Station earmarks should be registered, that imported sheep should be quarantined at the discretion of the Board. That the Board should draw up Bye-Laws and Regulations for driving clean or infected sheep, and for the quarantining of infected sheep and for other matters.

That straying infected sheep should be killed and buried, or burnt. As regards the definition of a Sheep-proof fence, it is the opinion of the Commission, borne out by the evidence, that it will be sufficient if it is passed as Sheep-proof by the Board.

The Commission is further of opinion that where a Farmer is unable to bear the cost of putting up a boundary fence, the adjoining occupier should be entitled to do so, and recover half the cost, such repayment to be spread over a period not exceeding five years, the unpaid balances bearing interest at a rate not exceeding 7½ o/o.

(Rider). (President.) I think that the rate should not exceed 5 o/o.

The Commission are of opinion that the Board should have full powers to order the erection of Sheep-proof paddock fences if necessary in their judgment for the eradication of Scab.

That existing boundary fences should be kept in repair at joint expense.

5. The Commission beg permission to state that in their opinion one of the chief reasons why Scab is still so general in the Falkland Islands is, that Farmers, either from want of means or of knowledge, have attempted to carry on the work of their Stations with too few hands.

6. The Members of the Commission would have been glad to make recommendations in detail to your Excellency on the numerous complicated points included in a Scab Ordinance, and regret that their President has ruled that, as their recommendations were in the form of a draft Scab Ordinance, to do so is not within the scope of their Commission but they will on a future occasion be happy to place their experience at your Excellency's disposal.

7. We trust that your Excellency will see your way to give effect to the recommendations of the Commission, and, by furthering legislation that would help the Farmers to eradicate Scab, take a course which will tend to increase the production of wool and improve the resources of the Colony.

All of which we respectfully submit.

President,

Stanley,
11th August, 1891.

List of questions referred to in paragraph 2.

1. Is a Scab Ordinance necessary?
2. Is a fencing order to precede or follow, or be embodied in a Scab Ordinance.

Sub. Heads.

Should a Board or Inspector be appointed?

What is a satisfactory definition of infected sheep?

Should infected sheep be quarantined or isolated till clean?

Should owners be punished who fail to clean their sheep in a reasonable time?
How should clean and infected sheep be classified?

Should notice (in the event of an outbreak) be given to the Governor, the Board and neighbours?

Should any one be punished who shall wilfully, or by negligence, communicate Scab?

Should the earmarks be registered?

Should Imported sheep be quarantined?

Should there be regulations for travel-sheep?

Should straying infected sheep be butchered?

Will you be satisfied as to the definition of a sheep proof fence if any fence is passed as sheep proof which is so considered by the authority under the Act?

Where the farmer is unable to bear the cost, should the adjoining occupier be permitted to put up the fence and charge interest on half the cost?

What interest should he charge?

Should the authority under the Ordinance have power to order the erection of paddock fences if necessary for the eradication of Scab?

Should existing boundary fences be kept in repair at joint expense, and should there not be a means of enforcing this?

4. Is a survey necessary as a preliminary to a Fencing Ordinance.

The following Bye-Laws were then passed unanimously.

Bye-Laws and Regulations made under Section 3 of Board of Health Ordinance No. 1 of 1886 and Section 2 Board of Health Ordinance No. 3 of 1891.

1. Before the erection of any new building shall be commenced, plans of the same shall be submitted to the Board of Health, with particulars as to water closets, earth closets, ash-pits and cesspools, together with a statement of the proposed drainage.

Before any alteration contemplated to be made with regard to any of the subjects of which the particulars are as above required shall be commenced, the alteration so proposed must have been sanctioned by the Board of Health.

2. Every occupier of a tenement shall be bound to protect the water supply attached to the building in such a way as may be considered necessary by the Board of Health, to secure the utmost purity possible. The owner or occupier of any premises shall be required to keep in a thorough state of cleanliness and repair all water-courses, open ditches, or gutters upon his premises, and to prevent the accumulation of noxious matter, by the removal thereof to any place of deposit to which the Board of Health may order.

3. All fowl-houses, fowl-coops, pig-stys, or any buildings in which animals are kept, must be placed in such position as to the Board of Health may seem best for the prevention of a nuisance, and the protection of the inhabitants of the neighbourhood.

4. Until a proper hospital or building has been provided, to which cases of contagious or infectious diseases can be removed, every person on whose premises any case of a disease of a contagious

person to adopt for the purpose of preventing the spread of such contagious or infectious disease. If the Board of Health consider it necessary to order the burning or destroying of any articles in order to prevent the spread of any disease, the owner of such articles shall be entitled to recover compensation not exceeding the sum of five pounds (£5), by order of the Board of Health, with the sanction of the Governor in Council.

5. Before any building intended to be used as a Slaughter house can be erected or converted into such, the Board of Health must have submitted to it, for approval, a statement detailing the position of such building, and must be satisfied of the necessity for the same, and may withhold or grant its sanction under such regulations as may be considered necessary.

6. Before any person intending to carry on any noxious or offensive trade, as that of a soap-boiler, tallow-melter, or such like, shall commence to take steps for the starting such trade, it shall be necessary for such person to obtain in writing the sanction of the Board of Health, and the Board of Health taking into consideration the district in which it is proposed to carry on such trade, shall have power to define what is a noxious or offensive trade, and shall satisfy themselves before granting such sanction, that every precaution is taken to prevent any noxious exhalations from chimneys and such like.

7. Before any markets shall be held the Board of Health must first approve of the same, and sanction some place for the holding of such markets, and such markets shall be conducted under rules and regulations to be issued by the Board of Health at the time of giving its sanction.

8. If it shall become necessary to alter in any way the existing Burial Grounds, or to lay out any new Burial Grounds, the alterations or laying out of the same, as the case may be, must be submitted by the Burial Board or Committee of Management to the Board of Health for its approval, the same to be submitted to the Governor in Council for his approval.

9. All lots lying to the Westward of the boundary of the Cemetery, extending Westward to the Government Reservoir, North to the Sea shore, and South facing the North of Fitzroy road, also including all Pensioners allotments, whether occupied or not, must be carefully fenced in by a substantial fence, the sufficiency of which shall be determined by the Board, and the owner or occupier shall be required to keep such fence in repair. Every owner or occupier must see to the cleanliness of the lot occupied by him, and it shall be competent for the Board of Health to inspect any lot, and to cause any removal of any nuisance found to exist. If any person fail to comply with the requirements of any of the above Bye-Laws or Regulations, or any hereafter to be made, or neglect to carry out any orders issued by the Board of Health, such offender shall be liable for each time of offending, to such fine not exceeding five pounds (£5) or term of imprisonment, as the Court may determine.

The President then brought to the notice of the Board that the Government hulk and jetty were an eyesore to the place and dangerous to life; already one man had been drowned in the hulk and another had had his leg broken, he said that by making this report the Government might take the necessary steps to remove the hulk.

Mr. Felton thought the hulk, though an eyesore, was not detrimental to health.

Then there were the hulks of the Falkland Islands Company, which are injurious to health, owing to the offensive smell emanating from them at low water. Also the roadway in front of the Company's lower Store was in a most unsatisfactory state.

Mr. Smith said, to his knowledge, the hulk "Snow Squall" was considered a receptacle for filth of all kinds, also the cellars under the Store were in a filthy state after any heavy wet weather.

Mr. Felton thought it would be impossible to remove the inner hulk totally, it could partly be blown to pieces, but still sufficient would be left to be a danger to boats, &c., what he thought could be done was to cut it down to the level of the jetty.

The President said he thought the Company should be informed of what is required to be done for sanitation.

The Inspector was directed to inspect the hulk "Snow Squall," and corners of the jetties, and if he found a nuisance to act accor-

The following Circular of Enquiry emanating from the Privy Council of the Dominion of Canada, relative to the habits of Fur Seals, has been forwarded to His Excellency the Governor through the Secretary of State for the Colonies.

His Excellency will be much obliged if those in a position to do so, will send in particulars of their knowledge and experience in this matter to this Office as soon as practicable, in order that the result of the Enquiry may be communicated to Lord Knutsford at an early date.

By Command.
FRED. SHEDDEN SANGUINETTI,
Ag. Colonial Secretary.

CIRCULAR of ENQUIRY.

The Department of Fisheries of the Dominion of Canada, in connection with questions relating to the Fur Seal Fishery of the North Pacific, is desirous of obtaining all possible information relating to the Fur Seal Fisheries of the Southern Hemisphere. The Southern Fur Seal or "Sea bear" (of the family of eared seals, *vr. Otariidae*) is known to have formed the object of an important industry in the early part of the present century, but the Islands on which it once abounded are now reported, and believed to be, almost entirely depleted of Seals. As the habits and life history of the Fur Seal of the North Pacific Ocean appear to be closely similar to those of the allied Seals of

the Southern Hemisphere, it is thought probable that the history of the decline of the Southern Fisheries may afford some facts having a direct bearing on the Fur Seal Fisheries of the North Pacific, and may serve to indicate a proper mode of protection to be accorded to these fisheries, if such should be found necessary.

In this connection it would be of practical interest to know for each of the Seal Islands, or Sealing grounds of the Southern Hemisphere:—

(1). Whether the decline or destruction of the Fishery is attributable to the slaughter of the Seals while on shore at their breeding places, or to their pursuit at large on the circumjacent Ocean.

(2). In what manner the Fur Seal Fishery has been, or is conducted in each particular locality.

(3). Whether any, and if any, what measures have been taken by various Governments toward the protection of the Fur Seal Fisheries in their territories, or in places within their jurisdiction: and further, if any such measures are known to have proved successful in preserving or re-habilitating the Fisheries

(4). Generally any particulars as to the life history of the animal, its migrations, season of bringing forth its young, and habits of the Seals while engaged in suckling and rearing the young.

It is also particularly requested that copies of any printed documents or reports referring to the Fur Seal Fisheries, or embodying Regulations provided for these fisheries may be furnished.

By Command,
FRED. SHEDDEN SANGUINETTI,
Ag. Colonial Secretary.

At a Meeting of the Board of Health held on Saturday, the 14th September, 1891.

Present: The Honourable the Colonial Surgeon, President.

“ “ The Acting Colonial Secretary,

“ “ J. J. Felton.

The Reverend P. J. O'Grady.

The Inspector of Nuisances was in attendance.

Mr. J. Smith through illness was unable to attend.

The Minutes of last Meeting were read.

Attention was called by Mr. Felton to Rule No. 9 of the Regulations and Bye-Laws, and the following Amendment suggested. “That the word “Cottage” be placed between the words “Pensioners” and “Allotment,” which was agreed to.

The President said that he had summoned the Members for two reasons :

1st. That he had received an application from the United States Consul, to know if the Board would give permission to exhume the body of the late Captain Carver, who died of heart disease on board the wreck “St. Mary,” on the 12th August, 1890.

He, the President, thought there could be no danger, if a leaden coffin were provided ready in which to place the remains for transit to the vessel which was to convey it away.

The Colonial Secretary thought the remains should be disinterred in the early hours of the morning, and everything should be under the supervision of the Colonial Surgeon and the Police.

The Board concurred and sanctioned the removal of the remains with the necessary precautions.

The President stated secondly that a large amount of rubbish had been gathered from the Falkland Islands Company's back yard and premises, and that the Company wished to know where they were to deposit it. He understood that His Excellency had given permission for it to be placed along the sea wall, to the Westward of the Reservoir Jetty.

It was considered that this would be a proper place of deposit; but it was conditional that the rubbish should be rammed down to the satisfaction of the Inspector of Nuisances.

The Inspector then asked if he should serve notices on those parties who had not begun to fence in, according to the Bye-Law,

It was considered proper that time should be given; meanwhile that persons should be warned of their obligations in this respect.

The Hon. J. J. Felton then moved the following :

ADVICE.

No Camp dogs should on any account be brought into Stanley or vice versa.

All dogs suspected of having Distemper should be kept apart from healthy dogs.

Every dog should be given sulphur, even if distemper has not declared itself.

Should the disease be manifest Cod Liver Oil should be given at least three times a day, (half a wine glass-full as a dose.)

Sulphur should always be put in the drinking water.

Should the dog show symptoms of failing, Liebig's Extract of Meat may be given with great advantage. A small lump placed in a bit of tissue paper and put down the throat as a pill.

The excreta should be carefully cleaned away and disinfected with Carbolic or Little's dip.

And when a number of dogs are affected it should be the special duty of one man to attend upon them.

When Liebig cannot be obtained strong beef tea should be given, the disease having such a lowering tendency. The great object in view should be to support the powers of life.

Whereas it has been brought to my knowledge that certain cases of the disease common to Dogs and known as Distemper have occurred in this Colony, I, Roger Tuckfield Goldsworthy, Knight Commander of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander in Chief of the Falkland Islands and their Dependencies, with the advice and consent of the Executive Council, do hereby order that for the purpose of preventing the spread of the said disease, the owner of any dog showing evidence of distemper, do from this date restrain such dog from straying from off the premises of said Owner.

2. Any dog found straying whilst appearing to be suffering from Distemper, shall be seized, and on certification by the Colonial Surgeon that it is so suffering, and that it is necessary in order to prevent the spread of said disease, such dog may be ordered to be destroyed.

3. This Order shall take effect from this date and remain in force until such time as I, with consent of my Executive Council, shall deem it expedient to revoke it.

Given under my hand and the Public Seal of this Colony at Government House, Stanley, Falkland Islands, this 4th day of December, A.D. 1891.

The Governor directs the publication for general information of a despatch which His Excellency has received from the Right Honourable the Secretary of State for the Colonies regarding a survey of the Crown Lands of the Colony and the terms upon which renewals of Leases will be granted.

By Command.

FRED. SHEDDEN SANGUINETTI,
Ag. Colonial Secretary

Downing Street,
26th September, 1891.

Sir.

I have the honour to acknowledge the receipt of your Despatches No. 65 of the 15th of May, No. 81 of the 23rd of June and No. 102 of the 23rd July, on the subject of the subject of the leases held by the sheep farmers, and the necessity for a survey of the Colony.

2. There appear to be good grounds for believing that in the leases and grants of Crown land the area of the land leased and granted has been very considerably understated, and that consequently the lessees and purchasers have occupied more land than could be lawfully leased or granted to them for the rent and purchase money which they have paid.

3. If this be so, I do not think that the lessees and grantees, or those who derive title through them, can claim to retain the advantage which they have derived contrary to the law through the mistake of the Government Surveyor, although that mistake has been allowed to remain uncorrected for many years.

4. I am opinion therefore that a survey of the Colony is required and I am in communication with the Crown Agents for the Colonies as to obtaining the services of a Surveyor and the requisite staff for that purpose.

5. Should the survey prove such errors to have been made in all or any of the leases and grants as are alleged, I consider that the lessees or grantees should have the option of either retaining (subject to the conditions of the leases or grants and to the provisions of the Ordinances) the whole of the land comprised within the boundaries described in the leases or grants on payment of additional rent or additional purchase money for any excess of acreage which may be found on survey to exist over the acreage stated in the leases or grants, or of having the boundaries of their land readjusted so as to reduce it to the acreage so stated. Such readjustment which would be a matter of some difficulty should be made either by agreement or by some impartial Commissioner, or Arbitrator to be appointed by the Judge.

6. In any case however, where the boundary line is not defined by the lease or grant except by specifying the distance from a stated point and it may be found on survey that the lessee or grantee has assumed a much more extended boundary, I am of opinion that he should not be allowed the option of retaining and paying rent or purchase money for the land so occupied through his own mistake in excess of the lease or grant.

7. Should the survey prove in any case that the acreage in the lease or grant has been overstated the lessee or grantee should have a rebate of rent or purchase money.

8. In making the survey all absolutely unproductive ground, whether rock or pond, may properly be excluded from computation.

9. The acreage of the lands recently purchased by the Falkland Islands Company must be considered subject to correction by the result of the survey.

10. In granting renewed leases to the lessees whose leases fall in before the survey and who are entitled under the Ordinances to renewal, a clause should be inserted in the new leases referring to the intended survey and providing for the increase or diminution of the rent in accordance with the result of the survey, or, at the option of the lessee, for the readjustment of the boundaries or, in the case of an undefined boundary as referred to in paragraph 6 of this Despatch, for the surrender of any land occupied by the lessee in excess of what he was entitled to.

11. If any lessee declines to accept a renewed lease containing such a clause you may issue to him a temporary license as proposed in your Despatch No. 102.

12. No claim should be made for back rent for excess of land or for back interest on the purchase money for such excess.

13. As at present advised I am disposed to think that the lessees and freeholders should bear a proportion, but only a very small proportion, of the cost of the survey.

14. The applications which you have received for new leases of Crown lands must remain in abeyance pending the result of the survey.

15. As there appear to be no copies of the leases in this Department except those enclosed in your Despatch No. 102 I should wish to be furnished with copies of some others.

I have, &c.,

(Signed) KNUTSFORD.

Government Office,
10th December, 1891.

On and after Monday, 14th instant, letters may be deposited in the boxes at the new Post Office; the current business of the Post and Money Order Offices will however continue to be conducted at the present Government Office until further notice.

2. That the owner of every dog outside Stanley shall from this date prevent by fastening up or otherwise, the wandering of such dog from his station or holding into Stanley or any other part of these Islands.
3. That no dog be allowed to be brought off any vessel or boat except under such regulations as may be deemed requisite to prevent the further introduction of the said disease into these Islands.
4. That every owner in Stanley whose dog becomes afflicted with Distemper shall report the same at once to the Chief Constable and every owner outside Stanley of a dog similarly affected shall report the same to the neighbouring station-holders, in order that such steps may be taken as may seem necessary to prevent contagion, and if the destruction of any dog for such purpose be considered advisable compensation, not exceeding Two Pounds, may be paid out of general revenue to the owner of the dog so destroyed.
5. Any person found contravening any part of the above Orders will be liable on prosecution to a penalty not exceeding Five Pounds.
6. This Order shall take effect from this date and remain in force until such time as I, with the advice and consent of my Executive Council, shall deem it expedient to revoke it.

ADVICE.

No Camp dogs should on any account be brought into Stanley or vice versa.

All dogs suspected of having Distemper should be kept apart from healthy dogs.

Every dog should be given sulphur, even if distemper has not declared itself.

Should the disease be manifest Cod Liver Oil should be given at least three times a day, (half a wine glass-full as a dose.)

Sulphur should always be put in the drinking water.

Should the dog show symptoms of failing, Liebig's Extract of Meat may be given with great advantage. A small lump placed in a bit of tissue paper and put down the throat as a pill.

The excreta should be carefully cleaned away and disinfected with Carbolic or Little's dip.

And when a number of dogs are affected it should be the special duty of one man to attend upon them.

When Liebig cannot be obtained strong beef tea should be given, the disease having such a lowering tendency. The great object in view should be to support the powers of life.

Sulphur should always be put in the drinking water.

Should the dog show symptoms of failing, Liebig's Extract of Meat may be given with great advantage. A small lump placed in a bit of tissue paper and put down the throat as a pill.

The excreta should be carefully cleaned away and disinfected with Carbolic or Little's dip.

Minutes of a Meeting of the Board of Health of the Falkland Islands held in Stanley on Friday, January 22nd 1892.

Present: The Honourable The Colonial Surgeon, President.
" " The Colonial Secretary.
" " J. J. Felton.

The Inspector of Nuisances was in attendance.

The Honourable Judge Routledge, Colonial Secretary, after a few words of cordial welcome from the President, took his seat at the Board for the first time.

The Inspector of Nuisances brought forward, for the information of the Board, twenty-one notices which he had served previous to his recent illness, which were considered separately. Most of these nuisances had been abated.

In the case of the following premises the Board directed action as follows:—

1. Mr. Roberts, agent for Rudd's estate, to take immediate steps regarding house uninhabitable, drain percolating beneath and overflowing over the roadway, with accumulated filth all round.

2. White's estate. Heirs to be written to.

The Governor directs the publication for the information of those interested in the matter the following advice of the Honourable the Colonial Surgeon, with regard to the prevailing Distemper amongst Dogs in this Colony.

ADVICE.

No Camp dogs should on any account be brought into Stanley or vice versa.

All dogs suspected of having Distemper should be kept apart from healthy dogs.

Every dog should be given sulphur, even if distemper has not declared itself.

Should the disease be manifest Cod Liver Oil should be given at least three times a day, (half a wine glass-full as a dose.)

Sulphur should always be put in the drinking water.

Should the dog show symptoms of failing, Liebig's Extract of Meat may be given with great advantage. A small lump placed in a bit of tissue paper and put down the throat as a pill.

The excreta should be carefully cleaned away and disinfected with Carbolic or Little's dip.

And when a number of dogs are affected it should be the special duty of one man to attend upon them.

When Liebig cannot be obtained strong beef tea should be given, the disease having such a lowering tendency. The great object in view should be to support the powers of life.

PROPOSED VOLUNTEER FORCE.

A Public Meeting was held in the Court House on Wednesday, 24th February, with a view to discussing the question of the enrolment of a Volunteer Force in the Falkland Islands, His Excellency the Governor in the chair.

His Excellency in introducing the subject stated that Captain Lang, H. M. S. "Cleopatra," the Senior Naval Officer on the South East Coast of America, had kindly attended the Meeting and would address a few remarks. His Excellency then gave an outline of the proposed scheme.

Captain Lang said he had little to add to the remarks made by His Excellency but would refer to the probability in the near future of the establishment of a Depot in the Falkland Islands and stated his conviction that if the inhabitants of the Falkland Islands showed a desire to assist the Home Government in carrying out their defence schemes by enrolling themselves as a Volunteer Force, the Home Government would be more ready to expedite the establishment of a Depot. If a body of Marines, which would be a small body, were to be sent out, a Volunteer Force would be in a position to render valuable assistance. Captain Lang concluded by undertaking so long as he retained the position of Senior Naval Officer on the Station to further the movement as far as possible by giving orders to all ships visiting the Falkland Islands to render every possible assistance.

Mr. Rowell moved the following resolution :

"That a Volunteer Force be formed to consist of 60 Infantry, or more, of whom 6 shall be available as Mounted Infantry and Scouts, and 20 Artillerymen, or more."

His Honor the Judge seconded and the motion was carried unanimously.

Mr. Packe moved

"That the Officers to be appointed be balloted for, and that His Excellency be asked to assign the position and rank as he may deem best to be held by such Officers in the Force."

Mr. Noble seconded and the motion was carried unanimously.

Hon. C. A. Fraser informed the Meeting of the regulations as to capitation grant and the grant of ammunition in force at home and moved the following :

"That the Officers shall consist of

- 1 Captain of Infantry.
- 1 Lieutenant of Infantry.
- 1 Second Lieutenant of Infantry.
- 1 Lieutenant of Artillery,
- 1 Second Lieutenant of Artillery
- 1 Drill Instructor.
- 1 Sergeant Major of the whole Force.
- 1 Quartermaster Sergeant of the whole Force."

Mr. F. Hardy seconded and the motion was carried unanimously.

Captain Lang moved the following :

"That a Committee comprised as under be formed to consider the details as to the uniform and equipment of the Force, which should be of grey, with facings of a darker shade—buttons bronze—breeches and gaiters with darker shade—brown leggings—brown belts, &c.' remarking on the desirability of having a uniform of a shade similar to that of the ground.

Committee. Captain Lang, Hon. C. A. Fraser, Messrs Durose, Harding & Rowell, with power to add to their number.

Mr. J. Smith seconded and the motion was carried unanimously.

The Meeting terminated with votes of thanks to His Excellency and Captain Lang.

(SPECIAL and SUPPLEMENTARY).

TUESDAY, APRIL 19, 1892.

Whitehall, January 27th, 1892.

The following letter from the Queen has been received by the Right Honourable the Secretary of State for the Home Department :—

Osborne, January 26th, 1892.

I must once again give expression to my deep sense of the loyalty and affectionate sympathy evinced by my subjects in every part of my Empire on an occasion more sad and tragical than any but one which has befallen me and mine, as well as the Nation. The overwhelming misfortune of my dearly loved Grandson having been thus suddenly cut off in the flower of his age, full of promise for the future, amiable and gentle, and endearing himself to all, renders it hard for his sorely stricken Parents, his dear young Bride, and his fond Grandmother to bow in submission to the inscrutable decrees of Providence.

The sympathy of millions, which has been so touchingly and visibly expressed, is deeply gratifying at such a time, and I wish, both in my own name and that of my children, to express, from my heart, my warm gratitude to all.

These testimonies of sympathy with us, and appreciation of my dear Grandson, whom I loved as a Son, and whose devotion to me was as great as that of a son, will be a help and consolation to me and mine in our affliction.

My bereavements during the last thirty years of my reign have indeed been heavy. Though the labours, anxieties, and responsibilities inseparable from my position have been great, yet it is my earnest prayer that God may continue to give me health and strength to work for the good and happiness of my dear Country and Empire while life lasts.

VICTORIA, R.I.

The following official telegram has been received from Sir Francis Knollys, at Windsor Castle :—

“The Prince and Princess of Wales are anxious to express to Her Majesty's subjects, whether in the United Kingdom, in the Colonies, or in India, the sense of their deep gratitude for the universal feeling of sympathy manifested towards them at a time when they are overpowered by the terrible calamity which they have sustained in the loss of their beloved eldest son.

“If sympathy at such a moment is of any avail, the remembrance that their grief has been shared by all classes will be a lasting consolation to their sorrowing hearts, and, if possible, will make them more than ever attached to their dear country.”

“WINDSOR CASTLE, January 20, 1892.”

His Excellency the Governor directs the publication of the following Spanish Royal Order for general information.

Royal Order.

(Translation).

CONSIDERING the inquiries which have been addressed to this Ministry with regard to the interpretation of Articles 1 and 6 of the Royal Decree of the 31st December last, as to the date on which the new Tariff is to come into force, and as to the duties which are to be charged on goods from countries whose Commercial Treaties with Spain terminates on the 30th June next ;

And considering that England and the Netherlands continue to enjoy up to the 30th June next the benefits in general which are secured to them by their respective Treaties in addition to these contained in the Treaties concluded between Spain and Germany on the 12th July, 1883, and with France on the 6th February, 1882 ;

His Majesty the King, and in his name the Queen Regent, decrees :—

1. That merchandize which enters the Customs lines of Spain, either by sea or land, until midnight of the 31st of this month of January will enjoy the benefits of the Tariff now in force inasmuch as the new Tariff does not come into force till the 1st February next.

2. In accordance with the above Article, the Custom-houses will remain open until midnight in order to receive the manifests and way bills. On these documents will be entered carefully the hour at which they are presented, provided always that they conform with the Marine and Sanitary Regulations of the port of entry.

3. Merchandize of British or Dutch origin will continue to enjoy to the 30th June of the present year the benefits of the duties contained in the Tariffs, Letter (B), annexed to the Treaties of Commerce and Navigation between Spain and Germany of the 12th July, 1883, and of France of the 6th February, 1882.

4. In order that the duties in those Tariffs (which were annexed to the Treaties for merchandize to which the said Tariffs refer) may be applied, it is necessary that a certificate of origin should be presented at the Custom-house, drawn up in the form laid down in Rule 12 of the new Tariff approved of by the Royal Order of the 31st December, 1891.

5. All British and Dutch goods not specified in the above Tariffs, Letter (B), annexed respectively to the French and German Treaties, will, up to the 30th July, 1892, pay duty in accordance with the second column of the new Tariff approved by the Royal Decree of the 31st December 1891.

6. Goods of Finnish origin comprised in the Tariff, Letter (B), annexed to the Treaty of Commerce and Navigation between Spain and Russia of the 2nd July, 1887, will up to the 30th June of the present year, pay in accordance with the duties specified in the above Tariff, Letter (B), it being understood that, in order to enjoy this privilege, Finnish goods must be imported direct from Finland without transshipment on the voyage ; no necessity of justifying their origin by means of a certificate being required.

7. The Regulations referred to in Rule 8 of the Tariff of the 31st December last, as well as that at present in force, are those laid down in the law of Commercial Relations with the Colonies of the 30th June, 1882, as well as in the Article 13 of the Budget Law of the 29th June, 1887 ; and they are only of a temporary nature which will last until the treatment to which the foreign flag will be subjected in the trade and navigation between the Peninsula and the Colonies has been definitely settled.

8. For the carrying out of the preceding Regulations relative to British, Dutch, and Finnish goods the Custom-houses must refer to the official edition of the Tariff of the 31st December, 1889, which is still in force, and which contains the respective Treaties of Commerce.

By order of Her Majesty, I state this for your information and guidance.

I have, &c.

3. The third part of the paper is devoted to a discussion of the evidence in favor of the theory of spontaneous generation. It is shown that the evidence is very strong and that the theory is well supported by the facts.

4. The fourth part of the paper is devoted to a discussion of the objections to the theory of spontaneous generation. It is shown that the objections are not well founded and that the theory is still the most plausible of the theories advanced.

5. The fifth part of the paper is devoted to a discussion of the conclusions which can be drawn from the foregoing. It is shown that the theory of spontaneous generation is the most plausible of the theories advanced and that it is well supported by the facts.

His Excellency the Governor directs for general information the publication of the following Order in Council of Her Majesty.

At the Court at Osborne House, Isle of Wight, the 6th day of February, 1892

PRESENT,

THE QUEEN'S MOST EXCELLENT MAJESTY

LORD PRESIDENT

MR. RITCHIE

MR. JACKSON.

WHEREAS by "The Mail Ships Act, 1891," it is provided that where Her Majesty the Queen has made a Convention with a foreign State respecting the postal service between such foreign State and the United Kingdom, or respecting the privileges of mail ships, that is to say, ships engaged in any postal service of such foreign State, or of any part of Her Majesty's dominions, it shall be lawful for Her Majesty in Council to order that the said Act shall, subject to any conditions, exceptions, and qualifications contained in the Order, apply during the continuance of the Order as regards such Convention and foreign State and the postal service and mail ships described in the Convention ;

And whereas by section 8 of the said Act it is also provided that an Order in Council may for the purpose of a Convention with a foreign State apply the said Act, subject to any exceptions or modifications not inconsistent with the provisions of the said Act, to any British possession, and that the said Act when so applied should, subject to those exceptions and modifications, and subject as therein-after mentioned, have effect as if it were re-enacted, with the substitution of such British possession for the United Kingdom, provided that, before it should be applied to any British possession named in the Schedule to the said Act, the Government of such possession should have adhered to the Convention ;

And Whereas on the 30th day of August, 1890, a Convention was made at London between Her Majesty and the President of the French Republic respecting the postal service between France and French possessions and the United Kingdom and British possessions, the terms of which Convention are set forth in the Schedule to this Order ;

And whereas the ratifications of the said Convention were exchanged on the 23rd day of March, 1891 ;

And whereas the Governments of certain of the British possessions named in the Schedule to the said Act, namely, Newfoundland, Queensland, New Zealand, Cape of Good Hope, and Natal, have adhered to the said Convention ;

And whereas it is expedient that "The Mail Ships Act 1891," should apply as regards the said Convention and the French Republic and the postal service and mail ships described in the said Convention ;

And whereas it is also expedient that the said Act should, for the purpose of the said Convention, apply to the above-mentioned British possessions, and also to all British possessions not named in the Schedule to the said Act, subject to the exceptions and modifications in this Order contained :

NOW, THEREFORE, Her Majesty, by virtue and in exercise of the powers in this behalf by "The Mail Ships Act, 1891," or otherwise in Her Majesty vested, is pleased, by and with the advice of Her Privy Council, to order, and it is hereby ordered, as follows :—

1. "The Mail Ships Act, 1891," shall apply during the continuance of this Order as regards the Convention set forth in the Schedule to this Order, and as regards the French Republic and the postal service and mail ships described in that Convention.
2. The said Act shall apply as regards any public ship of the French Republic when employed as a mail ship in the cases authorised by Article V. of the said Convention.
3. The said Act shall for the purpose of the said Convention apply to the following British possessions, namely, Newfoundland, Queensland, New Zealand, Cape of Good Hope, and Natal, and also to every British possession not named in the Schedule to the said Act, subject, however, to the provisions of section 8 of the said Act, and also to the exceptions and modifications following, that is to say :

- (i.) The expression "officer of Customs" shall mean an officer of the Customs Department of the possession or, where there is no such Department, an officer or one of the officers appointed for the purposes of the said Act by the Governor in Council, of which appointment notice shall be published in the Gazette of the possession.
- (ii.) The provisions of the said Act as to the amount of fines shall, in possessions having a dollar or rupee currency, be read as if the amounts were stated in dollars or rupees, as the case may be, at the rate of 5 dollars or 10 rupees to the pound sterling. In Gibraltar the said provisions shall be read as if the amounts were stated in pesetas, at the rate of 25 pesetas to the pound sterling.
- (iii.) In lieu of subsections (1) and (2) of section 7 of the said Act the following provisions shall be substituted, that is to say : Every offence may be prosecuted and every fine may be recovered by action or other legal proceeding in any Court of the possession competent to impose fines, but any fine imposed by a Court of inferior or limited jurisdiction shall not exceed either the amount authorised by the said Act and this Order, or the amount of fine which the Court may impose in the exercise of its ordinary jurisdiction, whichever of the said amounts shall be the less ; and there shall be the same right of appeal (if any) against any such fine as in other cases of fines imposed by the same Court in the exercise of its ordinary jurisdiction ; and every Court, whether of original or appellate jurisdiction, may reduce the amount of any fine.
- (iv.) The regulations required to be made under subsection (4) of section 7 of the said Act, by the Commissioners of Customs with the consent of the Treasury, shall in the possession be made by the Governor in Council.
- (v.) Section 5 of the said Act, so far as relates to the Commissioners of Customs, shall not apply in the possession.

4. This Order may be cited as "The Mail Ships (France) Order in Council, 1892."

And the Most Honourable the Marquis of Salisbury, K.G., and the Right Honourable Lord Knutsford, two of Her Majesty's Principal Secretaries of State, are to give the necessary directions herein as to them may respectively appertain,

In addition to there being a substantial cash balance we have been again successful in the few competitions held during the year with our friends the "Crews of Her Majesty's ships."

Also after six years steady, though gradual improvement in the shooting and funds, the Club has at last been the means of the more easy formation of a Volunteer Corps which will, undoubtedly, be to the advantage of the Islands generally and a social good.

The silver cup, generously presented to the Club by Mr. F. E. Cobb, has been handed over from last years' winner Mr. V. A. Biggs, to Mr. F. Hardy, Senr., after a severe struggle and exciting finish.

In conclusion the Club generally wish to express their grateful appreciation of the hearty assistance given by the Patrons and Honorary Members.

Some cases having occurred of Mail bags having their rings cut off, Station-holders are requested to endeavour to prevent any damage to the bags, as otherwise it may not be possible to meet their wishes as to making up separate Mails.

Some half-stamps having been put on letters, it is pointed out that these are now of no value, and letters so stamped will be treated as insufficiently paid.

Parcels are sometimes sent from the Camp for transmission by Parcel Post without the proper ticket and declaration. This practice causes inconvenience, and parcels so sent cannot be properly protected under existing rules. Tickets may be obtained by application to the Post Office, Stanley.

Minutes of a Meeting of the Board of Health of the Falkland Islands, held in Stanley,
Monday, 8th August, 1892.

Present:—The Honourable the Colonial Surgeon, President.

“ “ the Colonial Secretary.

Mr. James Smith.

Mr. Hurst, Inspector of Nuisances, was in attendance.

Plans of proposed drainage of Mr. Robson's new property were submitted by Mr. Smith.

His Honor said that owing to the mistake which had been made upon the Falkland Islands Company's premises, in allowing too much overflow to gather in the one drain, he thought it would be advisable before sanctioning the said plans to ask the Inspector to visit and report upon the same at the next meeting.

The question of the drainage of the Baptist Tabernacle was then discussed. Mr. Smith produced a sketch of the drain, which was not finished, and promised to lay a plan of the work before the next sitting of the Board.

Mr. Smith gave notice of bringing before the Board the position and state of the steam pipe leading from the works of the Falkland Islands Company.

The meeting then adjourned.

Sir,

I have the honour to acknowledge the receipt of your despatch No. 44 of the 5th of April, transmitting a draft Ordinance to amend the Ordinances relating to Auctioneers which had been passed by the Legislative Council but to which you had not assented in consequence of the opposition of the unofficial members a letter from whom accompanied your despatch, and to enclose for your information and guidance a copy of correspondence with the Falkland Islands Company on the subject of the proposed Ordinance.

In reply to your despatch No. 56 of the 14th of April, I have to acquaint you that I am advised that a servant of a Company is not the servant of the individual shareholders.

FALKLAND ISLANDS COMPANY.

Sir,

I have the honour to transmit to you for the consideration of Lord Knutsford a copy of a protest made by the Unofficial Members of the Legislative Council of the Falkland Islands against the passing of the Ordinance relating to sales by Auction.

The original Auctioneers' Ordinance of 1853, No. 5, provided that it should be lawful for the Governor to grant to any person or Company a license to carry on the business of an Auctioneer on his or their own account or by his or their Agent, and this Company have for many years held a license under that Ordinance in the name of their head Storekeeper. It happens at times that property of considerable value is brought to the hammer in Stanley, and the connection of the Auctioneers with this Company has hitherto been regarded as a guarantee of respectability, so necessary a qualification in an office of this kind. The present holder of the license has been in our services for nearly 30 years, and has frequently been employed by the Government as Auctioneer. No complaint has ever, to my knowledge, been made against him, or against the Company in connection with the way his duties have been performed. The proposed Ordinance would deprive him of the post that he has held so long, and, further, is regarded by this Board as a direct imputation upon the honour and integrity of the Company, which they desire very strongly to repudiate. If any valid objections could have been raised to the arrangements for conducting auctions which have been in force for nearly 40 years, they would have occurred long before this to the minds of former Governors, several of whom were practised in the law, but this has not been the case, and we now find Sir Roger Goldsworthy proposing an alteration at a time coincident with the date of the renewal of our license. The Board are unable to understand the attitude that he has thought fit to assume towards the Company in this matter.

I have &c.,

EDWARD WINGFIELD Esq., C.B.,

Downing Street,
May 26th 1892.

Sir,

In reply to your letter of the 16th instant, transmitting a copy of a protest made by the Unofficial Members of the Legislative Council of the Falkland Islands against clause 2 of the proposed Ordinance relating to Auctioneers, I am directed by Lord Knutsford to inquire whether if the Storekeeper of the Falkland Islands Company continues to be licensed as Auctioneer the Company are prepared to give up the practice of receiving a share of the Commission earned by him as Auctioneer, a practice which, as far as is known, is without precedent and does not commend itself to his Lordship's views, though there is no evidence before him of any actual complaint having been made.

I am to add that Lord Knutsford cannot agree with you in considering the Ordinance as "a direct imputation on the honour and integrity of the Company."

I am, &c.,
(Sd.) E. WINGFIELD.

The Managing Director of the
Falkland Islands Company.

39a Gracechurch Street,
London E.C., 31st May, 1892.

FALKLAND ISLANDS COMPANY.

Sir,

I have the honour to acknowledge the receipt of your letter of the 26th May, with reference to the proposed Auctioneer's Ordinance, which has been laid before the Board.

I do not wish upon this occasion to question the competence of the Governor to inquire into and regulate the pecuniary relations existing between the Company and their servants: on the contrary, I am glad of the opportunity of showing once more that he has allowed himself to be misled by imperfect and inaccurate information into making proposals of an unjust and unnecessary nature. It is not a fact that the Storekeeper of the Company is himself licensed as an Auctioneer, nor is it true that the Company are in the habit of receiving a share of the commission earned by him: such a practice would no doubt be without precedent as Lord Knutsford observes.

The actual facts of the case, without the slightest reservation, are that this Company take out and pay for this license, not one penny of the cost of which is charged to him, and that he, their salaried servant, is nominated according to Ordinance No. 5 of 1853, (clause 1 and schedule A) to sell in their name, receiving, although this work is mainly performed in their time, a liberal share of their commission, a share sufficiently liberal, at all events, to be satisfactory to him, although, if it were not so, Lord Knutsford will probably admit that it is not a question of interest to any but the parties concerned. Upon this explanation his Lordship will observe that the facts, as presented to him, have been completely inverted.

The Board are glad to learn that there is no evidence before Lord Knutsford of any actual complaint having been made; that this should have been so, in such a small and highly critical community as the inhabitants of Stanley for a period of nearly 40 years is surely an argument in favour of leaving well alone that I may safely commend to his Lordship's judgment.

I venture to point out that if the principle of annulling the bids at auctions of any person pecuniarily interested in the result be pushed to its logical conclusions, the Government, which receives two-and-a-half per cent. on the proceeds would necessarily be debarred from competing. I question however, whether this would commend itself to the views either of Lord Knutsford or the Governor.

I owe an apology to Lord Knutsford for not having sufficiently explained the Board's view with regard to the imputation conveyed by this Ordinance. Were there half-a-dozen or more Auctioneers in the place, its tenor would be understood to be more general and less significant; but since the Company have been for some years, to the best of my knowledge the only people who have taken out licenses, it is not possible to conceive any reason for a change that does not imply a suspicion of collusion or some other misconduct equally dishonourable on their part. I am glad to gather however, from the last paragraph of your letter that we have been over sensitive on the subject.

I have &c.,
(Sd.)

F. E. COBB,
Managing Director.

EDWARD WINGFIELD, Esq., C.B.,
Colonial Office.

Downing Street,
13th June, 1892.

Sir,

I am directed by Lord Knutsford to acknowledge the receipt of your letter of the 31st May, on the subject of the proposed Ordinance relating to Auctioneers in the Falkland Islands.

In your previous letter of the 16th May you stated that the Falkland Islands Company held a license as Auctioneer in the Colony in the name of their head Storekeeper, and if the license is granted to the Storekeeper, he, and not the Company is the Auctioneer, unless the license states that he holds it merely as the Agent of the Company. Assuming however that the Storekeeper is licensed as the Agent being allowed to bid at the Auctions is stronger than it would be if they only received a part of the Commission earned by the Auctioneer.

If the Falkland Islands Company are willing that their head Storekeeper shall be licensed as Auctioneer on his own account and receive the whole of the Commission, Lord Knutsford will instruct the Governor to license him, and in that case it will be unnecessary to enact the proposed Ordinance.

I have &c.,
E. WINGFIELD.

The Managing Director of the
Falkland Islands Company.

39a Gracechurch Street,
London, E.C., 21st June, 1892.

FALKLAND ISLANDS COMPANY.

Sir,

I have the honour to acknowledge the receipt of your letter of the 13th instant, on the subject of the Falkland Islands Auctioneers' Ordinance.

Judged from an English standpoint, the Company's position as sellers and purchasers at the same sale must be admitted to be peculiar, though in a small place like the Falkland Islands, where all persons of any consequence from the Government Officials downwards, act in several capacities, it has for nearly 40 years been recognized as being in the natural order of things, and has not been considered objectionable up to the present time. However having placed the matter before the Board yesterday, I have to state for the information of Lord Knutsford, that they are willing to defer entirely to his Lordship's wishes on the subject, and that our Colonial Manager will be instructed accordingly.

I beg leave to add, as a suggestion for Lord Knutsford's consideration, that if the Auction question is to be governed by English practice, it would be only consistent to abolish the Government duty of two-and-a-half per cent. upon the proceeds of sales. The tax, I am informed, is without precedent in this country, the Government do nothing whatever to earn it and it has for years been the subject of much complaint as an unjust and unreasonable impost.

I have &c.,
(Sd.) F. E. COBB,
Managing Director.

EDWARD WINGFIELD, Esq., C.B.,
Colonial Office.

Downing Street,
4th July, 1892.

Sir,

In reply to your letter of the 21st instant, I am directed by Lord Knutsford to acquaint you that the Governor of the Falkland Islands will be instructed to license the Storekeeper of the Falkland Islands Company as Auctioneer and not to assent to the Ordinance "to amend the Ordinances relating to Auctioneers."

I am to add that Lord Knutsford does not consider the duty on the proceeds of sales an unjust or unreasonable tax.

I am &c.,
(Sd.) EDWARD WINGFIELD.

The Managing Director of the
Falkland Islands Company.

Downing Street,
4th July, 1892.

Sir,

I have the honour to acknowledge the receipt of your despatch No. 44 of the 5th of April, transmitting a draft Ordinance to amend the Ordinances relating to Auctioneers which had been passed by the Legislative Council but to which you had not assented in consequence of the opposition of the unofficial members a letter from whom accompanied your despatch, and to enclose for your information and guidance a copy of correspondence with the Falkland Islands Company on the subject of the proposed Ordinance.

In reply to your despatch No. 56 of the 14th of April, I have to acquaint you that I am advised that a servant of a Company is not the servant of the individual shareholders.

FALKLAND ISLANDS COMPANY.

Sir,

I have the honour to transmit to you for the consideration of Lord Knutsford a copy of a protest made by the Unofficial Members of the Legislative Council of the Falkland Islands against the passing of the Ordinance relating to sales by Auction.

The original Auctioneers' Ordinance of 1853, No. 5, provided that it should be lawful for the Governor to grant to any person or Company a license to carry on the business of an Auctioneer on his or their own account or by his or their Agent, and this Company have for many years held a license under that Ordinance in the name of their head Storekeeper. It happens at times that property of considerable value is brought to the hammer in Stanley, and the connection of the Auctioneers with this Company has hitherto been regarded as a guarantee of respectability, so necessary a qualification in an office of this kind. The present holder of the license has been in our services for nearly 30 years, and has frequently been employed by the Government as Auctioneer. No complaint has ever, to my knowledge, been made against him, or against the Company in connection with the way his duties have been performed. The proposed Ordinance would deprive him of the post that he has held so long, and, further, is regarded by this Board as a direct imputation upon the honour and integrity of the Company, which they desire very strongly to repudiate. If any valid objections could have been raised to the arrangements for conducting auctions which have been in force for nearly 40 years, they would have occurred long before this to the minds of former Governors, several of whom were practised in the law, but this has not been the case, and we now find Sir Roger Goldsworthy proposing an alteration at a time coincident with the date of the renewal of our license. The Board are unable to understand the attitude that he has thought fit to assume towards the Company in this matter.

I have &c.,

EDWARD WINGFIELD Esq., C.B.,
Colonial Office.

Downing Street,
May 26th 1892.

Sir,

In reply to your letter of the 16th instant, transmitting a copy of a protest made by the Unofficial Members of the Legislative Council of the Falkland Islands against clause 2 of the proposed Ordinance relating to Auctioneers, I am directed by Lord Knutsford to inquire whether if the Storekeeper of the Falkland Islands Company continues to be licensed as Auctioneer the Company are prepared to give up the practice of receiving a share of the Commission earned by him as Auctioneer, a practice which, as far as is known, is without precedent and does not commend itself to his Lordship's views, though there is no evidence before him of any actual complaint having been made.

I am to add that Lord Knutsford cannot agree with you in considering the Ordinance as "a direct imputation on the honour and integrity of the Company."

I am, &c.,

(Sd.) E. WINGFIELD.

The Managing Director of the
Falkland Islands Company.

39a Gracechurch Street,
London E.C., 31st May, 1892.

FALKLAND ISLANDS COMPANY.

Sir,

I have the honour to acknowledge the receipt of your letter of the 26th May, with reference to the proposed Auctioneer's Ordinance, which has been laid before the Board.

I do not wish upon this occasion to question the competence of the Governor to inquire into and regulate the pecuniary relations existing between the Company and their servants: on the contrary, I am glad of the opportunity of showing once more that he has allowed himself to be misled by imperfect and inaccurate information into making proposals of an unjust and unnecessary nature. It is not a fact that the Storekeeper of the Company is himself licensed as an Auctioneer, nor is it true that the Company are in the habit of receiving a share of the commission earned by him: such a practice would no doubt be without precedent as Lord Knutsford observes.

The actual facts of the case, without the slightest reservation, are that this Company take out and pay for this license, not one penny of the cost of which is charged to him, and that he, their salaried servant, is nominated according to Ordinance No. 5 of 1853, (clause 1 and schedule A) to sell in their name, receiving, although this work is mainly performed in their time, a liberal share of their commission, a share sufficiently liberal, at all events, to be satisfactory to him, although, if it were not so, Lord Knutsford will probably admit that it is not a question of interest to any but the parties concerned. Upon this explanation his Lordship will observe that the facts, as presented to him, have been completely inverted.

The Board are glad to learn that there is no evidence before Lord Knutsford of any actual complaint having been made; that this should have been so, in such a small and highly critical community as the inhabitants of Stanley for a period of nearly 40 years is surely an argument in favour of leaving well alone that I may safely commend to his Lordship's judgment.

I venture to point out that if the principle of annulling the bids at auctions of any person pecuniarily interested in the result be pushed to its logical conclusions, the Government, which receives two-and-a-half per cent. on the proceeds would necessarily be debarred from competing. I question however, whether this would commend itself to the views either of Lord Knutsford or the Governor.

I owe an apology to Lord Knutsford for not having sufficiently explained the Board's view with regard to the imputation conveyed by this Ordinance. Were there half-a-dozen or more Auctioneers in the place, its tenor would be understood to be more general and less significant; but since the Company have been for some years, to the best of my knowledge the only people who have taken out licenses, it is not possible to conceive any reason for a change that does not imply a suspicion of collusion or some other misconduct equally dishonourable on their part. I am glad to gather however, from the last paragraph of your letter that we have been over sensitive on the subject.

I have &c.,
(Sd.)

F. E. COBB,
Managing Director.

EDWARD WINGFIELD, Esq., C.B.,
Colonial Office.

Downing Street,
13th June, 1892.

Sir,

I am directed by Lord Knutsford to acknowledge the receipt of your letter of the 31st May, on the subject of the proposed Ordinance relating to Auctioneers in the Falkland Islands.

In your previous letter of the 16th May you stated that the Falkland Islands Company held a license as Auctioneer in the Colony in the name of their head Storekeeper, and if the license is granted to the Storekeeper, he, and not the Company is the Auctioneer, unless the license states that he holds it merely as the Agent of the Company. Assuming however that the Storekeeper is licensed as the Agent of the Company, and that they are really the Auctioneers, the objection to their being allowed to bid at the Auctions is stronger than it would be if they only received a part of the Commission earned by the Auctioneer.

If the Falkland Islands Company are willing that their head Storekeeper shall be licensed as Auctioneer on his own account and receive the whole of the Commission, Lord Knutsford will instruct the Governor to license him, and in that case it will be unnecessary to enact the proposed Ordinance.

I have &c.,
E. WINGFIELD.

The Managing Director of the
Falkland Islands Company.

39a Gracechurch Street,
London, E.C., 21st June, 1892.

FALKLAND ISLANDS COMPANY.

Sir,

I have the honour to acknowledge the receipt of your letter of the 13th instant, on the subject of the Falkland Islands Auctioneers' Ordinance.

Judged from an English standpoint, the Company's position as sellers and purchasers at the same sale must be admitted to be peculiar, though in a small place like the Falkland Islands, where all persons of any consequence from the Government Officials downwards, act in several capacities, it has for nearly 40 years been recognized as being in the natural order of things, and has not been considered objectionable up to the present time. However having placed the matter before the Board yesterday, I have to state for the information of Lord Knutsford, that they are willing to defer entirely to his Lordship's wishes on the subject, and that our Colonial Manager will be instructed accordingly.

I beg leave to add, as a suggestion for Lord Knutsford's consideration, that if the Auction question is to be governed by English practice, it would be only consistent to abolish the Government duty of two-and-a-half per cent. upon the proceeds of sales. The tax, I am informed, is without precedent in this country, the Government do nothing whatever to earn it and it has for years been the subject of much complaint as an unjust and unreasonable impost.

I have &c.,

Managing Director.

EDWARD WINGFIELD, Esq., C.B.,

Downing Street,
4th July, 1892.

Sir,

In reply to your letter of the 21st instant, I am directed by Lord Knutsford to acquaint you that the Governor of the Falkland Islands will be instructed to license the Storekeeper of the Falkland Islands Company as Auctioneer and not to assent to the Ordinance "to amend the Ordinances relating to Auctioneers."

I am to add that Lord Knutsford does not consider the duty on the proceeds of sales an unjust or unreasonable tax.

I am &c.,

At a Meeting of the LEGISLATIVE COUNCIL held at Government House on Friday, the 23rd day of September, 1892, at 10 30 a.m.

Present : His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor, President.

Hon. R. M. Routledge, Colonial Secretary.

Hon. S. Hamilton, Colonial Surgeon.

Hon. A. E. Baillon.

The Minutes of the previous Meeting were read and confirmed.

The Honourable the Colonial Treasurer arrived and took his seat.

His Excellency said that he had summoned the Meeting for the purpose of laying before the Council the draft Estimates for 1893, without going into any discussion thereon. The Estimates, he added, differed but little from those of last year, but a proposition would be laid before the Council which would place the Public Works Vote on rather a different footing, by separating the local revenue and Expenditure, including the Tenement Tax and other local taxes raised in Stanley, from the general revenue and expenditure, so that an annual sum of some £300 would be made available for expenditure towards fencing in the commonage and on general improvements in Stanley in connection with roads, drainage and sanitation, and also that a vote for the Sanitary Officer would have to be taken under the head of local expenditure.

The Honourable A. E. Baillon asked if it was His Excellency's intention to finally pass the Estimates in the absence of the other unofficial honourable member.

His Excellency answered in the affirmative and said that the introduction of the Estimates was already late.

The Honourable the Colonial Treasurer then explained the various differences in the several items.

The Honourable the Colonial Secretary gave notice that at the next meeting of the Council he would move the introduction and first reading of a Bill entitled "An Ordinance to raise a sum of money by a tax on tenements in Stanley and to provide for the application thereof and other local taxes for the proposed local improvements."

The Honourable the Colonial Treasurer gave notice that at the next meeting of the Council he would move the introduction and first reading of a Bill entitled "An Ordinance to make provision for the service of the Colony of the Falkland Islands for the year 1893."

The Council adjourned at 11 30 a.m., until Friday, the 30th instant.

At a Meeting of the LEGISLATIVE COUNCIL held at Government House on Friday, the 30th day of September, 1892.

Present : His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor,
(President).

Hon. R. M. Routledge, Colonial Secretary.
Hon. C. A. Fraser, Colonial Treasurer.
Hon. A. E. Baillon.

The Minutes of the previous Meeting were read and confirmed.

The Honourable the Colonial Surgeon arrived and took his seat.

The Honourable the Colonial Secretary moved the introduction and first reading of a Bill entitled "An Ordinance to raise a sum of money by a tax on tenements in Stanley and to provide for the application thereof and other local taxes for the proposed local improvements."

The Honourable the Colonial Treasurer seconded and the Bill was read a first time.

The Honourable A. E. Baillon said there was a strong feeling in Stanley against the Ordinance though time had not allowed for a petition to be presented. The Honourable Member admitted the necessity of providing a fund to be raised by local taxation for the object in view, but considered that the opposition to the renewal of the "Tenement Tax" was justified as the people, looking at the provisions of the Bill of 1882, were naturally led to believe that the tax would be discontinued after a period of ten years and it would be a breach of faith if it were continued. The Honourable Member suggested therefore that some other means, such as a wheel tax, might not be devised for raising local revenue.

His Excellency said that this was not the time, being its First reading, to enter into any discussion on the Bill, but he would be ready to hear anything any Member had to say when the Second reading had been moved. At the same time there would be no objection to the postponement of the Third reading until time had allowed of a conference being had with some of the leading townspeople.

His Excellency then proposed the suspension of the Standing Orders, which was seconded by the Colonial Treasurer. The same was carried with a view to proceeding with the Second Reading of the Bill and consideration in Committee.

The Colonial Secretary moved the Second reading and going into Committee thereon, explained the intention and nature of the Bill, and said that he did not see how a wheel tax would give the necessary funds.

The Honourable A. E. Baillon then entered a protest against the provisions in the Bill for the renewal of the "Tenement Tax." The Honourable Member said he would not oppose the Bill going into Committee, but would avail himself of His Excellency's proposal that the Third reading be postponed in order that he might obtain the sense of some of the leading members of the community upon the Bill.

His Excellency said that the object of the Bill was to provide for "local revenue." At present there was no sum available for expenditure on drainage, roads, sanitation, and general improvements in Stanley, and it was not fair that these works should be charged to "general revenue," as had hitherto been done, by which the other portion of the Colony would be taxed for "local improvements." To obtain funds therefore for this purpose it was proposed that the Tobacco, Dog, Publican's and Billiard Table Licenses, all of which are raised in Stanley itself, be eliminated from general revenue and applied to local purposes. These would, it is estimated, bring in about £230, but would be insufficient to meet the expense of fencing in the Commonage. This cost, therefore, it was proposed, should be defrayed from general revenue, and be recouped by a tenement tax to be raised (say for five years) under the proposed Ordinance.

His Excellency added that he would not press for the re-imposition, particularly of the "Tenement Tax," if some other mode were suggested for paying off the debt to be incurred by local to general revenue; but in the absence of such, whether the Bill were opposed or not, he would feel it his duty to bring the Bill in.

The Bill was read a Second time.

The Council then went into Committee.

In Clause 1, line 5, after "Stanley," the words "and payable to the Colonial Treasurer before the 30th day of January in each year" were inserted.

Clauses 2 and 3 were agreed to.

Some discussion took place as to the duration of the Bill, but was postponed until next Meeting.

The Bill was left in Committee stage.

The Council resumed its sitting in Committee on the Estimates for 1893.

The items of expenditure were read and discussed.

On vote 6, "Port & Marine." The Honourable A. E. Baillon said that complaints had been made of the inefficiency of the Pilot Service, vessels having on more than one occasion, citing recent instances, found it impossible to obtain the services of a pilot, although the pilotage had been paid.

His Excellency explained the circumstances under which the present acting pilot was also assistant pilot, and said that when Mr. Wilmer was absent arrangements would be made to provide, whenever possible, for the service of a pilot in Stanley. He pointed out also that under previous arrangements the exceptional presence of three vessels waiting for pilots could not have been provided for.

Under vote 6, "Mail Schooner." The Honourable A. E. Baillon commented on the unsatisfactory manner in which, in his opinion, the Mail Service to the West Falklands is conducted. The Honourable Member believed the Postmaster had received complaints on the subject and he questioned, if the figures were gone into, whether the "Hadassah" is running to advantage.

His Excellency drew attention that the Honourable Member was suggesting that the return which had been furnished to him was incorrect and said that he could not allow such a statement to pass unnoticed.

The Honourable Member (Mr. Baillon) deprecated having any intention of impugning the correctness of the Return, but suggested that a more detailed statement might be given. During his short experience he considered that the service was better performed, was more regular, and complaints less frequent than when an outside Schooner was engaged at £300 a year, and unless it was distinctly shown that the "Hadassah" was running at a profit it was a pity to take her from what she was intended and not run her service successfully. The Honourable Member also referred to the certificate held by the Pilot.

His Excellency reminded the Honourable Member to one thing that had not been taken into consideration, namely, that the present arrangement afforded a double service, and explained the items in the account, which showed that the "Hadassah," while affording this double service, was not running at an increased cost, and that her upkeep would be comparatively far heavier if she were not utilised on the service, for besides the £300 subsidy to another Schooner, the insurance, one hand with allowance for messing, wages of the crew, painting and repairs on her, would still have to be paid. As regards the way in which the service was performed His Excellency was aware that there had been a proposal made by some of the inhabitants of the West Island, on his first arrival, that a further subsidy of £300, making £600, should be given for the service to be conducted by an outside schooner.

His Excellency further reminded the Honourable Member that the Mail service had been conducted as nearly as possible on the lines discussed and agreed upon in a conversation with Mr. Goodhart, of the West Falklands, and taking everything into consideration the services had not been unsuccessfully carried out, and every endeavour had been made to meet the convenience of the public. With regard to the certificate held by the pilot, he said that the Insurance Company had not objected to a person not holding a Master's certificate being in charge of the "Hadassah," if he qualified in local navigation, which the pilot would be required to do.

The Honourable A. E. Baillon said he felt obliged to give his vote against the item of £466 18 11 "Mail Schooner."

Under Vote 17, "Public Works," the item "Maintenance and Repair of roads" was reduced to £250—and a new item £70 as "an instalment on loan for fencing in the Commonage was introduced."

The item "forage for cart horses" was increased to £30.

Making a sum total for Public Works of £1000

No further amendments were proposed and the Estimates were left in Committee.

The Council resumed its sitting.

The Honourable the Colonial Secretary moved the introduction and First reading of a Bill entitled "An Ordinance to make provision for the Service of the Colony of the Falkland Islands for the year 1893."

The Honourable the Colonial Surgeon seconded and the Bill was read by title.

The Honourable the Colonial Secretary gave notice that at the next Meeting of the Council he would move a resolution "that, subject to the approval of the Secretary of State, a sum of £500 be set apart from the special vote for "sea walls" and jetties" for making and repairing of roads in Stanley."

The Council adjourned until Monday the 3rd of October.

GOVERNMENT NOTICES.

THE ROYAL IMPERIAL INSTITUTE.

At a Meeting held at the Court House, Stanley, Falkland Islands, on Wednesday, the 26th day of October, 1892, called at the request of His Excellency the Governor.

Present.

The Honourables R. M. Routledge, C. A. Fraser, J. J. Felton, A. E. Baillon. The Very Reverend Dean Brandon, Messrs. G. A. Cobb, Vere Packe, R. Nichol, C. Williams, W. Coulson & G. Hurst. Mr. Routledge explained the objects and constitution of the Imperial Institute as set forth in the pamphlets which had been received in the Colony.

Mr. Routledge referred to the contribution already given by the Colony, which thus afforded the conclusive evidence of its earnest desire to be thoroughly represented in the Mother Country, and to be associated in the work initiated by the Institute.

In accordance with the provisions embodied in the Constitution, Field Marshal Sir Lintorn Simmons had been appointed by the Colonial Authorities as representative of these Islands to serve upon the Governing Body. A letter by Sir Lintorn Simmons addressed to His Excellency stating that a room had been set apart

for exhibits from the Falkland Islands, and adding, that it would give him great pleasure to bring forward the name of any gentlemen in the Falklands whom the Governor might recommend for admission to the honour of Membership was read.

His Excellency's reply of the 17th September stating that steps had already been taken for fitting up the room appropriately was also read.

Mr. Routledge then dwelt on the mode of procedure to be carried out with a view to meeting the object the Institute had in view, and suggested that a general Committee should be formed, consisting of the heads of all Stations, owners if possible, but in their absence the Managers, to whom, owing to their local knowledge, should be added Drs. Dale and Goings.

A local Committee resident in Stanley should be also appointed to receive articles, &c., sent in, and select and forward to the Institute, such as may be conducive to the benefit of the Colony, and the development and completion of the undertaking. Mr. J. J. Felton seconded the proposal which was carried unanimously.

Mr. Routledge proposed that the local Committee should consist of nine Members, and it was eventually decided that the Honourables R. M. Routledge, S. Hamilton, and J. J. Felton, the Colonial Chaplain. Messrs Packe, Watson, Lewis & Rowell, should be asked to serve on the Committee. Mr. Baillon was unanimously elected Chairman of the Committee, and taking the chair read His Excellency's letter, reminding the Meeting that as the Colony had already recognised the advantage of such an Institute, it should not stop there, but should "endeavour to fill, and "worthily fill, the space allotted to it."

Mr. Hill accepted the post of Honorary Secretary.

Several of those present subscribed their names as desirous of being elected Fellows.

It was proposed that a Circular letter be addressed to the Heads of Stations, asking assistance in supplying articles for exhibition.

The proceedings concluded with a vote of thanks to the Honourable R. M. Routledge and to the Chairman.

C. W. HILL.
Honorary Secretary.

Letter from His Excellency the Governor to the Chairman of Committee in connection with Imperial Institute, Stanley.

Sir,

Though I have conferred with you personally on this matter and the objects of the Institute are before you in the letter addressed to myself by Field Marshal Sir Lintorn Simmons, G. C. B., and in the printed accounts which accompanied his letter, still I am desirous of reminding you that as the Colony has recognized the advantage of such an Institute by a handsome contribution towards the building fund, that it should not stop there, but endeavour by its samples of wool, skins, specimens of natural history, and such like, to fill the place apportioned to it.

Feeling that the Falkland Islands Company have the greatest stake in the Colony, I have already asked their representative here (Mr. Baillon) to take such steps as he might deem necessary through his Head Office, in London, to see that the Colony of the Falkland Islands is not behind other Colonies as regards the fittings of the space allotted to it, at the same time asking their co-operation.

In a work of this nature, however much differences of opinion may arise in respect to questions connected with the past, present, or the future, I sincerely trust that all may be sunk, and that one and all will co-operate with the Government in doing that which will, I feel assured, show that the Falkland Islands, though not so well known as other Colonies, have residents who are neither wanting in the "grit" which pertains to those claiming to be of the mother country, or in the powers of developing, comparatively speaking, new countries, for which the mother country has gained a reputation throughout the world.

One word in conclusion—numerically small though we are—yet let us show how in purpose we are strong and working to one end for the good of the Colony.

I am
Sir,
Your obedient Servant,

ROGER TUCKFIELD GOLDSWORTHY

GOVERNMENT NOTICES.

The Secretary of State for the Colonies has intimated to His Excellency the Governor that Her Majesty will not be advised to exercise her power of disallowance in respect to the following Ordinances:—

No. 5 of 1892 entitled "An Ordinance to provide for the prevention of the spreading of any contagious or infectious disorders amongst dogs or other animals within the Colony of the Falkland Islands."

No. 6 of 1892 entitled "An Ordinance to amend the Administration of Justice Ordinance, 1876."

With reference to the notice which appeared in Gazette No. 48, of the 1st December, 1892, relating to the prohibition of seal fishing in Chilian waters, His Excellency directs the publication of a copy of a further correspondence on the subject, which has been received through the Colonial Office.

Mr. Maude to the Earl of Rosebery.—
(Received October 3).

(No. 89).

Santiago, August 25, 1892.

My Lord,

WITH reference to my despatch No. 61 of the 18th June, I have the honour to forward herewith translation of an Ordinance regulating the seal fisheries, which has been published in the Official Gazette.

A supplementary Decree which has just appeared, of which I also inclose a copy, sus-

pends for the period of one year all seal fishery on the coasts therein mentioned.

I have, &c.

Inclosure 1 in No. 3.

Extract from the "Diario Oficial" of August 19, 1892.

[Translation has not yet reached the Office.]

Inclosure 2 in No. 3.

Extract from the "Diario Oficial" of August 23, 1892.

(Translation.)

No. 1642.—Santiago, August 20, 1892.

TAKING in consideration that the industry of the fishery of seals or sea-dogs, otters, and "chungungos" can constitute a considerable source of wealth on the coasts of the Archipelago of Chiloe, Territory of Magallanes, and Islands of Juan Fernandez, if its exercise be suspended by a temporary prohibition so as to provide for the propagation of these species, which are almost extinct owing to the immoderate manner in which they have been pursued;

Making use of the power with which I am endowed by Article 10 of the Ordinance of the 17th instant, I have agreed and decreed that the fishery of seals or sea-dogs, otters, and "chungungos" be suspended for the period of one year in the regions included in the Maritime Governments of Chiloe and Magallanes, and on the coasts of the Islands of Juan Fernandez.

(Signed) MONTT.

At a Meeting of the LEGISLATIVE COUNCIL held at Government House on Wednesday, the 28th day of December, 1892.

Present: His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor (President).

Hon. R. M. Routledge, Colonial Secretary.
 Hon. C. A. Fraser, Colonial Treasurer.
 Hon. S. Hamilton, Colonial Surgeon.
 Hon. A. E. Baillon.
 Hon. J. J. Felton.

The minutes of the previous Meeting were read and confirmed.

His Excellency drew attention to the difference between the Bill entitled "An Ordinance to make further provision for the Postal Service of this Colony," as Gazetted, and that now laid before the Council.

The Colonial Treasurer, as Postmaster, took charge of the Bill and, in moving the Second reading and consideration in Committee, explained that it was intended to provide for the regularity and uniformity of the postal system, wherever possible, throughout the Islands.

The Colonial Secretary seconded and the Bill was read a second time.

The Council then resolved itself into Committee.

The following amendments were agreed to:—

In line 3, after the word "transmitted," the words "by vessel" were added, as the unofficial members considered that as at present drafted much inconvenience would be caused if communication with certain ports, such as Port Howard or San Carlos, could only be carried on through Port Stanley.

In line 8, after the word "same" the words "make such appointments and frame such Rules and Regulations as may be necessary for the carrying out such postal communication" were added.

Clause 2. Some discussion as to the time of delivery and despatch of postal matter took place on the reading of this clause. It was eventually agreed that that was a matter which should be dealt with by the Governor in Council as he should deem fit under Clause 1.

In line 5, the word "six" was inserted before the word "ounces."

Clause 3. After the word "letter" in line 2, the following words were added in parenthesis "except letters relating to the vessel and cargo or bills of lading," and in line 3 the words in parenthesis "except such as relate to the vessel or cargo" were deleted.

Clause 4, line 5. The words "the sum of" were struck out and the words "one half the rate of postage" inserted in lieu thereof; and in line 6 the words "the sum of for every" were struck out. In line 9, after the word "penalty" the words "not exceeding five pounds" were inserted.

Clause 5, line 3. The words "five pounds" were inserted after the word "exceeding."

Clause 6, line 7. The words "twenty pounds" were inserted after the word "exceeding."

The Council resumed its sitting.

The Colonial Treasurer gave notice that at the next meeting of the Council he would move the Third reading and passing of the Bill.

The Colonial Secretary moved the introduction and First reading of a Bill entitled "An Ordinance to provide for the appointment of Visiting Justices for the Gaol in Stanley." The Colonial Surgeon seconded and the Bill was read by title.

The Standing Orders were suspended with a view to the Bill going through its various stages.

The Colonial Secretary in moving the Second reading explained that the Bill had been brought forward in accordance with instructions received from the Secretary of State. The Honourable the Colonial Surgeon seconded and with the omission in Clause 1, agreed to in Committee, of the words "for the proper management of the Gaol" which had been unintentionally inserted and if retained, as pointed out by His Excellency, might be assumed to give powers to the Visiting Justices over the Colonial Secretary, the Bill went through its Second and Third reading and was passed.

(To be continued).

The following list of Persons between the ages of Twenty-one and Sixty years resident in the Falkland Islands who are liable to be called to serve as Jurors from the First day of January One-thousand-eight-hundred and ninety-three to the Fourteenth day of January One-thousand-eight-hundred and ninety-four, is published in accordance with clause 3, of Ordinance 6 of 1882.

Any objections thereto are to be made in writing to the Police Magistrate within fourteen days from this date.

Stanley,
29th December, 1892.

By Command,

R. M. ROUTLEDGE,
Police Magistrate.

No. 1642.—Santiago, August 20, 1892.

TAKING in consideration that the industry of the fishery of seals or sea-dogs, otters, and "chungungos" can constitute a considerable source of wealth on the coasts of the Archipelago of Chiloe, Territory of Magallanes,

and Islands of Juan Fernandez, if its exercise be suspended by a temporary prohibition so as to provide for the propagation of these species, which are almost extinct owing to the immoderate manner in which they have been pursued ;

Making use of the power with which I am endowed by Article 10 of the Ordinance of the 17th instant, I have agreed and decreed that the fishery of seals or sea-dogs, otters, and " chungungos " be suspended for the period of one year in the regions included in the Maritime Governments of Chiloe and Magallanes, and on the coasts of the Islands of Juan Fernandez.

R. M. ROUTLEDGE,

Subscribers to the Official Gazette are reminded that their annual Subscriptions are now due.

(Continued from last week's Gazette).

The Honourable the Colonial Secretary moved the Introduction and First reading of "the Pound Ordinance."

The Honourable J. J. Felton agreed that a tax should be levied on animals grazing on the Commonage immediately the fence dividing the Commonage from Mr. Dettleff's was completed, but asked that the provisions of the Bill, inflicting penalties for animals wandering in the town and the impounding thereof, might be held in abeyance until the fence round the town is erected, as the Commonage would not produce sufficient food for the animals until next spring, which would naturally drive them into the Settlement in search of food.

After some discussion His Excellency replied that Mr. Dettleff's fence was already nearly finished, and as all sheep-stock will be shortly removed from the Commonage, horses and other animals will become accustomed to the Commonage, where there would be grazing for them before the fall of the year. His Excellency however expressed himself willing to request the Colonial Secretary, as Legal Adviser, to consider the matter with a view to the Bill being so amended in Committee as to meet the views of the Honourable Member as far as possible.

The Colonial Secretary gave notice that at the next meeting he would move the Second reading and consideration in Committee of an Ordinance entitled "The Pound Ordinance, 1893."

The Council adjourned until 4 a.m., on Thursday, the 29th December, 1892.

FALKLAND ISLANDS

By His Excellency

Sir ROGER TUCKFIELD GOLDSWORTHY, K. C. M. G., Governor.

An Ordinance to make further provision for the local postal service of the Falkland Islands.

No. 12 of 1892.

WHEREAS it is desirable to make further provision for the payment of postal rates within the Colony of the Falkland Islands.

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council thereof, as follows:—

1.—From and after the coming into operation of this Ordinance letters, (except such as hereinafter mentioned) books, newspaper, postal packets, (as hereinafter defined) shall not be transmitted by vessel from one port of the Colony to any other port of the Colony with which there is declared to be postal communication by the Governor in Council except through the Post Office, and the Governor in Council shall, from time to time, as may be deemed expedient, fix the rates of postage for the same, make such appointments, and frame such Rules and Regulations as may be necessary for the carrying out such postal communication.

GOVERNMENT HOUSE.

2.—The Master of every vessel shall, on arrival in Stanley, from any Port in the Colony, deliver to the Postmaster in Stanley, every letter, (except letters relating to the ship and cargo or bills of lading) newspaper and book, and all postal packets, not exceeding six ounces in weight, liable to postage and every such letter, newspaper, book, or packet, shall be delivered over to the addressee, or his agent, by the Postmaster, provided the rate of postage chargeable for the same shall have been prepaid by the sender, or in the event of such postage not having been prepaid by the sender then, on payment by the addressee to the Postmaster in Stanley of double the rate of postage payable on prepayment.

3.—The Master of a vessel shall not receive for conveyance from Stanley to any other Port in the Colony, any letter, (except letters relating to the vessel and cargo or bills of lading) newspaper, book or postal packet, unless the same shall have first passed through the Post Office in Stanley.

4.—Every Master of any vessel (not under contract with the Government for the carriage of Mails) sailing from Port Stanley to any other Port in the Colony, or from any Port in the Colony to Port Stanley, who shall receive on board any mail, shall be entitled to demand and receive from the Postmaster one half the local rate of postage for every local letter, newspaper, book or postal packet, or other article contained in such mail, and any Master who shall refuse to carry any mail from or to the Postmaster at Stanley, shall be liable to a penalty not exceeding five pounds.

5.—The Master of any vessel who shall contravene any of the provisions of Sections 2 and 3 of this Ordinance shall be liable to a fine not exceeding five pounds for each offence.

6.—It shall be lawful for the Postmaster if he has reason to suspect that any letter or package transmitted through the Post Office contains anything of a dangerous, explosive or offensive nature, to seize the same and if necessary, on examination, cause it to be destroyed, and the sender of such dangerous explosive or offensive article shall be liable on prosecution to a fine not exceeding twenty pounds.

7.—The Postmaster may examine any newspaper, postal packet, book packet, or other article, whether sent by the post without a cover or in a cover open at the sides or ends, in order to discover whether it is contrary in any respect to the conditions required to be observed; and in case any one of the required conditions has not been fulfilled, the whole of every such newspaper, parcel, book packet or other article, may be charged at letter rates.

Sir,

On behalf of the gentlemen whose signatures are appended to the enclosed documents, I have the honour to request that you will be good enough to tender to His Excellency the Governor their resignations as Justices of the Peace, and further to ask His Excellency to be kind enough to cause the same to be published in the Falkland Islands Gazette in due course.

I have the honour to be,

Sir,

Your obedient servant,

ANDREW E. BAILLON.

The Honourable

Colonial Secretary,

&c, &c. &c.

Sir,

We, the undersigned, have the honour to request that, owing to His Excellency the Governor's action in the matter of the renewal of the expired leases, and his general feeling of hostility to the Sheep-farming interest, the backbone of this Colony, you will be good enough to tender to him our resignations as Justices of the Peace, and beg respectfully that our names may be removed from the Commission with as little delay as possible.

We have the honour to be,

Sir,

Your obedient, humble servants,

The Honourable,

The Colonial Secretary, &c., Stanley.

Sir,

We, the undersigned, have the honour to request that you will kindly inform His Excellency the Governor that, having lost all confidence in him as Governor of these Islands, and in his ability to understand the equitable rights of the Settlers,—men who have, in many cases, given the best part of their lives and

sunk their fortunes in building up a small, though hitherto prosperous Colony, we hereby tender our resignations as Justices of the Peace, and hope that our names will be removed from the Commission as soon as possible.

We have the honour to remain,

Sir,

Your obedient servants,

John S. Goodhardt,

Edward J. Mathews,

Wm. W. Bertrand,

Robert Blake.

Bernard Stickney,

C. G. A. Anson,

For Henry H. Hennah,

(Andrew E. Baillon.)

Stanley, 14th July, 1893.

Sir,

I have the honour, by command of the Governor, to acknowledge the receipt through the Colonial Secretary, of your letter of the 10th January, forwarding communications from certain Justices of the Peace of the East and West Falklands, (in which former your signature appears) tendering their resignations of their positions as Justices.

Firstly. The Governor in Council is desirous of pointing out that the Governor is unable to accept a tender of resignation of these Justices *en bloc*, and of reminding you that all applications to resign should be made individually in writing by the Justice immediately concerned, and addressed through the proper channel.

Secondly. The Governor in Council would remind you that all applications should be couched in courteous and respectful terms to the Governor as representing Her Most Gracious Majesty the Queen.

Thirdly. The Governor in Council suggests that Justices holding other offices under the Crown should take into consideration the advisability of resigning such offices, or state the reasons for their not doing so, *i. e.*, if they desire to act consistently.

Fourthly. The Governor in Council cannot but regret that a body of English gentlemen should so far forget their obligations as such, and what is due to Her Majesty's representative as to act as they have done, and he must deprecate most strongly the fact of the agent of a powerful Corporation, such as that of the Falkland Islands Company, not only lending himself to a conspiracy to defeat the conscientious action of the Governor in Council, but even being a party to the discourtesy evinced in the correspondence forwarded through him.

In view of the opinion of the Justices the Governor in Council only feels it right to inform

THE FALKLAND ISLANDS GAZETTE.

you that he has already asked for a Commission of Enquiry on the Land Question, and that the expression of opinion as to his "*ability to understand the equitable right of the settlers*" must tend to His Lordship the Secretary of State acceding to his request.

As the Legal Adviser of the Government considers it doubtful whether the Governor is bound to accept the resignation as tendered, the Council advises that, on the receipt of the individual resignations, in accordance with paragraph 2 of this letter, a new Commission, from which the names of those resigning will be cancelled, will issue, and such Commission, with the correspondence which has taken place, will then be duly published in the Government Gazette.

I have the honour to be,

Sir,

Your obedient, Servant,

C. W. HILL,

Clerk to Executive Council.

has been treated as a Government reserve must in any case be excluded from the renewed lease. I am advised however that such land when it was leased, ceased to be a Government reserve and that it must be dealt with on the same footing as any other land comprised in a lease.

7. In two instances reservations proposed on the ground that they were formerly Government reserves are mapped out in such a way that they would most injuriously affect the lessees, viz:—two sections leased to Mr. Greenshields, known as Rincon del Moro and the Station leased to Mr. Cameron known as Fannings Head:—in each of these cases, if it should finally be decided to reserve for sale part of the land held by the lessee under his expired leases, some other part should be selected. This was indeed contemplated in Mr. Greenshield's case as stated in paragraph 11 of Sir R. Goldsworthy's despatch No. 127. I enclose an extract from a letter which I have received from Mr. Cameron on the subject of Fanning's Head Station.

8. With regard to paragraph 12 of Sir R. Goldsworthy's despatch No. 127, it is I think quite clear that the expression "within six miles by land" must be construed to include only land which can be reached by land without going more than six miles from Stanley or any township, this construction was adopted by Governor Callaghan and accepted by the Earl of Carnarvon in the correspondence noted in the margin* the question therefore of reserving for sale Kidney Island Station and part of Port Harriet Station must be dealt with on the assumption that they are not suburban but country lands. Captain Packe has strongly objected to the reservation of these stations, and has in a letter, of which I enclose an extract, made a proposal to surrender his leases of certain other stations on the conditions mentioned in his letter—I should wish you to consider this proposal.

9. I do not think it necessary to remark specifically upon any of the other proposed reservations as it would be necessary before I could come to any decision upon them that the several lessees should have an opportunity of making any representations or raising objections affecting the particular properties apart from the general objection which I have overruled to any reservation.

10. I request that you will carefully reconsider the whole question of the reservations—first endeavouring to ascertain the probable demand for the purchase of land by inhabitants of the Colony and then proceeding to select land for reservation for sale in concurrence as far as possible with the former lessees who will I trust on learning my decision assist in giving effect to it by coming to an agreement with the Government as to the land to be reserved for sale.

11. I am taking steps to obtain the services of a surveyor which will be required for surveying the lands to be put up for sale and also for surveying blocks of land which have been compulsorily purchased by lessees under the Ordinances but have not yet been allocated. In the case of expired leases where part of the Station is reserved for sale such blocks should

of course be allocated on the part not so reserved and if the whole station (except the purchased block) is reserved the former lessee should have the option of (1) having the block purchased by him allocated at the extremity of the Station (2) having such block allocated on another Station leased to him or (3) having such block sold with the rest of the reserved Station he joining in the conveyance to the purchaser to the extent of the number of acres which he had compulsorily purchased and receiving a proportionate amount of the purchase money for the whole Station.

12. I do not object to the proposal of the Governor and Executive Council that by the conditions of sale of land reserved from expired leases and put up for sale the purchasers should have the option of paying the purchase money by instalments with interest on the unpaid balances. This proposal follows the precedent set in the case of the large sales to the Falkland Islands Company and others under Ordinance 9 of 1890.

13. It will also be necessary to impose conditions as to fencing the land sold, and I should wish you to consider what such conditions should be.

14. With regard to the difficulty suggested in paragraph 3 of Sir R. Goldsworthy's despatch No. 127 of fixing the rent under a renewed lease if part of the land were reserved for sale and proved on survey to contain a greater acreage than that ascribed in the old lease to the entire station, such a case does not seem likely to arise; as if so large a proportion of the Station were reserved for sale it is scarcely probable that the lessee would care to renew the lease of the remaining portion.

15. It should be understood that if, when land reserved for sale is put up to auction, there is no bidding at or above the upset price, the former lessee will have the option of having a renewed lease of such land as if it had not been reserved for sale.

16. I have carefully considered the reasons stated by the Colonial Secretary for dissenting from the views of the majority of the Executive Council, but I am unable to concur in his views as to either the effect of the Ordinance or the injurious consequences to be apprehended from the sale of comparatively small areas of land; having learnt my views on the general question I have no doubt that he, as well as the other members of the Executive Council, will render you valuable advice and assistance in carrying them into effect.

17. If these questions are, as I trust they will be, approached in a spirit of moderation and conciliation, and with a determination to give full consideration to all reasonable representations, there should be no occasion for so exceptional a course as the appointment of the Special Commission recommended by the majority of the Executive Council.

18. I request that you will communicate a copy of this despatch to the memorialists.

I have the honour to be,

Sir,

Your most obedient,
humble servant,
RIPON.

SAVINGS' BANK REPORT, 1891---2.

Stanley, 16th March, 1893.

Sir,

I have the honour of forwarding for submission to His Excellency the Balance Sheet of the Savings' Bank for 1891---2.

The number of depositors and the amount of deposits have been as follows in the financial years since the opening of the Bank on 1st April, 1888 :—

Year.	No. of Depositors.	Amount of Deposits.		
		£	s.	d.
1888	32	4,201	1	5
1889	100	15,139	4	3
1890	157	17,810	12	2
1891	175	21,627	12	10
1892	196	24,940	9	5

The amount deposited has increased by £3,312 16s. 7d., and the number of depositors by twenty-one. Forty-two depositors have closed their accounts during the year, and sixty-three new accounts have been opened.

The average amount standing to the credit of each account is £127 4s. 11½d., and computing the population of the Colony at 1800, the average savings per head of population is £13 17s. 2d., a result which shows that wages are high and the investment of capital difficult.

The amount of deposits received during the year was £8,112 5s. 3d., and deposits repaid amounted to £5,355 9s. 2d.

The depositors have been credited with £556 0s. 6d. in interest during the year,

On 30th September, 1892, the sum of £20,661 13s. 1d. stood invested on account of the Savings' Bank, leaving a balance of £4,278 16s. 4d. due to the Savings' Bank by the Colonial Treasury. This balance is unduly large and should be decreased by investing a considerable amount as soon as possible.

The income earned by the Bank has been £583 6s. 0d., and the expenses incurred £560 4s. 6d., leaving a small profit of £23 1s. 6d., but no charge for management has been debited against the Bank this year; had this been done there would have been a loss. On the other hand the Bank has not been credited with any interest on the large balance held by the Colonial Treasury.

Should the business of the Bank increase at the present ratio it will be necessary before long to appoint a special manager for it.

I have the honour to be, Sir,

Your Obedient Servant,

CHARLES A. FRASER, *Treasurer.*

J. J. FELTON.

At a Meeting of the LEGISLATIVE COUNCIL held at Government House on Thursday, the 29th day of December, 1892.

Present: His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor
(President).

Hon. R. M. Routledge, Colonial Secretary.
Hon. C. A. Fraser, Colonial Treasurer.
Hon. S. Hamilton, Colonial Surgeon.
Hon. J. J. Felton.
Hon. A. E. Baillon.

The minutes of the previous Meeting were read and confirmed.

His Excellency informed the unofficial members that, previous to meeting, he had held an Executive Council to consider the proposal made by Mr. Felton in the Legislative Council yesterday, when the Pound Order was introduced into the Council, that a tax should be levied on animals grazing on the commonage before the fence round the town was erected and that the Council considered it would be inadvisable to act on the Honourable Member's suggestion and that therefore he was glad to learn that, consequent on a conversation with the Colonial Secretary, in which it was explained to Mr. Felton that there were legal difficulties in the way, the Honourable Member had expressed his willingness not to press his proposal further.

On the motion of the Colonial Treasurer being carried that the Council should resolve itself into Committee for the re-consideration of the Ordinance entitled the Postal Ordinance some discussion took place in the matter of compensation as to the distinction to be made between "Imperial" and "Local" letters when the following amendments were proposed and agreed to:—

In clause 4, line 5 before the word "rate" the insertion of the word "local," line 6 after the word "letter" the insertion of the word "local."

In clause 5 the following words were added: "and shall come into operation on the First day of February, 1893."

The Council resumed its sitting.

The Honourable the Colonial Treasurer moved the third reading of the Bill, the Colonial Surgeon Seconded.

The Honourable A. E. Baillon stated that as the practice hitherto in force had met local wants and as the present Bill would not increase the revenue to any great extent, as admitted by the Colonial Treasurer, he felt compelled to record his dissent to it.

The Honourable the Colonial Secretary moved the second reading and consideration in Committee of the "Pound Ordinance, 1893." The same being carried the following amendments were agreed to:—

Clause 1, line 8. After the word "exceeding" the insertion of the words "two pounds."

Line 9. After the word "offence" the insertion of the words "one half thereof to be paid to the informer."

Clause 3, line 2. After the word "of" the insertion of the words "five shillings."

Line 3. After the word "of" the insertion the words "one shilling."

Line 8. After the word "of" the insertion of the words "five pounds."

Clause 4, line 2. After the word "within" the insertion of the words "ten days."

Clause 6, line 6. After the word "of" the insertion of the words "five pounds,"

The Bill was left in Committee stage.

The Council adjourned *sine die*.

J. J. FELTON.

At a Meeting of the LEGISLATIVE COUNCIL held at Government House, on Thursday, the 27th day of April, 1893, at 11 a.m.

Present: His Excellency George Melville, Esq., C.M.G., Administrator.
(President).

Hon. R. M. Routledge, Colonial Secretary.

Hon. C. A. Fraser, Colonial Treasurer.

Hon. J. J. Felton.

Hon. A. E. Baillon.

The minutes of the previous Meeting were read and confirmed.

His Excellency referred to the measures on the Orders of the Day, all of which, with the exception of the Volunteer Ordinance and the Ordinance for incorporating the Trustees of Christ Church, Stanley, Falkland Islands, as a Body Corporate, had already been put before the Council and did not call for any special observation.

The principal object of the Volunteer Ordinance was to provide for the organisation of a Volunteer Force and to legalise a capitation grant.

The reasons for introducing an Ordinance for incorporating the Trustees of Christ Church as a Body Corporate will be explained by the Colonial Secretary when the Ordinance comes on for reading. His Excellency added that it would seem but discourteous if he did not express his pleasure in meeting the Members of the Council for the first time, and he felt a conviction that he would receive the loyal support of the Council so as to enable him to give effect to the Secretary of State's instructions in the matter of the Land Question and such other measures as might be brought before them to advance the welfare of the Colony.

His Excellency then laid on the table a despatch, No. 16, of 31st January, 1893, giving the Secretary of State's views in detail on the Land Question. The Honourable J. J. Felton thanked His Excellency on behalf of the Honourable A. E. Baillon and himself, for his kind remarks, and assured His Excellency that he would receive their loyal support in every way. If differences of opinion should exist they would, the Honourable Member added, arise as a purely business matter.

On the Council resolving itself into Committee the Honourable the Colonial Secretary suggested that the consideration of the Ordinance to provide for the better protection of property in Stanley against injury from the trespassing of animals within the town should remain in abeyance until the fencing round the town was completed, as it would be impossible at the present time to fix a date on which the Bill should come into operation.

His Excellency was of opinion that the consideration of the Bill should be proceeded with as it could be brought into operation by proclamation at any time.

The Honourable J. J. Felton & A. E. Baillon asked that the Bill might be allowed to remain in Committee stage, as it could be brought up again before next Spring, by which time the fence would be completed, and the towns people would have brought in their animals from the Camp for pasturage on the Commonage. This was agreed to.

The Honourable the Colonial Treasurer moved the introduction and First reading of a Bill entitled "An Ordinance to amend the Local Taxation Ordinance 1892."

The Honourable the Colonial Secretary seconded and the Bill was read by title.

On a motion duly made and carried the Standing Orders were suspended with a view to the Bill going through its various stages.

The Honourable the Colonial Treasurer in moving the Second reading explained that the Bill was introduced in accordance with instructions received from the Right Honourable the Secretary of State. The Bill went through its second and third readings and was passed.

His Excellency explained that the introduction of an Ordinance to repeal Ordinance No. 8 of 1892, and to provide for the Service of the Colony of the Falkland Islands for the year 1892, was necessitated by the amendments made in the Estimates for 1893, in accordance with instructions contained in the Secretary of State's despatches No. 3 & 4 of 4th January, 1893, which were read, and that, as in making the amendments, it was found that the totals differed from those in the Schedule of Ordinance No. 8 of 1892, it was considered more convenient to repeal that Ordinance and introduce the present one.

During the explanation by the Honourable the Colonial Treasurer of the various amendments in the Estimates the Honourable A. E. Baillon called attention to the fact that the addition to the Mail Subsidy for San Carlos Mail had not been sanctioned. The Honourable the Colonial Treasurer explained that the vote

"Mail Schooner" was taken as the "Hadassah" was then running, and that consequently no item providing for a subsidy for a local Mail service was ever before the Council. It was now proposed to eliminate the vote "Mail Schooner," and to insert an amount in lieu of that item.

The Honourable the Colonial Treasurer having further explained the differences in the Estimates as amended moved the introduction and first reading of a Bill entitled—"An Ordinance to repeal Ordinance No. 8 of 1892, and to provide for the service of the Colony of the Falkland Islands for the year 1893." The Hon. J. J. Felton seconded the motion, and the Bill was read a third time.

On motion duly made and seconded the Standing Orders were suspended and the Bill went through its various stages and was passed.

The Honourable the Colonial Treasurer moved the introduction and first reading of a Bill entitled—"An Ordinance to make further provision for the service of the Colony of the Falkland Islands for the year 1892." The Honourable the Colonial Secretary seconded and the Bill was read by Title.

On motion duly made and seconded the Standing Orders were suspended in order that the Bill might be proceeded with.

The Honourable the Colonial Treasurer moved the second reading and consideration in Committee. The Honourable J. J. Felton seconded, and the motion was carried.

The Council then resolved itself into Committee.

The Honourable the Colonial Treasurer explained in detail the reasons for the various excesses.

The Honourable J. J. Felton observed that the expenditure on Pilotage exceeded that of the revenue, and remarked on the unsatisfactory state of the Pilot Service.

His Excellency said he thought it would be better to license pilots, especially as the Government had not at present any pilot boat; and stated that any resolution of the Council moved with a view to rendering the pilot service more efficient would receive consideration.

After the Honourable J. J. Felton had related the system of licensing pilots which had been in force in previous years, the Honourable the Un-official Members expressed a hope that before any permanent arrangement as to Pilotage was made for 1894 His Excellency would consider whether it would not be better to return to the former system as provided by Ordinance No. 5 of 1871.

The Honourable the Un-official Members also expressed a hope that there would be no excess of expenditure on the £350 voted by the Council last year for the erection of a Custom and Bonded Warehouse and Drill Hall. His Excellency informed the Council of the cost up to the 15th April, and expressed the opinion that if a portion of the building were partitioned off as a Bonded Warehouse insufficient space would be left for the purposes of a Drill Hall. He added that the present Queen's Warehouse met the requirements of the Colony.

The Council having resumed its sitting the Honourable the Colonial Treasurer moved the third reading and passing of the Bill, the Honourable A. E. Baillon seconded and the Bill was read a third time and passed.

The Honourable the Colonial Secretary moved the introduction and first reading of an Ordinance for "Incorporating the Trustees of Christ Church, Stanley, as a Body Corporate." The Honourable J. J. Felton seconded and the Bill was read by Title.

On motion duly made and seconded the Standing Orders were suspended, and on the second reading being moved the Honourable the Colonial Secretary explained that the Bill showed what had taken place under the Constitution of the Church, and gave the Trustees the usual powers as a Body Corporate.

The motion for the second reading being carried the Council resolved itself into Committee and the Bill was considered.

On the Council resuming its sitting the Honourable Member in charge moved the third reading, this was seconded by the Honourable A. E. Baillon, and the Bill was read a third time and passed.

The Honourable the Colonial Treasurer moved the introduction and first reading of "An Ordinance to provide for the establishment of a Volunteer Force." The Honourable the Colonial Secretary seconded and the Bill was read by Title.

The Council adjourned until the 28th instant.

J. J. FELTON.

At a Meeting of the LEGISLATIVE COUNCIL, held at Government House, on Monday, the 1st day of May, 1893, at 11 a.m.

Present: His Excellency George Melville, Esq., C.M.G., Administrator,
(President).

Hon. R. M. Routledge, Colonial Secretary.

Hon. S. Hamilton, Colonial Surgeon.

Hon. J. J. Felton.

Hon. A. E. Baillon.

The minutes of the previous Meeting were read and confirmed.

His Excellency observed that according to adjournment the Council should have met on the 28th of April, but had been postponed till the 1st of May, as the Admiral of the Pacific Station had visited the Port and had desired to see His Excellency on business matters.

In the absence of the Honourable the Colonial Treasurer the Colonial Secretary took charge of the Bill to provide for the establishment of a Volunteer Force. The Honourable Member having explained that the Bill had been framed on the basis of the Volunteer Ordinance in force in the Straits Settlements, and had been brought forward, with the approval of, and as amended by the Right Honourable the Secretary of State, moved the introduction and first reading of the Bill. The Honourable the Colonial Surgeon seconded and the Bill was read by title.

On a motion duly made and carried the Standing Orders were suspended with a view to the consideration of the Bill being proceeded with.

The Honourable the Colonial Secretary moved the Second reading, the Hon. J. J. Felton seconded and the Bill was read a Second time.

The Council then went into Committee.

The Honourable J. J. Felton questioned the need of legislating for the provisions set forth in the Draft Bill and asked if it was considered that the feeling displayed was such as to prove the true wish of the people to join the movement. So far he considered legislation on the lines before the Council was premature, but thought that perhaps it would be necessary to legislate for the enrolment of Volunteers and for the proper care of the arms, accoutrements, &c., which had been supplied by the Imperial Government. The Honourable Member asked for information as to the minimum number of efficient men that would be required to entitle the Corps to be deemed in a state of efficiency and the extent to which the Colony would be liable by the expense that would be entailed by way of capitation grants.

The Honourable A. E. Baillon expressed a doubt as to the necessity of the movement, as he was of the opinion that the security of the Colony would be better conserved by its defenceless position. The Honourable Member added that last year he had opposed the vote for a Drill Instructor, and felt that an extra expense would be unnecessarily incurred under the proposed Bill if it were passed.

His Excellency said that the Bill was a Government measure, but that he had not received definite instructions from the Secretary of State to pass it. It would however be as well to go through the clauses of the Draft Bill and, if necessary, to leave it in Committee stage that a report might be made to the Secretary of State on any views that might be expressed in opposition to it. His Excellency added that it would be a pity that the movement having gone so far, and having regard to the liberal way in which the Imperial Government had assisted it, that it should be now discouraged. Regulations would be framed, His Excellency further added declaring what would be required by a volunteer to earn the capitation grant, but the Colony would not render itself liable to any extent unless the Corps was passed as being in an efficient state. A report, showing the attendance at drills, &c., would be called for and submitted to the Council.

After some questions had been put to the Drill Instructor, who was summoned to give information as to the strength, arrangements for the armoury, opportunities of inspecting arms, and as to the number of parades, and had been replied to, the Bill was left in Committee stage.

Before adjourning to the Council His Excellency stated that, owing to neglect, extra expenditure would probably have to be incurred to prevent the Government House garden from getting beyond reclamation. The Council agreed with His Excellency and unanimously approved of the vote being exceeded under the circumstances explained.

Read and confirmed this 12th day of June, 1893.

Clerk to the Legislative Council.

SATURDAY, JUNE 17, 1893.

His Excellency the Administrator in directing the publication for general information of the following Resolutions dealing with the conditions under which any land to be reserved for sale will be exposed to public auction, directs also that the following extracts from a Despatch of the Right Honourable the Secretary of State dated 12th March, 1892, be now made public, so that the inhabitants of the Colony generally may be informed as to why there is no land available for leasing to applicants for grazing leases.

Downing Street,
12th March, 1892.

Falkland Islands,
No. 25.

Sir,

With reference to previous correspondence respecting the rights of the Government of the Falkland Islands in relation to certain lessees and purchasers of Crown Lands in that Colony, I have the honour to inform you that in view of the claims put forward by the lessees and the possibility of the Colonial Government being involved in litigation, I have consulted the Law Officers of the Crown upon the rights of the Colonial Government in respect of the Crown Lands, and I am advised that, if a survey should prove that the quantity of land occupied by any lessee and comprised within the boundaries defined in his lease exceeds the quantity which was stated in the lease and upon which the rent reserved by the lease was computed at the rate prescribed by the Ordinance under which the lease was granted, the Colonial Government is not legally or equitably entitled to have the lease rectified either by correcting the statement of the acreage of the land leased in accordance with the survey and increasing the rent in proportion to the increased acreage or by altering the boundaries of the land leased so as to include only the quantity of land stated in the lease.

2. I am further advised that upon the expiration of a lease the Colonial Government is not legally or equitably entitled in granting a new lease to the former lessee under Section 2 of Ordinance 9 of 1882 to comprise in the new lease so much only of the land comprised within the boundaries defined in the old lease as shall be ascertained by survey to contain the number of acres specified in the old lease and to lease to any other person or persons the surplus of such land-

or to comprise in the new lease the whole of such land and to reserve the rent at the rate of £20 for every six thousand acres of the actual quantity of such land as ascertained by survey.

3. Having regard to this opinion I am * * * to instruct you to grant to the holders of the expired leases new leases of such of the lands comprised in the expired leases as the Governor in Executive Council shall not think it expedient to sell, or reserve for public uses, at the rate of £20 for every six thousand acres of the quantities stated in the expired leases without any stipulations for increase or diminution of rent in the event of such quantities proving on survey to be greater or less than the actual quantities of land comprised within the boundaries stated in the leases and defined in the official chart.

4. The effect of this will be that there will be no land available for leasing to the applicants for grazing leases, but it is possible that some of them may be willing to purchase land, and you should consider with your Executive Council and report to me whether it is expedient that any portions of the land comprised in any of the expired leases should be put up for sale under Sec. 2 of Ordinance 9 of 1882, and you should reserve out of the new lease any land which you think it expedient to sell pending the decision of the Secretary of State.

5. I am also advised that in the case of a lease in which the boundaries were not completely defined but were stated as extending for a specified distance from a given point, if it appeared that the lessee had occupied no more land than according to the practice and interpretation at the time of the granting of the lease he was entitled to occupy, the Colonial Government would not be legally or equitably entitled (a) to resume possession of any land occupied by the lessee beyond the boundaries stated in the lease as ascertained by survey, or (b) to recover back rent for the use and occupation of such land.

* * * * *

8. You will have the goodness to inform the Memorialists, whose petition accompanied your despatch No. 118 of 19th August last that, having regard to the advice which I have received from the Law Officers of the Crown as to the legal rights and powers of the Colonial Government, I am unable to comply with their petition.

In these circumstances it is obviously inexpedient that the Colony should incur the expense of a general survey and it will depend upon your reply to paragraphs 3 and 5 of this despatch whether there will be any necessity for a surveyor to proceed to the Colony for the purpose of making particular surveys.

I have, &c.,

KNUTSFORD.

Resolutions referred to above.

Whereas the Right Honourable the Secretary of State for the Colonies by a Despatch No. 25, of the 12th of March, 1892, issued an instruction to the effect that there was no land available in the Falkland Islands for the purpose of leasing, and by further instructions contained in Despatch No. 16 of the 31st January, 1893, directed certain steps to be taken for the purpose of ascertaining the probable demand for the purchase of land by the inhabitants of the Colony; and

Whereas applications have been received from certain inhabitants of the Colony for the purchase of land; and

Whereas it is now deemed expedient to carry out the several

instructions of the Secretary of State as set forth in His Lordship's Despatch of last-mentioned date ;

Be it resolved that the following conditions be published for the information of intending purchasers as the conditions under which any land to be reserved for sale will be exposed to public auction :

- I.—That the latest date up to which applications for the purchase of reserved land by intending purchasers shall be received by the Government shall be the 31st July, 1893 ;
- II.—That all land reserved shall be exposed to public auction at an upset price of four shillings per acre ;
- III.—That the purchasers shall be allowed ten years to complete the purchase of the land bought by equal yearly payments ;
- IV.—That the first instalment of the purchase money shall be paid by the purchaser immediately after the sale to him, and interest at the rate of $2\frac{1}{2}$ per centum per annum shall be payable half yearly on the unpaid balance of the purchase money.
- V.—That no title shall issue to the purchaser until the last instalment of the purchase money shall have been paid ;
- VI.—That any payments to be claimed by the outgoing lessee for improvements shall be payable by the purchaser on valuation at date of entry, or at some later date by special agreement with the outgoing lessee, approved of by the Government ;
- VII.—That before any stock shall be placed by the purchaser on the lands so purchased, a suitable dwelling-house shall be erected ; proper arrangements for the dipping of sheep provided ; and the lands shall be completely fenced in by a proper sheep-proof fence, the cost to be borne equally by the purchaser and the lessee of the surrounding land ;
- VIII.—That any alienation of the lands purchased before the purchaser shall have paid up all instalments of the purchase-money due under the said purchase shall render the purchase null and void, and the lands so alienated shall revert to and become the property of the Crown ; provided always that on the death of any purchaser before the completion of the purchase and the issue of the title to him shall have been made, the Governor in Council shall in the event of the heirs of the purchaser declining to fulfil the contract for purchase direct a sale of the said lands to be made by public auction and allow compensation to the heirs of the deceased for any improvements on the land so directed to be sold. Provided, however, that any purchase made under the foregoing proviso shall not entitle the purchaser to any extension of the period of purchase over and above the original period of purchase.

Passed and approved in Legislative Council this 14th day of June, 1893.

Minutes of Proceedings at a Meeting of the LEGISLATIVE COUNCIL held at Government House on Monday, the 12th day of June, 1893.

Present: His Excellency George Melville, Esq., C.M.G., Administrator.

(President).

Hon. R. M. Routledge, Colonial Secretary.

Hon. C. A. Fraser, Colonial Treasurer.

Hon. S. Hamilton, Colonial Surgeon.

Hon. J. J. Felton.

Hon. A. E. Baillon.

The minutes of the previous Meeting were read and confirmed.

His Excellency, in referring to the Orders of the Day, observed that the Pound Ordinance would remain in Committee in accordance with the decision of the Council expressed at a meeting held on the 27th day of April, 1893.

With regard to the next item of business before the Council, His Excellency reminded the Council of what had passed at the last meeting in connection with the Volunteer Ordinance, but after the correspondence that had subsequently taken place, in which the origin and history which led to the introduction of the Bill was expressed, said that the consideration of the Bill would now be proceeded with.

On a motion by the Honourable the Colonial Treasurer, seconded by the Honourable the Colonial Secretary, the Council resumed its sitting, and the Honourable the Colonial Treasurer moved the third reading and passing of the Bill. The Honourable the Colonial Surgeon seconded and the Bill was read a third time and passed.

His Excellency then laid before the Council Resolutions showing the conditions under which it was proposed that intending purchasers should purchase land, the need for the drafting of which was shown in a preamble to the Resolutions which had been drawn up in Executive Council for submission to the Legislative Council before being published, and for the information of the several applicants who had asked for details as to such conditions.

His Excellency read through the Resolutions touching on certain clauses which would require especial attention, remarking that there might be some difficulty as to the question of fencing.

The Hon. J. J. Felton asked that the position of the lessee might be considered before that of the purchaser. So long as two years ago Governor Goldsworthy had cautioned lessees not to proceed any further with fencing. Lessees were now called upon to surrender land, and as perhaps they may have to surrender more than they have already offered the Hon. Member asked to be informed whether any more land would be required. The Hon. Member dwelt on the hardship of having to pay for fencing again simply because a needy farmer was introduced to land adjoining that of the leaseholder. He mentioned the difficulty, trouble and expense experienced in keeping sheep clean, and the risk of the welfare of the Colony being jeopardised by the introduction of dirty sheep. All previous records, the Hon. Member continued, of small holdings had practically proved a failure; and if the Government was going to try it again it would be only an experiment and the Government ought to protect the leaseholder on whom, together with other conditions, a condition as to stocking to a certain amount within a given time had been imposed.

His Excellency replied that applicants for land must be first informed of the conditions of their liabilities, and on which an answer to the Hon. Member's question much depended; but that sufficient land had in his opinion been already offered to meet the present demand of applicants. The Government could therefore safely inform the leaseholders who had come forward and met the Government half-way that no further land would be required from them.

The Hon. the Colonial Secretary then moved the clauses of the Resolutions *seriatim*.

On Clause 1, the Hon. A. E. Baillon asked if the conditions now before the Council would be embodied in an Ordinance.

His Excellency replied that the former land laws would probably be repealed and an Ordinance, in parts, introduced containing the conditions under discussion; if the former Ordinances were not repealed an Ordinance would be introduced embodying the conditions.

The Hon. J. J. Felton asked if the sales would take place under the conditions as they stood.

The Hon. the Colonial Secretary explained the action that had been taken and which had led to the framing of the Resolutions. He did not altogether agree with the terms of the conditions. It was proposed, however, that the sale of land should take place under these conditions, and if an Ordinance were subsequently introduced they would be embodied in it.

The Hon. the Colonial Secretary then moved that Clause 1 should remain part of the Resolution. The Hon. J. J. Felton seconded and the motion was carried.

Clause 2 on being moved by the Hon. the Colonial Secretary, and seconded by the Hon. A. E. Baillon was carried.

On Clause 3 being read, the Hon. the Col. Sec. remarked that the words "or longer" did not meet with his approval, it was not in the original draft as the Secretary of State had stated that the terms of sale should follow the precedent set in the case of sales to the Falkland Islands Company and others under Ordinance 9 of 1890 which only allowed ten years. If the time were prolonged some trouble would be caused to Government Officials, and but little assistance would be given to the purchaser as it would delay the issue of a title. He thought that if the time were extended the interest of two-and-a-half per centum per annum would be too small. He, however, did not object to the clause as it stood, as the decision of the Secretary of State would be required before it could be acted upon.

The Hons. J. J. Felton and A. E. Baillon quite agreed that ten years was ample time within which all instalments should be paid up, and thought the interest too low if time were extended.

The Hon. the Col. Treasurer said he was in favour of an extension of time, but it would not prevent a man from paying up before the 10 years if he wished to do so as to obtain his title. He thought two-and-a-half per centum per annum was a fair rate taking the present price of consols as the Government would receive a larger amount than hitherto per acre as the price would be fixed on a surveyed and accurate acre.

His Excellency thought it would be well to keep the words as they stood but asked that the sense of the Council as to the limit of time might be recorded, if necessary, in an amendment.

The Honourable J. J. Felton then moved that the words "or longer should the Secretary of State sanction it" be removed from the Clause, the Honourable A. E. Baillon seconded.

The Council then divided.

For the amendment.

The Honourable A. E. Baillon.

The Honourable J. J. Felton.

The Honourable the Colonial Secretary.

Against the amendment.

The Honourable the Colonial Treasurer.

The Honourable the Colonial Surgeon.

The amendment was therefore carried and read as follows:—

3.—"The purchaser shall be allowed ten years to complete the purchase of the land bought by equal yearly instalments."

His Excellency stated that in forwarding the Resolutions he would inform the Secretary of State of the debate that had taken place on the Clause.

Clause 4 on being moved by the Honourable the Colonial Secretary and seconded by the Honourable J. J. Felton was carried.

Clause 5 on being moved by the Honourable the Colonial Secretary and seconded by the Honourable A. E. Baillon was carried.

Clause 6 on being moved by the Honourable the Colonial Secretary and seconded by the Honourable J. J. Felton was carried.

Clause 7. Referring to what had already fallen from the Honourable J. J. Felton, His Excellency was aware of the difficulty experienced in framing this clause, and perhaps it would be necessary to refer the matter again to the Secretary of State before a decision was arrived at. His Excellency explained that, as to the cost, he had added the words "the cost thereof to be met equally by the purchaser and the lessee of the surrounding land" but that the question as to what

would be a fair way of settling the matter should be fully discussed. In reply to the Honourable J. J. Felton's question as to what liability would be incurred if the cost of fencing was not paid up and as to the kind of fence to be erected, His Excellency said that it would not be practicable to enter into details in these Resolutions, but that they would probably be met either by the provisions in a new Ordinance or by regulations passed under such an Ordinance.

The Honourable J. J. Felton repeated that it was hard on leaseholders who had already been obliged to fence in to pay up for another, and having given up a sea boundary to be now obliged to pay for the half of the cost of a divisional fence. A leaseholder, moreover, might have two or more freeholders round him and it would fall hard upon the leaseholders to manage the cost within the time defined; he quite recognised the difficulty on the other hand to the incoming tenant to have to pay for the whole cost.

It was explained to the Honourable member that compensation to the leaseholders for existing fences would be compulsory on the new tenant, and perhaps if the clause were amended so as to leave it optional to the leaseholders to call upon the incoming tenant to fence it would meet the views of both parties.

The Honourable A. E. Baillon thought that Clause 7 should run concurrent with Clause 8, so as to ensure the risk of the leaseholder against any infection from dirty sheep.

After further discussion His Excellency thought that it would be better to defer the discussion on this clause to another meeting by which time the clause might be amended and re-submitted for the consideration of the Council.

This was agreed to.

The Honourable the Colonial Treasurer moved the following Resolutions :—

“Resolved that a vote of £6 2 9 be taken to settle claims received for compensation in respect of parcels lost in the wreck of the steamer “Neko.”

The Honourable A. E. Baillon seconded and the motion was carried.

“Resolved that a free grant of certain materials be given to Dean Brandon towards the erection of a lean-to to the South side of the Government building known as the Par-sonage.”

The Honourable J. J. Felton seconded and the motion was carried.

“Resolved that a vote be taken for a contribution of £15 12 towards the maintenance of an idiot child in an English asylum.”

After consideration an amendment to the Resolution was made, and the Resolution stood as follows :—

“Resolved that a vote be taken for the contribution of £6 18 0 and that it be placed on the Estimates for 1894, towards the maintenance of an idiot child in an English Asylum for the period 1st January to 10th June, 1894, when the Government guarantee of 3 years would terminate.

The Honourable A. E. Baillon seconded and the Resolution as amended was carried.

“Resolved that a vote of £7 9 be taken towards the erection of a partition fence between Church and Government land on the South side of Christ Church.”

The Honourable J. J. Felton seconded and the motion was carried.

The Council adjourned until Wednesday the 14th instant.

Read and confirmed this 14th day of June, 1893.

Minutes of Proceedings at a Meeting of the LEGISLATIVE COUNCIL held at Government House, on the 14th day of June, 1893.

Present : His Excellency George Melville, Esq., C.M.G., Administrator,
(President).

Hon. R. M. Routledge, Colonial Secretary.

Hon. C. A. Fraser, Colonial Treasurer.

Hon. S. Hamilton, Colonial Surgeon.

Hon. J. J. Felton.

Hon. A. E. Baillon.

The minutes of the previous Meeting were read and confirmed.

Before resuming the consideration of Clause 7 of the Resolutions relating to the proposed sale of land, His Excellency said that he desired it recorded on the minutes that he had read the Secretary of State's despatch No. 25 of March 12th, 1892, which it was his intention to publish as a preliminary notice to the Resolutions as, among other things, it would clearly show to the inhabitants of the Colony that the Government had no land available for leasing in these Islands. His Excellency added that had such a notification been made directly after the receipt of this despatch in April, 1892, he was of opinion that it would have saved a good deal of misunderstanding and have limited the applications which had been received to those for purchase and not for lease and the applicants would no doubt then have been only genuine small sheep farmers.

The Hon. J. J. Felton expressed the hope that if His Excellency was satisfied with the offers made by the lessees, who, in their desire to comply with the request of the Secretary of State, had surrendered portions of their holdings, and that the same were sufficient to meet the probable demand that they might be notified to that effect and that their leases might be renewed accordingly; as it was important that they should be relieved from the uncertainty which for the last two years they had been subjected to and as it had seriously retarded a lot of necessary work.

The Hon. A. E. Baillon also asked His Excellency if he were not now in a position, in accordance with the instructions laid down in the despatch which had just been read, to renew the leases at once as enquiries were constantly being made of him on the subject. The Hon. member referred to the position of the long-suffering leaseholders who had borne the heat and burden of the day and thought they ought to be considered now that the position of the new comers in the shape of the small freeholders was under discussion.

His Excellency replied that in sending the Resolutions home, as they may be passed by the Council, he would recommend to the Secretary of State that the leases should be renewed to those who had given up portions of their leaseholds in accordance with paragraph 10 of the Secretary of State's despatch of January 31st. His Excellency reminded the Hon. member that the leaseholders had not been made aware of the terms of the despatch of March 12th, 1892, as to there being no land available for leasing until December 21st of the same year and then only the Falkland Islands Company and Mr. Smith, the latter presumably as the representative of the memorialists whose petition accompanied Sir R. Goldsworthy's despatch of August 19th, 1891, a copy of which petition by the way, or of the reply to it, His Excellency, had been unable to find. Meanwhile he would point out that the large reservations proposed by Sir R. Goldsworthy had been notified to the leaseholders.

The Hon. the Colonial Treasurer mentioned that certain leaseholders had refused to accept the renewal of their leases after reservations had been proposed, and, that being so, they had no cause of complaint as to their non-renewal.

The Hon. J. J. Felton remarked that he was well aware of the fact that leaseholders were naturally disinclined to accept the renewal of their leases under the state of matters as existed when the first reservations were being made.

The Honourable the Colonial Secretary explained that unquestionably leaseholders had refused to accept renewals of their leases as offered to them by Governor Goldsworthy and rightly so, when, by a fell scoop, the leaseholder in many cases was to be deprived of his homestead and plant and left with an unworkable station but that action was now being taken under the despatch of January 31st, 1893. By despatch of March 12th, 1892, the Governor was instructed that reservations for

sale should be made and that the leases of the remaining portions should be renewed. Certain portions, as directed by paragraph 10 of the Secretary of State's despatch of January 31st, with the concurrence of the leaseholders, were now being reserved for sale and it entirely rested with His Excellency to act upon the instructions laid down in despatch 25 of March 12th, 1892, and at once renew the leases of the remaining portions to the leaseholders if His Excellency considered a sufficiency of land had been given up.

The consideration of Resolution No. 7 was then resumed.

The Honourable the Colonial Secretary remarked that the greatest difficulty met with at the last meeting was that of fencing under Clause 7. Suggestions had been made so as to protect the interest of the leaseholders against the risk of the freeholder introducing new flocks which might have scab, and he hoped that the amended Resolution he was now about to move would meet with general approval.

He then moved that Clauses 7 and 8 be deleted and that the following clause be substituted, namely :—

Clause 7. "That before any stock shall be placed by the purchaser on the lands so purchased, a suitable dwelling-house shall be erected, proper arrangements for dipping of sheep provided, and the lands shall be completely fenced in by a proper sheep-proof fence, the cost of the erection of such fence to be borne equally by the purchaser and the lessee of the surrounding land."

The Honourables J. J. Felton and A. E. Baillon having regard to the great object of preventing as far as possible the spread of scab, approved of the amended clause, as they were willing to give way to the cost of the fence being met equally by the purchaser and the lessee, if the fence were to be put up before stock was brought on to the land.

The Honourable the Colonial Treasurer said he preferred the former Clauses 7 and 8 as they were not so drastic as the amended one which would run too much into a man's capital at first. He thought that the views expressed as to the risk of infection had been somewhat exaggerated.

His Excellency in comparing the two Resolutions observed with reference to the remarks of the Hon. Member who had just spoken, that the words "providing for the cost of fencing being met equally by the leaseholder and the small freeholder" had been added by himself (His Excellency) and that he understood now that, on the guarantee given in the new clause, security so far would be given against the risk of the spread of disease from the sheep of small holders who might not have the proper arrangements for dipping; the leaseholders were willing to meet half the cost of the fencing of those portions of their leaseholds which they had given up to assist the Government in meeting a genuine demand for land. His Excellency also pointed out that whereas in the clause as first submitted three years might probably elapse before sheep could be put on the farms of intending purchasers they would be enabled by the clause now proposed to stock whenever fencing was completed and proper arrangements for sheep farming had been made. His Excellency was under the impression that the first arrangements a sheep farmer would make would naturally be to set up his plant for managing his farm before stocking. His Excellency concluded by saying that in dealing with this question it had been his duty to endeavour to settle it amicably, and to show fair play and justice all round.

On His Excellency asking to be favoured with the views of all members on the question under discussion, the Honourable the Colonial Surgeon stated that he was of the opinion that if small farmers wish to start on their own account, they ought to be encouraged, there should be a give and take between the leaseholder and the new tenant. It is imperative upon the Government, he considered, to give the head shepherds encouragement and their interests, as hard working men, should be fostered; they should not be over encumbered with the cost of fencing as they may not have the wherewithal to meet it, though they have the knowledge and experience of sheep farming. The money lying dormant in the Savings' Bank, if these men were to obtain freeholds, would, he considered, be properly utilised.

His Excellency stated that in the opinions expressed by the Colonial Surgeon he entirely agreed and he took it that every member of the Council did the same. His interpretation of the words "real demand for the purchase of land" in the 4th paragraph of the Secretary of State's Despatch of the 31st January, was a demand

for land by the class of men mentioned by the Colonial Surgeon—the head shepherds in these Islands—and to these men every help and encouragement should and would be given.

After some further discussion between the Honourable the Colonial Secretary and the Honourable the Colonial Surgeon as to the probable effect of the introduction of small holders,

The Honourable J. J. Felton seconded the motion as amended.

The Council then divided.

For the amendment,

The Honourable A. E. Baillon.

„ J. J. Felton.

„ Colonial Secretary.

Against the amendment.

The Honourable the Colonial Surgeon.

„ Colonial Treasurer.

The amendment was therefore carried.

The Honourable the Colonial Secretary explained that the last Clause which now stood as Clause 8, would require, in order to secure compliance with Clause 3 as passed, the deletion of the words, “as under condition No. 3,” and with permission he would move the Clause accordingly.

The Honourable A. E. Baillon seconded and the motion was carried.

The Resolutions as passed were then ordered to be recorded on the Minutes.*

His Excellency laid before the Council certain papers relating to a promise made by Sir R. Goldsworthy that the son of the Treasury Clerk, William Coulson, who appears on the Estimates under “Governor” as Office-Keeper and Messenger, but who is also messenger to the Government Offices, should have an increase of salary. He explained that this young officer had been now two years in the service, and recommended that he should have a slight increase of salary which could be added to if he continued to perform his duties in a satisfactory manner.

The Honourable the Colonial Secretary then moved the following Resolution:—

“Resolved that a sum of ten shillings per mensem be voted as an increase in the salary of the Office-Keeper and Messenger.”

The Honourable J. J. Felton seconded and the motion was carried.

His Excellency then referred to the estimated cost of putting in windows and doors and for flooring the new Customs Shed which, as it exceeded the funds in hand, would necessitate the work being postponed for the present.

The Council left it open to His Excellency to decide what would be the best way to turn this building to some account as also as to how the Stable at Government House should be best disposed of.

The Council was then adjourned *sine die*.

SATURDAY, SEPTEMBER 9, 1893.

His Excellency the Administrator directs the publication, for general information, of the following Minutes of Proceedings of the Legislative Council held on the 4th September.

By Command.

R. M. ROUTLEDGE,
Colonial Secretary.

Government Secretariat.

Stanley, 9th September, 1893.

Minutes of Proceedings at a Meeting of the LEGISLATIVE COUNCIL held at Government House, on the 4th day of September, 1893.

Present : His Excellency George Melville, Esq., C.M.G., Administrator.
(President).

Hon. R. M. Routledge, Colonial Secretary.

Hon. C. A. Fraser, Colonial Treasurer.

Hon. S. Hamilton, Colonial Surgeon.

Hon. J. J. Felton.

Hon. A. E. Baillon.

Before proceeding with the business standing on the Orders of the Day, His Excellency referred to two matters upon which Resolutions had been passed by the Executive Council, and which at this meeting, being the first meeting since the events to which they relate had been made known here, His Excellency desired to bring before the Legislative Council for the acquiescence of honourable members, the one recorded, His Excellency said, the condolences on behalf of the Colony on the occasion of the loss of H. M. S. "Victoria," the other, of a different nature, conveyed congratulations to the Royal Family on the occasion of His Royal Highness the Duke of York's marriage to Her Serene Highness Princess Victoria Mary of Teck. After the reading of the Resolutions by His Excellency the unofficial members fully endorsed the terms in which they were couched, and, on the motion of the Honourable the Colonial Secretary, seconded by the Honourables J. J. Felton and A. E. Baillon, respectively, the Resolutions were unanimously carried.

On referring to the Orders of the Day His Excellency stated that in the Draft Estimates of Revenue and Expenditure for 1894, which would be shortly laid before the Council, an item of £60 had been inserted under Head 7, as a prospective Estimate of Revenue to be derived from the rents of the Commonage, which would become leviable under the Bill now in Committee entitled "An Ordinance to provide for the better protection of property in Stanley against injury from the trespassing of animals within the town."

It had not been deemed necessary that this Bill should be passed before the Estimates were taken into consideration, as, until the provisions of the Bill had been put into operation for some time, it would be difficult to arrive at the amount that would be collected under it. The same sum as that estimated last

year had therefore been inserted. Now, however, that the Town Fence had been completed, His Excellency thought it would be well to obtain information, especially as to the charges to be levied under the Schedule to the Draft Ordinance, and for this object the papers, His Excellency added, will be circulated amongst the unofficial Members, so that the Bill may be proceeded with at the next meeting of the Council on the 21st instant.

After explanation by His Excellency that a vote of £6 was required as an increase of £1 per month, from the 1st July inclusive, to the wages of the Government House Gardener in lieu of a supply of peat, a motion was made for this vote by the Honourable the Colonial Secretary, and, being seconded by the Honourable A. E. Baillon, was carried.

His Excellency stated that a vote of £22 11 7 as wages for an Assistant Gardener and Labourer at Government House, from the 16th August, was necessitated by the inconveniences arising from the former Labourer being also employed on the Public Works Department as Carter, which would be removed by dividing his duties and assigning to him those of an Assistant Gardener when he would be also available as horsekeeper. The motion for this vote being made by the Honourable the Colonial Secretary, and seconded by the Honourable J. J. Felton was carried.

The Honourable the Colonial Treasurer then moved for a vote of £100, being a refund to J. Luchtembourg of the amount paid for a Sealing Licence. After some information had been asked for by the Honourable J. J. Felton as to the disposal of the skins already taken, and replied to by His Excellency, who explained that the refund had been ordered by the Right Honourable the Secretary of State by Despatch No. 43 of the 23rd May, 1893, which was read to the Council, the Honourable J. J. Felton seconded the motion and it was carried.

The draft Estimates of Expenditure for 1894 were then laid before the Council. In going through the various items the Honourable the Colonial Treasurer explained the sums to be appropriated and pointed out where they differed from those voted for the present year.

Under Vote 8, Police, the Honourable J. J. Felton asked for the conditions under which the constables were employed, as during the past few years the increase of the department had caused an increased expenditure not only in wages but in transport and in the supply of peat, and stated that we now had the Volunteers to fall back upon in cases of emergency. Formerly, when a greater number of ships visited the Port there was but one constable, and this increase of constables would lead anyone to believe that there is also an increase of crime in the Colony, which was not the fact.

His Excellency said that the constables were engaged for a term of three years and most of them had only been recently engaged, but considered that the staff of six which was now up to its complement, was sufficient.

The Vote was agreed to.

Under Vote 15. The Honourable J. J. Felton considered that the item of £360 for the West Falklands Mail Subsidy was a large amount for a schooner that called in at three stations only, and that there was but little benefit extended to the San Carlos station, as the schooner only called in on her return voyage. The Honourable Member proposed that the mails for the North Camp should be run to Salvador and then be taken across by land to Douglas Station and Teal Inlet.

The Honourable the Colonial Treasurer drew the Honourable Member's attention to the fact that the schooner called twice at San Carlos, on her way out and on her return journey, and that if she only called in once on any occasion it was exceptional.

His Excellency, after being informed that the present contract had not been put up to tender, stated that when it expires tenders should be called for in the usual way for the performance of this service, which should be carried out on the principle of convenience being given to the greater number.

The Vote was agreed to.

Under Vote 17—Public Works—The Honourable J. J. Felton asked if there might not be some means of increasing the item “for maintenance and repair “of roads, &c.,” as the greater portion of the £250 now proposed to be voted would have to be expended on undoing certain bad work done by prison labour on a road in the town during the course of last year. The Honourable Member said that as these repairs are very necessary he would like to see a larger vote, if possible, without a burden by taxation being placed on the people. It would give employment to men from the camp during the winter months.

His Excellency informed the Honourable Member of the Secretary of State's instructions to economise under this Head of Expenditure and pointed out, as already explained by the Honourable the Colonial Treasurer, that the amount of £250 now proposed represented not only the wages of carting but the expenditure on the up-keep of carts and horses, previously charged against the Votes “Maintenance, and Repairs of Roads, Drains and Public Buildings,” and that these Votes had consequently been reduced by the sums of £50 and £100 respectively, so that there was no actual reduction on the Votes for Public Works. Any additional revenue for Public Works, His Excellency added, might fairly, and without being an undue burden, be obtained by increasing the Customs Duties on Spirits and Tobacco.

The Vote was agreed to.

The totals under the various heads were read and the Estimates as submitted were agreed to and passed.

The Honourable the Colonial Secretary then moved the introduction and first reading of a Bill entitled—“An Ordinance to make provision for the service of the “Colony of the Falkland Islands for the year 1894,” the Honourable the Colonial Treasurer seconded and the Bill was read by title.

The Standing Orders, on the motion of the Honourable the Colonial Secretary seconded by the Honourable the Colonial Surgeon, were suspended, and the Bill went through its various stages and was passed.

The Council was then adjourned until the 21st September.

Stanley,

18th October, 1893.

At a Meeting of the LEGISLATIVE COUNCIL held on the 9th day of October, 1893.

Present : His Excellency George Melville, Esq., C.M.G., Administrator,
(President).

Hon. R. M. Routledge, Colonial Secretary.

Hon. C. A. Fraser, Colonial Treasurer.

Hon. S. Hamilton, Colonial Surgeon.

Hon. J. J. Felton.

Hon. A. E. Baillon.

The Minutes of the previous meeting were read and confirmed.

His Excellency mentioned, with reference to the first items on the Orders of the Day for a vote of £50 towards the cost of the reconstruction of the Conservatory and an alteration to the front entrance at Government House, that the Executive Council had already unanimously concurred in the need for this work being carried out; and, after remarking on the inconvenience of the present arrangements, stated that the matter was now brought before the Council for its favourable consideration. His Excellency further informed the Council that expenditure had already been incurred upon the roof over the Hall, which had now been made waterproof, and as this, with other works, had cost larger sums than had been anticipated, it was more than likely that the item Vote B of the Public Works Vote would be exceeded. After consulting the Honourable the Colonial Treasurer he however trusted there would be savings on the other sub-heads and that the total vote would not be exceeded. The Council unanimously considered that this work, and the execution of the other works which had been carried out, had been justified and approved of the sums that had been expended upon them.

With reference to the second item, His Excellency said that he had well considered the application which had been received through Dean Brandon for a Medical Practitioner and Surgeon Dentist before bringing the matter forward. The correspondence relating thereto had been transmitted to the Right Honourable the Secretary of State, who had been informed that it would be brought before the Council to obtain further information as to the general wishes of the people. His Excellency said that he had ascertained that the people did not want another Government Medical Officer, but a private Medical Practitioner, of course in such a case, His Excellency added, any man would be at liberty to come out and endeavour to obtain a practice for himself.

The Honourable the Colonial Surgeon said, that with all due respect, it would have been better to have first brought such information before the Executive Council for its advice in the first instance. He took exception to the Colonial Chaplain having brought the matter forward, and he was convinced that there was no need for such assistance as he had only been called out two or three times into the North Camp during his fourteen years residence here. It would be against the interests of the Government to afford such assistance as there were no officials to be attended, and the sheep farmers were quite in a position to support their own doctor if he were required, for the same reason he was opposed to the Government providing for an Assistant Colonial Surgeon on the West Falklands. The Honourable Member added, that on receipt of a private letter from the Colonial Chaplain, referring to this matter, he had visited one of the Members of the Council, who was now present, and he had been told by the Honourable Member that the scheme was a stroke aimed against him (the Colonial Surgeon) in consequence of his unswerving hostile action towards the farmers in relation to the Land Question.

The Honourable the Colonial Treasurer mentioned that it remained to be proved whether this medical assistance was really required as it had not yet been so shewn, and asked for some further information as to how the matter originated, as

this desire had apparently come forward suddenly from the movers, though fully armed, at present only a bald statement was before the Council. His Excellency asked the Honourable Member if he had not seen the papers on the subject, and received a reply that he had not.

His Excellency then read Dean Brandon's letter, dated 6th September, and stated that he had pointed out to the Colonial Chaplain that he had disapproved of his advertising for the assistance of an "Assistant Colonial Surgeon" in the Falkland Islands Magazine, but that he was quite at liberty to call attention to the necessity of a private medical practitioner.

The Honourable the Colonial Treasurer pointed out that the letter does not name any guarantors and he was without information on this point. The Honourable Member thought that three doctors amongst a population of 1700 was sufficient. He added that he would like to know how this agitation had commenced. He would not recommend that Government should assist more than it does already.

His Excellency expressed it as his opinion that the Colonial Chaplain was acting on behalf of the Community, and that there was no personal feeling against the Colonial Surgeon. It was for assistance to private persons.

The Honourable the Colonial Surgeon referred to the meetings that had been held by the Colonial Chaplain; to the Colonial Chaplain's house to house visits to obtain guarantors and questioned his action throughout as a brother official. The Honourable Member further added that he did not think that a selection as proposed should be given to Mr. Cobb, as he thought, if Government did assist, it ought to be able to manage its own affairs. The Honourable the Colonial Surgeon asked His Excellency why an expression of opinion had been asked of the Legislative Council on this matter, and thereby increasing the importance of a scheme which had been first secretly formulated without a previous reference to himself as head of the Medical Department. To find a Medical Practitioner combined with a Surgeon Dentist would be difficult, if not impossible, as Medical Practitioners do not become tradesmen, such offices were not found together, they were entirely separate. The Honourable Member did not consider that Government should be burdened with any extra amount for such medical aid.

The Honourable the Colonial Secretary, on rising, said he would like to have heard an expression of opinion from the unofficial members, especially the senior unofficial member of the Council, before giving his own. He, however, took exception to the Honourable the Colonial Surgeon's view, as to the non-combination of the offices of a Medical Practitioner and Surgeon Dentist. He stated that since the Colonial Surgeon had arrived in the Colony—fourteen years ago—the profession had changed, as a qualified medical man does now take out a dentist's qualification and, in fact, it is not at all unusual that he qualifies in medicine, surgery and dentistry. The Honourable Member continued that the letter referred to had been received in the usual way through the Secretariat from Dean Brandon, and had been immediately forwarded to the Honourable the Colonial Surgeon for his observations and report. There had been no secrecy in the matter. Dean Brandon on visiting had been informed of, and had seen, the need of another medical man, and he agreed with Dean Brandon that such was necessary. The Honourable Member asked the Colonial Treasurer and Colonial Surgeon if there is a place in the United Kingdom with a population of 700 with only one doctor? He pointed out that we are now in the hands of one doctor, and if anything happened to him, such as sudden decease, at the very shortest space of time three months would elapse before another man could arrive. In the meantime an epidemic might occur with very serious results; and he considered that any Government would be reprehensible with such facts staring it in the face that did not provide against such a contingency. This alone, he felt convinced, would be sufficient for the Secretary of State to approve of a Government grant in aid. Authorities here should guard themselves against any medical aid not being forthcoming in case of need.

The Honourable J. J. Felton took exception to the Honourable the Colonial Surgeon's assertion that this scheme had been got up by parties to injure him on

account of his loyalty to the Government, that was most unfounded. The Honourable Member stated that he himself was a guarantor. He thought accidents might happen, epidemics might break out, and Government ought to prepare itself especially as it was the wish of the people. He recommended that a small sum should be voted for this extra medical assistance, but did not make such a recommendation because of any personal feeling against the Colonial Surgeon. He supposed, should the Government make any provision, that it would be considered as a grant-in-aid, and would not carry any Government control with it.

His Excellency acquiesced in the Honourable Member's supposition.

The Honourable A. E. Baillon said he was somewhat diffident in speaking on the matter owing to his short residence here. He had, however, made most careful enquiries into the matter, and those enquiries in addition to several voluntary statements made to him, enabled him to say without hesitation that there was a much-felt and wide-spread need for extra medical assistance. The Honourable Member repudiated any personal feeling towards the Colonial Surgeon in this matter, and said that the guarantee fund spoke for itself as, in his opinion, a man's pocket was a sure guide to his feeling and opinions, and that the amount subscribed was a complete answer to the questions put. If the Secretary of State did not approve of any Government grant being given, he thought that the scheme would be carried out independent of Government aid.

His Excellency thanked the Honourable Members for their opinions.

His Excellency then informed the Council that he had been informed by the Secretary of State that Governor Goldsworthy's leave had been extended for a month from September, and that he therefore expected His Excellency to arrive by this Mail. He thanked the members, both official and unofficial, on this the last occasion that he would have the honour of presiding over them, for their assistance, and especially in dealing with the Secretary of State's instructions conveyed in His Lordship's despatch of 31st January, last, regarding the Land Question. As a parting request His Excellency asked the Members, in order to complete the settlement of this question, to give Governor Goldsworthy the same loyal support as they had given him.

The Honourable J. J. Felton said he felt sure that Honourable Members, but no one more than himself, would regret His Excellency's departure which, however, he hoped would be a gain to his Excellency, and added that he would support the Governor if he met us in the same spirit as Mr. Melville had done in carrying out the instructions as conveyed in the despatch from the Marquis of Ripon.

The Honourable A. E. Baillon thanked His Excellency for the consideration and courtesy which always attended the Meetings of the Council; and in fully endorsing the expressions which had just fallen from his colleague wished His Excellency "God-speed."

The Council was then adjourned *sine die*.

Read and confirmed this Thirtieth day of October, 1893.

At a Meeting of the LEGISLATIVE COUNCIL held on the 30th day of October, 1893.

Present: His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.
(President).

Honourable the Acting Colonial Secretary.
Hon. S. Hamilton, Colonial Surgeon.
Hon. the Acting Colonial Treasurer.
Hon. J. J. Felton.

Absent: Hon. A. E. Baillon.

The Minutes of the previous meeting having already been circulated and assented to as recorded were taken as read and, on the motion of the Honourable the Acting Colonial Secretary, seconded by the Honourable J. J. Felton, were confirmed.

His Excellency mentioned that Mr. C. W. Hill would take the Minutes as Clerk while sitting as a Member of the Council.

His Excellency stated that as the original Resolutions regarding the Sale of Land had been considered in Legislative Council, he now brought them up again amended in certain respects according to instructions received from the Secretary of State. His Excellency added that in the absence of one of the unofficial members any final decision on them would be postponed to a subsequent meeting to be held after the Honourable A. E. Baillon's return to Stanley, so as to give the unofficial members an opportunity of conferring together. Of course, His Excellency added, if the other unofficial member now present desired to say anything now he would be glad to hear it.

The Amended Resolutions were then considered *seriatim*.

On Clause 2, Mr. Felton observed that he agreed to the proposed extension of time to 15 years within which the purchaser should be allowed to complete the purchase. He pointed out that the period of ten years was inserted in order to carry out the Secretary of State's wishes expressed in His Lordship's despatch of 31st January, 1893. He would even agree to a further extension of 20 years, as he did not consider that land was worth four shillings an acre. It is evident, he thought, that by an extension of time being deemed necessary there was a doubt as to the actual value of, and real demand for, land, or otherwise land would be put up for sale on terms cash.

His Excellency explained the object of the Government reserving land and using the powers given by Clause 2, of Ordinance 9 of 1882. His Excellency referred to the opinion of the Law Officers of the Crown as to the disposal of the excessive acreage over the survey of certain stations, and added that it was fair

average land that the Government considered should be put up for sale. With regard to the price of the land, and the time within which such should be paid, His Excellency reminded the Honourable Member that in the case of the large sales in 1890, the Falkland Islands Company, and others even did not pay cash down although land was then sold to them at three shillings an acre. It was the desire of the Government that the terms of payment should be made as easy as possible for those who may desire to purchase land. Government would not thereby be the loser as interest would be payable. His Excellency hoped that the unofficial members would give every help to the Government they could in dealing with this matter, and said that he was glad to hear from Mr. Felton that he considered that even 20 instead of 15 years would not be too long within which the purchase-money should be paid up; and thought it would be a graceful act on the part of the unofficial members to make such a proposal.

On discussing Clause 3 the Honourable J. J. Felton said that he thought that it was somewhat inconsistent with Clause 4 of the Resolutions of 17th June, 1893. He did not consider that a mere bid constituted a sale, and could not agree that power should be given to the Government to do what it liked with the land if the first instalment had not even been paid. Land would be alienated from the present lessee by the mere fact of a bid having been made for it.

His Excellency reminded the Honourable Member that he was arguing on the assumption of a *mala-fide* transaction. His Excellency hoped that if a bid were made it would be made in all good faith.

The Honourable the Acting Colonial Secretary pointed out that such a case would be met by the provisions of the Auction Laws. The defaulter would have to pay for all expenses and the land would be put up for sale again.

With reference to Clause 4 the Honourable J. J. Felton observed that this clause opened the door to what he might call gambling and a land-jobbing business. A man might run up the sale price with the object of obtaining the balance, and might clear a few hundred pounds by buying it in at the second sale.

His Excellency remarked that what the Honourable Member had pointed out was not intended, but as there might be some misunderstanding if the clause were left as it now stands, the wording of it would be altered.

There was no discussion on Clauses 5 and 6.

On Clause 7 His Excellency informed the Council that the Secretary of State desired to receive the views of the Council as to the necessity of the condition requiring the erection of a suitable dwelling-house before the tenant stocked his land. His Excellency thought that it would be hard on a man if he were prevented from entering simply because he may not have sufficient money to meet the cost of building a suitable house. He thought it was unnecessary, and in view of the expenses that he would have to incur under the conditions, hoped that the Members would be unanimous in considering that this condition should be omitted.

The final discussion on these conditions was then postponed until the next meeting of the Council.

On the motion of the Honourable the Acting Colonial Secretary, seconded by the Honourable the Colonial Surgeon, an Ordinance entitled "An Ordinance to give authority to lease Town Lands," was read a first time.

The Honourable the Acting Colonial Secretary gave notice of the Second reading of the Bill at the next meeting of the Council.

The Honourable the Acting Colonial Treasurer moved the first reading of a Bill entitled "An Ordinance to provide for the payment of certain fees into the Colonial Treasury."

The Honourable the Acting Colonial Secretary seconded and the Bill was read a first time.

The Members in charge of the Bill gave notice of its Second Reading at the next meeting of the Council.

The Honourable J. J. Felton then laid two petitions on the table and gave notice that at the next meeting of the Council he would move that the same be read.

The Council adjourned until Monday, the 6th proximo.

Read, amended and confirmed, this 6th day of November, 1893.

At a Meeting of the Executive Council held on the 6th of November, 1893.
Present: His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.
(President).

Honourable the Acting Colonial Secretary.

Hon. S. Hamilton, Colonial Surgeon.

Hon. the Acting Colonial Treasurer.

Hon. J. J. Felton.

Hon. A. E. Baillon.

The Minutes of the previous Meeting were read, amended and confirmed.

After the reading of the Orders of the Day, the Honourable J. J. Felton moved the reading of 2 petitions received from Mr. R. Aldridge and the widow of the late Mr. Pinazo, asking for a mitigation of the penalty imposed on them for selling tobacco on which Customs Duties had not been paid. The same being read, the Honourable Member stated that although he had no sympathy with the offenders, yet the circumstances which had since occurred, which he reviewed, might perhaps allow the Members of the Government to reconsider the matter.

His Excellency explained the action which had been taken in the matter by Administrator Melville and by himself, and, as the power was vested in the Governor, and not with the Members, to deal with the case, if the Honourable Members wished him to move in the matter he would be willing to reconsider it. The unofficial Members then asked His Excellency if he could see any grounds to mitigate the penalty inflicted they hoped he would do so.

His Excellency said that he would consider what the Honourable Members had said.

The Council then went into Committee and proceeded to amend the Conditions of Sale of Land, dated 14th June, 1893, clause by clause, in accordance with the Secretary of State's suggestions made in Despatch No. 74, of 11th of September, 1893.

The Honourable the Acting Colonial Secretary explained the reasons for the various amendments.

It was explained by Mr. Felton that the reason for the insertion of Clause 1 in the conditions dated 14th June, 1893, was to fix a certain time within which information could be obtained as to the real demand for land, and so as to have some basis to work upon. It was not intended to debar persons who might wish to purchase from coming forward after the 31st July. The Clause was then expunged.

Before discussion took place on Clause 2, the Honourable J. J. Felton remarked that he could hardly be expected to vote for what he had already opposed, and which was inconsistent with the views already expressed by Lord Ripon, he thought that it was needless to enter upon a further discussion, the more especially as the Secretary of State's instructions on which the now proposed conditions had been framed could not be amended.

His Excellency informed the Honourable Member that the conditions as amended by the Secretary of State were referred back to the Council for discussion. The Secretary of State had not given an instruction, but a request that the conditions might be amended in accordance with his suggestions. The fact that the Secretary of State sent them back to the Legislative Council showed that he wished the amendments to be further discussed. His Excellency thought that it would be better that the Clauses which were not discussed at the last meeting of the Council should be now passed, and that the unofficial Members should express their opinions in writing on any alterations, after hearing the views of the Government on them, for submission to the Secretary of State.

The Honourable Members thanked His Excellency, and considered this the better course to adopt.

The discussion on the Clauses then proceeded. Clause 2 was re-numbered Clause 1 in the amended resolutions. Clause 3 was re-numbered Clause 2. The Honourable the Acting Colonial Secretary explained that this Clause, as amended, was suggested, as the former Clause was not considered elastic enough. He referred to the remarks made at the last Meeting of the Council, and agreed with

the Honourable J. J. Felton that the time within which the purchase money might be paid should be extended to 20 years.

The Honourable J. J. Felton observed that the period of 10 years had been inserted in accordance with the Secretary of State's Despatch of 31st January, 1893, (No. 16), which was the same period as that extended to the large purchasers in 1890.

The Honourable A. E. Baillon thought the words "not exceeding 15 years" should be allowed to stand. He thought that the words "Governor in Council" were superfluous, and that it would be hard on the lessee, if he bought in the land, for the Governor to fix the time within which he should pay.

His Excellency said that the Clause would effect one and all alike, and that if the term in one case were fixed for a certain number of years it must be the same in all: Mr. Baillon expressed himself satisfied.

The words "ten years" were struck out, and the following words "such period not exceeding 15 years, as the Governor in Council may think fit," were substituted therefor, and the Clause was passed as so amended.

Clause 4 was re-numbered Clause 3, and on the words "and in default of payment of any instalment of purchase money or interest the land may be re-sold" being proposed to be added, the Honourable J. J. Felton referred to his contention, at the previous Meeting, that there could be no re-sale when no sale had taken place. He remarked on the hardship that the present lessee had to undergo by conditions which had compelled him to sink all his capital in the land. He objected to the re-sale.

The Honourable the Acting Colonial Secretary pointed out that if the conditions which were applicable to the lessee were hard, that was no reason that the present conditions should be made hard.

The Honourable A. E. Baillon did not agree with the proposed amendment, as with it he could not reconcile the condition with paragraph 15, of the Secretary of State's despatch, 31st January, 1893. He did not consider a bid constituted a sale.

His Excellency told the Honourable Member that he could include his objection to this Clause in any protest that he might put in writing.

His Excellency then read the Clause as proposed to be amended.

The Council divided.

For:—His Excellency.

The Honourable the Acting Colonial Secretary,

The Honourable the Colonial Surgeon.

The Honourable the Acting Colonial Treasurer.

Against:—The Honourable J. J. Felton.

The Honourable A. E. Baillon.

The Clause was declared carried, and was inserted in the conditions.

Before Clause 5 a Clause numbered 4 was inserted but consideration of it postponed to a subsequent meeting.

Clause 5 remained unaltered.

In Clause 6 the words "approved of by the Governor" were struck out.

Clause 7 was rescinded and read as follows:—

That, except with the consent of every owner or lessee of land adjoining the land no stock shall be placed on the land purchased until proper arrangements for the dipping of sheep are provided, and the lands completely fenced in by a proper sheep-proof fence, half the cost of fencing to be borne by the purchaser, and the other half by the lessee or lessees or owner or owners of the adjoining land, and, if more than one, in proportion to the length of the fence, separating their respective lands from the purchased lands.

Reference was made by His Excellency to the retention of the words, "suitable dwelling-house shall be erected," and asked the unofficial Members for their views on this subject.

The Honourable J. J. Felton said that so far as he was personally concerned he did not care whether these words were omitted or not. But if a man had no house and fell ill he would have to fall back upon his neighbour, a lessee probably, for shelter, to whom he might become a burden, and so might tend to increase the expenses of the lessee. He did not think that a man could carry on his work properly without the comforts a house would give him, and it would be going backwards if a man were allowed to live in a hovel or under a peat-bank. He thought that, as in the town of Stanley, huts should not be allowed to be erected under certain dimensions. As a small farmer, he added, would not employ labour at

the rates given by the present lessee he feared that this might cause the introduction of foreign labour.

His Excellency reminded the Council that the provision in the former Ordinances for lessees to erect suitable dwelling-houses did not hold good now in the case of proposed purchasers. That provision was made to ensure a man settling on his land and not to throw it up after having killed off all the cattle. This necessity had now disappeared.

The Honourable the Acting Colonial Secretary thought that the Honourable Member had overlooked the intention of the Clause as it at present stood, namely, that a suitable house should be built before the land was stocked. He referred to the system of Club Farms in the United Kingdom, where one plant provided for wants of one or more farms. He proposed that the words be struck out.

On a division. For:—His Excellency.

The Honourable the Acting Colonial Secretary.

The Honourable the Colonial Surgeon.

The Honourable the Acting Colonial Treasurer.

Against:—The Honourable J. J. Felton.

The Honourable A. E. Baillon.

The Clause was declared carried.

The Conditions were then left in Committee Stage so that Clause 4 might be re-considered and brought up again.

The Council having resumed its sitting, the Honourable the Acting Colonial Secretary moved the Second Reading and consideration in Committee of an Ordinance entitled "An Ordinance to give authority to lease Town Lands." The motion being carried, the Council resolved itself into Committee. In Clause 1, the Honourable J. J. Felton proposed that the words "or in any other township" which hereafter may be proclaimed" be expunged, as it was premature to legislate for such, and people who might reside in any township to be hereafter created might like to have a say in the matter.

His Excellency mentioned that these words appeared in the Ordinance dealing with the Sale of Town Lands.

The Honourable the Acting Colonial Treasurer thought that the same principles which led to the introduction of the Ordinance as dealing with the Town of Stanley should apply to any towns that might come into existence in the future. It would be inexpedient to have a Bill affecting one town and not another.

The Honourable A. E. Baillon suggested that leases should be put up to auction as provided by Clause 9, of Ordinance 4, of 1871.

It was pointed out to the Honourable Member that law only provided for sales by auction, and if the Honourable Member's suggestion were adopted the whole object of the Bill would be defeated, namely, the prevention of the man with the longest purse becoming a Town Land monopolist.

The Honourable Member thought that some provision should be made for the individual rights, as freeholders would not care for a blacksmith's shop, for instance, in front of them.

On it being put to the vote, Clause 1 stood part of the Bill and was passed as drafted.

In Clause 2, the word "Town" was inserted in line 1, before the words "Land Ordinance, 1893."

In the preamble the words "subject to the approval of Her Majesty's Principal Secretary of State for the time being" were struck out, the unofficial Members dissenting.

The Council having resumed, the Honourable the Acting Colonial Secretary gave notice of the Third reading of the Bill at the next Meeting of the Council.

The Honourable the Acting Colonial Treasurer then moved the Second reading of a Bill entitled "An Ordinance to provide for the payment of certain fees into 'the Colonial Treasury.'" The same being carried the Council resolved itself into Committee, and the Bill passed through the Committee Stage without amendment.

The Council adjourned until Wednesday the 8th instant.

Read, and confirmed, this 8th day of November, 1893.

C. W. HILL,
Clerk to Council.

At a Meeting of the Executive Council held on the 8th of November, 1893.
Present : His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.
(President).

Honourable the Acting Colonial Secretary.

Hon. S. Hamilton, Colonial Surgeon.

Hon. the Acting Colonial Treasurer.

Hon. J. J. Felton.

Hon. A. E. Baillon.

The minutes of the previous meeting were read and confirmed.

The amended conditions of sale of land were brought up again so that Clause 4 might be considered. It was however suggested in place of amending this Clause that the following words should be added to Clause 3, "at an upset price not less than that bid by the defaulting purchaser," in order that Government should not be the loser if the land were sold at a lower price than Government previously obtained for it.

The Honourable J. J. Felton said that he had already opposed the Clause and did not agree to the additional words as it would alter the constitution of the conditions of sale, which provided for 4/- being the upset price. He asked what would become of the land if there were no bid at the higher price and suggested that the payment of any instalment should give a man a title to a block of so many acres and become the freeholder of such.

His Excellency replied that in the event of there being no bid at the higher price the Government would have to consider if any circumstances had altered the value of the land as to justify the land being put up at the original upset price. He did not agree with the Honourable Member's suggestion for the purchase of a title of a small block by payment of an instalment, as the man who failed to complete his purchase might thus retain a small block and lower the value of the remainder.

His Excellency, on further consideration, thought that it would be better perhaps, after all, to leave Clause 3 as amended by the Secretary of State, and asked the unofficial members to insert their views on the Clause in their memorial regarding the various amendments proposed in the conditions of sale of June, 1893, this was agreed to. Clause 4 was then read and on a division.

For the Clause.—His Excellency.

The Honourable the Acting Colonial Secretary.

The Honourable the Colonial Surgeon.

The Honourable the Acting Colonial Treasurer.

Against :—The Honourable J. J. Felton.

The Honourable A. E. Baillon.

The Honourable the Acting Colonial Secretary then moved the Third reading of an Ordinance entitled "An Ordinance to give authority to lease Town Lands." The Honourable the Colonial Surgeon seconded.

The Honourable A. E. Baillon on asking if he would be in order in speaking on the Bill at its present stage was allowed by His Excellency, with the consent of the Council, to state what he wished to say regarding it.

The Honourable Member then stated that he considered that the system that has obtained of dealing with town lands by auction, as provided by Clause 9 of Ordinance 4 of 1871, should be followed when they are leased. As for the man with the longest purse being so able to lease, he thought that this would tend to the benefit of the Revenue as the sites would be the most valuable to such a man.

His Excellency informed the Honourable Member that such might be so, but that it would prevent a man, who is not in business, setting up for himself, as the longest purse would carry the day and thus prevent fair competition in trade.

The Honourable J. J. Felton thought that the rental of a lease should bear a fair proportion to that what it would fetch if sold by public auction. He considered that individual rights should be protected.

The Bill was then read a Third time and was passed.

The Honourable the Acting Colonial Treasurer moved the Third reading of an Ordinance entitled "An Ordinance to provide for the payment of certain fees into the Colonial Treasury," and being seconded by the Honourable the Acting Colonial Secretary was read a Third time and passed.

The Council was adjourned *sine die*.

Read, amended and confirmed, this 14th day of November, 1893.

C. W. HILL,

Clerk to Council.

5.—That no title shall issue to the purchaser until the last instalment of the purchase money shall have been paid.

His Excellency the Governor directs the publication for general information of the following Resolution of the Executive and Legislative Council expressing the grief of this Colony on the occasion of the intelligence received of the loss of Her Majesty's Ship "Victoria," and of the Right Honourable the Secretary of State's reply thereto.

By Command,

C. A. FRASER,
Acting Colonial Secretary.

Colonial Secretary's Office,

Stanley, 30th December, 1893.

To the Right Honourable the Marquis of Ripon, K.G., &c., &c., &c., Her Majesty's Principal Secretary of State for the Colonies.

The Administrator and Members of the Executive and Legislative Councils of the Colony of the Falkland Islands desire on their own behalf and on behalf of the inhabitants to convey an expression of their deep sorrow at the sad calamity which, through the loss of Her Majesty's Ship "Victoria," has deprived the nation of the services of so many brave and distinguished officers and men of Her Majesty's Navy.

To a Colony such as this, whose sole sense of security may be said to lie in the one link of union with Great Britain through the Navy, a catastrophe such as the one we now deplore has come home in these Islands with a most saddening force intensified by the fact that the gallant Admiral, whose death the British Nation now mourns, had in years gone by, when serving on the South East Coast of America, endeared himself to many of the inhabitants of this Colony. We desire further to offer our most sincere condolences to the relatives and friends of the officers and men who have so sadly but heroically perished.

(Signed)

GEO. MELVILLE,

By Order,

S. HAMILTON.

President.

Stanley,

9th January, 1894.

Bye-Laws and Regulations made under Section 3 of Board of Health Ordinance No. 1 of 1855, and Section 2 Board of Health Ordinance No. 3 of 1891.

1.—Before the erection of any new building shall be commenced, plans of the same shall be submitted to the Board of Health, with particulars as to water closets, earth closets, ash-pits and cesspools, together with a statement of the proposed drainage.

Before any alteration contemplated to be made with regard to any of the subjects of which the particulars are as above required shall be commenced, the alteration so proposed must have been sanctioned by the Board of Health.

2.—Every occupier of a tenement shall be bound to protect the water supply attached to the building in such a way as may be considered necessary by the Board of Health, to secure the utmost purity possible. The owner or occupier of any premises shall be required to keep in a thorough state of cleanliness and repair all water-courses, open ditches, or gutters upon his premises, and to prevent the accumulation of noxious matter, by the removal thereof to any place of deposit to which the Board of Health may order.

3.—All fowl-houses, fowl-coops, pig-stys, or any buildings in which animals are kept, must be placed in such position as the Board of Health may seem best for the prevention of a nuisance, and the protection of the inhabitants of the neighbourhood.

4.—Until a proper hospital or building has been provided, to which cases of contagious or infectious diseases can be removed, every person on whose premises any case of a disease of a contagious or infectious nature occurs, shall be bound to take whatever precautions the Board of Health may deem necessary to order such person to adopt for the purpose of preventing the spread of such contagious or infectious disease. If the Board of Health consider it necessary to order the burning or destroying of any articles in order to prevent the spread of any disease, the owner of such articles shall be entitled to recover compensation not exceeding the sum of five pounds (£5), by order of the Board of Health, with the sanction of the Governor in Council.

5.—Before any building intended to be used as a Slaughter House can be erected or converted into such, the Board of Health must have submitted to it, for approval, a statement detailing the position of such building, and must be satisfied of the necessity for the same, and may withhold or grant its sanction under such regulations as may be considered necessary.

6.—Before any person intending to carry on any noxious or offensive trade, as that of a soap-boiler, tallow-melter, or such like, shall commence to take steps for the starting such trade, it shall be necessary for such person to obtain in writing the sanction of the Board of Health, and the Board of Health taking into consideration the district in which it is proposed to carry on such trade, shall have power to define what is a noxious or offensive trade, and shall satisfy themselves before granting such sanction, that every precaution is taken to prevent any noxious exhalations from chimneys and such like.

7.—Before any markets shall be held the Board of Health must first approve of the same, and sanction some place for the holding of such markets, and such markets shall be conducted under rules and regulations to be issued by the Board of Health at the time of giving its sanction.

8.—If it shall become necessary to alter in any way the existing Burial Grounds, or to lay out any new Burial Grounds, the alterations or laying out of the same, as the case may be, must be submitted by the Burial Board or Committee of Management to the Board of Health for its approval, the same to be submitted to the Governor in Council for his approval.

9.—All lots lying to the Westward of the boundary of the Cemetery extending Westward to the Government Reservoir, North to the Sea shore, and South facing the North of Fitzroy road, also including all Pensioners allotments, whether occupied or not, must be carefully fenced in by a substantial fence, the sufficiency of which shall be determined by the Board, and the owner or occupier shall be required to keep such fence in repair. In the case of mutual fences, it shall be lawful for the person who repairs the fence, to recover a moiety of the cost of such repair from the mutual owners. Every owner or occupier must see to the cleanliness of the lot occupied by him, and it shall be competent for the Board of Health to inspect any lot, and to cause any removal of any nuisance found to exist. If any person fail to comply with the requirements of any of the above Bye-Laws or Regulations, or any hereafter to be made, or neglect to carry out any orders issued by the Board of Health, such offender shall be liable for each time of offending, to such fine not exceeding five pounds (£5) or term of imprisonment, as the Court may determine.

At a Meeting of the Legislative Council held on the 9th of February, 1894.

Present : His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.
(President).

Honourable the Acting Colonial Secretary.

Hon. S. Hamilton, Colonial Surgeon.

Hon. the Acting Colonial Treasurer.

Hon. J. J. Felton.

Hon. A. E. Baillon.

The minutes of the previous meeting were read and confirmed.

Despatches No. 84, 83 and 92 of 27th October and 7th December, recording the thanks of the Royal Family to the Executive and Legislative Councils and the inhabitants of the Colony for their congratulations on the occasion of the marriage of their Royal Highnesses the Duke and Duchess of York, and those of the Lords Commissioners of the Admiralty, for an expression of grief received from this Colony on receipt of the news of the loss of H. M. S. "Victoria," were read by His Excellency.

The Acting Colonial Secretary moved the First reading of a Bill entitled "An Ordinance to extend the provisions of Ordinance 5 of 1891, entitled 'An Ordinance to consolidate and amend the Laws relating to Customs Duties and Trade,'" and being seconded by the Honourable the Colonial Surgeon, the Ordinance was read a first time.

The suspension of the Standing Orders having been carried so that the consideration of the Bill might be proceeded with, the Honourable the Acting Colonial Secretary in moving the Second reading and going into Committee, which was seconded by the Honourable the Colonial Surgeon, explained that the reason for the introduction of the Bill was owing to a statement made by the Master of the "Ruth Waldron" that he would make it uncomfortable for the officer if he was put on board, and by his subsequent action in providing him with accommodation in the forecabin with the crew. It had therefore become necessary to make arrangements for the accommodation of these officers and for their return passage so that, as had been the case, they should not purposely be landed at an out of the way place from which it is not easy for them to return.

The Council went into Committee.

Question put—that Clause 1 stand part of the Bill. Carried. The unofficial Members dissenting.

Question put—that Clause 2 stand part of the Bill. Carried. The unofficial Members dissenting.

Question put—that Clause 3 stand part of the Bill. Carried. The unofficial Members dissenting.

On the preamble being read the Honourable J. J. Felton asked "is it expedient" and after referring to the necessity of the terms of Ordinance No. 5 of 1891 and its working, asked if the Government had any information as to whether smuggling was being carried on by lessees, or if the provisions of the laws were being obstructed.

His Excellency informed the Honourable Member that the reasons for introducing the recent Ordinance had already been explained and old ground could not be gone over in arguing as to the necessity or not of the provisions of the Ordinance already in existence. His Excellency added that it was to accommodate the consignee and owner that a Customs Officer was put on board.

The Honourable A. E. Bailion asked if Government could guarantee the respectability of Customs Officers and referred especially to the Customs Officer who had been put on board of the Falkland Islands Company's Schooner "Thetis." He also asked if any money would be laid down to be provided for 2/- a day: and stated that there was no provision made for expenses if a ship were blown away.

His Excellency replied that the Government would always endeavour to obtain the most respectable men possible, but the Government could not be put to expense in the eventuality just mentioned by the Honourable Member.

The Honourable A. E. Bailion said it only remained then for him to make his protest in writing to the Secretary of State.

His Excellency said he would be most happy to forward any protest or memorial he might receive on the subject.

Questions put—that the preamble, enacting clause and title stand part of the Bill. Carried. The unofficial Members dissenting.

The Council resumed.

The Honourable Colonial Secretary gave notice that he would move the Third Reading of the Bill entitled "An Ordinance to extend the provisions of Ordinance No. 5 of 1891, entitled "An Ordinance to consolidate and amend the Laws relating "to Customs Duties and Trade," on to-morrow the 10th instant.

The Honourable Colonial Secretary also gave notice that, at the next Meeting, he would move a Resolution for provision being made for the expenses of the Survey for the year 1894.

Read and confirmed this 10th day of February, 1894.

Clerk to Council.

Draft.

Bill entitled "An Ordinance to amend the Land Ordinance, 1882."

Be it enacted, &c.,

1.—The following provisions shall have effect with respect to any land comprised in a lease of Crown lands which upon the expiration or determination of such lease or at any time after such expiration or determination and the grant of a new lease to the former lessee under the provisions of the Land Ordinance 1882, the Governor in Council shall deem it expedient to sell and with respect to any land comprised in a lease of Crown lands which shall be or shall have been surrendered by the lessee to the Crown for the purpose of being offered for sale;

(1) The land shall be put up for sale by public auction in such lots as the Governor in Council shall determine at the upset price for the time being for country lands.

(2) Every lot of land so put up for sale shall before the sale be surveyed by a Surveyor employed by the Government and a plan shewing the situation and boundaries of the lot, the number of acres which it contains as ascertained by the survey, the names of the owners or lessees of the adjoining lands, and the length of the boundary line between the lot and the land of each adjoining owner or lessee shall be made by such Surveyor and exhibited at the sale by the Auctioneer and a copy or plan of the tracing shall be given to the purchaser. The matters hereby required to be shewn on the map shall also be stated in printed particulars of Sale.

(3) The purchase money shall be payable by such number (not exceeding 15) of equal yearly instalments as the Governor in Council shall determine and as shall be notified in the Government Gazette before the sale. The first instalment shall be paid at the conclusion of the sale and each subsequent instalment together with interest at the rate of $2\frac{1}{2}$ per centum per annum on the unpaid balance of the purchase money for the time being from the date of the payment of the last previous instalment shall be paid at the expiration of one year from the day on which the last previous instalment was payable. But the purchaser may at any time pay the whole of the purchase money remaining unpaid with the interest thereon which has accrued since the date of the last previous payment of an instalment.

(4) The highest or only bidder for every lot put up for sale at or above the upset price shall be the purchaser.

Immediately upon the conclusion of the sale the purchaser shall pay the first instalment of the purchase money and sign an agreement to complete the purchase and to fulfil the conditions of sale. If any purchaser, whether the original purchaser or a purchaser substituted under this sub-section, shall fail to pay the first instalment or to sign the said agreement, the sale to him shall be void and the next highest bidder (if any) at or above the upset price shall be the purchaser.

(5) If any purchaser shall fail to pay the second or any subsequent instalment of purchase money or any interest for the time being payable by him on the day on which such instalment or interest becomes payable or within 21 days thereafter, the Governor may, and if such default shall continue for 3 months from the day on which such instalment or interest becomes payable, the Governor shall cause the land purchased by such purchaser to be again put up for sale by public auction at the same upset price and on the same conditions as at the previous sale.

(6) If any land shall be again put up for sale as aforesaid the previous sale thereof shall thenceforth become void and the purchaser at the previous sale shall give up possession thereof and shall have no further right or interest in or lien upon such land.

(7) If after payment in full of the purchase money and interest payable by the purchaser at the second sale the Government shall have received in respect of such purchase money and interest an amount exceeding the purchase money and interest which the Governor would have received from the purchaser at the previous sale if he had complied with the conditions of sale then out of such excess, after deducting therefrom the expenses of the second sale the Government shall repay to the purchaser at the previous sale the amount of the instalments of purchase money and interest which he shall have actually paid or so much thereof as such excess shall suffice to repay but in no other event shall a purchaser have any claim for repayment of instalments of purchase money or interest paid by him.

8.—Every purchaser whether at a first or second sale shall be let into possession of the land purchased by him upon payment of the first instalment of purchase money and upon his signing the above-mentioned agreement, but no grant of the land shall be issued to him until he shall have paid the whole of the purchase money and all interest payable under the conditions of sale.

9.—The sum of money (if any) payable by the purchaser of each lot put up for sale to the former lessee of such lot as the value of improvements thereon under Sec. 3 of the Land Ordinance 1882, shall be determined in the manner provided by that section before the lot is put up for sale and shall be stated in the Particulars of Sale, and shall be paid by the purchaser to the former lessee, or his legal personal representatives, within 7 days from the date of the sale or at such later date as may be agreed upon by the parties. If the purchaser at a first sale shall not pay the said sum of money within the said 7 days, or on the day agreed upon, as the case may be, the lot shall be again put up for sale by auction in the same manner, and with the same consequences as if such purchaser had made default for three months in payment of an instalment of purchase money.

10.—No stock shall be placed on any lot so sold as aforesaid until proper arrangements for the dipping of sheep to the satisfaction of the Governor in Council have been provided thereon, or on some adjoining land occupied by the same person, or occupied by some other person if such lot and such adjoining land are farmed in common, or until such lot has been completely fenced in by proper sheep-proof fence to the satisfaction of the Governor in Council, provided that with the consent of the owner or lessee of any land adjoining such lot the erection of a fence between such and such adjoining land may be dispensed with.

11.—The purchaser of every lot, his heirs or assigns shall, before the expiration of 2 years from the date of the sale, erect on such lot a suitable and substantial dwelling house to the satisfaction of the Governor in Council. Default in compliance with this sub-section shall entail the same consequences as default in pay-

ment of a second or subsequent instalment of purchase money for three months.

12.—In either of the following cases—viz.: (i) If at any sale, whether an original sale or a resale under sub-section (5) there shall be no bidding for a lot put up for sale equal to or above the upset price: (ii) if at any sale whether an original sale or a resale under sub-section (5) the purchaser and every purchaser (if any) substituted under sub-section (4) of any lot shall fail to pay the first instalment of purchase money on the day of sale: (iii) if the purchaser at a second sale of any lot shall fail to pay to the former lessee the money payable under sub-section (9) within 7 days from the date of the sale or on the day agreed upon (as the case may be): then the former lessee (if any) of such lot shall be entitled to have a new lease thereof on the same terms as if the Governor in Council had not deemed it expedient to sell such lot, or if such lot had been surrendered for the purpose of being put up for sale, then it shall revert to the lessee for the residue of the term of the lease as if it had not been surrendered.

10.—It may be lawful for the Governor in Council upon the petition of any relative or friend of a lunatic confined within the Colony under the provisions of any of the preceding sections of this Ordinance, and on the certificate of the Colonial Surgeon that such lunatic is not a dangerous lunatic grant an order for the discharge of the lunatic upon such relative or friends entering into recognizances with approved sureties to be taken before the Police Magistrate for the safe custody, due maintenance, proper care, treatment and supervision of such lunatic, as well as for his peaceable behaviour.

11.—It shall be the duty of the Colonial Surgeon to report immediately to the Governor whenever in the opinion of the said Surgeon any person confined in Gaol under the provisions of any of the preceding sections of this Ordinance has recovered his reason and may with propriety and safety to the public peace be discharged, and the Governor upon the receipt of such report is hereby empowered to order the immediate release of such person from custody.

12.—Any Visiting Justice of the Gaol shall have authority upon the same being recommended by the Colonial Surgeon as being desirable and necessary to direct and permit any lunatic confined in Gaol, when his state of health requires it, to take exercise without the grounds of the Prison under the control of an Officer or Officers in such manner as the Colonial Surgeon may direct. Lunatics whilst being allowed this privilege shall be deemed to be in custody under the warrant by virtue of which they were originally detained and may be taken back to Prison and there again kept without any further or other authority than the original warrant.

14.—The Judge of the Supreme Court may whenever he deems it expedient make enquiries as to the property of any person detained as a lunatic and summon and examine such parties as he may think proper; and require all statements which he may consider necessary, in order to discover particulars of the property of the lunatic and generally exercise all powers necessary for the proper discovery application and protection of this property. The Judge of the Supreme Court may also order any property of the lunatic to be sold or dealt with as the Judge thinks most expedient for the purpose of raising or securing money for the payment of or provision for the expenses of the lunatic's future maintenance or for any purpose which in the opinion of the Judge is for the benefit and restraint of the said lunatic.

15.—(i) And as there is no Lunatic Asylum or Institution for the proper care and custody of Lunatics in these Islands be it enacted that whenever any person shall be confined as a

lunatic in the Gaol it may be lawful for the Governor in Council, whenever it shall be made to appear desirable and necessary, to order the said lunatic to be removed in safe custody to the United Kingdom there to abide such order as may be necessary for securing the detention of the said lunatic in a fit and proper Asylum or Institution for the care of lunatics in the said Kingdom.

ii) In all such cases a transcript of the proceedings in the matter of the lunacy of such person shall be transmitted by the Governor to Her Majesty's Secretary of State for the Colonies.

16.—It shall be lawful for the Governor in Council from time to time to make alter or rescind all rules and orders and to incur all expenses which may be found necessary for carrying this Ordinance into execution.

17.—All Proceedings, Inquiries, Warrants and Orders which have been at any time begun made and issued by the Officials of this Government for the custody care and control of lunatics are hereby recognized as good and valid as if begun made and issued under the authority of this Ordinance.

18.—This Ordinance may be cited for all purposes as the Lunacy Ordinance, 1894; and shall come into operation on the passing thereof.

At a Meeting of the Legislative Council held on the 8th of March, 1894.
Present : His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.
(President).

Honourable C. A. Fraser, Colonial Secretary.

Hon. S. Hamilton, Colonial Surgeon.

Hon. J. J. Felton.

Hon. A. E. Baillon.

A Commission appointing His Honour T. A. Thompson, Judge, to be a Member of the Council, was read, and the Honourable Member took his seat on the Council.

His Honour the Judge moved the introduction and first reading of a Bill entitled "An Ordinance to amend the Land Ordinance, 1882." The Honourable the Colonial Secretary seconded and the Bill was read a First time.

The suspension of the Standing Orders being duly carried, His Honour the Judge moved the Second reading and consideration in Committee of the Bill, and explained its general principles. The Honourable the Colonial Secretary seconded.

The Council then went into Committee and considered Clause 1 and the sub-sections one by one.

Sub-section (1). The Honourable J. J. Felton asked if the Law under consideration would affect existing rights of lessees or deprive them of such rights as they already held under Ordinance 9 of 1882, as it had not been always certain as to the meaning of certain conditions. He asked His Honour the Judge the intention of the words "should be sold or reserved for any public purpose" in Sec. 2 of Ordinance 9, 1882.

His Honour replied that the proposed law did not interfere with existing rights, that the Governor in Council has the power to reserve for sale under the section referred to, but that was not affected at all by the present law. He was surprised at any legal man putting any other interpretation on the meaning of the words quoted.

The Honourable A. E. Baillon asked if the lots offered for surrender for sale to Mr. Melville would be the lots that would be put up for auction.

His Excellency said he was not prepared at the present moment to say which lots will be put up for sale as there were several questions to be settled first.

Sub-section (1) was passed.

Sub-sections (2) and (3) on being read were passed.

Sub-section (4). His Honour the Judge, in reply to the Honourable J. J. Felton, explained that in the case of a failure to obtain bids the land would revert to the original lessee.

The sub-section was passed.

Sub-sections (5), (6) and (7) on being read were passed.

Sub-section (8). The Honourable J. J. Felton asked that the present lessee might be allowed some time within which to move his stock off the land, as a new man being let into possession immediately on payment of a first instalment might cause injury and inconvenience to the lessee.

His Excellency agreed with the Honourable Member, and did not consider that the incoming tenant should be allowed to make use of his powers of possession over the stock until the original lessee had had reasonable time in which to remove them. His Excellency also considered that as the rents were paid in advance the balance of rent in respect of the unexpired portion of the lease should be refunded to those lessees whose lands were sold. After some discussion it was unanimously agreed that the above should be referred to the Secretary of State for his favourable consideration and the insertion in the Particulars of Sale of the time granted for the removal of stock in each case, it being considered better to leave the Ordinance intact.

Sub-section (9). The Honourable J. J. Felton asked if the present Surveyor was competent to assess the value of improvements, and proposed that the lessee should be able to demand a board to make such assessments, and to remove his buildings, &c.

His Excellency said that he was unaware if Mr. Creegan was a sworn Surveyor, but this could be ascertained. If he was not considered fit there was nothing under Section 3 of Ordinance 9 of 1882 to prevent him from obtaining the assistance of experts. The Committee agreed to this question being referred to the Secretary of State.

Sub-section (9) was passed.

Sub-sections (10), (11), (12), (13) and (14) on being read were passed,

On the Council resuming, his Honour the Judge moved the Third reading and passing of the Bill. The Honourable the Colonial Secretary seconded and the Bill was passed.

After an explanation by His Excellency as to the necessity of asking for a sum of £500 from the surplus fund for Expenditure on Public Works; the Honourable the Colonial Secretary moved the following resolution:—"For a sum of £500 as a special vote towards the expenses to be incurred on local roads, sea walls and jetties during the year 1894." This sum, the Colonial Secretary added, was not taken last year from the Reserve Fund although voted, it having been met out of General Revenue which had proved more elastic than had been anticipated. The Council was therefore really now asked to vote for what it had voted last year, the Reserve Fund still standing at £2,000. After some discussion as to the way labour was performed and the system of employment peculiar to the place, which it was unanimously agreed might be advantageously altered if possible, his Honour the Judge seconded the resolution, and the resolution was adopted.

On his Honour the Judge withdrawing.

The Honourable the Colonial Surgeon moved the following resolution:—"For a vote of £20 per annum as an allowance for the services of an Auditor" It was explained that this duty would be performed by his Honour the Judge, and would thus provide for a pre-audit and post-audit in the Colony in conjunction with the Imperial Audit.

The Honourable A. E. Baillon seconded and the resolution was adopted.

The Honourable the Colonial Secretary then moved the following resolution:—"For a vote of £100, being the refund of the amount paid by Messrs. Luchtenberg and H. Grant for a Sealing Licence in 1893." This vote it was explained was passed last year under the circumstances then given, but lapsed owing to the parties failing to make a demand for the payment. Application having been recently made caused it now to be brought forward.

His Honour the Judge seconded and the resolution was adopted.

The Council adjourned *sine die*.

Read and confirmed this 11th day of April, 1894.

C. W. HILL,

Clerk to Council.

Clause 13, line 4. The words "or if any person charged with any such offence shall be found to be insane" were deleted.

Clause 16, line 2. The words "alter or rescind all" were deleted.

Clause 1 was inserted before the final Clause 18 and the numbers of the preceding clauses were altered accordingly.

The Bill was left in Committee.

On the Council resuming, the Honourable the Colonial Secretary moved the introduction and first reading of a Bill entitled "An Ordinance to make further provision for the Service of the Colony of the Falkland Islands for the year 1893." The Honourable the Colonial Surgeon seconded and the Bill was read a first time.

The suspension of the Standing Orders being duly carried the Honourable the Colonial Secretary moved the second reading and going into Committee of the Bill. The Honourable the Colonial Surgeon seconded.

The Colonial Secretary explained the items of excess and savings on the various votes. The Committee considered that the expenditure of £76 10 5 by the Crown Agents on the drawing up of the Mail contract should not be allowed to pass without comment. The Honourable the Colonial Treasurer promised to furnish the accounts at the next Meeting.

In reply to a question from the Honourable A. E. Baillon, His Excellency informed the Honourable Member that Mr. Smith, though acting as Foreman of Works, received the ordinary wages of 1/- an hour. Replying also to the Honourable Member, His Excellency stated that when a vote was exceeded it was the correct principle to ask for a Supplementary vote before incurring extra expenditure, at the same time it was not always possible, as the Crown Agent's accounts sometimes exceeded the estimated cost, added to which the saving generally ascertainable only at the end of the year under one sub-head often balanced the excess in expenditure on another sub-head under the same vote.

The Bill was left in Committee.

The Council resumed and was adjourned until Friday, the 13th, at 11 a.m.

Read and confirmed this 25th day of May, 1894.

W. COULSON,
 Acting Clerk to Council.

NOTICE TO MARINERS.

(The bearings are Magnetic, and those concerning the visibility of lights are given from seaward.)

SOUTH ATLANTIC OCEAN.

ICE ISLANDS AND BERGS.

With reference to Notice to Mariners, No. 647 of 1883, on Ice-islands and bergs in the South Atlantic Ocean:—

Mariners are warned that reports are still being made of the existence of icebergs within the boundary now marked on the chart annexed to this Notice. This boundary line roughly stretches from lat. 55 deg. N., long. 43 deg. W., to lat. 51 deg. S., long. 45 deg. W.; then to lat. 40 deg. S., long. 43 deg. W.; and to lat. 37 deg. S., long. 20 deg. W. To eastward of it is ice.

Large masses of ice in this area were first seen in April 1892, and have been constantly reported since by vessels passing this locality. There seems to be at present no sign of any diminution in the number or size of the bergs reported, and the area must therefore still be considered dangerous for some considerable period.

This Notice affects the following Admiralty Charts:—Ice chart of the Southern Hemisphere, No. 1341; South Atlantic ocean, Nos. 2203, 2202b; Atlantic and Indian oceans, No. 2483; Also South America Pilot, part I., 1885, page 3; and Supplement, 1890, relating to South America Pilot, part I., page 1.

Scab Ordinance, 1894.

The attention of the owners of Sheep Stations is called to the following synopsis of a Scab Ordinance passed unanimously by the Legislative Council and which will come into operation upon the publication of a Notice in the Government Gazette that Her Majesty has not been advised to disallow the same.

The Ordinance will be rigidly enforced against all who wilfully violate its provisions, but every care will be taken not to embarrass or harass those who endeavour, as far as possible, to conform to its requirements.

It will be advisable for the owners of Stations who may possess only a limited supply of proper medicaments for dipping sheep or of material for erecting paddocks and suitable dipping places to obtain these articles as soon as practicable.

By Command,

CHARLES W. HILL.

Acting Colonial Secretary.

3rd July, 1894.

The term "Infected Sheep" means not only sheep suffering from Scab but also those which within three months have been subject to infection from scabby sheep.

Every owner as soon as he becomes aware that any of his sheep are infected shall keep them separate from other flocks which are not infected and at once give notice in writing to the occupiers of adjoining Stations and to an Inspector. The owner shall also follow the instructions given by the Inspector in such cases.

The owner shall within twenty-one days after he learns that his sheep are infected dip them properly with approved medicaments and also as soon as practicable brand or mark them on the rump or back with the letter S six inches long at least and renew this so as to prevent the letter becoming illegible. He must also when required by the Inspector disinfect all premises or articles used by infected sheep.

No person shall slaughter for sale or expose for sale or export the carcass of infected sheep.

The Inspector on becoming satisfied that the sheep on any Station are infected will issue an order to clean them within six months. If they are not clean at the end of that period the owner will be liable to pay two-pence for every infected sheep and so on for every succeeding period of three months. At the end of a year or within three months thereafter such infected sheep may be destroyed by order of two Justices of the Peace.

It will be most important to owners if scab has disappeared in a flock and there has been no fresh outbreak after the lapse of three months to obtain a clean certificate from the Inspector. If this be obtained and scab reappears then a new order to clean will issue and the owner will then be in the same position, so far as regards these particular sheep, as when the original order issued.

No person will be allowed to drive sheep whether infected or not across a Station not belonging to the owner of the Station without a written notice to the adjoining proprietor. See 17 Section.

No infected sheep shall be driven upon other Stations without the consent of the owners thereof and a permit from the Inspector. See 19 Section.

No person shall abandon infected sheep or leave the carcase of infected sheep unburied or undestroyed by fire. When it is impossible to bury or destroy the carcase it must be skinned and the skin taken away carefully in a bag.

Sheep imported from abroad shall not be landed without a permit. See Section 21. Nor shall sheep whether newly imported or not be landed on any Station without notice to the owner of the Station and a permit. See Section 22.

The ear marks of sheep must be sent to the Colonial Secretary within three months after the Ordinance comes into force.

The Governor in Council is empowered to make Rules for establishing proper paddocks on Stations in which sheep may be kept.

The owners of sheep will be required to pay into the Treasury on the 31st of July in each year a rate of £1. 0. 0 for every one thousand sheep. A true return of the number of sheep kept on the 1st of March preceding, signed and declared to by the owner before a Justice of the Peace, must be sent to the Colonial Secretary before the 31st day of May in each year.

Scab Ordinance, 1894.

The attention of the owners of Sheep Stations is called to the following synopsis of a Scab Ordinance passed unanimously by the Legislative Council and which will come into operation upon the publication of a Notice in the Government Gazette that Her Majesty has not been advised to disallow the same.

The Ordinance will be rigidly enforced against all who wilfully violate its provisions, but every care will be taken not to embarrass or harass those who endeavour, as far as possible, to conform to its requirements.

It will be advisable for the owners of Stations who may possess only a limited supply of proper medicaments for dipping sheep or of material for erecting paddocks and suitable dipping places to obtain these articles as soon as practicable.

By Command,

CHARLES W. HILL.

Acting Colonial Secretary.

3rd July, 1894.

The term "Infected Sheep" means not only sheep suffering from Scab but also those which within three months have been subject to infection from scabby sheep.

Every owner as soon as he becomes aware that any of his sheep are infected shall keep them separate from other flocks which are not infected and at once give notice in writing to the occupiers of adjoining Stations and to an Inspector. The owner shall also follow the instructions given by the Inspector in such cases.

The owner shall within twenty-one days after he learns that his sheep are infected dip them properly with approved medicaments and also as soon as practicable brand or mark them on the rump or back with the letter S six inches long at least and renew this so as to prevent the letter becoming illegible. He must also when required by the Inspector disinfect all premises or articles used by infected sheep.

No person shall slaughter for sale or expose for sale or export the carcass of infected sheep.

The Inspector on becoming satisfied that the sheep on any Station are infected will issue an order to clean them within six months. If they are not clean at the end of that period the owner will be liable to pay two-pence for every infected sheep and so on for every succeeding period of three months. At the end of a year or within three months thereafter such infected sheep may be destroyed by order of two Justices of the Peace.

It will be most important to owners if scab has disappeared in a flock and there has been no fresh outbreak after the lapse of three months to obtain a clean certificate from the Inspector. If this be obtained and scab reappears then a new order to clean will issue and the owner will then be in the same position, so far as regards these particular sheep, as when the original order issued.

No person will be allowed to drive sheep whether infected or not across a Station not belonging to the owner of the Station without a written notice to the adjoining proprietor. See 17 Section.

No infected sheep shall be driven upon other Stations without the consent of the owners thereof and a permit from the Inspector. See 18 Section.

No person shall abandon infected sheep or leave the carcase of infected sheep unburied or undestroyed by fire. When it is impossible to bury or destroy the carcase it must be skinned and the skin taken away carefully in a bag.

Sheep imported from abroad shall not be landed without a permit. See Section 21. Nor shall sheep whether newly imported or not be landed on any Station without notice to the owner of the Station and a permit. See Section 22.

The ear marks of sheep must be sent to the Colonial Secretary within three months after the Ordinance comes into force.

The Governor in Council is empowered to make Rules for establishing proper paddocks on Stations in which sheep may be kept.

The owners of sheep will be required to pay into the Treasury on the 31st of July in each year a rate of £1 0 0 for every one thousand sheep. A true return of the number of sheep kept on the 1st of March preceding, signed and declared to by the owner before a Justice of the Peace, must be sent to the Colonial Secretary before the 31st day of May in each year.

Scab Ordinance, 1894.

The attention of the owners of Sheep Stations is called to the following synopsis of a Scab Ordinance passed unanimously by the Legislative Council and which will come into operation upon the publication of a Notice in the Government Gazette that Her Majesty has not been advised to disallow the same.

The Ordinance will be rigidly enforced against all who wilfully violate its provisions, but every care will be taken not to embarrass or harass those who endeavour, as far as possible, to conform to its requirements.

It will be advisable for the owners of Stations who may possess only a limited supply of proper medicaments for dipping sheep or of material for erecting paddocks and suitable dipping places to obtain these articles as soon as practicable.

By Command,

CHARLES W HILL.

Acting Colonial Secretary.

3rd July, 1894.

The term "Infected Sheep" means not only sheep suffering from Scab but also those which within three months have been subject to infection from scabby sheep.

Every owner as soon as he becomes aware that any of his sheep are infected shall keep them separate from other flocks which are not infected and at once give notice in writing to the occupiers of adjoining Stations and to an Inspector. The owner shall also follow the instructions given by the Inspector in such cases.

The owner shall within twenty-one days after he learns that his sheep are infected dip them properly with approved medicaments and also as soon as practicable brand or mark them on the rump or back with the letter S six inches long at least and renew this so as to prevent the letter becoming illegible. He must also when required by the Inspector disinfect all premises or articles used by infected sheep.

No person shall slaughter for sale or expose for sale or export the carcass of infected sheep.

The Inspector on becoming satisfied that the sheep on any Station are infected will issue an order to clean them within six months. If they are not clean at the end of that period the owner will be liable to pay two-pence for every infected sheep and so on for every succeeding period of three months. At the end of a year or within three months thereafter such infected sheep may be destroyed by order of two Justices of the Peace.

It will be most important to owners if scab has disappeared in a flock and there has been no fresh outbreak after the lapse of three months to obtain a clean certificate from the Inspector. If this be obtained and scab reappears then a new order to clean will issue and the owner will then be in the same position, so far as regards these particular sheep, as when the original order issued.

No person will be allowed to drive sheep whether infected or not across a Station not belonging to the owner of the Station without a written notice to the adjoining proprietor. See 17 Section.

No infected sheep shall be driven upon other Stations without the consent of the owners thereof and a permit from the Inspector. See 18 Section.

No person shall abandon infected sheep or leave the carcass of infected sheep unburied or undestroyed by fire. When it is impossible to bury or destroy the carcass it must be skinned and the skin taken away carefully in a bag.

Sheep imported from abroad shall not be landed without a permit. See Section 21. Nor shall sheep whether newly imported or not be landed on any Station without notice to the owner of the Station and a permit. See Section 22.

The ear marks of sheep must be sent to the Colonial Secretary within three months after the Ordinance comes into force.

The Governor in Council is empowered to make Rules for establishing proper paddocks on Stations in which sheep may be kept.

The owners of sheep will be required to pay into the Treasury on the 31st of July in each year a rate of £1 0 0 for every one thousand sheep. A true return of the number of sheep kept on the 1st of March preceding, signed and declared to by the owner before a Justice of the Peace, must be sent to the Colonial Secretary before the 21st day of May in each year.

The following lists showing the persons holding Dog, Tobacco, Publican's retail, Billiard or Bagatelle, and Wholesale Licences, under Ordinances 6 of 1853, 5 of 1878, and 11 of 1882, and the dates on which such expire, are published for general information.

1.—There shall be a Board of Health for the Falkland Islands composed of the following Members:—

The Colonial Surgeon, who shall be President of the Board; the Colonial Secretary, and such other Members not exceeding five as shall be appointed annually by the Governor, or Officer Administering the Government, and it shall be lawful for the Governor or Officer Administering the Government from time to time to fill up any vacancy or vacancies which may occur during any year on the said Board.

2.—The Board shall meet from time to time as may be necessary by order of the Governor, or Officer Administering the Government, or on a Summons from the President, or in his absence the senior Member present in Stanley.

4.—Minutes of the Proceedings of the Board shall be entered in a book kept for the purpose by the President and a copy of the minutes shall be forwarded as soon as practicable to the Governor or Officer Administering the Government of the Colony.

6.—If it shall be represented to the Board of Health either by one of their own officers or by any other person that the water in any well, tank, pump or cistern used or likely to be used for any drinking purposes or for manufacturing drinks, or for domestic purposes, is so polluted as to be injurious to health, it shall be lawful for the Board to cause such water to be tested or analysed, and if necessary to direct the said well, tank, pump or cistern to be temporarily or permanently closed, or the water to be used for certain purposes only, or to make such other order as may appear to them to be requisite to prevent injury to the health of persons drinking the water.

Provided that no Public Fountain, Reservoir, or Well shall be closed without the sanction of the Governor, to whom the Board shall make such report upon its condition as may be necessary.

Any person failing to comply with an order made under the above section shall be liable to a penalty not exceeding Five pounds, and should he still fail to comply with the order, it shall be lawful for the Board to do whatever may be necessary for the execution of that order and to recover any expenses incurred in so doing from the person on whom the order was made.

Any factory, workshop, or other place not kept in a clean and perfectly sanitary condition.

9.—It shall be lawful for the Board of Health to make bye-laws for regulating the duties of Inspectors of Nuisances in like manner as the bye-laws hereinafter mentioned, and any person wilfully obstructing any Inspector of Nuisances in the execution of his duty shall be liable to a penalty not exceeding £5, or in default of payment imprisonment for any term not exceeding one month.

10.—On receipt of information from an Inspector of Nuisances or any two inhabitant freeholders of any nuisance the Board of Health shall if satisfied of the existence of a nuisance serve a notice on the person by whose act, default, or sufferance, the nuisance continues, or if such person cannot be found on the owner or occupier of the premises on which the nuisance arises requiring him to abate the same within a time specified in such notice and to execute such works and do such things as may be necessary for the purpose. Provided that where the nuisance arises from the want or defective construction of any structural convenience or where there is no occupier of the premises notice shall be served on the owner and where the person causing the nuisance cannot be found and it is clear that the nuisance does not arise or continue by the act default or sufferance of the owner or occupier of the premises the Board may themselves abate the same without further order.

11.—In the event of the owner of any premises being absent from the Colony the agent or the person entitled to receive on the owner's behalf the rents for the same shall be considered for all the purposes of this Ordinance as the owner.

12.—Should any house or building complained of as uninhabitable and a nuisance be unoccupied and the owner be absent from the Colony without leaving any known agent the Board shall report the matter to a Court of Summary Jurisdiction and upon satisfactory proof being afforded to the said Court that the removal or demolition of the said premises or any part thereof is necessary the Court is hereby empowered to issue orders to the Board of Health for the removal or demolition of the said premises or such part thereof as may be necessary and the Board shall immediately carry such orders into effect.

13.—If the person on whom a notice to abate a nuisance has been served makes default in complying with such notice the Board shall cause a complaint to be made before a Justice of the Peace and such Justice shall thereupon issue a summons requiring such person to appear before a Court of Summary Jurisdiction.

14.—If the Court is satisfied that the nuisance exists it shall make an order on such person requiring him to comply with all or any of the requisitions of the notice or otherwise abate the nuisance within a specified time. The Court may also impose a penalty not exceeding £5 on the person on whom the order is made and shall also give directions as to the payment of all costs incurred up to the time of hearing or making the order. Any person not obeying the order of the Court to comply with the requisitions of the

Board shall if he fails to satisfy the Court that he has used all diligence to carry out such order be liable to a penalty not exceeding five shillings per day during his default. And the Board of Health may abate the nuisance and recover the expenses of so doing from the defaulting party.

15.—Where the nuisance proved to exist is such as to render a house or building in the judgment of the Court unfit for human habitation the Court may prohibit the using thereof for that purpose until in its judgment the house or building is rendered fit for human habitation.

16.—The occupier of any house or the owner or agent of the owner of any uninhabited house within the town of Stanley shall at all times keep the same and the yards and enclosures thereto attached and all ways, paths, roads, drains and water-courses in front of such house and also the piece or lot of land whereof he may be occupier or owner or agent clean or clear of filth or of decaying or offensive animal or vegetable matter under a penalty not exceeding £2 or in default of payment of imprisonment for any term not exceeding two weeks for each offence.

17.—Any Inspector of Nuisances shall have power to enter any market-place, wharf, shop, yard or building used for the sale of butcher's meat and also to enter into any slaughter-house and examine any animal, carcase, meat, or flesh intended for the food of man and if it shall appear that the same is unfit for food it shall be seized and the matter at once reported to a Justice of the Peace and if it appears to the said Justice that any such animal or any of the said articles are unsound or unfit for the food of man he shall order the same to be destroyed and the person to whom the same belongs or in whose possession or on whose premises the same was found shall be liable on conviction before two Justices or the Police Magistrate of the Colony to a penalty not exceeding £10 for every such offence or at the discretion of the Justices or Police Magistrate without the infliction of a fine to imprisonment for any term not exceeding two months.

18.—The Board of Health shall have power whenever the Board shall deem it necessary for the preservation of the public health so to do to require by written notice the owner or agent of the owner of any lot of land in the town of Stanley to properly fence to the satisfaction of the said Board any such lot within a specified time and if any owner being so required shall refuse or neglect to carry out the requirements of the notice the Board shall cause a complaint to be made before a Justice of the Peace who shall thereupon issue a summons requiring the person on whom the notice was served to appear before a Court of Summary Jurisdiction which Court shall make an order on such person directing him to comply with all of the requisitions of the notice within a specified time. The Court may also impose a penalty not exceeding £5 on the person on whom the order is made and any person disobeying such order of the Court shall if he fails to satisfy the Court that he has used all diligence to carry out such order be liable to a penalty not exceeding five shillings per day during his default. In the case of fences common to the lands of two or more owners it shall be lawful for the person who erects the fence under the authority of this Section to recover a moiety of the expense of erection from the adjoining owner or owners.

19.—The Board of Health may make bye-laws and from time to time amend or rescind bye-laws so made with respect to the following matters:—

I. The level width and construction of new streets and the cleaning drainage or sewerage thereof.

II. The structure of new buildings in any town or settlement and the drainage, water closets, earth closets, urinals, privies, ashpits and cesspools to be provided in the erection of such buildings.

XIII. The inspection of shipping in the harbour of Stanley and the cleansing and disinfecting of the same.

XIV. The protection of drains from injuries by cattle or otherwise.

XV. The removal or demolition of buildings so ruinous as to be dangerous to the public safety.

XVI. The payment by parties in default of expenses incurred thereby by the Board under this Ordinance.

20.—The Board of Health is also empowered to make bye-laws for enforcing such other sanitary measures for the prevention and mitigation of disease and for the care and preservation of the public health as the said Board may deem fit and proper and the Board may by all bye-laws made under this Ordinance impose upon offenders against the same such reasonable penalties as it may think fit not exceeding the sum of two pounds for each offence and in case of a continuing offence a further penalty not exceeding five shillings for each day after written notice of the said offence from the said Board. Provided that all such bye-laws imposing a penalty shall be so framed as to allow of the recovery of any sum less than the full amount of the penalty and all bye-laws made by the Board shall upon approval by the Governor in Council and publication in the Government Gazette have the same effect as if inserted in this Ordinance.

21.—All fines and penalties under this Ordinance shall be recovered in a Court of Summary Jurisdiction before two Justices or the Police Magistrate of the Colony who are hereby empowered to issue a Warrant or Warrants of Distress for levying the same by distress and sale of the defendant's goods and chattels or if needful all such proceedings shall be had as in cases of a conviction imposing a penalty.

This Ordinance may be cited for all purposes as "The Public Health Ordinance of 1894," and shall come into operation on the passing thereof.

Scab Ordinance, 1894.

The attention of the owners of Sheep Stations is called to the following synopsis of a Scab Ordinance passed unanimously by the Legislative Council and which will come into operation upon the publication of a Notice in the Government Gazette that Her Majesty has not been advised to disallow the same.

The Ordinance will be rigidly enforced against all who wilfully violate its provisions, but every care will be taken not to embarrass or harass those who endeavour, as far as possible, to conform to its requirements.

It will be advisable for the owners of Stations who may possess only a limited supply of proper medicaments for dipping sheep or of material for erecting paddocks and suitable dipping places to obtain these articles as soon as practicable.

By Command,

CHARLES W HILL.

Acting Colonial Secretary.

3rd July, 1894.

The term "Infected Sheep" means not only sheep suffering from Scab but also those which within three months have been subject to infection from scabby sheep.

Every owner as soon as he becomes aware that any of his sheep are infected shall keep them separate from other flocks which are not infected and at once give notice in writing to the occupiers of adjoining Stations and to an Inspector. The owner shall also follow the instructions given by the Inspector in such cases.

The owner shall within twenty-one days after he learns that his sheep are infected dip them properly with approved medicaments and also as soon as practicable brand or mark them on the rump or back with the letter S six inches long at least and renew this so as to prevent the letter becoming illegible. He must also when required by the Inspector disinfect all premises or articles used by infected sheep.

No person shall slaughter for sale or expose for sale or export the carcass of infected sheep.

The Inspector on becoming satisfied that the sheep on any Station are infected will issue an order to clean them within six months. If they are not clean at the end of that period the owner will be liable to pay two-pence for every infected sheep and so on for every succeeding period of three months. At the end of a year or within three months thereafter such infected sheep may be destroyed by order of two Justices of the Peace.

It will be most important to owners if scab has disappeared in a flock and there has been no fresh outbreak after the lapse of three months to obtain a clean certificate from the Inspector. If this be obtained and scab reappears then a new order to clean will issue and the owner will then be in the same position, so far as regards these particular sheep, as when the original order issued.

No person will be allowed to drive sheep whether infected or not across a Station not belonging to the owner of the Station without a written notice to the adjoining proprietor. See 17 Section.

No infected sheep shall be driven upon other Stations without the consent of the owners thereof and a permit from the Inspector. See 18 Section.

No person shall abandon infected sheep or leave the carcass of infected sheep unburied or undestroyed by fire. When it is impossible to bury or destroy the carcass it must be skinned and the skin taken away carefully in a bag.

Sheep imported from abroad shall not be landed without a permit. See Section 21. Nor shall sheep whether newly imported or not be landed on any Station without notice to the owner of the Station and a permit. See Section 22.

The ear marks of sheep must be sent to the Colonial Secretary within three months after the Ordinance comes into force.

The Governor in Council is empowered to make Rules for establishing proper paddocks on Stations in which sheep may be kept.

The owners of sheep will be required to pay into the Treasury on the 31st of July in each year a rate of £1 0 0 for every one thousand sheep. A true return of the number of sheep kept on the 1st of March preceding, signed and declared to by the owner before a Justice of the Peace, must be sent to the Colonial Secretary before the 31st day of May in each year.

An Ordinance for the Preservation of Public Health.

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council thereof, as follows:—

1.—There shall be a Board of Health for the Falkland Islands composed of the following Members:—

The Colonial Surgeon, who shall be President of the Board; the Colonial Secretary, and such other Members not exceeding five as shall be appointed annually by the Governor, or Officer Administering the Government, and it shall be lawful for the Governor or Officer Administering the Government from time to time to fill up any vacancy or vacancies which may occur during any year on the said Board.

2.—The Board shall meet from time to time as may be necessary by order of the Governor, or Officer Administering the Government, or on a Summons from the President, or in his absence the senior Member present in Stanley.

3.—At all Meetings of the Board four Members shall form a quorum for the transaction of business and in the absence of the President the senior Member present shall preside, seniority being determined by the date and order of appointment as published in the Government Gazette.

4.—Minutes of the Proceedings of the Board shall be entered in a book kept for the purpose by the President and a copy of the minutes shall be forwarded as soon as practicable to the Governor or Officer Administering the Government of the Colony.

6.—If it shall be represented to the Board of Health either by one of their own officers or by any other person that the water in any well, tank, pump or cistern used or likely to be used for any drinking purposes or for manufacturing drinks, or for domestic purposes, is so polluted as to be injurious to health, it shall be lawful for the Board to cause such water to be tested or analysed, and if necessary to direct the said well, tank, pump or cistern to be temporarily or permanently closed, or the water to be used for certain purposes only, or to make such other order as may appear to them to be requisite to prevent injury to the health of persons drinking the water.

Provided that no Public Fountain, Reservoir, or Well shall be closed without the sanction of the Governor, to whom the Board shall make such report upon its condition as may be necessary.

Any person failing to comply with an order made under the above section shall be liable to a penalty not exceeding Five pounds, and should he still fail to comply with the order, it shall be lawful for the Board to do whatever may be necessary for the execution of that order and to recover any expenses incurred in so doing from the person on whom the order was made.

7.—The Governor is hereby empowered from time to time to appoint an Inspector or Inspectors of Nuisances to carry out the provisions of this Ordinance at such salary or salaries as may be determined by the Governor in Council and it shall be the duty of any Inspector so appointed to ascertain what nuisances exist calling for abatement, and upon order of the Board to enter any building, house, or premises for the purposes of inspection.

8.—The following shall for the purpose of this Ordinance be deemed to be nuisances:—

Any building, house, yard or premises in or about which any deposit or collection, fluid or otherwise, so foul or in such a state as to be injurious to health shall be allowed to remain.

Any pool, ditch, gutter, water-course, pig-stye, stable, cow-house, sheep or goat-pen, fowl-house, poultry yard, privy, urinal, cesspool,

drain, ash-pit, or dung-heap, so foul or in such a state as to be injurious to health.

Any animal so kept as to be a nuisance or injurious to health.

Any house so over-crowded with residents as to be injurious to the health of the inmates.

Any accumulation or deposit, fluid or otherwise, so foul or in such a state as to be injurious to health.

Any factory, workshop, or other place not kept in a clean and perfectly sanitary condition.

9.—It shall be lawful for the Board of Health to make bye-laws for regulating the duties of Inspectors of Nuisances in like manner as the bye-laws hereinafter mentioned, and any person wilfully obstructing any Inspector of Nuisances in the execution of his duty shall be liable to a penalty not exceeding £5, or in default of payment imprisonment for any term not exceeding one month.

10.—On receipt of information from an Inspector of Nuisances or any two inhabitant freeholders of any nuisance the Board of Health shall if satisfied of the existence of a nuisance serve a notice on the person by whose act, default, or sufferance, the nuisance continues, or if such person cannot be found on the owner or occupier of the premises on which the nuisance arises requiring him to abate the same within a time specified in such notice and to execute such works and do such things as may be necessary for the purpose. Provided that where the nuisance arises from the want or defective construction of any structural convenience or where there is no occupier of the premises notice shall be served on the owner and where the person causing the nuisance cannot be found and it is clear that the nuisance does not arise or continue by the act default or sufferance of the owner or occupier of the premises the Board may themselves abate the same without further order.

11.—In the event of the owner of any premises being absent from the Colony the agent or the person entitled to receive on the owner's behalf the rents for the same shall be considered for all the purposes of this Ordinance as the owner.

12.—Should any house or building complained of as uninhabitable and a nuisance be unoccupied and the owner be absent from the Colony without leaving any known agent the Board shall report the matter to a Court of Summary Jurisdiction and upon satisfactory proof being afforded to the said Court that the removal or demolition of the said premises or any part thereof is necessary the Court is hereby empowered to issue orders to the Board of Health for the removal or demolition of the said premises or such part thereof as may be necessary and the Board shall immediately carry such orders into effect.

13.—If the person on whom a notice to abate a nuisance has been served makes default in complying with such notice the Board shall cause a complaint to be made before a Justice of the Peace and such Justice shall thereupon issue a summons requiring such person to appear before a Court of Summary Jurisdiction.

14.—If the Court is satisfied that the nuisance exists it shall make an order on such person requiring him to comply with all or any of the requisitions of the notice or otherwise abate the nuisance within a specified time. The Court may also impose a penalty not exceeding £5 on the person on whom the order is made and shall also give directions as to the payment of all costs incurred up to the time of hearing or making the order. Any person not obeying the order of the Court to comply with the requisitions of the Board shall if he fails to satisfy the Court that he has used all diligence to carry out such order be liable to a penalty not exceeding five shillings per day during his default. And the Board of Health may abate the nuisance and recover the expenses of so doing from the defaulting party.

15.—Where the nuisance proved to exist is such as to render a house or building in the judgment of the Court unfit for human habitation the Court may prohibit the using thereof for that purpose until in its judgment the house or building is rendered fit for human habitation.

16.—The occupier of any house or the owner or agent of the owner of any uninhabited house within the town of Stanley shall at all times keep the same and the yards and enclosures thereto attached and all ways, paths, roads, drains and water-courses in front of such house and also the piece or lot of land whereof he may be occupier or owner or agent clean or clear of filth or of decaying or offensive animal or vegetable matter under a penalty not exceeding £2 or in default of payment of imprisonment for any term not exceeding two weeks for each offence.

18.—The Board of Health shall have power whenever the Board shall deem it necessary for the preservation of the public health so to do to require by written notice the owner or agent of the owner of any lot of land in the town of Stanley to properly fence to the satisfaction of the said Board any such lot within a specified time and if any owner being so required shall refuse or neglect to carry out the requirements of the notice the Board shall cause a complaint to be made before a Justice of the Peace who shall thereupon issue a summons requiring the person on whom the notice was served to appear before a Court of Summary Jurisdiction which Court shall make an order on such person directing him to comply with all of the requisitions of the notice within a specified time. The Court may also impose a penalty not exceeding £5 on the person on whom the order is made and any person disobeying such order of the Court shall if he fails to satisfy the Court that he has used all diligence to carry out such order be liable to a penalty not exceeding five shillings per day during his default. In the case of fences common to the lands of two or more owners it shall be lawful for the person who erects the fence under the authority of this Section to recover a moiety of the expense of erection from the adjoining owner or owners.

At a Meeting of the Legislative Council held on the 25th May, 1894.

Present: His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.
(President).

His Honor the Judge.

Hon. C. W. Hill, Acting Colonial Secretary.

Hon. S. Hamilton, Colonial Surgeon.

Hon. J. J. Felton.

Hon. A. E. Baillon.

The Minutes of the previous Meeting were read and confirmed.

The Council resolved itself into Committee with a view to further considering the Bill providing for the "Custody and control of Lunatics."

The following further amendments were then made:

Clause 6. The words "or in any Institution or place which may be approved by the Governor in Council as a fit and proper place for the care of Lunatics" were added at the end of the Clause.

Clause 2. The word "Gaol" was substituted for the word "Prison."

Clause 12. Lines 3 & 7. The word "Lunatic" was substituted for the word "insane."

Clause 17. After the word "Officer" the words "or special Constable" were added.

The Council having resumed, on the motion of the Acting Colonial Secretary the Council went into Committee on the Supplementary Appropriation Ordinance.

The Acting Colonial Secretary explained how the item of £73 10 5 for professional charges in drawing up the Mail Contract, charged by the Crown Agents, was arrived at, the Contract having been drawn up in the interest of both the Government and the Kosmos Company, while the whole cost had been met from Colonial funds.

His Excellency asked the opinion of the Un-Official Members upon this item of expenditure.

The Honourable A. E. Baillon thought that both the contracting parties should bear part of the expense.

The Honourable J. J. Felton said, it being an agreement made as much to protect the interests of the Kosmos Company it would be only fair that they should pay part of these charges.

It was unanimously agreed that the Crown Agents attention should be drawn to the views now expressed by the Council.

The Council then resumed, and the Standing Orders having been suspended, on the motion of the Honourable the Acting Colonial Secretary, seconded by His Honour the Judge, the Bill entitled "An Ordinance to make further provision for the Service of the Colony of the Falkland Islands for the year 1893," was read a third time and passed.

His Honor the Judge then moved the introduction and First reading of a Bill entitled "An Ordinance to make provision for the eradication of Scab and other Infectious or Contagious diseases in Sheep," the Acting Colonial Secretary seconded and the Bill was read by title.

His Honor the Judge then gave notice that at the next Meeting he would move the introduction and First reading of a Bill entitled "An Ordinance for the preservation of Public Health."

With reference to the remarks made by the Honourable A. E. Baillon at a Meeting held on 9th February last, His Excellency laid on the table, for the information of the Council, papers connected with the respectability of Customs Officers, and stated that from enquiries made the Customs Officer referred to had been well reported on by his superiors who had expressed satisfaction at the way on which he had performed his duties.

The Honourable A. E. Baillon said that he could endorse that expression of opinion from what the master of the "Thetis" had reported on the Officer while he was engaged as Customs Officer on board the "Thetis."

The Council then adjourned until Friday, 2nd June.

Read and confirmed this 12th day of June, 1894.

W. COULSON,
Clerk to Council.

If any purchaser shall fail to pay the second or any subsequent instalment of purchase money or any interest for the time being payable by him on the day on which such instalment or interest becomes payable or within 21 days thereafter, the Governor may, and if such default shall continue for 3 months from the day on which such instalment or interest becomes payable, the Governor shall cause the land purchased by such purchaser to be again put up for sale by public auction at the same upset price and on the same conditions as at the previous sale.

If any land shall be again put up for sale as aforesaid the previous sale thereof shall thenceforth become void and the purchaser at the previous sale shall give up possession thereof and shall have no further right or interest in or lien upon such land.

If after payment in full of the purchase money and interest payable by the purchaser at the second sale the Government shall have received in respect of such purchase money and interest an amount exceeding the purchase money and interest which the Governor would have received from the purchaser at the previous sale if he had complied with the conditions of sale then out of such excess, after deducting therefrom the expenses of the second sale the Government shall repay to the purchaser at the previous sale the amount of the instalments of purchase money and interest which he shall have actually paid or so much thereof as such excess shall suffice to repay but in no other event shall a purchaser have any claim for repayment of instalments of purchase money or interest paid by him.

Every purchaser whether at a first or second sale shall be let into possession of the land purchased by him upon payment of the first instalment of purchase money and upon his signing the above-mentioned agreement, but no grant of the land shall be issued to him until he shall have paid the whole of the purchase money and all interest payable under the conditions of sale.

The sum of money (if any) payable by the purchaser of each lot put up for sale to the former lessee of such lot as the value of improvements thereon under Section 3 of the Land Ordinance 1882, shall be determined in the manner provided by that Section before the lot is put up for sale and shall be stated in the Particulars of Sale, and shall be paid by the purchaser to the former lessee, or his legal personal representatives, within 7 days from the date of the sale or at such later date as may be agreed upon by the parties. If the purchaser at a first sale shall not pay the said sum of money within the said 7 days, or on the day agreed upon, as the case may be, the lot shall be again put up for sale by auction in the same manner, and with the same consequences as if such purchaser had made default for three months in payment of an instalment of purchase money.

No stock shall be placed on any lot so sold as aforesaid until proper arrangements for the dipping of sheep to the satisfaction of the Governor in Council have been provided thereon, or on some adjoining land occupied by the same person, or occupied by some other person if such lot and such adjoining land are farmed in

common, or until such lot has been completely fenced in by proper sheep-proof fence to the satisfaction of the Governor in Council, provided that with the consent of the owner or lessee of any land adjoining such lot the erection of a fence between such and such adjoining land may be dispensed with.

The purchaser of every lot, his heirs or assigns shall, before the expiration of 2 years from the date of the sale, erect on such lot a suitable and substantial dwelling-house to the satisfaction of the Governor in Council. Default in compliance with this sub-section shall entail the same consequences as default in payment of a second or subsequent instalment of purchase money for three months.

The cost of the fences to be erected between any lot which shall be sold as aforesaid and the adjoining lands shall be borne by the purchaser of the lot and the owner or lessee of the adjoining land in equal shares. In the absence of any agreement to the contrary the fence shall be erected by the purchaser, and he shall have the right to recover from each adjoining owner or lessee a proportion of the half of the entire cost thereof according to the length of the fence between the lot and the land of such adjoining owner or lessee.

CONDITIONS OF SALE.

—o—

The Conditions of Sale will be found in the following clauses of Ordinance No. 2 of 1894.

The purchase money shall be payable by such number (not exceeding 15) of equal yearly instalments as the Governor in Council shall determine and as shall be notified in the Government Gazette before the sale. The first instalment shall be paid at the conclusion of the sale and each subsequent instalment together with interest at the rate of $2\frac{1}{2}$ per centum per annum on the unpaid balance of the purchase money for the time being from the date of the payment of the last previous instalment shall be paid at the expiration of one year from the day on which the last previous instalment was payable. But the purchaser may at any time pay the whole of the purchase money remaining unpaid with the interest thereon which has accrued since the date of the last previous payment of an instalment.

The highest or only bidder for every lot put up for sale at or above the upset price shall be the purchaser.

Immediately upon the conclusion of the sale the purchaser shall pay the first instalment of the purchase money and sign an agreement to complete the purchase and to fulfil the conditions of sale. If any purchaser, whether the original purchaser or a purchaser substituted under this sub-section, shall fail to pay the first instalment or to sign the said agreement, the sale to him shall be void and the next highest bidder (if any) at or above the upset price shall be the purchaser.

If any purchaser shall fail to pay the second or any subsequent instalment of purchase money or any interest for the time being payable by him on the day on which such instalment or interest becomes payable or within 21 days thereafter, the Governor may, and if such default shall continue for 3 months from the day on which such instalment or interest becomes payable, the Governor shall cause the land purchased by such purchaser to be again put up for sale by public auction at the same upset price and on the same conditions as at the previous sale.

If any land shall be again put up for sale as aforesaid the previous sale thereof shall thenceforth become void and the purchaser at the previous sale shall give up possession thereof and shall have no further right or interest in or lien upon such land.

If after payment in full of the purchase money and interest payable by the purchaser at the second sale the Government shall have received in respect of such purchase money and interest an amount exceeding the purchase money and interest which the Governor would have received from the purchaser at the previous sale if he had complied with the conditions of sale then out of such excess, after deducting therefrom the expenses of the second sale the Government shall repay to the purchaser at the previous sale the amount of the instalments of purchase money and interest which he shall have actually paid or so much thereof as such excess shall suffice to repay but in no other event shall a purchaser have any claim for repayment of instalments of purchase money or interest paid by him.

Every purchaser whether at a first or second sale shall be let into possession of the land purchased by him upon payment of the first instalment of purchase money and upon his signing the above-mentioned agreement, but no grant of the land shall be issued to him until he shall have paid the whole of the purchase money and all interest payable under the conditions of sale.

The sum of money (if any) payable by the purchaser of each lot put up for sale to the former lessee of such lot as the value of improvements thereon under Section 3 of the Land Ordinance 1882, shall be determined in the manner provided by that Section before the lot is put up for sale and shall be stated in the Particulars of Sale, and shall be paid by the purchaser to the former lessee, or his legal personal representatives, within 7 days from the date of the sale or at such later date as may be agreed upon by the parties. If the purchaser at a first sale shall not pay the said sum of money within the said 7 days, or on the day agreed upon, as the case may be, the lot shall be again put up for sale by auction in the same manner, and with the same consequences as if such purchaser had made default for three months in payment of an instalment of purchase money.

CONDITIONS OF SALE.

The Conditions of Sale will be found in the following clauses of Ordinance No. 2 of 1894.

The purchase money shall be payable by such number (not exceeding 15) of equal yearly instalments as the Governor in Council shall determine and as shall be notified in the Government Gazette before the sale. The first instalment shall be paid at the conclusion of the sale and each subsequent instalment together with interest at the rate of $2\frac{1}{2}$ per centum per annum on the unpaid balance of the purchase money for the time being from the date of the payment of the last previous instalment shall be paid at the expiration of one year from the day on which the last previous instalment was payable. Every purchaser whether at a first or second sale shall be let into possession of the land purchased by him upon payment of the first instalment of purchase money and upon his signing the above-mentioned agreement, but no grant of the land shall be issued to him until he shall have paid the whole of the purchase money and all interest payable under the conditions of sale.
