MINUTES OF MEETING HELD ON THE 20TH OCTOBER, 1948.

1. The Honourable Dr. R. S. Slessor, M.B., Ch.B., Senior Medical Officer, after taking the prescribed Oaths, assumed his seat at the Council.

2. The minutes of the meeting of the Legislative Council held on the 12th of May, and 11th of June, 1948, were confirmed.

3. His Excellency the Governor delivered to the Council the following address :—

Honourable Members of Council,

It has been the custom at the Budget session of Council to lay on the table a record of the administrative and departmental activities of the year. I am unable to do so today since I have not had the heart to place any further burden on the shoulders of our greatly harassed Government Printer who has been hard put to it to get the Estimates out in time. It is appropriate that I should invite your attention both to his indefatigability and to the unvarying excellence of the work which flows from his somewhat primitive machines. In default of the usual report I will give you now a brief precis of the year's achievements.

For myself, you will recall that during the summer I made three voyages in His Majesty's ships "Snipe" and "Nigeria" to the Antarctic and to South Georgia; at the latter I was pleased to note the good relations subsisting between our administrative staff and the whaling communities. In June/July I made a round trip of the Camp by the "Fitzroy" returning overland from San Carlos; this trip, apart from the somewhat peculiar circumstances which attended it, was very good value since it gave me an opportunity for long and frank discussions with Farm Managers and for visiting several settlements on the West Falkland which I had not previously seen. I have now visited all the sheep stations except Weddell; most of them twice and some three times. My future tours will, whenever possible, be made either on horseback or in the "Philomel" in order to give me longer time and so the occasion to see more of the workers and their families.

In July I flew to London where I was able to spend five weeks "between boats" and from my own point of view this was a most useful visit; it will prove, I hope, to have been no less useful to the Colony. My discussions covered a very wide range of subjects and these resulted in a great saving of time. Turning now to the Departments :

AUDIT. Accounts have been audited up to and including 1947 and the value of this temporary appointment — one of those which has been criticised — has been amply proven; without guidance it is very easy to fall into error and once errors start to accumulate, which is their habit, they may lead to all kinds of trouble. We can now rest comfortably in the knowledge that past errors have been detected and amended and that proper accounting procedure has been introduced into every Department. This Administration cannot of course afford to carry an Auditor as a permanent commitment and I am arranging, therefore, for Mr. Gleadell who has shown some aptitude for this work, to proceed next year to the Central Audit Office for a period of instruction and thence for six months to another Colony to widen his experience. Thus, we should be able to carry on after Mr. Bounphrey's attachment comes to an end with nothing more than an occasional visit from an official of the Colonial Audit Service.

AGRICULTURE. After an interregnum of nearly two years we have received a successor to Dr. Gibbs and the substitution of the title Agricultural Officer for the former title of Director of Agriculture is in keeping with certain changes in the scope and responsibilities of the Department which I have long had in mind. A brief memorandum will be issued shortly defining these changes. Mr. Oliver is a Dalesman, is himself a practical farmer and the Managers will, I am confident, find in him an experienced and helpful colleague always ready to assist them in any way that he can. As a first step in the reorganisation of the Department I have decided to discontinue milk and vegetable production, neither of which have I ever been able to regard as a legitimate function of the Government; more especially in an agricultural community such as this. These changes which are in accord with the recommendations of the Economy Committee are reflected in the Estimates which will show a still further reduction in 1950. Of particular interest during the year has been an experiment conducted by Mr. Beaty of Port Stephens in the use of cobalt and copper sulphate administered as a drench; the results judged by his report are certainly impressive. I am happy to be able to congratulate the farmers on a highly successful wool season and both them and the Labour Federation on the conclusion of this year's shearing agreement.

CUSTOMS. I have appointed Mr. Noel Biggs, a local officer, to the substantive office of Collector of Customs and Competent Authority and, as in the case of Mr. Gleadell, am arranging for him to receive further training in England. The only noteworthy increases in Customs duties during the year have been, on the Imports side, a stepping-up of the cess on Spirits and Tobaccos and, on the Exports side, the introduction of a sliding scale tax on whale and seal oil. As to the former, I would remind the House that the wind has been tempered to the shorn lamb in the Camp to the extent that the duty on Rum is 16/- per gallon less than on other forms of hard liquor and that the duty on tobacco as used for rolling cigarettes is only 6/- per lb. As to the latter — whale and seal oil — the market, as we all know, is liable to considerable fluctuations over the years and a sliding-scale tax is much the fairest method of assessment, securing to the Administration a legitimate interest when prices run high and protecting the producer when they fall. The tax represents approximately 3% on the gross. Rationing has been

maintained throughout the year on only three items - tea, sugar and clothing while sales of butter have been controlled during periods of shortage. As the result of enquiries whilst I was in London it seems that we shall be able to satisfy the greater part of our small needs from United Kingdom sources of supply; this has already been reflected in the matter of clothing and textiles and, more recently, in the shipment of selected seed oats for the farms. The Government will accordingly place a ban on imports from hard currency areas unless it can be shown either that the article required is unobtainable from the United Kingdom or other sterling source or, if obtainable, can only be imported at higher cost. Much of our supplies from Latin America has been expensive and of inferior quality so that the arrangements contemplated should exercise a favourable influence on the cost of living.

EDUCATION. School attendance, as in 1947, has been a good deal interrupted by illness but the physical condition of the Stanley children as revealed by recent examination is satisfactory; an undue preponderance of enlarged, and in some cases infected, tonsils has been noted as also far too many bad teeth but both these conditions are remediable. There has been a number of staff changes; Mr. Baker has gone on leave after serving for over eight years, continuously, while Mr. Rice, Miss Downs and Miss Bosworthick have left on completion of contract and Miss Page Gray has had, unfortunately, to be invalided. Mr. Skillington has been appointed as Assistant Master and will administer the Department pending the arrival of Mr. Honeyman and Mr. Weilding relieves Mr. Draycott as Inspector of Camp Schools. My new educational proposals, as endorsed by a local committee and submitted to the Secretary of State last year, have been examined, approved and welcomed by the Advisory Committee on Education in the Colonies; these proposals aim at affording improved educational facilities for the Camp and at giving a more realistic bias to instruction in the post-elementary grades. Teacher training is of the first importance and grants totalling £12,000 to provide for this have been authorised from the Colonial Development and Welfare Fund. Finally, I propose as from 1st January to abolish all fees in respect of elementary education.

ELECTRICAL & TELEGRAPHS. The Admiralty decision to withdraw the Naval detachment confronted the Government with the necessity of building a new wireless station at short notice; that this was done and the station operating without a hitch by the 16th April reflects very great credit on the Superintendent, the Executive Engineer and the staff of these two Departments. Traffic handled averages 1,300 inward and 1,200 outward messages every month compared with some 400 and 500 respectively before the war.

HARBOUR DEPARTMENT. The "Philomel" which arrived in February has now got over her teething troubles - she needed considerable overhaul after the long voyage from England - and is highly spoken of by all who have travelled in her. With the arrival of her new ground tackle she will go into regular commission and will, as earlier predicted, become a valuable asset not only to the Medical Department but in improving the Colony's communications. The saving on diversion of the Company's ships represents in itself a considerable item. In the interest of safe navigation provision has been made for the erection of coastal lights at MacBride Head, Fox Bay and Cape Dolphin and I hope that it may be possible to utilise the "John Biscoe" at the end of the summer for some necessary hydrographic corrections around our coasts. If possible, I will also make the "Penelope" available for inter-island service during the winter.

LAW OFFICER. The Legal Secretary, whose appointment has also been criticised, has drafted 12 ordinances and 4 sets of regulations and revised 16 ordinances and 11 sets of regulations since his arrival at the end of last year; he has, in addition, taken over the duties of Magistrate in Stanley and the Government has been able to avail itself of his advice on a wide variety of subjects. It has been suggested to me that the work of drafting and revising could be carried out for us in the United Kingdom but I must observe at once that such a course would be wholly impracticable and lead to endless delay; moreover, since it would have to be done professionally I have little doubt that it would prove to be a good deal more costly in the long run. Honourable Members are doubtless aware that with the passing into law of the Crown Proceedings Act, the Crown can be sued in tort and they will agree with me not only that our laws should be brought up to date - the bound volume takes us no further than 1915 - but that new legislation must be unexceptionable in form. Legal drafting cannot be done by amateurs.

MEDICAL. Dr. Sladen left the Colony in August on completion of his secondment from the Gold Coast and has been succeeded in the post of Senior Medical Officer by Dr. Slessor who is no stranger to us; I take this opportunity of welcoming him to the Council. Dr. Arthur has also left the Colony and his successor is expected shortly. A grant has been authorised from the Colonial Development and Welfare Fund for the employment of a District Nurse for three years and attempts are still being made to fill this appointment. A grant of £35,000 has also been authorised for the modernisation, enlargement and re-equipment of the King Edward Memorial Hospital; this project has been the subject of criticism in certain quarters as being out of keeping with the Colony's needs. For that matter, so is the whole medical organisation; where else would one find a complement of 4 Doctors, a Dentist, a Matron, 2 Sisters and 6 Nurses to look after a population of 2,600? This is imposed upon us by poor communications and the scattered nature of our population and it is all the more necessary that we should be able to get the best service from our imported staff. The present building, completed in 1915, has served its purpose but it is ill-designed and makes no provision for tuberculous patients, bed-ridden incurables and other, similar cases who cannot be cared for properly at home; of these we must always have a number to look after. There is no doubt that the modifications and extension, when completed, will add greatly to the comfort and convenience of patients and staff alike and that they will meet all foreseeable requirements for the future. The plans include provision for a new X-Ray plant and for a properly equipped Dental Surgery. If any member of the House or of the public is interested, the plans can be seen by arrangement at the P.W.D. offices.

NATURALIST. The abandonment of the Fishery scheme brings with it, as from the end of this year, the discontinuance of the post of Government Naturalist which is in direct compliance with the recommendations of the Economy Committee. I cannot pass over this event without expressing to Council the Government's appreciation of the many and diverse tasks which Dr. Hamilton has carried out so

conscientiously during his long association with the Colony and I wish him, on your behalf, long years in which to enjoy his retirement. Arrangements have been made for continuing the trout-breeding and distribution experiment which he initiated and which future generations of Islanders may live to bless him for.

POLICE. Mr. Jenkins, a professional police officer, has been appointed to the vacant post of Chief Constable and I look forward to an improvement in the efficiency of the Force under his guidance. It is, however, necessary to remind the public that no police force can operate effectively unless with the support of public opinion. There have been too many cases of breaking and entry and of petty pilfering and in no case have the perpetrators been discovered; if this continues the property of none of us will be safe. I well remember, as a boy, being told of the Falkland Islands that it was one of the few places in the world where a man could leave his house with the door open and return to find everything just as he left it; that was a fine reputation to enjoy and we should guard it more jealously.

POST OFFICE. I have appointed Mr. Enestrom, another local official, to the substantive office of Colonial Postmaster. An increase in the ordinary letter rate to the United Kingdom, and other countries within the Empire, from 1d. to 2½d. has been offset by a decrease in Air Mail Letter Form rates from 9d. to 6d., Empire-wide, while ordinary Air Mail letter rate has also been reduced by more than 50%. There has been a substantial increase in the use of Air Mail. The General Post Office has recently doubled the credits allowed to the Colony in respect of parcel post from the United Kingdom. We have a number of new postage stamps coming out in the near future which should be of some help to revenue; these are 'Their Majesties' Silver Wedding commemorative issue in denominations of 2½d. and £1 and domestic issues in denominations of 2d., 2½d. and 6d. The Colony's new Coat of Arms has been approved and will appear on a future issue.

PUBLIC WORKS. Mr. Bunting has succeeded Col. Woodgate as Executive Engineer and, I am glad to find, lacks nothing of his predecessor's energy and enthusiasm or of that officer's genius for improvisation. The Department has had an extremely busy year with the new Wireless Station, alterations to the Secretariat and one Government quarter completed; substantial progress with the new Town Hall, work on sewerage and water supply and various other undertakings. With a very full programme of public works confronting the Department, it has been necessary to import a few artisans from the United Kingdom and we shall be compelled to augment these by a few more if the more urgent items in the programme are to be completed to schedule. This has created a certain amount of heart-burning among locally trained artisans who are paid at a lower rate for similar tasks: that view is understandable but the fact remains that where there are insufficient locally trained men to complete the programme we must look elsewhere; looking elsewhere, we must pay the market rate whether the particular market be the United Kingdom or Latin America. Enquiries in the latter, where there is a high level of inflation, show that recruitment from such a source would lead to even greater disparity. The alternative is suitably qualified Displaced Persons who could quite certainly be obtained at local rates but the Labour Federation has, I understand, set its face against such a source of supply. It must be remembered, too, that artisan pay here is geared to all other rates of pay and one could not vary the one without creating a similar demand from the other. Nor must it be forgotten that the imported artisan is at a manifest disadvantage in that he has not his home here; he may have dependent relatives or other obligations to meet in the United Kingdom and his pound will certainly not go as far as the local worker's. The only partial relief from this difficulty that I can foresee – and it is only a partial relief – is reliance to such extent as may be possible on contract; provided always that the Executive Engineer, who bears the ultimate responsibility, is satisfied that the contract can be efficiently and economically discharged. The fact remains, however, that the Colony's labour strength is inadequate to the demands which it has to face during the period of development; we shall, of course, be in a better position when the apprentices whom imported artisans are required to train have completed their indentures.

SECRETARIAT & TREASURY. I have promoted Mr. Lellman, a locally appointed official to the substantive post of Assistant Treasurer. Both Secretariat and Treasury have had a very full year and although much of their work "blushes unseen" the Government as I know better than anybody has been well served; the extension to their offices to which I referred earlier will, I hope, make working conditions easier for them. I must at this point refer to our Colonial Secretary, Mr. Mathews, whose period of secondment from Sierra Leone is drawing to a close, and express to him my appreciation of the services which he has rendered to the Administration and to this House; I wish him, on your behalf, all good fortune in the future wherever it may lie.

This, Honourable Members, brings me to the end of my review of Government activities but you will recall that in my last address I spoke of the new conditions of service which were being devised for all grades of Government employees, whether clerical or technical; these have now been finally decided upon and submitted for the Secretary of State's approval. My intention here has been to provide a stable career and better prospects than now obtain. The Civil Servants have been consulted at all stages and I have sponsored their formation of a Civil Servants' Association for such purposes. Where accepted – and subject of course to Colonial Office approval – the new conditions will have retrospective effect from the 1st January of this year.

A word now about the Town Council. It has, so to speak, only just emerged from the chrysalis stage and has this year merely been trying out its wings; however, an enabling Bill will be submitted to you at the next meeting conferring a wide range of powers upon it such as are associated with local government elsewhere. It is true that the Council lacks the material resources in the form of works organisations which such bodies customarily maintain but these may grow in time and meanwhile there is no better way – no way as good – of ensuring that the views and wishes of the people of Stanley are brought to bear on the administration of the Town and, given the support of the ratepayers, I have no doubt that the Council will play an increasingly important part in the life of the Colony.

The Falkland Islands' Dependencies Survey had a very successful season in 1947/48 and accomplished two summer sledging journeys of outstanding merit; Falkland Islanders have played a

notable part in this enterprise. The Dependencies' vessel "John Biscoe" sailed from Southampton Waters on the 15th of this month with Commander Kirkwood, D.S.C., R.N. in command, 3 Naval executive officers, a hydrographic officer R.N., ex Naval engine room staff and a Falkland Islands crew. She underwent an extensive refit in Thornycroft's Yard and should now be a ship we can all be proud of. As from this year the administration, planning and general responsibility to the Secretary of State for the activities of the Survey have been placed on the shoulders of the Governor and the Dependencies become an integrated administrative unit under his personal direction. I have appointed Major Pierce Butler as Secretary to F.I.D.S.; he will fly back each year after the Biscoe has returned to England, undertake on my behalf the thousand and one things which have to be seen to and disposed of there at the end of each season's work, and fly out again in time to meet the ship on her arrival in these waters.

I took occasion during my visit to London to go through our provisional Development Programme with the officials concerned and it has been modified in various directions as a result. I have now re-drawn it and have attempted a more realistic time-table; the programme will be considered in Council at an early opportunity and will be made available, of course, to the public. In it I have endeavoured to spread the potential benefits as evenly as possible between the Colony, Stanley and the Camp. A feature of immediate interest to Stanley is the new electric power installation on which both Town Hall, Hospital and so much else depends. We have been fortunate in striking a very favourable bargain over the acquisition of the Blackstone generators and the work will thus be carried out with the maximum possible economy; it must also be carried out as quickly as the labour situation permits, not only for the reason I have already given but because the present installation is held together by little more than hope and ingenuity and a breakdown would leave us in serious difficulties. For the Camp, the object of principal interest is, of course, the Freezer in which we have been successful in interesting the Colonial Development Corporation who are sending out a representative this season to investigate and report. I understand that the economics of the scheme have been criticised by some in Stanley but in this as in other matters I prefer to be guided by the experts and Honourable Members may take it from me that the Directors and Executives of the Corporation are very hard-headed gentlemen indeed and any project they elect to support must satisfy them as to its merits. As I have suggested before the Freezer is not a short-term investment and if, as I hope, it materialises we can rest assured that it will be of great benefit to the industry and to the Colony which has for too long had all its eggs in one basket.

As to commercial development we are now assured of a resumption of sealing and I have granted a concession to Mr. Tilbury. Whaling, so far as the Colony is concerned, is still "in the air" but I have granted a lease to United Whalers Ltd. in the Dependencies and they contemplate setting up a shore station next summer, that is to say in 1949/50. While our own Fishery scheme has, as I said earlier, been abandoned I have had an application from a South African firm to whom I have granted a licence; they have expressed their intention of sending a scientific party in the near future to explore possibilities. I took the opportunity, while in London, to have a further talk with Mr. Merton of the British American Kelp Company and while there is no immediate likelihood of a resumption of activity our weed is still of interest to them and we must be ready to support the venture if it is revived.

With rumours in the air of the possible sale of the "Lafonia" the problem of our communications comes very much to the fore again and it will interest the House to know that while in London I had discussions with Colonial Office officials and executives of the British South American Airways regarding the possibility of a fortnightly service with Montevideo; so far as could be seen there were no insurmountable operational difficulties the principal hazard being, as ever, the financial one. I can say no more now than that the possibilities are still being examined: I am sure that you will all join your prayers with mine for a favourable outcome.

I should here add a word about our projected internal air service. At a meeting with the Sheep Owners' Association on the day that I left for England there was an unanimous request that I should take immediate steps to implement this. Accordingly I purchased two Auster 'planes through R.A.F. Disposals; one an ambulance model, the other a passenger model. There has been criticism because I purchased two but you will appreciate that this saves converting accommodation on occasions when the plane is required for different purposes and, again, if one breaks down we have the other to fall back upon. Moreover at the price I paid for them - £200 apiece - we could afford this. Now I am told that there is criticism about the price - that at this figure they cannot be airworthy. The critics must understand that aircraft, even second-hand aircraft, cannot be flown without a certificate of air-worthiness; both 'planes were flown from the air-field where they were lying to the manufacturers at Loughborough where they have been overhauled and Honourable Members can rest assured that they will be air-worthy in every respect.

As forecast in my last address to Council, non-contributory children's allowances will be introduced as from the 1st January. To simplify matters, payment will be made, monthly, through the Post Office to the mother or female guardian at the rate of £1 for two children with a further 10/- for each additional child up to school-leaving age; this scheme will, I hope, afford considerable assistance to the family man. In the case of those unfortunate enough to be on public assistance, the allowance will be payable in respect of the first child also. I am continuing, meanwhile, to explore the possibility of providing on a contributory basis for old age, but with so small a community this is no easy problem and one to which I can promise no early solution.

The Cost of Living Committee has been actively engaged during my absence and I have just received two reports from it to which I will give my immediate attention - they reveal a considerable divergence of views. The cost of living will be affected in some degree by the greater freedom of access to United Kingdom sources of supply, to which I referred earlier, while the grant of children's allowances and the abolition of school fees will also make their contribution.

The Budget which will be presented to you by the Hon. the Colonial Secretary & Treasurer presents a more cheerful picture than its predecessor and this despite the additional burdens in the form of Children's Allowances and the new conditions for Government employees for which I have made pro-

vision in anticipation of the Secretary of State's approval. On the Revenue side, the item of major importance is an increase of £6,000 p.a. in the contribution from the Dependencies which comes as the result of prolonged representations concluded during my recent visit to England. This is a substantial increase and represents in my view a proper recognition of the services performed by the Central Government on Dependencies account. The only other item of interest is the proposed substitution of a sliding-scale tax on the export of wool for the present fixed rate; it seeks nothing more than a reasonable contribution when prices are high and protects the farmer if they fall. I discussed this proposal with farm managers during my last tour of the Camp and do not recall one serious criticism; the comment of most of them was that it was fair and reasonable. The tax represents in fact only 2½% and by no stretch of the imagination can it be regarded as onerous. Should the price fall below 10d. per lb. there will be no tax at all. Export duties are a commonplace of the fiscal systems of most producer Colonies. On the expenditure side of the Budget there is a substantial reduction in the Agricultural vote while provision for the Naturalist's Department disappears apart from leave earned by Dr. Hamilton.

I turn now Honourable Members to the first purpose of my visit to London the drafting of a new Constitution for the Colony which has been, as such must ever be, the subject of long and meticulous consideration. The proposals, as finally approved by the Secretary of State for submission to His Majesty, differ in only three respects from the suggestions which I offered to members of the Public Relations Committee last year and which I have discussed tentatively with other of my unofficial advisers from time to time. Briefly, it is proposed that the new Legislative Assembly shall comprise 3 ex-officio members, namely the Colonial Secretary & Treasurer, the Senior Medical Officer and the Agricultural Officer; 4 popularly elected members, one each for the East and West Falkland and two for Stanley; 3 Nominated official members and 2 Nominated unofficial members. There will be then, just as there is today, an equality of official and unofficial votes but with four of the latter representing directly the voice of the people. Now for the differences. The first concerns the unofficial members; it is, I think, generally known that my intention was that the members for Stanley should be automatically the Chairman and Vice Chairman of the Town Council and there were two reasons for this – it would save having double elections and would ensure that the views of the people of Stanley were reflected by those most closely concerned with the day-to-day affairs of the community. The suggestion – and I well knew this when I made it – was an unorthodox one for it was at once pointed out to me that the reasons which may influence an individual to vote in a municipal election are probably quite different from those which persuade him to vote for a candidate for the Legislature and that, not seldom, the interests of Stanley might conflict with the interests of the Colony. The Secretary of State, nevertheless, accepted my proposal until its implications were worked out in drafting when his Legal Advisers discovered a number of potential anomalies and complications: rather than prolong consideration any further or confront the Colony with some unsuspected difficulty or embarrassment, I decided to accept the normal alternative of a single election for the Colony as a whole. The second point concerns the President; in the first draft it was proposed to leave things as they are now – that is with the President having both an original and a casting vote but I have decided to abandon the former which means in effect that the Governor will normally exercise no active influence in debate, his position becoming essentially that of an arbiter. I have done this because I wish to ensure for future proceedings the utmost possible degree of reality. Finally, there will be one reserved subject and that, for reasons which I indicated earlier, the affairs of the Dependencies the responsibility for which now vests in the person of the Governor. I hope that the House and the Public will see in this reform a very substantial advance, for it is nothing less, and that both electors and elected will strive to make a real success of it. I will here remind you that the ultimate objective is a Legislative Council with an unofficial majority which, as you will perceive, can be readily secured when the time is ripe by the removal of one official vote; how soon that day will come depends necessarily upon the use which is made of the new Constitution. It is in the hands of both the electors and the elected. To the former I would say "Take this matter seriously and ensure that you get as your spokesmen those only in whom you have full confidence: having chosen them, make your wishes and criticisms known through them – they are your mouthpieces and they cannot discharge their duty to you effectively unless you give them your full support." And to the latter, the elected, I would say "Do all in your power to make this House a real forum of public opinion, responsibly expressed; let criticism be constructive and your only aim the public weal." Thus, and thus only, can we build surely for the future. A special, and final session of the present Council will be summoned in December to consider a Bill providing for the conduct of elections: these latter should take place in February to enable the inaugural meeting of the new Legislature to be held in March.

I would like at this point to direct the attention of Honourable Members to the international situation. Let us first look westwards. You will either have heard over the Broadcast or have read in the Weekly News the despatch addressed to me by the Secretary of State on the subject of the Bogota Conference and you will share my amazement at the unparalleled effrontery of the resolution there made that a Council should be set up, on which Great Britain and the Empire is not represented, to enquire into and report upon conditions in old-established British Colonies with a view to their eventual removal from the British Crown to which they are united in allegiance. I will not ask you to give formal endorsement to my views – it is wholly unnecessary; but it is well that the matter should be ventilated for there has recently come to my notice an allegation that it is being said openly here "Would we not be better off under the Argentines?" I take the opportunity, therefore, of nailing this monstrous, if not indeed, seditious piece of self-slander to the table of this House for I know well that nowhere within the Empire is there any more loyal community than this (*Applause*). If – I repeat if – such things have been said, they have been said by a few irresponsible and misguided fools and we may leave it at that.

I will turn now to the European scene from which not even the most purblind optimist can derive one crumb of comfort. Those of you who listen regularly to the news and who read your papers will have marked, with anxiety, the growing intransigence of Soviet Russia; will have marked the infinite, unwearying patience and forbearance of Great Britain, the United States and France in their efforts to reach agreement with their partner who has consistently sabotaged every such attempt and whose vocabulary appears to contain no other word but 'NO.' Who seeks through her agents to undermine the faith and corrupt the manhood of her late allies; and to what end, I ask you? There are those who will tell you that Russia does not want war; neither did Nazi Germany if she could attain her ends without it. One hopes always that the common sense of the common people will prevail but history has shown us again.

and yet again, that on such occasions the voice of common sense is stilled and the temper of the people is whipped up by false appeals to serve the bidding of the evil few. Others say that Russia is not ready for war but who can tell if she be ready or not when none can say what is happening behind the curtain she has drawn across her frontiers and those of her satellites?

I would not have you read into these words anything more than I have said; I do not mean to suggest that war is inevitable, much less that it is imminent but we would do well to consider that these years in which we live may be but another breathing space and I put it to you that if ever there was a time when we here should close our ranks, forget about past grievances – real or imagined – and work together to set the affairs of these Islands on a firm and enduring basis, that time is now. We may not get another chance. Let us see to it, too, that our Defence Force is built up to the maximum possible strength and that it is maintained at the highest possible standard of efficiency.

You will permit me, Honourable Members, to conclude as I began on a personal note. Since I came here in November just on two years ago – indeed since the previous September when I was first informed of my appointment – I have had but one thought in my mind, the progress of this Colony: the welfare and wellbeing of its people. To that end I have devoted, and shall continue to devote, my entire energies quite undeterred either by the recent petition for my recall or the personal attack which has followed upon its rejection. To those responsible for the latter I will do no more than quote the words of a great and wise Englishman – Oliver Cromwell to the citizens of Eglintown; this is what he said "For God's sake, Gentle-men, have you never considered for one moment that you might possibly be wrong?"

4. The following questions were asked by the Honourable Mr. A. G. Barton and answered by the Honourable the Colonial Secretary :—

- (i) Whether some indication could be given as to what would be the position of the Dependencies when the Colony attains self-government, that is, would the control of the Dependencies and their industrial resources, whaling revenue, etc., be vested in the Government in Stanley or in the Home Government.

This question must be considered as hypothetical since "self-government" as understood is not a practical possibility for a community of 2,600 seats.

- (ii) Whether the Government would clearly define its policy as to the smallholdings scheme.

This Administration has not hitherto considered any scheme for small holdings but will always be ready to examine any proposals that may be put forward.

- (iii) What steps are being taken to settle the question of increased basic rates of pay of workmen and whether the Government will now make a statement as to the cost of living in the Colony.

The Government awaits the final report and recommendations of the Cost of Living Committee before it can make any statement as regards cost of living in the Colony or give consideration to the question of increased basic pay. Meanwhile, two materially conflicting interim reports have been received from the Committee and receiving attention.

5. The Honourable the Colonial Secretary, by command, laid on the Table the following Papers :—

- (i) Copies of all Regulations, Proclamations, Orders and Bye-laws made or approved by the Governor in Executive Council since the meeting of the Legislative Council held on the 26th of November, 1947.
- (ii) Copies of despatches received from the Secretary of State for the Colonies, intimating the non-disallowance by His Majesty of Ordinances Nos. 6 of 1946, 1, 2, 3, 4 and 5 of 1947, and 1, 3, 4 and 5 of 1948.
- (iii) Annual Abstract Account – Statement shewing the total Receipts and Expenditure of the Colony and its Dependencies for the year 1947.
- (iv) Annual Account of the 'Discovery' Investigations for the year 1947.
- (v) Estimate of the 'Discovery' Investigations expenditure for the year 1948.
- (vi) Report of the Director of Colonial Audit on the accounts of the Colony of the Falkland Islands and Dependencies for the years ended the 31st of December, 1945 and 1946 respectively.
- (vii) Report by Auditor on the accounts of the Falkland Islands and Dependencies for the year 1947.

6. The Honourable the Colonial Secretary moved and the Honourable Mr. R. W. S. Winter seconded the adoption of the following Resolution :

LEGISLATIVE COUNCIL.

MINUTES OF MEETING HELD ON THE 30TH DECEMBER, 1948.

1. The minutes of the meeting of the Legislative Council held on the 20th of October, 1948, were confirmed.

2. His Excellency the Governor delivered to the Council the following address :—

Honourable Members.

The Secretary of State has advised me that the Order-in-Council providing for popularly elected representation in the Legislative Council of this Colony was approved by His Majesty on November 26th and was presented to the House of Commons on the same day. You will therefore be invited to consider this morning a Bill to give practical effect to that Order-in-Council in laying down the manner in which elections to the representative seats shall be conducted. There are to be, you will recall, two members representing the East and West Falklands respectively and two representing Stanley and if, in any particular case, no member should present himself for election then authority is vested in the Governor to nominate a member for that constituency – an authority which I, personally, would be most reluctant to employ. I hope, therefore, that electors will exercise with energy and enthusiasm the privilege which they have so long sought. I shall ask for nominations in February; thus voters will have ample time in which to make up their minds as to the person – man or woman – who is most acceptable to them and best capable, in their view, of representing their interests. They should note that the life of the Council is four years; that is to say that once a member is elected he is in for four years so that the electors will be well advised to give very close attention to this matter.

Second in order of importance today will be the consideration of a Bill to which I referred in my Budget address, designed to confer powers on the Town Council; powers which I am confident that they will exercise wisely and to the increasing benefit of the Stanley community. Here, I venture to hope that future elections to this body will occasion more interest than hitherto and, in particular, I would like to see some of the younger generation coming forward to accept responsibility for it is, you will agree, desirable that all shades of opinion should be represented on it if the Council is to serve the community to the best advantage. There is the further and very important consideration that service on the Town Council cannot fail to provide most useful experience for later service to the Colony as a whole in the Legislative Council.

You will be asked also to consider a Bill to amend the Defence Force Ordinance. The object of this Bill is to abolish the Reserve and to provide that a member be posted direct to the Retired List from the Active List. In the main, its effect will be that members may remain on the Active List until they attain the age of 41 years *and* have been returned efficient for 12 years. And they may so remain after that age if the Commanding Officer considers that they are performing efficient service. Regulation 1 of 1946 unfortunately compelled a member to retire on attaining the age of 41, and this I understand caused a good deal of dissatisfaction among

members who were keen to carry on, whilst also seriously depleting the strength of the Force. The offending Regulation is now rescinded. The amendment springs from a recommendation, unanimously adopted, at a recent meeting of the Officers and non-commissioned officers of the Defence Force and as such it has my full support.

My final duty is to inform you that the present Chamber will cease to exist tomorrow, December 31st, by virtue of a Proclamation which will be made by me on 1st January under the new Letters Patent.

In conclusion it will be your wish, I am sure, that we should convey to the Honourable Mr. Vincent Biggs the sympathy of the House in his long illness, our hopes for his early restoration to health and our appreciation of his long services to the Colony.

3. The Honourable the Acting Colonial Secretary, by command, laid on the Table the following papers :-

- (i) Financial Secretary's Report for the year ended the 31st of December, 1947.
- (ii) Departmental Review for 1948.

4. The Honourable the Acting Colonial Secretary moved the *first* reading of the Bill "To provide for the Nomination and Election of Members to the Legislative Council".

The Honourable the Senior Medical Officer seconded the motion.

On further motion made and seconded the Standing Orders were suspended and the Bill was read a *second* time and committed.

Clauses 1 to 52 were agreed to. The Schedule was agreed to. The Enacting Clause and Title were agreed to. The Council resumed. The Bill was then read a *third* time and passed.

5. On the motion of the Honourable the Acting Colonial Secretary seconded by the Honourable Mr. D. W. Roberts, the Bill "To amend the Stanley Town Council Ordinance" was read a *first* time.

On further motion made and seconded the Standing Orders were suspended and the Bill was read a *second* time and committed.

LEGISLATIVE COUNCIL.

MINUTES OF MEETING HELD ON THE 4TH MARCH, 1949.

1. The following Honourable Members, after taking the prescribed Oath, assumed their seats in Council:—

Mr. J. P. Oliver, Mr. E. F. Bunting, Mr. B. N. Biggs, Mr. D. M. Honeyman,
Mr. W. J. Hutchinson, Mr. S. C. Luxton, Mr. A. L. Hardy, B.E.M., J.P.

2. The minutes of the meeting of the Legislative Council held on the 30th of December, 1948, were confirmed.

3. His Excellency the Governor delivered to the Council the following address:—
Honourable Members,

We must, I suppose, all feel this morning that we are participating in an historic occasion, marked as it is by a special message of personal good wishes from the Right Honourable the Secretary of State for the Colonies which it is my honour and privilege to convey to you. The message reads as follows:—

"On the occasion of the inauguration of the new Legislative Council I send my personal good wishes to the people of the Falkland Islands. It is right that you should now be more closely associated with your own Government and share its responsibilities. It is for this purpose that a representative Legislative Council has been instituted so that you may play a greater part in all matters pertaining to the Administration and development of the Colony. I shall follow the proceedings in your Council with keen interest, confident that you will cherish and uphold those fine traditions of public service which British people have carried with them to so many distant lands and that by their advice your representatives will contribute greatly to the framing of wise laws and the promotion of welfare and prosperity of the Islands."

Today, then, we are assembled to launch upon its way the Colony's new Constitution in which, for the first time in its history, unofficial members—four out of a total of six—are the direct representatives of the people, so chosen by their own free will. Let us pause for a moment to examine the composition of this new Council and to consider its functions. It comprises the three senior officials in the Administration, namely the Colonial Secretary, the Senior Medical Officer and the Agricultural Officer who hold their seats by virtue of office; four popularly elected members representing the Camp and Stanley, two nominated unofficial members selected by me in token of their knowledge of local affairs and the help they can bring to the Council's deliberations and, finally, three nominated official members, Heads of the more important Departments in the Government. We have, thus, an evenly balanced Chamber with the President exercising a casting vote—a step which I hope it will seldom be necessary for him to take; to this I would add that whenever I am satisfied that the public interest will not be thereby embarrassed I shall permit official members to vote on the merits of the measure before them.

On such another occasion some years ago, Honourable Members, one of the ablest and most distinguished of Colonial Governors—the late Sir Hugh Clifford—said this:

"There is a great difference between a Legislative Council and a House of Parliament. In the latter you have a Government in contradistinction to an Opposition and if the Opposition is strong enough it can turn the Government out and take its place. In a Legislative Council, on the other hand, in no circumstances whatever can the unofficial members displace the official members and take over their duties from them. There is no such thing in such an Assembly as a Government and an Opposition—instead" he continued "we have to realise that we form a single, corporate body all of whose members are working equally for the attainment of a single end..." by which of course he meant the prosperity and wellbeing of the Colony and its people.

Now these words deserve to be carefully pondered for they are as pertinent here, today, as when they were spoken. The term "opposition" in our assembly is an utterly wrong concept although one to which colour has perhaps been lent in the past by the order of seating; unofficials on one side, officials on the other—the sheep and the goats. That practice, as you will have remarked, has today been abandoned. Let us look upon ourselves, rather, as members of one family gathered round the table and concerned only with the fortunes of this family; criticising as freely as we will the policies submitted for our consideration and giving, each to the best of his

ability, his own contribution to the family counsels so that in the end we may arrive at prudent and profitable decisions.

At this point I must urge the public to exercise patience and not to expect too much, too soon, of this new departure. Administration for which you, Honourable Members, are now jointly responsible with your colleagues in the Government is, as you will find, no easy task in these times and we have all of us much to learn. We are perhaps a little prone to look inwards – at what we lack and others have; it would do no harm – it would indeed be salutary – were we occasionally to look outwards, at what we have and others lack. So far as remediable defects and deficiencies are concerned the Administration is doing its best and needs no apologist in regard either to its intentions or its achievements during the past two years and I commend to your notice the draft Development Programme which will be laid on the Table. But it must be remembered, as I have frequently reminded Honourable Members, that our difficulties of material and man-power are formidable; and more especially so as concerning overseas staff on whom we must to some extent rely, since the face value of salaries which we can afford to offer compares so unfavourably with what can be obtained elsewhere. Nevertheless, given patience – I repeat patience – and good-will and a fair market for our produce we shall move slowly and steadily forward to better times; of that I am entirely convinced.

Two words now on procedure and I will have done. First as regards Questions. These are of two kinds; those requiring a written reply which must be submitted to the Clerk not less than two weeks before the advertised date of a meeting and those seeking an oral reply – when they must so be marked – which should be handed in not less than two days before. In the case of the former both Question and Answer will be printed and laid on the table and no supplementary question may be put during the Debate; in the case of the latter, a supplementary question may be asked arising out of the reply from the Government spokesman.

Second, as regards Finance. The Estimates for the year will be referred on the second reading of the Supply Bill, to a select Committee comprising the unofficial members of Council sitting with the Colonial Secretary as Chairman; Departmental Officers will attend in turn to answer any question or to give any information which may be desired and the debate on the Budget will not take place until the Committee has completed its task of scrutiny. There will be, in addition, a Standing Finance Committee to deal with the day to day requirements of the Administration and this will be convened as necessary.

In conclusion while I customarily refrain from quoting myself I make no apology for repeating today the advice which I offered in the course of my address last October; to the Electors, then, this message "You have chosen your representatives. Now make your wishes and criticisms known through them – they are your mouthpieces and cannot discharge their duty to you effectively unless you give them your full support." And to you, Honourable Members, chosen of the people, allow me to repeat "Do all in your power to make this House a real forum of public opinion responsibly expressed; let your criticisms be constructive and your only aim the public good."

Section 47A.
Double taxation
relief:
Order in Council.

47A. (1) If the Governor in Council by Order declares that arrangements specified in the Order have been made with the Government of any territory outside the Colony with a view to affording relief from double taxation in relation to income tax and any tax of a similar character imposed by the laws of that territory and that it is expedient that those arrangements should have effect, the arrangements shall have effect in relation to income tax notwithstanding anything in any enactment.

(2) On the making of an Order under this section with respect to arrangements relating to the United Kingdom, section 46 of this Ordinance shall cease to have effect except in so far as the arrangements otherwise provide.

(3) On the making of an Order under this section with respect to arrangements relating to any territory forming part of His Majesty's dominions (other than the United Kingdom or the Colony), section 47 of this Ordinance shall cease to have effect as respects that territory except in so far as the arrangements otherwise provide.

(4) Any Order made under this section may be revoked by a subsequent Order.

(5) Where any arrangements have effect by virtue of this section, the obligation as to secrecy imposed by section 4 of this Ordinance shall not prevent the disclosure to any authorised officer of the government with which the arrangements are made or such information as is required to be disclosed under the arrangements.

(6) The Governor in Council may make rules for carrying out the provisions of any arrangements having effect under this section.

Section 47B.
Amount of relief.

47B. The provisions of this section shall have effect where, under arrangements having effect under section 47A of this Ordinance, tax payable in respect of any income in the

territory with the Government of which the arrangements are made is to be allowed as a credit against tax payable in respect of that income in the Colony; and in this section the expression "foreign Tax" means any tax payable in that territory which under the arrangements is to be so allowed and the expression "income tax" means tax chargeable under this Ordinance.

(2) The amount of the income tax chargeable in respect of the income shall be reduced by the amount of the credit :

Provided that credit shall not be allowed against income tax for any year of assessment unless the person entitled to the income is resident in the Colony for that year.

(3) The credit shall not exceed the amount which would be produced by computing the amount of the income in accordance with the provisions of this Ordinance and then charging the income tax at a rate ascertained by dividing the income tax chargeable (before allowance of credit under any arrangements having effect under section 47A of this Ordinance) on the total income of the person entitled to the income by the amount of his total income.

(4) Without prejudice to the provisions of the preceding subsection, the total credit to be allowed to a person for any year of assessment for foreign tax under all arrangements having effect under section 47A of this Ordinance shall not exceed the total income tax payable by him for that year of assessment, less any tax payable by him under the provisions of section 32 of this Ordinance.

(5) In computing the amount of the income —

- (a) no deduction shall be allowed in respect of foreign tax (whether in respect of the same or any other income);
- (b) where the income tax chargeable depends on the amount received in the Colony, the said amount shall be increased by the appropriate amount of the foreign tax in respect of the income;
- (c) where the income includes a dividend and under the arrangements foreign tax not chargeable directly or by deduction in respect of the dividend is to be taken into account in considering whether any, and if so what, credit is to be given against income tax in respect of the dividend the amount of the income shall be increased by the amount of the foreign tax not so chargeable which falls to be taken into account in computing the amount of credit;

but notwithstanding anything in the preceding provisions of this subsection a deduction shall be allowed of any amount by which the foreign tax in respect of the income exceeds the credit therefor.

(6) Paragraphs (a) and (b) of the preceding subsection (but not the remainder thereof) shall apply to the computation of total income for the purposes of determining the rate mentioned in subsection (3) of this section, and shall apply thereto in relation to all income in the case of which credit falls to be given for foreign tax under arrangements for the time being in force under section 47A of this Ordinance.

(7) Where —

- (a) the arrangements provide, in relation to dividends

of some classes, but not in relation to dividends of other classes, that foreign tax not chargeable directly or by deduction in respect of dividends is to be taken into account in considering whether any, and if so what, credit is to be given against income tax in respect of the dividends; and

- (b) a dividend is paid which is not of a class in relation to which the arrangements so provide,

then, if the dividend is paid to a company which controls, directly or indirectly, not less than one-half of the voting power in the company paying the dividend, credit shall be allowed as if the dividend were a dividend of a class in relation to which the arrangements so provide.

(8) Credit shall not be allowed under the arrangements against income tax chargeable in respect of the income of any person for any year of assessment if he elects that credit shall not be allowed in the case of his income for that year.

(9) Any claim for an allowance by way of credit shall be made not later than two years after the end of the year of assessment, and in the event of any dispute as to the amount allowable the claim shall be subject to objection and appeal in like manner as an assessment.

(10) Where the amount of any credit given under the arrangements is rendered excessive or insufficient by reason of any adjustment of the amount of any tax payable either in the Colony or elsewhere, nothing in this Ordinance limiting the time for the making of assessments or claims for relief shall apply to any assessment or claim made not later than two years from the time when all such assessments, adjustments and other determinations have been made, whether in the Colony or elsewhere, as are material in determining whether any and if so what credit falls to be given.

Section 47C.
Relief for companies.

47C. (1) Where the tax paid or payable by a company is affected by double taxation relief the amount to be set off under section 23 of this Ordinance, or to be repaid under section 54 of this Ordinance, in respect of the tax deductible from any dividend paid by the company shall be reduced as follows :

- (a) if no tax is chargeable on the recipient in respect of the dividend, the reduction shall be an amount equal to tax on the gross dividend at the rate of double taxation relief applicable thereto;
- (b) if the rate of tax chargeable on the recipient in respect of the dividend is less than the rate of double taxation relief applicable to the dividend, the reduction shall be an amount equal to tax on the gross dividend at the difference between those two rates.

(2) For the purposes of this section —

- (a) if the income of the person chargeable includes one dividend such as is mentioned in the preceding subsection, that dividend shall be deemed to be the highest part of his income;
- (b) if his income includes more than one such dividend, a dividend shall be deemed to be a higher part of his income than another dividend if the net Colonial rate applicable to the former dividend is lower than that applicable to the latter dividend;

- (c) where tax is chargeable at different rates in respect of different parts of any such dividend, or where tax is chargeable in respect of some part of any such dividend and is not chargeable in respect of some other part thereof, each part shall be deemed to be a separate dividend;
- (d) the expression "double taxation relief" has the same meaning as in section 22 of this Ordinance, and the expression "the rate of double taxation relief" means the rate which represents the excess of the rate of tax deductible from the dividend over the net Colonial rate applicable thereto.

NOTICES.

The following Notices etc., are published by command of His Excellency the Governor.

R. WINTER.

Acting Colonial Secretary.

No. 23. 1st May, 1949.

It is hereby notified for public information that

M. R. RAYMER, ESQUIRE,
has been selected by the Right Honourable the Secretary of State for the Colonies to be Colonial Secretary, Falkland Islands.

M.P. P/459.

No. 24. 1st May, 1949.

PURCHASE OF URANIUM AND THORIUM BY MINISTRY OF SUPPLY.

1. The United Kingdom Ministry of Supply offers to buy all uranium ores and concentrates produced in the Colonial Empire during the period of ten years from the date of this announcement at a minimum price of 13s. 9d. per

lb. of contained uranium oxide delivered f.o.b. ocean port.

2. This offer is subject only to the reservations that the Ministry does not guarantee to purchase ore or concentrate containing less than ten per cent uranium oxide, nor does it guarantee to purchase lots of less than ten tons ore or concentrate. Ore or concentrate containing less than ten per cent uranium oxide may, however, be purchased on terms to be agreed with the vendor in circumstances where the ore cannot readily be beneficiated overseas to a higher uranium content and where important tonnages are available.

3. The price quoted in paragraph 1 is a minimum price for small lots. Higher prices may be established by negotiation where costs of production, including any reward payable by operating company to prospector, are shown to be

greater. The Ministry will also take into account the presence of other valuable constituents (if any) of the ore having regard to the cost of recovery. The Ministry would be glad to discuss actual terms with any person operating or about to operate a deposit likely to yield substantially more than the minimum tonnage.

4. Where the concentrates potentially available from a deposit being worked, or proposed to be worked, are adequate to justify the outlay, the Ministry would be willing to provide the capital required for the installation of concentrating plants.

5. As a further incentive to the discovery and exploitation of uranium deposits, the Ministry will consider paying a lump sum in aid of mine development to any person who produces and delivers on the above terms not less than 20 tons of ore or concentrate containing not less than 10 per cent uranium oxide from a concession or mining lease situated in the British Colonies and not previously worked for uranium.

6. No specific offer is made for thorium-containing minerals; but the Ministry will be very ready to discuss terms for purchase from any would-be vendor.

7. Persons having ores or concentrates for sale are invited to communicate with the Ministry of Supply, Division of Atomic Energy, Shell Mex House, London, W.C. 2, through the Colonial Secretary.

MILES CLIFFORD,
Governor.

No. 2 of 1949.

APPEALS TO HIS MAJESTY IN COUNCIL.

1. These Rules may be cited as the Privy Council Appeals Rules, 1949. Short title.

2. The preparation of records and cases in appeals to His Majesty in Council shall be in accordance with these Rules.

3. The Registrar, as well as the parties and their legal agents, shall endeavour to exclude from the record all documents (more particularly such as are merely formal) that are not relevant to the subject-matter of the appeal, and, generally, to reduce the bulk of the record as far as practicable, taking special care to avoid the duplication of documents and the unnecessary repetition of headings and other merely formal parts of documents; but the documents omitted to be copied or printed shall be enumerated in a list to be placed after the index or at the end of the record. Irrelevant documents to be excluded from the record.

4. Where in the course of the preparation of a record one party objects to the inclusion of a document on the ground that it is unnecessary or irrelevant, and the other party insists upon its being included, the record, as finally printed shall, with a view to the subsequent adjustments of the costs of and incidental to such document, indicate in the index of papers, or otherwise, the fact that, and the party by whom, the inclusion of the document was objected to. Cases in which there is a conflict between parties as to the relevancy of a document.

The application shall be supported by an affidavit of the facts exhibiting the judgment or a verified or certified or otherwise duly authenticated copy thereof and stating that to the best of the information and belief of the deponent the judgment creditor is entitled to enforce the judgment and the judgment does not fall within any of the cases in which under the Ordinance a judgment cannot properly be ordered to be registered. The affidavit must also, so far as the deponent can, give full name, title, trade or business and usual or last known place of abode or business of the judgment creditor and judgment debtor respectively.

- Notice of Registration.** 38. Notice in writing of the registration of the judgment must be served on the judgment debtor within a reasonable time after such registration. Such notice shall (in the absence of an order by the Judge as to the mode of service thereof) be served on the judgment debtor by personal service (with power to order substituted service or service out of the jurisdiction or both) as in the case of a writ of summons, but the Judge may at any stage of the proceedings

authorise or direct some other mode of service and if he does so the service shall be effected in accordance with such authority or direction.

The notice of registration shall contain full particulars of the judgment registered and of the order for such registration and shall state the name and address of the judgment creditor on whom and at which service of any summons issued by the judgment debtor may be served. This rule shall apply to substituted as well as other service. The three days limited by this rule may under special circumstances be extended by order of the Judge.

Indorsement of service.

41. The judgment debtor may at any time within the time limited by the order giving leave to register after service on him of the notice of the registration of the judgment apply by summons to the Judge to set aside the registration or to suspend execution on the judgment and the Judge on such application if satisfied that the case comes within one of the cases in which under section 2 (2) of the Ordinance no judgment can be ordered to be registered or that it is not just or convenient that the judgment should be enforced in the Colony or other sufficient reason may order that the registration be set aside or execution on the judgment suspended either unconditionally or on such terms as he thinks fit and either altogether or until such time as he shall direct: Provided that the Judge may allow the application to be made at any time after the expiration of the time herein mentioned.

CENTRAL LAND BOARD.

This announcement is intended for any person who on the 1st of July, 1948, owned or leased property in England, Wales or Scotland.

If he has land which could be made more valuable by being built on (for example an un-built-on housing plot) or a building which could be made more valuable by being extended or put to some different use, he ought to consider claiming on a fund of £300,000,000 which the Government has set aside under the Town and Country Planning Act, 1947, to compensate owners for loss of the development value in their land. This value now belongs to the State.

If he is affected he should tell his representative in Great Britain to consider putting in a claim at the local office of the Central Land Board. It is advisable to have professional advice.

This must be done at once. No claims can be accepted after the 30th of June, 1949.

3. Section 22 of the Principal Ordinance shall be amended as follows — Section 22.
 - (a) in sub-section (1) thereof by substituting the words "double taxation relief being let out of account" for the words "as reduced by any relief granted under sections 19, 46 and 47 of this Ordinance" in lines 3 and 4 thereof.

- (c) by the addition of the following subsection at the end thereof :

Double taxation
relief : definition.

“(3) In this section the expression “double taxation relief” means any credit for foreign income tax which is allowable against income tax chargeable under this Ordinance by virtue of arrangements having effect under section 47A of this Ordinance, and any relief allowable under section 46 or section 47 of this Ordinance, including any credit or relief which has been taken into account in determining the net Colonial rate applicable to any dividends received by the company”.

Section 24.

4. Section 24 of the Principal Ordinance shall be amended by deleting the words “and received therein” and by substituting the word “to” for “by” in line 2 thereof.

5. The Principal Ordinance shall be amended by the addition of the following sections after section 47 thereof :

Section 47A.
Double taxation
relief:
Order in Council.

47A. (1) If the Governor in Council by Order declares that arrangements specified in the Order have been made with the Government of any territory outside the Colony with a view to affording relief from double taxation in relation to income tax and any tax of a similar character imposed by the laws of that territory and that it is expedient that those arrangements should have effect, the arrangements shall have effect in relation to income tax notwithstanding anything in any enactment.

(2) On the making of an Order under this section with respect to arrangements relating to the United Kingdom, section 46 of this Ordinance shall cease to have effect except in so far as the arrangements otherwise provide.

(3) On the making of an Order under this section with respect to arrangements relating to any territory forming part of His Majesty's dominions (other than the United Kingdom or the Colony), section 47 of this Ordinance shall cease to have effect as respects that territory except in so far as the arrangements otherwise provide.

(4) Any Order made under this section may be revoked by a subsequent Order.

(5) Where any arrangements have effect by virtue of this section, the obligation as to secrecy imposed by section 4 of this Ordinance shall not prevent the disclosure to any authorised officer of the government with which the arrangements are made or such information as is required to be disclosed under the arrangements.

(6) The Governor in Council may make rules for carrying out the provisions of any arrangements having effect under this section.

Section 47B.
Amount of relief.

47B. The provisions of this section shall have effect where, under arrangements having effect under section 47A of this Ordinance, tax payable in respect of any income in the

territory with the Government of which the arrangements are made is to be allowed as a credit against tax payable in respect of that income in the Colony; and in this section the expression "foreign Tax" means any tax payable in that territory which under the arrangements is to be so allowed and the expression "income tax" means tax chargeable under this Ordinance.

(2) The amount of the income tax chargeable in respect of the income shall be reduced by the amount of the credit :

Provided that credit shall not be allowed against income tax for any year of assessment unless the person entitled to the income is resident in the Colony for that year.

(3) The credit shall not exceed the amount which would be produced by computing the amount of the income in accordance with the provisions of this Ordinance and then charging the income tax at a rate ascertained by dividing the income tax chargeable (before allowance of credit under any arrangements having effect under section 47A of this Ordinance) on the total income of the person entitled to the income by the amount of his total income.

(4) Without prejudice to the provisions of the preceding subsection, the total credit to be allowed to a person for any year of assessment for foreign tax under all arrangements having effect under section 47A of this Ordinance shall not exceed the total income tax payable by him for that year of assessment, less any tax payable by him under the provisions of section 32 of this Ordinance.

(5) In computing the amount of the income —

- (a) no deduction shall be allowed in respect of foreign tax (whether in respect of the same or any other income);
- (b) where the income tax chargeable depends on the amount received in the Colony, the said amount shall be increased by the appropriate amount of the foreign tax in respect of the income;
- (c) where the income includes a dividend and under the arrangements foreign tax not chargeable directly or by deduction in respect of the dividend is to be taken into account in considering whether any, and if so what, credit is to be given against income tax in respect of the dividend the amount of the income shall be increased by the amount of the foreign tax not so chargeable which falls to be taken into account in computing the amount of credit;

but notwithstanding anything in the preceding provisions of this subsection a deduction shall be allowed of any amount by which the foreign tax in respect of the income exceeds the credit therefor.

(6) Paragraphs (a) and (b) of the preceding subsection (but not the remainder thereof) shall apply to the computation of total income for the purposes of determining the rate mentioned in subsection (3) of this section, and shall apply thereto in relation to all income in the case of which credit falls to be given for foreign tax under arrangements for the time being in force under section 47A of this Ordinance.

(7) Where —

- (a) the arrangements provide, in relation to dividends

of some classes, but not in relation to dividends of other classes, that foreign tax not chargeable directly or by deduction in respect of dividends is to be taken into account in considering whether any, and if so what, credit is to be given against income tax in respect of the dividends; and

- (b) a dividend is paid which is not of a class in relation to which the arrangements so provide,

then, if the dividend is paid to a company which controls, directly or indirectly, not less than one-half of the voting power in the company paying the dividend, credit shall be allowed as if the dividend were a dividend of a class in relation to which the arrangements so provide.

(8) Credit shall not be allowed under the arrangements against income tax chargeable in respect of the income of any person for any year of assessment if he elects that credit shall not be allowed in the case of his income for that year.

(9) Any claim for an allowance by way of credit shall be made not later than two years after the end of the year of assessment, and in the event of any dispute as to the amount allowable the claim shall be subject to objection and appeal in like manner as an assessment.

(10) Where the amount of any credit given under the arrangements is rendered excessive or insufficient by reason of any adjustment of the amount of any tax payable either in the Colony or elsewhere, nothing in this Ordinance limiting the time for the making of assessments or claims for relief shall apply to any assessment or claim made not later than two years from the time when all such assessments, adjustments and other determinations have been made, whether in the Colony or elsewhere, as are material in determining whether any and if so what credit falls to be given.

Section 47C.
Relief for companies.

47C. (1) Where the tax paid or payable by a company is affected by double taxation relief the amount to be set off under section 23 of this Ordinance, or to be repaid under section 54 of this Ordinance, in respect of the tax deductible from any dividend paid by the company shall be reduced as follows :

- (a) if no tax is chargeable on the recipient in respect of the dividend, the reduction shall be an amount equal to tax on the gross dividend at the rate of double taxation relief applicable thereto;
- (b) if the rate of tax chargeable on the recipient in respect of the dividend is less than the rate of double taxation relief applicable to the dividend, the reduction shall be an amount equal to tax on the gross dividend at the difference between those two rates.

(2) For the purposes of this section —

- (a) if the income of the person chargeable includes one dividend such as is mentioned in the preceding subsection, that dividend shall be deemed to be the highest part of his income;
- (b) if his income includes more than one such dividend, a dividend shall be deemed to be a higher part of his income than another dividend if the net Colonial rate applicable to the former dividend is lower than that applicable to the latter dividend;

- (c) where tax is chargeable at different rates in respect of different parts of any such dividend, or where tax is chargeable in respect of some part of any such dividend and is not chargeable in respect of some other part thereof, each part shall be deemed to be a separate dividend;
- (d) the expression "double taxation relief" has the same meaning as in section 22 of this Ordinance, and the expression "the rate of double taxation relief" means the rate which represents the excess of the rate of tax deductible from the dividend over the net Colonial rate applicable thereto.

6. This Ordinance shall come into force on the 1st day of Operation.

WHEREAS it is essential, if man is not to be compelled to have recourse, as a last resort, to rebellion against tyranny and oppression, that human rights should be protected by the rule of law,

WHEREAS it is essential to promote the development of friendly relations between nations,

WHEREAS the peoples of the United Nations have in the Charter^o reaffirmed their faith in fundamental human rights, in the dignity and worth of the human person and in the equal rights of men and women and have determined to promote social progress and better standards of life in larger freedom.

1. The Honourable Mr. R. S. Bounphrey, after taking the prescribed Oath, assumed his seat in Council:—

2. The minutes of the meeting of the Legislative Council held on the 4th of March, 1949, were confirmed.

3. His Excellency the Governor delivered to the Council the following address:—
Honourable Members of Council.

In just a fortnight from now I shall be taking my departure from the Colony on leave of absence and as this will also mark the half-way point in my term of office it is, perhaps, an appropriate moment to assess such progress as has been achieved during that period.

Turning first to constitutional affairs, we find that Stanley has now its own Town Council with an unofficial majority, appointing its Chairman from the popularly elected members; it can thus be said that the fortunes of the Town have passed in a very real degree into the hands of its citizens which is precisely as it should be. The Council is in its first year of full operation and will, I trust, go from strength to strength; it may count always on the good will and assistance of the Administration in the teething troubles which may be expected to beset it. The important thing is that the towns-people should themselves give it their unqualified support.

A reformed Legislative Council with four of its six Unofficial Members chosen by the people came into being on the 1st January; from this innovation too I look for an ever-increasing participation by the people in their own Government and a growing sense of responsibility.

These are, you will agree Honourable Members, the two most important landmarks in the history of the Colony.

Urgent communications between the Islands which have hitherto presented a vexatious and difficult problem, as well as creating a great sense of isolation, have been greatly improved; first by the acquisition last year of the Motor Fishing Vessel "Philomel" and secondly by the introduction this year of an experimental air service. The "Philomel" has already amply justified her purchase and her value to the Colony is greatly enhanced by the departure of the Company's ship "Lafonia" and by the tragic loss in quick succession of the "Paloma" and the "Porvenir". "Philomel" has been worked pretty hard since she sailed from England eighteen months ago and is in need of minor repairs which should not, however, take long to carry out; as soon as her repairs are completed she will sail on a regular, advertised schedule dovetailing in, so far as may be possible, with the itineraries of the "Fitzroy".

The experimental air service saved a young life within a week of the assembly of the first plane and has accelerated delivery of mail to the Camp in a quite sensational way; the purchase of these two second-hand aircraft has demonstrated at small cost that the light aeroplane is in fact the solution to this particular problem. It requires now only the active and effective co-operation of the farmers and a regular, scheduled service will come into being and will be expanded just as fast as satisfactory landing fields are prepared. The possibility of an air service to the Coast is still under examination and will be further pursued while I am at home.

As regards the other aspect of Communications, a new Wireless Station with powerful, modern equipment has been erected at Stanley and another at South Georgia; both installations were improvised at very low cost and both are giving highly efficient service. Provision has been made for early replacement of the antiquated equipment at Fox Bay and, in the process, it will be possible for me to supply electric light to that Settlement.

The introduction of Radio transceiving sets to the Camp, listed for 1949/50, has been subject to some delay owing to supply difficulties but according to recent advice the sets should be here by the end of the year. It will then be for the farmers to complete their side of the bargain by arranging satisfactory communications between the Settlements and their "outside" houses; this done, the whole communications situation in the Colony will have been completely revolutionised. There will, indeed, be little left to do apart from the steady improvement of the services to which I have referred, for as I have before remarked, roads are quite out of the question.

I will turn now to social services, social betterment and social amenities. Plans for the modernisation of the King Edward VII. Memorial Hospital have been re-drafted and approved and a free grant of £35,000 has been made from the Colonial Development and Welfare Fund for carrying them into effect; on completion the Colony will possess a Hospital which will compare favourably with that of many a larger community and one which will meet all needs for as far as we can see into the future. New accommodation for the domestic staff is almost ready for occupation and work on the foundations for the new block will commence immediately.

The educational system, highly inadequate and unsatisfactory where it concerns the Camp, has been completely overhauled and my new proposals which were unanimously endorsed by a representative local committee have been approved by the Secretary of State and only await the necessary staff to begin putting them into effect. A free grant of £23,000 has been made towards the implementation of this scheme which may take anything up to seven years to get into full operation. Teacher training which is the first and most important step will begin this year.

As regards social betterment, following an interim award on the 1st November the cost of living bonus has been doubled and of the increase twopence per hour has been consolidated in the basic wage with effect from the 1st March. The minimum earnings of unskilled labour have been increased thereby from £2 12s. 6d. per week before the war to £3 15s. 0d. today. To this we must add the non-contributory scheme of Children's Allowances which was introduced on the 1st January. These measures should together be of real assistance to the worker and they represent as much as the Colony can afford.

Social amenities. Substantial progress has been made with the building of the new Town Hall despite a long tale of frustrations due to the non-arrival of essential materials ordered some two years ago but the Executive Engineer is still hoping to complete the job by the end of the year as originally forecast. This should make a vast difference to the social life of the community and it is safe to predict that the new building will be a better, as it will also be a safer one, than the old. In addition to the Dance Hall, Stage and Restaurant on the upper floor there is accommodation below for a Council Chamber, Supreme Court, Town Council offices, a commodious Post Office where telegraph business will also be transacted, a Public Library and Reading Room and a Museum. I have already received a gift of £100 from the British Council towards new books for the Library and if any member of the public should have anything of interest for the Museum I do hope that he or she will bring it forward when the building is ready for occupation as all the former exhibits were destroyed in the Town Hall fire.

Both Hospital and Town Hall, as well as a hundred and one other things, depend on efficient light and power and we have been fortunate in obtaining on most favourable terms three new 150 kw Blackstone diesel generators with spares. This plant should meet all foreseeable future requirements but there is provision for expansion of the service at need. Work on the new Power House will commence at once.

The problem of improving our Broadcasting system so that it will give optimum reception to listeners in all parts of the Camp as well as in the Dependencies has been referred to the B.B.C. for expert advice and I have no doubt that the present difficulties will be overcome.

A 16 mm 'talkie' Cinema with portable generator has been obtained free of cost thanks once again to the generosity of the British Council and Mr. Jones, engineer-designate of the "Philomel", is being trained to operate the equipment so that displays can be given whenever the ship goes to the Camp; a supply of films has been arranged.

A Henschreiber tele-news printer has also been received on free loan and a daily bulletin of headline news is contemplated.

New conditions of pay and service have been devised for the clerical and technical employees of the Government and these have been approved by the Secretary of State. They provide a more stable and satisfactory career for new entrants to the Service as well as for those on the present establishment who have elected to take them: negotiations are proceeding for participation in a Widows and Orphans Pension Scheme. I have fostered and approved the setting up of a Civil Servants Association which will be recognised as the official channel for the submission of the views of the Service as a whole, though not of course for the consideration of individual grievances.

At this point I think it well to reiterate, although it should not be necessary, that it is the policy of the Government to fill vacancies as they occur by local rather than by overseas recruitment whenever this is possible and in the public interest: this implies, however, that the local candidate must possess both the ability and the character which will fit him to discharge the duties of the post. If he has the character but not the technical ability then to qualify for consideration he must have the education and intelligence which will enable him so to profit from a course of instruction that he will be able to discharge the duties of the post efficiently. Lacking this or should character fall short of requirements the Government must look elsewhere.

Rapid progress has been made with the revision of the Laws and the Legal Secretary expects to finish his task, as far as it is possible to do this locally, early next year; proof reading, indexing and printing will be carried out in England. As the present volume takes us only to 1915 the completion of this work will be a great convenience to all of us. About a year of Mr. Winter's contract will have been occupied in performing the duties of Colonial Secretary in addition to his own job and I have no doubt that Honourable Members will share my appreciation of the zealous and expeditious manner in which this exacting task has been tackled.

The economic outlook is distinctly hopeful for whilst we have suffered a disappointment over the British American Kelp Company, a sealing venture has been established under the auspices of the Colonial Development Corporation and is expected to commence operations next season. This will bring in some modest but welcome revenue to the Colony and provide one more avenue of employment. I have not yet given up hope of a resumption of whaling and reports point to a considerable increase in the number of whales around our coasts. I shall go further into this matter when I am in London.

The Corporation has also, at my suggestion, sent out an expert to investigate the possibilities of setting up a Freezer; while the decision rests in their hands it can at least be said that the investigator's findings are highly encouraging. The advantages of a dual economy, wool *and* meat, where for so long we have had all our eggs in one basket are self-evident. Meanwhile the farmers are enjoying excellent prices for their wool and I felicitate them most cordially while venturing to hope that they will impress upon their Directors and Shareholders the desirability of ploughing back some part of this prosperity into improvements, including better accommodation for their workers.

I obtained last year the Secretary of State's approval for an experimental Fishery scheme and a grant to carry it out; an expert fisherman from Thurso was engaged and a boat and gear acquired. On the advice of the Economy Committee the project was abandoned but while I appreciate the considerations which dictated their advice I nevertheless lament the jettisoning of this scheme if only on dietary grounds. With the loss of its only wholtime fisherman in the tragedy at Easter, Stanley is going to be hard put to it for a fish supply and we may live to regret that decision. I have meanwhile granted an exploratory licence to a South African firm which is interested, however, only in commercial exploitation which I had never seriously considered. A large number of fingerlings have been distributed to streams and rivers in the Camp from the Trout Hatchery at Moody Valley and the experiment should soon begin to bear fruit.

The seeds of what promises to develop into a flourishing little home industry have been sown by the inauguration of a Spinning and Knitting Guild and I take this opportunity to congratulate Mrs. Roberts and her co-workers on their enterprise; so good is the quality of the work that I have been able to give the Guild the entire order for knitted woollen wear for the Falkland Islands Dependencies Survey and the "John Biscoe", while I hope also to arrange for specimen garments to be put on display during the Festival of Britain. If interest is maintained at the present level I shall resuscitate my earlier proposal to bring out a skilled weaver from Harris.

I have drawn up a ten year Development Plan which was laid before the House at its last meeting and will be discussed in the House on my return; I hope that Honourable Members will study it carefully during my absence so that I may have the benefit of their criticisms, suggestions, and advice.

His Majesty has been pleased to approve a new Coat of Arms for the Colony and this will shortly appear in a new stamp issue.

Looking over the field which has been covered during the past two and a half years Honourable Members may incline to the view that some progress has been made while it is also gratifying to record that despite the additional burdens imposed by wage improvement and Children's Allowances the Budget which revealed a most formidable deficit on my arrival in November, 1946, is now balanced. This agreeable state of affairs has been brought about in part by new but by no means onerous taxation, in part by the prosperous state of the wool market and by an increased contribution from the Dependencies and in part by economies.

Let us then take comfort and encouragement from these conclusions but let there be no complacency, I beg you, for there is yet much to do and it will require the combined energies and good will of all of us – and a new sense of Citizenship – if the Colony is to reap the full benefit.

Of the ten Bills to be presented for your consideration this morning none appears to be contentious or to call for any special remark from me.

A Resolution will be tabled to give effect to the intention which I announced at the last meeting of Council in regard to the setting up of a Standing Finance Committee to deal with the day to day requirements of the Administration. It will be a very great relief to me to place these responsibilities in the hands of the Honourable the Unofficial Members.

I have received a message from the Secretary of State asking me to convey to you the thanks of His Majesty's Government for the gift of two silver ashtrays which the Colony has presented to the new House of Commons. I am sure you will be glad to think that we have been associated even in this small way with the Mother of Parliaments.

I must ask your indulgence for putting the Budget Session back from October to November as it is unlikely that I shall be able to return in time for an October meeting.

In conclusion I will offer on your behalf, and in advance, a word of welcome to our new Colonial Secretary Mr. Raymer who arrives the day after tomorrow and who will administer the Government during my absence.

4. The Honourable the Acting Colonial Secretary, by command, laid on the Table the following written Questions together with replies thereto :-

By the HONOURABLE MR. A. L. HARDY.

Question I. In the event of a freezer being established in the Colony, have we the assurance of the Government that

- (a) The retail price of mutton will remain the same as now charged in Stanley?
- (b) That adequate supplies will always be available?

Reply (a) Government cannot of course give any assurance that the retail price of mutton will remain the same as that at present charged in Stanley.

(b) While it is a reasonable assumption that adequate supplies of mutton will always be available, Government cannot give any guarantee.

- Question II. A rumour circulating in Stanley is to the effect that a member of the Falkland Islands Dependencies Survey is to be sent to United Kingdom for training at Colony's expense in order to take over the new power station.
- If this rumour is correct would it not have been better and cheaper to employ a qualified man?
 - What is the salary of the new employee to be?

Reply. (a) The individual concerned has received training in one of the most modern power houses in England. On completion of his course with Blackstones he will be adequately qualified for the post of Superintendent of the Power House, Stanley. It would not have been cheaper to appoint a more highly qualified man.

(b) the appointment will be in the Special Grade.

By the HONOURABLE Mr. S. C. LUXTON.

- Question III. To ask why a locally appointed teacher could not be sent to the United Kingdom for training instead of one who, appointed in the United Kingdom without a certificate, has after eight years shown no outstanding capabilities and whose usefulness is open to question?

Reply. The person nominated for training has had teaching experience in the United Kingdom, holds a matriculation certificate which is a pre-requisite for admission to a teachers' training college and is, therefore, more suitable than a locally appointed teacher.

- Questions IV. To ask if locally appointed teachers have been offered facilities for further training in the United Kingdom?

Reply. The Government is at present endeavouring to arrange for a locally appointed teacher to receive training in the United Kingdom.

- Question V. To ask why an unqualified teacher should receive salary on a par with a certificated teacher, in view of the fact that it has been found necessary to send the unqualified teacher in question to the United Kingdom for further training?

Reply. No unqualified teacher is receiving a salary on a par with a certificated teacher: the question does not therefore arise.

- Question VI. To ask what plans have the Government in mind to improve the quality and the quantity of the Stanley water supply?

Reply. Provision has been made for improvement of the Stanley water supply both as to quality and quantity in the Colony's Development plan but it is unlikely that the work can be undertaken before 1951.

- Question VII. Is there any possibility of the removal of restrictions on exporting goods from the Falklands to United Kingdom with particular reference to gift parcels? The sending of gifts to the United Kingdom is being encouraged in Canada by a reduction in postal rates on gift parcels.

Reply. The general removal of restrictions on exporting goods from the Falkland Islands to the United Kingdom which have either been imported from the United Kingdom or from hard currency sources would contravene the financial policy of His Majesty's Government, but advice will be sought on the admissibility of lifting this restriction in respect of particular articles.

5. The Honourable the Acting Colonial Secretary moved and the Honourable the Senior Medical Officer seconded the adoption of the following Resolution :—

"WHEREAS additional provision is required for the service of the Colony and its Dependencies for the year ended the 31st of December, 1948, for the period 1st July to 30th September.

"BE IT RESOLVED —

"This Council hereby sanctions the expenditure from public funds of the sum of "NINE THOUSAND FIVE HUNDRED AND SIXTY-SEVEN POUNDS ELEVEN "SHILLINGS AND ONE PENNY (£9,567 : 11 : 1) to meet the several charges itemized "in the accompanying Schedule".

The Resolution was adopted.

6. The Honourable the Acting Colonial Secretary moved the adoption of the following Resolution :—

"WHEREAS additional provision is required for the service of the Colony and its Dependencies for the year ended the 31st of December, 1948, for the period 1st October to 31st December.

"BE IT RESOLVED —

"This Council hereby sanctions the expenditure from public funds of the sum of "NINE THOUSAND ONE HUNDRED AND THIRTY-FOUR POUNDS TWELVE "SHILLINGS AND NINE PENCE (£9,134 : 12 : 9) to meet the several charges itemized "in the accompanying Schedule".

The Honourable the Senior Medical Officer seconded the motion and the Resolution was adopted.

7. The Honourable the Acting Colonial Secretary moved and the Honourable the Senior Medical

Officer seconded the adoption of the following Resolution :—

"BE IT RESOLVED -

"This Council moves that a Standing Finance Committee (as distinct from the Select Committee for the consideration of the Estimates) consisting of all nominated unofficial and representative members of this Council under the Chairmanship of the Colonial Secretary, should be appointed to examine and recommend for His Excellency's approval or otherwise all financial matters which he shall from time to time so direct".

The Resolution was adopted.

8. The Honourable the Acting Colonial Secretary moved the *first* reading of the Bill "To amend the Income Tax Ordinance, 1939."

The Honourable Mr. E. F. Bunting seconded the motion.

On further motion made and seconded the Standing Orders were suspended and the Bill was read a *second* time and committed.

In opposing the Bill - which renders investments overseas liable to Falkland Islands Income Tax - the Honourable Mr. A. G. Barton said that while he had not the ability of his learned friend (the Honourable the Acting Colonial Secretary) to decipher the true meaning of the Bill, he realised that it would entail another mass of forms to fill up. He also wondered if those people with investments in certain foreign countries such as Chile and Argentina would have to declare their income from such investments, as they were prevented from getting money out of those countries.

In reply the Honourable the Acting Colonial Secretary explained that the Bill was designed to give relief to income tax payers in the Colony in respect of income received by them from abroad in that on their paying income tax in the Colony they could claim a rebate from the country in which they had paid tax provided an agreement had been entered into with that country. Such an agreement did exist with the United Kingdom and the Bill provided the means for other agreements. The Bill did not mean a mass of forms - merely a claim for rebate as in the United Kingdom. All income should be declared in the Colony.

The Bill was then committed.

Clauses 1 to 6 were agreed to. The Enacting Clause and Title were agreed to. The Council resumed. The Bill was then read a *third* time and passed.

Annual Report of the Agricultural Department for the year ending 31st December, 1948.

After the departure of Dr. Gibbs, Director of Agriculture, in 1946, the Department was carried on under a care and maintenance basis pending the arrival of a successor.

Mr. J. P. Oliver was appointed as Agricultural Officer on the 30th June 1948.

Finance.

The approved Expenditure for the year ending 31st Dec. was £7,821 of which £5,887 was actually expended.

Revenue collected amounted to £2,286.

Tours.

The Agricultural Officer spent 132 days on tour, during which he visited all sheep stations.

Stock.

The winter was very severe, ground being frozen almost continuously for eight weeks and from the spring to the end of the year the weather was cold and wet.

Lambing losses before marking appeared high and marking percentages were on an average 10 to 12 per cent below last year's figures.

All sheep seen were in moderate to poor condition at the end of the winter but picked up considerably before shearing commenced.

Shearing before Christmas appeared to be well in hand, quite a large proportion of wool being shipped by s. s. "Lafonia" in December.

The year's clip appeared on the whole to be fine in quality though lower in weight than 1947. No lice or scab were seen on any sheep examined but ticks or keds were fairly common; greater care in dipping and clean gathering is required.

Mr. T. Beaty, Manager of Port Stephens, carried out interesting experiments with cobalt copper sulphate drenches on cull ewes and hogs reducing his losses in the latter and enabling him to obtain an extra crop of lambs from the former.

With the advent of aircraft in the Colony, experimentation in the spraying of pastures with cobalt in solution might be pursued to the benefit of the sheep industry.

Horses. The high proportion of old horses was very apparent due to cessation of shipment from the Coast during the war years.

Signs of round worm infestation were noticed at almost every station and this undoubtedly contributes to the general poor condition of horses although malnutrition during the winter and spring is a contributory factor.

Cattle. Most of the cattle seen were found to be in moderate to poor condition, especially dairy cows almost all of which were spring calvers and showed the strain of having to carry a calf through the severe winter without supplementary feed.

Cattle put out to graze on the Tussock Islands and other small Islands were fat; on killing the fat was seen to be of a soft yellowish type.

However the Colony has great potentialities for cattle raising though at present there is no incentive to do so an animal being worth the price of its hide only less freight to the United Kingdom.

Improvements. Mechanical ditching equipment was used by the F. I. Co. to drain a considerable sized lake one of the many which are features of the Falkland Island countryside; the level of another was considerably lowered by flood water cutting a channel through the sand bar which contained it.

The present muddy flats sown with English grass will produce areas of grazing superior to that of the surrounding Native Grass, though care must be exercised that where sandy bottoms are revealed they are not allowed to dry out before the grass is firmly established because of the great possibility of it being blown by the high and persistent winds prevailing in the Colony. An adequate warning of this was given in the recent filling up of the North Arm of Fox Bay Harbour.

During the year several tractors all of track-laying type were imported, these being in bogs and roadless moorlands infinitely superior to wheeled ones.

A step towards mechanisation of farms has been assisted by the sales of ex-army Bren-Gun Carriers to farms thus reducing the demand where these are employed on horse and men.

The importation of workers from Great Britain and some displaced persons also helped the labour situation.

Rams and Hogs were imported from New Zealand to improve the sheep which have suffered from lack of new blood during the period of hostilities.

Agricultural Department statistics. Economy Committee appointed by H. E. the Governor recommended the cessation of the Department's activities in the production of vegetables, milk and oaten hay. The labour force was accordingly reduced and all cultivated lands previously used for vegetable production etc. were sown to oats and undersown with grass seeds. The Dairy Herd was disposed of and the Agricultural Station was rented for use as a dairy. The effect of this arrangement was to increase the number of cattle grazing on the Common and to counter-balance this the Government threw half of the land in the Peninsula into the Common.

On behalf of the Sheep Owners Association the Department imported 25 tons of seed oats from Great Britain to replace those usually obtained from South America which have been of low quality and full of spurry.

The Department provided horses and guides for the Medical, Police and other Departments, throughout the year.

Agricultural Officer.

(3) Where the limitation prescribed by the preceding subsection operates, the amount of the pension to be drawn from the funds of the Colony shall be subject to the approval of the Secretary of State, in order that it may be determined with due regard to the amount of any pension or pensions to be drawn in respect of other public service.

If a pensioner so called upon declines to accept such office the payment of his pension may be suspended until he has attained the age of 55 years.

(2) The provisions of the foregoing subsection shall not apply in any case where the Governor, being of opinion that the officer is not qualified for other employment in the public service or that there is no reason to expect that he can be shortly re-employed therein, otherwise directs.

(3) Where a pension or allowance ceases by reason of this section it shall be lawful for the Secretary of State or the Governor, as the case may be, to direct all or any part of the moneys to which such person would have been entitled by way of pension or allowance had he not been sentenced as aforesaid to be paid, or applied, in the same manner in all respects as prescribed in the preceding section, and such moneys shall be paid or applied accordingly.

(4) If such person after conviction at any time receives a free pardon, the pension or allowance shall be restored with retrospective effect; but in determining whether arrears of such pension or allowance are payable to such person and in computing the amount thereof, account shall be taken of all moneys paid or applied under the preceding subsection.

“non-pensionable office” means an office which is not a pensionable office.

3. (1) Pensions, gratuities and other allowances may be granted by the Governor in Council in accordance with regulations made under this Ordinance to officers who have been in the service of the Colony.

The said regulations may from time to time be amended, added to, or revoked by regulations made by the Governor in Council with the sanction of the Secretary of State, and all regulations so made shall be laid before the Legislative Council and published in the Gazette.

(2) All regulations made under this section shall have the same force and effect as if they were contained in the Regulations to this Ordinance, and the expression “this Ordinance” shall, wherever it occurs in this Ordinance, be construed as including a reference to the said Regulations.

(3) Whenever the Governor in Council is satisfied that it is equitable that any regulation made under this section should

have retrospective effect in order to confer a benefit upon or remove a disability attaching to any person, that regulation may be given retrospective effect for that purpose :

Provided that no such regulation shall have retrospective effect unless it has received the prior approval of the Legislative Council signified by resolution.

4. There shall be charged on and paid out of the revenues of the Colony all such sums of money as may from time to time be granted by way of pension, gratuity or other allowance in pursuance of this Ordinance.

Pensions etc. to be charged on revenues of Colony.

5. (1) No officer shall have an absolute right to compensation for past services or to pension, gratuity, or other allowance; nor shall anything in this Ordinance affect the right of the Crown to dismiss any officer at any time and without compensation.

Pensions etc. not of right.

(2) Where it is established to the satisfaction of the Governor in Council that an officer has been guilty of negligence, irregularity or misconduct, the pension, gratuity, or other allowance may be reduced or altogether withheld.

6. No pension, gratuity or other allowance shall be granted under this Ordinance to any officer except on his retirement from the public service in one of the following cases -

Circumstances in which pension may be granted.

(1) on attaining the age of 60 years or with the approval of the Governor in Council on or after attaining the age of 55 years, or in special cases, with the approval of the Secretary of State, on or after attaining the age of 50 years;

(3) on the abolition of his office;

(4) on compulsory retirement for the purpose of facilitating improvement in the organization of the department to which he belongs, by which greater efficiency or economy may be effected;

(5) on medical evidence to the satisfaction of the Governor in Council or the Secretary of State that he is incapable by reason of any infirmity of mind or body of discharging the duties of his office and that such infirmity is likely to be permanent;

(6) in the case of removal on the ground of inefficiency as provided in this Ordinance;

(7) on retirement in circumstances, not mentioned in the preceding paragraphs of this section, rendering him eligible for a pension under the Pensions (Governors of Dominions, &c.) Acts, 1911 to 1936, or any Act amending or replacing those Acts.

Provided that the pensionable service of the officer is not less than ten years.

7. Where an officer is removed from his office on the ground of his inability to discharge efficiently the duties thereof, and a pension, gratuity or other allowance cannot otherwise be granted to him under the provision of this Ordinance, the Governor in Council may, if he considers it justifiable having regard to all the circumstances of the case, grant such pension, gratuity or other allowance as he thinks just and proper, not exceeding in amount that for which the officer would be eligible if he retired from the public service in the circumstances described in paragraph (5) of the preceding section.

Retirement for inefficiency.

8. (1) It shall be lawful for the Governor in Council to require an officer to retire from the service of the Colony -

Compulsory and voluntary retirement.

(2) An officer who shall have been granted a pension in respect of other public service shall not at any time draw from the funds of the Colony an amount of pension which, when added to the amount of any pension or pensions drawn in respect of other public service, exceeds two-thirds of the highest pensionable emoluments drawn by him at any time in the course of his public service:

Provided that where an officer receives in respect of some period of public service both a gratuity and a pension, the amount of such pension shall be deemed for the purpose of this subsection to be four-thirds of its actual amount.

(3) Where the limitation prescribed by the preceding subsection operates, the amount of the pension to be drawn from the funds of the Colony shall be subject to the approval of the Secretary of State, in order that it may be determined with due regard to the amount of any pension or pensions to be drawn in respect of other public service.

(4) For the purposes of the preceding subsections an additional pension granted in respect of injury shall not be taken into account; but where the officer is granted such an additional pension under this Ordinance, the amount thereof together with the remainder of his pension or pensions shall not exceed five-sixths of his highest pensionable emoluments at any time in the course of his public service.

Liability of pensioners to be called upon to take further employment.

10. (1) Every pension granted under this Ordinance shall be subject to the condition that unless or until the officer shall have attained the age of 55 years, he may, if physically fit for service, be called upon by the Secretary of State to accept, in lieu of his pension, an office, whether in the Colony or in other public service, not less in value, due regard being had to circumstances of climate, than the office which he held at the date of his retirement.

If a pensioner so called upon declines to accept such office the payment of his pension may be suspended until he has attained the age of 55 years.

(2) The provisions of the foregoing subsection shall not apply in any case where the Governor, being of opinion that the officer is not qualified for other employment in the public service or that there is no reason to expect that he can be shortly re-employed therein, otherwise directs.

Suspension of pensions on re-employment.

11. If an officer to whom a pension has been granted under this Ordinance is appointed to another office in the public service, the payment of his pension may, if the Governor in Council thinks fit, be suspended during the period of his re-employment.

Pensions, etc., not to be assignable.

12. A pension, gratuity or other allowance granted under this Ordinance shall not be assignable or transferable except for the purpose of satisfying –

(1) a debt due to the Government, or

(2) an Order of any Court for the payment of periodical sums of money towards the maintenance of the wife or former wife or minor child of the officer to whom the pension, gratuity or other allowance has been granted,

and shall not be liable to be attached, sequestered or levied upon for or in respect of any debt or claim whatever except a debt due to the Government.

13. (1) If any person to whom a pension or other allowance has been granted under this Ordinance is adjudicated bankrupt or is declared insolvent by judgment of any Court, then such pension or allowance shall forthwith cease.

Pensions etc., to cease on bankruptcy.

(2) If any person is adjudicated bankrupt or declared insolvent as aforesaid either

- (a) after retirement in circumstances in which he is eligible for pension or allowance under this Ordinance but before the pension or allowance is granted, or
- (b) before such retirement, and he shall not have obtained his discharge from bankruptcy or insolvency at the date of retirement,

then, in the former case any pension or allowance eventually granted to him shall cease as from the date of adjudication or declaration as the case may be and, in the latter case, the pension or allowance may be granted, but shall cease forthwith and not become payable.

(3) Where a pension or allowance ceases by reason of this section, it shall be lawful for the Secretary of State, or if the person in question is resident in the Colony, the Governor, from time to time during the remainder of such person's life, or during such shorter period or periods, either continuous, or discontinuous, as the Secretary of State or the Governor, as the case may be, shall think fit, to direct all or any part of the moneys to which such person would have been entitled by way of pension or allowance, had he not become bankrupt or insolvent, to be paid to, or applied for the maintenance or benefit of, all or any to the exclusion of the other or others, of the following, that is to say, such person and any wife, child or children of his, in such proportions and manner as the Secretary of State or the Governor, as the case may be, thinks proper, and such moneys shall be paid or applied accordingly.

(4) Moneys applied for the discharge of the debts of the person whose pension or allowance has so ceased shall, for the purpose of this section, be regarded as applied for his benefit.

(5) When a person whose pension or allowance has so ceased obtains his discharge from bankruptcy or insolvency, it shall be lawful for the Secretary of State or, if such person is resident in the Colony, the Governor to direct that the pension or allowance shall be restored as from the date of such discharge or any later date, and the pension or allowance shall be restored accordingly.

14. (1) If any person to whom a pension or other allowance has been granted under this Ordinance is sentenced to a term of imprisonment by any competent Court for any offence, such pension or allowance shall, if the Secretary of State, or if such person is resident in the Colony, the Governor, so direct, cease as from such date as the Secretary of State or the Governor, as the case may be, determines.

Pensions. etc., may cease on conviction.

(2) If any person is sentenced as aforesaid after retirement in circumstances in which he is eligible for pension or allowance under the Ordinance but before the pension or allowance is granted, then the provisions of the foregoing paragraph shall apply as respects any pension or allowance which may be granted to him.

(3) Where a pension or allowance ceases by reason of this section it shall be lawful for the Secretary of State or the Governor, as the case may be, to direct all or any part of the moneys to which such person would have been entitled by way of pension or allowance had he not been sentenced as aforesaid to be paid, or applied, in the same manner in all respects as prescribed in the preceding section, and such moneys shall be paid or applied accordingly.

(4) If such person after conviction at any time receives a free pardon, the pension or allowance shall be restored with retrospective effect; but in determining whether arrears of such pension or allowance are payable to such person and in computing the amount thereof, account shall be taken of all moneys paid or applied under the preceding subsection.

Pensions etc., may
cease on accepting
certain appointments.

15. If any person to whom a pension or other allowance has been granted under this Ordinance otherwise than under section 17 becomes either a director of any company the principal part of whose business is in any way directly concerned with the Government, or an officer or servant employed in the Colony by any such company, without the prior permission of the Governor in writing, such pension or allowance shall cease if the Governor so directs :

Provided that it shall be lawful for the Governor, on being satisfied that the person in respect of whose pension or allowance any such direction shall have been given has ceased to be a director of such company or to be employed as an officer or servant of such company in the Colony, as the case may be, to give directions for the restoration of such pension or allowance, with retrospective effect, if he shall see fit, to such a date as he shall specify, and the pension or allowance shall be restored in accordance with any such directions.

officer dies in the
service.

16. (1) Where an officer holding a pensionable office who is not on probation or agreement, or an officer holding a non-pensionable office to which he has been transferred from a pensionable office in which he has been confirmed, dies while in the service of the Colony, it shall be lawful for the Governor in Council to grant to his legal personal representative a gratuity of an amount not exceeding his annual pensionable emoluments.

(2) For the purpose of this section, "annual pensionable emoluments" means the emoluments which would be taken for the purpose of computing any pension or gratuity granted to the officer if he had retired at the date of his death in the circumstances described in paragraph (5) of section 6 of this Ordinance.
