## Message from HIS MAJESTY THE KING.

To my People

The world-wide struggle for the triumph of right and liberty is entering upon its last and most difficult phase. The enemy is striving by desperate assault and subtle intrigue to perpetuate the wrongs already committed and stem the tide of a free civilization. We have yet to complete the great task to

which more than three years ago we dedicated ourselves. At such a time I would call upon you to devote a special day to prayer that we may have the clearheadedness and strength necessary to the victory of our cause. This victory will be gained only if we steadfastly remember the responsibility which rests upon us and in a spirit of reverent obedience ask the blessing of Almighty God upon our endeavours. With hearts grateful for the divine guidance which has led us so far towards our goal let us seek to be enlightened in our understanding and fortified in our courage in facing the sacrifices we may yet have to make before our work is done. I therefore hereby appoint January 6th the first Sunday of the year to be set aside as a special day of prayer and thanksgiving in all churches throughout my dominions and require that this proclamation be read at the services held on that day.

*FALKLAND ISLANDS. Specimens collected by the Rev. C. McD. Hobley, and transmitted by the Colonial Office to the Geological Survey for identification.*

The specimens consist of:—

- (1) A hard black bedded material "A" of Hobley's Report.
- (2) Friable black material "B" "
- (3) Yellowish white substance associated with "B"
- (4) Hard rock composed of yellow and brown fragments in a ferruginous matrix "D" of Hobley's Report.
- (5) Two samples of Water "C" of Hobley's Report.

(1) The hard black material soils the fingers. It is well bedded in layers up to  $1\frac{1}{4}$  ins. in thickness, but shows signs of slickensiding by the development of black lustrous surfaces that give to the rock the appearance of coal. A section F.2384 cut from this material shows abundant but minute grains of quartz and other crystalline matter embedded in an opaque matrix. Also, a small amount of finely divided iron-pyrites may be detected in reflected light. (H.H.T.)

On heating to redness in air, it changes rapidly in colour the residue becoming practically white.

This residue was examined microscopically and was found to consist of quartz, finely divided micaceous matter and impalpable siliceous material stained slightly by ferric oxide. (H.H.T.)

During the ignition it was noticed that water, carbon dioxide, sulphur-dioxide, and, after a while, ammonia were evolved. No oil or tarry matter were seen but a faint tarry odour was perceptible.

The formation of carbon dioxide and the change in colour when the substance was heated indicated carbonaceous matter; sulphur dioxide, some mineral such as iron-pyrites; while the ammonia could only be present in the form of a nitrogenous-carbonaceous compound.

As, probably, the nitrogenous compound would be decomposed on heating by the action of sulphur dioxide in the presence of water, the nitrogen would be liberated as ammonia, and estimated as such would be 0.47 % of the material.

The following is an analysis of the hard black material:—

Residue on ignition	77.89
Iron Pyrites, $\text{FeS}_2$	.89
Carbon	16.35
Water at $105^\circ\text{C}$ .	2.48
Water above $105^\circ\text{C}$ .	2.14
Nitrogen	.39
Total.	100.14

only a trace of manganese was found in this specimen.

(2). The friable black material is very similar in composition to the harder variety (1), the same compounds being evolved when the substance is heated, but the greater amount of water present possibly accounts for the friability.

Compared with (1) this material contains more iron-pyrites, but the nitrogen content is less. Apparently the nitrogenous compound has been leached out by water. The amount of manganese is not perceptibly greater than in the hard material.

The percentage of carbon in the samples is far too great to be all in combination with such a small quantity of nitrogen as 0.39%; the greater part of the carbon found must, therefore, be in a free state either as amorphous carbon or more probably as graphite.

In order to prove the presence or absence of graphite, experiments were made on the electrical conductivity of the solid material, and from the comparative ease with which a film of copper was electrolytically deposited it would appear that the carbon exists mainly in the form of graphite, although possibly not to the exclusion of amorphous carbon.

Such a condition of the carbon is not uncommon in carbonaceous shales all the world over.

(3). The yellowish white substance exuded from (2) consists of a basic sulphate of iron produced by the oxidation of iron-pyrites; the presence of this basic sulphate was also detected in the sample (1) of hard black material. (E.G.R.)

(4). This compact mass is what is usually described as "iron pan" and consists of fragments of green shale, shale stained yellow or brown by ochre, and angular pieces of dark brown iron-stone cemented together by a dull brown ferruginous cement. Such a rock arises when any fragmental material is steeped for lengthy periods in ferruginous waters under the oxidizing influence of the air. (H.H.T.)

(5). The two samples of water W.A. and W.B. were subjected to a qualitative chemical analysis only as it was thought that the samples did not merit a detailed quantitative investigation.

W.A. contains too much sea-water to be worth examination.

W.B. is fairly pure water containing a little iron in the ferrous state, a little carbondioxide, and a very little sodium chloride. It is practically free from dissolved sulphates. No oil was found and the oily scum mentioned in the report is in all probability due, as suggested, to the oxidation of the ferrous iron. (E.G.R.)

We consider that the materials submitted have no commercial value, the hard black coaly substance being only carbonaceous shale and of no use as a fuel. Further the contained graphite is so intimately mixed with impurity that it could not be mechanically separated; it is possible however that natural segregations of graphite might occur within the district, and if so probably in the neighbourhood of faults or shearplanes.

MISCELLANEOUS.

DOWNING STREET,  
29th June, 1917.

Sir,

I have the honour to transmit to you the accompanying account of a ceremony at which Her Royal Highness Princess Alexander of Teck presented, on behalf of the "League of the Empire," silk union jacks and commemorative shields to the Falkland Islands Volunteer Corps and other Colonial Forces, on the 5th May last.

2. A letter has since been received from the League of the Empire in which it is stated that Her Highness Princess Marie Louise greatly regretted that she was unavoidably prevented from being present at the ceremony.

3. It is proposed that the flag and shield of the Falkland Islands Volunteer Corps should be kept by the Corps.

4. The gifts will not be sent out to the Colony until after the war, but will be retained for the present in the Colonial Office.

5. I am confident that these emblems and the expressions of appreciation which accompanied them will be highly prized both by the members of the Falkland Islands Volunteer Corps and by the people of the Colony.

6. I request that you will give all possible publicity to this despatch and its enclosures.

*Presentation of Union Jacks and Commemorative Shields to The British West Indies Regiment, The West African Frontier Force, The King's African Rifles, The Somaliland Camel Corps, The Falkland Islands Volunteer Corps and the Saint Helena Volunteers, from the Women and Children of the British Isles, made on their behalf by Her Royal Highness Princess Alexander of Teck, and received by the Right Hon. Walter Long, Secretary of State for the Colonies, on behalf of the soldiers.*

#### SPEECH BY MISS CHAMBERLAIN.

Your Royal Highness,

It is a matter of deep gratification to the Ladies' Committee, of which Your Royal Highness is Patroness, that the last of the presentations on our long list should be graciously made by yourself in person. This Committee was formed under the auspices of the League of the Empire to find expression for the admiration and gratitude of the Women and Children of the British Isles towards the men of the Overseas Contingents fighting for the Empire in the Great War. In Europe, in Asia, in Africa, our fellow subjects and partners in the Empire uphold the cause of freedom and justice, side by side with the men of this country, and we know not whom most to praise, where each one we consider seems to have attained the utmost height of heroism.

The soldiers and sailors of the United Kingdom hear the voice of our pride and thankfulness; their deeds shall be remembered among us while the land they serve and save retains her liberty. Nor yet shall we forget the tide of loyalty and patriotism which flowed deep and full from every part of the Empire overseas towards the points of danger, seeking the grim conflict for righteousness' sake. Lest they should remain ignorant of our deep sense of the new bond uniting all subjects of the British Crown in mutual help and common sacrifice for the noblest ends, lest any of the men who offer their lives for us should not know how we honour them in our heart of hearts, the women and young people here at home have found a symbol in the Flag of the Empire and have provided the accompanying record in these shields.

Many such emblematic gifts have already passed to the overseas soldiers through Royal and gracious hands. To-day those Colonial Regiments who are serving in lands distant from these shores receive our tribute through the Secretary of State for the Colonies, their natural representative in this Country. They fight afar, but their valour and devotion are known and are dear to us, and you, Madam, have graciously consented in presenting the gifts, which will be brought to you by a deputation of the givers, to be our intermediary and to enhance the value of our commemoration.

We send the message of our admiration to the BRITISH WEST INDIES REGIMENT whose units fight in France, in East Africa, in Mesopotamia and in Egypt, where they take their part in protecting that now prosperous land from a return of Turkish misrule.

THE WEST AFRICAN FRONTIER FORCE bear already upon their shield the legend Togoland and Cameroons. They will add another name before the end, for they fight now in German East Africa.

Here they find themselves close comrades of the KING'S AFRICAN RIFLES, whose first work was to expel the invader from a portion of their own territory and who go on to the final deliverance from the German yoke of the last stretch of African soil, a consummation which now seems close at hand.

There has been fighting in every corner of the African continent; the remotest contingents have struck their blow for the weak against the cruel. Thus the SOMALILAND CAMEL CORPS, in operations culminating with the victory of Shimer Barris, have repelled the Mad Mullah's adherents and justified the faith reposed in us.

Finally there are two Corps of Volunteers, who have not been called upon to fight, but who have done all they could in making ready for the call. One of these saw dire peril very near to them. Theirs was no idle boast when they offered life and limb if the need should arise. These are the FALKLAND ISLANDS VOLUNTEERS and the SAINT HELENA VOLUNTEERS.

To all we offer the symbol of Loyalty to our King and love of our country, the sign of our common partnership in a great Empire, maintaining everywhere the ideals of humanity and justice, the flag that brings freedom in its folds, the Union Jack.

#### H. R. H. PRINCESS ALEXANDER OF TECK.

In handing the flags to the Right Hon. the Secretary of State, Princess Alexander expressed her gratitude at being associated with those who were paying that tribute to the loyal devotion which had brought the sons of the Empire from every corner of the world to fight beside the Motherland.

#### SPEECH BY MR. WALTER LONG.

Mr. Walter Long in accepting the flags on behalf of the regiments said that although all of them had not been in active fighting, it might be frequently driven home that whether a man found himself in the fighting line or doing his duty in any part of the British Dominions, he was equally deserving of the gratitude and appreciation of his fellow countrymen. "We are apt," he said, "to give insufficient recognition to men fighting in all parts of the world under climatic and more arduous difficulties perhaps than on some of the fronts. To all alike our thanksgiving is extended, and I thank the League of the Empire for its efforts in consolidating the goodwill of the peoples of the vast British Empire in the determination to serve King and country in the interests of freedom and justice, which is the spirit of the whole civilized world. In our Overseas possessions men are, as I know from letters which reach me daily, eating their hearts out because they are not allowed to take part in the fighting line. They cannot be allowed to go because they are needed for the Government of the Colony in which they live, although they have begged and implored to be allowed to go. But necessity imposed upon us the duty of keeping them where they are.

Of all who faithfully serve in whatever national work they might be called upon to perform it might be said that they were doing their duty equally with those who fought the common foe. There was hardly a home in the Kingdom which was not darkened by the black shadow of sacrifice and sorrow. But the sacrifices were not made in vain. We were fighting not for the possession of this or that territory, but for the great ideals which had appealed to us from childhood upward, for those liberties and rights and so-called privileges, and which made the world a place worth living in.

The regiments and contingents honoured that day would appreciate their emblems the more because they had received them from the hands of a member of the illustrious family which was always ready to lend its aid to every good cause. This characteristic of the King and of members of his Royal House was familiar, and happily his personality and that of other members of his family were familiar also in many distant parts of the Empire."

#### SPEECH BY SIR PHILIP HUTCHINS, K.C.S.I.

Your Royal Highness,

As Chairman of the League of the Empire I have to express the League's gratitude to your Royal Highness.

As you have heard from Miss Chamberlain this afternoon's ceremony has brought one of our latest undertakings to a conclusion. On former occasions thanks to assistance most graciously given by other members of the Royal Family we have been privileged to present flags and shields to the contingents which have rushed to the aid of the Mother Country from the four great Overseas Dominions, from India and from Newfoundland; and also to the Rhodesians who are fighting for the Empire in East Africa and elsewhere. Now, thanks to your Royal Highness, we have the pleasure of handing over to the official custody of the Secretary of State similar gifts for the soldiers who have come from Crown Colonies. Thus we can congratulate ourselves that this scheme of ours has now been successfully accomplished.

I offer you, Madam, our most grateful thanks for your kind interest and support in this matter.

And I may also thank Mr. Long for his cordial participation in this ceremony, and for having consented to take these Emblems into his keeping until they can be forwarded to their proper destination.

## Government Notice

No. 2.

Colonial Secretary's Office,  
Stanley, Falkland Islands.  
10th January, 1917.

The Governor directs it to be notified, for general information, that the Peat Banks on Crown Land to the south of the Town of Stanley have been inspected by a Committee composed of Messrs. R. B. Baseley (Colonial Engineer), D. J. Sullivan (Acting Chief Constable) and John G. Aldridge, and that a survey and plan of these banks have been made.

The Peat Banks and the working thereof have been placed under the general direction of the Colonial Engineer to whom application must be made before any new bank be opened.

By Command,  
C. F. CONDELL,  
Colonial Secretary.

# SAVINGS BANK, 1916-17

(MANAGER'S REPORT).

TREASURY,  
STANLEY, FALKLAND ISLANDS,  
24th December, 1917.

SIR,

I have the honour to forward the following report of the transactions of the Government Savings Bank, for the year ended 30th September, 1917.

## Summary of year's transactions.

2. During the year 111 new accounts were opened and 35 accounts closed; leaving a total of 738 deposit accounts, amongst which the balance in hand, amounting to £112,895 19s. 8d, was distributed. This gives an average of £152 19s. 6d, for each account, or £49 per head of the population of the Falkland Islands, computing the population at 2,300.

## Capital Account.

3. The Balance in hand, credited to the different accounts on the 1st October, 1916, was ... .. £103,578 : 19 : 2  
During the year the deposits received amounted to ... 25,217 : 14 : 6  
And the accrued interest credited to the different accounts, was 2,555 : 8 : 0

making a total of:— £131,352 : 1 : 8

On the other hand, the withdrawals, during the same period, amounted to ... .. 18,456 : 2 : 0

leaving an outstanding balance on the 30th September, 1917 of £112,895 : 19 : 8

4. The amount expended in the purchase of Stock, up to the 30th September, 1917, was ... .. £86,016 : 4 : 2

leaving an uninvested balance of ... .. £26,879 : 15 : 6

## Profit and Loss Account.

5. The income derived from the Investments, during the year, amounted to ... .. £3,026 : 10 : 4  
which less expenses for management, &c., ... .. 2,609 : 8 : 0

leaves a profit on the year's transactions of, ... .. £417 : 2 : 4

6. Had the uninvested balance shewn above as amounting to £26,879 : 15 : 6, been invested in 5% War Stock, to the credit of the Savings Bank, during the year, the profit on the year's transactions would have amounted to over £1761 instead of £417.

7. The uninvested balance of £26,879 : 15 : 6 mentioned above, is in the hands of the Crown Agents, and the interest derived therefrom is credited direct to the Ordinary Revenue of the Colony, and does not therefore appear in the Savings Bank Accounts.

## Assets and Liabilities.

8. The total amount standing to the credit of the depositors, representing the Liabilities of the Bank, on the 30th September, 1917, amounted to £112,895 : 19 : 8

The Assets of the Bank, as shewn by  
the assumed Market Value of the Securities, £72,310 : 0 : 0  
together with the uninvested monies with  
Crown Agents, ... .. 26,879 : 15 : 6  

---

99,189 : 15 : 6

leaves a surplus of Liabilities over Assets, of ... .. £13,706 : 4 : 2

9. The great depreciation in the Market Value of Securities, owing to the present War conditions, explains the very large surplus of Liabilities over Assets shewn above, which, no doubt, will recover itself in course of time.

I have, etc.,

W. A. THOMPSON,

*Manager, Savings Bank.*

The Colonial Secretary.

No. 6.

Colonial Secretary's Office,  
Stanley, Falkland Islands.  
14th February, 1918.

The Governor desires to acquaint the residents and people of the Falkland Islands that he has received a letter from Admiral Sir F. C. Doveton Sturdee, Bart., K.C.B., K.C.M.G., C.V.O., informing him that it has been decided to raise a Fund to commemorate His Majesty's Ship "Invincible" and the Admiral, Officers, and Ship's Company who laid down their lives for their Country on 31st May, 1916.

A Committee has been formed in England for the purpose and, after consultation with different authorities, has decided that the best object to which this Fund can be devoted, will be to assist in the higher education of the daughters of any Commissioned Officers of Ward Room Rank, who lost their lives in H. M. S. "Invincible" and, subsequently, similarly to assist daughters of Officers of the Royal Navy and Royal Marines of the above-mentioned Rank who have lost their lives on Active Service.

The Fund will be known as the "Invincible Memorial Fund".

The residents of the Falkland Islands have every reason to cherish a deep and grateful remembrance of the action of the British Squadron under the command of Admiral Sturdee on the Flagship "Invincible" on the 8th December, 1914, when the German squadron was destroyed in these waters and the Falkland Islands saved from bombardment and possibly occupation by the enemy.

The Governor feels sure that the residents and owners of property in the Falkland Islands will be glad of this opportunity to shew what in any case must amount to but a small measure of their heartfelt thankfulness for this deliverance from the enemy, and will contribute accordingly to the "Invincible Memorial Fund".

Subscriptions to the Fund will be received by the Governor, Government House, Stanley.

## Proclamation

[L.S.]  
W. DOUGLAS YOUNG,  
*Governor.*

By His Excellency WILLIAM DOUGLAS YOUNG, Esquire, Companion of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief in and over the Colony of the Falkland Islands and its Dependencies.

Whereas by the Geneva Convention Act, 1911, of the Imperial Parliament, it is enacted that it shall not be lawful for any person to use, for the purpose of his trade or business, or for any other purpose whatsoever, without the authority of the Army Council, the heraldic emblem of the Red Cross on a white ground formed by reversing the Federal colours of Switzerland, or the words "Red Cross" or "Geneva Cross",

And whereas it is also enacted that the said Act shall extend to His Majesty's Possessions outside the United Kingdom subject to such necessary adaptations as may be made by Order in Council,

And whereas an Order in Council dated at the Court at Buckingham Palace the 23rd day of October, 1917, cited for all purposes as "The Geneva Convention Act, 1911, (Colonies) Order in Council, 1917," has been made and it is therein ordered by His Majesty, by and with the advice of His Privy Council, that The Geneva Convention Act, 1911, in its application to the Colonies affected by the Order, shall be adapted as follows:—

- (1) The powers by the said Act vested in the Army Council shall be vested in the Governor in Council, or, if there shall be no Executive Council in the Colony, in the Governor.
- (2) Proceedings under the said Act shall not be instituted without the consent of the Principal Law Officer of the Colony, or, if there be no such Law Officer, of the Colonial Secretary.

And whereas it is further provided that "The Geneva Convention Act, 1911, (Colonies) Order in Council, 1917" shall come into force in each Colony affected by the said Order on a date to be fixed by the Governor,

Now therefore know ye that I do hereby proclaim that "The Geneva Convention Act, 1911, (Colonies) Order in Council, 1917," shall come into force and have effect in this Colony as from the first day of March, 1918.

*By Command,*

The King has been graciously pleased to give orders for the following appointment to the Most Excellent Order of the British Empire, for services in connection with the War.

SURGEON'S QUARTERS,  
STANLEY.

February, 1918.

Sir,

I have the honour to forward the Annual Medical Report for the year 1917.

### Vital Statistics for Stanley.

	MALES.	FEMALES.	TOTAL.
Births	17	15	32
Deaths	4	4	8

### K. E. M. Hospital.

Miss K. Yule arrived in the Colony on 22nd September as Government Nurse and was appointed Nurse Matron on 1st December in the place of Miss M. Niven resigned.

Twenty-one (12 males and 9 females) patients were admitted to the Hospital during the year. There was one death in the Hospital.

Cases admitted:—

Gynecological	5	Morbus Cordis	3
Burns	2	Septic Leg	1
Pulmonary Tuberculosis	1	Fractured Fibula	1
Fractured Tibia	1	Poisoning (Sulphuric acid)	1
Acute Bronchitis	1	Pelvic Peritonitis	1
Fractured Ribs	1	Epithelioma of lip	1
Rheumatic Fever	1	Appendicitis	1

Total 21

31 patients were treated by the Nurse Matron in their own homes, 21 being gynecological.

### Government School.

The children were medically examined at intervals during the year. Over 20% of the children in Stanley suffer from enlarged tonsils or adenoids. Urgent isolated cases may be treated, but it is difficult to operate on large numbers without adequate assistance and in consequence little can be done until the arrival of a second Medical Officer. A few cases of Nits were treated and two cases of Ringworm. On the occasion of the last Medical inspection only 4 cases of Nits were seen and 1 suspected case of Ringworm. The condition of the teeth of most of the school children is still very unsatisfactory and parents should avail themselves more of the opportunity of sending their children regularly to the Colonial Dentist's Surgery; Saturday mornings are reserved exclusively for school children.

### Shipping & Quarantine.

25 vessels were given Pratique during the year as against 51 the preceding year. 3 cases were admitted to the K. E. M. Hospital, 2 from whaling vessels (surgical) 1 from a sailing vessel (medical).

### Public Health.

Exanthems, 2 cases of chicken pox. Phthisis, 3 cases, 1 Death.

With regard to the latter, none of the Patients were inhabitants of Stanley. Owing to there being no suitable accommodation in Stanley for the proper isolation treatment of such cases, patients suffering from this disease are advised to remain in camp, as open air treatment is easier to carry out there and there is less risk of the disease spreading than if they live in the crowded houses in Stanley; a suitable diet is also easier to obtain. The Board of Health made an exhaustive survey of the Roads, Drains, etc. in Stanley with a view to the possibility of improving the present conditions. The matter is still under consideration. During the later months of the year, November and December, a large percentage of the population of Stanley suffered from Gastritis and Enteritis. This was probably due to the very dry weather, followed by two or three days heavy rain. Residents in Stanley, relying as they do on rain water collected from the roofs, should realize that their tanks of drinking water should be thoroughly cleaned periodically, as the sediment that collects at the bottom of the tank almost invariably cause intestinal trouble when stirred up by a heavy fall of rain following a prolonged drought. The only cases (3) coming under my notice from Camp were from a station on which the water used was partly roof water and partly spring water.

### General Remarks.

The general health of the Colony was better than during the two previous years.

#### STANLEY.

There was less sickness than in 1916; possibly this was owing to the fact that about 150 workmen had left Stanley and there was consequently less crowding in the houses.

#### THE CAMP.

Teal Inlet,	Douglas Station,	Salvador,	Fitzroy,
Rincon Grande,	Port Louis N. & S.	Johnson's Harbour.	

There was less sickness than usual; several stations were not visited at all during the year except in passing through and the cases at the rest were chiefly accidents.

I am, Sir,  
Your obedient Servant,

JOHN CRADDOCK,

*Acting Colonial Surgeon.*

The Colonial Secretary.

TREASURY,  
Stanley, Falkland Islands.  
10th May, 1918.

The Honourable,  
The Colonial Secretary.

I have the honour to submit herewith returns (numbered 1 to 13), called for under Colonial Regulation 396, together with a draft of the Supplementary Appropriation Ordinance in respect of the year ended 31st December, 1917.

2. The Ordinary Revenue and Expenditure for the year amounted to £36490 : 18 : 8, and £28479 : 14 : 4, respectively. The total expenditure, exclusive of disbursements under "Live Stock" amounted to £29386 : 5 : 8, and was under the Ordinary Revenue by £7104 : 13 : 0. This last named sum of £7104 : 13 : 0, added to the £18468 : 13 : 9, at the beginning of the year, makes a surplus of available assets on the 31st December 1917, of £25573 : 6 : 9.

### Revenue.

3. The General Revenue for the year amounted to £45588 : 9 : 11, and exceeded the original estimate by £4725 : 9 : 11. It included a sum of £8492 : 4 : 3 (instalments of Land Purchase) as well as a sum of £605 : 7 : 0 (collected under the Live Stock Ordinance) leaving an ordinary revenue of £36490 : 18 : 3, which exceeded the original estimate by £4809 : 18 : 8, but was less than that collected in the previous year by £2614 : 12 : 9. In the revenue for 1917 is included, a sum of £1835, collected at South Georgia during the previous year.

4. The following statement shews the revenue collected under the several Heads during the year 1917, the two previous years, and ten years ago:—

3rd May, 1918.

Sir,

I have the honour to submit the following report of the transactions of the Falkland Islands Currency Note Accounts for the year ended 31st December, 1917.

### The Note Guarantee Fund.

2. Under the provisions of the Currency Note Order, 1899, the coin received in exchange for currency notes issued for circulation, forms "The Note Guarantee Fund." On the 1st January the Note Guarantee Fund amounted to £10,248 : 13 : 5 being £248 : 13 : 5 in excess of the face value of the currency notes issued for circulation, up to that date.

3. During the year the "Note Issue" was increased from £10,000 to £12,000, and the £2,000 in coin received by the Commissioners was allocated as follows:—

Placed to the credit of the Coin Portion of the Fund	£1,000 : 0 : 0
Placed to the credit of the Investment Portion of the Fund	751 : 6 : 7
Transferred to General Revenue, as part repayment of the amount advanced to the Commissioners	248 : 13 : 5

4. Under the provisions of The Order, the Note Guarantee Fund has to be divided into two parts, i.e.—(a) "The Coin Portion" and (b) "The Investment Portion".

(a) THE COIN PORTION. During the year the coin portion was increased from £5000 to £6000, and is at present divided between the Commissioners and the Crown Agents, i.e.—£2,500 in the Commissioner's safe in the Colony and £3,500 with the Crown Agents in London.

(b) THE INVESTMENT PORTION. During the year the investment portion was increased by a sum of £751 : 6 : 7, which was expended in the purchase of approved securities and thereby the total amount so expended was brought up from £5,248 : 13 : 5 to £6,000.

### The Note Depreciation Fund.

5. Under the provisions of the Order, the Commissioners have to set aside annually a sum equal to one per cent. of the cost price of the securities forming the Investment Portion of the Note Guarantee Fund to form a "Depreciation Fund," and in accordance therewith, a separate account has to be kept of this Fund, to form part of the Investment Portion of the Note Guarantee Fund.

Work to be actively carried on.

10. In every prospecting licence there shall be implied and deemed to be inserted therein a condition that the person to whom the same is granted shall actively carry on the work of prospecting to the satisfaction of the Governor, in default of which, the licence may, with the sanction of the Secretary of State, be cancelled by the Governor, when it shall become null and void and all works and property of the licensee on the land shall be forfeited to the Government of the Falkland Islands or otherwise dealt with as the Governor may order.

M. P. 607/18.

The message which I send to the people of the British Empire on the 4th anniversary of their entry into the war is "HOLDFAST".

We are in this war for no selfish ends. We are in it to recover freedom for the nations which have been brutally attacked and despoiled and to prove that no people however powerful can surrender itself to the lawless ambitions of militarism without meeting retribution swift certain and disastrous at the hands of the free nations of the world. To stop short of victory for this cause would be to compromise the future of mankind.

I say HOLDFAST because our prospects of victory have never been so bright as they are to day. Six months ago the rulers of Germany deliberately rejected the just and reasonable settlement proposed by the Allies. Throwing aside the last mask of moderation they partitioned Russia enslaved Roumania and attempted to seize supreme power by overwhelming the Allies in a final and desperate attack. Thanks to the invincible bravery of all the Allied armies it is now evident to all that the dream of universal conquest for the which they wantonly prolonged the war can never be fulfilled but the battle is not yet won. The great autocracy of Prussia will still endeavour by violence or guile to avoid defeat and so give militarism a new lease of life. We cannot seek to escape the horrors of war for ourselves by laying them up for our children. Having set our hands to the task we must see it through till a just and lasting settlement is achieved.

In no other way can we ensure a world set free from War.

HOLDFAST.

AT THE COURT AT BUCKINGHAM PALACE,  
The 22nd day of March, 1918.

PRESENT,

**THE KING'S MOST EXCELLENT MAJESTY.**

LORD PRESIDENT.

SIR GEORGE BUCHANAN.

LORD STEWARD.

SIR FREDERICK PONSONBY.

Whereas by the Falkland Islands Currency Note Order, 1899, (hereinafter referred to as "The Principal Order"), provision was made with respect to the issue of currency notes in the Colony of the Falkland Islands:

And whereas by Section 7 of the Principal Order it was provided that the coin received in exchange for currency notes should form the Note Guarantee Fund, and that a portion thereof, referred to as the coin portion of the Fund, and being not less than the fixed proportion of the notes for the time being in circulation, should be in coin and should be held in the Colony in the custody of the Commissioners:

And whereas it is expedient that during the War, and for twelve months after the termination thereof, part of the coin portion of the Fund shall be kept in the United Kingdom:

Now, therefore, His Majesty is pleased, by and with the advice of His Privy Council, to order, and it is hereby ordered, as follows:—

1. This Order may be cited as the Falkland Islands Currency Note (Temporary Amendment) Order, 1918, and shall be read and construed with the Principal Order.

2. There may be kept in the United Kingdom, either in coin or invested in such manner as a Secretary of State shall approve, for the period of the War, and for twelve months after the termination thereof, such part of the coin portion of the Note Guarantee Fund as a Secretary of State may from time to time direct, notwithstanding that by reason hereof the coin portion of the Fund in the custody of the Commissioners in the Colony may become and be less than the fixed proportion of the notes for the time being in circulation.

3. The Governor of the Colony may, at any time during the War, or during a period of twelve months after the termination thereof, declare by Proclamation that the currency notes issued in the Colony are inconvertible and thereupon, notwithstanding anything in the Principal Order to the contrary, the holder of a currency note shall not be entitled to demand from the Commissioners, and the Commissioners shall not be liable to make, payment in current coin of the amount expressed in the note until the

said Proclamation shall be revoked, or until the period of twelve months after the termination of the War shall have expired, whichever shall first occur.

4. Any such Proclamation may at any time be revoked by the Governor without prejudice to the issue of a new Proclamation in pursuance of Article 3 of this Order.

5. This Order shall come into operation from and after a day to be fixed by Proclamation by the Governor.

6. His Majesty may from time to time revoke, alter, add to, or amend this Order.

STOCK DEPARTMENT,  
STANLEY,  
9th August, 1918.

Sir,

I have the honour to submit the Annual Report of this Department for the Season, 1917-1918.

I have the honour to be,  
Sir,  
Your obedient Servant,  
W. ATKINS,  
*Acting Chief Inspector of Stock.*

The Honourable  
The Colonial Secretary,  
Stanley.

M.P. 668/18.

### Sheep.

2. It is satisfactory to be able to report that the general health of the flocks continues to be good, with the exception of certain flocks which have been infected with Lice and are under notice to clean.

Every effort is being made to clean these sheep, but owing to the fog and continual rain in the Autumn, the gathering and dipping of these sheep has not been able to be carried out as satisfactorily as it would have been had the weather been favourable.

### Ophthalmia.

3. This disease is still prevalent among some of the flocks, but I am glad to state that it is becoming less frequent each season.

### Statistics.

4. The Returns for 1918 shew the number of the sheep in the Colony to be 699,284 an increase of 2,309 on the 1917 returns.

The price of wool still continues good, and I am glad to say that the clip of the present season has been a record one as regards the weight of wool.

The chief increase is to be found in the number of sheep canned for exportation, and no doubt this will continue under present conditions.

### Lambing.

5. The Lambing this season was exceptionally good; no doubt this was due to the fine weather in the Spring. It will be seen from the Comparative Table appended that there is a big increase on the number returned last season.

### Canning.

6. Only one factory was working during the season (The Falkland Islands Company's factory at Goose Green). Owing to the need of canned meat for export a considerably increased number of sheep were canned this season, viz:— 61,181, shewing an increase of 18,470 on the previous season.

The sheep were purchased outright from the various stations, the average price paid being 10/3½d. per sheep.

### Cattle.

7. The number of cattle at present in the Colony is 7,263 shewing an increase of 419 on last year's returns. The health of the cattle is very good.

**Horses.**

8. The returns of the present season shew a small decrease on the numbers of last season. The number of foals returned also shew a slight decrease. The general health of the horses is satisfactory.

**Imports.**

9. During the season the Imports have been :—  
6 Bulls, 1 Stallion (Highland Pony), 16 Romney Marsh Rams, from the United Kingdom, and 23 horses from Punta Arenas, Chile.

The Farmers are to be congratulated on their efforts to improve the stock in general of this Colony, as will be seen from the importations made from time to time, not only in the way of improving the sheep, but also the cattle and horses, and I consider the recently imported Highland Pony Stallion an excellent type of horse, and well adapted for this Colony.

**Exports.**

10. No stock has been exported from the Colony this season. A considerable quantity of Canned Meat, Wool, Hides and Tallow has been exported.

**Cultivation.**

11. The progress made in this direction increases year by year. The quantity and quality of the hay grown and stored this season is much greater than those of the previous season.

At two of the stations another valuable foodstuff is prepared, namely Ensilage.

Colonial Secretary's Office,

The Governor directs the publication for general information of the following Message from His Majesty the King which has been transmitted to His Excellency by the Secretary of State for the Colonies.

*By Command,*  
T. N. GODDARD,  
*for Colonial Secretary.*

M. P. 791/18.

“YORK COTTAGE, SANDRINGHAM, NORFOLK.

On the occasion of “Our Day”, 1918, I have much pleasure in congratulating the Red Cross Society and the Order of Saint John on the magnificent work which they in conjunction have achieved during more than 4 years of warfare, and in expressing the confident hope that their efforts may continue to receive from my people the financial support which they require. By personal observation in the United Kingdom and on the Western Front I am convinced that the appeal by the Joint Committee for funds is more than justified in the manner in which they carry on their widespread and responsible labours in co-operation with the Medical Services of the Forces. In Flanders, France, Italy, and Malta, in Palestine, Macedonia and Egypt, in Mesopotamia and East Africa, and in Russia, Roumania and Siberia, the Joint Societies have relieved the suffering, healed the sick and saved valuable lives for the service of the Empire in War and Peace. They have also been able to give welcome assistance to our Allies, and in making provision for the sick and wounded have not forgotten the Prisoners of War whose privations they have done much to alleviate. But it must be remembered that Peace even when declared will not bring a cessation of the work of the Hospitals, and indeed the demands on the resources of the Red Cross must inevitably continue for some time after hostilities have ended. Impressed as I am by the vast obligations which must still fall on the Joint Societies I have much pleasure in contributing the sum of Ten Thousand Pounds.

Signed GEORGE R. I.  
October, 11th 1918.”

## Meeting of the Legislative Council held on the 29th October, 1918.

### Minute by the Governor introducing the Estimates for the year 1919.

Honourable Gentlemen of the Legislative Council,

I have the honour to submit for your consideration and approval the draft Estimates for the public service of the Colony for the year 1919.

The revenue, based on present taxation, is estimated at £30,337, and the expenditure at £34,517, leaving a deficit of £4,180 to be met from other sources.

The expenditure has been kept down with a due regard to economy. With the exception of £500 to enable trials to be made for the installation, after the War, of a Wireless Telegraph Station at South Georgia, no new works have been provided for under public works extraordinary.

At the time the Estimates for the current year were passed by your Council in November, 1917, and provision was made for an expenditure of £32,730, it was estimated that the revenue for the year would fall short of the expenditure by a sum of about £2,480. I am now able to inform you that it is considered that the revenue of this year will be sufficient to meet the expenditure, the revised estimates being, revenue £30,154, within £100 of the original estimate, and expenditure £28,510, a sum of £4,220 less than the original estimate. There may however be an increase in the expenditure on account of the cost for carriage of overseas mails if charged and paid within the year.

The Wireless Telegraph Installation at Fox Bay, for which provision is made on the current year's estimates, was completed by Mr. R. B. Baseley, A. M. I. Mech. E, Colonial Engineer, and communication with Stanley satisfactorily established on the 25th instant. Among the first messages received by me is one from the Farmers and residents of West Falkland, expressing for "the great benefit conferred" their appreciation and thanks, which I have the pleasure to convey to your Council.

On the 1st January, 1918, the surplus of assets over liabilities were, Crown Lands Fund £134,925, Stock Fund £2,608 and Surplus Balances £25,573. The revenues derived from the Dependencies have brought about the nest egg the Colony possesses in its surplus balances.

Of recent years the general revenue of the Colony has been largely added to by the revenue derived from the Dependencies, and by the interest received from the investments on account of the Crown Lands Fund, Crown moneys to which it may be considered the Colony can have no legal claim.

For the years 1915, 1916, and 1917, the average annual revenue of the Colony was,

From the Falkland Islands, including the interest			
£4,580, on invested moneys of the			
Crown Lands Fund	-	-	£22,007
From the Dependencies	-	-	£14,640,

whilst the average annual expenditure

on the Falkland Islands was	-	-	£28,250
-----------------------------	---	---	---------

and the direct expenditure

on the Dependencies	-	-	£860
---------------------	---	---	------

To the expenditure of the Dependencies, however, a fair proportion of the cost of the administration of the Colony should be added, and assuming that proportion to be one third, the adjusted figures for the average annual expenditure would be, for the Falkland Islands £26,100, and for the Dependencies £3,000.

The Government expenditure on the Dependencies has, for the past four years owing to the War, been confined for the most part to what may be called establishment charges.

The possibilities of the Dependencies have however been engaging attention. At the present time an Inter-Departmental Committee is at work in London, to enquire into and report what can be done to facilitate action, at the conclusion of the War, in regard to the preservation of the whaling industry and the development of other industries in the Dependencies. The Committee will consider not only economic questions and the scheme for the employment of a research vessel, but also what purely scientific investigations are most required to further the objects in view.

It can be foreseen that an increased expenditure on the Dependencies, more proportionate to the revenue derived from them, will in the near future be incurred, and that funds which have hitherto been available and applied for other services of the Colony will be considerably lessened. When the time arrives the Colony must be prepared to meet its obligations in this respect to the best of its resources.

The Estimates for next year shew that the revenue based on present taxation is estimated,

From the Falkland Islands - - - -	£14,851
From the Crown Lands Fund, interest - -	5,500 and
From the Dependencies - - - -	9,986
	<hr/>
	£30,337

whilst the expenditure is estimated at,

For the Falkland Islands - - - -	£32,802, and
For the Dependencies - - - -	£ 1,715
	<hr/>
	£34,517

The situation reviewed, it is not only imperative that the estimated deficit of £4,180 on next year's transactions of the Colony should be met, but that a beginning should be made to produce more closely equilibrium between the revenue and expenditure of the Falkland Islands apart from the revenue derived from the Dependencies.

To make up the amount required to meet next year's expenditure, two alternatives have suggested themselves, to increase the export duties under the Tariff Ordinance, 1900, on the produce of the sheep industry, or to increase the tax on land under the Live Stock Ordinance, 1901, as a contribution to general revenue.

After due consideration it is considered expedient, in lieu of these two sources of revenue, to introduce a land tax on the graduated scale of,

- One farthing per acre on lands under 5,000 acres,
- One half-penny per acre on lands of 5,000 acres and under 50,000 acres,
- Three farthings per acre on lands of 50,000 acres and under 100,000 acres and
- One penny per acre on lands of 100,000 acres and over.

The Stock Department heretofore charged to the tax on land under the Live Stock Ordinance, 1901, to become a charge on general revenue.

It is estimated that by these changes an additional sum of £4,800 will be contributed annually to the general revenue of the Colony.

Draft Ordinances to give effect to the proposals put forward, and to place an export duty of 3½d per barrel on seal oil, will be submitted for your consideration.

Adjusted on the basis proposed, the revenue for the year 1919, is estimated,

From the Falkland Islands - - - -	£20,230
From the Crown Lands Fund, interest - -	5,500 and
From the Dependencies - - - -	10,046
	<hr/>
	£35,776

and the expenditure,

For the Falkland Islands	-	-	-	-	£33,373 and
For the Dependencies	-	-	-	-	1,715
					<hr/> £35,087

leaving an available balance of £689 to meet unforeseen charges.

Representations on behalf of the largest and oldest of the land owners in the Colony were made to me some time ago, to the effect that the land owners do not favour the present export duties on the sheep industry. They consequently would not welcome any increase in those duties. As I understand it, the land owners consider the export duties to be a tax on good farming and a premium on bad. To put it in other words, that the export duties operate in favour of the careless and slovenly farmer, and unduly hit the man who through application and energy makes the very best he can of his farm. The land owners represent, and in this I am in accord with them, that the land is the only permanent source of wealth, and that when it is necessary to raise more revenue unquestionably the money needed should be raised by a tax on land.

As the time has arrived when more revenue is required, I am ready so far to apply the principle advocated by the land owners as now submitted for your consideration. In so doing I have no reason to suppose that the graduated land tax based on the low rates stated will be otherwise than as acceptable to the thrifty holder of lands of comparatively moderate extent, as I hope it will be to the larger proprietor.

During the last ten years the total trade of the Colony has advanced from £320,054 in 1907, to a declared value of £3,127,909 in 1917.

Of the total imports last year, valued at £1,257,306, coal represented £505,252, timber and empty oil barrels £308,161, and hardware and machinery £139,970.

Of the total exports the produce of the sheep industry was declared at £303,184 and the whale and seal industries at £1,565,985. The values given would appear however to have been somewhat understated. With the average price of 1s. 2d. per lb. realized for wool f.o.b. Stanley Harbour (some wool fetched as much as 1s. 9d. per lb.) and £6 per barrel for whale oil, the value of the exports may be stated at £343,000 for the sheep industry, and £2,280,000 for the whale and seal industries.

Compared with the exports of the year 1907, these figures shew an increase of £154,300 and £2,264,300 on exports of the sheep and whale industries respectively. The exports of whale oil have increased from 14,400 barrels in 1907, to 380,489 barrels in 1917. The wool exported last year amounted to 4,711,271 lbs. and exceeds by 261,672 lbs. the wool exported in 1907.

I cannot however think that the sheep industry in the Falkland Islands has reached its limit of production. It has been stated that there are many lands in the Falkland Islands which are not being farmed as they should. In fact in some cases the lands are not being made use of at all, and that if the land were taxed it might possibly have a stimulating effect on farming to the immediate benefit of the farmer generally. I am led to believe it is possible that on some stations if more energy and care were paid to farming and improvements made to both land and stock the industry would respond by an increased yield.

I make these remarks not by way of criticism but in the light of friendly counsel, with the hope they will be accepted in the spirit in which they are made, having alone for their object the advancement of the interests of the farmer in particular and the Colony in general.
