THE TREASURY,
STANLEY, FALKLAND ISLANDS,
16th December, 1915.
C.S. 284/1915.

W. A. THOMPSON,
Colonial Treasurer.

Minute by the Governor

To the Legislative Council at a Meeting held on the 29th November, 1915.

At the Meeting of the Legislative Council held on the 3rd August last, I had the honour to inform the Council that as far as could be ascertained it was expected that at the end of the current year the financial position of the Colony would be in a better state than had been originally estimated.

I am in a position to-day to inform the Council that, after paying back to the Land Sales Fund the sum of £1,642, borrowed to meet the deficiencies in the earlier months of the year, it is expected that the deficit on the year's transactions will be about £600 in place of the £15,000 originally estimated. This is due, on the one hand, to a larger revenue than was anticipated, and, on the other, in a measure, to its being found impossible to carry out certain of the works provided for under Public Works Extraordinary.

I annex a statement prepared by the Treasurer shewing the Estimated Assets and Liabilities of the Colony on the 31st December, 1915.

The draft Estimates for the Current year, which are submitted for your consideration, shew an expenditure of £32,529 and a revenue, on the basis of present taxation, of £29,834, leaving a deficit of £2,547.

Provision must therefore be made to meet this deficit. To this end an Ordinance will be submitted to you to provide for an increase in the export duties on wool, sheep, sheep skins and hides, and an export duty on canned and preserved meats, and guano. The additional revenue to be raised from these sources is estimated at about £3,100, and will leave the small credit margin of a little over £400 to meet unforeseen expenditure during the year.

In preparing the draft estimates for the year 1916, provision for increases on annually recurrent expenditure has been found to be necessary in some cases, owing to present conditions, at the same time due care has been given to economy. I trust the estimates as framed will commend themselves to the Council. The form in which the estimates have been printed is an improvement to that of the previous years, the credit of which is due to the Honourable C. F. Condell, the Colonial Secretary, who has bestowed much time and attention thereto.

To refer briefly to the principal changes under the several Heads of the estimates.

Governor. Provision is made for the appointment of a Clerk and Private Secretary with salary at the rate of £200 to £250 per annum, in place of a Private Secretary at £100 per annum, in order to retain the services of a permanent officer in the office of the Governor.

Colonial Secretary. The salary of the Office of Second Clerk, at £100 for the current year, has been increased to £150. An additional Assistant Printer, with salary at rate of £96, has been provided for, making a staff of three printers. A staff of two printers is too small for the work required.

Treasury & Customs. It is proposed to transfer the Savings Bank from the Post Office to the Treasury, to be worked as provided by Ordinance No. 1 of 1888, and provision has been made for the appointment of a Second Clerk to this Department at a salary of £150 a year. The salaries of the Customs Officer and the Assistant Customs Officers have been increased from £100 to £120 each. It is proposed to amend the Customs Regulations and to require the services of these Officers at an early hour in the morning without the payment of fees for extra hours. The increased salary to include remuneration for these services.

Port and Marine. Provision has been made for an increase of salary to the Harbour Master etc, to £180 a year. The duties of Storekeeper at present performed by the Harbour Master, at the remuneration at the rate of £18 a year, to be transferred to the post of Clerk and Storekeeper under the Colonial Engineer's Department. There is also an increase of £12 a year, making the salary one of £96, for a deck hand, to secure the services of a suitable person.

Police and Prisons. An addition of £8 has been made to the salary of the Chief Constable, and of £12 each to the Gaoler and the five constables. The scale of salaries will then be: the Chief Constable at £9 a month, the Gaoler and Sergt. of Police at £8, and the five constables at £7 each, monthly, with free quarters in each case. It is also proposed when a constable is detached for duty and serving at South Georgia, acting also as Assistant Customs Officer, to give him a duty allowance at the rate of £50 per annum.

Education. The item Expenses and Allowances to Travelling Teachers, omitted in 1915 estimates, has been inserted at £50. This vote covers travelling gear and expenses, and an allowance to Travelling Teachers at the rate of 3/6 a day when out of their district on authorized leave in the Colony.

Post Office. Personal allowance to Mr. M. Craigie-Halkett at the rate of £50 a year has been inserted in the estimates, in lieu of the £50 paid to him as Manager of the Savings Bank. It is proposed to assign to Mr. Halkett other duties on the transfer of the Savings Bank to the Treasury, in respect of which this personal allowance will be granted. Provision is also made under this Department for the subsidy of £960 a year for the Coastal Service of the Islands under contract for five years from the 1st January, 1915.

Colonial Engineer. Provision is made for the appointment of a Clerk and Storekeeper at the salary of £150 a year. This provision is made to enable the Colonial Engineer to be more frequently out of his Office personally supervising and directing public works under his charge. Provision is also made for the Wireless Station Operator at Fox Bay. Pending the erection of the installation at Fox Bay, the extra assistance required at the present time for the continuous service at the Stanley Wireless Station will be paid from this vote. The telephone operators have been transferred from under the Post Office Department to this Department. In framing the estimates for this Department for the year 1916, only posts of the workmen of a more or less permanent character have been retained and shewn separately. The pay of all other workmen and labourers in future will be paid for by the day, and charged to the vote upon which they are employed. This will afford a means of ascertaining readily the cost of the work undertaken. An item of £50 only has been retained for casual labour under the Department.

Public Works Recurrent. The vote for Roads, Bridges, and Drains has been increased from £500 to £1,000. It is hoped that more work will be undertaken on the roads of Stanley next year than has been possible this year. The vote for repairs of buildings and furniture has been increased from £500 to £700, and includes the cost of labour on the same. The provision of telephone maintenance, has been transferred from the Post Office Department, and the £120 on the estimates includes cost of instruments, materials, and labour. The item for peat cutting has also been transferred, from the Head Miscellaneous, as this work is under the direction of the Colonial Engineer.

Public Works Extraordinary. Provision of £465 is made for the erection of a light at Point William. It is proposed to utilize the light imported some three years ago for Sea Lion Island. It has not yet been possible to erect the light on this Island, the desirability for which on further consideration appears doubtful and will engage further attention. Of the two lights it is considered that William Point is the more desirable. Stanley Town Hall: A sum of £1,540 has been inserted in the estimates to carry on the work of completion on this building. Should the allocation of the ground floor for the Public Offices, as approved by the resolution of this Council on the 3rd August last, meet with the final sanction of the Secretary of State, a further sum of £500 will be required, as I informed the Council by my Minute of the 3rd August, 1915. An additional sum of £783 will also be required should it be decided to install an electric lighting plant. Provision is also inserted for the erection of a house for the Wireless Operator at Fox Bay at a cost of £560; renewing of heating system at Government House, £390; continuation of construction of Moody Street, £340; extension of sea wall, Stanley, £120; extension of

Stanley Cemetery, £200; and completion of King Edward VII Memorial Hospital, £500. This latter item is to extend the heating system to the rooms on the south side of the building, to provide for a reservoir, and a peat shed, cutting and facing the bank and concreting on the south side of the building for its protection against surface drainage from the rising ground on that side. In taking the vote of £560 for the quarters for the Wireless Operator at Fox Bay, I ask the Legislative Council to leave it to the discretion of the Governor in Council to apply this vote with the approval of the Secretary of State to the proposed quarters for the Government Officer on New Island, (for which provision was made this year but it has not been possible to proceed with the work) should it be found possible by other means to provide quarters for the Operator at Fox Bay on the erection of the Wireless Station there.

At a meeting of the Council held on the 3rd August, I informed the Council that further consideration had been given to the original proposal to house the Falkland Islands Volunteers on the ground floor of the building in course of erection and called the Town Hall, and that instead of carrying out that proposal, it had been suggested that the ground floor of the building should be allocated for the accommodation and use of the Supreme Court and the Public Offices etc., the Headquarters of the Volunteers to be provided for in some other Government Building.

The Council subsequently passed a Resolution approving the suggestion made to allocate the ground floor for the Public Offices.

I have since had the pleasure of presiding at a special meeting of the members of the Volunteers at which I recounted to them the original proposals, and explained to them the changes suggested on those proposals. I informed the Volunteers that instead of charging them a rental of £60 a year for accommodation in the Town Hall, it was now proposed to give them, rent free, accommodation for Headquarters, Club purposes, in part of the buildings at present occupied by the Public Offices, as soon as the Town Hall building is completed and the Offices can be moved thereto.

The proposal met with the concurrence of the meeting of Volunteers, at which the following resolution was subsequently passed:—

“That this meeting of the members of the Falkland Islands Volunteer Force, having heard the proposals made by His Excellency the Governor, to carry out the previous intention to use the upper floor of the Town Hall for a Drill Hall for the Volunteers utilizing the ground floor of the Hall for Public Offices and allowing the use by the Volunteers of a part of the present Government Offices for the purpose of Headquarters and a Volunteer Club, concurs in these proposals and will be glad if His Excellency will further consider the matter with a view to effect being given to the same”.

The Council will see that the proposed changes are concurred in by the Volunteers, and I may add, as far as I have been able to ascertain, by the Community generally.

SAVINGS BANK, 1914-15

(MANAGER'S REPORT).

GOVERNMENT SAVINGS BANK,

STANLEY, 12th January, 1916.

SIR,

I have the honour to forward the following report on the Savings Bank for the year ended 30th September, 1915.

2. During the year 206 accounts were opened and 43 closed; leaving a total of 696 depositors, amongst whom the balance in hand amounting to £91,162 8s. 6d. is distributed. This gives an average of over £130 19s. 7d. standing to the credit of the account, or £40 2s. 6d. per head of the population computing the population at 2,272.

3. Interest amounting to £1,799 14s. 3d. has been paid and credited to depositors during the year, being £155 0s. 2d. more than that paid and credited in 1913-14. The amount of Deposits for the year, £23,172 2s. 6d. was the largest since the foundation of the Bank and exceeded the withdrawals for the same period (£11,444 3s. 3d.) by £11,727 19s. 3d, and the Deposits, as compared with the amount received in any previous year, by £4072 7s. 11d.

4. The income earned by the Bank during the year has been £2,309 5s. 1d. and the expenses incurred £1,804 14s. 3d. leaving a profit on the transactions of the year of £505 10s. 10d.

5. The investments held on account of the Bank on the 30th September last. amounted to £74,016 4s. 2d. Owing to continued large deposits the uninvested balance on that date amounted to £17,146 4s. 4d, of which the greater portion is on deposit in England bearing current rate of Bank Interest.

I have, etc.,

M. CRAIGIE-HALKETT,

Manager, Savings Bank.

The Honourable

The Colonial Secretary.

M.P. 149/16.

Report by the Colonial Secretary on the Education Department for the year 1915.

His Excellency,
W. DOUGLAS YOUNG, C.M.G.,
&c., &c., &c.,
Governor of the Falkland Islands.

Sir,

I have the honour to submit to you the Annual Report on the Education Department for the year 1915. Owing to the meagreness of previous Annual Reports and of the Special Report for the Imperial Conference Series I have thought it advisable to give more detailed information than will in future be necessary.

1. General.

2. The provisions for education in the Falkland Islands consist of:

- A. By Government
 - (a) A Government School in Stanley
 - (b) Five Government Travelling Teachers
- B. Receiving a Grant from Government
 - Nil
- C. Independent of Government
 - (a) A Roman Catholic School in Stanley
 - (b) A School supported by the Falkland Islands Company in Darwin
 - (c) Falkland Islands Company Travelling Teachers.

3. The Education Department in this Colony is in a somewhat chaotic state. Previous Education Reports have been submitted by the Inspector of Schools; there is now no Inspector of Schools, and even before the departure of the last Inspector this official, in as far as he was an official, can in no wise be considered to have been, in any ordinary sense, the Head of the Education Department. The late Inspector of Schools, who was the Dean of the Anglican Cathedral here, used to visit, when on his rounds through the country or "camp" districts, the various Government Travelling Teachers and the families they taught, and used to be referred to in certain matters connected with them. He was not allowed to visit the Government School in Stanley officially, he could not visit the little school in Darwin officially, and naturally did not visit the Roman Catholic School at all. He was, therefore, in the somewhat anomalous position of being an "Inspector of Schools" with no schools to inspect. Even in the case of the Travelling Teachers he had no authority. The Teachers' salaries were paid through the Government Schoolmaster in Stanley, who signed and submitted the Vouchers, drew the money, paid it into the Savings Bank to the Teachers' accounts, and even received a percentage as commission for so doing. At the same time it may be noted that the Government Schoolmaster knew nothing about these Teachers; whether they were at work or on leave. The Travelling Teachers did not correspond though either the Inspector of Schools or the Government Schoolmaster in Stanley, but wrote direct to the Colonial Secretary.

4. The paper for the series of Imperial Education Conference papers of 1912, clearly a work for the Head of the Department, was not written by the Inspector of Schools but by the Government Schoolmaster in Stanley. The Education Ordinance

(No. 8 of 1909), though it enters on all sorts of minor details regarding Pupil Teachers, matters which might well be relegated to a Code, does not so much as mention an Inspector of Schools, who only appears as a kind of after-thought and possibility, in the second last of the Regulations framed under that Ordinance.

5. In the Government School itself the position of the Government Schoolmaster has been a peculiar one. He was, to begin with, absolutely independent of the so called Inspector of Schools; he prepared his own syllabus of work, taught it, set his own examination papers, alone supervised the examination, corrected the papers and reported on the results of the examination, so that there was in reality no check whatsoever.

6. The Roman Catholic School, receiving no grant, was, and is, of course under no obligation to furnish Government with any information, nor is the little school at Darwin.

7. Neither from the above-cited paper for the Imperial Conference Series by the Government Schoolmaster nor from the Reports for previous years of the Government Inspector of Schools is it possible to obtain the figures or information which would enable me to make any comparison with the past, whether statistical, educational, or financial. I have, however, got certain figures from the Blue Books, others by enquiry or by consulting some of the Minute Papers in the Colonial Secretary's Office. Even with such assistance it is not, however, easy to prepare an altogether satisfactory Report.

8. There were various changes in the Government Education Staff during 1915.

- (1) The Inspector of Schools, Dean Seymour, left the Colony on the 28th June, 1915, and was not replaced. The Inspector of Schools received no salary as such.
- (2) Mr. and Mrs. Soutar, who had been Government Schoolmaster and Schoolmistress since 1908, left the Colony on the 2nd January, 1915. Mr. and Mrs. Soutar were receiving, when they were transferred, salaries at the rate of £240 and £108 per annum respectively.
- (3) Mr. G. L. Brown, who arrived in the Colony in December, 1914, as a Travelling Teacher, acted as Government Schoolmaster from 2nd January, 1915 to 7th August, 1915.
- (4) Mr. and Mrs. Hoare arrived in the Colony on the 7th August, 1915, and were appointed Schoolmaster and Schoolmistress from that date.
- (5) Mr. Conway, one of the Travelling Teachers, acted as Assistant Master from 1st January to 21st February, 1916.
- (6) Mr. Hubbard arrived in the Colony on the 21st February, 1915, and was appointed Assistant Master from that date.

2. Government School, Stanley.

9. The Staff of the Government School, Stanley, at the end of 1915, consisted of:

(1)	The Government Schoolmaster, Mr. Hoare, salary	...	£200	per annum
(2)	The Schoolmistress, Mrs Hoare, salary	...	75	" "
(3)	Assistant Master, Mr. Hubbard, salary	...	120	" "
(4)	Assistant Mistress, Miss Carey, salary	...	51	" "
(5)	Pupil Teacher, 4th Year, Miss E. Pearce, salary	...	33	" "
(6)	Pupil Teacher, 2nd Year, Miss L. Poppy, salary	...	27	" "
(7)	Pupil Teacher, 2nd Year, Miss A. Lanning, salary	...	27	" "
(8)	Pupil Teacher, 2nd Year, Miss M. McNicoll, salary	...	27	" "

Total (Staff) £560

10. The number of pupils on the Roll on the 31st December was:

	1913	1914	1915.
Boys	88	74	89
Girls	68	64	68
Total	156	138	157

11. The number of pupils in Average Attendance during the year was:

	1913.	1914.	1915.
Boys	77	68	71
Girls	60	58	59
Total	<u>137</u>	<u>126</u>	<u>130</u>

12. There is no exact record of the number of pupils examined in 1913, 1914 and 1915. The number examined in September, 1915, was apparently about 137, Boys 78, Girls 59.

13. The number of openings of the school, each morning and each evening counting as one opening, was:

1913 : 445

1914⁽¹⁾ : 358

1915 : 467

14. The School is held in large and commodious buildings, a main school-house containing a central hall, 4 class-rooms, 2 vestibules for hanging hats, great coats, &c.; a smaller school-house containing one large Infant class-room and an office for the Head Teacher. There is a fair-sized yard or play-ground, with proper sanitary out-buildings, tanks, a shed, and a giant stride. The school is situated in the centre of the town. The buildings were erected in 1905-6 at a cost of about £3,000, inclusive of the price of the site. The Government Schoolmaster and his wife, who is the Schoolmistress, are provided with a free house of an annual rental of £30 and 54 free loads of peat per annum, (value about £10).

15. The expenditure on the Stanley School during 1915 amounted to about £1026, divided as follows:

(a) Salaries	£572
(b) Other charges, including fuel and light, landing charges, &c.,	75
(c) Rental value of buildings (estimated)	200
(d) Teachers' passages	73
(e) Freight of Teachers' furniture	56
(f) Stationery £50	50
Total	<u>£1026</u>

The total amount received in fees during 1915 was £128 : 12 : 6. The pupils paid £23 for stationery supplied. The actual cost to Government of the upkeep of the school for 1915 may therefore be estimated at £874, or, with 130 children in average Attendance, at £6 : 7 : 0 per head.

3. Government Travelling Teachers.

16. The Colony of the Falkland Islands outside Stanley is, educationally, as far as Government is concerned, divided into five "beats", each one of which is in charge of a Travelling Teacher (or Itinerant Schoolmaster). There are two beats on the East Falkland and three on the West Falkland. The salary of a Travelling Teacher commences at £60 per annum and rises, by increments of £5 each year, to £80. Travelling Teachers come out from the United Kingdom on a five years agreement and receive a free 2nd Cabin passage to the Falkland Islands and back. In addition to his salary each Teacher is entitled to free board and lodging and free transportation from point to point while on duty. The titular Travelling Teachers during 1915 were:

- East Falkland (a) Mr. G. L. Brown, never took up appointment
- (b) Mr. W. U. Currie, appointed 18th September, 1913.
- West Falkland (c) Mr. F. P. Thomson, appointed 16th November, 1911.
- (d) Mr. A. G. Simon, appointed 12th August 1913
- (e) Mr. W. E. Conway, appointed 10th December, 1913.

(1) The School was closed from the middle of October until the end of the year owing to the War.

17. On account of the War and the consequent dislocation of local services, Mr Brown and Mr Conway were employed in Stanley during the whole of 1915 and Mr Currie from January to June 1915, the two latter being Volunteers. It is consequently impossible to give any details concerning "Beats" (a) and (e) for this year. Mr Thomson on Beat (c) had under instruction during the year 15 children, 8 boys and 7 girls; Mr Simon, on beat (d) taught 10 children, 5 boys and 5 girls; Mr Currie, on beat (b) taught, during a part of the year, 13 children, 5 boys and 8 girls. There were thus in all 38 children, 18 boys and 20 girls, receiving instruction from the Government Travelling Teachers. The Government expenditure in 1915 on the Travelling Teachers amounted to £244, (including amounts paid to those otherwise employed.)

4. Roman Catholic School, Stanley.

18. The Roman Catholic School in Stanley, St. Mary's School, is in charge of Sisters of the Congregation of Mary, Help of Christians, a Congregation founded in Turin, Italy, by the Venerable Dom Bosco in 1872. This Congregation first arrived in the Colony in January, 1907, to replace the Salesian Congregation which had been in charge of the school previously. The present staff consists of three Sisters. The Manager is the Reverend Father Migone, the Roman Catholic clergyman. The school does not receive any Grant in aid from Government.

19. The number of pupils on the Roll on the 31st December was:

	1913	1914	1915
Boys	30	35	28
Girls	75	72	66
Total	105	107	94

20. The number of pupils in average attendance was:

	1913	1914	1915
Boys	26	28	24
Girls	60	58	42
Total	86	86	66

21. The number of pupils examined at the Annual Examination was:

	1913	1914 ²	1915
Boys	29	—	20
Girls	51	—	46
Total	80	—	66

22. In connection with his educational work, Father Migone runs an excellent Cinematograph entertainment. Before the War there were monthly "free shows" open to all the children of Stanley and the Government Schoolmaster used to be present to explain the meaning, &c., of the pictures to the children. The whole expense of the installation has been borne by Father Migone himself, and since the beginning of the War the proceeds of many of the paying shows have been devoted to the Red Cross, the Belgian Relief and other funds.

5. The Falkland Islands Company's School and Teachers.

23. The Falkland Islands Company maintain a school with one Teacher at their little town of Darwin and further employ two Camp Teachers to visit the shepherds' houses in Lafonia, the south-west portion of East Falkland, the whole of which district belongs to the Company.

(2) There was no examination in 1914 on account of war conditions.

24. The number of children receiving instruction in the Darwin School in 1915 was 15; boys 8, girls 7. In cases where children shew any special aptitude they receive as a supplement to the ordinary elementary instruction teaching in secondary school subjects, inclusive of latin, geometry, algebra, statics, dynamics.

25. The Camp Teachers usually assign six weeks to each house; occasionally when two houses are near one another, two families are instructed together, the children walking or riding to the house where the Teacher has his temporary quarters. The number of children receiving instruction from these Camp Teachers in 1915 was 37, boys 20, girls 17.

6. Examinations.

26. The children of the Roman Catholic School, Stanley, and of the Falkland Islands Company's School Darwin, are examined under arrangements made by their own Managers. Government has nothing to do with these examinations. At the former school there was a Prize Day, in December, 1915, on which several Recitations and Songs were rendered by the pupils in a very satisfactory manner. The prizes were distributed by the Governor. On the following day there was an exhibition of work. The children taught by the Government Travelling Teachers and the Falkland Islands Company's Camp Teachers are, if examined at all, examined by their Teachers.

27. There has been, in the past, no Annual Examination of the Government School, Stanley, at the end of the school year in December. The usual examinations in March, June and September, conducted entirely by the Head Teacher (Government Schoolmaster), were held in 1915. There was a distribution of prizes for the year 1914 on 2nd June, 1915; the prizes were distributed by the Colonial Secretary, the Governor being unavoidably absent.

28. The Examination of the Pupil Teachers of the Government School, Stanley, is generally held in February each year. No examination for 1914 was held in February 1915, on account of the War. The examination for 1915, held in February 1916, was conducted by the Colonial Secretary by request of the Governor. The results are given in Appendix V.

7. Conclusion.

29. In concluding I must express my hearty thanks to the Reverend Father Migone for kindly sending me the information I asked for about the Roman Catholic School in Stanley, and to Mr. W. A. Harding, the local Manager of the Falkland Islands Company, and Mr. Alexander Moir, of Darwin, for the details with which they furnished me about the Company's School and Teachers.

Sir,

I have the honour to forward to you herewith, for the Governor's information, my Annual Report for the year 1915.

Acting Colonial Surgeon.

THE HONOURABLE,

Medical and Nursing Staff.

On 12th May Dr. Craddock arrived to take up the post of Assistant Colonial Surgeon, East Falkland.

On 28th June Dr. Pearce went home on leave, Dr. Craddock being appointed acting Colonial Surgeon.

Dr. Turner from the West also left by the same boat as Dr. Pearce.

The West were without a doctor until October when Dr. Henry arrived as "Camp" Doctor.

Miss Brookfield who came out as trained Nurse and Midwife was acting Nurse Matron until November when she resigned, leaving Stanley to be married.

Since then there has been no nurse in Stanley owing to the shortage of Nurses at present in England in England.

King Edward VII Memorial Hospital.

In May the new King Edward VII Memorial Hospital was opened and the old Victoria Cottage Home closed and converted into Headquarters for the Falkland Islands Volunteers. Twenty one cases were admitted to the King Edward VII Memorial Hospital during the year.

4 Females

17 Males.

Cases admitted:—

Ruptured Perineum	-	-	1	Displaced Semilunar Cartilage	1
Morbus Cordis	-	-	1	Maternity Case	- - 1
Fractured Spine	-	-	1	Tubercular Ankle	- - 1

Herpes Zoster	-	-	1	Appendicitis	- - - 1
Mucous Colitis	-	-	2	Tubercular Ulceration	- - 1

Epidemics.

The only epidemic that occurred was during July, August and September. The cause of this was difficult to trace as it occurred more or less simultaneously over the East and West Islands, chiefly in the larger settlements. No cases occurred in Stanley. There were five deaths. The symptoms simulated very closely those of Beri Beri and in some stations nearly all the inhabitants complained of some symptom or other, although I think that many of the milder cases, the symptoms of which were mainly gastric, were due to indiscretions of diet, etc., and would never have come under notice, had it not been for the nervousness due to the fatal cases.

Quarantine, Shipping, Etc.,

No infectious cases have been reported from the ships although two cases of Mucous Colitis were admitted to the King Edward VII Memorial Hospital from one of the whaling boats.

General Health of Stanley.

Since May I have only seen one case of the ordinary exanthems, a case of Chicken Pox in a child. There has been one case of Pulmonary Tuberculosis, a man who was seen soon after his arrival to the Colony and who left after three or four weeks.

The health of the workmen erecting the Naval Wireless Station has not been so good as that of the ordinary population of Stanley. The chief illnesses among the men have been Bronchitis, Rheumatism, and Enteritis. Many cases of the latter being, I think, due to excessive meat eating to which the men were unaccustomed, and in many other cases to the abuse of alcohol. The lack of accommodation and subsequent crowding also helped to lower the general condition of the men.

person authorised by him.*

11. Every withdrawal from the Savings Bank shall be paid to the Depositor in person, or to the person duly authorized by him to receive the same, and receipts shall be given by the Depositor, or by the person authorized, as the case may be, for every payment made to him.

An authorization to receive payment from the Savings Bank shall be signed in the presence of a Justice of the Peace, a Minister of Religion recognized by the Government, or a landed proprietor or Lessee of Crown Lands or his Manager in the District in which the Depositor resides. If the Depositor be out of the Colony, his signature shall be verified by some constituted authority of the place in which he resides.

12. Applications to withdraw money deposited by any Friendly, Charitable or Provident Society, or Penny Savings Bank, shall be signed by two of the Trustees of any such Society, or Penny Savings Bank, or, when there is no Trustee, then by the Treasurer, and the names of the Trustee or Treasurer or other Officer of the Society authorised to receive the amount to be withdrawn, shall be stated in the notice of withdrawal, and the Warrant for payment of the amount shall be made out in the name of such Trustee, Treasurer, or Officer, and the receipt of such person apparently authorised shall be a sufficient discharge for the same.

13. In case any Depositor shall die leaving any sum of money in the Savings Bank, the same shall only be paid to the Executor or Administrator on the production of the Probate of the Will, or Letters of Administration of the Estate or Effects of the deceased Depositor, to the Treasurer. Provided always that if the sum of money, with interest, due to such Depositor at the time of his death shall not exceed Fifty Pounds, and if Probate of his Will or Letters of Administration be not produced to the Treasurer, or if notice in writing of the existence of a Will, and intention to prove the same, or to take out Letters of Administration, be not given to the Treasurer at his office within the period of one month after the death of the Depositor; or if such notice be given, but such Will be not proved, or Letters of Administration be not taken out, and the Probate or Letters of Administration (as the case may be) be not produced to the Treasurer within the period of two months from the death of the Depositor, it shall be lawful for the Treasurer after such period of *one* or *two* months (as the case may be) to pay and divide such funds at his discretion, to or amongst the widow or relatives of the deceased Depositor, or any, or more of them; or, if he shall think proper, according to the Statute of Distributions.

14. If any Depositor, being illegitimate, shall die intestate, leaving any person or persons who but for the illegitimacy of such Depositor, and of such person or persons, would be entitled to the money due to such deceased Depositor, it shall be lawful for the Treasurer, with the authority in writing of the Chief Justice of the Supreme Court, to pay the money of such deceased Depositor to any one or more of the persons, who, in his opinion, would have been entitled to the same according to the Statute of Distributions if such Depositor and such person or persons had been legitimate.

15. If any Depositor shall become insane or otherwise incapacitated to act and the same shall be proved to the satisfaction of the Treasurer, and if the Treasurer shall be satisfied of the urgency of the case, he may pay from time to time out of the funds of such Depositor to any person whom he shall judge proper, and the receipt of such person shall be a good discharge for the same.

16. If any dispute shall arise between the Treasurer and any individual Depositor or any executor, administrator, next of kin, or creditor, or assignee of a Depositor who may become bankrupt or insolvent, or any person claiming to be such executor, administrator, next of kin, creditor or assignee, or to be entitled to any money deposited in the Savings Bank, then and in every such case, the matter in dispute shall be referred to the Chief Justice of the Supreme Court, and whatever award, order, or determination, shall be made by the said Chief Justice, shall be binding and conclusive on all parties, and shall be final to all intents and purposes without any appeal.

17. No money shall be paid from the Savings Bank without the production of the Depositor's pass book and application for withdrawal made on the prescribed form. Payments may be made, when convenient to the Treasurer, at the time of application, provided nevertheless the Treasurer may in the exercise of his discretion require on the receipt of the application for withdrawal the following periods of delay:—

For any sum of money not exceeding ten pounds (£10.) Two days.

For any sum of money exceeding ten pounds (£10.) Four days.

Provided always that in case of the withdrawal of any sum exceeding Fifty Pounds, (£50) payment may be made by a Bill of Exchange at par, drawn by the Governor on the Crown Agents for the Colonies in London payable thirty days after sight, or in cash from the Treasury Chest, at the discretion of the Governor. In case of payment by Bill of Exchange the withdrawal will be complete on the day of the date of such Bill.

18. The Regulations made by the Governor in Council on the 8th day of May, 1888, are hereby cancelled.

Made by the Governor in Council, under the provisions of The Savings Bank Ordinance, 1888, this first day of March 1916.

—:O:—

Annual Dental Report 1915.

A retrospect of the years work shows a fair average, taking into account the constant population of *bona fide* residents. Owing to the increased shipping into this Port the actual figures showing amount of treatment are more than those of 1914. The visits from the children are much the same as those of 1914, but it is worthy of note that there is not so much reluctance on their part to receiving the treatment that they may require. With regard to Government Officials and servants the number treated greatly exceeds that of 1914.

Statistics.

Sir,

I have the honour to submit herewith returns (numbered 1 to 12), called for under Colonial Regulation 396, together with a Draft of the Supplementary Appropriation Ordinance in respect of the year ended 31st December 1915.

REVENUE.

2. The total revenue collected amounted to £63,626 : 11 : 11 as against £30,342, estimated. It includes £8472 : 12 : 7 instalment of Land Purchase, and £806 : 15 : 0 collected under the Live Stock Ordinance, leaving a total Ordinary revenue of £34,347 : 4 : 4, being £13,274 : 4 : 4, over that estimated. Compared with the revenue for the previous year, it shows an increase of £587 : 9 : 7.

3. The following shows the heads of revenue with the amounts in excess of the estimate:—

Head	1. Customs	£6888 : 8 : 8
	2. Port Dues	533 : 19 : 0
	3. Internal Revenue	3674 : 18 : 2
	4. Fees Fines &c.	1186 : 10 : 2
	5. Interest	1120 : 3 : 6
	8. Miscellaneous	398 : 14 : 2
		£13802 : 13 : 8

5. Head I. Customs Duties £12,887 : 8 : 8. Both the Import and Export Duties exceeded the estimate; the former by £3129 : 14 : 3, and the latter by £2258 : 14 : 5, and were £926 : 17 : 10 more than the previous year. The most noticeable increase was under "Imports on spirits, Falklands", (£896 : 8 : 7 more than in 1914), and "Exports on Whale oil, South Georgia" (£1065 : 0 : 3 more than in 1914).

6. Head 2. Port Dues £681 : 19 : 0. All the Items under this head, with the exception of "Wharfage", exceeded the estimate and were £41 : 5 : 0 more than the previous year.

7. Head 3. Internal Revenue £5632 : 18 : 2. The total receipts under this head was £321 : 14 : 1 more than in the previous year, and is explained by the extra Floating Factory licences issued at South Georgia. IMPORTANT.

AN APPEAL TO ALL BRITONS OVERSEAS.

Issued by the United Workers, London, with the approval of

The Right Hon. A. Bonar Law, Secretary of State for the Colonies.

After two years of the War we see most clearly emerging a struggle of Economic Endurance, to be waged by the non-combatants; and that side whose non-combatants can finance it longest will win. Upon the issue depends the liberty of our Empire.

The whole German nation is supporting its armies. The utmost frugality is in force, and the nation's resources are being conserved in a remarkable way. To the recent War Loan, which realised 535 millions, there were 5,279,645 subscribers. *Germany is not exhausted.*

Britain, who must buy her food and raw material abroad, and lend her allies more than a million pounds a day, has at last realised that every single citizen is called upon for his or her maximum effort. Through her Cabinet Ministers she has called upon the people for self-denial, for the utmost conservation of resources, and for the loan of every spare penny.

And the people, now that they understand this to be an economic struggle, are responding more and more. They are awakening fast. The national conscience is stirring. We intend to produce more, to consume less, and to adjust our whole economic outlook to the War.

Meanwhile, it is of the utmost importance that every Briton overseas, man and woman, shall understand the position. We address all of British blood. We address Canadians, Australians, South Africans, Britons in the Crown Colonies and Protectorates, Britons in India and Burmah, Britons in the United States, in Latin America, in China, Britons wherever they may be on the face of the Earth; and we tell them this:—

- (1) Time is on our side if our Empire can outlast Germany in money and resources; and it is beyond dispute that we can outlast her if we choose.
- (2) Our power so to do, depends entirely upon the individual conserving **his** resources and making them available for the War.
- (3) This he can only do by producing more, consuming less, and lending every penny he can either to his own Government's War Loans or to those of the British Government.

HOW TO LEND.

Canadians, Australians, New Zealanders,	}	Subscribe to the War Loans which your own Governments will issue.
South Africans, Newfoundlanders.	}	If your own Government do not issue War Loans, apply in London for 5% Exchequer Bonds, issued free of Income Tax.
Britons in the Straits Settlements and Malay States.	}	Subscribe to the local War Loan. If closed, apply in London for 5% Exchequer Bonds, issued free of Income Tax.

Britons in other Crown Colonies and Protectorates.	Subscribe to any local War Loan. Where there is none, apply in London for 5 ⁰ / ₁₀₀ Exchequer Bonds, issued free of Income Tax.
Britons in India and Burmah.	Subscribe to any local Loan. If there is none, apply in London for 5 ⁰ / ₁₀₀ Exchequer Bonds, issued free of Income Tax.
Britons in United States of America.	Buy the Anglo-French Loan on the open market. Or you can apply in London for 5 ⁰ / ₁₀₀ Exchequer Bonds, issued free of Income Tax.
Britons in other Foreign Countries.	Apply in London for 5 ⁰ / ₁₀₀ Exchequer Bonds, issued free of Income Tax. Take the advice of some local British Banker as to how you can best help the Exchange in our favour.

DOWNING STREET,

SIR.

I have the honour to inform you that the question having been raised whether British subjects ordinarily resident in Great Britain but at present living abroad should return to this country to enlist, the Army Council have requested that it may be made known as widely as possible that they do not intend at present that the provisions of the Military Service Acts should be enforced in respect of persons liable to service under those Acts who are at present residing in British Colonies and Protectorates.

2. The Army Council state that, while every endeavour will be made to utilize the services of such persons should they return, they must do so at their own risk and expense.

I have the honour to be,
Sir,
Your most obedient, humble servant
A. BONAR LAW.

No. 56.

Colonial Secretary's Office,
Stanley, Falkland Islands.
5th September, 1916.

The Governor directs the publication, for general information of the Annual Report of the Chief Inspector of Stock for the Season 1915-1916.

By Command,
C. F. CONDELL,
Colonial Secretary.

Stock Department,
Stanley, Falkland Islands,
5th September, 1916.

Sir,

I have the honour to forward herewith the Annual Report of this department for the season 1915-1916.

Seasons.

2. The late Spring and Summer were very dry, hard camp suffering a good deal in consequence. The Winter has been open, not too severe, and with less rain than usual.

Sheep.

3. The general health of the flocks is excellent; in fact, speaking from personal knowledge, I am able to say that the sheep are freer from external parasites at the present time than they have been during the last seven years and the Colony can also congratulate itself on the fact that the flocks are free from practically every contagious and infectious disease so common among Sheep in other parts.

(a) The clip has been well up to the average and in every way satisfactory, the highest price for Wool being $1/8\frac{1}{2}d$, which is the record for over 40 years.

(b) The total number of Sheep in the Islands is now 689,904; this is over 11,000 less than the returns of last year, and less than has been returned in the Colony since 1909. The decrease is mainly due to the fact that over 77,000 Sheep were disposed of during the season or more than 17,000 more than last year.

(c) It is very satisfactory to report that the death rate for the season of 10.30% is less than it has been for six years and is over 2% lower than in 1913. The mortality is due mainly to climatic conditions, bad ditches, swamps etc., nevertheless the death rate could be reduced in some parts if there was less rush and rough handling of stock, which are especially noticeable at the dippings.

(d) Everything was in favour of there being a good increase of lambs, yet the returns, more especially on the West, were disappointing. The percentage was 68.80 which although, 4% better than last season, still leaves much to be desired.

(e) Owing to complaints on both East and West Islands about driving stock through farms without due notice being given, it was found necessary to circulate to all farms on the mainland copies of Sections 18 & 19 of the Live Stock Ordinance No. 8 of 1901.

Canning.

4. Although only the Goose Green factory was working over 37,000 sheep were canned, which is over 8,000 more than ever canned in the Colony previously. For the first time sheep were purchased from the West Falklands for the works, 13,120 being shipped per S.S. "Falkland" from Port Howard to Egg Harbour.

Prices given were

Sheep over 45 lbs (dead weight)	2 $\frac{1}{4}$ per lb.
Between 40 & 45 lbs " "	2 $\frac{1}{2}$ " "
Under 40 lbs " "	3/6d per head.
454 Cattle were also canned.	

Cattle.

5. Number in the Colony 7,561. Health very good. New blood is very badly needed on both East & West Falklands.

Horses.

6. Number in the Colony 3,929. General health good. Mortality 3.5%. Foaling 53.73%. On some stations, owing doubtlessly to a shortage of horses, it has been the custom to send worn-out old Mares to the Manadas, for breeding purposes. Such a procedure is naturally unprofitable, for it is not reasonable to expect an old mare to rear a foal well, when it often is a difficult matter for her to support herself. Happily there is now every possibility of this method being changed, for quite a number of good young mares have been imported, many of which will be used for breeding purposes. Some really good class Stallions of a suitable stamp are very badly needed indeed.

Exports.

7. No live animals were exported during the season, as the law does not permit the exportation of stock to any Country except the United Kingdom.

Imports.

8. Five Romney Rams of first quality were imported from England. This is the least number of Rams imported for some years. From South America 313 Horses and Mares were imported. Some of these animals were heavier and better class than usually shipped to the Colony.

Cultivation.

9. Owing to the exceptionally dry Summer, hay crops were lighter than usually. There is now more land under cultivation than there has ever been previously, and there is every likelihood that that this will increase yearly. The advantage of being able to buy good hay locally grown must now be apparent, for the imported material is poorer in quality and considerably higher in price. In addition there is always a risk of introducing disease into the Colony with imported hay.

Ensilage.

10. This has been tried as an experiment for the first time in the Colony, a crop of oaten hay having successfully been turned into Ensilage. The advantages which are claimed for the process should appeal to the Falkland Island farmer, the principal one being that in the raising of crops a farmer is independent of weather conditions, which in this Colony is a decided gain, for few seasons occur in which difficulty is not experienced in reducing green fodder to a sufficiently dry condition for stacking in the ordinary way. Ensilage is a valuable food for stock, and can be made out of the great majority of green crops and grasses. An experiment made with Tussac would prove interesting and valuable.

Diminution of certain wild birds.

11. Although a sum of £50 is estimated to be spent on the destruction of Rooks, Carranchos, & Turkey Buzzards, yet during the last twelve months less than £8 has been paid out for this purpose.

Quarantine Station.

12. The fences have now been put in thorough repair, the shed painted outside and limewashed inside. The dip has also been repaired and a concrete floor has been laid beneath the gratings, so that now the shed can be thoroughly disinfected, which formerly, with a soft earthen floor, was impossible. The work was carried out by the Public Works Department at a total cost of £99 : 4 : 9.

I have the honour to be

Sir,

Your obedient servant,

H. W. TOWNSON, M.R.C.V.S. (Lond.)

The Honourable

The Colonial Secretary,

Stanley.

Colonial Secretary's Office,
Stanley, Falkland Islands.
27th September, 1916.

The following suggestions by Dr. F. J. Craddock, Acting Colonial Surgeon, for an improved diet, and a few short hints on vegetable growing by Mr. A. W. Benton, Gardener, Government House, are published for general information.

By Command,
C. F. CONDELL,
Colonial Secretary.

M P. 925/16.

SUGGESTIONS BY THE ACTING COLONIAL SURGEON FOR AN
IMPROVED DIET IN THE FALKLAND ISLANDS.

1. More might be made of the natural resources of the Island.

- (a) Beef can generally be obtained either alternate weeks or at least every third week.
- (b) Fish can be obtained during a considerable portion of the year if trouble is taken to catch them.
- (c) Geese are always plentiful (other game such as teal, hares and snipe can be obtained in season).
- (d) Fowls and eggs are fairly plentiful.

If proper advantage is taken of the above foods helped out with tinned and potted provisions it would do a great deal to relieve the monotony of the mutton diet which at present seems to be the only flesh that many exist on week after week.

2. More might be made of the vegetables that can be grown.

All the houses have a garden, many of them of considerable size. In many of these, (in fact in most of them,) the major portion is laid out in potatoes which are practically the only vegetable imported and which can always be obtained.

If the householders laid their gardens out chiefly in other vegetables and only planted a small portion with potatoes, they could always buy sufficient potatoes to prevent any actual shortage.

Cabbages (two or three kinds) carrots, parsnips, swede turnips, leeks and cauliflour will all grow with a little care, Beet and lettuces do well in some gardens.

Young carrot tops make an excellent substitute for spinach when properly cooked. In fact much of the green food that is habitually wasted could be used for vegetable soups.

JOHN CRADDOCK.

7th September, 1916.

A FEW SHORT HINTS ON VEGETABLE GROWING.
FALKLAND ISLANDS.

Preparation of heavy soil.

Heavy soil should be prepared by bastard trenching, *i.e.* by digging a trench 14 inches deep 3 feet 6 inches wide the full width of plot and removing soil; the bottom of the trench should then be broken up to a depth of about 12 inches. Trench No. 2 should be 3 feet wide and treated in exactly the same way as No. 1. By trenching the whole plot in this fashion the ground will be dug to a depth of 26 inches. Trenching should be done in Autumn, or throughout the winter months.

Preparation of light soil.

Light soil should be turned up rough in the Autumn and lime should be applied in Spring in preference to Animal Manure. 14 lbs. of lime per rod.

POTATOES.

Early second early are the best to grow. Varieties with shallow eyes such as Rosebery, Advancer, Royalty, Duke of York, Suttons Snowball, Suttons Supreme and Dobbie's Favourite are recommended. Sets weighing from 2 to 3 oz. are the best to plant, and they should be laid out in shallow boxes until growth has begun, then plant between 20th September and 10th October. There should be 2 feet between the rows and 1 foot between the tubers, and sets should be planted 4 inches below the surface. During growth the ground should be kept free from weeds and a sprinkling of lime will be found beneficial. Earth up to the plants when they are six inches high.

PARSNIPS, CARROTS and BEETROOT.

Sow parsnips and carrots on 15th September or as soon thereafter as weather permits. Drills should be 14 inch to 15 inch apart and 1 inch deep. Sow parsnip seed thick, and carrot seed thin. Parsnips should be thinned about 14 inches apart, and carrots 6 inches apart and remaining plants removed for use not later than January. The ground should be kept free from weeds and porous. Should the ground be of tenacious clay and not permit trenching, holes about 3 feet deep should be dug and filled with fine soil. The following varieties are recommended, *Carrots*, James Scarlet Intermediate, Carter's Short Horn, Improved Horn, Early Market; *Parsnips*, The "Studant" and Hollow Crown.

Beetroot should be sown in the latter part of October. There should be 14 inches between the rows and 1 foot between the plants. Holes should be made with a small dibber and 3 or 4 seeds placed in each hole 1 inch deep. Plants should be thinned out 12 inches apart. The following varieties are recommended; Eegyption Turnip Rooting varieties, Carter's rouny, Carter's Dainty and Dell's Dark-Leaved.

TURNIPS.

The ground should be lightly manured and turned over deeply with spade. Seed should be planted not earlier than the first week in October, and should then be sown every month or six weeks to keep up a good supply of young roots. The young plants should be thinned out to 6 inches apart. Good varieties are the Little Marvel, Snowball, Golden Rose, Golden Ball and Jersey Lily. The Suede Turnip should be treated in the same way except that they should be thinned out 14 inches apart. The Crimson Top Suede is recommended.

ONIONS.

The ground should be bastard trenched and a heavy dressing of manure should be worked in. Drills should be 14 inches apart. The seed should be sown thickly about 1 inch deep not later than the 16th September. The plants should be thinned to 1 foot apart and the ground kept open by the use of the hoe. The plants should be manured as they are gross feeders.

CABBAGE and WINTERGREENS.

Ground should be well manured and dug deeply. Three sowings are required, the first in September, the second in November, and third at the beginning of February. Cabbage should be sown in drills about 6 inches apart and $\frac{1}{2}$ in. deep. The seed should be sown thin and kept moist. When the second leaves appear the plants should be planted out in a bed 6 inches apart. When they have become good strong plants they should be transplanted to the final quarters having 18 inches between the rows and 15 inches between the plants. The following are recommended; Sutton's April, Enfield Market, Wheeler's Imperial, Carter's Beefheart and Carter's Marrow. The Savoy Cabbage is the winter green which is sown at the beginning of October, receiving the same treatment as Cabbages. They should be planted 2 feet apart or between Potatoes in

December and will give useful produce in June, July, August and September. Other good winter greens are Scotch Kale and Russian Kale. Purple sprouting Broccoli will be found to be one of the most useful vegetables in the garden. It is at its best in October when vegetables are scarce and is a favourite in the Old Country. Sow Broccoli seed at the end of October in drills 6 inches apart and $\frac{1}{2}$ an inch deep. When the plants are large enough plant in a firm and rather poor soil. Planting of all kinds of cabbages should be done with the garden trowel or hand fork. The following varieties are recommended; Broccoli Late Queen, Universal Protecting, Carter's autumn and Snows Winter White.

DEAR SIR,

I am directed by the Prince of Wales to acknowledge the receipt of your letter of the 7th ult., intimating that the Crown Agents for the Colonies have been requested to pay to the National Relief Fund, the sum of £181 14s. 6d., being the balance of monies collected in the Falkland Islands on behalf of the Fund, during 1914 and 1915.

This makes a total of £5,181 14s. 6d., that has been contributed by the people of the Falkland Islands.

His Royal Highness is deeply interested in all subscriptions received from the British Colonies, and particularly appreciates the generosity of the people of the Falkland Islands, in supporting the Fund.

Will you be so good as to make known to all the contributors, how grateful the Prince of Wales is, for their kind help.

For some time past the outgoings have exceeded the income. It is hoped that on the conclusion of hostilities there will be the sum of at least £3,000,000 available for dealing with the distress which must arise on the completion of army contracts, and the disbanding of the new armies.

Proclamation

[L.S.]
W. DOUGLAS YOUNG,
Governor.

By His Excellency WILLIAM DOUGLAS YOUNG, Esquire, Companion of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief in and over the Colony of the Falkland Islands and its Dependencies.

WHEREAS a Proclamation was issued on the 13th day of July, 1915, prohibiting the introduction, amongst other things, of hay into this Colony from the Republic of Chile,

AND WHEREAS by my Proclamation of the 19th October, 1916, I did, for the time being and until further notice, modify the aforesaid Proclamation of the 13th day of July, 1915, so far as to permit the introduction of hay from Punta Arenas, Chile,

NOW THEREFORE know ye that with the advice of the Executive Council I do hereby revoke and rescind my Proclamation of the 19th October, 1916, aforesaid, and that the Proclamation of the 13th day of July, 1915, remains in full force and effect.

Given under my hand and the Public Seal of the Colony at Government House, Stanley, this eighth day of November, in the year of our Lord one thousand nine hundred and sixteen.

By Command,

C. F. CONDELL,

Colonial Secretary.

Falkland Islands.

Meeting of the Legislative Council held on the
4th November, 1916.

Minute by the Governor.

I have the honour to submit for the consideration and approval of the Legislative Council the Estimates for the service of the Colony for the year 1917.

The Revised Estimates for the current year, 1916, shew,

Ordinary Revenue	-	-	-	£36,500 and
Expenditure (including Public				
Works Extraordinary	-	-	-	£26,500

leaving an available balance of	-	-	-	-	£10,000
---------------------------------	---	---	---	---	---------

Added to the surplus balance (£4,300) brought forward on 1st January, 1916, the surplus balances of the Colony on the 1st January, 1917, will, it is estimated, amount to over £14,000. Statement by the Treasurer annexed.

The surplus balance on the current year's working has been largely due to the necessary postponement of certain public works provided for but not carried out during the year.

The valuable asset of the Colony in the Land Sales Fund will, it is estimated, with the sum of £8,593 to be paid in during the present year, be increased to £126,173 on the 31st December next. The bulk of these moneys are invested in approved securities.

The Ordinary Revenue for the year 1917 is estimated at £31,681
and the Expenditure (including Public Works Extraordinary) at £29,530

leaving an available balance of	-	-	-	-	-	£ 2,151	for other
services.							

It is estimated that in consequence of a smaller number of whaling factories operating in South Shetlands during the season 1916-17, the revenue from the Whaling Industry will be about £4,000 less than that of the current year; otherwise the several items of revenue follow closely the Estimates for the current year.

The expenditure on the fixed establishment with a few minor changes also follows closely that of the current year. Explanatory notes throughout the estimates have been printed opposite most of the items appearing on the Estimates, rendering unnecessary further information in detail being given.

Under head XIII "Miscellaneous" provision at the rate of £100 a year has been made for the Library and Museum about to be established in the new Government Buildings, Stanley. It is proposed that the Library should be open daily and be free to the public, with a newspaper and periodical section available to annual subscribers. A short Ordinance will be introduced for the consideration of the Council at a future meeting.

Under head XX "Public Works Recurrent" provision is again made for £1,000 for maintenance and repairs of Roads, Drains and Bridges. It is to be regretted that it has not been found possible during the current year to effect the repairs to the roads in Stanley that had been anticipated, and for which provision has been made on the current year's estimates, but it is hoped that some improvement may be looked for in this respect in the course of next year.

Under head XXI "Public Works Extraordinary" provision of £1,200 has been inserted to proceed with the erection of the Wireless Telegraph plant at Fox Bay, imported in the early part of 1914. The work of erection has been delayed this year to consider an alternative proposal to connect the East and West Falklands by telephone. The matter has received attention, but in consequence of increased cost it has not been found possible to proceed with the proposal. Provision has therefore been made to proceed with the original scheme for a wireless telegraph installation.

Subject to the approval of the Secretary of State it is proposed to provide a limited supply of articles of heavy furniture for the Government quarters set aside for certain officials such as the Colonial Secretary and the Colonial Surgeon, the officers to pay five per cent. on the value of the furniture supplied to their quarters. An instalment of £250 has been placed on the Estimates for next year as a commencement towards this service.

The Members of the Council are aware that while several young men from the Colony—all honour and credit to each of them—have individually proceeded home at their own expense to join the Colours and take their active share in the present war against the enemies of Our King and Country, the population of the Falkland Islands is too small to permit the Colony the privilege of associating with other of His Majesty's Possessions beyond the seas in sending and maintaining a contingent at the Front. There can however be no doubt that though small, the community of the Falkland Islands in their loyal and dutiful attachment to their King and Country are none the less ready to do their part and to bear their share of the burdens cast upon the Empire by the war.

In the circumstances and in this respect the contribution from this Colony as a whole to the Mother Country must take the form of a share of the Colony's income. Though the amount must necessarily be infinitesimally small, as a first step the offer might be made to the Imperial Government of an annual payment for ten years from the 1st January, 1917, of a sum equal to ten per cent. of the annual revenue of the Colony derived from Customs duties, such payment to be a contribution towards the Interest and Sinking Fund of the Imperial Loans raised for the purposes of the war.

In the hope that this course will commend itself to the Members acting on behalf of the people of the Colony, and be accepted by the Imperial Government, a resolution will be moved in Council to give effect to the same.

The increasing demand for the invaluable services rendered by the Royal Flying Corps affords a suitable opportunity for the Colony to do at the present time yet a little more, and to offer to the Imperial Government a gift of an armed airplane for the Corps. A resolution on the subject will also be submitted for the consideration of the Council.

The people of the Colony by private subscriptions contribute liberally to funds raised for causes arising out of the war, and I desire to avail myself of this opportunity to thank them in that behalf, especially so for the generous contributions, exceeding £600 for "Our Day", appointed throughout the Empire for the 19th October this year, for collections to be made for the British Red Cross Society and the Order of St. John of Jerusalem.
