MINUTES OF PROCEEDINGS  
of  
THE HONOURABLE LEGISLATIVE COUNCIL

29th December, 1890.

Present :

His Excellency the Governor.

Hon. F. S. Sanguinetti, Acting Col. Secretary.  
„ S. Hamilton, Colonial Surgeon.

Hon. F. E. Cobb.  
„ J. J. Felton.

The Minutes of the last Meeting, held on the 14th May last, were read and confirmed.

His Excellency said that the first Bill which he had to introduce pursuant to notice was

“An Ordinance for taking the Census of the Falkland Islands.” The taking of the Census in 1891 in the Colonies was one of the subjects considered at the Colonial Conference of 1887, with a view to securing uniformity throughout the Empire, but the Census Act, recently passed, of which he laid a copy on the table, did not differ from that for 1881, to which the Bill now before them was almost precisely similar. He moved the suspension of the standing Rules and Orders and the first reading of the Bill. The Hon. J. J. Felton seconded the motion and the Bill was read a first time.

The Governor moved the second reading of the Bill, seconded by the Hon. the Colonial Surgeon, and the Bill was read a second time.

His Excellency then moved the third reading and passing of the Bill, seconded by the Hon. F. E. Cobb, and the Bill was read a third time and passed.

His Excellency then introduced “An Ordinance to provide for the Insurance of Parcels in the Post,” which he said was framed in consequence of a representation from the Postmaster General, who stated that the system of insurance on parcels from Great Britain to India had already been established, and had worked so satisfactorily that it would probably be established in all the Colonies, and that he was prepared, if this Colony responded, to commence it from the 1st of January, 1891.

Ordinance No. 9 of 1889 would be repealed, but provision was made in Section 2 of the present Ordinance to give compensation for loss or damage of uninsured parcels as in that Ordinance.

His Excellency moved the suspension of the standing Rules and Orders and the first reading of the Bill, this was seconded by the Hon. J. J. Felton, and the Bill was read a first time.

His Excellency then moved the second reading of the Bill, seconded by the Hon. the Colonial Secretary, and the Bill was read a second time.

The Governor then moved the third reading and passing of the Bill, seconded by the Hon. the Colonial Surgeon, and the Bill was read a third time and passed.

The Governor then introduced “An Ordinance for authorizing the Sale and Convey-

ance of certain lands of the Crown to the Falkland Islands Company,” and said: It appears that the object of this Bill is misunderstood, and as it has come to my knowledge that some persons have objected to it, I will before moving the first reading endeavour to explain the circumstances which have led to its introduction.

By the Land Ordinance of 1871 the price of country lands of the Crown is fixed at 4/- per acre, and by Ordinance No. 1 of 1872, lessees of Crown lands are required within ten years from the date of their leases, to purchase 160 acres of land on every section of 6000 acres, and that Ordinance contains a provision that the lessee may at any time during the continuance of the lease, purchase at the upset price of and any further quantity of land comprised in his station. By Ordinance No. 1 of 1879, the price of the land which the lessees were required to purchase was fixed at 2/- an acre.

The price of Crown lands may from time to time be raised or lowered by the Secretary of State.

Most of the leases now in force were granted by Governor D'Arcy in accordance with the provisions of an Ordinance passed in 1870 which gave the lessees the preemptive right of purchase at 2/- an acre. That Ordinance was disallowed, but the lessees were confirmed in the enjoyment of their leases by subsequent Ordinances and for a long time they contended that they had the right to purchase their lands at 2/- an acre. Mr. Blake, Mr. Waldron and others, applied to me for the purchase of their land on those terms, but on my pointing out that they had no such legal right, and that the revenue to be derived from the purchase money at that rate would be less than the rent when raised to £20 a section, they asked me to favour their applications to the Secretary of State for the purchase of their lands at a price which when capitalized would give the same amount of revenue as the £20 rent. This appeared to be as nearly as possible 3/- an acre, and I agreed to forward to the Secretary of State for his consideration any applications which might be made by any of the lessees, for the purchase at that price, of the whole of the land held by them. The first application of this nature was made by the Falkland Islands Company on the 9th September last, which I transmitted to the Secretary of State for his consideration, and he has authorized the sale to be made; but as it would not be expedient to lower the price

of country lands generally to 3/- an acre, which would enable persons to select the best portions of their holdings at that price and reject the valueless land, it has become necessary to pass Ordinances in respect of each sale which is made on these terms to enable the land to be sold at a lower rate than the rate fixed by the Ordinance of 1871. Within the last few days I have received an application from Mr. Bertrand to the Secretary of State for the purchase of his Station at Roy Cove, which will be forwarded in due course, and which when sanctioned will require an Ordinance to enable the sale to be made as in the present case, and so with regard to others who intend to make similar applications.

Previous to the year 1881 all the money received for the sale of Crown Lands had been treated as ordinary revenue, and had been expended in the current service of the Government. In that year I was instructed by the Secretary of State to pass an Ordinance to provide for the renewal of the existing leases at a rental of £10 a section as they respectively expired, in consequence of which I made a full report respecting the Crown Lands, and advised that on the renewal of the leases the rents should be raised to £20 a section, and that all money received from the Land Sales should be capitalized and the interest only be used for current expenditure. I received authority to change the provisions of the Ordinance from £10 to £20, and in that form it was passed as No. 9 of 1882.

Lord Kimberley also approved of my suggestion for capitalizing the proceeds of the sale of Crown Lands, subject to the proviso that the revenue proper to the year in which any sale took place was sufficient to meet the expenditure of the year.

Since that time the proceeds of such sales have not been expended, but are intended to form part of a fund which will produce a sum in aid of revenue equal to that which would have been received in rent had the land not been sold.

The rent of the land now about to be sold to the Falkland Islands Company is at present £226 a year, and if all the leases were renewed it would be £331, while the interest from the purchase money will be £364. In the case of Mr. Bertrand his present rent is £109—if the lease should be renewed it would be £218, and the interest on his purchase money (£9,490) will be £237.

Down to the year 1867 there was not a single settler on the West Falklands. In that year Mr. James Waldron settled on 42,000 acres, and at once expended £10,000 in stocking it with sheep from the River Plate.

At that time the revenue raised in the Colony was only £1000, and of that amount £100 was derived from the sale of Crown Lands, £300 from rent of land, and the rest from Licenses, Auction duties, Wild cattle, and other small receipts. The Imperial Government granted £5875 in aid, besides an expenditure of £1200

by the War Office. In 1869 the whole of the West Falklands was settled, and the revenue from the rents of that Island was £1900—and in 1891 the revenue will be £3457 for the whole Colony. In 1898, when the whole of the rents will have been raised to £20 a section, the revenue from Crown lands will be £5298, and should the lessees purchase the lands on the terms of the proposed Ordinance, the revenue will be still further increased.

It should be a matter of rejoicing to all who have the welfare and prosperity of the Colony at heart, that the settlers on the Crown lands have succeeded, after the expenditure of a large amount of capital and after long years of unremunerative toil, exposure and anxiety, in securing the reward which they deserve, had it been otherwise the Colony would have been in a very miserable condition; as it is, the population since the Colony has been fully settled has increased threefold, employment at good wages has been afforded to a large number of people, and those among them who have been thrifty have saved considerable sums of money, as is evidenced by the large amount deposited in the Government Savings Bank, which now amounts to £20,000, and is regularly increasing, and the fact that many of the industrious shepherds and others are forming grazing Settlements in the neighbouring Republics.

My long term of administration has enabled me to observe accurately the progress which has been and is being made, which, with the opportunities I have had of consulting the records left by my predecessors, enables me to speak with some authority on this question.

I satisfied myself before proposing the increase of the land rent to £20 a section, that it was a fair and just rent for fully stocked stations as shown by the returns to which I had access, and to the statements which were furnished to me, and (looking to the risk attending the price of wool) the calculation of the value of the land in fee at 3/- per acre is in accordance with that rate of rent.

His Excellency then moved the suspension of the standing Rules and Orders and the first reading of the Bill. The Honourable the Colonial Secretary seconded the motion.

The Honourable J. J. Felton moved as an amendment that the following section be added to the Ordinance, which he said applied, as it stood, solely to the Falklands Islands Company.

“Should any other lessee or lessees of country lands of the Crown desire to purchase his or their lands without selection, it shall be lawful for the Governor, with the sanction of one of Her Majesty’s principal Secretaries of State, to sell and convey such lands on the terms hereinbefore provided in the case of the Falkland Islands Company.”

The Honourable F. E. Cobb seconded the motion, and said, he had much pleasure in seconding the amendment proposed by his honourable friend, as it would tend to remove the absurd impression that the Company was specially favoured by the Ordinance; so far

from that being the case he understood that Mr. Blake could have secured the same terms over two years ago. He considered that the policy of selling land outright at a fair value was a proper one, for people would always spend more on their own property than on leased Crown land, however long the leases might be. As an instance of this he said that the Company had ordered the whole of their purchase to be fenced in at once, and that further sub-divisions would follow, thereby leading to the employment of a good deal of labour and doing good all round. No doubt other purchasers would do the same.

The motion was carried without a division and the Bill was amended accordingly.

The Honourable the Colonial Surgeon said there had been a great deal of secrecy about this Bill, which he opposed on the following grounds. First, that the price of four shillings an acre was the proper value of the land, and Second, that the Crown land should not be sold at all. He also said the two unofficial members were interested in the Bill as representing the sheep farmers and he did not see how they could vote in the matter,

His Excellency the Governor reminded the honourable member that the existing law gave the lessees the right of purchase of the land during the term of their leases, and that he had already gone fully into the question of its value, which was a matter for the decision of the Secretary of State.

The Honourable F. E. Cobb said that had this Ordinance been introduced before the sale had been arranged by the Secretary of State, he might as an interested person have felt some hesitation in voting, but as the Ordinance was framed to carry out the Secretary of State's instructions, he looked upon it as a matter of form and would disregard the honourable member's suggestion.

The Council then divided.

For the first reading :

The Hon. the Colonial Secretary.

„ F. E. Cobb.

„ J. J. Felton.

Against :

The Hon. the Colonial Surgeon.

Majority for the first reading of the Bill. 2.  
The Bill was then read a first time.

His Excellency then moved the second reading of the Bill, seconded by the Honourable F. E. Cobb, and the Bill was read a second time.

The Honourable the Colonial Secretary moved that the title of the Ordinance be amended by adding the words "and other lessees of the Crown" to the original title.

The Honourable J. J. Felton seconded the motion, which was carried unanimously, and the title of the Bill was amended accordingly.

His Excellency then moved the third reading and passing of the Bill, seconded by the Hon. J. J. Felton, and the Bill was then read a third time and passed.

The Honourable J. J. Felton said that

he hoped the explanatory remarks which His Excellency had addressed to them respecting the Crown lands would be embodied in the minutes of the proceedings.

His Excellency the Governor then said that as the time of his departure from the Colony was drawing near and as in the absence of any immediate necessity for legislation it would probably be the last occasion on which he would meet honourable members in their places, he wished to say a few words before taking leave of them. Although there had on several occasions been differences of opinion between them on public questions, he felt quite sure that in opposing him they were always actuated by honest convictions and motives, and he was certain they gave him credit also for acting according to his views and convictions of right. His sole aim had been the welfare of the Colony and its inhabitants, and it was a matter for which he thought he could justly claim credit that the resources of the Colony had been largely developed during his administration and that the welfare and prosperity of the inhabitants had been increased. It had been his constant wish and endeavour that this end might be attained and he felt sure that he had succeeded in achieving it. No public man, especially the Governor of a Crown Colony such as this one, could expect to escape misrepresentation, but he could afford freely to forgive whoever had maliciously tried to injure him, because he was sensible that they had never been able to do him any harm, and he thought they would probably regret their conduct before they died, or afterwards.

The Honourable F. E. Cobb said, he congratulated his Excellency upon leaving the Colony in a more flourishing condition than it was when he arrived and that although it could not be denied that there had been at times considerable differences of opinion on public matters, and the atmosphere had been much heated on several occasions, he was glad to think that their differences had been confined to public affairs and that he was sure he might say both for the other unofficial member and for himself that they had the greatest respect for his Excellency personally and wished him prolonged life and every happiness in his retirement.

The Honourable J. J. Felton said that he had received every kindness and consideration at His Excellency's hands and that he joined with Mr. Cobb in wishing His Excellency health and prosperity in his retirement.

The Council was then adjourned *sine die*.

The Governor directs attention to the following Government Notice dated, 19th of February, 1886, which was a renewal of similar previous notices to the same effect.

The Governor directs it to be notified that all Memorials or Petitions addressed to him for transmission to the Right Honourable the Secretary of State for the Colonies, must be forwarded to him at least fifteen days before the time of closing the Mail for England, in order that time may be given for the preparation of the report which is required by Rule No. 222 of the Colonial Regulations.

Minutes of a Meeting of the Board of Health of the Falkland Islands held on Saturday the 7th February 1891, at Stanley.

Present:—

The Hon. the Colonial Surgeon, President.

“ “ the Colonial Secretary.

“ “ F. E. Cobb,

“ “ J. J. Felton,

The Chief Constable, Inspector of Nuisances.

The Minutes of the last Meeting were read and confirmed.

The President explained his reasons for calling a Meeting which were to consider what steps should be taken in the case of H. M. S. “Basilisk,” on her return to Stanley from Salvador, in which ship a case of small pox had recently occurred. The President said that after consultation with the Medical Officers of H. M. S. “Cleopatra” and “Beagle,” he was of opinion that it would be proper to isolate the “Basilisk” for a period up to about the 17th instant, when all danger of infection or contagion would in all probability have passed, and that the following Bye Law, if approved by the Governor, would give power to act in this and similar cases.

#### BYE LAW No. 1.

That whenever on board any ship or vessel which has received pratique from the Health Officer, any contagious or infectious disease shall break out, whilst within the limits of the Colony, it shall be lawful for the Board of Health to take such steps as they may consider necessary for the protection of the Public health by prohibiting communication with the shore or otherwise, for such length of time as in their opinion may be deemed advisable.

S. HAMILTON,  
President.

Minutes of a Meeting of the Board of Health of the Falkland Islands held on Monday the 9th February, 1891, at Stanley.

Present:—

The Hon. the Colonial Surgeon, President.

“ “ the Colonial Secretary.

“ “ F. E. Cobb.

“ “ J. J. Felton.

The Chief Constable, Inspector of Nuisances.

The minutes of the last Meeting were read and alterations being suggested were amended accordingly.

The President read the following letter which he had received from the Colonial Secretary.

No. 49.

Government Office,  
9th February 1891.

Sir.

I have the honour to return to you, approved by the Governor, the Bye Law passed by the Board of Health on the 7th instant.

The President of the  
Board of Health.

I have the honour to be,  
Sir,

Your obedient servant,

(Signed) FRED. SHEDDEN SANGUINETTI,  
Ag. Colonial Secretary.

The Colonial Secretary said the Bye Law having now been approved, it remains for the Board to determine how long H. M. S. “Basilisk” shall be isolated on her arrival in Stanley.

The President said he should be entirely guided by the report of the Medical Officer on board that vessel.

A discussion ensued as to the necessity of isolating the vessel for any lengthened period, but it was the opinion of the President that risk of contagion existed for fourteen days after a patient's convalescence from small pox. It was therefore determined to keep the ship isolated until the 16th of the month, if on her arrival there should be found no symptoms of disease on board.

The Colonial Secretary requested it to be placed on the minutes, that in assenting to the proposal to isolate the “Basilisk” for so long a period he deferred to the professional opinion of the President.

S. HAMILTON,  
President.

The Governor directs the publication for the information of Sheep Farmers and persons in the Colony interested in sheep farming, of the following Circular letter which has been addressed to the Sheep Farmers on the subject of Scab in sheep, together with a précis of the replies which have been received on the subject.

Government Office,  
Stanley, Falkland Islands,  
September 1890.

Sir.

I am desired by the Governor to forward to you a copy of a draft Ordinance, see next page, which it has been proposed shall be enacted in this Colony, dealing with the subject of Scab in Sheep and I am to invite an expression of your opinion as to the expediency of the proposed legislation, (1) in general and (2) as regards the specific clauses of the Draft Bill.

I have the honour to be,

Sir,

Your obedient Servant,

FRED. SHEDDEN SANGUINETTI,  
Ag. Colonial Secretary.

#### Précis of REPLIES.

Falkland Islands  
Co.'s. Manager.

Having assisted in drafting the proposed Ordinance thinks it unnecessary to give an opinion regarding its specific clauses, beyond saying that in Clause 4 and Section 5, b. & c., to adopt a period of 12 months for the season, that it is possible for the disease to lie dormant over six months and not show itself until the Autumn rains come on.

Though formerly opposed to further legislation on the subject is reluctantly obliged to say that he now considers nothing but a stringent act will be efficacious. Some farmers do not employ hands enough to make a clean muster of their sheep. Points out the effect of this and the effect of an opposite policy on the part of the Company. What the Company have done others can do. Thinks the proposed Ordinance will merely serve to open the question, but in itself it will be powerless to stop the evil.

Illustrates by the example of legislation in the Australian and other Colonies that scab can be stamped out in this Colony, and expresses surprise why it should be allowed to exist year after year for want of it.

Bertrand W. W.  
Roy Cove Station.

Is entirely opposed to the terms of the proposed Ordinance, thinking them prejudicial to the interests of the farmers for certain reasons, viz.

1 & 2. Fencing Ordinance should precede it, as it is impossible with the best shepherding to prevent sheep from straying upon an adjoining Station.

3. A driving Clause absolutely necessary to be inserted in the present Sheep Ordinance, subject to certain conditions for mutual protection, and in this connection points out the power which the existing Sheep Ordinance gives to neighbours to boycott one another and ruin the promising trade in frozen mutton which has lately sprung up.

(To be continued.)

*Draft of a proposed Ordinance to amend the Sheep Ordinance, 1867.*

Preamble.

WHEREAS it is expedient to extend and amend the Sheep Ordinance No. 3 of 1867.

Be it enacted &c., as follows :—

Title.

1. This Ordinance may be cited as "The Sheep Ordinance Amendment Ordinance 1890."

Governor to make regulations.

2. It shall be lawful for the Governor in Council from time to time, by Proclamation, to make such regulations as he may consider necessary or expedient for the eradication of scab in sheep.

Amendment of Ordinance No. 3 of 1867, clause 2.

3. Clause 2 of Ordinance No 3 of 1867 shall be amended by adding to it as it stands the words "for every sheep so driven, depastured, or suffered to be at large."

Construction of words "infected sheep."

4. In the construction of this Ordinance "infected sheep" shall mean—

(a) Any sheep infected with scab.

(b) Any sheep which have within the preceding  $\left\{ \begin{array}{c} 3 \\ 6 \\ 12 \end{array} \right\}$

months been in direct or indirect contact with any sheep so infected.

(c) Any sheep which have been infected and dipped

within a period of  $\left\{ \begin{array}{c} 3 \\ 6 \\ 12 \end{array} \right\}$

months after such dipping.

Notice of infection to be given by owners of sheep.

5. Whenever the owner of any sheep shall be or shall become aware or shall have reasonable grounds to suspect that the same are or have become infected with scab, he shall within seven days thereafter give personal notice thereof in writing, with particulars as to where such infected sheep are running, to the owners or managers or all the adjoining runs, and shall also by the first opportunity give the same notice and particulars to the Governor. Any person offending against the provisions of this clause shall, for every case in which he shall fail to give the prescribed notices, be liable to a penalty of not less than £10 nor exceeding £50.

FRED. SHEDDEN SANGUINETTI,  
Ag. Postmaster.

The Governor directs the publication for the information of Sheep Farmers and persons in the Colony interested in sheep farming, of the following Circular letter which has been addressed to the Sheep Farmers on the subject of Scab in sheep, together with a précis of the replies which have been received on the subject.

Précis of replies to Circular letter dated 26th September 1890, from the Colonial Secretary to Sheep Farmers on the subject of proposed legislation in the matter of Scab in Sheep.

*(Continued from the Gazette of 12th February 1891.)*

Birch. T. S.  
Wyrley.

Is of opinion that no law to be effectual in the matter of eradicating Scab can be so unless no owner or occupier of land shall be able to give his consent to infected sheep crossing his land.

Draws an example between a Small Pox patient landed in Stanley and a farmer giving his consent to infected sheep crossing his land surrounded by neighbours.

Is of opinion that a time should be fixed, and after that date no person should be allowed to move any of his flock over another's land on any pretext if he have any infected sheep in his flocks.

Prosecutions for infringement of any Ordinance should be directed by the Governor and in no way left for one farmer to institute against another.

Blake. Robert

Having again and again urged Government to take the matter up, is in favour of anything and everything which may tend to help the eradication of Scab.

Thinks the proposed alterations very insufficient, but they are nevertheless steps in the right direction.

Never work "underhanded" or it is impossible to gather the sheep clean off the ground and Scab is ever present.

Pressure must be brought to bear on people utterly careless of their neighbour's weal, or Scab will never be stamped out.

Refers to the example of the Australian Colonies, and some instances in the Falklands, where isolation has been followed by immunity from Scab.

Thinks if a flock be declared Scabby a period of twelve months ought to elapse before that flock can be safely declared clean.]

Mr. Blake further observes, "every flock master knows, that in "the summer very little scab is apparent in sheep, but as soon as the "winter sets in, or even at the close of a wet autumn, the sheep begin "to break, and it depends entirely on the season how soon they "break out, how quickly the disease spreads. Sheep then get a "winter dip, in June or July, this, if properly applied, checks the "spread of the disease, no scab, or hardly any, shows at the following "shearing. That flock is almost certain to break again the following "winter; if it passes through the winter without an outbreak it may "be declared clean."

No man with any experience, would dare give a lean certificate, during the first six months of the year, to a flock that had been dipped for scab during the previous winter.

What some farmers have done in these Islands, in the way of cleaning their stock, others can do.

Cannot comprehend why scab should be allowed to exist here when in other places stringent laws are in existence to stamp it out.

Speaks of a great loss by winter dipping and hopes that the matter will be taken up for legislation. Will do all he can to that end.

Dettleff. William

Is of opinion that Ordinance No. 3 of 1867 has been successful till now and needs no amendment.

Thinks clauses 3 & 4 of the proposed Ordinance would be very hurtful, as farmers have tried varieties of sheep dip and have gone to expenses. The Monopolists would have great advantage over small farmers.

Buckworth.

Considers Section 2 quite unnecessary.

Russell H.

Section 3 is good and cannot well be improved upon.

Section 4 is also good and highly necessary.

(a) should stand.

(b) should be 2 months, and taking out the words "or indirect" in the 2nd line, as indirect would apply from one end of the Island to the other.

The rest of (b) is good.

(c) is also good and should be six months.

Section 5 very good indeed.

Felton. J. J.

The Hon.

Does not think it advisable to alter the existing law by the addition of the proposed amendments.

The unfenced state of many of the boundaries and the boundaries themselves being still matters of question and dispute, make it certain that the proposed alterations would lead to constant disputes and litigation.

States that a new enterprise for the export of frozen mutton has been started at great expense by Messrs. Spearing & Waldron, who are now about to put up works at San Carlos, to enable farmers upon the East to co-operate with them, and who were guaranteed a sufficient quantity of sheep for a term of years, to be delivered at Port Howard and San Carlos, and that the effects of the proposed amendments must be considered in connection with this trade. The proposed amendments would place two or three parties in a position to debar others from obtaining a profitable outlet for surplus stock, or to carry out their arrangements to supply stock for freezing purposes.

The addition of clause 5, and a modified portion of some of the preceding clauses might be of advantage, also the compulsory registration of ear marks and brands, the killing of stray sheep, a right to drive sheep from infected runs through infected runs, &c.

Thinks however that as most of the leases expire next year and as an Ordinance has only lately been passed enabling Lessees to purchase their land, all proposed amendments had better be deferred until boundaries are clearly defined, fresh leases renewed, or arrangements for purchase made.

Going. J. A.

Is of opinion that no fresh legislation on the subject of scab is required.

Scab would be a thing of the past if section 1 of Sheep Ordinance No. 3 of 1867 were rigidly carried out.

Only flaw in that section is a doubt as to the exact meaning of "herded by a shepherd."

Hennah. Henry H.

Does not think there is any need for any such Ordinance provided the Sheep Ordinance of 1867 be rigidly enforced.

Packe. Vere

Thinks the proposed amendment would be very beneficial. At same time thinks a fence law would be more so, making each farmer fence his boundary, or put up so much fencing every year till this is done. It would enable flocks to be more separated, and so to a great extent check scab from spreading.

Fine of £50 in clause 3 for every sheep will be heavy on those who have no boundary fence, as it is impossible to keep sheep from intermixing to a certain extent, without a fence.

Clause 4 (b). Persons ought to be able to tell if sheep are infected six months after direct or indirect contact with infected sheep.

In his opinion sheep infected with scab and dipped cannot be guaranteed clean under 12 months after dipping.

Clause 5. Thinks any farmer could comply with this Clause.

Smith. James

Is of opinion that the present flourishing position of most of the farmers is a proof that the Sheep Ordinance 3 of 1867 is quite sufficient to meet all requirements for the suppression and extinction of Scab.

Thinks Clauses 3 & 4 of proposed Ordinance would be very hurtful to the smaller farmers and would tend to strengthen the already strong monopoly.

Suggests that if possible Ordinance No. 4 of 1870 be strictly adhered to.

Stickney. Bernard

Thinks it is absolutely necessary for the good of the Colony that there should be a Scab Ordinance, and that the Sheep Ordinance No. 3 of 1867, with the amendments attached to Clause 2 in the proposed Ordinance, will be a great improvement. Then the Ordinance will be quite severe enough, and a very good one for a small Colony like this, without any further addition.

As to the construction of words "infected sheep," is of opinion this should mean

(a) Any sheep infected with scab.

(b) Any sheep which have been in contact with any sheep so infected until the flock have been dipped.

(c) Any sheep which have been infected and dipped within a period of twelve months.

Respecting the specific Clauses of the proposed Bill, thinks Clause 5 should most decidedly be inserted.

Stickney. Bros.

Are pleased to see a move has been made at last, and with the opinions of all the Sheep Farmers before Government something ought to be done to protect those who have cleaned their flocks.

Their opinions on the specific Clauses of Bill are

Clause 3. A penalty of £1 sterling per head. When it is known that a neighbour has scab on his station a Farmer should be allowed to seize, kill, and burn any quantity of such neighbour's sheep found at large on his land in addition to the penalty.

Clause 4. Sheep that have been in contact with scab, can by an experienced man be declared clean after six months.

(c) Sheep that have been infected with scab, or Station that has had scab on it, cannot be declared clean within twelve months.

Waldron. Henry.

Remarks—1. A Stringent Sheep Ordinance is necessary to the future prosperity of the Colony.

2. (b & c) in Clause 4 of proposed Bill do not go far enough. What about a neighbour wilfully driving scabby sheep through a neighbour's clean flocks?

Some Clauses of the Canterbury, (New Zealand) Sheep Act would be desirable. Compulsory curing of scab is necessary.

Mariners are warned that during and after long continued S.-Ely. gales, when a heavy sea is rolling in on the S. and S.E. coasts of the Falkland Islands, there is stated to be a strong set to the N.-Wrd., to which set has been attributed the loss of several vessels in the neighbourhood of Bull Point. Vessels from Cape Horn, therefore, intending to sight Beauchère Island, should make due allowance against a possible set of 20 to 30 miles a day to the N.-Wrd.

**JASON ISLANDS.**—During March 1890, a patch of kelp (always indicative of a rocky bottom and often of a hidden danger) about  $\frac{1}{2}$  mile in extent, is reported to have been passed in P.D., 50° 53 $\frac{1}{4}$ ' S., 61° 16 $\frac{3}{4}$ ' W., Nrd., of the Islands, with the W., end of Steeple Jason, approx. S.E. by S.  $\frac{1}{2}$  S., 7 to 8 miles. At the time of passing, the wind was N.Ely. strong, with a rough sea, but no breakers were seen; it was estimated to be slack water, and that the kelp would be under water when the tidal stream (which in this locality attains considerable velocity) is running. *December.*

The Governor, after consultation with the Executive Council, directs the publication for the information of Land-holders of the following draft Fencing Ordinance, which it is considered would be advantageously applicable in this Colony before any further consideration of a Scab Ordinance.

*An Ordinance to provide for the construction of Dividing Fences.*

WHEREAS it is expedient that Dividing Fences should be constructed by the occupiers of adjoining pastoral lands at the joint expense of such occupiers.

Be it enacted by the Governor of the Falkland Islands and their Dependencies, with the advice and consent of the Legislative Council; as follows:—

Title of Ordinance.

1. This Ordinance shall be called and may be cited as "*The Fences Ordinance 1891*," and shall come into operation on the first day of January one-thousand eight-hundred and ninety-two, and shall be divided into Parts, as follows:—

Part I.—Introduction.

Part II.—Construction of Dividing Fences.

Part III.—Maintenance and repairs of Fences.

Part IV.—Proceedings for the Recovery of Contributions.

Part V.—General Provisions.

PART I. Introduction.

Interpretation of terms.

2, In the construction of this Ordinance the following words and expressions shall, unless there be something on the context repugnant to such construction have the several meanings hereby assigned to them:—

"Justices." Wherever the words justices appear in this Ordinance they shall respectively be deemed to mean three justices of the peace.

"Occupier." Shall include any person who is in the actual occupation of or entitled as owner to occupy any land alienated from the Crown by grant, lease or license, but shall not mean or include any person in the occupation of land held by yearly license, or for any term less than ten years.

"Dividing Fence shall mean a fence separating the lands of different occupiers.

Sufficient fence.

3. Any fence of any of the kinds hereinafter mentioned and described shall be a sufficient fence within the meaning of this Ordinance,

(1). A post and rail fence at least three feet six inches in height of substantial material firmly erected, with no greater distance between the rails or the bottom rail and the ground than one foot. unless there be a wire inserted between the rails and the posts not more than nine feet asunder.

(II). A substantial paling fence at least three feet six inches in height, with no greater distance between the palings than four inches.

(III). A substantial wire fence at least three feet three inches in height, having not less than six wires tightly stretched, with no greater distance between each of the three lowest wires, or the bottom wire and the ground than  $5\frac{1}{2}$  inches, and the posts or standards of which are not more than 20 yards apart with intermediate iron or wooden droppers or swingers between them, securely bound to the wires, not more than six feet apart and with not less than six straining posts to the mile.

(IV). A bank or wall of substantial materials at least four feet in height and not less than two feet wide at the bottom and nine inches at the top.

(V). A combination of any of the above mentioned fences at least four feet in height.

#### Part II. Construction of Dividing Fences.

4. The occupiers of adjoining lands not divided by a sufficient fence shall be liable to join in or contribute to the construction of a dividing fence between such lands in equal proportions.

5. When a river, creek or natural watercourse forms the boundary of contiguous lands, but is not capable of resisting the trespass of cattle, it shall be competent for the occupants of such contiguous lands to agree upon such a line of fence on either side of such river, creek or natural watercourse, as shall secure such fence from the action of floods, and in the event of their not agreeing upon a line of fence it shall be competent for either party to call on the nearest justices they may agree to select, who shall determine the line of fence to be erected, and decide whether any and what compensation in the shape of an annual payment shall be paid to either of the parties occupying such contiguous lands in consideration of loss of occupation of land, and the justices so called in shall be entitled to receive from such occupiers in equal proportions the actual cost of their travelling expenses (if any) incurred by them in visiting and inspecting the ground: But the occupation of lands on either side of such line of fence shall not be deemed adverse possession, and shall not affect the title to or the possession of any such lands save for the purposes of this Ordinance.

6. Any person desiring to compel any other person to contribute to the construction of a dividing fence under the provisions of this Ordinance may serve on such person a notice to fence, which shall be in writing or in print, or partly in writing and partly in print, and shall specify the boundary to be fenced and contain a proposal for fencing the same, and shall specify the kind of fence proposed to be constructed.

Liability of occupiers of adjoining lands to fence.

When river, &c., natural boundary, power to agree on line of fence.

Service of notice to fence.

Proceeding in default  
of agreement consequent  
on notice of fence.

7. If within one month after the service of any notice to fence, the person serving and the person served with such notice do not agree as to the construction and kind of a fence, any three justices on the complaint of either of them may make an order prescribing the kind of fence to be constructed, and what portion thereof shall be constructed by each such person, and in cases where such further order is necessary the position of such fence, or may refer the determination of the matters to be prescribed by such order to the award of some arbitrator who shall be appointed by an order of such justices, and the award of such arbitrator shall have the same effect as, and be deemed an order of justices, and in case and as often as any arbitrator so appointed die, or neglect, decline, or become incapable to act, any three or more justices may appoint another arbitrator in his place, who shall have the like powers and duties: Provided that in making any such order or award the justices or arbitrator, as the case may be, shall be guided as to which of the kinds of fence hereinbefore described, such justices or arbitrator shall order or award to be constructed by the kind of fence usually constructed in the place where it is proposed to erect such fence.

Proceeding on failure  
to carry out agreement  
or order of justices.

8. If the person serving and the person served with such notice agree as to the construction of such fence, or if in default of such agreement an order of justices or an award of an arbitrator is made as aforesaid, and in either case either of such persons fail within the time named in that behalf in such agreement, order or award, or if no such time be named within three months after the date of such agreement, order or award, to perform his part of such agreement or to comply with such order or award, then the other of such persons may construct the whole fence as agreed upon or prescribed by such order or award, and may recover half the cost of constructing the same in any court of competent jurisdiction.

The Council then went into Committee.

The following amendments were proposed and agreed to:—

line 11, before "at" insert "Dated,"

The Council having resumed its sitting,

The Acting Colonial Secretary moved the Second reading of the "Truck Ordinance."

His Excellency stated that he had proof that the system had been practised in the Colony, and that in order to ascertain the best method of putting an end to the evils resulting from the system he was prepared to appoint a Commission of Enquiry. He proposed to nominate as Members of that Commission the Acting Colonial Secretary, the Colonial Surgeon, the Hon. J. J. Felton, the Hon. A. E. Baillon and two others to represent the employés.

The Hon. J. J. Felton thought that the system was from the force of circumstances inevitable in the Colony.

The Hon. A. E. Baillon thought that the object in view would be better attained if he requested permission to decline to sit on the Commission and to nominate in his stead the Falkland Islands Company's Storekeeper at Darwin.

His Excellency hoped that the Hon. Member would not ask the Government to accept a subordinate in his place, and requested the Hon. Member to reconsider the matter.

The Hon. A. E. Baillon then consented to serve on the Commission.

The Acting Colonial Secretary moved that the Second reading of the Bill be postponed until the report of the Commission had been received.

The Colonial Surgeon seconded and the motion was carried.

The Colonial Surgeon moved the Second reading of a Bill entitled "An Ordinance to amend the Public Health Ordinance," the Acting Colonial Secretary seconded and the motion was carried.

The Council then went into Committee.

The Bill was read clause by clause, His Excellency explaining the nature and reasons for the provisions which amended the Public Health Ordinance No. 1 of 1886.

The Council having resumed its sitting the Acting Colonial Secretary moved the following:

"Resolved that a sum of £———be granted to provide for the codification and printing of the Laws."

His Excellency stated that a sum of not less than £300 would be required to provide for the remuneration of the Commissioner codifying the laws and for the expenses of printing and publishing.

The Colonial Surgeon seconded and the resolution voting £300 was carried.

The Acting Colonial Secretary moved the following:

"Resolved that a sum of £15 12 per annum be granted towards the maintenance of an Idiot child in an English Asylum."

The Colonial Surgeon seconded and the motion was carried

His Excellency moved the following:

"Resolved that a sum of £100 per annum be granted to the Colonial Secretary of the Falkland Islands from the 27th June, 1891, in compensation to that officer for the loss of salary hitherto attached to the office of Police Magistrate, now otherwise provided for."

The Colonial Surgeon seconded and the motion was carried.

"Resolved that a sum of £9. 8. 6. be granted to Mr. William Alfred Harding, Acting Government Clerk, in compensation to him for the loss of his Imperial half salary as a Clerk in the Colonial Office, Downing Street, during the period of his voyage to this Colony."

The Colonial Surgeon seconded and the motion was carried.

The Acting Colonial Secretary gave notice that on the 16th instant he would introduce and move the First reading of a Bill entitled "An Ordinance to empower the Governor to appoint Commissions of Enquiry and to require evidence to be given on oath thereunder."

The Council then adjourned till 11 a.m., Thursday, 16th July, 1891.

The following Draft Ordinance which it is proposed to submit to the Legislative Council of the Falkland Islands, to provide for the holding of Commissions of Enquiry, is published for general information.

Government Office,  
24th August, 1891.

The Governor directs the publication of the following Report of the Commission on Scab, with His Excellency's reply thereto

By Command.

FRED. SHEDDEN SANGUINETTI,  
Ag. Colonial Secretary.

We have the honour to inform your Excellency that in accordance with the terms of your Commission we have made inquiry as to the desirability or otherwise, of legislation for the eradication of Scab.

2. To facilitate the taking of evidence, a list of questions was drawn up by the Commission, which list we beg to hand your Excellency herewith.

3. We have the honour to transmit herewith a full report as to the names of the witnesses examined before the Commission and of their evidence.

4. We, the Members of the Commission, beg to make the following recommendations; from the weight of evidence taken and in our opinion, a Scab Ordinance is necessary, in the interests of the staple industry of the Colony.

As a Scab Ordinance is wanted as soon as possible, and in order to make it effective, legislation for fencing is also required, the two matters should be embodied in one Ordinance.

The present arrangements for the erection of boundary fences having so far worked satisfactorily and without friction, and as there can be no question, but that the expense and delay occasioned by a survey would be prejudicial to the eradication of Scab, a general survey as a preliminary to a Fencing Ordinance is unnecessary.

(Rider). (President.) I dissent from the conclusion to question (3) as the positions of the fences cannot be defined unless boundaries are established, and much additional expense to the Colony would be entailed in most cases.

## SUB HEADS.

It is the general view of the witnesses examined, that the machinery for working a joint Fencing and Scab Ordinance should consist of a Board of practical men for each main Island.

That infected sheep shall mean any sheep infected with Scab, any sheep which have been infected, or exposed to infection, until a clean certificate shall have been granted for the same by the Board.

That there should be a penalty on owners who fail to clean their sheep within a reasonable time—such time to be left to the discretion of the Board.

That in the event of an outbreak of Scab written notice shall be sent at once to neighbours, Board and Governor, and Gazetted.

It is practically the universal opinion that persons should be punished by penal servitude for wilfully communicating Scab, and by a fine in case of negligence.

That Station earmarks should be registered, that imported sheep should be quarantined at the discretion of the Board. That the Board should draw up Bye-Laws and Regulations for driving clean or infected sheep, and for the quarantining of infected sheep and for other matters.

That straying infected sheep should be killed and buried, or burnt. As regards the definition of a Sheep-proof fence, it is the opinion of the Commission, borne out by the evidence, that it will be sufficient if it is passed as Sheep-proof by the Board.

The Commission is further of opinion that where a Farmer is unable to bear the cost of putting up a boundary fence, the adjoining occupier should be entitled to do so, and recover half the cost, such repayment to be spread over a period not exceeding five years, the unpaid balances bearing interest at a rate not exceeding 7½ o/o.

(Rider). (President). I think that the rate should not exceed 5 o/o.

The Commission are of opinion that the Board should have full powers to order the erection of Sheep-proof paddock fences if necessary in their judgment for the eradication of Scab.

That existing boundary fences should be kept in repair at joint expense.

5. The Commission beg permission to state that in their opinion one of the chief reasons why Scab is still so general in the Falkland Islands is, that Farmers, either from want of means or of knowledge, have attempted to carry on the work of their Stations with too few hands.

6. The Members of the Commission would have been glad to make recommendations in detail to your Excellency on the numerous complicated points included in a Scab Ordinance, and regret that their President has ruled that, as their recommendations were in the form of a draft Scab Ordinance, to do so is not within the scope of their Commission but they will on a future occasion be happy to place their experience at your Excellency's disposal.

7. We trust that your Excellency will see your way to give effect to the recommendations of the Commission, and, by furthering legislation that would help the Farmers to eradicate Scab, take a course which will tend to increase the production of wool and improve the resources of the Colony.

All of which we respectfully submit.

11th August, 1891.

List of questions referred to in paragraph 2.

1. Is a Scab Ordinance necessary?
2. Is a fencing order to precede or follow, or be embodied in a Scab Ordinance.

Sub. Heads.

Should a Board or Inspector be appointed?

What is a satisfactory definition of infected sheep?

Should infected sheep be quarantined or isolated till clean?

Should owners be punished who fail to clean their sheep in a reasonable time?  
How should clean and infected sheep be classified?

Should notice (in the event of an outbreak) be given to the Governor, the Board and neighbours?

Should any one be punished who shall wilfully, or by negligence, communicate Scab?

Should the earmarks be registered?

Should Imported sheep be quarantined?

Should there be regulations for travel-sheep?

Should straying infected sheep be butchered?

Will you be satisfied as to the definition of a sheep proof fence if any fence is passed as sheep proof which is so considered by the authority under the Act?

Where the farmer is unable to bear the cost, should the adjoining occupier be permitted to put up the fence and charge interest on half the cost?

What interest should he charge?

Should the authority under the Ordinance have power to order the erection of paddock fences if necessary for the eradication of Scab?

Should existing boundary fences be kept in repair at joint expense, and should there not be a means of enforcing this?

4. Is a survey necessary as a preliminary to a Fencing Ordinance.

2. Every occupier of a tenement shall be bound to protect the water supply attached to the building in such a way as may be considered necessary by the Board of Health, to secure the utmost purity possible. The owner or occupier of any premises shall be required to keep in a thorough state of cleanliness and repair all water-courses, open ditches, or gutters upon his premises, and to prevent the accumulation of noxious matter, by the removal thereof to any place of deposit to which the Board of Health may order.

3. All fowl-houses, fowl-coops, pig-stys, or any buildings in which animals are kept, must be placed in such position as to the Board of Health may seem best for the prevention of a nuisance, and the protection of the inhabitants of the neighbourhood.

7. Before any markets shall be held the Board of Health must first approve of the same, and sanction some place for the holding of such markets, and such markets shall be conducted under rules and regulations to be issued by the Board of Health at the time of giving its sanction.

8. If it shall become necessary to alter in any way the existing Burial Grounds, or to lay out any new Burial Grounds, the alterations or laying out of the same, as the case may be, must be submitted by the Burial Board or Committee of Management to the Board of Health for its approval, the same to be submitted to the Governor in Council for his approval.

9. The President then brought to the notice of the Board that the Government hulk and jetty were an eyesore to the place and dangerous to life; already one man had been drowned in the hulk and another had had his leg broken, he said that by making this report the Government might take the necessary steps to remove the hulk.

Mr. Felton thought the hulk, though an eyesore, was not detrimental to health.

Then there were the hulks of the Falkland Islands Company, which are injurious to health, owing to the offensive smell emanating from them at low water. Also the roadway in front of the Company's lower Store was in a most unsatisfactory state.

Mr. Smith said, to his knowledge, the hulk "Snow Squall" was considered a receptacle for filth of all kinds, also the cellars under the Store were in a filthy state after any heavy wet weather.

Mr. Felton thought it would be impossible to remove the inner hulk totally, it could partly be blown to pieces, but still sufficient would be left to be a danger to boats, &c., what he thought could be done was to cut it down to the level of the jetty.

The President said he thought the Company should be informed of what is required to be done for sanitation.

The Inspector was directed to inspect the hulk "Snow Squall," and corners of the jetties, and if he found a nuisance to act accor-

The following Circular of Enquiry emanating from the Privy Council of the Dominion of Canada, relative to the habits of Fur Seals, has been forwarded to His Excellency the Governor through the Secretary of State for the Colonies.

His Excellency will be much obliged if those in a position to do so, will send in particulars of their knowledge and experience in this matter to this Office as soon as practicable, in order that the result of the Enquiry may be communicated to Lord Knutsford at an early date.

By Command.  
FRED. SHEDDEN SANGUINETTI,  
Ag. Colonial Secretary.

#### CIRCULAR of ENQUIRY.

The Department of Fisheries of the Dominion of Canada, in connection with questions relating to the Fur Seal Fishery of the North Pacific, is desirous of obtaining all possible information relating to the Fur Seal Fisheries of the Southern Hemisphere. The Southern Fur Seal or "Sea bear" (of the family of *Otaridae*) is known to have formed the object of an important industry in the early part of the present century, but the Islands on which it once abounded are now reported, and believed to be, almost entirely depleted of Seals. As the habits and life history of the Fur Seal of the North Pacific Ocean appear to be closely similar to those of the allied Seals of

the Southern Hemisphere, it is thought probable that the history of the decline of the Southern Fisheries may afford some facts having a direct bearing on the Fur Seal Fisheries of the North Pacific, and may serve to indicate a proper mode of protection to be accorded to these fisheries, if such should be found necessary.

In this connection it would be of practical interest to know for each of the Seal Islands, or Sealing grounds of the Southern Hemisphere:—

(1). Whether the decline or destruction of the Fishery is attributable to the slaughter of the Seals while on shore at their breeding places, or to their pursuit at large on the circumjacent Ocean.

(2). In what manner the Fur Seal Fishery has been, or is conducted in each particular locality.

(3). Whether any, and if any, what measures have been taken by various Governments toward the protection of the Fur Seal Fisheries in their territories, or in places within their jurisdiction: and further, if any such measures are known to have proved successful in preserving or re-habilitating the Fisheries

(4). Generally any particulars as to the life history of the animal, its migrations, season of bringing forth its young, and habits of the Seals while engaged in suckling and rearing the young.

It is also particularly requested that copies of any printed documents or reports referring to the Fur Seal Fisheries, or embodying Regulations provided for these fisheries may be furnished.

*The following Minutes of Meetings of the Board of Health of the Falkland Islands are published for general information.*

By Command,  
FRED. SHEDDEN SANGUINETTI,  
Ag. Colonial Secretary.

At a Meeting of the Board of Health held on Saturday, the 14th September, 1891.

Present: The Honourable the Colonial Surgeon, President.

“ “ The Acting Colonial Secretary,

“ “ J. J. Felton.

The Reverend P. J. O'Grady.

The Inspector of Nuisances was in attendance.

Mr. J. Smith through illness was unable to attend.

The Minutes of last Meeting were read.

Attention was called by Mr. Felton to Rule No. 9 of the Regulations and Bye-Laws, and the following Amendment suggested. “That the word “Cottage” be placed between the words “Pensioners” and “Allotment,” which was agreed to.

The President said that he had summoned the Members for two reasons :

1st. That he had received an application from the United States Consul, to know if the Board would give permission to exhumate the body of the late Captain Carver, who died of heart disease on board the wreck “St. Mary,” on the 12th August, 1890.

He, the President, thought there could be no danger, if a leaden coffin were provided ready in which to place the remains for transit to the vessel which was to convey it away.

The Colonial Secretary thought the remains should be disinterred in the early hours of the morning, and everything should be under the supervision of the Colonial Surgeon and the Police.

The Board concurred and sanctioned the removal of the remains with the necessary precautions.

The President stated secondly that a large amount of rubbish had been gathered from the Falkland Islands Company's back yard and premises, and that the Company wished to know where they were to deposit it. He understood that His Excellency had given permission for it to be placed along the sea wall, to the Westward of the Reservoir Jetty.

It was considered that this would be a proper place of deposit; but it was conditional that the rubbish should be rammed down to the satisfaction of the Inspector of Nuisances.

The Inspector then asked if he should serve notices on those parties who had not begun to fence in, according to the Bye-Law,

It was considered proper that time should be given; meanwhile that persons should be warned of their obligations in this respect.

S. HAMILTON,  
President.

*The following Minutes of Meetings of the Board of Health of the Falkland Islands are published for general information.*

By Command,  
FRED. SHEDDEN SANGUINETTI,  
Ag. Colonial Secretary.

At a Meeting of the Board of Health held on Saturday, the 14th September, 1891.

Present: The Honourable the Colonial Surgeon, President.

“ “ The Acting Colonial Secretary,

“ “ J. J. Felton.

The Reverend P. J. O'Grady.

The Inspector of Nuisances was in attendance.

Mr. J. Smith through illness was unable to attend.

The Minutes of last Meeting were read.

Attention was called by Mr. Felton to Rule No. 9 of the Regulations and Bye-Laws, and the following Amendment suggested. “That the word “Cottage” be placed between the words “Pensioners” and “Allotment,” which was agreed to.

The President said that he had summoned the Members for two reasons:

1st. That he had received an application from the United States Consul, to know if the Board would give permission to exhume the body of the late Captain Carver, who died of heart disease on board the wreck “St. Mary,” on the 12th August, 1890.

He, the President, thought there could be no danger, if a leaden coffin were provided ready in which to place the remains for transit to the vessel which was to convey it away.

The Colonial Secretary thought the remains should be disinterred in the early hours of the morning, and everything should be under the supervision of the Colonial Surgeon and the Police.

The Board concurred and sanctioned the removal of the remains with the necessary precautions.

The President stated secondly that a large amount of rubbish had been gathered from the Falkland Islands Company's back yard and premises, and that the Company wished to know where they were to deposit it. He understood that His Excellency had given permission for it to be placed along the sea wall, to the Westward of the Reservoir Jetty.

It was considered that this would be a proper place of deposit; but it was conditional that the rubbish should be rammed down to the satisfaction of the Inspector of Nuisances.

The Inspector then asked if he should serve notices on those parties who had not begun to fence in, according to the Bye-Law.

It was considered proper that time should be given; meanwhile that persons should be warned of their obligations in this respect.

E. HAMILTON,  
President.

The Hon. F. S. Sanguinetti, Acting Colonial Secretary.  
" S. Hamilton, Colonial Surgeon. } Members.  
" J. J. Felton.

The Minutes of the last Meeting held on 14th October were read and confirmed.

His Excellency informed the Council that Her Majesty's Warrant for the appointment of A. E. Baillon, Esq., as a Member for the Legislative Council had been received, and read the Warrant.

Mr. Baillon took the oath and his seat.

The Brewers' Ordinance was referred back to Committee with a view to amending Section 1.

The Council on motion went into Committee and the following amendment was agreed to.  
Section 1, sub-section 1, line 2 For "nine" substitute "two."

The Council resumed its consideration in Committee on the Estimates for 1892.

His Excellency informed the Council that the Secretary of State for the Colonies had approved the proposed reorganization of the Civil Establishment, and the Estimates were amended accordingly.

His Excellency informed the Council that the proposal to place an item of £300 on the Estimates for the codification of the Laws had been negatived by the Secretary of State.

His Excellency read a letter from Mrs. D'Arcy, applying for compensation for money spent by Colonel D'Arcy on public works which was disallowed and refunded by Colonel D'Arcy. Search had been made in the records but no statement showing the exact amount could be traced.

The Hon. J. J. Felton thereupon moved the following :

"Resolved that in view of the letter of August 1st., from Mrs. D'Arcy, addressed to His Excellency the Governor, the Secretary of State be requested to consider whether compensation should not be made to Mrs. D'Arcy from the funds of the Colony for the expenditure on public works incurred by her late husband Governor D'Arcy which, being disallowed, had ultimately to be defrayed by him."

The Hon. A. E. Baillon seconded and the motion was carried unanimously.

The Council then adjourned.

The Council then went into Committee, and it was agreed to insert an item of £50 for Notarial fees refunded.

The Council resumed its sitting.

The Hon. J. J. Felton expressed his opinion that as Chief Constable Hurst had been injured whilst in the execution of duty, a sum of money should be granted sufficient to defray the expenses of his passages during his absences on leave for the restoration of his health.

The Hon. J. J. Felton then moved the following :

"Resolved that in view of the circumstance that Chief Constable Hurst was dangerously wounded in the execution of his duty, necessitating a change of scene and climate for the restoration of his health, the sum of £40 be voted towards the expenses of such trip."

The Governor directs the publication for general information of a despatch which His Excellency has received from the Right Honourable the Secretary of State for the Colonies regarding a survey of the Crown Lands of the Colony and the terms upon which renewals of Leases will be granted.

By Command.

FRED. SHEDDEN SANGUINETTI,  
Ag. Colonial Secretary

Downing Street,  
26th September, 1891.

Sir.

I have the honour to acknowledge the receipt of your Despatches No. 65 of the 15th of May, No. 81 of the 23rd of June and No. 102 of the 23rd July, on the subject of the subject of the leases held by the sheep farmers, and the necessity for a survey of the Colony.

2. There appear to be good grounds for believing that in the leases and grants of Crown land the area of the land leased and granted has been very considerably understated, and that consequently the lessees and purchasers have occupied more land than could be lawfully leased or granted to them for the rent and purchase money which they have paid.

3. If this be so, I do not think that the lessees and grantees, or those who derive title through them, can claim to retain the advantage which they have derived contrary to the law through the mistake of the Government Surveyor, although that mistake has been allowed to remain uncorrected for many years.

4. I am of opinion therefore that a survey of the Colony is required and I am in communication with the Crown Agents for the Colonies as to obtaining the services of a Surveyor and the requisite staff for that purpose.

5. Should the survey prove such errors to have been made in all or any of the leases and grants as are alleged, I consider that the lessees or grantees should have the option of either retaining (subject to the conditions of the leases or grants and to the provisions of the Ordinances) the whole of the land comprised within the boundaries described in the leases or grants on payment of additional rent or additional purchase money for any excess of acreage which may be found on survey to exist over the acreage stated in the leases or grants, or of having the boundaries of their land readjusted so as to reduce it to the acreage so stated. Such readjustment which would be a matter of some difficulty should be made either by agreement or by some impartial Commissioner, or Arbitrator to be appointed by the Judge.

6. In any case however, where the boundary line is not defined by the lease or grant except by specifying the distance from a stated point and it may be found on survey that the lessee or grantee has assumed a much more extended boundary, I am of opinion that he should not be allowed the option of retaining and paying rent or purchase money for the land so occupied through his own mistake in excess of the lease or grant.

7. Should the survey prove in any case that the acreage in the lease or grant has been overstated the lessee or grantee should have a rebate of rent or purchase money.

8. In making the survey all absolutely unproductive ground, whether rock or pond, may properly be excluded from computation.

9. The acreage of the lands recently purchased by the Falkland Islands Company must be considered subject to correction by the result of the survey.

10. In granting renewed leases to the lessees whose leases fall in before the survey and who are entitled under the Ordinances to renewal, a clause should be inserted in the new leases referring to the intended survey and providing for the increase or diminution of the rent in accordance with the result of the survey, or, at the option of the lessee, for the readjustment of the boundaries or, in the case of an undefined boundary as referred to in paragraph 6 of this Despatch, for the surrender of any land occupied by the lessee in excess of what he was entitled to.

11. If any lessee declines to accept a renewed lease containing such a clause you may issue to him a temporary license as proposed in your Despatch No. 102.

12. No claim should be made for back rent for excess of land or for back interest on the purchase money for such excess.

13. As at present advised I am disposed to think that the lessees and freeholders should bear a proportion, but only a very small proportion, of the cost of the survey.

14. The applications which you have received for new leases of Crown lands must remain in abeyance pending the result of the survey.

15. As there appear to be no copies of the leases in this Department except those enclosed in your Despatch No. 102 I should wish to be furnished with copies of some others.

WHEREAS it is expedient to take further steps to prevent the spreading of the disease of "Distemper," at present raging amongst dogs in these Islands I, Roger Tuckfield Goldsworthy, Knight Commander of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander in Chief of the Falkland Islands and their Dependencies, with the advice and consent of the Executive Council, do hereby make the following Order.

1. That the owner of every dog in Stanley shall from this date prevent by fastening up or otherwise, the wandering of such dog from the premises of such owner about Stanley, nor shall he permit any dog to be removed from Stanley to any other part of these Islands.
2. That the owner of every dog outside Stanley shall from this date prevent by fastening up or otherwise, the wandering of such dog from his station or holding into Stanley or any other part of these Islands.
3. That no dog be allowed to be brought off any vessel or boat except under such regulations as may be deemed requisite to prevent the further introduction of the said disease into these Islands.
4. That every owner in Stanley whose dog becomes afflicted with Distemper shall report the same at once to the Chief Constable and every owner outside Stanley of a dog similarly affected shall report the same to the neighbouring station-holders, in order that such steps may be taken as may seem necessary to prevent contagion, and if the destruction of any dog for such purpose be considered advisable compensation, not exceeding Two Pounds, may be paid out of general revenue to the owner of the dog so destroyed.
5. Any person found contravening any part of the above Orders will be liable on prosecution to a penalty not exceeding Five Pounds.
6. This Order shall take effect from this date and remain in force until such time as I, with the advice and consent of my Executive Council, shall deem it expedient to revoke it.
