BY THE QUEEN, A PROCLAMATION.

VICTORIA, R.

WHEREAS We are happily at peace with all Sovereigns, Powers, and States ;

And whereas a state of war unhappily exists between his Majesty the Emperor of China and his Majesty the Emperor of Japan, and between their respective subjects and others inhabiting within their countries, territories, or dominions ;

And whereas We are on terms of friendship and amicable intercourse with each of these States, and with their subjects and others inhabiting within their countries, territories or dominions ;

And whereas great numbers of Our loyal subjects reside and carry on commerce, and possess property and establishments, and enjoy various rights and privileges, within the territory of each of the aforesaid States, protected by the faith of Treaties between Us and each of the aforesaid States ;

And whereas We, being desirous of preserving to Our subjects the blessings of peace which they now happily enjoy, are firmly purposed and determined to maintain a strict and impartial neutrality in the said state of war unhappily existing between the aforesaid States ;

We therefore have thought fit, by and with the advice of Our Privy Council, to issue this Our Royal Proclamation ;

And We do hereby strictly charge and command all Our loving subjects to govern themselves accordingly, and to observe a strict neutrality in and during the aforesaid war, and to abstain from violating or contravening either the Laws and Statutes of the realm in this behalf, or the law of nations in relation thereto, as they will answer to the contrary at their peril ;

And whereas in and by a certain Statute made and passed in a Session of Parliament holden in the 33rd and 34th year of Our reign, intituled "An Act to regulate the Conduct of Her Majesty's Subjects during the Existence of Hostilities between Foreign States with which Her Majesty is at Peace," it is, amongst other things, declared and enacted as follows :—

"This Act shall extend to all the dominions of Her Majesty, including the adjacent territorial waters ;

"Illegal Enlistment."

"If any person, without the licence of Her Majesty, being a British subject, within or without Her Majesty's dominions, accepts or agrees to accept any commission or engagement in the military or naval service of any foreign State at war with any foreign State at peace with Her Majesty, and in this Act referred to as a friendly State, or, whether a British subject or not, within Her Majesty's dominions, induces any other person to accept or agree to accept any commission or engagement in the military or naval service of any such foreign State as aforesaid,—

"He shall be guilty of an offence against this Act, and shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

"If any person, without the licence of Her Majesty, being a British subject, quits or goes on board any ship with a view of quitting Her Majesty's dominions, with intent to accept any commission or engagement in the military or naval service of any foreign State at war with a friendly State, or whether

British subject or not, within Her Majesty's dominions, induces any other person to quit or to go on board any ship with a view of quitting Her Majesty's dominions with the like intent,—

"He shall be guilty of an offence against this Act, and shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

"If any person induces any other person to quit Her Majesty's dominions, or to embark on any ship within Her Majesty's dominions, under a misrepresentation or false representation of the service in which such person is to be engaged, with the intent or in order that such person may accept or agree to accept any commission or engagement in the military or naval service of any foreign State at war with a friendly State,—

"He shall be guilty of an offence against this Act, and shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

"If the master or owner of any ship without the licence of Her Majesty, knowingly either takes on board, or engages to take on board, or has on board such ship within Her Majesty's dominions any of the following persons, in this Act referred to as illegally enlisted persons, that is to say:

"(1.) Any person who, being a British subject, within or without the dominions of Her Majesty, has, without the licence of Her Majesty, accepted or agreed to accept any commission or engagement in the military or naval service of any foreign State at war with any friendly State;

"(2.) Any person, being a British subject, who, without the licence of Her Majesty, is about to quit Her Majesty's dominions with intent to accept any commission or engagement in the military or naval service of any foreign State at war with a friendly State;

"(3.) Any person who has been induced to embark under a misrepresentation or false representation of the service in which such person is to be engaged, with the intent or in order that such person may accept or agree to accept any commission or engagement in the military or naval service of any foreign State at war with a friendly State;

"Such master or owner shall be guilty of an offence against this Act, and the following consequences shall ensue, that is to say:

"(1.) The offender shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour; and

"(2.) Such ship shall be detained until the trial and conviction or acquittal of the master or owner, and until all penalties inflicted on the master or owner have been paid, or the master or owner has given security for the payment of such penalties to the satisfaction of two Justices of the Peace or other Magistrate or Magistrates having the authority of two Justices of the Peace; and

"(3.) All illegally enlisted persons shall, immediately on the discovery of the offence, be taken on shore, and shall not be allowed to return to the ship.

"Illegal Shipbuilding and Illegal Expeditions."

"If any person within Her Majesty's dominions, without the licence of Her Majesty, does any of the following acts, that is to say:

"(1.) Builds, or agrees to build, or causes to be built, any ship with intent or knowledge, or having reasonable cause to believe that the same shall or will be employed in the military or naval service of any foreign State at war with any friendly State, or

"(2.) Issues or delivers any commission for any ship with intent or knowledge, or having reasonable cause to believe that the same shall or will be employed in the military or naval service of any foreign State at war with any friendly State, or

" (3.) Equips any ship with intent or knowledge, or having reasonable cause to believe that the same shall or will be employed in the military or naval service of any foreign State at war with any friendly State, or

" (4.) Dispatches, or causes or allows to be dispatched, any ship with intent or knowledge, or having reasonable cause to believe that the same shall or will be employed in the military or naval service of any foreign State at war with any friendly State:

" Such person shall be deemed to have committed an offence against this Act, and the following consequences shall ensue:

" (1.) The offender shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

" (2.) The ship in respect of which any such offence is committed, and her equipment, shall be forfeited to Her Majesty.

" Provided, that a person building, causing to be built, or equipping a ship in any of the cases aforesaid, in pursuance of a contract made before the commencement of such war as aforesaid, shall not be liable to any of the penalties imposed by this section in respect of such building or equipping, if he satisfies the conditions following, that is to say:

" (1.) If forthwith upon a Proclamation of Neutrality being issued by Her Majesty he gives notice to the Secretary of State that he is so building, causing to be built, or equipping such ship, and furnishes such particulars of the contract and of any matters relating to, or done, or to be done under the contract as may be required by the Secretary of State:

" (2.) If he gives such security, and takes and permits to be taken such other measures, if any, as the Secretary of State may prescribe for insuring that such ship shall not be dispatched, delivered, or removed without the licence of Her Majesty until the termination of such war as aforesaid.

" Where any ship is built by order of or on behalf of any foreign State when at war with a friendly State, or is delivered to or to the order of such foreign State, or any person who to the knowledge of the person building is an agent of such foreign State, or is paid for by such foreign State or such agent,

and is employed in the military or naval service of such foreign State, such ship shall, until the contrary is proved, be deemed to have been built with a view to being so employed, and the burden shall lie on the builder of such ship of proving that he did not know that the ship was intended to be so employed in the military or naval service of such foreign State.

" If any person within the dominions of Her Majesty, and without the licence of Her Majesty,—

" By adding to the number of the guns, or by changing those on board for other guns, or by the addition of any equipment for war, increases or augments, or procures to be increased or augmented or is knowingly concerned in increasing or augmenting the warlike force of any ship which at the time of her being within the dominions of Her Majesty was a ship in the military or naval service of any foreign State at war with any friendly State,—

" Such person shall be guilty of an offence against this Act, and shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

" If any person within the limits of Her Majesty's dominions, and without the licence of Her Majesty—

" Prepares or fits out any naval or military expedition to proceed against the dominions of any friendly State, the following consequences shall ensue:

" (1.) Every person engaged in such preparation or fitting out, or assisting therein, or employed in any capacity in such expedition, shall be guilty of an offence against this Act, and shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

" (2.) All ships and their equipments, and all arms and munitions of war, used in or forming part of such expedition, shall be forfeited to Her Majesty.

" Any person who aids, abets, counsels, or procures the commission of any offence against this Act shall be liable to be tried and punished as a principal offender."

And whereas by the said Act it is further provided that ships built, commissioned, equipped, or dispatched in contravention of the said Act may be condemned and forfeited by Judgment of the Court of Admiralty; and that if the Secretary of State or chief executive authority is satisfied that there is a reasonable and probable cause for believing that a ship within Our dominions has been or is being built, commissioned, or equipped contrary to the said Act, and is about to be taken beyond the limits of such dominions, or that a ship is about to be dispatched contrary to the Act, such Secretary of State, or chief executive authority, shall have power to issue a warrant authorising the seizure and search of such ship and her detention until she has been either condemned or released by process of law: And whereas certain powers of seizure and detention are conferred by the said Act on certain local authorities:

Now, in order that none of Our subjects may unwarily render themselves liable to the penalties imposed by the said Statute, We do hereby strictly command that no person or persons whatsoever do commit any Act, matter, or thing whatsoever contrary to the provisions of the said Statute, upon pain of the several penalties by the said Statute imposed and of Our high displeasure.

And we do hereby further warn and admonish all Our loving subjects and all persons whatsoever entitled to Our protection, to observe towards each of the aforesaid States, their citizens, subjects, and territories, and towards all belligerents whatsoever, with whom We are at peace, the duties of neutrality; and to respect, in all and each of them, the exercise of those belligerent rights which We and Our Royal predecessors have always claimed to exercise.

And We hereby further warn all Our loving subjects, and all persons whatsoever entitled to Our protection, that if any of them shall presume in contempt of this Our Royal Proclamation, and of Our high displeasure, to do any acts in derogation of their duty as subjects of a neutral Sovereign in a war between other States, or in violation or contravention of the law of nations in that behalf, as more especially by breaking, or endeavouring to break, any blockade lawfully and actually established by or on behalf of either of the said States, or by carrying officers, soldiers, despatches, arms, ammunition, military stores or materials, or any article or articles considered and deemed to be contraband of war according to the law or modern usages of nations, for the use or service of either of the said States, that all persons so offending, together with their ships and goods, will rightfully incur and be justly liable to hostile capture, and to the penalties denounced by the law of nations in that behalf.

And we do hereby give notice that all Our subjects and persons entitled to Our protection who may misconduct themselves in the premises will do so at their peril, and of their own wrong; and that they will in nowise obtain any protection from Us against such capture, or such penalties as aforesaid, but will, on the contrary, incur Our high displeasure by such misconduct.

Given at Our Court at *Osborne House, Isle of Wight*, this *Seventh* day of *August*, in the year of Our Lord one thousand eight hundred and ninety-four, in the fifty-eighth year of Our reign.

GOD SAVE THE QUEEN.

Foreign Office,

My Lord,

August 7, 1894.

HER Majesty being fully determined to observe the duties of neutrality during the existing state of war between the Emperor of China and the Emperor of Japan, and being moreover resolved to prevent, as far as possible, the use of Her Majesty's harbours, ports and coasts, and the waters within Her Majesty's territorial jurisdiction, in aid of the warlike purposes of either belligerent, has commanded me to communicate to your Lordship, for your guidance, the following rules, which are to be treated and enforced as Her Majesty's orders and directions:—

Her Majesty is pleased further to command that these rules shall be put in force in the United Kingdom, the Isle of Man, and the Channel Islands, on and after the twelfth day of this month, and in Her Majesty's territories and possessions beyond the seas, six days after the day when the Governor, or other chief authority of each of such territories or possessions, respectively, shall have notified and published the same; stating in such Notification that the said rules are to be obeyed by all persons within the same territories and possessions.

1. During the continuance of the present state of war, all ships of war of either belligerent are prohibited from making use of any port or roadstead in the United Kingdom, the Isle of Man, or the Channel Islands, or in any of Her Majesty's colonies or foreign possessions or dependencies, or of any waters subject to the territorial jurisdiction of the British Crown, as a station, or place of resort, for any warlike purpose, or for the purpose of obtaining any facilities for warlike equipment; and no ship of war of either belligerent shall hereafter be permitted to sail out of or leave any port, roadstead, or waters subject to British jurisdiction, from which any vessel of the other belligerent (whether the same shall be a ship of war or a merchant ship) shall have previously departed, until after the expiration of at least twenty-four hours from the departure of such last-mentioned vessel beyond the territorial jurisdiction of Her Majesty.

2. If any ship of war of either belligerent shall, after the time when this Order shall be first notified and put in force in the United Kingdom, the Isle of Man, and the Channel Islands, and in the several colonies and foreign possessions and dependencies of Her Majesty, respectively, enter any port, roadstead, or waters belonging to Her Majesty, either in the United Kingdom, the Isle of Man, or the Channel Islands, or in any of Her Majesty's colonies or foreign possessions or dependencies, such vessel shall be required to depart and to put to sea within twenty-four hours after her entrance into such port, roadstead, or waters, except in case of stress of weather, or of her requiring provisions or things necessary for the subsistence of her crew, or repairs; in either of which cases the authorities of the port, or of the nearest port (as the case may be), shall require her to put to sea as soon as possible after the expiration of such period of twenty-four hours, without permitting her to take in supplies beyond what may be necessary for her immediate use; and no such vessel which may have been allowed to remain within British waters for the purpose of repair shall continue in any such port, roadstead, or waters, for a longer period than twenty-four hours after her necessary repairs shall have been completed. Provided, nevertheless, that in all cases in which there shall be any vessel (whether ships of war or merchant ships) of the said belligerent parties in the same port, roadstead, or waters within the territorial jurisdiction of Her Majesty, there shall be an interval of not less than twenty-four hours between the departure therefrom of any such vessel (whether a ship of war or merchant ship) of the one belligerent and the subsequent departure therefrom of any ship of war of the other belligerent; and the time hereby limited for the departure of such ships of war respectively shall always, in case of necessity, be extended so far as may be requisite for giving effect to this proviso, but no further or otherwise.

3. No ship of war of either belligerent shall hereafter be permitted, while in any port, roadstead, or waters subject to the territorial jurisdiction of Her Majesty, to take in any supplies, except provisions and such other things as may be requisite for the subsistence of her crew, and except so much coal only as may be sufficient to carry such vessel to the nearest port of her own country, or to some nearer destination, and no coal shall again be supplied to any such ship of war in the same or any other port, roadstead, or waters subject to the territorial jurisdiction of Her Majesty, without special permission, until after the expiration of three months from the time when such coal may have been last supplied to her within British waters as aforesaid.

4. Armed ships of either party are interdicted from carrying prizes made by them into the ports, harbours, roadsteads, or waters of the United Kingdom, the Isle of Man, the Channel Islands, or any of Her Majesty's colonies or possessions abroad.

I have, &c.,

Gentlemen,

It is with much pleasure that I have received on arrival once more amongst you such kind and friendly greetings, though the assurance that the expressions of sympathy which you offered me on my departure for England were "true and sincere" was scarcely necessary in view of the sympathy shown to me during my illness.

The friendly feelings invariably evinced towards me by the community in general, show that my desire to benefit the Colony has not been unappreciated by you, and you may be assured that your kind and sympathetic address cannot but strengthen the desire I have ever felt to afford every assistance to the working class and thus to further the best interests of the Colony.

And whereas We are on terms of friendship and amicable intercourse with each of these States, and with their subjects and others inhabiting within their countries, territories or dominions ;

And whereas great numbers of Our loyal subjects reside and carry on commerce, and possess property and establishments, and enjoy various rights and privileges, within the territory of each of the aforesaid States, protected by the faith of Treaties between Us and each of the aforesaid States ;

And whereas We, being desirous of preserving to Our subjects the blessings of peace which they now happily enjoy, are firmly purposed and determined to maintain a strict and impartial neutrality in the said state of war unhappily existing between the aforesaid States ;

We therefore have thought fit, by and with the advice of Our Privy Council, to issue this Our Royal Proclamation ;

And We do hereby strictly charge and command all Our loving subjects to govern themselves accordingly, and to observe a strict neutrality in and during the aforesaid war, and to abstain from violating or contravening either the Laws and Statutes of the realm in this behalf, or the law of nations in relation thereto, as they will answer to the contrary at their peril ;

And whereas in and by a certain Statute made and passed in a Session of Parliament holden in the 33rd and 34th year of Our reign, intituled " An Act to regulate the Conduct of Her Majesty's Subjects during the Existence of Hostilities between Foreign States with which Her Majesty is at Peace," it is, amongst other things, declared and enacted as follows :—

" This Act shall extend to all the dominions of Her Majesty, including the adjacent territorial waters ;

" Illegal Enlistment.

" If any person, without the licence of Her Majesty, being a British subject, within or without Her Majesty's dominions, accepts or agrees to accept any commission or engagement in the military or naval service of any foreign State at war with any foreign State at peace with Her Majesty, and in this Act referred to as a friendly State, or, whether a British subject or not, within Her Majesty's dominions, induces any other person to accept or agree to accept any commission or engagement in the military or naval service of any such foreign State as aforesaid,—

" He shall be guilty of an offence against this Act, and shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

" If any person, without the licence of Her Majesty, being a British subject, quits or goes on board any ship with a view of quitting Her Majesty's dominions, with intent to accept any commission or engagement in the military or naval service of any foreign State at war with a friendly State, or whether

British subject or not, within Her Majesty's dominions, induces any other person to quit or to go on board any ship with a view of quitting Her Majesty's dominions with the like intent,—

" He shall be guilty of an offence against this Act, and shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

" If any person induces any other person to quit Her Majesty's dominions, or to embark on any ship within Her Majesty's dominions, under a misrepresentation or false representation of the service in which such person is to be engaged, with the intent or in order that such person may accept or agree to accept any commission or engagement in the military or naval service of any foreign State at war with a friendly State—

" He shall be guilty of an offence against this Act, and shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

" If the master or owner of any ship without the licence of Her Majesty, knowingly either takes on board, or engages to take on board, or has on board such ship within Her Majesty's dominions any of the following persons, in this Act referred to as illegally enlisted persons, that is to say:

" (1.) Any person who, being a British subject, within or without the dominions of Her Majesty, has, without the licence of Her Majesty, accepted or agreed to accept any commission or engagement in the military or naval service of any foreign State at war with any friendly State:

" (2.) Any person, being a British subject, who, without the licence of Her Majesty, is about to quit Her Majesty's dominions with intent to accept any commission or engagement in the military or naval service of any foreign State at war with a friendly State:

" (3.) Any person who has been induced to embark under a misrepresentation or false representation of the service in which such person is to be engaged, with the intent or in order that such person may accept or agree to accept any commission or engagement in the military or naval service of any foreign State at war with a friendly State:

" Such master or owner shall be guilty of an offence against this Act, and the following consequences shall ensue, that is to say:

" (1.) The offender shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour; and

" (2.) Such ship shall be detained until the trial and conviction or acquittal of the master or owner, and until all penalties inflicted on the master or owner have been paid, or the master or owner has given security for the payment of such penalties to the satisfaction of two Justices of the Peace or other Magistrate or Magistrates having the authority of two Justices of the Peace; and

" (3.) All illegally enlisted persons shall, immediately on the discovery of the offence, be taken on shore, and shall not be allowed to return to the ship.

" Illegal Shipbuilding and Illegal Expeditions.

" If any person within Her Majesty's dominions, without the licence of Her Majesty, does any of the following acts, that is to say:

" (1.) Builds, or agrees to build, or causes to be built, any ship with intent or knowledge, or having reasonable cause to believe that the same shall or will be employed in the military or naval service of any foreign State at war with any friendly State, or

" (2.) Issues or delivers any commission for any ship with intent or knowledge, or having reasonable cause to believe that the same shall or will be employed in the military or naval service of any foreign State at war with any friendly State, or

" (3.) Equips any ship with intent or knowledge, or having reasonable cause to believe that the same shall or will be employed in the military or naval service of any foreign State at war with any friendly State, or

" (4.) Dispatches, or causes or allows to be dispatched, any ship with intent or knowledge, or having reasonable cause to believe that the same shall or will be employed in the military or naval service of any foreign State at war with any friendly State:

" Such person shall be deemed to have committed an offence against this Act, and the following consequences shall ensue:

" (1.) The offender shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

" (2.) The ship in respect of which any such offence is committed, and her equipment, shall be forfeited to Her Majesty.

" Provided, that a person building, causing to be built, or equipping a ship in any of the cases aforesaid, in pursuance of a contract made before the commencement of such war as aforesaid, shall not be liable to any of the penalties imposed by this section in respect of such building or equipping, if he satisfies the conditions following, that is to say:

" (1.) If forthwith upon a Proclamation of Neutrality being issued by Her Majesty he gives notice to the Secretary of State that he is so building, causing to be built, or equipping such ship, and furnishes such particulars of the contract and of any matters relating to, or done, or to be done under the contract as may be required by the Secretary of State:

" (2.) If he gives such security, and takes and permits to be taken such other measures, if any, as the Secretary of State may prescribe for insuring that such ship shall not be dispatched, delivered, or removed without the licence of Her Majesty until the termination of such war as aforesaid.

" Where any ship is built by order of or on behalf of any foreign State when at war with a friendly State, or is delivered to or to the order of such foreign State, or any person who to the knowledge of the person building is an agent of such foreign State, or is paid for by such foreign State or such agent,

and is employed in the military or naval service of such foreign State, such ship shall, until the contrary is proved, be deemed to have been built with a view to being so employed, and the burden shall lie on the builder of such ship of proving that he did not know that the ship was intended to be so employed in the military or naval service of such foreign State.

" If any person within the dominions of Her Majesty, and without the licence of Her Majesty,—

" By adding to the number of the guns, or by changing those on board for other guns, or by the addition of any equipment for war, increases or augments, or procures to be increased or augmented or is knowingly concerned in increasing or augmenting the warlike force of any ship which at the time of her being within the dominions of Her Majesty was a ship in the military or naval service of any foreign State at war with any friendly State,—

" Such person shall be guilty of an offence against this Act, and shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

" If any person within the limits of Her Majesty's dominions, and without the licence of Her Majesty—

" Prepares or fits out any naval or military expedition to proceed against the dominions of any friendly State, the following consequences shall ensue:

" (1.) Every person engaged in such preparation or fitting out, or assisting therein, or employed in any capacity in such expedition, shall be guilty of an offence against this Act, and shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

" (2.) All ships and their equipments, and all arms and munitions of war, used in or forming part of such expedition, shall be forfeited to Her Majesty.

" Any person who aids, abets, counsels, or procures the commission of any offence against this Act shall be liable to be tried and punished as a principal offender."

And whereas by the said Act it is further provided that ships built, commissioned, equipped, or dispatched in contravention of the said Act may be condemned and forfeited by Judgment of the Court of Admiralty; and that if the Secretary of State or chief executive authority is satisfied that there is a reasonable and probable cause for believing that a ship within Our dominions has been or is being built, commissioned, or equipped contrary to the said Act, and is about to be taken beyond the limits of such dominions, or that a ship is about to be dispatched contrary to the Act, such Secretary of State, or chief executive authority, shall have power to issue a warrant authorising the seizure and search of such ship and her detention until she has been either condemned or released by process of law: And whereas certain powers of seizure and detention are conferred by the said Act on certain local authorities:

Now, in order that none of Our subjects may unwarily render themselves liable to the penalties imposed by the said Statute, We do hereby strictly command that no person or persons whatsoever do commit any Act, matter, or thing whatsoever contrary to the provisions of the said Statute, upon pain of the several penalties by the said Statute imposed and of Our high displeasure.

And we do hereby further warn and admonish all Our loving subjects and all persons whatsoever entitled to Our protection, to observe towards each of the aforesaid States, their citizens, subjects, and territories, and towards all belligerents whatsoever, with whom We are at peace, the duties of neutrality; and to respect, in all and each of them, the exercise of those belligerent rights which We and Our Royal predecessors have always claimed to exercise.

And We hereby further warn all Our loving subjects, and all persons whatsoever entitled to Our protection, that if any of them shall presume in contempt of this Our Royal Proclamation, and of Our high displeasure, to do any acts in derogation of their duty as subjects of a neutral Sovereign in a war between other States, or in violation or contravention of the law of nations in that behalf, as more especially by breaking, or endeavouring to break, any blockade lawfully and actually established by or on behalf of either of the said States, or by carrying officers, soldiers, despatches, arms, ammunition, military stores or materials, or any article or articles considered and deemed to be contraband of war according to the law or modern usages of nations, for the use or service of either of the said States, that all persons so offending, together with their ships and goods, will rightfully incur and be justly liable to hostile capture, and to the penalties denounced by the law of nations in that behalf.

And we do hereby give notice that all Our subjects and persons entitled to Our protection who may misconduct themselves in the premises will do so at their peril, and of their own wrong; and that they will in nowise obtain any protection from Us against such capture, or such penalties as aforesaid, but will, on the contrary, incur Our high displeasure by such misconduct.

Given at Our Court at *Osborne House, Isle of Wight*, this *Seventh* day of *August*, in the year of Our Lord one thousand eight hundred and ninety-four, in the fifty-eighth year of Our reign.

GOD SAVE THE QUEEN.

Foreign Office,

My Lord,

August 7, 1894.

HER Majesty being fully determined to observe the duties of neutrality during the existing state of war between the Emperor of China and the Emperor of Japan, and being moreover resolved to prevent, as far as possible, the use of Her Majesty's harbours, ports and coasts, and the waters within Her Majesty's territorial jurisdiction, in aid of the warlike purposes of either belligerent, has commanded me to communicate to your Lordship, for your guidance, the following rules, which are to be treated and enforced as Her Majesty's orders and directions:—

Her Majesty is pleased further to command that these rules shall be put in force in the United Kingdom, the Isle of Man, and the Channel Islands, on and after the twelfth day of this month, and in Her Majesty's territories and possessions beyond the seas, six days after the day when the Governor, or other chief authority of each of such territories or possessions, respectively, shall have notified and published the same; stating in such Notification that the said rules are to be obeyed by all persons within the same territories and possessions.

1. During the continuance of the present state of war, all ships of war of either belligerent are prohibited from making use of any port or roadstead in the United Kingdom, the Isle of Man, or the Channel Islands, or in any of Her Majesty's colonies or foreign possessions or dependencies, or of any waters subject to the territorial jurisdiction of the British Crown, as a station, or place of resort, for any warlike purpose, or for the purpose of obtaining any facilities for warlike equipment; and no ship of war of either belligerent shall hereafter be permitted to sail out of or leave any port, roadstead, or waters subject to British jurisdiction, from which any vessel of the other belligerent (whether the same shall be a ship of war or a merchant ship) shall have previously departed, until after the expiration of at least twenty-four hours from the departure of such last-mentioned vessel beyond the territorial jurisdiction of Her Majesty.

2. If any ship of war of either belligerent shall, after the time when this Order shall be first notified and put in force in the United Kingdom, the Isle of Man, and the Channel Islands, and in the several colonies and foreign possessions and dependencies of Her Majesty, respectively, enter any port, roadstead, or waters belonging to Her Majesty, either in the United Kingdom, the Isle of Man, or the Channel Islands, or in any of Her Majesty's colonies or foreign possessions or dependencies, such vessel shall be required to depart and to put to sea within twenty-four hours after her entrance into such port, roadstead, or waters, except in case of stress of weather, or of her requiring provisions or things necessary for the subsistence of her crew, or repairs; in either of which cases the authorities of the port, or of the nearest port (as the case may be), shall require her to put to sea as soon as possible after the expiration of such period of twenty-four hours, without permitting her to take in supplies beyond what may be necessary for her immediate use; and no such vessel which may have been allowed to remain within British waters for the purpose of repair shall continue in any such port, roadstead, or waters, for a longer period than twenty-four hours after her necessary repairs shall have been completed. Provided, nevertheless, that in all cases in which there shall be any vessel (whether ships of war or merchant ships) of the said belligerent parties in the same port, roadstead, or waters within the territorial jurisdiction of Her Majesty, there shall be an interval of not less than twenty-four hours between the departure therefrom of any such vessel (whether a ship of war or merchant ship) of the one belligerent and the subsequent departure therefrom of any ship of war of the other belligerent; and the time hereby limited for the departure of such ships of war respectively shall always, in case of necessity, be extended so far as may be requisite for giving effect to this proviso, but no further or otherwise.

3. No ship of war of either belligerent shall hereafter be permitted, while in any port, roadstead, or waters subject to the territorial jurisdiction of Her Majesty, to take in any supplies, except provisions and such other things as may be requisite for the subsistence of her crew, and except so much coal only as may be sufficient to carry such vessel to the nearest port of her own country, or to some nearer destination, and no coal shall again be supplied to any such ship of war in the same or any other port, roadstead, or waters subject to the territorial jurisdiction of Her Majesty, without special permission, until after the expiration of three months from the time when such coal may have been last supplied to her within British waters as aforesaid.

4. Armed ships of either party are interdicted from carrying prizes made by them into the ports, harbours, roadsteads, or waters of the United Kingdom, the Isle of Man, the Channel Islands, or any of Her Majesty's colonies or possessions abroad.

H. M. S. "Acorn,"

At Stanley, 6th November, 1894.

Your Excellency,

I have much pleasure in bringing to your notice the brave conduct of Sergeant W. Quianlan and a party of five men of the Falkland Islands Volunteers who gallantly rescued two of the "Acorn's" crew, near Sparrow Cove, on the morning of 4th Nov,

The Sergeant and his men, hearing of the absence of our people, offered their services to go in search of them, and borrowing one of the Company's cutters succeeded in finding the missing party in an exhausted condition, (they had been absent from the ship about 18 hours) bringing them and their boat back to the "Acorn" at 3-30 a.m.

If it meets with your Excellency's approval, I should deem it a favour if the thanks of myself, the Officers and crew of the "Acorn" might be conveyed to the Officers, Non-commissioned Officers and men of the Falkland Islands Volunteers for their gallant conduct in so promptly rescuing two of our ship-mates from such a perilous position.

I would add that the sergeant and his men, who were in uniform, had been at drill until late that evening, therefore the willingness and promptitude they displayed were all the more creditable.

I have the honour to be,

Your Excellency's most obedient Servant.

Gentlemen,

It is with much pleasure that I have received on arrival once more amongst you such kind and friendly greetings, though the assurance that the expressions of sympathy which you offered me on my departure for England were "true and sincere" was scarcely necessary in view of the sympathy shown to me during my illness.

The friendly feelings invariably evinced towards me by the community in general, show that my desire to benefit the Colony has not been unappreciated by you, and you may be assured that your kind and sympathetic address cannot but strengthen the desire I have ever felt to afford every assistance to the working class and thus to further the best interests of the Colony.

Gentlemen,

It is with much pleasure that I have received on arrival once more amongst you such kind and friendly greetings, though the assurance that the expressions of sympathy which you offered me on my departure for England were "true and sincere" was scarcely necessary in view of the sympathy shown to me during my illness.

The friendly feelings invariably evinced towards me by the community in general, show that my desire to benefit the Colony has not been unappreciated by you, and you may be assured that your kind and sympathetic address cannot but strengthen the desire I have ever felt to afford every assistance to the working class and thus to further the best interests of the Colony.

(Signed)

ROGER TUCKFIELD GOLDSWORTHY.

Government House, Stanley,
Falkland Islands,
4th November, 1894.

H. M. S. "Acorn,"

At Stanley, 6th November, 1894.

Your Excellency,

I have much pleasure in bringing to your notice the brave conduct of Sergeant W. Quianlan and a party of five men of the Falkland Islands Volunteers who gallantly rescued two of the "Acorn's" crew, near Sparrow Cove, on the morning of 4th Nov.

The Sergeant and his men, hearing of the absence of our people, offered their services to go in search of them, and borrowing one of the Company's cutters succeeded in finding the missing party in an exhausted condition, (they had been absent from the ship about 18 hours) bringing them and their boat back to the "Acorn" at 3-30 a.m.

If it meets with your Excellency's approval, I should deem it a favour if the thanks of myself, the Officers and crew of the "Acorn" might be conveyed to the Officers, Non-commissioned Officers and men of the Falkland Islands Volunteers for their gallant conduct in so promptly rescuing two of our ship-mates from such a perilous position.

I would add that the sergeant and his men, who were in uniform, had been at drill until late that evening, therefore the willingness and promptitude they displayed were all the more creditable.

I have the honour to be,

Your Excellency's most obedient Servant,

F. S. INGLEFIELD,

Commander, R.N.,

H. M. S. "Acorn."

CONDITIONS OF SALES.

The Conditions of Sale will be found in the following clauses of Ordinance, No 2, of 1894.

The purchase money shall be payable by such number (not exceeding 15) of equal yearly instalments as the Governor in Council shall determine and as shall be notified in the Government Gazette before the sale. The first instalment shall be paid at the conclusion of the sale and each subsequent instalment together with interest at the rate of $2\frac{1}{2}$ per centum per annum on the unpaid balance of the purchase money for the time being from the date of the payment of the last previous instalment shall be paid at the expiration of one year from the day on which the last previous instalment was payable; but the purchaser may at any time pay the whole of the purchase money remaining unpaid with the interest thereon which has accrued since the date of the last previous payment of an instalment.

The highest or only bidder for every lot put up for sale at or above the upset price shall be the purchaser.

Immediately upon the conclusion of the sale the purchaser shall pay the first instalment of the purchase money and sign an

agreement to complete the purchase and to fulfil the conditions of sale. If any purchaser, whether the original purchaser or a purchaser substituted under this sub-section, shall fail to pay the first instalment or to sign the said agreement, the sale to him shall be void and the next highest bidder (if any) at or above the upset price shall be the purchaser.

If any purchaser shall fail to pay the second or any subsequent instalment of purchase money or any interest for the time being payable by him on the day on which such instalment or interest becomes payable or within 21 days thereafter, the Governor may, and if such default shall continue for 3 months from the day on which such instalment or interest becomes payable, the Governor shall cause the land purchased by such purchaser to be again put up for sale by public auction at the same upset price and on the same conditions as at the previous sale.

Purchase money

If any land shall be again put up for sale as aforesaid the previous sale thereof shall thenceforth become void and the purchaser at the previous sale shall give up possession thereof and shall have no further right or interest in or lien upon such land.

If after payment in full of the purchase money and interest payable by the purchaser at the second sale the Government shall have received in respect of such purchase money and interest an amount exceeding the purchase money and interest which the Governor would have received from the purchaser at the previous sale if he had complied with the conditions of sale then out of such excess, after deducting therefrom the expenses of the second sale the Government shall repay to the purchaser at the previous sale the amount of the instalments of purchase money and interest which he shall have actually paid or so much thereof as such excess shall suffice to repay but in no other event shall a purchaser have any claim for repayment of instalments of purchase money or interest paid by him.

Every purchaser whether at a first or second sale shall be let into possession of the land purchased by him upon payment of the first instalment of purchase money and upon his signing the above-mentioned agreement, but no grant of the land shall be issued to him until he shall have paid the whole of the purchase money and all interest payable under the conditions of sale.

The sum of money (if any) payable by the purchaser of each lot put up for sale to the former lessee of such lot as the value of improvements thereon under Section 3 of the Land Ordinance 1882, shall be determined in the manner provided by that Section before the lot is put up for sale and shall be stated in the Particulars of Sale, and shall be paid by the purchaser to the former lessee, or his legal personal representatives, within 7 days from the date of the sale or at such later date as may be agreed upon by the parties. If the purchaser at a first sale shall not pay the said sum of money within the said 7 days, or on the day agreed upon, as the case may be, the lot shall be again put up for sale by auction in the same manner, and with the same consequences as if such purchaser had made default for three months in payment of an instalment of purchase money.

No stock shall be placed on any lot so sold as aforesaid until proper arrangements for the dipping of sheep to the satisfaction of the Governor in Council have been provided thereon, or on some adjoining land occupied by the same person, or occupied by some other person if such lot and such adjoining land are farmed in common, or until such lot has been completely fenced in by proper sheep-proof fence to the satisfaction of the Governor in Council.

provided that with the consent of the owner or lessee of any land adjoining such lot the erection of a fence between such and such adjoining land may be dispensed with.

The purchaser of every lot, his heirs or assigns shall, before the expiration of 2 years from the date of the sale, erect on such lot a suitable and substantial dwelling-house to the satisfaction of the Governor in Council. Default in compliance with this sub-section shall entail the same consequences as default in payment of a second or subsequent instalment of purchase money for three months.

The cost of the fences to be erected between any lot which shall be sold as aforesaid and the adjoining lands shall be borne by the purchaser of the lot and the owner or lessee of the adjoining land in equal shares. In the absence of any agreement to the contrary the fence shall be erected by the purchaser, and he shall have the right to recover from each adjoining owner or lessee a proportion of the half of the entire cost thereof according to the length of the fence between the lot and the land of such adjoining owner or lessee.

CONDITIONS OF SALES.

The Conditions of Sale will be found in the following clauses of Ordinance, No 2, of 1894.

The purchase money shall be payable by such number (not exceeding 15) of equal yearly instalments as the Governor in Council shall determine and as shall be notified in the Government Gazette before the sale. The first instalment shall be paid at the conclusion of the sale and each subsequent instalment together with interest at the rate of $2\frac{1}{2}$ per centum per annum on the unpaid balance of the purchase money for the time being from the date of the payment of the last previous instalment shall be paid at the expiration of one year from the day on which the last previous instalment was payable ; but the purchaser may at any time pay the whole of the purchase money remaining unpaid with the interest thereon which has accrued since the date of the last previous payment of an instalment.

The highest or only bidder for every lot put up for sale at or above the upset price shall be the purchaser.

Immediately upon the conclusion of the sale the purchaser shall pay the first instalment of the purchase money and sign an agreement to complete the purchase and to fulfil the conditions of

sale. If any purchaser, whether the original purchaser or a purchaser substituted under this sub-section, shall fail to pay the first instalment or to sign the said agreement, the sale to him shall be void and the next highest bidder (if any) at or above the upset price shall be the purchaser.

If any purchaser shall fail to pay the second or any subsequent instalment of purchase money or any interest for the time being payable by him on the day on which such instalment or interest becomes payable or within 21 days thereafter, the Governor may, and if such default shall continue for 3 months from the day on which such instalment or interest becomes payable, the Governor shall cause the land purchased by such purchaser to be again put up for sale by public auction at the same upset price and on the same conditions as at the previous sale.

If any land shall be again put up for sale as aforesaid the previous sale thereof shall thenceforth become void and the purchaser at the previous sale shall give up possession thereof and shall have no further right or interest in or lien upon such land.

If after payment in full of the purchase money and interest payable by the purchaser at the second sale the Government shall have received in respect of such purchase money and interest an amount exceeding the purchase money and interest which the Governor would have received from the purchaser at the previous sale if he had complied with the conditions of sale then out of such excess, after deducting therefrom the expenses of the second sale the Government shall repay to the purchaser at the previous sale the amount of the instalments of purchase money and interest which he shall have actually paid or so much thereof as such excess shall suffice to repay but in no other event shall a purchaser have any claim for repayment of instalments of purchase money or interest paid by him.

No stock shall be placed on any lot so sold as aforesaid until proper arrangements for the dipping of sheep to the satisfaction of the Governor in Council have been provided thereon, or on some adjoining land occupied by the same person, or occupied by some other person if such lot and such adjoining land are farmed in common, or until such lot has been completely fenced in by proper sheep-proof fence to the satisfaction of the Governor in Council,

Default in compliance with this sub-section shall entail the same consequences as default in payment of a second or subsequent instalment of purchase money for three months.

The cost of the fences to be erected between any lot which shall be sold as aforesaid and the adjoining lands shall be borne by the purchaser of the lot and the owner or lessee of the adjoining land in equal shares. In the absence of any agreement to the contrary the fence shall be erected by the purchaser, and he shall have the right to recover from each adjoining owner or lessee a proportion of the half of the entire cost thereof according to the length of the fence between the lot and the land of such adjoining owner or lessee.

 CONDITIONS OF SALES.

The Conditions of Sale will be found in the following clauses of Ordinance, No 2, of 1894.

The purchase money shall be payable by such number (not exceeding 15) of equal yearly instalments as the Governor in Council shall determine and as shall be notified in the Government Gazette before the sale. The first instalment shall be paid at the conclusion of the sale and each subsequent instalment together with interest at the rate of 2½ per centum per annum on the unpaid balance of the purchase money for the time being from the date of the payment of the last previous instalment shall be paid at the expiration of one year from the day on which the last previous instalment was payable ; but the purchaser may at any time pay the whole of the purchase money remaining unpaid with the interest thereon which has accrued since the date of the last previous payment of an instalment.

The highest or only bidder for every lot put up for sale at or above the upset price shall be the purchaser.

Immediately upon the conclusion of the sale the purchaser shall pay the first instalment of the purchase money and sign an agreement to complete the purchase and to fulfil the conditions of

sale. If any purchaser, whether the original purchaser or a purchaser substituted under this sub-section, shall fail to pay the first instalment or to sign the said agreement, the sale to him shall be void and the next highest bidder (if any) at or above the upset price shall be the purchaser.

If any purchaser shall fail to pay the second or any subsequent instalment of purchase money or any interest for the time being payable by him on the day on which such instalment or interest becomes payable or within 21 days thereafter, the Governor may, and if such default shall continue for 3 months from the day on which such instalment or interest becomes payable, the Governor shall cause the land purchased by such purchaser to be again put up for sale by public auction at the same upset price and on the same conditions as at the previous sale.

If any land shall be again put up for sale as aforesaid the previous sale thereof shall thenceforth become void and the purchaser at the previous sale shall give up possession thereof and shall have no further right or interest in or lien upon such land.

If after payment in full of the purchase money and interest payable by the purchaser at the second sale the Government shall have received in respect of such purchase money and interest an amount exceeding the purchase money and interest which the Governor would have received from the purchaser at the previous sale if he had complied with the conditions of sale then out of such excess, after deducting therefrom the expenses of the second sale the Government shall repay to the purchaser at the previous sale the amount of the instalments of purchase money and interest which he shall have actually paid or so much thereof as such excess shall suffice to repay but in no other event shall a purchaser have any claim for repayment of instalments of purchase money or interest paid by him.

Every purchaser whether at a first or second sale shall be let into possession of the land purchased by him upon payment of the first instalment of purchase money and upon his signing the above-mentioned agreement, but no grant of the land shall be issued to him until he shall have paid the whole of the purchase money and all interest payable under the conditions of sale.

The sum of money (if any) payable by the purchaser of each lot put up for sale to the former lessee of such lot as the value of improvements thereon under Section 8 of the Land Ordinance 1882, shall be determined in the manner provided by that Section before the lot is put up for sale and shall be stated in the Particulars of Sale, and shall be paid by the purchaser to the former lessee, or his legal personal representatives, within 7 days from the date of the sale or at such later date as may be agreed upon by the parties. If the purchaser at a first sale shall not pay the said sum of money within the said 7 days, or on the day agreed upon, as the case may be, the lot shall be again put up for sale by auction in the same manner, and with the same consequences as if such purchaser had made default for three months in payment of an instalment of purchase money.

No stock shall be placed on any lot so sold as aforesaid until proper arrangements for the dipping of sheep to the satisfaction of the Governor in Council have been provided thereon, or on some adjoining land occupied by the same person, or occupied by some other person if such lot and such adjoining land are farmed in common, or until such lot has been completely fenced in by proper sheep-proof fence to the satisfaction of the Governor in Council,

provided that with the consent of the owner or lessee of any land adjoining such lot the erection of a fence between such and such adjoining land may be dispensed with.

The purchaser of every lot, his heirs or assigns shall, before the expiration of 2 years from the date of the sale, erect on such lot a suitable and substantial dwelling-house to the satisfaction of the Governor in Council. Default in compliance with this sub-section shall entail the same consequences as default in payment of a second or subsequent instalment of purchase money for three months.

The cost of the fences to be erected between any lot which shall be sold as aforesaid and the adjoining lands shall be borne by the purchaser of the lot and the owner or lessee of the adjoining land in equal shares. In the absence of any agreement to the contrary the fence shall be erected by the purchaser, and he shall have the right to recover from each adjoining owner or lessee a proportion of the half of the entire cost thereof according to the length of the fence between the lot and the land of such adjoining owner or lessee.

CONDITIONS OF SALES.

The Conditions of Sale will be found in the following clauses of Ordinance, No 2, of 1894.

The purchase money shall be payable by such number (not exceeding 15) of equal yearly instalments as the Governor in Council shall determine and as shall be notified in the Government Gazette before the sale. The first instalment shall be paid at the conclusion of the sale and each subsequent instalment together with interest at the rate of $2\frac{1}{2}$ per centum per annum on the unpaid balance of the purchase money for the time being from the date of the payment of the last previous instalment shall be paid at the expiration of one year from the day on which the last previous instalment was payable ; but the purchaser may at any time pay the whole of the purchase money remaining unpaid with the interest thereon which has accrued since the date of the last previous payment of an instalment.

The highest or only bidder for every lot put up for sale at or above the upset price shall be the purchaser.

Immediately upon the conclusion of the sale the purchaser shall pay the first instalment of the purchase money and sign an agreement to complete the purchase and to fulfil the conditions of

sale. If any purchaser, whether the original purchaser or a purchaser substituted under this sub-section, shall fail to pay the first instalment or to sign the said agreement, the sale to him shall be void and the next highest bidder (if any) at or above the upset price shall be the purchaser.

If any purchaser shall fail to pay the second or any subsequent instalment of purchase money or any interest for the time being payable by him on the day on which such instalment or interest becomes payable or within 21 days thereafter, the Governor may, and if such default shall continue for 3 months from the day on which such instalment or interest becomes payable, the Governor shall cause the land purchased by such purchaser to be again put up for sale by public auction at the same upset price and on the same conditions as at the previous sale.

If any land shall be again put up for sale as aforesaid the previous sale thereof shall thenceforth become void and the purchaser at the previous sale shall give up possession thereof and shall have no further right or interest in or lien upon such land.

If after payment in full of the purchase money and interest payable by the purchaser at the second sale the Government shall have received in respect of such purchase money and interest an amount exceeding the purchase money and interest which the Governor would have received from the purchaser at the previous sale if he had complied with the conditions of sale then out of such excess, after deducting therefrom the expenses of the second sale the Government shall repay to the purchaser at the previous sale the amount of the instalments of purchase money and interest which he shall have actually paid or so much thereof as such excess shall suffice to repay but in no other event shall a purchaser have any claim for repayment of instalments of purchase money or interest paid by him.

Every purchaser whether at a first or second sale shall be let into possession of the land purchased by him upon payment of the first instalment of purchase money and upon his signing the above-mentioned agreement, but no grant of the land shall be issued to him until he shall have paid the whole of the purchase money and all interest payable under the conditions of sale.

The sum of money (if any) payable by the purchaser of each lot put up for sale to the former lessee of such lot as the value of improvements thereon under Section 3 of the Land Ordinance 1882, shall be determined in the manner provided by that Section before the lot is put up for sale and shall be stated in the Particulars of Sale, and shall be paid by the purchaser to the former lessee, or his legal personal representatives, within 7 days from the date of the sale or at such later date as may be agreed upon by the parties. If the purchaser at a first sale shall not pay the said sum of money within the said 7 days, or on the day agreed upon, as the case may be, the lot shall be again put up for sale by auction in the same manner, and with the same consequences as if such purchaser had made default for three months in payment of an instalment of purchase money.

No stock shall be placed on any lot so sold as aforesaid until proper arrangements for the dipping of sheep to the satisfaction of the Governor in Council have been provided thereon, or on some adjoining land occupied by the same person, or occupied by some other person if such lot and such adjoining land are farmed in common, or until such lot has been completely fenced in by proper sheep-proof fence to the satisfaction of the Governor in Council,

provided that with the consent of the owner or lessee of any land adjoining such lot the erection of a fence between such and such adjoining land may be dispensed with.

The purchaser of every lot, his heirs or assigns shall, before the expiration of 2 years from the date of the sale, erect on such lot a suitable and substantial dwelling-house to the satisfaction of the Governor in Council. Default in compliance with this sub-section shall entail the same consequences as default in payment of a second or subsequent instalment of purchase money for three months.

The cost of the fences to be erected between any lot which shall be sold as aforesaid and the adjoining lands shall be borne by the purchaser of the lot and the owner or lessee of the adjoining land in equal shares. In the absence of any agreement to the contrary the fence shall be erected by the purchaser, and he shall have the right to recover from each adjoining owner or lessee a proportion of the half of the entire cost thereof according to the length of the fence between the lot and the land of such adjoining owner or lessee.

CONDITIONS OF SALES.

The Conditions of Sale will be found in the following clauses of Ordinance, No 2, of 1894.

The purchase money shall be payable by such number (not exceeding 15) of equal yearly instalments as the Governor in Council shall determine and as shall be notified in the Government Gazette before the sale. The first instalment shall be paid at the conclusion of the sale and each subsequent instalment together with interest at the rate of 2½ per centum per annum on the unpaid balance of the purchase money for the time being from the date of the payment of the last previous instalment shall be paid at the expiration of one year from the day on which the last previous instalment was payable ; but the purchaser may at any time pay the whole of the purchase money remaining unpaid with the interest thereon which has accrued since the date of the last previous payment of an instalment.

The highest or only bidder for every lot put up for sale at or above the upset price shall be the purchaser.

Immediately upon the conclusion of the sale the purchaser shall pay the first instalment of the purchase money and sign an agreement to complete the purchase and to fulfil the conditions of

sale. If any purchaser, whether the original purchaser or a purchaser substituted under this sub-section, shall fail to pay the first instalment or to sign the said agreement, the sale to him shall be void and the next highest bidder (if any) at or above the upset price shall be the purchaser.

If any purchaser shall fail to pay the second or any subsequent instalment of purchase money or any interest for the time being payable by him on the day on which such instalment or interest becomes payable or within 21 days thereafter, the Governor may, and if such default shall continue for 3 months from the day on which such instalment or interest becomes payable, the Governor shall cause the land purchased by such purchaser to be again put up for sale by public auction at the same upset price and on the same conditions as at the previous sale.

If any land shall be again put up for sale as aforesaid the previous sale thereof shall thenceforth become void and the purchaser at the previous sale shall give up possession thereof and shall have no further right or interest in or lien upon such land.

If after payment in full of the purchase money and interest payable by the purchaser at the second sale the Government shall have received in respect of such purchase money and interest an amount exceeding the purchase money and interest which the Governor would have received from the purchaser at the previous sale if he had complied with the conditions of sale then out of such excess, after deducting therefrom the expenses of the second sale the Government shall repay to the purchaser at the previous sale the amount of the instalments of purchase money and interest which he shall have actually paid or so much thereof as such excess shall suffice to repay but in no other event shall a purchaser have any claim for repayment of instalments of purchase money or interest paid by him.

Every purchaser whether at a first or second sale shall be let into possession of the land purchased by him upon payment of the first instalment of purchase money and upon his signing the above-mentioned agreement, but no grant of the land shall be issued to him until he shall have paid the whole of the purchase money and all interest payable under the conditions of sale.

The sum of money (if any) payable by the purchaser of each lot put up for sale to the former lessee of such lot as the value of improvements thereon under Section 3 of the Land Ordinance 1882, shall be determined in the manner provided by that Section before the lot is put up for sale and shall be stated in the Particulars of Sale, and shall be paid by the purchaser to the former lessee, or his legal personal representatives, within 7 days from the date of the sale or at such later date as may be agreed upon by the parties. If the purchaser at a first sale shall not pay the said sum of money within the said 7 days, or on the day agreed upon, as the case may be, the lot shall be again put up for sale by auction in the same manner, and with the same consequences as if such purchaser had made default for three months in payment of an instalment of purchase money.

No stock shall be placed on any lot so sold as aforesaid until proper arrangements for the dipping of sheep to the satisfaction of the Governor in Council have been provided thereon, or on some adjoining land occupied by the same person, or occupied by some other person if such lot and such adjoining land are farmed in common, or until such lot has been completely fenced in by proper sheep-proof fence to the satisfaction of the Governor in Council,

provided that with the consent of the owner or lessee of any land adjoining such lot the erection of a fence between such and such adjoining land may be dispensed with.

The purchaser of every lot, his heirs or assigns shall, before the expiration of 2 years from the date of the sale, erect on such lot a suitable and substantial dwelling-house to the satisfaction of the Governor in Council. Default in compliance with this sub-section shall entail the same consequences as default in payment of a second or subsequent instalment of purchase money for three months.

The cost of the fences to be erected between any lot which shall be sold as aforesaid and the adjoining lands shall be borne by the purchaser of the lot and the owner or lessee of the adjoining land in equal shares. In the absence of any agreement to the contrary the fence shall be erected by the purchaser, and he shall have the right to recover from each adjoining owner or lessee a proportion of the half of the entire cost thereof according to the length of the fence between the lot and the land of such adjoining owner or lessee.

Colonial Secretary.

Be it enacted—That whenever any person shall be confined as a lunatic in the Gaol, it may be lawful for the Governor in Council upon being satisfied that adequate arrangements have been made for the safety and care of the Lunatic while on board ship and for his reception at the Port of Landing, in order to secure his proper and legal disposal in an Institution for Lunatics in the United Kingdom, to order the said Lunatic to be removed from the Colony in a ship bound for a port in the United Kingdom.

This Section shall not apply however to Criminal Lunatics, the removal of whom is regulated by the "Colonial Prisoners Removal Act, 1884." (Imperial).

*An Ordinance to amend the law relating to the granting of
Probate of Wills and Letters of Administration.*

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council thereof, as follows:—

1.—The Supreme Court of the Falkland Islands and the Judge thereof shall have and exercise within the Colony all the jurisdiction, powers and authorities whatsoever possessed and vested in the Court of Probate in England and the Judge thereof at the time of the passing of the Supreme Court of Judicature Act, 1873, (Imperial).

2.—No Probate of the Will nor Letters of Administration of the estate and effects of any person deceased shall be granted by the Judge of the Supreme Court until the person or persons applying for such Probate or Letters of Administration shall have paid to the Colonial Treasurer the probate duty payable under this Ordinance in respect of the estate of the deceased and shall have given bond to the Judge for the time being which bond shall be in such form as the Judge shall by any general or special order direct: Such bond shall be in a penalty of double the amount of the probable value of the estate of the deceased person as stated in the accounts delivered with the petition on which the grant is made or in such other amount as the Judge may by any order to be made in any particular case direct.

3.—If any person shall take possession of and in any way administer any part of the personal estate and effects of any person deceased without obtaining Probate of the Will or Letters of Administration of the estate and effects of the deceased person within six calendar months after his death, every person so offending shall on summary conviction forfeit and pay a penalty not exceeding Twenty Pounds and such additional sums as would be equal to the amount of duty which would be payable on the grant of Probate of the Will or Letters of Administration of the estate of the deceased.

4.—Applications for Probate or Letters of Administration shall be made by petition to the Judge of the Supreme Court and to every such petition there shall be subjoined or annexed an affidavit verifying the allegations contained in such petition.

5.—In the case of a will the petition must state the death of the testator, that the document produced is believed to be his last will and testament, that the petitioner is the person named as the executor and that the petitioner knows of no other later will made as the last will of the testator.

6.—In the case of intestacy the petition must state the death of the intestate and that he died without leaving a will and it must briefly set forth the grounds on which the petitioner has applied for Letters of Administration.

7.—In the case of a petition for Letters of Administration with the will annexed the petition must set forth the grounds on which the application is based.

8.—Together with every petition for Probate or Letters of Administration there shall be delivered an account signed by the petitioner of the particulars of the personal estate of the deceased situate in this Colony and of the estimated value thereof in such form as shall be prescribed by rules made under this Ordinance.

9.—If any executor or administrator at any time within one year after having paid probate dues shall discover that the estate of the deceased person was estimated at too high a value in the account delivered by him, and that the amount of duty paid by him was consequently greater than he was liable to pay and shall make the same appear to be the case to the satisfaction of the Governor in Council it shall be lawful for the Governor to issue his Warrant on the Public Treasury for the return to such executor or administrator of any excess of payment so shown to have been made by him.

10.—If any executor or administrator shall through mistake or misapprehension or otherwise without fraud have omitted from the account delivered by him any part of the personal effects or estate of the testator or intestate situate in this Colony such executor or administrator shall immediately after the discovery of such omission notify the Judge of the same and within three calendar months thereafter amend his account and pay the additional duty due on the estate of the deceased without being liable to any penalty or forfeiture under this Ordinance.

11.—The Court may on application made on motion or petition in chambers in a summary way and on being satisfied that the condition of any bond given to the Judge has been broken, order the assignment of the same to some person to be named in such order, and such person, his executors, or administrators, shall thereupon be entitled to sue in his or their own name as if the same had been originally given to him instead of to the Judge and shall be entitled to recover thereon as trustee for all persons interested the full amount recoverable in respect of any breach of the condition of the said bond.

12.—Notice of application for Letters of Administration must be given in the Government Gazette for three successive weeks before such letters shall be granted, except in cases where the Judge shall be satisfied by affidavit or otherwise of the existence of any urgent necessity that such grant should be made before the expiration of such three weeks and shall likewise be satisfied that notice of the application has been given to all persons residing within the Colony whose claim to such grant may be prior or preferable to that of the applicant. In every such case the Judge shall have the power to grant to such applicant Letters of Administration, limited or otherwise, as the circumstances of the case shall seem to require within such time before the expiration of such three weeks as to him may seem necessary: Provided always that in no case shall such administration be granted until notice of application therefor shall have been published once at least in the Gazette.

13.—Where a caveat shall be entered against the grant of any probate or to any application for Letters of Administration before any grant of probate or of administration shall have been made or when in the opinion of the Judge sufficient objection shall appear against the making of any such grant before such grant shall be made all parties concerned or interested therein or so many of them as the Judge may think necessary shall be cited to show cause before the Judge why probate or administration as the case may be should not be granted to the applicant and such

parties shall on the day to be named in the citation file an answer setting forth succinctly the grounds of their objection and shall at the same time serve a copy of such answer on the applicant, after which on a day to be fixed by the Judge after having heard the case and the parties and having considered the evidence the Judge shall make such order touching the premises as may seem just.

14.—When any of the parties do not appear and answer (due proof of citation on them having been made) the proceedings may be heard and determined *ex parte* or such further time may be given for appearance and on such terms as the Court may direct.

15.—The Court may require the attendance of any party or of any person whom it may think fit to examine or cause to be examined in any proceedings in respect of matters and causes testamentary and may examine or cause to be examined upon oath or affirmation as the case may require parties and witnesses by word of mouth and may either before or after or with or without such examination cause them or any of them to be examined on interrogatories or receive their or any of their affidavits or solemn affirmations as the case may be and the Court may by writ require such attendance and order to be produced before itself or otherwise any deed, evidences, or writings being or purporting to be testamentary or otherwise in the same form or as nearly as may be as that in which a writ of "subpoena ad testificandum," or of "subpoena duces tecum," is now issued out of the Supreme Court and every person disobeying any such writ shall be considered as in Contempt of Court and also be liable to forfeit a sum not exceeding Fifty Pounds.

16.—Any party interested in a will may compel proof thereof in solemn form by serving on the executor or party having execution of such will or praying therefor a citation, whereupon such executor or party shall within ten days after such service file in the office of the Registrar of the Supreme Court a petition verified by affidavit praying that such will may be proved in solemn form and such further proceedings shall thereupon be had for such proof, and if required for contestation of such will as may be directed by any rules of procedure made under this Ordinance.

17.—Any executor or party desiring or having execution of a will may have the same proved in solemn form at any time before the court by filing a petition therefor verified as aforesaid and thereupon such further proceedings shall be had for such proof and if required for contestation of such will as may be directed by any such rules of procedure.

18.—The Court upon sufficient cause being shown may set aside any order or decree obtained in a default upon such terms as to the payment of costs or otherwise as to it may seem just.

*An Ordinance to amend the law relating to the granting of
Probate of Wills and Letters of Administration.*

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council thereof, as follows:—

1.—The Supreme Court of the Falkland Islands and the Judge thereof shall have and exercise within the Colony all the jurisdiction, powers and authorities whatsoever possessed and vested in the Court of Probate in England and the Judge thereof at the time of the passing of the Supreme Court of Judicature Act, 1873, (Imperial).

2.—No Probate of the Will nor Letters of Administration of the estate and effects of any person deceased shall be granted by the Judge of the Supreme Court until the person or persons applying for such Probate or Letters of Administration shall have paid to the Colonial Treasurer the probate duty payable under this Ordinance in respect of the estate of the deceased and shall have given bond to the Judge for the time being which bond shall be in such form as the Judge shall by any general or special order direct: Such bond shall be in a penalty of double the amount of the probable value of the estate of the deceased person as stated in the accounts delivered with the petition on which the grant is made or in such other amount as the Judge may by any order to be made in any particular case direct.

3.—If any person shall take possession of and in any way administer any part of the personal estate and effects of any person deceased without obtaining Probate of the Will or Letters of Administration of the estate and effects of the deceased person within six calendar months after his death, every person so offending shall on summary conviction forfeit and pay a penalty not exceeding Twenty Pounds and such additional sums as would be equal to the amount of duty which would be payable on the grant of Probate of the Will or Letters of Administration of the estate of the deceased.

4.—Applications for Probate or Letters of Administration shall be made by petition to the Judge of the Supreme Court and to every such petition there shall be subjoined or annexed an affidavit verifying the allegations contained in such petition.

5.—In the case of a will the petition must state the death of the testator, that the document produced is believed to be his last will and testament, that the petitioner is the person named as the executor and that the petitioner knows of no other later will made as the last will of the testator.

6.—In the case of intestacy the petition must state the death of the intestate and that he died without leaving a will and it must briefly set forth the grounds on which the petitioner has applied for Letters of Administration.

7.—In the case of a petition for Letters of Administration with the will annexed the petition must set forth the grounds on which the application is based.

8.—Together with every petition for Probate or Letters of Administration there shall be delivered an account signed by the petitioner of the particulars of the personal estate of the deceased situate in this Colony and of the estimated value thereof in such form as shall be prescribed by rules made under this Ordinance.

9.—If any executor or administrator at any time within one year after having paid probate dues shall discover that the estate of the deceased person was estimated at too high a value in the account delivered by him, and that the amount of duty paid by him was consequently greater than he was liable to pay and shall make the same appear to be the case to the satisfaction of the Governor in Council it shall be lawful for the Governor to issue his Warrant on the Public Treasury for the return to such executor or administrator of any excess of payment so shown to have been made by him.

10.—If any executor or administrator shall through mistake or misapprehension or otherwise without fraud have omitted from the account delivered by him any part of the personal effects or estate of the testator or intestate situate in this Colony such executor or administrator shall immediately after the discovery of such omission notify the Judge of the same and within three calendar months thereafter amend his account and pay the additional duty due on the estate of the deceased without being liable to any penalty or forfeiture under this Ordinance.

11.—The Court may on application made on motion or petition in chambers in a summary way and on being satisfied that the condition of any bond given to the Judge has been broken, order the assignment of the same to some person to be named in such order, and such person, his executors, or administrators, shall thereupon be entitled to sue in his or their own name as if the same had been originally given to him instead of to the Judge and shall be entitled to recover thereon as trustee for all persons interested the full amount recoverable in respect of any breach of the condition of the said bond.

12.—Notice of application for Letters of Administration must be given in the Government Gazette for three successive weeks before such letters shall be granted, except in cases where the Judge shall be satisfied by affidavit or otherwise of the existence of any urgent necessity that such grant should be made before the expiration of such three weeks and shall likewise be satisfied that notice of the application has been given to all persons residing within the Colony whose claim to such grant may be prior or preferable to that of the applicant. In every such case the Judge shall have the power to grant to such applicant Letters of Administration, limited or otherwise, as the circumstances of the case shall seem to require within such time before the expiration of such three weeks as to him may seem necessary: Provided always that in no case shall such administration be granted until notice of application therefor shall have been published once at least in the Gazette.

13.—Where a caveat shall be entered against the grant of any probate or to any application for Letters of Administration before any grant of probate or of administration shall have been made or when in the opinion of the Judge sufficient objection shall appear against the making of any such grant before such grant shall be made all parties concerned or interested therein or so many of them as the Judge may think necessary shall be cited to show cause before the Judge why probate or administration as the case may be should not be granted to the applicant and such

parties shall on the day to be named in the citation file an answer setting forth succinctly the grounds of their objection and shall at the same time serve a copy of such answer on the applicant, after which on a day to be fixed by the Judge after having heard the case and the parties and having considered the evidence the Judge shall make such order touching the premises as may seem just.

14.—When any of the parties do not appear and answer (due proof of citation on them having been made) the proceedings may be heard and determined *ex parte* or such further time may be given for appearance and on such terms as the Court may direct.

15.—The Court may require the attendance of any party or of any person whom it may think fit to examine or cause to be examined in any proceedings in respect of matters and causes testamentary and may examine or cause to be examined upon oath or affirmation as the case may require parties and witnesses by word of mouth and may either before or after or with or without such examination cause them or any of them to be examined on interrogatories or receive their or any of their affidavits or solemn affirmations as the case may be and the Court may by writ require such attendance and order to be produced before itself or otherwise any deed, evidences, or writings being or purporting to be testamentary or otherwise in the same form or as nearly as may be as that in which a writ of "subpoena ad testificandum," or of "subpoena duces tecum," is now issued out of the Supreme Court and every person disobeying any such writ shall be considered as in Contempt of Court and also be liable to forfeit a sum not exceeding Fifty Pounds.

16.—Any party interested in a will may compel proof thereof in solemn form by serving on the executor or party having execution of such will or praying therefor a citation, whereupon such executor or party shall within ten days after such service file in the office of the Registrar of the Supreme Court a petition verified by affidavit praying that such will may be proved in solemn form and such further proceedings shall thereupon be had for such proof, and if required for contestation of such will as may be directed by any rules of procedure made under this Ordinance.

17.—Any executor or party desiring or having execution of a will may have the same proved in solemn form at any time before the court by filing a petition therefor verified as aforesaid and thereupon such further proceedings shall be had for such proof and if required for contestation of such will as may be directed by any such rules of procedure.

18.—The Court upon sufficient cause being shown may set aside any order or decree obtained in a default upon such terms as to the payment of costs or otherwise as to it may seem just.

2.—“It appears to be conclusively shewn not only by the absence of any bidders at the recent sale, except the former lessee and the lessee of the adjoining station, but by the evidence obtained by the Committee which you appointed to enquire into the matter, that, while there is a considerable demand for leases which the Government is unfortunately precluded from meeting, none of the persons who had expressed the desire to buy land are in a position to do so on the condition of paying the value of the improvements and half of the cost of fencing.”

3.—“These conditions cannot be dispensed with, and in these circumstances I have with regret come to the conclusion that it would be useless to put up any more land for sale, and that the land which has been reserved for that purpose must be relet to the former lessees in accordance with the Ordinance of 1882.”

VOL. 5.

JULY 11, 1895

No. 28.

GOVERNMENT NOTICES.

It is notified for public information that Her Majesty will not be advised to disallow the following Ordinances:—

No. 1 of 1895, entitled "An Ordinance for the Regulation of the Post Office."

No. 2 of 1895, entitled "An Ordinance to amend the Lunacy Ordinance, 1894."

The Right Honourable the Secretary of State for the Colonies has been pleased to extend the leave of absence of the Colonial Chaplain for four months, from the 21st instant, inclusive.

By Command,
F. CRAIGIE-HALKETT,
Colonial Secretary.

Colonial Secretary's Office,
27th June, 1895.

It is notified for general information that Her Majesty has been advised not to disallow Ordinance No. 3 of 1895, entitled "An Ordinance to amend Ordinance No. 1 of 1868, and to make further provision for Compulsory Vaccination."

By Command,
F. CRAIGIE-HALKETT,
Colonial Secretary.

Colonial Secretary's Office,
4th July, 1895.

NOTICE.

The following Extracts from a Despatch received this date from the Secretary of State are published for general information.

By Command,

F. CRAIGIE-HALKETT,

Colonial Secretary.

Colonial Secretary's Office,
20th June 1895.

8.—“It appears to be conclusively shewn not only by the absence of any bidders at the recent sale, except the former lessee and the lessee of the adjoining station, but by the evidence obtained by the Committee which you appointed to enquire into the matter, that, while there is a considerable demand for leases which the Government is unfortunately precluded from meeting, none of the persons who had expressed the desire to buy land are in a position to do so on the condition of paying the value of the improvements and half of the cost of fencing.”

8.—“These conditions cannot be dispensed with, and in these circumstances I have with regret come to the conclusion that it would be useless to put up any more land for sale, and that the land which has been reserved for that purpose must be relet to the former lessees in accordance with the Ordinance of 1882.”

No. of 1895.

An Ordinance to create the Office of Official Administrator.

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council thereof, as follows:—

1.—From and after the passing of this Ordinance it shall be lawful for the Governor to appoint some fit and proper person to be called the Official Administrator of Estates.

2.—The Official Administrator shall be entitled to and it shall be his duty to apply for Letters of Administration to the Estates of all persons who shall die intestate without leaving a widower, widow, brother, sister or any lineal ancestor or descendant, or leaving any such relation, if no such relation shall take out Letters of Administration within three months or within such longer or shorter term as the Judge of the Supreme Court to which application is made may direct; and also to the estates of all persons who shall die leaving a Will but leaving no Executor or no Executor who will act if no such relative as aforesaid of such deceased shall within the time aforesaid take out Letters of Administration to the Estate.

3.—The Official Administrator shall keep a full complete and accurate account of all transactions with respect to all estates administered by him and he shall keep all such books as may be necessary for that purpose.

4.—The Official Administrator shall once at least in each year furnish to the Governor a complete and accurate statement of the payments receipts and transactions of his office.

5.—The Official Administrator shall keep all money which shall come into his hands as such Administrator in the Government Savings' Bank, and interest shall be allowed on such money in the same way as interest is allowed on the deposits of private persons. The Official Administrator shall in all cases pay such money into the Savings' Bank as soon as possible after he receives it, and a separate account shall be kept in the Savings' Bank for each estate. The Official Administrator may draw in the same manner as any other depositor any money standing to the credit of any estate for the purposes of the due administration of such estate.

6.—Letters of Administration to the Official Administrator shall be granted on the payment of the same fees and duties and in the same way as Letters of Administration are usually granted.

7.—On the grant of Letters of Administration to the Official Administrator the personal property of the deceased shall vest in the Official Administrator and be assets in his hand for the payment of the debts and liabilities of the deceased in the same way and to the same extent in all respects as such property would have vested in and been assets in the hands of any other Administrator, and the Official Administrator shall discharge the debts and liabilities

of the deceased and shall distribute the surplus in the same way and in the same order of priority and to the same extent that any other Administrator would have been bound to discharge such debts and liabilities and to distribute such surplus if this Law had not been passed.

8.—The Official Administrator shall be entitled to a commission of five pounds per centum on the value of all property administered by him: Such commission shall be the remuneration for the time and responsibility of the Official Administrator, but any expenses in respect of any other matters including travelling expenses may be charged by him in the same way that such expenses might be charged under similar circumstances by any other Administrator.

9.—All monies which at the time of the passing of this Ordinance may be deposited in the Government Savings' Bank and entered in the Books of the said Bank to the credit of Intestate Estates shall vest in the Official Administrator and shall be dealt with as it is directed by the fifth and seventh Sections of this Ordinance that monies received by him under this Ordinance shall be dealt with. No commission shall however be allowed to him upon the amount of this deposit. All books, papers and other documents relating to the said deposit and in the hands of the Police Magistrate shall be delivered to and taken charge of by the Official Administrator.

Speaker of the House of Commons.
Mr. Arnold Morley.

WHEREAS section 8 (3) of "The Mail Ships Act, 1891," provides that it shall be lawful for Her Majesty in Council to make Rules for carrying into effect, as respects British Possessions, the provisions of that Act with respect to the security given by mail ships, and in particular with respect to the commencement of a legal proceeding by service of a writ or process in the Possession, and to the notices to be given to arresting authorities in the Possession, and the evidence to be receivable by such authorities of the security having been given or withdrawn, and the application of the security in discharge of any damages, fine, debt, claim, sum, or forfeiture, where the same are or is recovered or payable either in the British Possession, or under proceedings pending concurrently in that British Possession, and in any other British Possession or the United Kingdom:

Now, therefore, Her Majesty is pleased, by and with the advice of Her Privy Council, to order, and it is hereby ordered, as follows:—

Notices of Exemption.

1.—Any rules of the High Court of Justice in England, made under the provisions of "The Mail Ships Act, 1891" (hereinafter referred to as "the Act"), shall be transmitted by a Secretary of State to the Government of every Possession to which the Act is applied for the purpose of a Convention, and shall be published by such Government in the Gazette of the Possession, and also in such local official Gazettes published in the Possession as the Government of the Possession may prescribe.

2.—A copy of every notice and list published by the Board of Trade under the Act, shall be transmitted by a Secretary of State to the Government of every Possession to which the Act is applied for the purpose of a particular Convention.

3.—A copy of every such Notice and list, signed by a Secretary to the Government of the Possession, or other prescribed officer shall be published in the official Gazette of the Possession, and a copy of such Gazette Notification shall be kept publicly exhibited in the Court-room of every Colonial Court of Admiralty in the Possession, and a copy of the said Gazette containing any such Notification shall be receivable in evidence by every arresting authority in the Possession.

4.—If notwithstanding its exemption, an exempted mail ship is arrested in the Possession, the Government of the Possession, on being informed by the owner of such arrest and of the arresting authority, and on being satisfied that the ship is an exempted mail ship, shall forthwith send a special Notice to the arresting authority, informing him that the ship is an exempted mail ship, and as such entitled to release.

Actions Against Exempted Ships.

5.—An action may be commenced against the owners of an exempted mail ship in the like cases, in the same manner and subject to the same rules as an Admiralty action *in rem*, and in any Colonial Court of Admiralty in the Possession in which such an action might have been brought if the ship were not an exempted mail ship.

Orders, by Courts in British Possessions, for Application of the Security.

6.—Any order of a Court in a British Possession directing any security to be applied shall recite the name of the Court and of the action or proceeding, the cause of action, and the judgment debt, and shall comprise a certificate by the Judge of the Court that the ship in respect of which the Judgment is given is an exempted mail ship, and might but for such exemption have been arrested and sold in execution thereof, and that the judgment debt is still unsatisfied, and is payable out of the security lodged in respect of the ship in the High Court of Justice in England.

7.—The order may require payment to be made either in London to a named agent of the execution creditor, or in the Possession to some named officer of the Court from which the order issues.

8.—Every such order shall be sealed with the seal of the Court, and shall be drawn up in duplicate, addressed to the Admiralty Registrar, Royal Courts of Justice, London, and shall be transmitted under cover to the prescribed officer of the Government of the Possession.

9.—The said duplicate orders when received by the prescribed officer shall be countersigned by him, and shall be forthwith transmitted to a Secretary of State, who shall cause one of such orders to be delivered to the Admiralty Registrar, and the Admiralty Registrar shall, subject to any direction of the High Court, make an order upon the Paymaster-General for payment of the required sum out of the security in accordance with these Rules.

10.—Unless the High Court shall otherwise order, and subject to existing rights of priority of liens, orders for the application of any security shall be paid in the order in which they are received by the Admiralty Registrar; but where two or more orders are received at the same time, they shall be paid in the order of their respective dates.

11.—Where the order requires payment to a named agent of the execution creditor in London, the money shall be payable at the rates of exchange current on the day on which the order is received by the Secretary of State.

12.—If the order requires payment to be made to a named officer of the Court from which the order issues, such an amount shall be paid out by the Paymaster-General, to a person nominated by the Secretary of State, as will at the rates of exchange current on the day on which the order is received by the Secretary of State be necessary to purchase a draft for the amount of the order payable at sight in the Possession, and such draft shall be in favour of the said named officer of the said Court.

13.—Where any action or proceeding against the owners of an exempted mail ship is pending in a Court in a British Possession, involving a claim against the security lodged in the High Court in England, the Court in the British Possession shall transmit to the Admiralty Registrar notice of the pendency of such action or proceeding, stating the nature and amount of the claim and the proceedings taken in regard thereto; and in case of the subsequent discontinuance or other conclusion of such action or proceeding, whereby the security ceases to be affected, the Court shall transmit notice of such discontinuance or conclusion. Every such notice shall be sealed, drawn up, addressed and transmitted to the Admiralty Registrar in like manner as an order for the application of the security.

Miscellaneous Provisions.

14.—In every British Possession to which these Rules apply, the Governor in Council may, by Order, prescribe any matter directed by these Rules to be prescribed, or necessary for carrying them into effect.

15.—In the application of these Rules to British India, the following provisions shall have effect:—

(a.) The Presidencies of Madras and Bombay, the lower Provinces of Bengal, and the Province of Burmah shall be deemed to be separate British Possessions.

(b.) The expressions "Government of the Possession" and "Governor in Council" respectively shall mean the Lieutenant-Governor of Bengal and the Chief Commissioner of Burmah, with respect to the territories administered by them respectively.

(c.) All Orders made in pursuance of Rule 14 with respect to any part of British India shall be made with the previous sanction of the Governor-General in Council.

16.—In the application of these Rules to any British Possession in which there is a Vice-Admiralty Court, and no Colonial Court of Admiralty, these Rules shall be read as if "Vice-Admiralty Court" were Colonial Court of Admiralty.

17.—In these Rules "judgment debt" means any damages, fine, debt, claim, sum, or forfeiture found by any Court to be payable by the owner of a ship, and "execution creditor" means the person entitled to a judgment debt.

Other expressions have the same meaning as in the Act.

18.—This Order may be cited as "The Mail Ships (Rules) Order in Council, 1895."

And the Most Honourable the Marquess of Ripon, K.G., the Right Honourable the Earl of Kimberley, K.G., and the Right Honourable H. H. Fowler, three of Her Majesty's Principal Secretaries of State, are to give the necessary directions herein, as to them may respectively appertain.

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council thereof, as follows:—

1.—From and after the passing of this Ordinance it shall be lawful for the Governor to appoint some fit and proper person to be called the Official Administrator of Estates.

2.—The Official Administrator shall be entitled to and it shall be his duty to apply for Letters of Administration to the Estates of all persons who shall die intestate without leaving a widower, widow, brother, sister or any lineal ancestor or descendant, or leaving any such relation, if no such relation shall take out Letters of Administration within three months or within such longer or shorter term as the Judge of the Supreme Court to which application is made may direct; and also to the estates of all persons who shall die leaving a Will but leaving no Executor or no Executor who will act if no such relative as aforesaid of such deceased shall within the time aforesaid take out Letters of Administration to the Estate.

3.—The Official Administrator shall keep a full complete and accurate account of all transactions with respect to all estates administered by him and he shall keep all such books as may be necessary for that purpose.

4.—The Official Administrator shall once at least in each year furnish to the Governor a complete and accurate statement of the payments receipts and transactions of his office.

5.—The Official Administrator shall keep all money which shall come into his hands as such Administrator in the Government Savings' Bank, and interest shall be allowed on such money in the same way as interest is allowed on the deposits of private persons. The Official Administrator shall in all cases pay such money into the Savings' Bank as soon as possible after he receives it, and a separate account shall be kept in the Savings' Bank for each estate. The Official Administrator may draw in the same manner as any other depositor any money standing to the credit of any estate for the purposes of the due administration of such estate.

6.—Letters of Administration to the Official Administrator shall be granted on the payment of the same fees and duties and in the same way as Letters of Administration are usually granted.

7.—On the grant of Letters of Administration to the Official Administrator the personal property of the deceased shall vest in the Official Administrator and be assets in his hand for the payment of the debts and liabilities of the deceased in the same way and to the same extent in all respects as such property would have vested in and been assets in the hands of any other Administrator, and the Official Administrator shall discharge the debts and liabilities

of the deceased and shall distribute the surplus in the same way and in the same order of priority and to the same extent that any other Administrator would have been bound to discharge such debts and liabilities and to distribute such surplus if this Law had not been passed.

8.—The Official Administrator shall be entitled to a commission of five pounds per centum on the value of all property administered by him: Such commission shall be the remuneration for the time and responsibility of the Official Administrator, but any expenses in respect of any other matters including travelling expenses may be charged by him in the same way that such expenses might be charged under similar circumstances by any other Administrator.

9.—All monies which at the time of the passing of this Ordinance may be deposited in the Government Savings' Bank and entered in the Books of the said Bank to the credit of Intestate Estates shall vest in the Official Administrator and shall be dealt with as it is directed by the fifth and seventh Sections of this Ordinance that monies received by him under this Ordinance shall be dealt with. No commission shall however be allowed to him upon the amount of this deposit. By Command,
F. CRAIGIE-HALKETT,

Colonial Secretary's Office,
17th August, 1895.

ORDER IN COUNCIL.
THE MAIL SHIPS (RULES) ORDER IN COUNCIL, 1895.
Windsor, 11th May, 1895.

AT the Court at Windsor, the 11th day of May, 1895.

PRESENT,
The QUEEN's Most Excellent Majesty,
Lord President.
Lord Chamberlain.
Lord Kensington,
Speaker of the House of Commons.
Mr. Arnold Morley.

WHEREAS section 8 (3) of "The Mail Ships Act, 1891," provides that it shall be lawful for Her Majesty in Council to make Rules for carrying into effect, as respects British Possessions, the provisions of that Act with respect to the security given by mail ships, and in particular with respect to the commencement of a legal proceeding by service of a writ or process in the Possession, and to the notices to be given to arresting authorities in the Possession, and the evidence to be receivable by such authorities of the security having been given or withdrawn, and the application of the security in discharge of any damages, fine, debt, claim, sum, or forfeiture, where the same are or is recovered or payable either in the British Possession, or under proceedings pending concurrently in that British Possession, and in any other British Possession or the United Kingdom:

Now, therefore, Her Majesty is pleased, by and with the advice of Her Privy Council, to order, and it is hereby ordered, as follows:—

Notices of Exemption.

1.—Any rules of the High Court of Justice in England, made under the provisions of "The Mail Ships Act, 1891" (hereinafter referred to as "the Act"), shall be transmitted by a Secretary of State to the Government of every Possession to which the Act is applied for the purpose of a Convention, and shall be published by such Government in the Gazette of the Possession, and also in such local official Gazettes published in the Possession as the Government of the Possession may prescribe.

2.—A copy of every notice and list published by the Board of Trade under the Act shall be transmitted by a Secretary of State to the Government of every Possession to which the Act is applied for the purpose of a particular Convention.

3.—A copy of every such Notice and list, signed by a Secretary to the Government of the Possession, or other prescribed officer, shall be published in the official Gazette of the Possession, and a copy of such Gazette Notification shall be kept publicly exhibited in the Court-room of every Colonial Court of Admiralty in the Possession, and a copy of the said Gazette containing any such Notification shall be receivable in evidence by every arresting authority in the Possession.

4.—If notwithstanding its exemption, an exempted mail ship is arrested in the Possession, the Government of the Possession, on being informed by the owner of such arrest and of the arresting authority, and on being satisfied that the ship is an exempted mail ship, shall forthwith send a special Notice to the arresting authority, informing him that the ship is an exempted mail ship, and as such entitled to release.

Actions Against Exempted Ships.

5.—An action may be commenced against the owners of an exempted mail ship in the like cases, in the same manner and subject to the same rules as an Admiralty action *in rem*, and in any Colonial Court of Admiralty in the Possession in which such an action might have been brought if the ship were not an exempted mail ship.

Orders, by Courts in British Possessions, for Application of the Security.

6.—Any order of a Court in a British Possession directing any security to be applied shall recite the name of the Court and of the action or proceeding, the cause of action, and the judgment debt, and shall comprise a certificate by the Judge of the Court that the ship in respect of which the Judgment is given is an exempted mail ship, and might but for such exemption have been arrested and sold in execution thereof, and that the judgment debt is still unsatisfied, and is payable out of the security lodged in respect of the ship in the High Court of Justice in England.

7.—The order may require payment to be made either in London to a named agent of the execution creditor, or in the Possession to some named officer of the Court from which the order issues.

8.—Every such order shall be sealed with the seal of the Court, and shall be drawn up in duplicate, addressed to the Admiralty Registrar, Royal Courts of Justice, London, and shall be transmitted under cover to the prescribed officer of the Government of the Possession.

9.—The said duplicate orders when received by the prescribed officer shall be countersigned by him, and shall be forthwith transmitted to a Secretary of State, who shall cause one of such orders to be delivered to the Admiralty Registrar, and the Admiralty Registrar shall, subject to any direction of the High Court, make an order upon the Paymaster-General for payment of the required sum out of the security in accordance with these Rules.

10.—Unless the High Court shall otherwise order, and subject to existing rights of priority of liens, orders for the application of any security shall be paid in the order in which they are received by the Admiralty Registrar; but where two or more orders are received at the same time, they shall be paid in the order of their respective dates.

11.—Where the order requires payment to a named agent of the execution creditor in London, the money shall be payable at the rates of exchange current on the day on which the order is received by the Secretary of State.

12.—If the order requires payment to be made to a named officer of the Court from which the order issues, such an amount shall be paid out by the Paymaster-General, to a person nominated by the Secretary of State, as will at the rates of exchange current on the day on which the order is received by the Secretary of State be necessary to purchase a draft for the amount of the order payable at sight in the Possession, and such draft shall be in favour of the said named officer of the said Court.

13.—Where any action or proceeding against the owners of an exempted mail ship is pending in a Court in a British Possession involving a claim against the security lodged in the High Court in England, the Court in the British Possession shall transmit to the Admiralty Registrar notice of the pendency of such action or proceeding stating the nature and amount of the claim and the proceedings taken in regard thereto; and in case of the subsequent discontinuance or other conclusion of such action or proceeding, whereby the security ceases to be affected the Court shall transmit notice of such discontinuance or conclusion. Every such notice shall be sealed, drawn up, addressed and transmitted to the Admiralty Registrar in like manner as an order for the application of the security.

Miscellaneous Provisions.

14.—In every British Possession to which these Rules apply, the Governor in Council may, by Order, prescribe any matter directed by these Rules to be prescribed, or necessary for carrying them into effect.

15.—In the application of these Rules to British India, the following provisions shall have effect:—

(a) The Presidencies of Madras and Bombay, the lower Provinces of Bengal, and the Province of Burmah shall be deemed to be separate British Possessions.

(b) The expressions "Government of the Possession" and "Governor in Council" respectively shall mean the Lieutenant-Governor of Bengal and the Chief Commissioner of Burmah, with respect to the territories administered by them respectively.

(c) All Orders made in pursuance of Rule 14 with respect to any part of British India shall be made with the previous sanction of the Governor-General in Council.

16.—In the application of these Rules to any British Possession in which there is a Vice-Admiralty Court, and no Colonial Court of Admiralty, these Rules shall be read as if "Vice-Admiralty Court" were Colonial Court of Admiralty.

17.—In these Rules "judgment debt" means any damages, fine, debt, claim, sum, or forfeiture found by any Court to be payable by the owner of a ship, and "execution creditor" means the person entitled to a judgment debt.

Other expressions have the same meaning as in the Act.

18.—This Order may be cited as "The Mail Ships (Rules) Order in Council, 1895."

And the Most Honourable the Marquess of Ripon, K.G., the Right Honourable the Earl of Kimberley, K.G., and the Right Honourable H. H. Fowler, three of Her Majesty's Principal Secretaries of State, are to give the necessary directions herein, as to them may respectively appertain.

2.—The Official Administrator shall be entitled to and it shall be his duty to apply for Letters of Administration to the Estates of all persons who shall die intestate without leaving a widower, widow, brother, sister or any lineal ancestor or descendant, or leaving any such relation, if no such relation shall take out Letters of Administration within three months or within such longer or shorter term as the Judge of the Supreme Court to which application is made may direct; and also to the estates of all persons who shall die leaving a Will but leaving no Executor or no Executor who will act if no such relative as aforesaid of such deceased shall within the time aforesaid take out Letters of Administration to the Estate.

3.—The Official Administrator shall keep a full complete and accurate account of all transactions with respect to all estates administered by him and he shall keep all such books as may be necessary for that purpose.

4.—The Official Administrator shall once at least in each year furnish to the Governor a complete and accurate statement of the payments receipts and transactions of his office.

5.—The Official Administrator shall keep all money which shall come into his hands as such Administrator in the Government Savings' Bank, and interest shall be allowed on such money in the same way as interest is allowed on the deposits of private persons. The Official Administrator shall in all cases pay such money into the Savings' Bank as soon as possible after he receives it, and a separate account shall be kept in the Savings' Bank for each estate. The Official Administrator may draw in the same manner as any other depositor any money standing to the credit of any estate for the purposes of the due administration of such estate.

6.—Letters of Administration to the Official Administrator shall be granted on the payment of the same fees and duties and in the same way as Letters of Administration are usually granted.

7.—On the grant of Letters of Administration to the Official Administrator the personal property of the deceased shall vest in the Official Administrator and be assets in his hand for the payment of the debts and liabilities of the deceased in the same way and to the same extent in all respects as such property would have vested in and been assets in the hands of any other Administrator, and the Official Administrator shall discharge the debts and liabilities

8.—The Official Administrator shall be entitled to a commission of five pounds per centum on the value of all property administered by him: Such commission shall be the remuneration for the time and responsibility of the Official Administrator, but any expenses in respect of any other matters including travelling expenses may be charged by him in the same way that such expenses might be charged under similar circumstances by any other Administrator.

9.—All monies which at the time of the passing of this Ordinance may be deposited in the Government Savings' Bank and entered in the Books of the said Bank to the credit of Intestate Estates shall vest in the Official Administrator and shall be dealt with as it is directed by the fifth and seventh Sections of this Ordinance that monies received by him under this Ordinance shall be dealt with. No commission shall however be allowed to him upon the amount of this deposit. All books, papers and other documents relating to the said deposit and in the hands of the Police Magistrate shall be delivered to and taken charge of by the Official Administrator.

No. of 1895.

An Ordinance to create the Office of Official Administrator.

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council thereof, as follows:—

1.—From and after the passing of this Ordinance it shall be lawful for the Governor to appoint some fit and proper person to be called the Official Administrator of Estates.

2.—The Official Administrator shall be entitled to and it shall be his duty to apply for Letters of Administration to the Estates of all persons who shall die intestate without leaving a widower, widow, brother, sister or any lineal ancestor or descendant, or leaving any such relation, if no such relation shall take out Letters of Administration within three months or within such longer or shorter term as the Judge of the Supreme Court to which application is made may direct; and also to the estates of all persons who shall die leaving a Will but leaving no Executor or no Executor who will act if no such relative as aforesaid of such deceased shall within the time aforesaid take out Letters of Administration to the Estate.

3.—The Official Administrator shall keep a full complete and accurate account of all transactions with respect to all estates administered by him and he shall keep all such books as may be necessary for that purpose.

4.—The Official Administrator shall once at least in each year furnish to the Governor a complete and accurate statement of the payments receipts and transactions of his office.

5.—The Official Administrator shall keep all money which shall come into his hands as such Administrator in the Government Savings' Bank, and interest shall be allowed on such money in the same way as interest is allowed on the deposits of private persons. The Official Administrator shall in all cases pay such money into the Savings' Bank as soon as possible after he receives it, and a separate account shall be kept in the Savings' Bank for each estate. The Official Administrator may draw in the same manner as any other depositor any money standing to the credit of any estate for the purposes of the due administration of such estate.

6.—Letters of Administration to the Official Administrator shall be granted on the payment of the same fees and duties and in the same way as Letters of Administration are usually granted.

7.—On the grant of Letters of Administration to the Official Administrator the personal property of the deceased shall vest in the Official Administrator and be assets in his hand for the payment of the debts and liabilities of the deceased in the same way and to the same extent in all respects as such property would have vested in and been assets in the hands of any other Administrator, and the Official Administrator shall discharge the debts and liabilities

of the deceased and shall distribute the surplus in the same way and in the same order of priority and to the same extent that any other Administrator would have been bound to discharge such debts and liabilities and to distribute such surplus if this Law had not been passed.

8.—The Official Administrator shall be entitled to a commission of five pounds per centum on the value of all property administered by him: Such commission shall be the remuneration for the time and responsibility of the Official Administrator, but any expenses in respect of any other matters including travelling expenses may be charged by him in the same way that such expenses might be charged under similar circumstances by any other Administrator.

9.—All monies which at the time of the passing of this Ordinance may be deposited in the Government Savings' Bank and entered in the Books of the said Bank to the credit of Intestate Estates shall vest in the Official Administrator and shall be dealt with as it is directed by the fifth and seventh Sections of this Ordinance that monies received by him under this Ordinance shall be dealt with. No commission shall however be allowed to him upon the amount of this deposit. All books, papers and other documents relating to the said deposit and in the hands of the Police Magistrate shall be delivered to and taken charge of by the Official Administrator.

An Ordinance to create the Office of Official Administrator.

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council thereof, as follows:—

1.—From and after the passing of this Ordinance it shall be lawful for the Governor to appoint some fit and proper person to be called the Official Administrator of Estates.

2.—The Official Administrator shall be entitled to and it shall be his duty to apply for Letters of Administration to the Estates of all persons who shall die intestate without leaving a widower, widow, brother, sister or any lineal ancestor or descendant, or leaving any such relation, if no such relation shall take out Letters of Administration within three months or within such longer or shorter term as the Judge of the Supreme Court to which application is made may direct; and also to the estates of all persons who shall die leaving a Will but leaving no Executor or no Executor who will act if no such relative as aforesaid of such deceased shall within the time aforesaid take out Letters of Administration to the Estate.

3.—The Official Administrator shall keep a full complete and accurate account of all transactions with respect to all estates administered by him and he shall keep all such books as may be necessary for that purpose.

4.—The Official Administrator shall once at least in each year furnish to the Governor a complete and accurate statement of the payments receipts and transactions of his office.

5.—The Official Administrator shall keep all money which shall come into his hands as such Administrator in the Government Savings' Bank, and interest shall be allowed on such money in the same way as interest is allowed on the deposits of private persons. The Official Administrator shall in all cases pay such money into the Savings' Bank as soon as possible after he receives it, and a separate account shall be kept in the Savings' Bank for each estate. The Official Administrator may draw in the same manner as any other depositor any money standing to the credit of any estate for the purposes of the due administration of such estate.

6.—Letters of Administration to the Official Administrator shall be granted on the payment of the same fees and duties and in the same way as Letters of Administration are usually granted.

7.—On the grant of Letters of Administration to the Official Administrator the personal property of the deceased shall vest in the Official Administrator and be assets in his hand for the payment of the debts and liabilities of the deceased in the same way and to the same extent in all respects as such property would have vested in and been assets in the hands of any other Administrator, and the Official Administrator shall discharge the debts and liabilities

GOVERNMENT NOTICE.

The subjoined Report is published for general information, in confirmation of Public Notice dated the 10th instant, relating to the financial condition of the Colony.

By Command,
F. CRAIGIE-HALKETT,
Colonial Secretary.

Colonial Secretary's Office,
30th September, 1895.

25th September, 1895.

Sir,

The Board appointed by His Excellency the Governor to enquire into the financial condition of the Colony beg leave to report for His Excellency's information, that they have examined the accounts extending as far back as 1886, and have also carefully scrutinized the yearly statements of "Assets and Liabilities" and of "Receipts and Expenditure" which have been issued since that date.

The Accounts with the Crown Agents shewing the Investments on account of "Land Sales" of the "Savings' Bank" and of the "Surplus Fund" were also examined.

These shew that on the 31st December, 1894, the cash balance in the hands of the Crown Agents was £3,189 14 9, and that the Investments on behalf of the Colony were as follows:—

Land Sales	£12,979	4	0	Face Value.		
Surplus Fund	1840	11	7	£13,758	3	10
Savings' Bank	27,921	7	2	1,982	1	2
				28,442	1	9

These values represent the actual amount paid, and not the face value of the stock.

According to the Report of the Quarterly Survey of the Treasurer's Chest there was on the same date (31st December, 1894) a cash balance of £1,614 10 3 in the hands of the Treasurer.

Taking into consideration all liabilities, and excluding the amount invested on account of "Land Sales," a net surplus is shown on the 31st December, 1894, of £1,041 11 7. In this is not included either the interest accruing to the Revenue on Invested Funds, nor that accruing as payable to Depositors in the Savings' Bank for the Quarter ended 31st December.

The Books and Accounts of the Treasurer show that the Revenue for the past half year exceeded the expenditure by £104 4 4.

Since the 31st December of last year the amount invested on account of "Land Sales" has been further increased by £1,115 19 2, that on account of Savings' Bank by £799 12 0. and that on account of Surplus Funds by £4,000.

The Crown Agents were instructed by the Treasurer in June of the present year to transfer from invested Surplus Funds to the credit of the Savings' Bank Investments to the amount of about £3,500. These instructions, when carried out, will raise the amount invested on account of the Savings Bank to over £32,000.

Despatch No. 109, 1885,
Governor to Secretary of
State.

We notice in the amounts invested on account of "Land Sales" and which consequently does not appear to the credit of the "Surplus Fund" a sum of £2,000 which accrued from the sale of the foreshore in Stanley to the Falkland Islands Company and Messrs. Dean and Sons in the year 1885. This sum was set apart for a specific purpose to be meanwhile invested in a distinct fund.

An impression has existed that this amount was included in Surplus Funds, but we are satisfied that it has always been included in "Land Sales," and that the surplus shown at the close of each year is actually Surplus revenue. The actual surplus in December, 1890, according to the accounts to that date was only £2,847 18 4, as against £1,041 11 7 on 31st December, 1894, showing that in the past four years only £1,806 6 9 of the original surplus Revenue have been expended,

In further evidence of the Colony's present satisfactory financial condition the Inventory and Valuation returned by the Storekeeper show that there are, in addition, stores to the value of about £1,200 in the Government Store for which no credit has been or will be taken in the Treasury Accounts.

Payment for these stores was made before the 30th June, last.

These stores do not include those such as coal and oil taken to account as advances and which are debited against the Departments as they make use of them.

The Government Storekeeper reports that the purchase of the whole of the present stock has been made since 1891, at which date the value of the entire stock in hand did not exceed £40.

We have the honour to be,

GOVERNMENT NOTICE.

The subjoined Report is published for general information, in confirmation of Public Notice dated the 10th instant, relating to the financial condition of the Colony.

By Command,
F. CRAIGIE-HALKETT,
Colonial Secretary.

Colonial Secretary's Office,
30th September, 1895.

25th September, 1895.

Sir,

The Board appointed by His Excellency the Governor to enquire into the financial condition of the Colony beg leave to report for His Excellency's information, that they have examined the accounts extending as far back as 1886, and have also carefully scrutinized the yearly statements of "Assets and Liabilities" and of "Receipts and Expenditure" which have been issued since that date.

The Accounts with the Crown Agents shewing the Investments on account of "Land Sales" of the "Savings' Bank" and of the "Surplus Fund" were also examined.

These show that on the 31st December, 1894, the cash balance in the hands of the Crown Agents was £3,189 14 9, and that the Investments on behalf of the Colony were as follows:—

Land Sales	£12,979	4	0	Face Value.		
Surplus Fund	1840	11	7	£13,758	3	10
Savings' Bank	27,921	7	2	1,982	1	2
				28,442	1	9

These values represent the actual amount paid, and not the face value of the stock.

According to the Report of the Quarterly Survey of the Treasurer's Chest there was on the same date (31st December, 1894) a cash balance of £1,614 10 3 in the hands of the Treasurer.

Taking into consideration all liabilities, and excluding the amount invested on account of "Land Sales," a net surplus is shown on the 31st December, 1894, of £1,041 11 7. In this is not included either the interest accruing to the Revenue on Invested Funds, nor that accruing as payable to Depositors in the Savings' Bank for the Quarter ended 31st December.

The Books and Accounts of the Treasurer show that the Revenue for the past half year exceeded the expenditure by £101 4 4.

Since the 31st December of last year the amount invested on account of "Land Sales" has been further increased by £1,115 19 2, that on account of Savings' Bank by £799 12 0. and that on account of Surplus Funds by £4,000.

The Crown Agents were instructed by the Treasurer in June of the present year to transfer from invested Surplus Funds to the credit of the Savings' Bank Investments to the amount of about £3,500. These instructions, when carried out, will raise the amount invested on account of the Savings Bank to over £32,000.

We notice in the amounts invested on account of "Land Sales" and which consequently does not appear to the credit of the "Surplus Fund" a sum of £2,000 which accrued from the sale of the foreshore in Stanley to the Falkland Islands Company and Messrs. Dean and Sons in the year 1885. This sum was set apart for a specific purpose to be meanwhile invested in a distinct fund.

Despatch No. 109, 1885,
Governor to Secretary of
State.

An impression has existed that this amount was included in Surplus Funds, but we are satisfied that it has always been included in "Land Sales," and that the surplus shown at the close of each year is actually Surplus revenue. The actual surplus in December, 1890, according to the accounts to that date was only £2,847 18 4, as against £1,041 11 7 on 31st December, 1894, showing that in the past four years only £1,806 6 9 of the original surplus Revenue have been expended.

In further evidence of the Colony's present satisfactory financial condition the Inventory and Valuation returned by the Storekeeper show that there are, in addition, stores to the value of about £1,200 in the Government Store for which no credit has been or will be taken in the Treasury Accounts.

Payment for these stores was made before the 30th June, last.

These stores do not include those such as coal and oil taken to account as advances and which are debited against the Departments as they make use of them.

The Government Storekeeper reports that the purchase of the whole of the present stock has been made since 1891, at which date the value of the entire stock in hand did not exceed £40.

At an adjourned Meeting of the Legislative Council held on the 27th February, 1895.
Present:

His Excellency Sir R. T. Gollsworthy, K.C.M.G., Governor.

His Honour T. A. Thompson, Judge.

The Honourable F. C. Halkett, Colonial Secretary.

" " S. Hamilton, Colonial Surgeon.

" " J. J. Felton.

" " A. E. Baillon.

The Council having resolved itself into Committee the following clauses (*vide Bill*) were added to the Ordinance and stood as Clauses 4, 5 and 6.

Clause 4 of the Bill was re-numbered clause 7.

The Council resumed its sitting.

The Honourable the Colonial Surgeon gave notice that at the next meeting of the Council he would move the Third Reading of an Ordinance entitled "An Ordinance to amend the Lunacy Ordinance, 1894."

The Council resumed its consideration in Committee of an Ordinance entitled "An Ordinance to amend Ordinance No. 1 of 1863, and to make further provision for Compulsory Vaccination," when the following words were added to clauses 4 and 7 respectively, the words at the end of clause 4 from the words "for this" in line 21 to "conviction" in line 24 being struck out.

When clause 4 was going through Committee, His Excellency called attention to the absence of awarding punishment to every subsequent disobedience of the order. The Honourable the Colonial Surgeon strongly urged the necessity of taking every precaution to prevent continued disobedience of such an order. It was unanimously considered that power should be given to the Magistrate to inflict a fine if a man showed himself recalcitrant.

His Excellency informed the Council that their wishes in this respect would be conveyed to the Secretary of State.

On the Council resuming its sitting the Honourable the Colonial Surgeon gave notice that at the next meeting he would move the Third Reading and passing of the Ordinance entitled "An Ordinance to amend Ordinance No. 1 of 1868, and to make further provision for Compulsory Vaccination."

The Council having resolved itself into Committee the enacting clause and title of the Ordinance entitled "An Ordinance for the Regulation of the Post Office" were read. The Council resumed, and the Standing Orders having been suspended, the Honourable the Colonial Secretary moved the Third Reading and passing of the Bill entitled "An Ordinance for the Regulation of the Post Office."

His Honour the Judge seconded and the Bill was read a third time and passed.

The Council then resumed its consideration in Committee of the Ordinance entitled "An Ordinance to make provision for the Eradication of Scab or other Infectious or Contagious diseases in Sheep."

The following Clauses (*vide Bill*) were carried and stood as Clauses 41, 42 & 43.

On Clause 41 His Excellency desired that his opinion might be recorded, in order not to appear inconsistent, that it would be unfair if the tax to defray the cost of carrying the Ordinance into effect were levied on the land according to the acreage as the recorded acreage of some Stations would prove to be much less than the actual acreage if surveyed.

The Council resumed its sitting.

The Secretary of State's Despatch No. 73 of 29th August, 1894 having been read, the Honourable the Colonial Secretary moved the following resolution: "That a sum of £60 per annum, being at the rate of £1 4 per pupil be voted as a Grant in Aid towards the Baptist School.

The Resolution was unanimously carried.

The Council adjourned until the 28th February, 1895

Read and Confirmed this Fifth day of April, 1895.

AT THE COURT AT BALMORAL,

The 3rd day of October, 1895.

PRESENT,

THE QUEEN'S MOST EXCELLENT MAJESTY
IN COUNCIL

WHEREAS by an Order in Council, dated the 30th July, 1868, made by Her Majesty in exercise of the powers conferred upon Her by the Merchant Shipping Act Amendment Act, 1862, Her Majesty was pleased to direct that the Merchant Ships of the United States of America the measurement whereof should after the 1st January, 1865, have been ascertained and denoted on the registers and other national papers of such ships, testified by the date thereof, should be deemed to be of the tonnage denoted in such registers or other national papers, in the same manner, to the same extent, and for the same purpose, in, to, and for which the tonnage denoted in the Certificate of registry of British ships is deemed to be the tonnage of such ships, after making therefrom the same deductions, in respect of crew space and engine room, as would, if such ships were British, be made from their gross tonnage under the laws relating to British Ships.

And whereas by another Order in Council, dated the 19th March, 1883, made in exercise of the aforesaid powers Her Majesty was pleased to direct as follows:—

- 1.—As regards sailing ships, that Merchant Sailing Ships of the United States of America, the measurement whereof after the 5th August, 1882, has been ascertained and denoted in the registers and other national papers of such sailing ships, testified by the date thereof, shall be deemed to be of the tonnage noted in such registers and other national papers, in the same manner, to the same extent, and for the same purpose in, to, and for which the tonnage denoted in the certificate of Registry of British sailing ships is deemed to be the tonnage of such ships.
- 2.—As regards Steam Ships:—that Merchant Ships belonging to the United States of America, which are propelled by steam or any other power requiring engine room, the measurement whereof shall, after the said 5th day of August, 1882, have been ascertained and denoted in the registers and other national papers of such steamships, testified by the dates thereof, shall be deemed to be of the tonnage denoted in such registers or other national papers in the same manner, to the same extent, and for the same purpose in, to, and for which the tonnage denoted in the certificate of registry of British ships is deemed to be the tonnage of such ships. Provided nevertheless that if the owner or master of any such American steamship desires the deduction for engine room measurement and deduction applicable to British ships instead of under the American Rule, the engine room shall be measured, and the deduction calculated according to the British rules.

And whereas by Section 84 of the Merchant Shipping Act, 1894, it is enacted that, whenever it appears to Her Majesty the Queen in Council, that the tonnage regulations of that Act have been adopted by any Foreign Country, and are in force there, Her Majesty in Council may order that the ships of that Country shall, without being remeasured in Her Majesty's dominions, be deemed to be of the tonnage denoted in their Certificates of registry or other national papers, in the same manner, to the same extent, and for the same purposes as the tonnage denoted in the certificate of registry of a British ship is deemed to be the tonnage of that ship.

And whereas it has been made to appear to Her Majesty in Council that the tonnage regulations of the Merchant Shipping Act, 1894, have been adopted by the United States of America and such regulations are now in force there, having come into operation on the 1st day of April, 1895.

And whereas there still are or may be ships belonging to the United States of America to which the hereinbefore recited Orders of the 30th July, 1868, and the 19th March, 1883, may respectively apply, and it is expedient not to revoke the same, but to let the said recited Orders remain in force so long as there are any ships to which the same may so respectively apply.

And whereas the provisions of Section One of the Rules Publication Act, 1893, have been complied with.

NOW, THEREFORE, Her Majesty in pursuance and exercise of the powers hereinbefore mentioned, is hereby pleased, by and with the advice of Her Privy Council to direct that the Merchant ships of the United States of America the measurement whereof shall, after the 1st day of April, 1895, have been ascertained and denoted in the registers and other national papers of such ships, shall be deemed to be of the tonnage denoted in their certificates of registry or other national papers in the same manner, to the same extent, and for the same purposes as the tonnage denoted in the certificate of Registry of a British ship is deemed to be the tonnage of that ship.

C. L. PEEL.

At an adjourned Meeting of the Legislative Council held on the 23rd February, 1895.

Present :

His Excellency Sir R. T. Goldsworthy, K.C.M.G., Governor.

His Honour T. A. Thompson, Judge.

The Honourable S. Hamilton, Colonial Surgeon.

" " J. J. Felton.

" " A. E. Baillon.

ABSENT :

The Honourable F. C. Halkett, Colonial Secretary.

The Honourable the Colonial Surgeon moved the Third Reading and passing of the Bill entitled "An Ordinance to amend the Lunacy Ordinance, 1894." The Honourable J. J. Felton seconded and the Bill was read a third time and passed.

The Honourable the Colonial Surgeon then moved the Third Reading and passing of an Ordinance entitled "An Ordinance to amend Ordinance No. 1 of 1868, and to make further provision for Compulsory Vaccination." The Honourable A. E. Baillon seconded and the Bill was read a third time and passed.

His Excellency reserved his assent to the Bill pending the Secretary of State's instructions as to the insertion of a clause imposing a penalty for continued breaches of an order to vaccinate.

The Council then resolved itself into Committee when in clause 41, line 3, of an Ordinance entitled "An Ordinance to make provision for the eradication of Scab or other Infectious or Contagious diseases in Sheep" the words "town lands alone excepted" were struck out, and the following words were inserted in lieu thereof "save and except all town lands and all unleased Crown lands or lands reserved for Naval, Imperial or other purposes."

The Council resumed.

His Honour the Judge then moved the following resolution :

That a sum of £500 be granted from general revenue for the purpose of defraying the cost of a house to be used as Officers quarters, and in reply to a question by the Honourable A. E. Baillon as to how the sum was to be met His Excellency stated that the financial condition of the Colony was better than in the previous year, there were £2569 balance according to the last Treasury State while there was a sum of £1700 in transit to England and the Surplus Fund stood at £1982.

His Excellency explained the reasons for the necessity of purchasing another house, the Colonial Secretary's quarters were insufficient, and there were no quarters available for the Judge, while the Surveyor was at present occupying the quarters set apart for the Pilot.

The Honourable the Colonial Surgeon seconded and the Resolution was carried unanimously.

The Council adjourned *sine die*.

Read and Confirmed this fifth day of April, 1895.

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council thereof, as follows :—

1.—Where there shall be no sufficient natural boundary between two adjoining Stations and there shall be no dividing Fence between such Stations or the existing fence is from want of repair or other cause not a sufficient fence it may be lawful for the owner of either Station to call on the owner of the adjoining Station by notice in writing to come to an agreement as to the extent or nature of the fence to be erected or the repairs or work to be done to make the existing fence sufficient within the meaning of this Ordinance.

2.—If the parties shall fail within fourteen days after the giving of such notice to come to such agreement as aforesaid it shall be lawful for the party who shall have given the notice to apply to a Stock Inspector to view the Stations and to report upon the necessity for a fence or what repairs or additions to the existing fence are necessary.

4.—Upon such report being received it shall be lawful for the party who shall have made the application to at once proceed to erect the fence or to repair or improve the existing fence and on the completion of the work the said party shall be entitled to recover from the owner of the adjoining Station one half of the cost of the work so done by action or suit before the Police Magistrate of the Colony or Stipendiary Magistrate of the West Falklands upon a certificate being produced from a Stock Inspector that the fence has been erected or repaired or improved according to the terms of the Inspector's report.

27th February, 1896.

At a Meeting of the Legislative Council held on the 23th January, 1896.

Present :

His Excellency Sir R. T. Goldsworthy, K.C.M.G., Governor.

His Honour T. A. Thompson, Judge.

The Honourable F. C. Halkett, Colonial Secretary.

" " S. Hamilton, Colonial Surgeon.

" " J. J. Felton.

" " A. E. Baillon.

The minutes of the previous Meeting held on the 30th October, 1895, were read and confirmed.

The Honourable the Colonial Secretary moved the introduction and First reading of an Ordinance entitled "An Ordinance to amend the Customs Duties Consolidation Ordinance, 1891."

Seconded by the Honourable the Colonial Surgeon.

The Bill was read by title.

The Standing Orders having been suspended, the Honourable the Colonial Secretary moved the Second reading and going into Committee on the Bill explaining that the object of the provisions of the Bill was to more clearly define the intention of Ordinance 5 of 1891, in respect to the ports of entry where ships might arrive.

The Honourable the Colonial Surgeon seconded.

Clause 1 passed without amendment.

In clause 2, line 2, after the word "disabled" the words "or other unavoidable circumstances" and after the word "thereof" in the same line the words "to the satisfaction of the Governor in Council" were inserted, and, as so amended the clause was carried.

Clauses 3 and 4 passed without amendment.

The Council resumed and on the motion of the Honourable the Colonial Secretary seconded by the Honourable the Colonial Surgeon the Bill was read a third time and passed.

His Honour the Judge then moved the Introduction and First reading of an Ordinance entitled "An Ordinance to provide for the erection of dividing fences by the owners of adjoining lands.

Seconded by the Honourable the Colonial Secretary.

The Bill was read by title.

The Standing Orders were suspended with a view to proceeding with the consideration of the Second Reading of the Bill.

A motion for the Second Reading being duly made by His Honour the Judge, who briefly explained the intention of the various clauses of the Bill, and seconded by the Honourable the Colonial Secretary. The Council went into Committee on the Bill.

On clauses 1, 4, 5 and 6 the Honourable J. J. Felton referred to the provisions of the other draft Ordinance on the Orders of the Day entitled "An Ordinance to further amend the Scab Ordinance, 1895," and, in connection therewith, the Honourable Member instanced the position of the original owner of an existing fence and asked if the original owner pulled down his fence because it was dilapidated he could call upon his neighbour to erect another at joint expense and whether he could call upon him to bear the proportion of the cost of repairing the existing fence.

He remarked on the length of time that the party who had applied for the erection of the fence might be out of pocket owing to the insolvency or impecunious condition of his neighbour and to the possibility of that party, if time for payment to him were extended for some years, not exceeding ten, as provided thereby, or for some other reason, becoming himself impecunious; if this were so the relative positions even of the parties might be reversed yet repayment by instalments only would continue to be required under the law. The Honourable Member also commented on the fact of no security being required for the

payment of instalments and asked if Government had the right to fix the rate of interest to be charged on the amount due by the defendant in clause 5.

It was explained to the Honourable Member with regard to existing fences put up at the expense of one individual, that the law could not be held to be retrospective, that there was nothing to prevent a man from pulling down his own fence, and, if re-erected or repaired at joint expense, the neighbours would naturally have an interest in it. It was suggested that Government might lend the necessary amount to the parties who were unable to meet their proportion of the cost of the erection of fences taking the leases as security for the ultimate re-payment of the money. With regard to the insertion of the rate of interest it was explained that exceptional measures were necessarily required to meet exceptional legislation.

The clauses 1, 4, 5 and 6 were left for further consideration in Committee.

There was no discussion on clauses 2, 3, 7 and 8.

In clause 8, last line, the word "six" was inserted before the word "months"

Clause 9. The Honourable J. J. Felton enquired if this clause referred to suburban lands. His Honour replied that these lands if used for depasturing, would be considered as "stations" under the interpretation clause 12, that a reference would be made to ascertain if any previous Ordinance had determined the "limits of Stanley" but that it was not intended that this clause should extend beyond the town.

On the Honourable J. J. Felton's suggestion it was generally agreed that some remuneration, to be defrayed by the party who failed to erect the fence, should be given to the freeholders ordered to view and report as provided by the clause.

No amendments were made in clauses 10, 11, 12 and 13.

The Bill was left in Committee.

The Council resumed.

His Honour the Judge then moved the introduction and first reading of an Ordinance entitled "An Ordinance to further amend the Scab Ordinance 1895."

Seconded by the Honourable the Colonial Secretary.

The Bill was read by title.

On the Standing Orders being duly suspended, His Honour moved the second reading and going into Committee on the Bill.

Seconded by the Honourable the Colonial Secretary.

Clause 1. The Honourable J. J. Felton questioned the practicability of erecting fences within the period specified, 18 months; and was uncertain as to how far it would affect the agreement proposed in the Ordinance just previously under discussion; he, himself, thought it would over-ride it and render it abortive. Moreover, the financial condition of some farmers would not allow them to defray such an expense within such a short space of time.

After some discussion, His Excellency stated that, if the un-official members concurred, the Government might consider the advisability, with the approval of the Secretary of State, of lending money on the security of their leases in such instances where the action of the Government necessitated a person to fence for the purpose of the eradication of scab; but not in the other instance under the general fencing Ordinance.

The consideration of the draft Ordinance was consequently postponed with a view to the member in charge of the Bill, together with the Colonial Secretary, meeting the un-official members to devise some scheme under which, when a fence is so required to be erected, assistance might be given in the manner suggested above.

The Council then adjourned.

Read and confirmed this eighth day of February, 1896.

An Ordinance to provide for the Administration of unrepresented Estates in the Falkland Islands.

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council thereof, as follows:—

Interpretation Clause.

1.—In this Ordinance, unless the context otherwise requires, the following terms shall have the meaning hereinafter respectively assigned to them, that is to say:—

“The Judge” shall mean the Judge of the Supreme Court.

“The Court” shall mean the Supreme Court.

“Property” shall include goods, choses in action, land and every kind of property whether real or personal and every kind of Estate and interest present or future, vested or contingent.

“Unrepresented Estate” shall mean

(1). The Estate of every person who shall die intestate and whose widow, husband or next of kin shall be unknown, or shall have refused to take out Letters of Administration, or shall be absent from the Falkland Islands without having an agent therein.

(2). The Estate of every person who shall die having made a will, when owing to any cause it shall be necessary to appoint administrators *cum testamento annexo* or *de bonis non* of such Estate, and the person entitled to such Letters of Administration shall be unknown or shall refuse to take out such Letters of Administration or shall be absent from the Falkland Islands without having an agent therein.

(3). Every Estate whereof the Executors or Administrators shall be absent from the Falkland Islands without having an agent therein.

Letters of Administration not to be granted to creditor.

2.—From and after the coming into operation of this Ordinance no Letters of Administration shall be granted to any person in the character of a creditor, but in every case where but for this Ordinance Letters of Administration of any Estate would be granted to a creditor thereof, such Estate shall be considered as unrepresented within the meaning of this Ordinance.

Appointment of Official Administrator.

3.—The Governor may appoint an Officer to be called the Official Administrator, who, previously to entering upon the duties hereinafter defined, shall enter into recognizance with two sureties in such sum as the Governor shall order and shall take and subscribe the following oath:

“ I do swear that I will faithfully, honestly and diligently perform the duties of Official Administrator without fear or favour, partiality or affection.—
So HELP ME GOD.”

and until such appointment is made and thereafter whenever there

shall be no Official Administrator so appointed the Colonial Secretary shall be ex-officio Official Administrator.

Official Administrator not
to act as Agent or Executor

4.—The Official Administrator shall not act as the agent of any person, nor as Executor or Administrator of any deceased person unless of any member of his own family not more remote than the fourth degree, and shall be personally responsible for the honesty and fidelity of every clerk and other person whom he may deem it necessary to employ in the execution of the duties of his Office.

Estates to devolve upon
successor on death, &c.

5.—Upon the death, resignation or removal from Office of any Official Administrator for the time being all property in his hands or under his control as such Official Administrator, and all rights, powers and duties vested in him under any order made under this Ordinance shall devolve upon and be vested in his successor, whether ex-officio or by appointment, and upon every appointment of an Official Administrator all property, rights, powers and duties (if any) then in the hands or under the control or vested in the Colonial Secretary of the Colony as ex-officio Official Administrator shall devolve upon and be vested in the person so appointed; and no legal process commenced by or against any Official Administrator in his Office as such shall abate or be prejudiced by the death, resignation or removal of such Official Administrator but the same may continue by or against his successor.

Official Administrator to
petition Court.

6.—The Official Administrator shall, whenever he shall become aware of any Estate which he shall consider unrepresented, present a petition to the Court in the Form in the Schedule hereto, stating the particulars of such Estate and praying for an order to collect and receive the same, and the Court shall, upon being satisfied that such Estate is unrepresented, grant such order accordingly, and thereupon the Official Administrator shall forthwith cause an inventory to be made of the Estate mentioned in such order and shall file the same in the Court.

Administrator may take
possession.

7.—The Official Administrator shall, if he think fit so to do, immediately on becoming aware of any unrepresented Estate, and before obtaining the order in the foregoing section mentioned, enter upon the Estate for the purpose of sealing up or making such other dispositions for the security of such Estate as he may deem necessary.

Court may revoke order.

8.—If upon the representation of any person claiming to be legally entitled to the Administration or management of any Estate in respect of which any such order shall have been made as aforesaid, the Court shall be satisfied that the applicant is so entitled, the Court may revoke such order and direct the Official Administrator to desist from interfering with such Estate or may make such other order as the Court shall seem meet: Provided always that all matters and things which shall have been *bona fide* done or performed by the Official Administrator previously to the determination of such order shall be valid and effectual to all intents and purposes whatsoever.

money retained by any
person.

10.—If any person shall retain in his hands or employ for his own benefit or knowingly permit any person so to retain or employ any sum of money or other effects, part of any unrepresented Estate, after a demand therefor shall have been made by the Official Administrator, every such person shall be charged and pay interest on such money or on the value of such effects at the rate of 12 per centum per annum for the time during which he

shall have retained or employed the same, or permitted the same to be retained or employed as aforesaid, and the Official Administrator is hereby authorised and required to demand and sue for such interest either together with the principal money or effects, or separately, as he may think fit.

Notices to creditors.

11.—The Official Administrator shall, immediately after obtaining an order to collect any Estate, publish in the Falkland Islands Gazette and shall also affix on the Government notice board in Stanley, a notice calling upon the creditors of the Estate mentioned in such notice to come in and prove their claims on or before a certain day to be therein named, or in default thereof to be excluded from any benefit arising from such Estate, and if so ordered by the Court shall also publish such notice in one or more papers published out of the Colony to be selected by the Court, and shall repeat such notices so often as the Court shall order, and claimants or creditors residing within the Colony shall be bound to file their claims at the Office of the Official Administrator within three months after such notice as aforesaid; and claimants or others residing out of the Colony shall be bound to file their claims within six months after the publication of the last notice in such foreign paper as aforesaid, on pain, in default thereof, of being excluded from any benefit arising from such Estate.

Creditors to file claims.

Form of claims.

12.—All claims filed by creditors or claimants shall express the name and place of abode of the creditor or claimant, the origin of the debt or claim, the degree or class of such debt and the particulars and exact amount thereof, verified by affidavit, and there shall also be annexed to every such claim the documents purporting to be evidence thereof.

Disputes as to validity of claims to be settled by Court.

13.—In the event of any dispute arising as to the validity of any claim, the parties, or on their default or where the Official Administrator himself entertains doubts of the validity of any claim, the Official Administrator shall draw up and settle a statement in writing of the grounds of such dispute, and shall submit the same to the Court, and the Court shall thereupon make such order thereon as the circumstances of the case may require. But no action or suit shall be brought against the Official Administrator in respect of any debt due from an Estate under his administration.

Sale of perishable property

14.—The Court may at any time make an order for the immediate sale by the Official Administrator of such part of any Estate as shall be of a perishable nature or from any cause whatever deteriorating in value.

Administrator to sell personal property.

15.—The Official Administrator shall, within three months after entering into possession of any Estate, sell and dispose of all the personal property belonging to such Estate by public auction after such public notice thereof as is usual in the case of sales by order of the Court. Provided always that the Court may by any order in that behalf extend the time for such sale, or direct such personal property to be disposed of by private contract.

Court may order sale of realty.

16.—In case the Court shall be satisfied that the proceeds of the sale of the personal property belonging to any Estate are insufficient to discharge the debts and liabilities attaching to such Estate, the Court may by its order direct the Official Administrator to sell the whole or such part of the real property belonging to such Estate as the Court may deem necessary for the purpose aforesaid, and such sale shall be subject to all the incidents of a sale of real property by order of the Court: Provided always that nothing hereinbefore contained shall be taken or construed to give any purchaser any other or better title to such property than shall have been possessed by the last owner thereof.

17.—All monies received by the Official Administrator in the

Monies to be paid into Savings Bank.

Distribution of proceeds of Estate.

execution of his Office, whether of debts due to the Estate, the proceeds of sale, or from whatsoever source they may be derived, shall forthwith be paid into the Government Savings Bank to the account of the Official Administrator, and the Official Administrator shall submit monthly to the Judge a return showing all such sums with the date when paid into the Government Savings Bank and the Estate to whose credit they have been received.

18.—After the expiration of 12 months from the date of the order for taking possession of any Estate, the Official Administrator shall dispose of the moneys arising out of such Estate as follows, that is to say:—

- (1). He shall reimburse himself of all such costs and charges as he shall reasonably have incurred in collecting the Estate, such costs and charges having been previously authorized by the Court.
- (2). He shall pay into the Treasury $6\frac{1}{4}$ per centum upon the gross amount of the money arising out of the Estate, to be applied as hereinafter mentioned.
- (3). He shall pay the creditors of the Estate in the order prescribed by law if sufficient money shall remain for the payment thereof in full.
- (4). He shall pay the balance (if any) which shall remain after such payments into the Treasury in trust for the next of kin, heir-at-law, legatee or devisee of the deceased, as the case may be.

If sufficient money shall not remain after the satisfaction of Subsection (1) & (2) for the payment of all creditors in full, then the amount shall be divided rateably among the creditors.

Application of $6\frac{1}{4}$ per cent.

19.—The $6\frac{1}{4}$ per centum to be paid by the Official Administrator into the Treasury under Subsection (2) of the last preceding section shall be applied in manner following, that is to say:—

- (1). 5 per centum shall be paid by the Treasurer to the Official Administrator on the production of the certificates required by section 24 of this Ordinance as a remuneration for the services he is required to perform.
- (2). $1\frac{1}{4}$ per centum shall be carried to a reserve fund for defraying the incidental expenses necessitated by this Ordinance. Provided always that the Governor may at any time order that the remuneration by this section provided to be paid to the Official Administrator shall be commuted for a fixed salary without reference to the amount at any time produced by such remuneration.

Disposal of real property.

20.—When after winding up an Estate any real property remains undisposed of, the Official Administrator shall forthwith, and before closing the accounts of such Estate, apply to the Court for directions as to the disposal of such real property, and the Court may order the same to be sold, or may appoint a receiver or make such other order as to the Court shall seem just.

Certain expenses to be paid from reserve fund.

21.—The expenses of every legal process and other matter which it shall be necessary for the Official Administrator to institute or perform on behalf of any Estate, the assets of which shall be insufficient to defray such expenses shall be paid out of the reserve fund.

Expenses paid by order from Governor.

22.—Upon the application of the Official Administrator the Governor may make orders by Warrant upon the Treasurer for the payment out of the said reserved fund to the Official Administrator of such monies as shall from time to time be payable therefrom under the provisions of this Ordinance.

Audit of accounts by Judge.

23.—The Official Administrator shall monthly exhibit a statement of his accounts to the Judge, who shall satisfy himself as to their correctness and also that the payments into the Government Savings Bank, prescribed by section 17 to be made, have been duly and punctually carried out. The moneys prescribed by section 18, to be paid into the Treasury, shall be so paid within 48 hours of the final winding up of the Estate.

Administrator to obtain Judge's Certificate.

24.—As a condition precedent to the payment by the Treasurer to the Official Administrator of the remuneration provided by section 10, or if the same shall have been commuted, of any salary arising from such commutation, the Official Administrator shall obtain from the Judge and deliver to the Treasurer a certificate in the following form:—

"I hereby certify that the Official Administrator has duly exhibited to me the monthly statement of accounts required by section 23 of the Unrepresented Estates Ordinance Falkland Islands, 1898, and that I have audited the same and found them correct, and that all payments required to be made into the Government Savings Bank have been so made."

A. B., Judge.

25.—The Official Administrator shall keep a separate account of and for each Estate that he shall administer under this Ordinance, and shall keep the following books:—

Books.

A book for entry of claims against every Estate. A book for entry of debts due to every Estate. Cash book. Journal. Ledger.

Any person may inspect the books and accounts of the Official Administrator during his Office hours and on payment of a fee of one shilling.

Estate of intestate illegitimate how dealt with.

26.—The balance of the Estate of an intestate who is illegitimate and leaves no widow or lineal descendant, when paid into the Treasury as provided by section 18, unless any claim or claims by the natural relations of the intestate be recognized by the Governor in Council, may be appropriated for such public purposes as shall be approved by the Secretary of State for the Colonies.

Estate of intestate whose kindred are unknown how dealt with.

27.—The balance of the Estate of an Intestate whose kindred are unknown, when paid into the Treasury as provided by section 18 shall be invested under the head of "The Intestates Estates Fund" in securities to be approved by the Secretary of State for the Colonies, and shall be allowed to accumulate with interest for a period of ten years at the expiration of which period all claims thereto shall be barred and the principal and accumulated interest shall lapse to the Government of the Falkland Islands and may be appropriated for such public purposes as shall be approved by the Secretary of State for the Colonies.

The Minutes of the previous Meeting were read and confirmed.

The Council resumed its consideration in Committee on the Ordinance entitled "An Ordinance to provide for the erection of dividing fences by the owners of adjoining lands."

His Honour the Judge stated that following on the suggestion made at the last meeting the Committee had met and had arrived at the conclusion that when time was given under Clause 5 the defendant should find security for the payment of instalments, and that under Clause 6 such security—either personal or that of sureties—should constitute a preferable lien against subsequent incumbrances on all property of the defendant or sureties. These amendments had accordingly been embodied in revised clauses which were now about to be laid before the Council.

His Excellency thought that under Clause 6, as amended, an adjoining leaseholder if unfriendly with a neighbour and knowing him to be heavily mortgaged and unable to find sureties might enforce him to fence, and that therefore the provisions of this Clause would put a powerful weapon in his hand.

After some discussion His Excellency said that there was no need for hasty legislation since the provisions of the existing Scab Ordinance, as already pointed out by His Honour the Judge, might in time bring about the fencing which was devised by the present proposed Ordinance.

The Council concurred in the Bill being left in Committee so that it might be referred to the Secretary of State with a view to the opinions of those more experienced in the matter being obtained.

It was however considered advisable that the proposed amendments should be discussed and—if carried—inserted, so that the Bill with the amended clauses might be laid before the Secretary of State.

Clause 1 passed without amendment.

Clause 5. The Un-Official Members recorded it as their opinion that the payment by instalments should commence with the commencement and not after the completion of the work, and that security should be demanded previous to commencing the work.

It was pointed out by His Honour the Judge that from a person enforcing the erection of a fence would appear that the work would be more beneficial to him than to his neighbour, and that no money should be recoverable until after the completion of the work.

His Excellency however stated that there would be no objection to the period for payment being extended to 10 years from the commencement of the work.

After some further discussion it was thought advisable that when the parties did not mutually agree to erect fences the report of the Stock Inspector consequent on the application of one of the parties should be delivered to the Magistrate and not to the party making the application: And that such Magistrate should after enquiry order the erection and decide as to the best means whereby the cost, by payment of instalments, should be defrayed.

This was unanimously agreed to, and the consideration of Clauses 3, 4, 5 and 6 were consequently held over for further amendment.

In Clause 9, line 26, the words "in a summary way" were struck out, and the words "by suit or action" inserted.

A new Clause, after Clause 9, making provision for the remuneration of freeholders inspecting lots was carried, and read as follows:—

10.—Each freeholder who may be ordered to view premises under the preceding Section shall be allowed by the Magistrate the sum of ten shillings per diem for the time necessarily employed in viewing the lot of land referred to in the order of the Magistrate which sum or sums of money shall be paid by the owner of the lot of land who shall have neglected or refused to assist in making or repairing a division fence, and upon non-payment of the amount allowed the Magistrate before whom the case shall have been heard shall issue his Warrant to recover the amount by distress and sale of the goods and chattels of the party making default.

In Clause 13, line 4, the following words were inserted, "Magistrate," shall mean Police Magistrate of the Colony or Stipendiary Magistrate of the West Falklands, and the word "Magistrate" inserted in the clauses wherever the words Police Magistrate of the Colony or Stipendiary Magistrate of the West Falklands occurred.

The Bill was left in Committee.

The Council resumed.

On being duly moved into Committee the Council resumed its consideration of the Ordinance entitled "An Ordinance to further amend the Scab Ordinance, 1895."

The following amended Clauses which stood as Clauses 1 and 2 were carried.

1.—If it shall appear to the Chief Inspector on his own view that there is no sufficient natural boundary between two stations and no sufficient dividing fence between such stations the Inspector may, if he considers it necessary for the eradication of Scab on the stations, issue an order in writing to the occupiers of the said stations to erect a sufficient fence between such stations within eighteen months from the date of the service of such order: Provided however that the said Inspector shall be entitled and is hereby empowered when he shall become satisfied that because of the situation or natural conditions of any station it is impracticable to complete the erection of a dividing fence within such period of eighteen months to extend the time within which a dividing fence shall be erected on such station for such further period as to the said Chief Inspector shall seem fair and reasonable.

2.—Any occupier of a station who shall wilfully neglect to obey an order issued by the Chief Inspector under the preceding section within the period named in such order shall be liable to a penalty of not less than Ten Pounds and not exceeding Twenty Pounds for every month he shall remain in default. No occupier of a station shall however be considered guilty of such wilful neglect who shall within the time fixed by the Inspector have completed what is certified by the Inspector to be either occupier's proper proportion of the work of erecting such dividing fence.

In Clause 3, "Sufficient Fence" it was considered advisable that a combined wire netting and wire fence should be also deemed a sufficient fence and that this Sub-Clause should be accordingly revised.

Clause 3 was re-numbered Clause 4.

The Bill was left in Committee.

On the Council resuming His Honour the Judge moved the Introduction and First Reading of an Ordinance entitled "An Ordinance for regulating the law relating to Conspiracy and to the protection of property and for other purposes." Explaining that its provisions were based indeed almost similar to those of Vic. 38 & 89 Cap. 86.

The Honourable the Colonial Secretary seconded.

The Bill was read by title.

The Council adjourned until the 10th February.

" " A. E. Baillon.

The Minutes of the previous Meeting were read and confirmed.

The Council resumed in Committee the consideration of Clauses 3, 4, 5 & 6 of an Ordinance entitled "An Ordinance to provide for the erection of dividing fences by the owners of adjoining lands."

His Honour the Judge laid before the Council certain revised Clauses drafted to meet the suggestions proposed at the last meeting. Before proceeding further he thought it right to state however that in introducing the Fencing Ordinances and the various amendments thereto it was not to be concluded that he cordially approved of them as a whole, but that he had yielded on many points in deference to the opinions of the Executive and Members of the Legislative Council but whilst expressing this opinion he would not vote against the amendments. A careful consideration, he added, of the whole question inclined him more strongly than ever to his original opinion that all that is required, after a Station has been viewed by a Scab Inspector and the necessity for a dividing fence reported, is for the owner desirous of fencing to complete the fence under order of a Magistrate, who upon its completion should be entitled to immediately recover half the cost from the adjoining owner. He did not think any great hardship would result from this either to the rich or poorer farmer.

His Honour further added that he certainly objected to an inquisitorial enquiry into the private means of an individual as soon as an owner wishes to fence. On the other hand, when the fence is completed the leaseholder erecting it should at once recover the share of the cost from the adjoining leaseholder.

His Excellency after some remarks from the Unofficial Members who appeared to be in favour of the proposed amendments said, that in face of what the Legal Adviser had stated he was not prepared to give effect to the Ordinance should the amendments be passed, and proposed that this Bill and the Bill to further amend the Scab Ordinance, 1895 should be left in Committee.

His Excellency addressing the Honourable J. J. Felton asked how he would have liked when entering on his farm to have been requested to do what was now proposed. The case is not similar with the adjoining owner, for instance, take those who have recently acquired land, they pay on the acreage ascertained by survey and a high rental, whereas farmers in many cases do not pay on one half the land leased, had not he and others stated that the farms could not pay on such a rental and yet he was asking that more should be demanded from the small farmers. His Excellency then asked the Unofficial Members to state their views on the matter in writing so that they, together with the original Draft Ordinance and these proposed amendments, might be forwarded to the Secretary of State for his instructions.

The Council then continued its consideration in Committee of an Ordinance to further amend the Scab Ordinance, 1895.

Clause 2 was further amended by the words in lines 1 & 2 "obey an order issued by the Chief Inspector under the preceding section within the period named in such order" being struck out and the words "erect a dividing fence within the period fixed by the Chief Inspector under the preceding section" substituted therefor.

Clause 3. "A sufficient fence" was interpreted as follows: "shall mean a fence constructed of not less than 6 wires, or a fence constructed of wire or of wire and wire netting. The fence to have droppers or standards not less than 10 feet apart and to be not less than 3 feet 3 inches high and the bottom of the fence to be not less than six inches from the ground."

It was generally considered that the powers proposed by this Ordinance were too great to be vested in one authority. It was not thought expedient however for the Magistrate to intervene where the matter depended on the competency of an expert, such as a Scab Inspector, but there might be some appeal against his order say perhaps to the Governor-in-Council.

The Bill was left in Committee with a view to it being forwarded to the Secretary of State for his instructions thereon.

On the Council resuming, His Honour the Judge moved the Second Reading and going into Committee on an Ordinance entitled "An Ordinance for regulating the Law relating to Conspiracy and to the protection of property and for other purposes."

Seconded by the Honourable the Colonial Secretary, the following amendments were made:—

Clause 1, lines 6 to 9, the words "nothing in this Section shall exempt from punishment any persons to.....the Colony" were deleted

Clause 3, line 1, the word "legally" was inserted after the word "being."

The following stood as Clauses 6 & 7.

6.—"Upon the hearing and determination of any case under Sections 2 and 3 of this Ordinance the respective parties to the contract of service their husbands or or wives shall be deemed and considered as competent witnesses."

7.—"In this Ordinance the word "Magistrate" shall include and mean the "Police Magistrate of the Colony or the Stipendiary Magistrate of the West Falklands."

And the word "Magistrate" consequently inserted wherever the words "the Police Magistrate of the Colony or Stipendiary Magistrate of the West Falklands" occurred.

The Council resumed when, the Standing Orders having been suspended, His Honour the Judge moved the Third Reading and passing of the Bill.

Seconded by the Honourable the Colonial Secretary the Bill was read a Third time and passed.

The Council adjourned.

Read and Confirmed this 30th day of March, 1896;

By His Excellency
Sir ROGER TUCKFIELD GOLDSWORTHY, K.C.M.G., Governor.

No. of 1896.

An Ordinance to consolidate and amend the Laws relating to Customs Duties and Trade.

Whereas it is expedient to consolidate and amend the several Ordinances now in force for the purpose of fixing the duties of Customs and levying and collecting the same.

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council thereof, as follows:—

1.—From and after the coming into operation of this Ordinance all Ordinances relating to Customs Duties and Trade are hereby repealed, and from henceforth there shall be raised, levied, collected and paid, unto Her Majesty, her heirs and successors, for the use of this Colony, the several duties of Customs in the "Tariff of Import duties" in the Schedule hereto.

2.—It shall be lawful for the Governor in Council, from time to time, to appoint proper persons to execute the duties of the several offices necessary to the collection of the customs and all matters connected therewith; Provided that the several persons now filling or discharging the duties of such offices shall continue to fill and discharge the same during Her Majesty's pleasure.

3.—It shall be lawful for the Governor in Council from time to time, by Order in Council, to appoint Ports of Entry in the Colony, and declare the limits thereof. The Port of Stanley and the Port of Fox Bay shall continue however to be Ports of Entry without further notice or order.

4.—The Master of every vessel whether laden or in ballast shall, within twenty-four hours after arrival from parts beyond the seas at a Port of Entry in the Colony make due report (as in Form No. I of this Ordinance) of such vessel to the Collector of Customs; Provided always that if any suspicion arise as to the character of such vessel such report may be required forthwith, together with the production and lodging of the ship's papers with the Collector of Customs. Such reports shall be made before bulk be broken or any goods whatever, except personal luggage, passed by an Officer of Customs, shall be removed, landed, or waterborne from any such vessel. If the Master shall fail to make due report, or if the particulars or any of them contained in such report be false, he shall forfeit the sum of fifty pounds, and all goods not reported shall be forfeited; Provided that the Collector of Customs may forego the prosecution where no wilful error has been made, and subject the Master to a fine not exceeding five pounds.

5.—The Master of every vessel shall at the time of making report answer all such questions relating to the vessel, cargo, crew, and voyage, as shall be put to him by the Collector or Officer of Customs; and if such Master shall fail to make due report, or if the particulars or any of them contained in such report be false, or if he does not answer the questions demanded of him or does not answer truly, or if after the arrival within four leagues of the Port for which the vessel is bound, bulk shall be broken or any alteration made in the stowage of the cargo of such vessel, or if any part be staved, destroyed,

or thrown overboard or any package opened, unless cause be shown to the satisfaction of the Collector or in his absence the Officer of Customs, in every such case the Master shall be liable to a penalty not exceeding one hundred pounds, and in case the said Master shall fail to pay the amount of the penalties incurred under this section and all costs of recovering the same, the Collector or Officer of Customs as aforesaid shall have full power and authority to detain such vessel and not allow the same to leave the said Port until such amount has been duly paid and all expenses attendant thereon; and in case any goods be not reported, such goods shall be forfeited unless it appear that there was no fraudulent intention, in which case the Master shall be allowed to amend his report, and the goods may in the meantime be removed to the Government Warehouse,

6.—If the contents of any package in such vessel shall be reported by the Master as being unknown to him any duly authorized Officer of Customs shall open and examine such package on board such vessel, or cause the same to be brought to the Government Warehouse for that purpose at the expense of the owner of such package.

7.—On the arrival of any vessel in any Port of Entry in the Colony it shall be lawful for the Collector of Customs to send one or more Officers of Customs on board of such vessel who shall remain on board at the discretion of the Collector of Customs till all goods are landed from such vessel, and the duties, if any, shall have been paid or otherwise accounted for to the satisfaction of the Collector, and there shall be paid for the services of every Officer so proceeding or remaining on board, as aforesaid, by the Master or Consignee of such vessel to the Treasurer for the purposes of general revenue, the sum of ten shillings for every day or part of a day during which such Officer shall be so employed; and further it shall be lawful for the Collector or other Officer of Customs to go on board any vessel at any time and rummage and search all parts of such vessel in order to ascertain the quantity of articles liable to duty which the vessel may contain.

8.—The Master of any vessel on board of which any Officer or Officers of Customs may be placed by the Collector of Customs under the powers given by the preceding section, shall provide food for and sufficient room and accommodation under the deck for the bed or hammock of every such Officer, for which a sum of three shillings per diem for each Officer shall be allowed to the Master.

9.—The Master of every vessel on board of which an Officer or Officers of Customs may have been placed shall, at the discretion of the Collector of Customs, either give an undertaking for payment or make a deposit with such Collector of Customs of such sum as, in the opinion of the Collector of Customs, shall be sufficient, on the termination of the duties of such Officer or Officers of Customs, to pay his or their return passage from the Port at which the cargo of such vessel may have been discharged.

10.—If the Master of any vessel arriving from parts beyond the seas brings such vessel to anchor at, or has any communication with, any part of the coast or shores of the Colony, other than the Port of Stanley, the Port of Fox Bay, or such other Port as may hereafter be declared by Order in Council a Port of Entry, before making due report inwards of such vessel to the Collector of Customs, or without authority as hereinafter provided for, the Master shall on being convicted thereof be liable to a penalty not exceeding One Hundred Pounds and such vessel shall be liable to forfeiture: Provided that if any vessel is driven into any Bay or place on the Coast of the Colony by stress of weather, or by being disabled, on proof thereof no such Penalty or Forfeiture shall be incurred: Provided also that nothing herein contained shall prevent the Collector of Customs upon being

applied to by the Agent of the Owner or of the Master of a vessel expected to arrive within the Colony, from issuing if he thinks advisable a permit or authority for such vessel to enter any Bay or place, not being a port of entry, upon the said Agent agreeing to pay the expenses of a duly qualified Officer or Officers of Customs to be despatched to await the arrival of the vessel at such Bay or place.

11.—The Master of every vessel arriving from any Port out of the Colony, at any port of entry within the limits of the Colony other than Port Stanley, for the purpose of landing or receiving cargo, shall, upon being admitted to entry inwards, pay to the Officer of Customs appointed by the Governor as aforesaid, a duty of one shilling per ton on the registered tonnage of such vessel. Provided always that no vessel whose registered tonnage exceeds two hundred tons shall be liable to a payment of a larger amount than ten pounds in respect of the aforesaid duty on each entry, and no such vessel shall be suffered to clear out by the said Officer of Customs until the said duty has been fully paid, and the amount of such duties shall be paid and applied in like manner as the several duties of Customs are directed to be paid and applied by the first Section of this Ordinance, and the same, and other duties collected by such Officer of Customs, shall be transmitted with all convenient speed by such Officer to the Treasurer at Stanley. All vessels liable to the payment of tonnage duties shall only be liable to the same for the first two voyages after the first day of January in any one year, and after payment of tonnage duties on such two voyages, shall be exempt from any further duties during the remainder of such year.

12.—Goods shall not be unladen from any vessel until due entry shall be made of such goods and warrant granted for unloading of the same and goods shall not be so unladen except at some place for which a sufferance has been granted by the Collector or Officer of Customs for the unloading of such goods nor otherwise than in the presence or with the permission in writing of the proper Officer of Customs.

13.—The Importer of any goods liable to duties of Customs and intended to be delivered for home use shall, before the unshipment thereof, make perfect entry of such goods by delivering to the Collector of Customs a Bill of Entry thereof in duplicate (as in Form No. 2 to this Ordinance annexed) and shall produce to the Collector of Customs, if required by him, the Invoice, Bills of Lading and other documents relating to the goods. The particulars in such entry shall correspond with the particulars given of the same goods and packages in the report or manifest of the ship.

14.—The Importer or his Agent shall, immediately upon the entry of any dutiable goods entered by him to be delivered for home use, pay all duties which may be payable upon such goods, to the Collector of Customs, and such Bill of Entry, when signed by the Collector of Customs, shall be transmitted to the proper Officer of Customs, and be his warrant for the landing and delivery of such goods.

15.—The Importer of any goods to be warehoused without payment of duty on the first entry thereof, or his Agent, shall deliver to the Collector of Customs a Bill of Entry in duplicate of such goods (as in Form No. 3) in the same manner and form and containing the same particulars as are hereinbefore required in the entry of goods to be delivered for home use as far as the same may be applicable, and such Bill of Entry, when signed by the Collector of Customs, shall be the Warrant for the due warehousing of such goods.

16.—If the importer of any goods, or his agent, shall make and subscribe a declaration in writing before the Collector or Officer of

19.—If the Importer of any goods or the Consignee or Master of the Ship shall not within fourteen days after the arrival of the importing vessel make perfect entry or entry by Bill of Sight or if having made such entry he shall not land such goods within fourteen days it shall be lawful for the Collector of Customs to order such goods to be warehoused.

BRANDING OF SHEEP WITH TAR.

SIR,
The attention of the Council of this Chamber has been called to the very serious drawbacks that occur to Spinners and Manufacturers owing to the use of tar and similar substances in the marking of sheep. A large quantity of wool is used in the manufacture of

carpets and similar productions, which does not undergo the process of sorting, and although employees are cautioned to exercise due care and vigilance to take out any tar-marked wool they may discover, yet it frequently happens that tar marks in small quantities pass through the various stages into the finished goods, thereby causing considerable damage and loss.

I am therefore directed that you will call the attention of Foreign Consuls in wool-producing countries to this complaint with a view to their inducing farmers to adopt some other means of identification; or, if "marking" is to be adhered to, then in that case some substance should be used which, whilst being capable of outliving the ordinary conditions of weather in the open, would yield to, and become dissolved by the regular process of wool-washing. The value of the wool under these new conditions would be considerably enhanced.

I am, &c.,

Copy of Resolution forwarded in His Excellency's Despatch, No. 24 of March 3rd, 1896.

**TO THE QUEEN'S MOST EXCELLENT
MAJESTY.**

We, the President and Members of the Legislative Council of the Falkland Islands and their Dependencies and Your Majesty's loyal subjects desire to express our deep sympathy and that of the community at large

in the loss which Your Majesty and your daughter, the Princess Beatrice, have sustained in the death of Colonel His Royal Highness the Prince Henry Maurice of Battenberg, K. G.

If the sorrow and grief which Your Majesty and his widow must feel under such a trial can be in any way assuaged it must be by the knowledge that he died on active service and whilst honourably discharging, in a pestilential climate, his military duties in connection with the country of his adoption.

That the Almighty may give Your Majesty and Her Royal Highness the Princess Beatrice strength to bear the blow it has pleased Him to inflict is the prayer of your loyal subjects.

BRANDING OF SHEEP WITH TAR.

Sir,

The attention of the Council of this Chamber has been called to the very serious drawbacks that occur to Spinners and Manufacturers owing to the use of tar and similar substances in the marking of sheep. A large quantity of wool is used in the manufacture of carpets and similar productions, which does not undergo the process of sorting, and although employees are cautioned to exercise due care and vigilance to take out any tar-marked wool they may discover, yet it frequently happens that tar marks in small quantities pass through the various stages into the finished goods, thereby causing considerable damage and loss.

I am therefore directed that you will call the attention of Foreign Consuls in wool producing countries to this complaint with a view to their inducing farmers to adopt some other means of identification; or, if "marking" is to be adhered to, then in that case some substance should be used which, whilst being capable of outliving the ordinary conditions of weather in the open, would yield to, and become dissolved by the regular process of wool-washing. The value of the wool under these new conditions would be considerably enhanced.

I am, &c.,

(Signed)

J. ROBERTSHAW,
Secretary.

The Secretary of State,
Colonial Department.

The consideration of the Bill in Committee was consequently held over for an adjourned Meeting to enable the Honourable Member's request to be acceded to.

His Honour the Judge moved the Introduction and First Reading of an Ordinance entitled "An Ordinance to consolidate and amend the Laws relating to Customs Duties and Trade."

Seconded by the Honourable the Colonial Secretary.

The Bill was read by title.

The Standing Orders being suspended His Honour the Judge, seconded by the Honourable the Colonial Secretary, moved the Second Reading and going into Committee on the Bill, which was carried unanimously. His Honour explained that the necessity for the introduction of this Bill arose from the fact that the Law No. 5 of 1891 was found to be defective owing to the clauses being so distributed and arranged as not to facilitate its working, the opportunity had also been taken of embodying the two Ordinances which had been enacted subsequent to the passing of the Law of 1891.

The following amendments were made in Committee.

Clause 2 was deleted.

"Cargo shall not be unshipped from any vessel without the special permission in writing of the Collector of Customs, and such cargo shall not be landed except at some place for which a sufferance has been granted by the Collector or Officer of Customs for the landing of such goods nor otherwise than in the presence of the proper Officer of Customs."

Clause 13, line 7. From the words "the particulars" to the end of the clause were struck out.

Clause 16, lines 11 and 17. The word "seven" was substituted for the word

"three."

Clause 19, line 5. The word "may" was substituted for the word "shall."

Clause 23. The following words were added at the end of the clause "and the party offending shall be liable to a penalty not exceeding One Hundred Pounds or treble the value of the goods at the option of the Collector of Customs."

Clause 27, line 9. The word "may" was substituted for the word "shall."

Clause 29, line 8. The words after "and if there are" to the end of the clause were struck out.

Clause 31, line 3. The word "dutyable" was inserted before "articles" and the words "liable to specific duties" struck out.

Clause 32, line 10. The word "warrant" was substituted for the word "permit."

Clause 34, line 1. The word "delivered" was substituted for the word "landed" and the word "due" was inserted in the second line before the word "examination."

Clause 36, line 2. After the word "afterwards" the words "open and if he desires" were inserted.

Clause 37, line 2. The words "twenty-four" were struck out and the words "a reasonable time not exceeding seventy-two."

Line 6. The word "warrant" was substituted for the word "permit."

Clause 39, line 2. The words "the Governor of the Colony or" were inserted before the words "of Her Majesty."

Clause 44 was deleted.

Clause 50, line 2. The words "or their dependencies" were inserted after the word "Islands."

Clause 55, line 16. The words "at the discretion of the Court or Magistrate" were deleted.

Clause 57. The words "of the Port of Stanley" were deleted.

Clause 62, section 3. Was deleted.

Clause 63, line 10. The words "is of opinion" were struck out, and the words "shall certify upon the record" inserted in lieu thereof.

In the last line the word "suit" was substituted for the word "action."

Clause 67, line 5. The words "Chief Constable or Police Constable" were struck out.

Clause 71. Under the Sub-Heading "Officer of Customs" the words "and also all Police Constables" were added under the sub-heading "warehouse" after the word "otherwise" the words "now or hereafter to be constituted as such by the Collector of Customs, with the authority of the Governor" were added.

Under the head of "exemptions" in the Schedule, paragraph 6, lines 4 & 5, the words "on the warrant of the Governor in Council" were deleted.

The Bill was left in Committee that the clauses might be re-grouped and the legal procedure in serious cases be further considered.

At an adjourned Meeting held on the 12th Mar. 1896.

Absent:—

The Honourable J. J. Felton.

The Council resumed in Committee its consideration of an Ordinance entitled "An Ordinance to make further provision for the service of the Colony of the Falkland Islands for the year 1895."

The items of expenditure were read and discussed.

The Honourable A. E. Baillon referred to the excess of £518 on the Miscella-

neous vote, of which he understood that £500 was in respect of the purchase of a house formerly in the possession of Mr. Lasar, but which expenditure he thought would have been met by the ordinary Public Works vote. The Resolution unanimously carried on the 28th February granting this sum from General Revenue was read to the Honourable Member.

The Honourable Member thought that the amount of £1043 under the head of Public Works appeared excessive, and added, that if he had time he would like to thoroughly analyse the items in detail, more especially the expenditure on roads. It was explained that this amount included some £500 as the cost of labour on and material for the erection of the Magistrate's house, &c., on the West Falklands and for which a sum of £800 had been voted during the year; that the purchase and erection of standard street lamps was also defrayed out of this sum, and that the balance was represented by stock on hand in the Government Store.

The Honourable Member did not wish to oppose the vote.

With regard to the sum of £141 under Port and Marine, the Honourable Member was informed that this was due to the Pilot Schooner "Victoria" having been refitted, which also had to undergo repairs after going ashore. With the execution of these repairs the purchase of another Schooner was not contemplated so long as she was able to perform the pilot service as of late.

On clause 1 being put was unanimously carried.

Clause 2 passed without amendment.

The Council resumed.

The Standing Orders being suspended the Honourable the Colonial Secretary, seconded by the Honourable the Colonial Surgeon, moved the Third reading and passing of the Bill, which being duly carried, the Bill was read a Third time and passed.

The Council adjourned.

Read and Confirmed this 2nd day of July, 1896,

(Signed)

ROGER TUCKFIELD GOLDSWORTHY,
Governor.

(Signed)

CHARLES W. HILL,
Clerk to Council.

The following extracts from the Board of Trade "Notice to Mariners," dated May, 1896, are published for general information.

By Command.

F. CRAIGIE-HALKETT,

Colonial Secretary.

Colonial Secretary's Office,
July, 1896.

SPECIAL WARNING TO MARINERS:—

FALKLAND ISLANDS.—*Currents.*—Mariners are warned that during and after long continued South Easterly gales, when a heavy sea is rolling in on the South and South-East coasts of the Falkland Islands, there is stated to be a strong set to the North-Westward, to which set has been attributed the loss of several vessels in the neighbourhood of Bull point. Vessels from Cape Horn, therefore, intending to sight Beauchêne island, should make due allowance against a possible set of 20 to 30 miles a day to the North-Westward.

ICE.—With reference to Admiralty Notice to Mariners No. 206 of 1894, and to previous Notices, respecting the large number of ice islands and bergs reported in the South Atlantic to the North-Eastward of the Falkland Islands:—Further notice is now given that the extraordinary accumulation of icebergs in this area appears to have been dispersed. It appears therefore unnecessary to continue to issue a special Notice warning Mariners of the abnormal condition of ice in this region, as the ordinary cautions in the Passage Book; page 57 in South America Pilot, part I, pages 36 and 37 and foot notes; and at page 33 of South America Pilot, part II, 1895, are amply sufficient to warn the seaman to avoid the area at all times, if practicable. Icebergs are still being reported off Cape Horn. *Note.*—This Notice has no reference to ice in Southern Indian Ocean, where bergs have been recently reported as far North as 42° South, and where consequently a Northern route is advisable. *April.*

On 4th January, 1896, the "*Zuleika*" reports having passed a large berg in 56° 17' S., 65° 42' W.; on 5th January another berg, in 54° 58' South, 62° 19' West; and on 6th January, another, in 53° 36' South, 58° 39' West. *May.*

On 4th January, 1896, the "*Lord Templemore*" reports having passed an iceberg and several small flocs in 55° 37' South, 62° 3' West. *April.*

On 9th January, 1896, the "*Loch Garry*" reports having passed a large berg in 53° 27' South, 61° 48' West, about 80 miles South, 73° East, from Cape St. John, East, end of Staten island; also several detached pieces were seen to leeward. *April.*

On 12th January, 1896, the barque "*Seastern*" reports having passed 2 large bergs in 55° 49' North, 58° 13' West. *April.*

MAGELLAN STRAIT, &c.

EVANGELISTAS (ISLS. OF DIRECTION).—A Light-House is in course of construction in 52° 24' South, 75° 6' West, on these islands, Western entrance to Magellan strait, and the Light may be exhibited before the end of 1896. *April.*

SMYTH CHANNEL.—A small beacon is established in 52° 15' 25" South, 73° 41' West, on Low island, Fortune bay, East coast of Baverstock island, and there is no beacon on Francis islet, *see* South America Pilot, part II, 1895, page 208. *March.*

HAVANNAH PORT.—A Light-House is to be constructed in 53° 10' South, 73° 15 $\frac{1}{4}$ ' West, on the point, Western end of Cordova peninsula, and the Light may be exhibited before the end of 1896. *April.*

ABRA CHANNEL.—A rock, carrying 1 $\frac{1}{2}$ fms., and well marked by kelp, lies in approximately 53° 24' 55" South, 73° 12' West, in the fairway of Abra channel, with centre of Maycock island. North, 76° West, $\frac{3}{4}$ mile, and summit of Francis island, North 11° E. *March.*

ENGLISH NARROWS.—As in passing through English narrows it is advisable to wait for slack tide, and as, consequently vessels bound in opposite directions (being unable to see each other) might meet in the critical part of the Channel; it has been arranged between certain Companies, whose vessels constantly use the inner Patagonian route, that when nearing the English Narrows ships should either fire a gun or sound their steam whistles; and that should vessels bound North meet vessels bound in the opposite direction, the ships bound North shall wait until the Southward-bound vessels have cleared the Narrows. As this appears to be a prudent course to adopt in view of the difficult navigation and limited time of slack water, all Mariners should regulate their movements in accordance with it. A note to the above effect has been placed on the Admiralty Charts. *May.*

The following extracts from the Board of Trade "Notice to Mariners" dated, May, 1896, are published for general information.

By Command,

F. GRAINGER-HALFORD,

Colonial Secretary.

Colonial Secretary's Office,

July, 1896.

SPECIAL WARNING TO MARINERS:—

FALKLAND ISLANDS.—Currents.—Mariners are warned that during and after long continued South Easterly gales, when a heavy sea is rolling in on the South and South-East coasts of the Falkland Islands, there is stated to be a strong set to the North-Westward, to which set has been attributed the loss of several vessels in the neighbourhood of Bull point. Vessels from Cape Horn, therefore, intending to sight Beauchêne island, should make due allowance against a possible set of 20 to 30 miles a day to the North-Westward.

ICE.—With reference to Admiralty Notice to Mariners, No. 206 of 1894, and to previous Notices, respecting the large number of ice islands and bergs reported in the South Atlantic to the North-Eastward of the Falkland Islands:—Further notice is now given that the extraordinary accumulation of icebergs in this area appears to have been dispersed. It appears therefore unnecessary to continue to issue a special Notice warning Mariners of the abnormal condition of ice in this region, as the ordinary cautions in the Passage Book: page 57 in South America Pilot, part I, pages 36 and 37 and foot notes; and at page 33 of South America Pilot, part II, 1895, are amply sufficient to warn the seaman to avoid the area at all times if practicable. Icebergs are still being reported off Cape Horn. *Note.*—This Notice has no reference to ice in Southern Indian Ocean, where bergs have been recently reported as far North as 42° South, and where consequently a Northern route is advisable. *April.*

On 4th January, 1896, the "*Zuleika*" reports having passed a large berg, in 56° 17' S., 65° 42' W.; on 5th January another berg, in 54° 58' South, 62° 19' West; and on 6th January, another, in 53° 36' South, 58° 89' West. *May.*

On 4th January, 1896, the "*Lord Templemore*" reports having passed an iceberg and several small flocs in 55° 37' South, 62° 8' West. *April.*

On 9th January, 1896, the "*Lock Garry*" reports having passed a large berg in 55° 27' South, 61° 48' West, about 30 miles South, 73° East, from Cape St. John, East, end of Staten island; also several detached pieces were seen to leeward. *April.*

On 12th January, 1896, the barque "*Seastern*" reports having passed 2 large bergs in 55° 49' North, 58° 13' West. *April.*

MAGELLAN STRAIT, &c.

EVANGELISTAS (ISLS. OF DIRECTION).—A Light-House is in course of construction in 52° 24' South, 75° 6' West, on these islands, Western entrance to Magellan strait, and the Light may be exhibited before the end of 1896. *April.*

SMYTH CHANNEL.—A small beacon is established in 52° 15' 25" South, 73° 41' West, on Low island, Fortune bay, East coast of Baverstock island, and there is no beacon on Francis islet, see South America Pilot, part II, 1895, page 208. *March.*

HAVANNAH PORT.—A Light-House is to be constructed in 53° 10' South, 73° 18 $\frac{3}{4}$ ' West, on the point, Western end of Cordova peninsula, and the Light may be exhibited before the end of 1896. *April.*

ABRA CHANNEL.—A rock, carrying 1 $\frac{1}{2}$ fms., and well marked by kelp, lies in approximo 53° 24' 55" South, 73° 12' West, in the fairway of Abra channel, with centre of Maycock island. North, 76° West, $\frac{3}{4}$ mile, and summit of Francis island, North 11° E. *March.*

ENGLISH NARROWS.—As in passing through English narrows it is advisable to wait for slack tide, and as, consequently vessels bound in opposite directions (being unable to see each other) might meet in the critical part of the Channel; it has been arranged between certain Companies, whose vessels constantly use the inner Patagonian route, that when nearing the English Narrows ships should either fire a gun or sound their steam whistles; and that should vessels bound North meet vessels bound in the opposite direction, the ships bound North shall wait until the Southward-bound vessels have cleared the Narrows. As this appears to be a prudent course to adopt in view of the difficult navigation and limited time of slack water, all Mariners should regulate their movements in accordance with it. A note to the above effect has been placed on the Admiralty Charts. *May.*

DAWSON ISLAND.—A rock carrying 5 fathoms and marked by kelp, lies in approximo 53° 51 $\frac{1}{4}$ ' South, 70° 26 $\frac{3}{4}$ ' West, in the middle of Harriss bay, East side of the island, with Tree bluff, about South-East $\frac{1}{2}$ South, 1 $\frac{1}{2}$ miles, and Offing island, North-East by North. A depth of 14 fathoms was found in the Northern part of the bay. *April.*

CAPE ORANGE.—A pyramid white beacon, 36 feet high, surmounted by 2 red baskets, is established in 52° 28' 40" South, 69° 22' 40" West, on the summit of the Cape. *May.*

CAPE POSSESSION.—The pyramid beacon in 52° 18' South, 68° 56' 35" West, on the cape, is now red and white horizon. *May.*

DUNGENESS.—A Light-House is in course of construction in 52° 24' South, 68° 25 $\frac{3}{4}$ ' West, on Dungeness, Eastern entrance to Magellan strait, and the Light may be exhibited before the end of 1896. *April.*

ICE.—With reference to Admiralty Notice to Mariners, No. 206 of 1894, and to previous Notices, respecting the large number of ice islands and bergs reported in the South Atlantic to the North-Eastward of the Falkland Islands:—Further notice is now given that the extraordinary accumulation of icebergs in this area appears to have been dispersed. It appears therefore unnecessary to continue to issue a special Notice warning Mariners of the abnormal condition of ice in this region, as the ordinary cautions in the Passage Book; page 57 in South America Pilot, part I, pages 36 and 37 and foot notes; and at page 33 of South America Pilot, part II., 1895, are amply sufficient to warn the seaman to avoid the area at all times if practicable. Icebergs are still being reported off Cape Horn. *Note.*—This Notice has no reference to ice in Southern Indian Ocean, where bergs have been recently reported as far North as 42° South, and where consequently a Northern route is advisable. *April.*

On 4th January, 1896, the "*Zuleika*" reports having passed a large berg, in 56° 17' S., 65° 42' W.; on 5th January another berg, in 54° 58' South, 62° 19' West; and on 6th January, another, in 53° 36' South, 58° 39' West. *May.*

On 4th January, 1896, the "*Lord Templemore*" reports having passed an iceberg and several small flocs in 55° 37' South, 62° 8' West. *April.*

On 9th January, 1896, the "*Loch Garry*" reports having passed a large berg in 55° 27' South, 61° 48' West, about 80 miles South, 73° East, from Cape St. John, East, end of Staten island; also several detached pieces were seen to leeward. *April.*

On 12th January, 1896, the barque "*Seestern*" reports having passed 2 large bergs in 55° 49' North, 58° 13' West. *April.*

MAGELLAN STRAIT, &c.

EVANGELISTAS (ISLS. OF DIRECTION).—A Light-House is in course of construction in 52° 24' South, 75° 6' West, on these islands, Western entrance to Magellan strait, and the Light may be exhibited before the end of 1896. *April.*

SMYTH CHANNEL.—A small beacon is established in 52° 15' 25" South, 73° 41' West, on Low island, Fortune bay, East coast of Baverstock island, and there is no beacon on Francis islet, see South America Pilot, part II, 1895, page 209. *March.*

HAVANNAH PORT.—A Light-House is to be constructed in 53° 10' South, 73° 18 $\frac{1}{2}$ ' West, on the point, Western end of Cordova peninsula, and the Light may be exhibited before the end of 1896. *April.*

ABRA CHANNEL.—A rock, carrying 1 $\frac{1}{2}$ fms., and well marked by kelp, lies in approximo 53° 21' 55" South, 73° 12' West, in the fairway of Abra channel, with centre of Maycock island. North, 76° West, $\frac{3}{4}$ mile, and summit of Francis island, North 11° E. *March.*

ENGLISH NARROWS.—As in passing through English narrows it is advisable to wait for slack tide, and as consequently vessels bound in opposite directions (being unable to see each other) might meet in the critical part of the Channel; it has been arranged between certain Companies, whose vessels constantly use the inner Patagonian route, that when nearing the English Narrows ships should either fire a gun or sound their steam whistles; and that should vessels bound North meet vessels bound in the opposite direction, the ships bound North shall wait until the Southward-bound vessels have cleared the Narrows. As this appears to be a prudent course to adopt in view of the difficult navigation and limited time of slack water, all Mariners should regulate their movements in accordance with it. A note to the above effect has been placed on the Admiralty Charts. *May.*

DAWSON ISLAND.—A rock carrying 5 fathoms and marked by kelp, lies in approximo 53° 51 $\frac{1}{4}$ ' South, 70° 26 $\frac{1}{4}$ ' West, in the middle of Harriss bay, East side of the island, with Tree bluff, about South-East $\frac{1}{2}$ South, 1 $\frac{1}{2}$ miles, and Offing island, North-East by North. A depth of 14 fathoms was found in the Northern part of the bay. *April.*

CAPE ORANGE.—A pyramid white beacon, 36 feet high, surmounted by 2 red baskets, is established in 52° 28' 40" South, 69° 22' 40" West, on the summit of the Cape. *May.*

CAPE POSSESSION.—The pyramid beacon in 52° 18' South, 68° 56' 35" West, on the cape, is now red and white horizon. *May.*

DUNGENESS.—A Light-House is in course of construction in 52° 24' South, 68° 25 $\frac{3}{4}$ ' West, on Dungeness, Eastern entrance to Magellan strait, and the Light may be exhibited before the end of 1896. *April.*

Return prepared under Clause 3 of an Ordinance to amend the Scab Ordinance, 1895.

The following extracts from the Board of Trade "Notice to Mariners," dated, May, 1896, are published for general information.

By Command,

F. CRAIGIE-HALKETT,

Colonial Secretary.

Colonial Secretary's Office,
July, 1896.

SPECIAL WARNING TO MARINERS :—

FALKLAND ISLANDS.—*Currents.*—Mariners are warned that during and after long continued South Easterly gales, when a heavy sea is rolling in on the South and South-East coasts of the Falkland Islands, there is stated to be a strong set to the North-Westward, to which set has been attributed the loss of several vessels in the neighbourhood of Bull point. Vessels from Cape Horn, therefore, intending to sight Beauchêne island, should make due allowance against a possible set of 20 to 30 miles a day to the North-Westward.

ICE.—With reference to Admiralty Notice to Mariners, No. 206 of 1894, and to previous Notices, respecting the large number of ice islands and bergs reported in the South Atlantic to the North-Eastward of the Falkland Islands :—Further notice is now given that the extraordinary accumulation of icebergs in this area appears to have been dispersed. It appears therefore unnecessary to continue to issue a special Notice warning Mariners of the abnormal condition of ice in this region, as the ordinary cautions in the Passage Book; page 57 in South America Pilot, part I, pages 36 and 37 and foot notes; and at page 33 of South America Pilot, part II, 1895, are amply sufficient to warn the seaman to avoid the area at all times if practicable. Icebergs are still being reported off Cape Horn. *Note.*—This Notice has no reference to ice in Southern Indian Ocean, where bergs have been recently reported as far North as 42° South, and where consequently a Northern route is advisable. *April.*

On 4th January, 1896, the "*Zuleika*" reports having passed a large berg in 56° 17' S., 65° 42' W.; on 5th January another berg, in 54° 58' South, 62° 19' West; and on 6th January, another, in 53° 36' South, 58° 39' West. *May.*

On 4th January, 1896, the "*Lord Templemore*" reports having passed an iceberg and several small flocs in 55° 37' South, 62° 8' West. *April.*

On 9th January, 1896, the "*Lock Garry*" reports having passed a large berg in 53° 27' South, 61° 48' West, about 80 miles South, 73° East, from Cape St. John, East, end of Staten island; also several detached pieces were seen to leeward. *April.*

On 12th January, 1896, the barque "*Seestern*" reports having passed 2 large bergs in 55° 49' North, 58° 13' West. *April.*

MAGELLAN STRAIT, &c.

EVANGELISTAS (ISLS. OF DIRECTION).—A Light-House is in course of construction in 52° 24' South, 75° 6' West, on these islands, Western entrance to Magellan strait, and the Light may be exhibited before the end of 1896. *April.*

SMYTH CHANNEL.—A small beacon is established in 52° 15' 25" South, 73° 41' West, on Low island, Fortune bay, East coast of Baverstock island, and there is no beacon on Francis islet, *see* South America Pilot, part II, 1895, page 208. *March.*

HAVANNAH PORT.—A Light-House is to be constructed in 53° 10' South, 73° 18 $\frac{3}{4}$ ' West, on the point, Western end of Cordova peninsula, and the Light may be exhibited before the end of 1896. *April.*

ABRA CHANNEL.—A rock, carrying 1 $\frac{1}{2}$ fms., and well marked by kelp, lies in approximo 53° 24' 55" South, 73° 12' West, in the fairway of Abra channel, with centre of Maycock island. North, 76° West, $\frac{3}{4}$ mile, and summit of Francis island, North 11° E. *March.*

ENGLISH NARROWS.—As in passing through English narrows it is advisable to wait for slack tide, and as consequently vessels bound in opposite directions (being unable to see each other) might meet in the critical part of the Channel; it has been arranged between certain Companies, whose vessels constantly use the inner Patagonian route, that when nearing the English Narrows ships should either fire a gun or sound their steam whistles; and that should vessels bound North meet vessels bound in the opposite direction, the ships bound North shall wait until the Southward-bound vessels have cleared the Narrows. Whereas it is expedient to amend Ordinance No. 11 of 1882, and make further provisions thereto—

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council thereof, as follows:—

“Owner,” shall mean the owner, lessee, manager, or agent in charge of any Station.

1.—Any owner of a station may without a license sell liquor to shepherds and other employés, *bonâ fide*, in his own employment, provided such station be at a distance of not less than six miles from Stanley, or from any other Township which may be hereinafter proclaimed, and, provided that such liquor shall have been procured from some person duly licensed to sell liquor within the Colony. CHARLES W. HILL,
Official Administrator.

At a Meeting of the Legislative Council held on the 22nd July, 1896.

Present :

His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.

The Honourable F. Craigie-Halkett, Colonial Secretary.

" " A. E. Baillon.

" " S. Hamilton, Colonial Surgeon.

Absent :—

His Honour T. A. Thompson, Judge.

The Honourable J. J. Felton.

The Minutes of the previous Meeting were read and confirmed.

The Council resumed its consideration in Committee on an Ordinance entitled "An Ordinance to consolidate and amend the Laws relating to Customs Duties and Trade."

In the Schedule to the Ordinance Form No. 10 was re-numbered No. 2.

Form No. 2 was re-numbered No. 3 and substituted therefor.

Form No. 3 was re-numbered No. 6.

Form No. 5 was re-modelled and columns for "contents" and "value" introduced.

Form No. 6 was re-numbered No. 7.

" 7 " " 8.

" 8 " " 9.

" 9 " " 10.

In Clause 68, after the interpretation of "vessel" the following heading was inserted.

"Hulk" shall mean any vessel which has been condemned or dismantled.

Under the head of Exemptions, line 13, the words "when * * *" "shillings" in the 15th line were struck out.

On the Council resuming the Standing Orders were suspended and the Third Reading being duly moved by the Honourable the Colonial Secretary and seconded by the Honourable the Colonial Surgeon the Bill was read a Third time and passed.

Before moving the Council into Committee on an Ordinance entitled "An Ordinance to provide for the erection of Dividing Fences by the owners of adjoining lands." His Excellency informed the Council that in accordance with the decision arrived at in Committee this Bill had been referred to the Secretary of State, together with the various views expressed thereon by the Official and Unofficial Members and by the Legal Adviser, and would be recommitted for amendment as directed by the Secretary of State in his Despatch, which was read. Though the amendments proposed are those generally concurred in by the Official and Unofficial Members, His Excellency added that he did not desire to press the Bill forward without allowing the Unofficial Member to communicate the proposed alterations to any of the farmers, from some of whom the introduction of the Bill had emanated.

The Honourable Unofficial Member present asked that if time would not admit of his corresponding with the West Island farmers on the matter, the committal of the Bill might be postponed until he had gone through its provisions with those whom it might affect on the East.

The consideration of the Bill in Committee was consequently adjourned until Tuesday, the 28th instant.

The Ordinance to further amend the "Scab Ordinance, 1895" was withdrawn in accordance with the instructions received from the Secretary of State.

Read and Confirmed this 28th day of July, 1896,

(Signed)

ROGER TUCKFIELD GOLDSWORTHY,
Governor.

At a Meeting of the Legislative Council held on the 10th September, 1896.

Present :

His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.

The Honourable F. Craigie-Halkett, Colonial Secretary.

" " A. E. Baillon.

" " S. Hamilton, Colonial Surgeon.

Absent :—

His Honour T. A. Thompson, Judge.

The Honourable J. J. Felton.

The Minutes of the previous Meeting were read and confirmed.

His Excellency took charge, for the Colonial Secretary, of the Bill entitled "Customs Ordinance Amendment Ordinance, 1896."

On the motion for the Introduction and First reading of the Bill, seconded by the Honourable the Colonial Surgeon, the same was read by title.

The Standing Orders being suspended, His Excellency moved the Second reading and going into Committee on the Bill, seconded by the Honourable the Colonial Surgeon.

His Excellency explained to the Council that Clause 1 of the proposed Bill was introduced to render the provisions of the Customs Law fully complete. It was not to be supposed that any bribe had been offered or taken, but it was merely intended to provide against any such contingency.

Clause 2 had been inserted owing to a case of breaking seals on board of a Coasting vessel with a cargo of seal-skins having come before the Court, and it was thought better to deal with such an offence more specifically than was provided in the principal Ordinance.

The following amendment was made in Committee, at the end of Clause 2, the words "one hundred pounds" were added.

The Council resumed.

On the Third reading being duly proposed by His Excellency, and seconded by the Honourable the Colonial Surgeon, the Bill was read a Third time and passed.

The Honourable the Colonial Secretary moved the Introduction and First reading of an Ordinance entitled "An Ordinance to provide for the service of the Colony of the Falkland Islands for the year 1897," seconded by the Honourable the Colonial Surgeon, the Bill was read a First time and passed.

The Standing Orders were suspended with a view to proceeding with the other stages of the Bill.

The Council being moved into Committee, the draft Estimates for the year 1897 were laid on the table for consideration.

In going through the various items the Honourable the Colonial Secretary explained the sums to be appropriated, and pointed out where they differed from those voted for the present year.

Under Vote 10 "Medical" The Honourable Unofficial Member desired his dissent recorded to the extra tax £50 under the sub-head Inspector of Nuisances, which was proposed to be granted to the Assistant Colonial Surgeon for purposes of sanitary supervision on the West Island, unless the salary of the Stipendiary Magistrate on the West under Vote 7 "Legal" was reduced by the same amount, as he considered the holder of this latter appointment a useless and expensive Official.

Vote 12, Ecclesiastical. The sum of £8 for fuel for Church of England was struck out, it being unanimously considered better, and to be consistent, to withdraw the amount from the Church of England than to insert a similar item for the Churches of each of the other denominations.

Under Vote 17, Public Works. On referring to this vote His Excellency called attention to the amounts voted annually under this head and to the still general unsatisfactory condition of Government buildings and roads, and added that it was his intention to recommend a scheme to the Secretary of State for the future outlay on Public works, under which a loan, say of £12,000 should be obtained from Government funds for the erection of new buildings and for the entire re-construction of public roads. The re-payment of the same would be extended over a period of years and be less expensive than the annual cost now incurred on the maintenance of existing buildings and on the repairs to roads by small sections.

The Honourable Unofficial Member compared the actual expenditure on these works in 1895 with that estimated, and feared from a reference to even the expenditure for March quarter, that the amount voted for the present year would be again largely exceeded. It was explained that the cost of labour would not allow of the expenditure being kept down and was the primary cause of these excesses, and that there was work which would be badly required to be done after this winter, but the want of means would not allow of it this year.

The Honourable Unofficial Member agreed as to the price of labour being very expensive, but would ask, before recording his vote, to be allowed to see the items of the expenditure on this service up to the latest date.

The Bill was then left in Committee.

On the Council resuming, the Ordinance entitled "An Ordinance to amend the Licensing Ordinance, 1882," passed at the last Meeting of the Council, was referred back to Committee, when the following addenda being adopted were inserted in the original Bill as Clauses 5, 6 & 7.

5.—It shall not be lawful for any licensed dealer to sell by wholesale or retail any spirits of less strength than 27 under proof under a penalty upon conviction for each offence not exceeding £20.

6.—It shall be lawful for any constable to enter upon any premises where liquor is kept or stored for the purposes of sale and take samples of any such liquor to be tested, and any person refusing so to furnish liquor required with this object, or who may interfere with, impede, resist or obstruct the officer in the discharge of this duty shall be liable to a penalty for each offence not exceeding £50.

7.—It shall be lawful for the Governor in Council from time to time to make, alter, annul and revoke Rules and Regulations as may seem requisite for the more effective carrying into effect the provisions of the principal Ordinance 11 of 1882.

Clauses 5, 6 & 7 of the original Bill were re-numbered 8, 9 & 10.

The Council adjourned.

Read and Confirmed this 12th day of September, 1896.

The Honourable J. J. Felton.

The Minutes of the previous Meeting were read and confirmed.

The Council resumed its consideration in Committee of the Draft Estimates for 1897.

Under the head 17, "Public Works."

The Honourable unofficial Member present stated that he found on perusing the accounts for the present year that certain items under this vote had already been exceeded.

His Excellency referred to the remarks on this subject at the last Meeting of the Council, and mentioned that it was his intention to appoint a Committee to consider the best means of carrying out the necessary work and obtaining an estimate therefor under a scheme as suggested. His Excellency instanced the cost of two chimneys recently erected at Government House for over £22.

The Honourable unofficial Member admitted the difficulties of control over the cost of work, and was willing to vote for the sum of £970 on this head, provided an undertaking were given that when that amount was reached the Council might be informed thereof.

The unofficial Member was reminded that this information could be obtained from the published Quarterly Returns, and that the Government was always anxious to keep the Council informed of any probable excess so that when any vote was likely to be exceeded further funds might when necessary be applied for.

The vote was then agreed to.

The Estimates as amended, with a total of £12,102, which were inserted in Clauses 1, 2 & 3 in the Bill were voted.

On the Council resuming the Honourable the Colonial Secretary, seconded by the Honourable the Colonial Surgeon, moved the Third Reading and passing of the Bill entitled "An Ordinance to provide for the Service of the Colony of the Falkland Islands "for the year 1897," which being duly carried the Bill was read a Third time and passed.

His Honour T. A. Thompson, Judge.

The Honourable F. Craigie-Halkett, Colonial Secretary.

ABSENT:

The Honourable A. E. Baillon.

The Minutes of the previous Meeting were read and confirmed.

Papers connected with the construction of a pier in reply to a request by the Honourable Unofficial Members for information as to the proposed project were laid before the Council.

The Honourable the Colonial Surgeon entered the Council Chamber.

Before the Introduction and First Reading of a Bill entitled "An Ordinance to consolidate and amend the Laws relating to Customs duties and trade," His Honour the Judge explained that the necessity for the drafting of the Bill anew arose from certain inaccuracies having been discovered in Ordinance 5 of 1896, but that it was proposed to leave the Bill in Committee until the Secretary of State's decision on the Customs Amendment Ordinance 8 of 1896 were received, so that, with a view to consolidation, its provisions could also be inserted in the present draft Law.

The Standing Orders were suspended to allow of the Bill being passed through its stages as far as practicable.

His Honour the Judge then moved the Introduction and First Reading of the Bill, seconded by the Honourable the Colonial Secretary.

The Bill was read by title.

The Second Reading and going into Committee on the Bill being duly moved by His Honour the Judge and seconded by the Honourable the Colonial Secretary.

Clauses 7, 8, 9, 11, 12, 18, 19, 22, 42, 53, 68, 69 and the Tariff, which varied from those of the repealed law, were read *serialim* and passed.

Clause 1 was held over for consideration with the Secretary of State's decision on Ordinance 8 of 1896.

The remaining clauses being similar to Ordinance No. 5 of 1896 were taken as read.

The Bill was left in Committee.

Read and Confirmed this 30th day of December, 1893.

At a Meeting of the Legislative Council held on the 30th December, 1893.

Present :

His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.

His Honour T. A. Thompson, Judge.

The Honourable F. Craigie-Halkett, Colonial Secretary.

" " S. Hamilton, Colonial Surgeon.

" " A. E. Baillon.

" " J. J. Felton.

The Minutes of the previous Meeting were read and confirmed.

His Excellency informed the Members that he had summoned the Council to ask for a vote from General Revenue, to be ultimately recovered from Crown Land Funds, to meet expenses on the survey of the proposed pier and also to lay on the table a Memorial to the Secretary of State from the unofficial Members, protesting against the construction of such a pier, certain statements in which, His Excellency stated, were not altogether correct and would, with the gross exaggerations which it also contained, be pointed out to the Secretary of State.

The Honourable A. E. Baillon here informed the Council that a copy of the Memorial had already been forwarded direct to the Under Secretary of State by the last Mail on the 12th instant.

To this action His Excellency expressed his strong disapproval and deprecated the course adopted by the unofficial Members of the Council in addressing such a document direct without his knowledge, or even a reference made thereto when the Memorial was forwarded to the Government for transmission to the Secretary of State on the 20th instant, 17 days after the Memorial had been despatched.

In order to remove the wrong impressions from the minds of the unofficial Members His Excellency reviewed the statements contained in the Memorial.

With regard to the employment of local labour, that would be a matter to be decided by the contractors in England, who would also devise such a construction as would withstand the strain of vessels moored alongside.

The facility to be afforded by the landing of goods direct, on to the jetty, was in itself so apparent as to sufficiently controvert the statement that such a method would not be so expeditious as the discharge first of all into a lighter.

The assertion that the original cost would not be less than £25,000, with annual expenses of £2000 was far wide of that estimated, namely £10,000, while the interest and sinking fund together with the expense of maintenance would be covered by the dues to be received by Government at rates lower than 15/- and 16/- a ton as at present charged for lighterage, but which figures could not be reconciled with 2/6 or 3/6 a ton as quoted in the Memorial. The men thrown out of employment by the disuse of lighters could find employment in the landing and transit of goods across the pier without fear of families being reduced almost to destitution.

Mr. Stanley's despatch of 12th October, 1885, No. 12, which was read, shows that the application of the purchase money of the foreshore in Stanley would be a matter for consideration at a future date and not as stated in the Memorial.

The proposed pier of 800 feet is intended to extend into 22 feet of water, but it is more probable that after the Surveyor's reports are completed it will be found that a length of 630 feet, with a depth of 20 feet 9 inches where the bottom is soft mud, would meet all present requirements.

This length would not bring the pier a quarter of the way across the harbour and would not impede navigation as feared by the Memorialists from it being carried $\frac{2}{3}$ the distance.

His Excellency in conclusion could not but consider that the Memorial was directed personally against himself and the action taken by him with regard to the public works during his tenure of office. The disgraceful condition in which he found the buildings, roads, &c., on his arrival, necessitated heavy expenditure of money. This money had not however been "squandered" but defrayed to meet the high price of labour. It was, His Excellency added, his wish to see the Colony in a fair state of advancement.

The Honourable J. J. Felton questioned the interpretation put by His Excellency on the Memorial stating that it was sent home by the first opportunity because it was uncertain when the information promised would be laid before them. He could not see the advantage or actual necessity of the work as the landing of cargo in small quantities would be more expensive than at present. He was in favour of the jetty being extended into 10 feet of water as much delay must ensue if steamers come alongside where they can discharge only on one side, while the expense to the importer cannot be lessened if landing, warehouse and

shipping dues are levied. At present the bulk of imports being for re-exportation to the out-stations are discharged into lighters where they remain until the schooner runs alongside for transshipping the goods. If this course were to be changed, station-holders would import goods direct to their stations by sailing vessels. If the rates to be levied were on a basis which would compare favourably with the present charges of the Falkland Islands Company there would be no objection, but until such were shown to be the case the Honourable Member adhered to the statements contained in the Memorial.

His Excellency stated that he would be very happy to obtain the views of the community as to the charges to be levied, but as the extension of the jetty into 10 feet of water would not do away with the cost of lighterage, dues could not be charged and the work would not be a reproductive one. For the protection of the revenue Customs Officers would have to be posted at outstations if goods were imported direct, the maintenance of whom would bear very heavily on the community.

The Honourable A. E. Baillon indignantly but respectfully repudiated His Excellency's assertions. It was due to the absence of any estimate of the cost of the proposed work or of any scheme for its maintenance that the Memorial was sent home direct. The Honourable Member did not think any advantage was to be derived to the general community by the project, and always understood that no money was to be expended without a vote. In any case he considered that the opinions of experts carrying on mercantile business locally should have been taken and should have more weight than the opinions which he knew had been received from Captains of H. M.'s ships who visited this port.

The Honourable the Colonial Secretary then moved the following resolution :

Resolved that a sum of £500 be appropriated to cover advances required to meet expenditure involved in operations undertaken by the sanction of the Secretary of State in connection with a new proposed pier in Stanley Harbour, until such advances are repaid as approved by the Secretary of State from funds arising from the sale of Crown lands in the Colony.

In seconding the Resolution His Honour the Judge remarked that though he had not seen the papers on the subject he was in favour of a pier alongside of which vessels could go in preference to a shorter one. Wrong impressions had been formed by the Memorialists, but His Honour thought it very desirable that the cost of a pier should be ascertained on the basis of soundings. A vote for the expenses of which was all that was now asked, and this expenditure was to be defrayed from Crown funds over which the Secretary of State had complete control.

As this work had been authorized by the Right Honourable the Secretary of State, His Excellency asked the unofficial Members to pay that deference due to the Secretary of State, the present vote being for an advance only from general revenue to be refunded from Crown Land Funds.

The Council divided.

FOR:—His Honour the Judge. The Honourables Colonial Secretary. Colonial Surgeon.

AGAINST:—The Honourables J. J. Felton. A. E. Baillon.

His Excellency said he had been hopeful of obtaining the unofficial Members' vote in favour of the Resolution looking to the information now before them which contained the Secretary of State's views and also to that furnished at the last Meeting of the Council. As the Memorial had been framed before the receipt of this information though not forwarded to the Government until after it was placed in their hands. His Excellency asked if the Memorialists wished to add any rider to it; the unofficial Members were understood to answer in the negative.

Read and Confirmed this 20th day of February, 1897.

At a Meeting of the Legislative Council held on the 20th February 1897.

Present :

His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.

His Honour T. A. Thompson, Judge.

The Honourable F. Craigie-Halkett, Colonial Secretary.

" " S. Hamilton, Colonial Surgeon.

" " J. J. Felton.

" " A. E. Baillon.

The Minutes of the previous Meeting were read and confirmed.

His Honour the Judge moved the Introduction and First reading of an Ordinance entitled "An Ordinance to further amend the Scab Ordinance, 1895." Seconded by the Honourable the Colonial Surgeon.

The Bill was read by title.

The Standing Orders were suspended with a view to the Bill being proceeded with.

On His Honour moving the Second reading of the Bill and explaining the principles of the Bill, the Honourable Colonial Surgeon seconded and the Council resolved itself into Committee on the Bill.

In Clause 1 the Honourable J. J. Felton moved that the words "not exceeding two-pence" should be substituted for the word "not less than one half-penny and not more than two-pence," so that the amount of the penalty might be left to the Magistrate, which he thought was the intention of Clause 17 of the original Ordinance by the reading of the word "liable."

The proposed amendments he added, made it imperative on the Magistrate to inflict a heavy penalty, even though it might be proved that scab was carried maliciously amongst a man's flocks.

His Excellency said that if such happened it would be competent for the Magistrate to forward the case for the consideration of the Executive.

His Honour was of the opinion that whilst a certain amount of discretion should be left to the Magistrate there should be a fixed minimum penalty.

On the motion for the amendment being put :—

FOR:—The Honourables J. J. Felton. A. E. Baillon.

AGAINST:—His Honour the Judge. The Honourables Colonial Secretary, Colonial Surgeon.

The Clause stood as drafted.

Clause 2 and 3 passed without amendment.

Clause 4, the Honourable J. J. Felton contended would compel every sheep on the station to be branded, as the Inspector had ruled that a fence was no barrier and consequently if one flock were infected the flocks on the whole station would have to be branded.

It was explained that the clause referred only to a flock in which scab was discovered and could not be applied to all the sheep on the station. The clause was a step towards bringing about the separation of flocks and so to lessen the severity of the act.

In line 3 after the word "back" the words "or on such other part of the sheep as may be ordered by the Inspector" were inserted.

Reference was made to the substance to be used in branding and it was suggested that as this would diminish the value of wool, some other word than "S" should be made which could be placed upon, for instance, the face. It was decided to refer the matter to the Inspector.

The Honourable J. J. Felton was also in favour of a maximum say of £100 fine being fixed both in this clause and in clause 1, and added that no Inspector could make oath of the actual number of sheep on which the fine should be levied.

It was pointed out to the Honourable Member that in such a case the man creating scab would be no more heavily penalized than the farmer who had done his best to eradicate it, and in so far as the declaration was concerned the number of sheep was declared to by the farmer himself, though it as much depended on the Inspector to obtain as accurate returns as possible of the number of sheep in the flock.

The clause stood as amended in line 3.

The word "further" was inserted in the title page.

On the Council resuming, His Honour moved the Third reading and passing of the Bill, which being duly seconded by the Honourable the Colonial Surgeon, the Bill was read a Third time and passed.

Read and Confirmed this 19th day of March, 1897.

8.—This Ordinance shall be construed with and form part of “The Public Health Ordinance 1894.”

At a Meeting of the Legislative Council held on the 19th March, 1897.

Present :

His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.

His Honour T. A. Thompson, Judge.

The Honourable F. Craigie-Halkett, Colonial Secretary.

" " S. Hamilton, Colonial Surgeon.

" " J. J. Felton.

" " A. E. Baillon.

The Minutes of the previous Meeting were read, amended and confirmed.

With reference to the minutes of the last Meeting, the opinion of the Acting Stock Inspector that tar was not used in the Colony for the branding of sheep, and that "raddle and oil" which were in use was not injurious to wool, was read.

The Honourable the Colonial Secretary moved the Introduction and First reading of an Ordinance entitled "An Ordinance to make further provision for the Service of the Colony of the Falkland Islands for the year 1896," seconded by the Honourable the Colonial Surgeon.

The Standing Orders having been suspended, the Honourable the Colonial Secretary, seconded by the Honourable the Colonial Surgeon, moved the Second reading and going into Committee on the Bill. The Honourable the Colonial Secretary explained the causes for the excesses on the several votes.

The Honourable J. J. Felton said that, though it was useless to record his vote as the Unofficial Members were bound to vote together, and formed a majority, and also that as it was a matter of indifference to His Excellency, who had stated that he could always pass any measure by the majority of the official vote, he wished to protest against the amount inserted against the Public Works vote.

His Excellency informed the Unofficial Member that he had never made mention of such a fact as that stated. He had drawn attention that in a Crown Colony the Government holds the majority of the votes in its hands, and administers for the good of the Colony which is not ripe for a representative Assembly. His Excellency took strong exception to the Honourable Member's manner which was and had been a persistent personal opposition to himself rather than one directed toward the welfare of the Colony.

The Honourable the Colonial Secretary stated that the Honourable Member was mistaken in what he had said.

The Honourable Member said he would take the liberty given him of protesting against the vote, and asked that what he had said might be recorded on the minutes, adding, though the word indifference may not have been used by His Excellency, an expression to that effect had been.

The Honourable Member objected to the expenditure of that portion now inserted under the head "Public Works" which had not been voted by the Council, and referred to the Secretary of State's despatch on that subject.

On the question being put Clause 1 was passed without amendment.

There was no discussion on Clause 2.

On the Council resuming, the Honourable the Colonial Secretary, seconded by the Honourable the Colonial Surgeon, moved the Third reading and passing of the Bill, when the Bill was read a Third time and passed.

Read and Confirmed this 15th day of April, 1897.

ROGER TUCKFIELD GOLDSWORTHY,
Governor.

CHARLES W. HILL,
Acting Treasurer.

At a Meeting of the Legislative Council held on the 15th April, 1897.

Present :

His Excellency Sir Roger Tuckfield Goldsworthy, K.C.M.G., Governor.

His Honour T. A. Thompson, Judge.

The Honourable F. Craigie-Halkett, Colonial Secretary.

" " S. Hamilton, Colonial Surgeon.

ABSENT :

The Honourable J. J. Felton.

" " A. E. Baillon.

The Minutes of the previous Meeting were read and confirmed.

Owing to the absence of the Unofficial Members of Council, one on the plea of illness, the other through pressure of business, His Excellency left it to the Official Members to determine whether they should proceed to the despatch of business.

As the Orders of the Day only contained the consideration of a Bill which had been left in Committee on the 23rd December, and had been approved by the Secretary of State with some slight amendments, the Members, being a quorum, were unanimous in considering that it would be unnecessary to adjourn the Meeting.

The Council then resolved itself into Committee for the consideration of the Bill entitled "An Ordinance to consolidate and amend the Laws relating to Customs Duties and Trade."

Clause 1, which was left in Committee on the 23rd December, was inserted and ran as follows :

1.—From and after the coming into operation of this Ordinance all Ordinances relating to Customs Duties and Trade are hereby repealed, and from henceforth there shall be raised, levied, collected and paid, unto Her Majesty, her heirs and successors, for the use of this Colony, the several duties of Customs in the "Tariff of Import Duties" in the Schedule hereto.

Cause 63 was deleted and re-enacted as follows :

63.—Any Officer of Customs who shall take or accept any fee, gratuity, reward or perquisite, directly or indirectly, for the neglect or non-performance of his duty, and any person who shall promise, give, or offer, or procure to be given, to an Officer of Customs any such fee, gratuity, reward or perquisite, shall be liable to a penalty not exceeding £100.

Clause 71. The sub-heading "Uncustomed goods" was struck out.

The Council having resumed, and the Standing Orders suspended, His Honour moved the Third reading and passing of the Bill, Seconded by the Honourable the Colonial Surgeon.

The Bill was read a Third time and passed.

His Excellency then took leave of the Council.

Read and Confirmed this 17th day of May, 1897.

BY THE QUEEN. A PROCLAMATION.

VICTORIA, R.

WHEREAS We are happily at Peace with all Sovereigns, Powers, and States :

And whereas, notwithstanding Our utmost exertions to preserve Peace between the two Sovereign Powers, a State of War unhappily exists between His Imperial Majesty the Sultan of Turkey and His Majesty the King of the Hellenes, and between their respective Subjects and others inhabiting within their Countries, Territories, or Dominions :

And whereas We are on Terms of Friendship and amicable intercourse with each of these Sovereigns, and with their several Subjects and others inhabiting within their Countries, Territories, or Dominions :

And whereas great numbers of Our loyal Subjects reside and carry on Commerce, and possess Property and Establishments, and enjoy various rights and privileges, within the Dominions of each of the aforesaid Sovereigns, protected by the faith of Treaties between Us and each of the aforesaid Sovereigns :

And whereas We, being desirous of preserving to our Subjects the Blessings of Peace, which they now happily enjoy, are firmly purposed and determined to maintain a strict and impartial Neutrality in the said State of War unhappily existing between the aforesaid Sovereigns :

We, therefore, have thought fit, by and with the advice of Our Privy Council, to issue this Our Royal Proclamation :

And We do hereby strictly charge and command all Our loving Subjects to govern themselves accordingly, and to observe a strict Neutrality in and during the aforesaid War, and to abstain from violating or contravening either the Laws and Statutes of the Realm in this behalf, or the Law of Nations in relation thereto, as they will answer to the contrary at their peril ;

"(1.) Every person engaged in such preparation or fitting out or assisting therein, or employed in any capacity in such expedition, shall be guilty of an offence against this Act, and shall be punishable by fine and imprisonment, or either of such punishments, at the discretion of the Court before which the offender is convicted; and imprisonment, if awarded, may be either with or without hard labour.

"(2.) All Ships and their equipments, and all Arms and Munitions of War, used in or forming part of such expedition, shall be forfeited to Her Majesty.

"Any person who aids, abets, counsels, or procures the Commission of any offence against this Act shall be liable to be tried and punished as a principle offender."

And whereas by the said Act it is further provided that ships built, commissioned, equipped, or despatched in contravention of the said Act, may be condemned and forfeited by Judgment of the Court of Admiralty; and that if the Secretary of State or Chief Executive Authority is satisfied that there is a reasonable and probable cause for believing that a Ship within Our Dominions has been or is being built, commissioned, or equipped, contrary to the said Act, and is about to be taken beyond the limits of such Dominions, or that a Ship is about to be despatched contrary to the Act, such Secretary of State, or Chief Executive Authority, shall have power to issue a Warrant authorizing the seizure and search of such Ship and her detention until she has been either condemned or released by process of law. And whereas certain powers of seizure and detention are conferred by the said Act on certain Local Authorities;

Now, in order that none of Our Subjects may unwarily render themselves liable to the penalties imposed by the said Statute, We do hereby strictly command that no person or persons whatsoever do commit any act, matter, or thing whatsoever contrary to the provisions of the said Statute, upon pain of the several penalties by the said Statute imposed, and of Our high displeasure.

And We do hereby further warn and admonish all Our loving subjects, and all persons whatsoever entitled to Our protection, to observe towards each of the aforesaid Sovereigns, their subjects and territories, and towards all belligerents whatsoever with whom we are at Peace, the duties of neutrality: and to respect, in all and each of them, the exercise of those Belligerent Rights which We and Our Royal Predecessors have always claimed to exercise.

And We hereby further warn all Our loving Subjects, and all persons whatsoever entitled to our protection, that if any of them shall presume, in contempt of this Our Royal Proclamation, and of Our high displeasure, to do any acts in derogation of their duty as subjects of a Neutral Sovereign in a War between other Sovereigns, or in violation or contravention of the Law of Nations in that behalf, as more especially by breaking, or endeavouring to break, any Blockade lawfully and actually established by or on behalf of either of the said Sovereigns, or by carrying Officers, Soldiers, Despatches, Arms, Ammunition, Military Stores or Materials, or any Article or Articles considered and deemed to be Contraband of War according to the Law or modern Usages of Nations, for the use or service of either of the said Sovereigns,

that all persons so offending, together with their ships and goods, will rightfully incur and be justly liable to hostile capture, and to the penalties denounced by the Law of Nations in that behalf.

And We do hereby give notice that all Our Subjects and Persons entitled to Our protection who may misconduct themselves in the premises will do so at their peril, and of their own wrong; and that they will in nowise obtain any protection from Us against such capture or such penalties as aforesaid, but will, on the contrary, incur Our high displeasure by such misconduct.

Given at Our Court at *Windsor*, this third day of *May*, in the year of our Lord one thousand eight hundred and ninety-seven, in the sixtieth year of Our reign.

GOD save the QUEEN.

MY LORDS,

HER Majesty being fully determined to observe the duties of neutrality during the existing state of war existing between His Imperial Majesty the Sultan of Turkey and His Majesty the King of the Hellenes, and being moreover resolved to prevent, as far as possible, the use of Her Majesty's harbours, ports, and coasts, and the waters within Her Majesty's territorial jurisdiction, in aid of the warlike purposes of either belligerent, has commanded me to communicate to your Lordships, for your guidance, the following rules, which are to be treated and enforced as Her Majesty's orders and directions:—

During the continuance of the present state of war, all ships of war of either belligerent are prohibited from making use of any port or roadstead in the United Kingdom, the Isle of Man, or the Channel Islands, or in any of Her Majesty's colonies or foreign possessions or dependencies, or of any waters subject to the territorial jurisdiction of the British Crown, as a station, or place of resort for any warlike purpose, or for the purpose of obtaining any facilities for warlike equipment; and no ship of war of either belligerent shall hereafter be permitted to sail out of or leave any port, roadstead, or waters subject to British jurisdiction, from which any vessel of the other belligerent (whether the same shall be a ship of war or a merchant ship) shall have previously departed, until after the expiration of at least twenty-four hours from the departure of such last-mentioned vessel beyond the territorial jurisdiction of Her Majesty.

2. If any ship of war of either belligerent shall, after the time when this Order shall be first notified and put in force in

the United Kingdom, the Isle of Man, and the Channel Islands, and in the several colonies and foreign possessions or dependencies of Her Majesty, respectively, enter any port, roadstead, or waters belonging to Her Majesty, either in the United Kingdom, the Isle of Man, or the Channel Islands, or in any of Her Majesty's colonies or foreign possessions or dependencies, such vessel shall be required to depart and to put to sea within twenty-four hours after her entrance into such port, roadstead, or waters, except in case of stress of weather, or of her requiring provisions or things necessary for the subsistence of her crew, or repairs; in either of which cases the authorities of the port, or of the nearest port (as the case may be), shall require her to put to sea as soon as possible after the expiration of such period of twenty-four hours, without permitting her to take in supplies beyond what may be necessary for her immediate use; and no such vessel which may have been allowed to remain within British waters for the purpose of repair shall continue in any such port, roadstead, or waters, for a longer period than twenty-four hours after her necessary repairs shall have been completed. Provided, nevertheless, that in all cases in which there shall be any vessel (whether ships of war or merchant ships) of the said belligerent parties in the same port, roadstead, or waters within the territorial jurisdiction of Her Majesty, there shall be an interval of not less than twenty-four hours between the departure thereof of any such vessel (whether a ship of war or merchant ship) of the one belligerent, and the subsequent departure therefrom of any ship of war of the other belligerent; and the time hereby limited for the departure of such ships of war respectively shall always, in case of necessity, be extended so far as may be requisite for giving effect to this proviso, but no further or otherwise.

3. No ship of war or either belligerent shall hereafter be permitted, while in any port, roadstead, or waters subject to the territorial jurisdiction of Her Majesty, to take in any supplies, except provisions and such other things as may be requisite for the subsistence of her crew, and except so much coal only as may be sufficient to carry such vessel to the nearest port of her own country, or to some nearer destination, and no coal shall be again supplied to any such ship of war in the same or any other port, roadstead, or waters subject to the territorial jurisdiction of Her Majesty, without special permission, until after the expiration of three months from the time when such coal may have been last supplied to her within British waters as aforesaid.

4. Armed ships of either party are interdicted from carrying prizes made by them into the ports, harbours, roadsteads, or waters of the United Kingdom, the Isle of Man, the Channel Islands, or any of Her Majesty's colonies or possessions abroad.

F. CRAIGIE-HALKETT,

At a Meeting of the Legislative Council held on the 17th May, 1897.

Present :

His Excellency F. Craigie-Halkett, Administrator.

The Honourable Charles W. Hill, Acting Colonial Secretary.

„ „ S. Hamilton, Colonial Surgeon.

„ „ J. J. Felton.

„ „ A. E. Baillon.

The Minutes of the previous Meeting were read and confirmed.

The Honourable the Colonial Surgeon moved the Introduction and First reading of an Ordinance entitled "An Ordinance to amend the Public Health Ordinance of 1894, and to make provision for a Board of Health for the West Falkland Islands," seconded by the Honourable the Acting Colonial Secretary.

The Bill was read by title.

The Standing Orders were suspended with a view to the Bill being proceeded with.

The Honourable the Colonial Surgeon moved the Second reading, seconded by the Honourable the Colonial Secretary.

The Council resolved itself into Committee on the Bill.

The Honourable J. J. Felton said he thought the measure was unnecessary and would hamper the work on the West and was quite premature, and that he should not vote in favour of it.

The Honourable A. E. Baillon said, before proceeding further he should like to ask His Excellency for any reasons for the Ordinance, as he thought that when the Council voted £50 a year for the Assistant Colonial Surgeon for Inspector of Nuisances, he thought that covered all purposes.

The Acting Colonial Secretary explained that there would be no extra expense in bringing in the Ordinance, that it would only be changing the title of Inspector of Nuisances to Health Officer, and that it was not contemplated to ask for more than the £50 already inserted in the Estimates.

The consideration of the Bill was continued, when the following amendments were made.

Clause 5, line 2. The words "Stipendiary Magistrate" were struck out and the words "Health Officer" inserted, and in line 3 the words "Health Officer" were struck out and the words "Stipendiary Magistrate" inserted.

The Honourable the Unofficial Members here laid great stress upon the objection of the Stipendiary Magistrate being Chairman of the Board while they had no objection to the Assistant Colonial Surgeon acting in that behalf.

On the question being put on each clause, that the clause be passed, the Unofficial Members desired their dissent to be recorded.

The Honourable the Colonial Surgeon moved that the Council do resume and also moved the Third Reading, which being duly seconded, the Bill was read a Third time and passed.

His Excellency said, that in view of the objection raised by the Honourable the Unofficial Members, he would hold the Ordinance back for further reference to the Secretary of State.

The Honourable the Acting Colonial Secretary then moved the following Resolution :—

"That a sum not exceeding £350 be appropriated as a special vote toward the repairs to and rebuilding of the Sea wall running parallel to the Northern fence of Government paddock.

The Honourable the Acting Colonial Secretary explained that the Vote for Public Works on the Estimates for the year had been small, that no special vote for Sea Walls had been granted, and that the sums voted for Public Works were needed for other works of necessity.

The Honourable A. E. Baillon asked if the Unofficial Members could see the tenders granting that it was a work of great necessity, and hoped that if they voted the sums they would not see the work given to incompetent persons, thereby needing it to be executed over again.

The action taken by the Executive was explained, and after some discussion as to the line the wall was to take the resolution was unanimously carried. At the same time the proposal that the wall be continued straight and land thereby reclaimed, with a view to the same being carried out at as small an increase as possible was also considered.

His Excellency then informed the Council that the necessity for better protection against fire had been brought prominently to his notice. It was considered very desirable that this need should be met by the purchase of a suitable Fire Engine, the details of costs, &c., were fully explained by His Excellency. After the different projects such as a Steam Fire Engine, Reservoirs, or a long trench on the hill with outlets at each street had been considered, the Honourable the Acting Colonial Secretary moved the following Resolution:

"That a sum not exceeding £1000 be, subject to approval of Secretary of State, appropriated as an advance from Land Sales Fund, to be repaid from a rate to be raised for the purpose of purchasing a suitable Fire Engine and outfit." The Resolution was unanimously carried.

The Honourable the Acting Colonial Secretary then moved the Introduction and First Reading of an Ordinance entitled "An Ordinance to raise a sum of money by a rate on house property in Stanley, and to provide for the application thereof," seconded by the Honourable the Colonial Surgeon.

The Bill was read by title.

As the Bill had not been published for general information the Honourable the Acting Colonial Secretary gave notice of the Second Reading at the next Meeting of Council.

Read and Confirmed this 9th day of June, 1897.

—:O:—

TO THE QUEEN'S MOST EXCELLENT MAJESTY.

MAY IT PLEASE YOUR MAJESTY:—

We, the Administrator and Members of the Executive and Legislative Councils of the Colony of the Falkland Islands, approach Your Majesty to offer to Your Most Gracious Majesty our cordial congratulations on the completion of the longest reign of any Sovereign recorded in the annals of British History.

In the year 1887 this Colony united in the general feeling of rejoicing with which during that year was proclaimed the welfare and prosperity resulting to the Nation after Your Majesty's noble career in the service of the Empire for a period of fifty years.

It is now with demonstrations of universal joy and signal happiness that this occasion marks a fresh impulse to the common spirit of national brotherhood and common loyalty to the person of Your Majesty and to the Crown; a feeling which, though borne silently across the seas from this the most Southern of Your Majesty's dominions, is a wave of enthusiasm from a Colony whose growth is contemporary with Your illustrious reign, and which shares the accumulated glory and privilege inherited from the expansion and development of the Empire.

That it may please Almighty God to prolong Your Majesty's beneficent sway is the fervent prayer of

Your dutiful and loyal subjects.

On behalf of the inhabitants of the Colony of the Falkland Islands,

Signed by,

The address has been laid before the Queen, and I am commanded to request that you will be so good as to convey to the Executive and Legislative Councils and to the inhabitants of the Falkland Islands the expression of Her Majesty's thanks for their message of loyalty and affection.

The Honourable the Colonial Surgeon moved for a postponement of the consideration of the Ordinance entitled, "An Ordinance to provide for the better protection of the Town of Stanley against Fire, and for the establishment of a Volunteer Fire Brigade," owing to the draft being still in the Printer's hands.

The Honourable the Acting Colonial Secretary before moving the following Resolution explained the reasons of excesses under Sub-heads A, B and C of Public Works Vote, up to 30th June, 1897, and laid before the Council statements showing the details.

After discussion, the Vote for £301 asked for, together with a further Vote of £300, namely, £120 under Sub-head A; £120 under B, and £60 under C, to admit of necessary works being carried on, were unanimously adopted.

SEA WALL.

The Honourable the Acting Colonial Secretary referring to previous Minutes of Meeting on the Sea Walls Vote for £350, mentioned that owing to the alteration of the line of the Wall and, also, to one of the Contractors having withdrawn his tender when he found he had estimated it at too low a figure, would necessitate a further Vote for this service. Such an amount was unable to be actually stated, but it was estimated it would not exceed £50, to which the Council concurred.

WILLIAM GREY-WILSON, Esquire,

Companion of the Most Distinguished Order of Saint Michael and Saint George,

GOVERNOR AND COMMANDER-IN-CHIEF.

AN ORDINANCE relating to the Promulgation and Construction of Ordinances; the Law in force in The Falkland Islands, and certain General Rules of Law and Procedure.

BE IT ENACTED by the Governor of the Colony of the Falkland Islands with the advice and consent of the Legislative Council thereof as follows:—

1.—The printing at the Government Printing Office, or by a duly authorized Printer of any duly enacted Ordinance of the Falkland Islands, or of any official document countersigned by the Colonial Secretary, or by any person duly authorized thereunto by the Governor shall be in Law a sufficient publication and promulgation of the same.

Legal Publication.

2.—Every Ordinance shall take effect on the day on which such Ordinance is sealed unless a contrary intention be expressed therein.

When Ordinance takes effect.

3.—Copies of existing Ordinances and of any Ordinances hereafter enacted printed at the Government Printing Office, or by any Printer duly authorized to print the same, shall be received as evidence of the passing and promulgation thereof in any Court of Civil or Criminal jurisdiction within this Colony: provided always that they are not at variance with the Record copies passed under the Seal of the Colony.

What copies are legal.

4.—The draft of every Ordinance shall be published in the Gazette and a copy thereof shall be affixed to the Notice Board in Stanley for the inspection of the Public for One Week before its introduction; and copies of every such Draft shall be purchasable from the Government Printer, or other person duly authorized to sell the same for such sum as the Governor may from time to time direct, not exceeding Three Pence for each page, and the purchaser of any such draft may, without further payment, demand from the seller so authorized, at any time within Six Months of such purchase and so soon as copies of the Ordinance are printed, a true copy of the Ordinance as passed: provided always that in any case in which the Governor in Council thinks it urgently necessary to dispense with such publication and public notification, and with the sale of such Draft he may do so.

Drafts to be published, posted, and may be bought.

Disallowance.	5.—An intimation of the disallowance by Her Majesty of any Ordinance shall be published in the Gazette, or in some local Newspaper.
All Ordinances may be inspected.	6.—A copy of every Ordinance shall be available for Public inspection during Office hours in the Court House or other place appointed by the Governor.
Rules, etc., to be recorded.	7.—Two copies of all Rules and General Orders made by the Governor or Governor in Council, shall be signed by the Governor, and one filed in the Supreme Court, and one in the Colonial Secretary's Office, and copies of all such Rules and Orders printed by order of the Government shall be received in evidence.
Repeals do not revive.	8.—Whenever any Ordinance repealing in whole or in part any former enactment is itself repealed, such last repeal shall not revive the enactment or part before repealed, unless words be added reviving such enactment or part.
Rules made may be revoked.	9.—When any person is empowered to make any Bye-Laws, Rules, Orders, or Regulations, or to fix any scale of Charges, Fees, or Fines, it shall be implied that such person may revoke, alter or vary the same from time to time as occasion may require, unless it shall appear from the terms used, that such power is intended to be exercised finally in the first instance.
When rules survive the repeal of an Ordinance.	10.—All Rules and Scales of Fees, Charges, or Fines, made or prescribed under any Act or Ordinance prior to its repeal, shall if the Repealing Ordinance provides for making Rules or prescribing scales of fees or charges, remain in force after such repeal until they are revoked or superseded by Rules or Scales of Fees or Charges made or prescribed under and by virtue of the Repealing Ordinance, and they may be read with such verbal alterations as may be required to make them applicable to the requirements of the Repealing Ordinance.
Rules, etc., as valid as Ordinances.	11.—All Rules, Regulations, Bye-Laws, General Orders made, and all scales of Fees, and Charges, prescribed under or by virtue of any Ordinance shall be binding in the same manner and to the same extent as if they formed part of such Ordinance, and shall be subject to disallowance by Her Majesty.
Who may arrest.	12.—Whenever it is provided by any Law that any person committing any offence may be taken into custody, and no person is specially empowered to make such arrest, it shall be lawful for any Constable, or for any other person duly authorized by the Governor in writing, to make such arrest.
Want of form does not invalidate.	13.—No Order, Judgment, Warrant, or other proceeding made or purporting to be made under or concerning the conviction or commitment of any offender shall be quashed or vacated for want of form only.
Errors do not invalidate.	14.—No process or proceeding shall be set aside on account of any verbal or technical error or mistake only, and it shall be competent for the Court to decide what is a verbal or technical error or mistake in any action or proceeding, and all errors or mistakes which are not calculated to misinform or mislead the opposite party shall in every instance be deemed merely verbal or technical.
Appointments.	15.—It shall be lawful for the Governor to appoint such persons as may be required to carry out the duties connected with any Ordinance save where any appointment is specially vested in some other person, and all appointments so made by the Governor shall be during pleasure only.

[3]

- 21.—The precedence of the members of any Commission of Enquiry or Board shall be determined by the dates of their appointment or when all are appointed on the same day by the order in which their names appear in the Gazette or instrument appointing them and unless otherwise specially provided the senior member shall be the chairman.

Treasury,

9th December, 1897.

Sir,

I have the honour to transmit herewith the Savings Bank Capital Account for the Year ended 30th September, 1897.

The transactions of the Bank from the date of its formation have been as follows:—

Year	Accounts opened.	Accounts closed.	Number of Deposits.	Number of Withdrawals	Amount of Deposits with accrued interest			Withdrawals.		
					£	s.	d.	£	s.	d.
1 April to 30th Sept., 1888	32	...	60	...	4201	1	5			
1888—1889.	67	7	150	37	13809	8	8	2871	5	10
1889—1890.	56	21	188	93	8972	7	4	6300	19	5
1890—1891.	70	30	256	182	8577	2	2	4760	1	6
1891—1892.	62	37	291	103	8668	5	9	5355	9	2
1892—1893.	60	32	250	112	11923	1	4	6790	3	5
1893—1894	68	38	325	123	10424	17	3	7817	0	11
1894—1895.	64	32	312	148	9355	6	4	7620	14	11
1895—1896.	59	31	387	123	9911	6	9½	7609	1	5½
1896—1897.	65	48	356	150	9662	11	1	8110	0	2
	603	276	2575	1071	95505	8	1½	57284	16	9½

The balance in hand of £38,270 11 4, is distributed amongst 327 Depositors, giving an average of £117 0 8 standing to the credit of each account or £19 2 8 per head of the population. These figures, after a period of ten years establishment, compare most favourably with other Colonies where, from the late Sir R. Giffen's 60 years statistics, South Australia heads the list with £7 10 0, per head of the population.

With the absence of other means of investing locally, unmixed good therefore has undoubtedly resulted from the introduction of the Savings Bank; the majority of the shepherds and labouring classes feeling that they can enjoy the security of the Bank and that years of thrift will not be lost to them have, as was anticipated, taken advantage in this way of making prudent provision for the future.

Far from throwing any charge on the public, the Savings Bank yields a profit which is sufficient to secure the Government against any risk of loss.

The income earned during the past Year was £1,199 8 10, the expenses incurred were £925 13 3, leaving a profit of £273 15 7.

I have the honour to be,

Sir,

Your obedient Servant,

CHARLES W. HILL,

Colonial Treasurer.

The balance in hand of £38,270 11 4, is distributed amongst 327 Depositors, giving an average of £117 0 8 standing to the credit of each account or £19 2 8 per head of the population. These figures, after a period of ten years establishment, compare most favourably with other Colonies where, from the late Sir R. Giffen's 60 years statistics, South Australia heads the list with £7 10 0, per head of the population.

With the absence of other means of investing locally, unmixed good therefore has undoubtedly resulted from the introduction of the Savings Bank; the majority of the shepherds and labouring classes feeling that they can enjoy the security of the Bank and that years of thrift will not be lost to them have, as was anticipated, taken advantage in this way of making prudent provision for the future.

Far from throwing any charge on the public, the Savings Bank yields a profit which is sufficient to secure the Government against any risk of loss.

The income earned during the past Year was £1,199 8 10, the expenses incurred were £925 13 3, leaving a profit of £273 15 7.

I have the honour to be,

Sir,

Your obedient Servant,

CHARLES W. HILL,

Colonial Treasurer.

The Honourable

THE COLONIAL SECRETARY,

&c., &c.

The Justices shall be so summoned in rotation according to the order in which their names stand on the commission, so that as far as circumstances will permit each may serve in his turn.

7.—Any Justice who being duly summoned neglects or fails without reasonable cause to attend the sitting of the Court shall be liable to be fined by the judge a sum not exceeding £10.

8.—It shall be lawful for the Governor if he shall think proper from time to time to appoint a Sheriff either to act in any particular case or for any period and such Sheriff may duly authorise, under his hand and seal any person to be his deputy and such Sheriff and his deputy are hereby empowered to execute all writs, summonses, rules, warrants, orders, commands and processes of either the Supreme or Police Court and if a Sheriff shall not have been duly appointed by the Governor then the Chief of the Police may do and execute all thing that belong to the office of Sheriff.

- (2)—Under any Ordinance or Order in Council that may be made respecting matrimonial and divorce cases.

11.—The Court shall have appellate jurisdiction over all cases determined in all inferior Courts and in respect of any misdirections or misrulings of the Judges thereof and may set aside or correct the same.

12.—The Court shall also have and exercise all other jurisdiction, powers and authorities whatsoever, which now are or may be hereafter expressly or impliedly vested in it by any Law.

13.—The Court shall have jurisdiction in all causes and questions of escheat and may entertain, decide and finally adjudicate in and on all such causes and questions.

14.—The Court shall have power to appoint guardians and committees of the persons and estates of infants and of idiots and

lunatics and other persons unable to govern themselves or their estates, and for that purpose to inquire into, hear and determine, by inspection of the person, or by examination on oath or otherwise of the party in whose custody or charge such person may be, or of any other person, or by such other ways and means by which the truth may be best discovered, and to act in all cases as fully and amply to all intents and purposes as the Lord High Chancellor or the grantee from the Crown of the persons and estates of such persons may do in England.

15.—In every civil cause law and equity shall be administered concurrently and the Court shall have power to grant either absolutely or on such terms and conditions as shall seem just, all such remedies as either party may appear to be entitled to in respect of either claim or defence; so that as far as possible all matters between the parties may be completely and finally determined and all multiplicity of legal proceedings avoided; and where there is any conflict between the rules of equity and the rules of common law, the rules of equity shall prevail.

16.—The Chief Justice may cause any Member of Council or Justice to be summoned to sit with him as an assessor on the trial of any cause or the hearing of any proceeding civil or criminal, and any assessor who without reasonable cause shall fail to attend the Court or refuse to act as an assessor shall be liable to a fine not exceeding £10 which may be imposed summarily.

17.—The assessors shall have no voice in the decision of any case but every assessor may note and shall sign such note if he dissent from the judgment of the Court and the Chief Justice shall enter the grounds of such dissent on the proceedings of the Court.

18.—The Supreme Court shall hold sittings in Stanley for the trial of criminal causes upon the first Wednesday of the months of February, May, August and November.

19.—The Supreme Court shall hold sittings in Stanley for the dispatch of business on its civil side immediately on the termination of the criminal business and at such other times as the Chief Justice may direct.

20.—The Governor may direct the holding by the Chief Justice at any time and at any place of a special Court for the trial of any criminal or civil cause.

21.—The Court may make such orders as may be necessary to procure the attendance of special or common juries at any special Court and any juror who shall without lawful excuse fail to attend and serve when summoned shall be liable to the same penalties as may be imposed upon jurors for non-attendance under any law for the time being in force relating to jurors.

22.—The Chief Justice may by summary order remove into the Supreme Court any suit instituted in a lower Court and may also remove from the Supreme Court into a lower Court any suit which shall involve directly or indirectly any claim, demand or question to or respecting property or any civil right amounting to or of the value of not more than £50 and which can in his opinion be properly tried in such lower Court and thereupon the Police Magistrate or Judge of the Summary Court, as the case may be, may summarily try the same.

23.—Every prosecution in the Supreme Court shall be by information in the name of such officer as the Governor may appoint and the officer prosecuting an information shall not at the same time preside upon the bench.

24.—Every case in which the prisoner shall be arraigned on a capital charge shall be tried by a jury of twelve men and no verdict shall be recorded unless such verdict be unanimous. Every other case whether civil or criminal shall be tried by a jury of seven men and whenever the jury shall consist of seven men it shall be competent for any five of such jurors after having been in deliberation for not less than two hours to find a verdict and such verdict when delivered shall have the same force and effect as if the whole jury had concurred therein if the foreman shall declare to the Court that not less than five of their number have agreed thereto.

25.—Any person may appeal to Her Majesty in Council from any judgment of the Supreme Court in respect of any sum above the value of £500 if within fourteen days next after such judgment he give notice to the Registrar of the Supreme Court of his intention to appeal and within three months enter into good and sufficient security for the prosecution of the appeal and for the payment of all such costs as may be awarded by Her Majesty, and the Chief Justice may direct that the judgment appealed from shall be carried into execution or be suspended pending the appeal upon such terms and subject to such security to be given by either party as may appear to be most consistent with real and substantial justice. Reserving to Her Majesty in Council full power and authority upon the humble petition at any time of any person aggrieved to refuse or admit an appeal from any judgment of the Supreme Court upon such terms as to Her Majesty in Council shall seem meet.

26.—Any person dissatisfied with any judgment of any inferior Court may, except as hereinafter provided, appeal to the Supreme Court by petition within fourteen days after the day on which judgment was given or within such further time as the Chief Justice shall allow and the Supreme Court may determine the case upon the evidence taken in the Police Court or may rehear the case and call any person as a witness, whether previously examined or not and determine the case in a summary way or remit the case to be tried by a jury and allow such costs to either party as justice may seem to require.

27.—The right of appeal shall not extend to the following cases :—

- (a.) Where the truth of the accusations or correctness of the claim has been admitted.
- (b.) Where imprisonment is adjudged for failure to comply with an order for the payment of money for the finding of sureties, for the entering into any recognizance, or for the giving of any security.
- (c.) Where in a civil case before judgment both parties agree in writing that the judgment of the inferior Court shall be final.
- (d.) Where the accused has consented to an adjudication of his case by the inferior Court.

28.—It shall be lawful for the Court in civil proceedings to order and allow to all persons examined or detained as witnesses such sum of money as shall appear reasonable for defraying their expenses or affording compensation for their trouble and loss of time and also to order any witness present to give evidence notwithstanding that no payment to which he may be entitled shall have been paid or tendered to him.

29.—All sums of money so allowed shall be paid by the party on whose behalf the witness is called and shall be recoverable as ordinary costs of suit, if the Court shall so direct.

30.—Where the plaintiff in any action shall prove to the satisfaction of the Chief Justice that the plaintiff has good cause of action against the defendant and that there is probable cause for believing that the defendant is about to quit the Colony and that the absence of the defendant will materially prejudice the plaintiff in the prosecution of his action the Chief Justice may order such defendant to be arrested and imprisoned for a period not exceeding six months, unless and until he give security, not exceeding the amount claimed in the action, that he will not leave the Colony without the leave of the Court.

31.—Where the action is for a penalty, or sum in the nature of a penalty for any contract, it shall not be necessary to prove that the absence of the defendant from the Colony will materially prejudice the plaintiff in the prosecution of his action, and the security given shall be to the effect that any sum recovered against the defendant in the action shall be paid, or that the defendant shall be rendered to prison.

32.—The expenses incurred for the subsistence in prison of any person arrested under Sections 30 and 31 shall be paid by the plaintiff at the rate of two shillings a day or such other sum as the Court may from time to time direct, and shall be made by monthly payments in advance; and the money so disbursed may be added to the costs of a decree and be recovered by the plaintiff, unless the Court shall otherwise order. The Court may release the person so imprisoned on failure by the plaintiff to pay the subsistence.

33.—The Governor may from time to time appoint any person to be a notary public provided that if any notary public duly appointed by the law of England shall be available any appointment under this Ordinance shall determine and whenever the Governor shall not have appointed any notary under this Ordinance the Chief Justice shall have and may exercise within the Colony all the powers and authorities of a notary public appointed by the Law of England and shall use a Seal with the inscription "Supreme Court of the Falkland Islands, Notarial Seal."

RESOLUTION.

President read the following Resolution :

"That it is desirable to build new Government Offices, and that a sum not exceeding £10,000 should for that purpose be appropriated from the Land Sales Fund, and further, that a sum not exceeding £2000 should be appropriated from the same fund for additions to Government House."

In reading the resolution His Excellency pointed out the state of Government Offices which, compared with other Colonies, was a disgrace, and the desirability of a secure building for the custody of deeds, registers, &c., as well as for comfort of Public Officers, and still greater comfort and convenience for the public, who at present have to wait exposed to the weather for their mails, &c. This Colony was in its infancy, and if real progress were desired he felt sure the Honourable Members would give their support. He only desired at present that Members be with him in expressing the desirability of the principle of the present vote. He did not ask them to vote any more of which might be required for a year, or perhaps two years, but in any case when an estimate had been obtained he would submit the matter to the Council again before anything was expended.

His Excellency then laid plans of the proposed buildings before the Members and explained that the cost would probably be much under the estimate.

The Honourable J. J. Felton said he regretted that he could not support the resolution as he had all along been dead against incurring debt, and proceeded to mention his disputes with the last Governor, when he was called to order, as no personal references could be permitted in Council.

Mr. Felton considered if anything was done it should be in the direction of building bridges and signposts in the camp upon which nothing was ever expended, Stanley getting all the benefit.

The Honourable A. E. Baillon said it was with profound regret that he felt it his duty to oppose this the first measure at the first Legislative Council held by His Excellency, but he had read the Orders of the Day with amazement and dismay. He regarded the proposal as an indication of policy on the part of His Excellency which he felt bound to deplore. He went on to state that within the last seven or eight years the expenditure had gone up by leaps and bounds.

In 1891 Council had voted £2,500 for repairs of Government buildings, and £2000 had been spent on Government Offices alone. Moreover money would probably be required to build new Barracks and Store (which he believed were both the property of the Admiralty) in case of the place being made a Naval Depot.

He considered the present Government Offices met all requirements, and relied upon a statement read by Governor Kerr in 1890 to the effect that only the interest on the land sales should be expended.

His Excellency expressed surprise and regret that a proposal which he conceived was in the best interests of the Colony should have met with such opposition and pointed out how the expenditure proposed at the present would be a future economy.

The valuable records of Survey, Registration, &c., were daily fading, and in a few years would vanish, and then what would be the cost to replace them. His Excellency read a return by the Treasurer wholly refuting Mr. Baillon's assertion of the expenditure having gone up by leaps since 1891.

His Excellency said his special care would be to see that the money was not wasted. He said this with the more confidence as extravagance at which one Honourable Member hinted had never been laid to his charge in regard to public money at St. Helena which he had raised from debt to solvency, and asked the Honourable Members if the room in which they now sat 15 x 12 was a suitable Council Chamber for a Colony like this, when they remembered that the Falkland Island Company thought proper to expend a sum of £8000 on a residence for their Manager.

He would however in view of all that had been urged allow the matter to rest for the present, and would not go on with the second part of the Resolution.

The Honourable the Colonial Secretary said His Excellency had left but little for him to say beyond that the offices were tumbledown, and the deeds and records, plans and registers, were most insecure, and in case of fire would be destroyed in a few minutes. The proposed buildings were not to be a temporary but a lasting permanent building by which the recurrent outlay in repairing and timbering up the present offices would be saved.

The Colonial Secretary asked leave at least to go on and propose the second Resolution as the Honourable Members were all personally conversant with the condition of Government House and the need for additional accommodation.

The Honourable J. J. Felton said he would support the vote if it came from General Revenue and not from the Land Fund.

Mr. Baillon said it gave him great pleasure to second this, and the Resolution thus amended was carried *nem con.*

The Governor urged the Council not to allow any differences of opinion to become at any time personal questions, and stated that he would always give Honourable Members credit for being actuated solely in the interests and for the advancement of the Colony, and hoped that the Government would be able to meet in every possible way any suggestions brought forward by them, but if he felt the view taken by the Government was for the good of the Colony he would never relax his endeavours to convince Members of what might appear to him to be the error of their views.

Read and Confirmed this 3rd day of March, 1898.

Governor.

Report on Government Savings Bank in 1898.

During the year 1897-8, the number of deposits made in the Savings Bank amounted to 414, and their value to £10961 18 7½. On the other hand 144 withdrawals to the amount of £7713 14 1 were effected, so that the capital of the Bank increased by £3248 4 6½; this amount, together with £957 13 11½ interest earned during the year, brought the total balance to £12,476 9 10.

Statement A showing the Capital and Profit and Loss Account, and subsidiary tables B, C, D & E giving details of the transactions of the Bank since its formation are herewith attached.

The balance of £12,476 9 10 is distributed amongst 349 depositors, being an average of £121 14 2 per depositor, or £20 14 6 per head of the population, an average which takes the lead of the United Kingdom and other Colonies as shown by the annexed diagram. *

Classified according to occupation, of the above mentioned 349 depositors, approximately.

43	per cent	are returned	as	shepherds.
20	"	"	"	" labourers.
14	"	"	"	" holding professions, or as farmers, managers, agents and various.
10	"	"	"	" married women and domestics.
10	"	"	"	" minors.
3	"	"	"	" mariners.

so that at the close of the Tenth complete year of its existence abundant proof is given that the want of opportunity, which at one time prevented the people employing their savings as capital, has been successfully supplied, and that the Savings Bank has fully answered the purpose for which it was instituted.

As in former years, Tables C & E show that the best months for the Bank were October to January and September when the deposits by far exceeds the withdrawals, while three out of a period of four (February and May) are the usual months in the Bank's year for the withdrawals to exceed the deposits, a circumstance due to the fact that after the busy season an exodus of shepherds and others takes place to the Mother Country or to Patagonia; the majority of whom however return after the winter only again to have recourse to the services of the Bank.

Without this Institute it is not easy to imagine what would have become of the capital now administered by it. Rapidly as the productive capability of the Islands has been increased, though there is not the slightest reason to doubt that the disposition of the community to consume wealth would have run ahead of its power of production, the people would have expended, unproductively, upon their immediate subsistence a larger part of all they earned, while the less favourable condition of the emigrant would not have so generally tended to promote the development of the neighbouring countries which help to supply England with cheap produce.

It is roughly estimated that since the formation of the bank some 54 per cent of its payments have been taken to the United Kingdom or to the Colonies, 26 per cent employed in Patagonia and 20 per cent utilised locally.

£158 5 6 of New Zealand stock were sold during the year. This sale was occasioned by the Bank funds being overinvested by £2099 at the time the amount sold was required.

* Statements C, D, E, and Diagram not published.

The capital of the Bank, which earned £1186 2 3 during the year, £957 13 11½ of which were credited to the depositors and the sum of £45 defrayed for the management, leaving a profit of £183 8 3½, was invested in Consols and Inscribed Securities as follows:

Sitting No. 5.

At a Meeting of the Legislative Council held on the 15th July, 1898.

Present :

His Excellency William Grey-Wilson, C.M.G.

The Honourable F. Craigie-Halkett, Colonial Secretary.

" " Charles W. Hill, Colonial Treasurer.

" " S. Hamilton, Colonial Surgeon.

" " A. E. Baillon.

" " J. J. Felton, absent.

The Minutes of the last Meeting were read and confirmed.

The President introduced "An Ordinance relating to Trading Companies and other Associations" and moved the suspension of the Standing Orders, seconded by the Honourable A. E. Baillon. The Bill went through all its stages without amendment.

The Honourable the Colonial Secretary introduced a Bill entitled "An Ordinance relating to Harbours" and moved the suspension of the Standing Orders, seconded by the Honourable A. E. Baillon.

The Bill was passed through all its stages with the following amendments in Committee.

The word "vessel" was substituted for the word "ship" wherever it occurs.

In clause 1 "Harbour" shall mean the land-locked water lying to the West and South West of a line drawn from Cape Pembroke to William Point.

Clause 6, line 1. After the word "vessel" insert "arriving from any port beyond the seas." In line 3 "the Commercial Code letter N" was substituted for "a white flag." Clause 11. After "beach" insert "thereof."

The Colonial Treasurer introduced "An Ordinance relating to the Post Office" and moved the suspension of the Standing Orders, seconded by the Colonial Secretary. The Bill passed through all its stages with the following amendment in Committee. Clause 1. "Port" shall mean the Port of Stanley or Fox Bay, and include any place where a Collector shall be stationed and any place hereafter declared a Port by the Governor in Council.

Read and Confirmed this 6th day of September, 1898.

Sitting No. 6.

Tuesday, 6th September, 1898.

All Members present except the Honourable J. J. Felton.

The Minutes of the last Meeting were read and Confirmed.

His Excellency moved (after some remarks) the consideration of the Estimates.

The Honourable A. E. Baillon called attention to the Standing Orders providing advertisement of Money Bills for a week which had not lapsed yet. His Excellency replied that no Bill was proposed at present, only Estimates.

Estimates of Expenditure were then considered in Committee of the whole Council.

1.—Pensions.

Passed without amendment.

2.—Governor.

3.—Colonial Secretary.

4.—Customs.

5.—Audit.

6.—Port and marine.

7.—Legal.

The Honourable A. E. Baillon repeated his objection to horse allowance to Stipendiary Magistrate, West Falklands, of £50 (which he submitted last year on the Estimates being considered) as he understands that Mr. Hurst does not and cannot, ride.

8.—Police.

The Honourable A. E. Baillon fails to see the necessity for both Inspector and Superintendent, and moves a reduction in the vote by £100.

9.—Prisons.

Passed without amendment.

- 10.—Medical. The Honourable A. E. Baillon called attention to the anomaly of the Colonial Surgeon, the senior Medical Officer appearing as Health Officer at £25 as against his junior the assistant Colonial Surgeon at £50, and Inspector of Nuisances at £50, and moved increase of Colonial Surgeon as Health Officer at £50.

His Excellency said he would submit for the consideration of the Secretary of State the Honourable Member's motion.

- 11.—Education. Passed without amendment.

- 12.—Ecclesiastical. " " "

- 13.—Transport. " " "

- 14.—Miscellaneous. " " "

- 15.—Post Office. " " "

16.—Colonial Engineer. His Excellency explained the origin of the Vote and pressed the necessity for a Fire Engine Station and a Police Station, and the desirability of having all buildings together, and under one roof. In the last seven years only £8100 had been voted for Public Works, whereas £15,699 had been actually expended.

16.—Colonial Engineer Mr. Baillon cordially approved of Mr. Messervy's appointment, and gives his opinion that the first things needing attention are the roads and drains. Mr. Baillon does not see the need for a foreman as well as a Colonial Engineer.

Mr. Baillon called attention to the Surveyor's services being retained further, as he only came out to survey the compulsory purchases.

His Excellency pointed out the chaotic state of the land deeds on which the Colonial Secretary had expended very much time for months past, and had made splendid progress, and assumed entire responsibility for diverting the Surveyor to making a proper plan of the town.

His Excellency proposed the building of a reservoir, as fresh water was essential for the Steam Fire Engine.

Mr. Baillon moved reduction of vote by £150 Foreman of Works.

- 17.—Public Works. Reserved for consideration at the adjourned Meeting of Council, when Mr. Baillon believes Mr. J. J. Felton will be able to attend.

- 18.—Savings' Bank. Passed without amendment.

- 19.—Drawbacks and Refunds. Passed without amendment.

Council adjourned to 11 a.m., 12th instant.

Read and Confirmed this 12th day of September, 1898.

Sitting No. 7.

Monday, 12th September, 1898.

All Members present except the Honourable J. J. Felton.

Minutes of last Meeting amended and Confirmed.

The Estimates were further considered and Vote 17, Public Works, after a few explanations by His Excellency and the Treasurer, was agreed to.

The President introduced a Bill entitled "An Ordinance to provide for the service of the Colony for the year 1899," and moved the suspension of the Standing Orders, seconded by the Colonial Secretary and agreed to.

The Bill went through all its stages and was passed without amendment.

Read and Confirmed this day of 1898.
