Girls	66	51	46
Total	<u>147</u>	<u>125</u>	<u>112</u>

4. The number of openings of the school, each morning and each afternoon being regarded as an opening, was:—

1917 - 453,      1918 - 436,      1919 - 440

As in 1918 a break of one week (7th to 11th July) was made in the long winter term.

5. The expenditure on the Government School during the year amounted to £772 approximately. The total amount received in fees was £92, and £21 was taken by sale of books, stationery, &c., to the pupils.

### Government Travelling Teachers.

6. The number of children under instruction from the Government Travelling Teachers during the years 1917, 1918, and 1919, was:—

Girls	17	7	6
Total	<u>49</u>	<u>19</u>	<u>20</u>

7. The reason for the decrease in the number of children receiving instruction from the Government Travelling Teachers during recent years is explained in my Report on the Department for the year 1918. Until the last month of the year there was only one Government Travelling Teacher in the Colony, viz., Mr. W. U. Currie, who was employed on the East Beat of the East Falkland. On the 8th December, 1919, the following arrived in the Colony and were appointed as Travelling Teachers :—

Mr. John Stewart Scott,  
Mr. Joseph Sturrock,

Mr. Charles Fife Daer,  
Mr. George Lyon Daillie,

At the end of the year Mr. Currie was transferred to the South Beat, West Falkland, (Fox Bay, Port Stephens, and Weddell Island), while Mr. Daillie took over, East Beat, East Falkland, (Salvador, Rincon Grande, Port Louis, Bluff Cove and Fitzroy), Mr. Scott being appointed to West Beat, East Falkland, (San Carlos South, San Carlos North, Douglas Station and Teal Inlet), Mr. Sturrock to West Beat, West Falkland, (Chartres, Hill Cove, Roy Cove and Saunders Island), and Mr. Daer to North Beat, West Falkland, (Port Howard and Pebble Island). The staff of Travelling Teachers is now complete, although the newly appointed members did not reach their beats in time to begin work before the present year, but the returns for the current year will shew a large increase in the number of children under instruction in the camps.

#### Roman Catholic Convent School, Stanley.

## Appendix A.

### *Report on Examination of the Government School, Stanley, December, 1919,*

Stanley,  
Falkland Islands,  
17th December, 1919.

Sir,

As in 1916, 1917 and 1918, I have again by the Administrator's instructions, conducted the Annual examination of the Government School, and now have the honour to submit my Report for His Excellency's information.

2. I attended at the Government School on Thursday, Friday and Monday, the 11th, 12th and 15th December, and conducted the examination on lines similar to those followed in the two previous years, that is to say, by oral questioning, inspection and examination of work done previously, rather than by written tests or set papers, the utility of which, after four years experience in examining the Government School I am convinced is practically non-existent.

3. As last year I have refrained from awarding any individual or competitive mark to each child and shall confine my report to remarks on the various subjects taught.

### **General Remarks on the various Subjects.**

#### **ARITHMETIC.**

4. In 1916 I commented somewhat unfavourably on this subject but in the two succeeding years noted a general improvement. This year I have again to remark on the very notable improvement that has been made in this subject, the advance being very much more observable than those noted in 1917 and 1918. This improvement is not so much an advance in the capacity of the best two or three children in each class as a steady improvement in the average ability and reliability of the whole classes. The proportion of children in each class which approximated to 75% of marks in any series of tests set was considerably higher than in previous years, while the presence of errors due to mere carelessness was far less noticeable.

#### **DICTATION AND SPELLING.**

This subject is up to the standard of last year.

#### **ENGLISH COMPOSITION.**

There is no appreciable improvement or deterioration in English Composition, a subject that is perhaps the most difficult and certainly one of the most important in the curriculum. A good standard is maintained throughout the School, but several of the faults which were apparent last year are still to be found, *e.g.*, a lack of coherence and unity in the treatment of the subjects, very occasional lapses into gross errors such as "I seen" for "I saw," and an unnecessary predilection for the short disconnected sentence that involves a repudiation of the utility of the relative clause. For English Composition purposes the word "nice" should be wiped out of the School vocabulary.

#### **HYGIENE.**

The children have a good knowledge of the principles of health, sanitation, cleanliness and the more simple functions of the human body.

#### **SINGING.**

The reading from the blackboard of unseen exercises in staff and tonic solfa notations was particularly well done by the top division. This division also sang some songs of considerable difficulty with confidence and success. The children take an interest in their singing and it was seldom that I was able to detect any "passengers" while a song was in progress. The only noticeable fault of any importance is the somewhat natural tendency to sing too loud with its consequent unavoidable loss of tone. Breathing exercises are always done at the beginning of a singing lesson and it is difficult to overestimate their value.

## HISTORY AND GEOGRAPHY.

These subjects were treated well and the children appeared to be interested in them. It was seldom that the majority of any class was not able and anxious to answer any question asked.

The "Piers Plowman" History Readers in use at the School are admirably suited for the teaching of the manners and customs of our forefathers and with their assistance History in the Government School is rendered a more living and interesting subject than it often appears to be among children of school age.

Similarly, in the lower forms particularly, Geography is taught not so much with the idea of filling the mind with a knowledge of boundaries, physical features, imports and exports &c., as with the intention of interesting the children in the appearance, mode of life and peculiarities of the races inhabiting different parts of the world, thus forming an interesting and attractive foundation on which the equally useful but less attractive superstructure of hard facts and figures can be erected later, and this intention meets with the success it deserves.

## READING.

I was last year compelled to make a somewhat unfavourable report on the Reading of the School. This year I am glad to be able to say that I found a marked improvement in this subject. Far more care was taken by the children to give full (but not too full) effect to the values of punctuation marks, to lay stress where stress was due, and to read not only with understanding but also with appreciation. The attitude, or "stance," adopted for reading, on which I commented unfavourably last year, was very much improved throughout. I was particularly pleased with the reading of Standard II.

## WRITING.

The writing throughout showed improvement.

## DRAWING (*Boys only*).

Scale Drawing with graduated rulers was done with care, neatness and accuracy, the boys making their own measurements from objects in or about the School premises and reducing them to the required scale. Several good freehand drawings from objects or copies were shewn up.

## NEEDLEWORK (*Girls only*).

I inspected the work on which the girls had been engaged during the year. The amount of work got through shewed much industry and all the work appeared to be done with skill and neatness. I have nothing to add to my previous reports on this subject. I believe the standard of plain sewing at the Government School to be a very high one.

## POETRY.

I was less favourably impressed by the recitation of selected poems this year. There was a lack of vigour and life. The pieces had however been well studied and the children knew something of the subject matter of the poems.

## PHYSICAL EXERCISES.

The physical exercises were done with more briskness and precision than were apparent in previous years and were a considerable improvement on last year's performance.

## INFANTS.

The high standard of the Infants' divisions of the School, on which I had occasion to comment in previous reports, was in all directions well maintained.

## General Remarks.

5. In making my first report on the Examination of the School in 1916 under the heading "General Remarks" I expressed the following opinions:—

"The results of the examination . . . . appear to me to be without question good and full of promise for the future. The children are with few exceptions interested in their lessons and submitted to examination with enjoyment . . . . I believe that the work the Headmaster and Mistress are doing at the school to be of the greatest benefit to the future generation of Falkland Islanders, though much time must elapse before such work can come to full fruition. The discipline and order maintained at the School are, as far as an examiner can judge, excellent."

Having conducted three annual examinations since writing the above, I see no reason for revising any of the opinions expressed at that time, and I have no hesitation in reporting that in my opinion the standard of knowledge, intelligence, keenness and order is appreciably higher at the present time than on any previous occasion when it has been my privilege to conduct the Annual Examination of the Government School.

6. I desire to express my appreciation of the cordial co-operation of the Headmaster and Staff which greatly facilitated my work as Examiner.

7. In concluding I would venture to suggest for the Administrator's consideration that this Report be printed as an Appendix to the Education Report for the year 1919, for the benefit of parents and others interested in the Government School.

I am, Sir,

Your obedient servant,

T. N. GODDARD, B.A., (OXON).

The rules of the Department of State, Washington, require all travellers to obtain visa of their passports from the American Consul nearest to the applicant's home; and it is desirable that all persons other than citizens of the United States proceeding to that Country, whether direct or via London, should comply with this requirement.

In the case of persons proceeding from a Colony or Protectorate in which no Consular Officer of the United States is stationed the provisions of Government Notice No. 14 of the 17th March, 1919, page 14 of the Official Gazette of April, 1919, will apply.

Deaths 1.	Cured 14.	Relieved 2.	

Two cases were admitted from ships, a fracture of Tibia and Fibula and a case of Mucous Colitis.

### Quarantine.

31 vessels were given pratique.

### Government School.

The physique of the children is poor, the number of thin and anæmic children being very noticeable. They have been examined, with a view to ascertaining, those among them who would benefit by tonsillotomy and to devote one morning weekly at the hospital for such work.

### Public Health.

Hitherto outstanding features are:—

- (1) Rarity of malignant diseases.
- (2) Rarity of venereal disease.
- (3) Rarity of all forms of tuberculosis.
- (4) Freedom from infectious diseases.
- (5) Prevalence of alimentary disorders.

During the last quarter, the dentist was absent from the Colony and consequently 48 persons applied to me for extractions. Never before have I seen a community where caries and oral sepsis is so widespread. Oral sepsis and the usage of tank water are the principal causative factors of the numerous gastro-intestinal disorders. The native Falklanders are prone to periodical attacks of deafness and tinnitus aurium, due to recurrent inflammation of middle ear (otitis intermitens). What appears to be an epidemic of such aural attacks, is accounted for by the season of the year, presence of defective drains and sewerage. A great number of children suffer from chronic tonsillitis and during the first year from laryngismus. I attribute the latter to a nervous erethism begotten by close confinement to ill-ventilated rooms. The question of intermarriage is becoming more serious every year and is slowly but surely imparting the stamp of degeneration on the race.

### Camp.

On my calls at different stations, I was struck by the number of children, who very rarely visited Stanley and also how sadly their education had been neglected. The fatal effects of the disuse of the mental faculties, are strikingly observable in some of these children, who are more or less solitarily confined for long periods. Loss of power and health of mind, from imperfect or partial exercise of the faculties, is only natural. In general their education is giving them only a few accomplishments. Education, if properly conducted would go far to prevent these evils.

### Sanitation and Water supply.

There is no such thing as systematic drainage. The only method of discharge is by open gutters, which on warm days are very offensive. There are hardly any underground channels or sewers. The earth closet system is adopted, throughout the colony. The excreta are received into an iron pail, underneath a scat, which pail can be removed from outside, and into which a small quantity of dried peat coom is placed, either daily or as often as the closet is used. Peat coom has a great power in retaining the nitrogenous constituents of urine and will quite fix the ammonia. The pail is removed weekly, but the sewage is not utilised in any way. No danger can possibly arise, from this system, if strictly followed. The deodorising effects of this coom, are quite remarkable, a slight covering effectually prevents effluvia. Yet if we contemplate the influence, of winds, in the economy of human life, the township of Stanley, will find them highly beneficial, as they contribute greatly to preserving the health of the people, by the dissipation of the noxious exhalations arising from sluggish drains and heaps of putrefying matter. Most of the houses are ill-ventilated and are not fitted up with accomodation for hot and cold bathing. I venture to suggest the erection of a public bathing establishment. The improvement in health and cheerfulness of the parties benefited would more than compensate for the necessary outlay.

### Departmental Notes.

To meet the requirements of the people, the installation of an X ray apparatus in the hospital, is an immediate necessity. Miss Layton, the Government Nurse and myself arrived in the colony 15th September, 1919.

## STOCK DEPARTMENT.

### Report for Season 1919-1920.

#### Sheep.

1. The general health of the sheep on the islands is very good and several stations that were affected with lice have now a clean bill of health regarding the same, although the East Island is not quite clear.

#### Statistics.

2. As will be seen from the comparative table of returns, there is a marked difference from last years return of sheep, owing to the extremely wet and cold lambing season. Horses have also decreased notwithstanding the importation of 315, apparently not enough horses are bred in the country, and therefore there is not a supply sufficient to counteract the wastage from old age sickness, etc. Also as the importation from the coast, of all livestock including horses is liable to be stopped owing to infectious or contagious disease, it would be well to pay more attention to horse breeding.

#### Lambing.

3. The lambing this season was below the average due to the extremely bad weather in the spring.

#### Canning.

4. The Falkland Islands Co.'s factory at Goose Green was the only one working this season. The number of sheep canned for export was 24832 showing a decrease of 18,392 from last year. The average price paid for sheep was 11/1. Only 4,640 sheep were boiled down this year.

#### Cattle.

5. The number of cattle in the Colony in this years return is 5,406 a decrease of 1388 from last year. The general health of the cattle is good.

#### Horses.

6. Last year's return of horses was 2611; this year the return shows 2486 giving a decrease of 235 from last year, although 315 were imported this year and only 75 the year before, showing that with much larger importation the stock is decreasing.

#### Pigs.

7. Several boars and sows have been received from South Georgia and no doubt there will be more pigs in the camp in the near future.

## CASH ON DELIVERY SERVICE.

RULES GOVERNING THE EXCHANGE OF POSTAL PARCELS  
SUBJECT TO TRADE CHARGES BETWEEN THE POST OFFICE  
OF GREAT BRITAIN AND IRELAND AND THE POST OFFICE  
OF THE FALKLAND ISLANDS.

## ARTICLE 1.

Parcels subject to the collection of Trade Charges can be exchanged between the United Kingdom and the Post Office Stanley, Falkland Islands.

## ARTICLE 2.

1. The maximum amount of Trade Charges in the case of parcels for delivery in the United Kingdom is fixed at £40 per parcel, and, in the case of parcels for delivery in Stanley, Falkland Islands, at £40 per parcel.

2. In calculating the amount of Trade Charges, fractions of a penny are ignored.

## ARTICLE 3.

1. Each Administration fixes the special fee to be levied from the sender of a parcel subject to a Trade Charge. This fee must not exceed:

(a)  $2\frac{1}{2}$ d. for each £1 or fraction of £1 to be collected, in the case of parcels posted in the United Kingdom.

(b)  $2\frac{1}{2}$ d. for each £1 or fraction of £1 to be collected, in the case of parcels posted in Stanley, Falkland Islands.

2. Each Administration shall communicate to the other the special fee fixed in its service by virtue of the preceding paragraph, as well as any alteration subsequently made in it.

3. This fee is shared between the Administration of the country of origin and that of the country of destination in the manner prescribed in the Detailed Regulations.

## ARTICLE 4.

1. In addition to the special fee fixed by the preceding Article the Post Office of the country in which a parcel subject to a Trade Charge is posted may collect a posting fee from the sender, and the Post Office of the country of destination of a parcel subject to a Trade Charge may collect a delivery fee from the addressee.

2. The posting fee must not exceed:—

(a) In the case of a parcel posted in the United Kingdom, 2d. per parcel.

(b) In the case of a parcel posted in Stanley, Falkland Islands, 2d. per parcel.

3. The delivery fee must not exceed:—

(a) In the case of a parcel delivered in the United Kingdom, 4d per parcel.

(b) In the case of a parcel delivered in Stanley, Falkland Islands, 4d. per parcel.

4. Each Administration shall communicate to the other the special fees fixed in its service by virtue of this Article, as well as any alterations subsequently made in them.

5. These fees shall be retained by the office which collects them.

#### ARTICLE 5.

The amounts of Trade Charges collected are liquidated by means of Trade Charge Money Orders, which are issued free of all charges. The amount of a Trade Charge Money Order which cannot be delivered remains at the disposal of the Administration of the country of origin of the parcel on which the Trade Charge is payable.

#### ARTICLE 6.

In principle the amounts of Trade Charges should be paid in by the addressee of the parcel and paid out to the sender in gold; but each Administration shall have power to receive and employ for this purpose any other money legally current in its country, provided that due allowance is made for any difference in the exchange value.

#### ARTICLE 7.

1. The loss of a parcel subject to a Trade Charge entails responsibility upon the Postal Service in the conditions fixed by the Regulations for the exchange of parcels by Parcel Post between the United Kingdom of Great Britain and Ireland and the Falkland Islands.

2. After the delivery of the parcel the Post Office of the country of destination is responsible for the amount of the Trade Charge, unless it can prove that the parcel and the relative Despatch Note (if one is used) did not, when transmitted to its service, bear the indications prescribed in the Detailed Regulations for parcels subject to Trade Charges. Nevertheless, an application as to the disposal of the amount of a Trade Charge is only entertained if made within a year of the posting of the parcel.

#### ARTICLE 8.

The sender of a parcel posted under this arrangement may not have the amount of the Trade Charge cancelled or reduced after posting.

#### ARTICLE 9.

The two Administrations undertake to admit parcels subject to Trade Charge in transit through their services. Nevertheless, the accounts relative to the Trade Charges collected will be drawn up and settled directly between the Post Offices of origin and destination of the parcels subject to Trade Charges.

#### ARTICLE 10.

The two Administrations are authorized to fix by common consent the measures of detail necessary for ensuring the performance of the present Rules and to modify them from time to time in accordance with the needs of the service.

## ARTICLE II.

These rules shall come into force on the date to be agreed upon between the two Administrations. They will remain in force until the expiry of one year from the date on which either Administration shall give notice to the other of its intention to terminate them. The date agreed upon by the Administrations for the purposes of these instructions is the 1st January, 1920.

DETAILED REGULATIONS FOR CARRYING OUT THE RULES  
GOVERNING THE EXCHANGE OF POSTAL PARCELS SUBJECT  
TO TRADE CHARGES BETWEEN THE POST OFFICE OF  
GREAT BRITAIN AND IRELAND AND THE POST OFFICE OF  
STANLEY, FALKLAND ISLANDS

## ARTICLE I.

1. On parcels subject to Trade Charges, and on the Despatch Notes, if any, relating to them, the word "Remboursement" must be written or printed boldly beside the address, and after it, the amount of the Trade Charge must be shown, in Latin characters, in the money of the country of origin, without erasure or correction, even if certified.

2. Each parcel subject to a Trade Charge must be accompanied by a separate Despatch Note, in services in which Despatch Notes are used.

3. Each parcel subject to a Trade Charge and the relative Despatch Note, if one is used, must bear a red label with the word "Remboursement" in Latin characters.

4. Each parcel subject to a Trade Charge posted under this arrangement must bear on the cover and on the back of the relative Despatch Note, if one is used, a request signed by the sender that if the parcel is undeliverable at the expiration of 15 days from its arrival at the place of destination, it is to be (a) abandoned or (b) returned to him at his expense.

## ARTICLE II.

Each parcel subject to a Trade Charge is entered on the parcel bill with a note of the amount of the Trade Charge.

## ARTICLE III.

1. Every parcel subject to a Trade Charge is accompanied by a Trade Charge Money Order in conformity with or analogous to the specimen B annexed to the present Rules. This Money Order, which is attached to the Despatch Note or to the parcel bill when no Despatch Note is used, should bear a statement of the amount of the Trade Charge in the currency of the country of origin, and should show, as a general rule, the sender of the parcel as payee of the Order. It is free to each Administration, however to have the Orders relating to the parcels originating in its service addressed to the offices of origin of the parcels or to other offices.

2. Entries in pencil will not be allowed on Trade Charge Money Orders.

## ARTICLE. IV

Except by contrary agreement between the Administrations of origin and of destination, the amounts of the Trade Charge Orders are converted into the currency of the country of destination by the Post Office of that country, which uses for this purpose the same rate of conversion as it uses for the conversion of ordinary Money Orders drawn on the country of origin of the parcels.

## ARTICLE. V

1. Immediately after collecting the Trade Charge, the Office of destination, or any other Office designated by the Administration of the country of destination fills in the part "Indications deservice" of the Trade Charge Money Order and, after impressing it with its date stamp, returns it free of Postage to the country of origin in the manner prescribed by Article XXIV, § 1, of the Detailed Regulations for the execution of the Principal Convention of the Postal Union, or any Article which may be substituted therefor.

2. Trade Charge Orders are paid under the conditions determined by each Administration with a view to ensure the payment of the amounts of the Trade Charges to the senders of the parcels.

## ARTICLE VI.

1. Parcels subject to the collection of Trade Charges can be redirected if the new country of destination maintains with that of origin an exchange of Trade Charge parcels. The parcels are, in case of redirection, accompanied by the Trade Charge Orders made out by the service of origin. The new office of destination acts in the settlement of the Trade Charge as if the parcel had been directly consigned to it.

2. In the case of an application for redirection to a country which does not maintain with that of origin an exchange of Trade Charge parcels, the parcel is treated as one which cannot be delivered.

## ARTICLE VII.

1. Trade Charge Orders relating to parcels which, for any reason whatever, are returned to origin should be cancelled by the Office which returns the parcels and should be annexed to the Despatch Notes, or, if no Despatch Notes are used, to the bill on which the parcels are advised.

2. Trade Charge Orders mislaid, lost, or destroyed before the collection of the Trade Charge, are replaced, without formalities, by new orders bearing the heading "Duplicate." The request for a duplicate is addressed directly to the Office of origin of the parcel.

3. Trade Charge Orders mislaid, lost, or destroyed after the collection of the Trade Charge are likewise replaced by duplicates, or by authorities to pay, after proof by the two Post Offices that the orders have not been paid or refunded.

## ARTICLE VIII.

1. Trade Charge Orders which it has not been possible to deliver to the payees within the period of validity fixed by the agreement concluded between the two Administrations for the exchange of Money Orders are, at the expiration of the period of validity, receipted by the Office of the country of payment, and are claimed from the Office which issued them.

2. Trade Charge Orders which have been delivered to the payees and of which the payees have not claimed payment within the period of validity fixed by the Rules for the transaction of Money Order business between the two Administrations are replaced by authorities to pay. These authorities to pay are drawn up by the Office which issued the orders, as soon as it has been able to ascertain that the originals have not been paid within the period of validity. They are receipted by the Post Office of destination and claimed by it in the first account rendered after their receipt.

#### ARTICLE IX.

1. Trade Charge Money Orders of which payment cannot be effected for one of the following reasons:—

- i. Incorrect, insufficient or doubtful description of the name or residence of the payees;
- ii. Differences or omissions of names or amounts;
- iii. Erasures of, or additions to, the entries;
- iv. Omission of stamps, signatures or other service indications;
- v. Use of irregular forms;

shall be corrected by the Post Office which has issued them.

2. For this purpose, the Orders shall be returned as soon as possible, officially registered, to the Office of origin by the Office of destination.

#### ARTICLE X.

1. The settlement relative to Trade Charges paid by each Post Office on behalf of the other Post Office is effected by means of Trade Charge Accounts (specimen A annexed) the final totals of which are carried to the General Account between the United Kingdom and the Falkland Islands, under the heading "Trade Charge Money Orders."

2. In the Trade Charge accounts, which are accompanied by the paid and receipted Trade Charge Orders, the Orders are entered in alphabetical sequence of the Offices of issue and in numerical sequence of their issue at that Office. At the end of the account the Office which has drawn it up deducts from the total sum of its credit a half per cent., representing the share of the other Office in the Trade Charge fee.

3. The verification of the Trade Charge accounts is effected according to the rules for the transaction of Money Order business between the two Post Offices.

#### ARTICLE XI

The present Regulations shall be brought into operation on the day on which the Rules come into force. They shall have the same duration as the Rules.

Approved by the Administrator in Council, under the provisions of The Post Office Ordinance 1898 this 5th day of February 1920.

## Minute by the Acting Governor introducing the Estimates for the year 1921.

Hon. Gentlemen of the Legislative Council,

I have the honour to lay before you the draft Estimates of the Colony of the Falkland Islands and its Dependencies for the service of the year 1921.

The Revenue, (exclusive of Land Sales) is estimated at £115,511 of which £29,945 is in respect of the Falkland Islands and £85,566 of the Dependencies.

The Expenditure is estimated at £114,355 of which £39,661 is in respect of the Falkland Islands and £74,694 of the Dependencies leaving a Surplus of Revenue over Expenditure amounting to £1,156.

From these figures it will be seen that there is an estimated excess of Revenue over Expenditure for the Dependencies of £10,872 and an estimated deficit for the Colony of £9,716.

2. These Estimates have been framed on the same principle as those for the current year.

It was in 1914 that the Revenue and Expenditure of the Dependencies were first shown in detail, separately from those of the Colony proper, in the body of the Estimates. No summary of this Revenue and Expenditure was published, however.

The current year's Estimates were the first to contain such a summary, and to show at a glance the relative positions of the Colony and the Dependencies in respect of the excess of or deficit in Revenue as compared with Expenditure.

3. An examination of the Estimates for the year 1914 and subsequent years will show that in every year a deficit has been estimated for the Colony proper, and an excess for the Dependencies; while an examination of the Returns of Actual Revenue and Expenditure for the completed years 1914 to 1919 inclusive will show that in every year the Actual combined Revenue exceeded, and the Actual combined Expenditure fell short of the amounts estimated, with the exception of the year 1914, in which there was a nett deficit of £1,740.

The Actual excess of Revenue over Expenditure during the years 1915 to 1919 has been carried to the "Surplus Balance" of the Colony, which, on 31st December 1913 stood at £4,701 and on the 31st December 1919 at £58,690.

4. In the Estimates for the current year a sum of £20,500, (out of an estimated export duty on whale oil from the Dependencies amounting to £25,500) has been earmarked for the Dependencies' Research Fund; similarly in the Estimates for 1921 a sum of £72,500 has been earmarked for the same Fund out of an estimated export duty of £77,500; £5,000 being retained in each case to the credit of the Dependencies' accounts, and thus helping to make up the excess of Revenue over Expenditure.

This sum of £5,000 (representing approximately 3½d. per barrel of the export duty expected from oil in 1921) might with propriety be transferred to the Revenue of the Colony proper, as also might a sum representing a proportion of the cost of the Central Administration, say £3,000; thus reducing the Colony's deficit to £1,716 as against an excess of £2,872 in favour of the Dependencies.

5. The Secretary of State for the Colonies has pointed out the desirability of the Colony attaining such a position financially as to show an equilibrium between its own Revenue and Expenditure after charging the Dependencies with their share of the cost of the Central Administration; the nett excess of the Dependencies' Revenue over Expenditure being transferred to the "Dependencies' Research Fund, and only such excess of Revenue over Expenditure as the Colony proper can show in its own accounts, being transferred to its "Surplus Balance."

This is, of course, the object which we should endeavour to attain, but, in framing the estimates on the conservative principle of the past seven years, I have not been able to estimate an excess of Revenue over Expenditure in the case of the Colony proper: on the contrary a deficit of £9,716 is anticipated, less the £8,000 above referred to.

There would appear to be no reason, however, why the actual Revenue for 1921 should not exceed the estimate as in past years.

6. Though the estimated Revenue of the Colony proper is £3,084 greater than that estimated for the current year, the estimated Expenditure shows an increase of £8,797.

This latter amount is made up as follows:

	£	s.	d.
Increases in Salaries and Pensions (including the expenses connected with the New Scientific Department).	5125	0	0
Ocean Passages for Officers	640	0	0
General Departmental Expenses	987	0	0
Public Works Recurrent and Extraordinary	1995	0	0
Miscellaneous	50	0	0
Total	£8797	0	0

These increases are necessary, having regard to efficiency of service and Departmental requirements, and on account of the general rise in the price of all commodities.

7. Should the result of the year's working show that the Colony's Revenue has exceeded its Expenditure there would be no need to draw on the excess obtained by the Dependencies, and only such excess of Revenue should be transferred to the "Surplus Balance" of the Colony, while the Dependencies' excess would be transferred to the Dependencies Research Fund. Should however the Colony's accounts show an actual deficit, and those of the Dependencies an actual excess, it would be equitable if the former were met from the latter, and only the balance remaining transferred to the Research Fund, this balance being in addition to the £72,500 already earmarked. In the event of no such balance being available it would be necessary to reduce the contribution to the Research Fund, in order to obtain an equilibrium between Revenue and Expenditure.

The only alternative would be to increase the existing rates of both direct and indirect taxation, which the Colony is not at present able to bear.

8. I need not enter into detail regarding the Revenue items, but would, in passing call the attention of Hon. Members to the large increase anticipated in Customs Export Duty on whale and seal oil, the duty on which was increased from 1/6 to 5/- per barrel by The Tariff (Export Duty) Amendment Ordinance 1920. As has already been stated, a sum £72,500 out of this anticipated Duty has been earmarked for the Dependencies Research Fund.

9. Under the Expenditure side of the Estimates several items call for remark :

#### HEAD I.

##### Pensions.

The increase under this head has been authorised by the Pensions Increase Ordinance, 1919.

##### Salaries.

The general increase of salaries for all departments was passed by a Resolution of this Hon. Council on the 26th of May, 1920, with the exception of the Governor's salary which I now ask you to pass as suggested by the Secretary of State.

It will be seen that the substantive salary of the Governor has been increased by £50, the entertaining allowance of £250 cancelled, and a duty allowance of £500 per annum provided for.

#### HEAD VI.

##### Port and Marine.

Item 2. A new engineer for the Government Steam Launch has been appointed recently owing to the fact that the person who has held the post for the past eight years has left the Colony.

It was necessary that the post should be filled without delay, and this was done locally in order to save both time and expense. The engineer thus appointed is a married man with a family, and quarters have had to be provided for him which have not been allowed for in the Estimates now before you. A note will require to be made to this effect on page 13 of the Estimates.

#### HEAD XI.

##### Medical.

It will be noted that increased salaries have been provided for the new officers appointed to the posts of Colonial Surgeon, and Dentist. It is not now possible to obtain officers for these posts at lower salaries.

Provision has been inserted for a new post viz: that of a Dispenser for the King Edward Memorial Hospital who will also act as X Rays Operator.

The provision made for maintenance of the Hospital Staff and Patients is in accordance with the general rise in the price of foodstuffs.

An item of £200 has been inserted for furniture, as the existing furniture is inadequate for the needs of the Hospital.

#### HEAD XII.

##### Transport.

The increase of £640 is accounted for by the fact that the sum provided for in the current year was greatly under-estimated.

#### HEAD XV.

##### Scientific Dept.

This new Department is provided for after careful consideration of the needs of the Colony with a view to furthering its development.

The Secretary of State is taking steps to appoint a Forest Officer and a Geologist, and Mr. J. E. Hamilton, the Stipendiary Magistrate, West Falkland, has been selected for the post of Naturalist while carrying out the duties of his substantive post.

Time alone will prove the benefits that it is hoped will accrue to the Colony from the institution of this new Department; but there can be no doubt that the experiment is justifiable.

The Forest Officer will be engaged for a term of five years, the Geologist for a term of two years, and Mr. Hamilton's services as Government Naturalist will be available, in the first instance, till the completion of his present agreement which has still two years to run.

**HEAD XVI.  
Military.**

Item 10 under this Head I propose with your approval to transfer to Head XIII, Miscellaneous, in the corrected Estimates, as being more appropriate.

**HEAD XVII.  
Post Office.**

Provision has again been made under this Head for £2,500 in respect of the carriage of mails between the Colony and the United Kingdom, though no arrangement has yet been made for the resumption of a regular mail service, nor have any accounts yet been received from the Pacific Steam Navigation Company for carriage of mails during the current year.

**HEAD XXII.  
Colonial Engineer.**

Provision will require to be made under this Head in respect of House Allowance for the new Blacksmith whom the Crown Agents for the Colonies have been asked to appoint, as there are no Government quarters available for him. The sum of £24 per annum should therefore be inserted as Item 24 "House Allowance to Blacksmith."

10. In conclusion I would remark, that, while the items under Head XXIV do not appear to call for comment, a number of Major works are urgently needed for the benefit of both the Capital in particular and the Colony in general, which it is not possible to provide for out of the Ordinary Revenue. These will form the subject of representations which I propose shortly to make to the Secretary of State for the Colonies, and, if approved, will require to be paid for out of the Surplus Balances.

## Government Notice.

---

The following telegrams from the Secretary of State for the Colonies are published for general information :—

“November 2nd: It has been decided that, on Thursday, 11th November, it being the second anniversary of the Armistice, the Cenotaph in Whitehall shall be unveiled by His Majesty the King, and that, as part of the Ceremony on that day there shall be buried in Westminster Abbey, an unknown British warrior whose body shall be taken from amongst those buried in France. Every precaution will be taken to prevent his identity being known. The coffin will be brought to the Cenotaph where it will be met by the King, attended by Representatives of the whole of the Empire. There will be a short service at the Cenotaph consisting of the singing of the hymn “O God our Help in Ages Past” and the “Lord’s Prayer.” This service will be so timed that the unveiling of the Cenotaph takes place at 11 a.m. exactly, after which there will be two minutes silence followed by the “Last Post.” Wreaths will then be laid by His Majesty, the Prime Minister, and Representatives of the Empire. The funeral procession will then proceed to the Abbey where the funeral service will take place on the body being buried in a grave in the nave of the Abbey. It is proposed, just as last year, there should be during the two minutes silence complete suspension of all normal business, work, and locomotion throughout the United Kingdom that the thoughts of all may be concentrated in reverent remembrance of the Glorious Dead.”

"November 6th : With reference to my telegram of the 2nd November, His Majesty the King has expressed the wish that on Armistice Day, 11th November, there should be a complete suspension of all normal business, work, and locomotion throughout the British Empire during the two minutes silence commencing at 11 a.m."

IT IS HOPED THAT ALL WILL UNITE IN GIVING EFFECT TO THE WISH EXPRESSED BY HIS MAJESTY THE KING AT THE APPOINTED HOUR, viz; 11 a.m. on THURSDAY, the 11th instant.

FOR THE TOWN OF STANLEY THE FOLLOWING ARRANGEMENTS WILL BE MADE TO MARK THE HOUR:—

THE CATHEDRAL BELL WILL BE RUNG FROM 10.55 a.m. to 11 a.m. PRECISELY; AFTER WHICH TWO GUNS WILL BE FIRED IN RAPID SUCCESSION FROM "VICTORY GREEN." ON THE FIRING OF THESE GUNS THERE WILL BE A CESSATION OF ALL WORK AND OTHER ACTIVITIES FOR A PERIOD OF TWO MINUTES, AT THE END OF WHICH TIME ONE GUN WILL BE FIRED.
