A Bill for An Ordinance

To amend the Road Traffic Ordinance.

Title.

19

Date of commencement.

BE IT ENACTED by the Legislature of the Colony of the Falkland Islands, as follows —

Enacting clause.

1. This Ordinance may be cited as the Road Traffic (Amendment) Ordinance 1981 and shall come into operation on the

Short title and commence-

2. The principal Ordinance is amended by adding, after section 12, the following new sections —

Addition of new sections 12A and 12B.
(Cap. 60)

"Wearing of protective headgear.

1972 C.20 s.32.

- 12A. (1) The Governor in Council may make regulations requiring, subject to such exceptions as may be specified in the regulations, persons driving or riding (otherwise than in side-cars) on motor cycles of any class specified in the regulations to wear protective headgear of such description as may be so specified.
- (2) Regulations under this section may make different provision in relation to different circumstances.
- (3) Any person who drives or rides on a motor cycle in contravention of regulations under this section shall be guilty of an offence.

Protective helmets for motor cyclists. 1972 C.20 s.33.

- 12B. (1) The Governor in Council may make regulations prescribing (by reference to shape, construction or any other quality) types of helmet recommended as affording protection to persons on or in motor cycles, or motor cycles of different classes, from injury in the event of accident.
- (2) If a person sells, or offers for sale, a helmet as a helmet for affording protection as aforesaid, and the helmet is neither
 - (a) of a type prescribed under this section, nor
 - (b) of a type authorised under regulations made under this section and sold or offered for sale subject to any conditions specified in the authorisation,

he shall be guilty of an offence.".

OBJECTS AND REASONS

This Bill provides for the wearing of protective headgear by motor cyclists and for the making of regulations prescribing the type of helmet recommended as affording protection to persons on motor cycles.

A Bill for An Ordinance

To facilitate the borrowing of money on the Title. security of farming stock and other agricultural assets, and for purposes connected therewith.

19

Date of commencement.

BE IT ENACTED by the Legislature of the Colony of the Enacting clause. Falkland Islands, as follows -

1. This Ordinance may be cited as the Agricultural Loans Ordinance and shall come into operation on the 19

Short title and commence-

2. (1) It shall be lawful for a farmer as defined by this Ordinance by instrument in writing to create in favour of an authorised lender as so defined a charge (hereinafter referred to as an agricultural charge) on all or any of the farming stock and other agricultural assets belonging to him as security for sums advanced or to be advanced to him or paid or to be paid on his behalf by the authorised lender and interest, commission and charges thereon.

Agricultural charges on farming stock and assets.

- (2) An agricultural charge may be either a fixed charge, or a floating charge, or both a fixed and a floating charge.
- (3) The property affected by a fixed charge shall be such property forming part of the farming stock and other agricultural assets belonging to the farmer at the date of the charge as may be specified in the charge, but may include -
 - (a) in the case of live-stock, any progeny thereof which may be born after the date of the charge; and

- (b) in the case of agricultural plant, any plant which may whilst the charge is in force be substituted for the plant specified in the charge.
- (4) The property affected by a floating charge shall be the farming stock and other agricultural assets from time to time belonging to the farmer, or such part thereof as is mentioned in the charge.
- (5) The principal sum secured by an agricultural charge may be either a specified amount, or a fluctuating amount not exceeding at any one time such amount (if any) as may be specified in the charge.
- (6) An agricultural charge may be in such form and made upon such conditions as the parties thereto may agree, and sureties may be made parties thereto.
 - (7) For the purposes of this Ordinance —
 - "Farmer" means any person (not being an incorporated company or society) who, as tenant or owner of an agricultural holding, cultivates the holding for profit; and "agriculture" and "cultivation" shall be deemed to include horticulture, and the use of land for any purpose of husbandry, inclusive of the keeping or breeding of live-stock, poultry or bees, and the growth of fruit, vegetables, and the like;
 - "authorised lender" means the Government of the Colony of the Falkland Islands or any firm, incorporated company, or society approved by the Governor in Council;
 - "Farming stock" means crops or horticultural produce, whether growing or severed from the land, and after severance whether subjected to any treatment or process of manufacture or not; live-stock, including poultry and bees, and the produce and progeny thereof; any other agricultural or horticultural produce whether subjected to any treatment or process of manufacture or not; seeds and manures; agricultural vehicles, machinery, and other plant; agricultural tenant's fixtures and other agricultural fixtures which a tenant is by law authorised to remove;
 - "Other agricultural assets" means any right of a tenant to compensation under any enactment for improvements, damage by game, disturbance or otherwise, and any other tenant right.

Effect of fixed charge.

- 3. (1) A fixed charge shall, so long as the charge continues in force, confer on the authorised lender the following rights and impose upon the authorised lender the following obligations, that is to say—
 - (a) a right, upon the happening of any event specified in the charge as being an event authorising the seizure of property subject to the charge, to take possession of any property so subject;
 - (b) where possession of any property has been so taken, a right, after an interval of thirty clear days or such less time as may be allowed by the charge, to sell the property either by an auction or, if the charge so provides, by private treaty, and either for a lump sum payment or payment by instalments;
 - (c) an obligation, in the event of such power of sale being exercised, to apply the proceeds of sale in or towards the discharge of the moneys and liabilities secured by the charge, and the cost of seizure and sale, and to pay the surplus (if any) of the proceeds to the farmer.
- (2) A fixed charge may by express provision to that effect in the instrument creating such charge and shall in the case of a floating charge that has become a fixed charge by virtue of section four of this Ordinance impose on the farmer during the existence of the charge the following obligations—

- (a) an obligation whenever he sells any of the property, or receives any money in respect of other agricultural assets comprised in the charge, forthwith to pay to the authorised lender the amount of the proceeds of the sale or the money so received, except to such extent as the charge otherwise provides or the authorised lender otherwise allows; the sums so paid to be applied, except so far as otherwise agreed, by the authorised lender in or towards the discharge of moneys and liabilities secured by the charge;
- (b) an obligation in the event of the farmer receiving any money under any policy of insurance on any of the property comprised in the charge, or any money paid by way of compensation under any enactment in respect of the destruction of any livestock comprised in the charge, or by way of compensation under any enactment in respect of the destruction of any crops comprised in the charge, forthwith to pay the amount of the sums so received to the authorised lender, except to such extent as the charge otherwise provides or the authorised lender otherwise allows; the sums so paid to be applied, except so far as otherwise agreed by the authorised lender in or towards the discharge of the moneys and liabilities secured by the charge.
- (3) Subject to compliance with the obligations so imposed a fixed charge shall not prevent the farmer selling any of the property subject to the charge, and neither the purchaser, nor in the case of a sale by auction, the auctioneer, shall be concerned to see that such obligations are complied with notwithstanding that he may be aware of the existence of the charge.
- (4) Where any proceeds of sale which in pursuance of such obligation as aforesaid ought to be paid to the authorised lender are paid to some other person, nothing in this Ordinance shall confer on the authorised lender a right to recover such proceeds from that other person unless the authorised lender proves that such other person knew that the proceeds were paid to him in breach of such obligation as aforesaid, but such other person shall not be deemed to have such knowledge by reason only that he has notice of the charge.
- 4. An agricultural charge creating a floating charge shall have Effect of floating charge. the like effect as if the charge had been created by a duly registered debenture issued by a company:

Provided that -

- the charge shall become a fixed charge upon the property comprised in the charge as existing at the date of its becoming a fixed charge
 - upon a receiving order in bankruptcy being made against the farmer;
 - upon the death of the farmer; (ii)
 - upon the dissolution of partnership in the case where the property charged is partnership property;
 - (iv) upon notice in writing to that effect being given by the authorised lender on the happening of any event which by virtue of the charge confers on the authorised lender the right to give such a notice;
- (b) the farmer, whilst the charge remains a floating charge may by express provision to that effect in the instrument creating such charge be subject to an obligation to pay over to the authorised lender the amount received by him by way of proceeds of sale, in respect of other agricultural assets, under policies of insurance, or by way of compensation, and the last foregoing section shall apply accordingly; Provided that if so provided by the instrument creating the

charge it shall not be necessary for a farmer to comply with such obligation if and so far as the amount so received is expended by him in the purchase of farming stock which on purchase becomes subject to the charge.

Supplemental provisions as to agricultural charges.

- 5. (1) An agricultural charge shall have effect notwith-standing anything in the Bills of Sale Acts, 1878 and 1882, and shall not be deemed to be a bill of sale within the meaning of those Acts.
- (2) Agricultural charges shall in relation to one another have priority in accordance with the times at which they are respectively registered under this Ordinance.
- (3) Where an agricultural charge creating a floating charge has been made, an agricultural charge purporting to create a fixed charge on, or a bill of sale comprising any of the property comprised in the floating charge shall, as respects the property subject to the floating charge, be void so long as the floating charge remains in force.
- (4) Farming stock subject to an agricultural charge shall not for the purposes of section thirty-eight of the Bankruptcy Act, 1914, be deemed to be goods in the possession, order, or disposition of the farmer, in his trade or business, by the consent and permission of the true owner thereof under such circumstances that he is the reputed owner thereof.
- (5) Where a farmer who is adjudged bankrupt has created in favour of a bank an agricultural charge on any of the farming stock or other agricultural assets belonging to him, and the charge was created within three months of the date of the presentation of the bankruptcy petition and operated to secure any sum owing to the authorised lender immediately prior to the giving of the charge, then, unless is is proved that the farmer immediately after the execution of the charge was solvent, the amount which but for this provision would have been secured by the charge shall be reduced by the amount of the sum so owing to the authorised lender immediately prior to the giving of the charge, but without prejudice to the authorised lender's right to enforce any other security for that sum or to claim payment thereof as an unsecured debt.
- (6) Where after the passing of this Ordinance the farmer has mortgaged his interest in the land comprised in the holding, then, if growing crops are included in an agricultural charge, the rights of the authorised lender under the charge in respect of the crops shall have priority to those of the mortgagee, whether in possession or not, and irrespective of the dates of the mortgage and charge.
- (7) An agricultural charge shall be no protection in respect of property included in the charge which but for the charge would have been liable to distress for rent, taxes, or rates.

Registration of agricultural charges.

6. (1) Every agricultural charge shall be registered under this Ordinance within twenty-eight clear days after the execution thereof, and, if not so registered, shall be void as against any person other than the farmer:

Provided that the Supreme Court on proof that omission to register within such time as aforesaid was accidental or due to inadvertence may extend the time for registration on such terms as the Court thinks fit.

- (2) The Registrar General shall keep a register of agricultural charges in such form and containing such particulars as may be prescribed.
- (3) Registration of an agricultural charge shall be effected by sending by post or delivering to the Registrar General a copy or memorandum of the instrument creating the charge and such particulars of the charge as may be prescribed, together with any prescribed fee; and the Registrar General shall enter the particulars in the register and shall file the copy or memorandum.

- (4) The register kept and the copies or memoranda filed under this section shall at all reasonable times be open to inspection by any person on payment (except where the inspection is made by or on behalf of an authorised lender) of any prescribed fee, and any person inspecting the register or any such filed copy or memorandum on payment (except as aforesaid) of any prescribed fee may make copies or extracts therefrom.
- Any person may on payment of any prescribed fee require to be furnished with a copy of any entry in the register or of any filed copy or memorandum or any part thereof certified to be a true copy by the Registrar General.
- (6) Registration of an agricultural charge may be proved by the production of a certified copy of the entry in the register relating to the charge, and a copy of any entry purporting to be certified as a true copy by the Registrar General shall in all legal proceedings be evidence of the matters stated therein without proof of the signature or authority of the person signing it.
- (7) Registration of an agricultural charge under this section shall be deemed to constitute actual notice of the charge, and of the fact of such registration, to all persons and for all purposes connected with the property comprised in the charge, as from the date of registration or other prescribed date, and so long as the registration continues in force:

Provided that, where an agricultural charge created in favour of an authorised lender is expressly made for securing a current account or other further advances, the authorised lender, in relation to the making of further advances under the charge, shall not be deemed to have notice of another agricultural charge by reason only that it is so registered if it was not so registered at the time when the first-mentioned charge was created or when the last search (if any) by or on behalf of the authorised lender was made, whichever last happened.

- (8) The Governor in Council may make regulations prescribing anything which under this section is to be prescribed and generally as to the keeping of the register and the filing of memoranda, the removal of entries from the register on proof of discharge, and the rectification of the register.
- 7. (1) It shall not be lawful to print for publication or publish Restriction on publication of agricultural charges. any list of agricultural charges.

(2) If any person acts in contravention of this section, he shall in respect of each offence be liable on summary conviction to a fine not exceeding £200:

Provided that no person other than a proprietor, editor, master printer, or publisher, shall be liable to be convicted under this section.

- (3) No prosecution for an offence under this section shall be commenced without the consent of the Governor in Council.
- (4) For the purpose of this section, "publication" means the issue of copies to the public, and "publish" has a corresponding meaning, and without prejudice to the generality of the foregoing definition the confidential notification by an association representative of a particular trade to its members trading or carrying on business in the district in which property subject to an agricultural charge is situate of the creation of the charge shall not be deemed to be publication for the purposes of this section.

8. If, with intent to defraud, a farmer who has created an Frauds by farmers. agricultural charge -

(a) fails to comply with the obligations imposed by this Ordinance as to the payment over to the authorised lender of any sums received by him by way of proceeds of sale, or in respect of other agricultural assets, or under a policy of insurance or by way of compensation; or

(b) removes or suffers to be removed from his holding any property subject to the charge;

he shall be guilty of a misdemeanour and liable on conviction on indictment to a fine not exceeding £500 or imprisonment for a term not exceeding six months, or on second or subsequent offence to both fine and imprisonment.

Falkland Islands Government Air Service AIR FARES AND CONDITIONS OF CARRIAGE

The Air Fares and Conditions of Carriage which came into operation on the 1st July 1978 are further amended as follows—

- (a) by deleting Part I Scheduled Passenger Flights and substituting the following new Part —
- "I. SCHEDULED PASSENGER FLIGHTS
 - (1) Passenger fares for scheduled flights are calculated on the straight line distance between points of departure and destination. The fare consists of two elements forming a single whole—
 - (a) a charge of 30p per mile, plus:

- (b) a flat rate (popularly known as the boarding charge) for passengers of £11.50.
- (2) CHILDREN -
 - (a) of three years of age and under free;
 - (b) of four to seven years of age (inclusive) one-quarter of the adult fare;
 - (c) of eight to fifteen years of age (inclusive) one-half of the adult fare.
- (3) MINISTERS OF RELIGION are carried free of charge provided —
 - (a) the aircraft is going to the destination required by the Minister for reasons other than the Minister's iourney:
 - (b) there is a vacant seat in the aircraft.
- (4) Every passenger may take with him free of charge personal baggage to a maximum weight of 30 lbs. Baggage in excess of this weight will be carried only at the aircraft commander's discretion and shall be charged at 10p per lb. for the first 10 lbs. and at the rate of 15p per lb. thereafter.
- (5) A rebate of 12p per mile will be given to persons normally resident in the Colony and the maximum fare chargeable to such person shall be £25 for any one flight.
- (6) "NORMALLY RESIDENT" means a person (together with his family) who normally resides in the Colony, or is in the Colony under a contract of service to an employer who has a place of business in the Colony, or has resided in the Colony for a continuous period of not less than one year since arriving in, or returning to the Colony or any person paying Falkland Islands income tax.";
- (b) by deleting Part III School Flights and substituting the following new Part —

"III SCHOOL FLIGHTS

- (1) In all cases School Flights must be booked through the Superintendent of Education. All bookings received by the Air Service from farm managers or private individuals will be treated as private bookings and charged as such.
- (2) Children travelling by air to or from school at the beginning or end of the recognised school terms are free of charge, the fare being met from the Education vote.";
- (c) in paragraph 1 (5) of Part VI by deleting "10 pence" and "15 pence" and substituting "12 pence" and "18 pence" respectively.

The above amendments are effective from the 1st day of July 1981. Ref. AIR/2/1.

PROCLAMATION

No. 3 of 1981

Made under Section 35 of the Customs Ordinance (Chapter 16)

IN THE NAME of Her Majesty ELIZABETH II., by the Grace of God of the United Kingdom of Great Britain and Northern Ireland and of Her other Realms and Territories Queen, Head of the Commonwealth, Defender of the Faith.

By His Excellency REX MASTERMAN HUNT, Esquire, Companion of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief of the Colony of the Falkland Islands and its Dependencies, and Vice-Admiral of the same.

WHEREAS it is provided by section 35 of the Customs Ordinance that it shall be lawful for the Governor from time to time by proclamation to prohibit the importation, carriage coastwise or exportation of any goods whatsoever, and any such proclamation may prohibit importation, carriage coastwise or exportation until the revocation thereof, or during such period as may be specified therein, and may absolutely prohibit importation, carriage coastwise or exportation, or may prohibit importation, carriage coastwise or exportation except in compliance with any condition which may be specified in the proclamation, or importation from or exportation to any particular place named in the proclamation:

NOW, THEREFORE, I, REX MASTERMAN HUNT, do hereby Proclaim as follows—

- I. Subject to paragraph 2 below, the importation and the exportation of the following things are hereby prohibited, namely
 - (a) a live or dead animal of any of the kinds to which Schedule 1 to this Proclamation for the time being applies;
 - (b) a live or dead plant of any of the kinds to which Schedule 2 to this Proclamation for the time being applies;
 - (c) an item to which Schedule 3 to this Proclamation for the time being applies;
- 2. Paragraph I above does not apply to the importation or exportation of anything under and in accordance with the terms of a licence issued by the Governor.
 - 3. Proclamation No. 2 of 1976 is hereby cancelled.

PROCLAMATION

No. 4 of 1981

IN THE NAME of Her Majesty ELIZABETH II by the Grace of God of the United Kingdom of Great Britain and Northern Ireland and of Her other Realms and Territories Queen, Head of the Commonwealth, Defender of the Faith.

BY HIS HONOUR FRANCIS EUSTACE BAKER, ESQUIRE, Officer of the Most Excellent Order of the British Empire, Acting Governor of the Colony of the Falkland Islands and its Dependencies, and Vice-Admiral of the same.

WHEREAS by Article 7 (1) of the Falkland Islands Letters Patent 1948 to 1962, under the Great Seal of the United Kingdom of Great Britain and Northern Ireland, it is provided that whenever the Office of Governor is vacant, or the Governor is absent from the Colony or is from any cause prevented from or incapable of, acting in the duties of his Office, then such other person as We may appoint under our sign Manual and Signet, or if there is no such person in the Colony so appointed and capable of discharging the duties of the administration, the Senior Member of the Executive Council then in the Colony and so capable, shall during Our pleasure, administer the Government of the Colony:

AND WHEREAS His Excellency REX MASTERMAN HUNT, ESQUIRE, Companion of the Most Distinguished Order of Saint Michael and Saint George, Governor and Commander-in-Chief in and over the Colony of the Falkland Islands and its Dependencies, and Vice-Admiral of the same, has this day left the Colony on leave of absence:

AND WHEREAS no person has been appointed under the Royal Sign Manual and Signet to administer the Government of the Colony in the absence of the Governor:

NOW, THEREFORE, I, FRANCIS EUSTACE BAKER, Chief Secretary of the Colony, the Senior Member of the Executive Council aforesaid, do hereby PROCLAIM and make known that, in pursuance of the said Article 7 (1) of the said Letters Patent and having taken the oaths prescribed by law, I have this day assumed the administration of the Government of the Colony.

GIVEN under my hand and the Public Seal of the Colony of the Falkland Islands at Government House, Stanley, this 24th day of June in the Year of Our Lord One thousand Nine hundred and Eighty-one.

(LS)

F. E. Baker, Acting Governor.

GOD SAVE THE QUEEN

DOGS ORDINANCE

(Chapter 21)

Hydatid Eradication (Dogs) Order 1981

No. 3 of 1981.

R. M. HUNT,

In exercise of the powers conferred by section 12A of the Dogs Ordinance, the Governor has made the following order —

- I. This order may be cited as the Hydatid Eradication (Dogs) Order 1981 and shall come into operation on the 1st day of July 1981.
 - 2. In this order, unless the context otherwise requires —

"carcass" means the skinned or unskinned body of an herbivorous animal;

- "herbivorous animal" shall include sheep, pigs, cattle, horses and guanaco.
- 3. The Governor may appoint a Chief Inspector and any number of Inspectors for the purpose of this order.
- 4. The owner or any person in charge of a dog shall be supplied, at cost price, only with such doses of a preparation as may be obtained from and administered by or under the direction of an Inspector or a resident Veterinary Surgeon and which shall be administered to the dog in his charge at such intervals and in such manner as specified by the Governor in Council.
 - 5. An Inspector shall have the power to inspect any dog at any reasonable time.
- 6. The owner or any person in charge of a dog shall ensure that it is confined or securely tethered unless being worked or exercised under direct supervision.
- 7. The owner or any person in charge of a dog shall ensure that it is kept in a proper state of health and cleanliness.
- 8. Within the area of a settlement no carcass of any herbivorous animal shall be opened except in a place which is constructed in such a way as to prevent access by dogs and which has a drain constructed in such a way as to deny access to dogs, cats and birds. At an outside shepherd's house or other place outside a settlement, no carcass shall be opened except in a place as defined in the foregoing sentence without the written permission of the Chief Inspector. If the owner, lessee or tenant of any premises wishes to slaughter any herbivorous animal, he shall be liable to provide facilities to comply with this provision without delay and in any event within twelve months of the coming into operation of this order.
- 9. When an extraordinary number of herbivorous animals are slaughtered, the carcasses shall be stacked either in a dog-proof enclosure for a minimum of 28 days or at a place which has the written approval of the Chief Inspector.
- 10. No person shall feed or allow to be fed to any dog any liver, lung or heart of an herbivorous animal, nor shall any person allow any dog access to such liver, lung or heart of such animal.
- 11. Any person who opens the carcass of an herbivorous animal shall remove the liver, lungs and heart and shall dispose of them within an area to which access to dogs is prevented, preferably by burning to ash or by any other way approved in writing by the Chief Inspector.
- 12. It shall be the duty of any person who knows of a dead herbivorous animal within half a mile of a dwelling house to report its whereabouts without delay to the person responsible who shall, as soon as is practicable, arrange for the permanent disposal of such animal in such a way as to deny access to dogs.
- 13. The Governor in Council may grant special dispensation from any of the provisions of this order in certain circumstances.

- 14. The Chief Inspector or any Police Officer may, for the purpose of ascertaining adherence to the provisions of this order, at all reasonable times enter any land or premises.
- 15. Any person who obstructs or impedes any Police Officer or Inspector in the execution of his duty or contravenes any of the provisions of this order, shall commit an offence and shall be liable on summary conviction to a fine not exceeding £200 for a first offence or £500 for a second or each subsequent offence.
 - 16. The Hydatid Eradication (Dogs) Order 1975 is cancelled.

13th May 1981.

By Command,

F. E. BAKER,

Chief Secretary.

EXPLANATORY NOTE

(This Note is not part of the Order.)

This Order amends the Merchant Shipping (Oil Pollution) (Falkland Islands) Order 1975, which extended to the Falkland Islands with the necessary adaptations, the provisions of the Merchant Shipping (Oil Pollution) Act 1971 and the provisions of Parts I and V of, and of Schedule 1 to, the Merchant Shipping Act 1974. It takes into account the amendment of these Acts in the United Kingdom by section 38 of the Merchant Shipping Act 1979. The Order gives effect in the Falkland Islands to the Protocol of 19th November 1976 to the International Convention on Civil Liability for Oil Pollution Damage of 29th November 1969 (Cmnd. 7028) and the Protocol of 19th November 1976 to the International Convention on the Establishment of an International Fund for Compensation for Oil Pollution Damage of 18th December 1971 (Cmnd. 7029). The Protocols substitute special drawing rights for gold francs as the unit of account to be used in connection with each Convention.

Assented to in Her Majesty's name this 22nd day of June 1981.

Ordinance 1981.

1981

Colony of the Falkland Islands

IN THE THIRTIETH YEAR OF THE REIGN OF

Her Majesty Queen Elizabeth II.

REX MASTERMAN HUNT, C.M.G. Governor.

An Ordinance

To facilitate the borrowing of money on the Title. security of farming stock and other agricultural assets, and for purposes connected therewith.

ENACTED by the Legislature of the Colony of the Falkland Islands.

1. This Ordinance may be cited as the Agricultural Loans Short title.

- 2. (1) It shall be lawful for a farmer as defined by this Ordinance by instrument in writing to create in favour of an authorised lender as so defined a charge (hereinafter referred to as an agricultural charge) on all or any of the farming stock and other agricultural assets belonging to him as security for sums advanced or to be advanced to him or paid or to be paid on his behalf by the authorised lender and interest, commission and charges thereon.

Agricultural charges on farming stock and assets.

- (2) An agricultural charge may be either a fixed charge, or a floating charge, or both a fixed and a floating charge.
- (3) The property affected by a fixed charge shall be such property forming part of the farming stock and other agricultural assets belonging to the farmer at the date of the charge as may be specified in the charge, but may include -
 - (a) in the case of live-stock, any progeny thereof which may be born after the date of the charge; and

- (b) in the case of agricultural plant, any plant which may whilst the charge is in force be substituted for the plant specified in the charge.
- (4) The property affected by a floating charge shall be the farming stock and other agricultural assets from time to time belonging to the farmer, or such part thereof as is mentioned in the charge.
- (5) The principal sum secured by an agricultural charge may be either a specified amount, or a fluctuating amount not exceeding at any one time such amount (if any) as may be specified in the charge.
- (6) An agricultural charge may be in such form and made upon such conditions as the parties thereto may agree, and sureties may be made parties thereto.
 - (7) For the purposes of this Ordinance —
 - "Farmer" means any person (not being an incorporated company or society) who, as tenant or owner of an agricultural holding, cultivates the holding for profit; and "agriculture" and "cultivation" shall be deemed to include horticulture, and the use of land for any purpose of husbandry, inclusive of the keeping or breeding of live-stock, poultry or bees, and the growth of fruit, vegetables, and the like;
 - "authorised lender" means the Government of the Colony of the Falkland Islands or any firm, incorporated company, or society approved by the Governor in Council;
 - "Farming stock" means crops or horticultural produce, whether growing or severed from the land, and after severance whether subjected to any treatment or process of manufacture or not; live-stock, including poultry and bees, and the produce and progeny thereof; any other agricultural or horticultural produce whether subjected to any treatment or process of manufacture or not; seeds and manures; agricultural vehicles, machinery, and other plant; agricultural tenant's fixtures and other agricultural fixtures which a tenant is by law authorised to remove;
 - "Other agricultural assets" means any right of a tenant to compensation under any enactment for improvements, damage by game, disturbance or otherwise, and any other tenant right.
- 3. (1) A fixed charge shall, so long as the charge continues in force, confer on the authorised lender the following rights and impose upon the authorised lender the following obligations, that is to say—
 - (a) a right, upon the happening of any event specified in the charge as being an event authorising the seizure of property subject to the charge, to take possession of any property so subject;
 - (b) where possession of any property has been so taken, a right, after an interval of thirty clear days or such less time as may be allowed by the charge, to sell the property either by an auction or, if the charge so provides, by private treaty, and either for a lump sum payment or payment by instalments:
 - (c) an obligation, in the event of such power of sale being exercised, to apply the proceeds of sale in or towards the discharge of the moneys and liabilities secured by the charge, and the cost of seizure and sale, and to pay the surplus (if any) of the proceeds to the farmer.
- (2) A fixed charge may by express provision to that effect in the instrument creating such charge and shall in the case of a floating charge that has become a fixed charge by virtue of section four of this Ordinance impose on the farmer during the existence of the charge the following obligations—

Effect of fixed charge.

- (a) an obligation whenever he sells any of the property, or receives any money in respect of other agricultural assets comprised in the charge, forthwith to pay to the authorised lender the amount of the proceeds of the sale or the money so received, except to such extent as the charge otherwise provides or the authorised lender otherwise allows; the sums so paid to be applied, except so far as otherwise agreed, by the authorised lender in or towards the discharge of moneys and liabilities secured by the charge;
- (b) an obligation in the event of the farmer receiving any money under any policy of insurance on any of the property comprised in the charge, or any money paid by way of compensation under any enactment in respect of the destruction of any livestock comprised in the charge, or by way of compensation under any enactment in respect of the destruction of any crops comprised in the charge, forthwith to pay the amount of the sums so received to the authorised lender, except to such extent as the charge otherwise provides or the authorised lender otherwise allows; the sums so paid to be applied, except so far as otherwise agreed by the authorised lender in or towards the discharge of the moneys and liabilities secured by the charge.
- (3) Subject to compliance with the obligations so imposed a fixed charge shall not prevent the farmer selling any of the property subject to the charge, and neither the purchaser, nor in the case of a sale by auction, the auctioneer, shall be concerned to see that such obligations are complied with notwithstanding that he may be aware of the existence of the charge.
- (4) Where any proceeds of sale which in pursuance of such obligation as aforesaid ought to be paid to the authorised lender are paid to some other person, nothing in this Ordinance shall confer on the authorised lender a right to recover such proceeds from that other person unless the authorised lender proves that such other person knew that the proceeds were paid to him in breach of such obligation as aforesaid, but such other person shall not be deemed to have such knowledge by reason only that he has notice of the charge.
- 4. An agricultural charge creating a floating charge shall have Effect of floating charge. the like effect as if the charge had been created by a duly registered debenture issued by a company:

Provided that -

- (a) the charge shall become a fixed charge upon the property comprised in the charge as existing at the date of its becoming a fixed charge
 - upon a receiving order in bankruptcy being made against the farmer;
 - upon the death of the farmer; (ii)
 - upon the dissolution of partnership in the case where the property charged is partnership property;
 - (iv) upon notice in writing to that effect being given by the authorised lender on the happening of any event which by virtue of the charge confers on the authorised lender the right to give such a notice;
- (b) the farmer, whilst the charge remains a floating charge may by express provision to that effect in the instrument creating such charge be subject to an obligation to pay over to the authorised lender the amount received by him by way of proceeds of sale, in respect of other agricultural assets, under policies of insurance, or by way of compensation, and the last foregoing section shall apply accordingly; Provided that if so provided by the instrument creating the

charge it shall not be necessary for a farmer to comply with such obligation if and so far as the amount so received is expended by him in the purchase of farming stock which on purchase becomes subject to the charge.

Supplemental provisions as to agricultural charges.

- 5. (1) An agricultural charge shall have effect notwith-standing anything in the Bills of Sale Acts, 1878 and 1882, and shall not be deemed to be a bill of sale within the meaning of those Acts.
- (2) Agricultural charges shall in relation to one another have priority in accordance with the times at which they are respectively registered under this Ordinance.
- (3) Where an agricultural charge creating a floating charge has been made, an agricultural charge purporting to create a fixed charge on, or a bill of sale comprising any of the property comprised in the floating charge shall, as respects the property subject to the floating charge, be void so long as the floating charge remains in force.
- (4) Farming stock subject to an agricultural charge shall not for the purposes of section thirty-eight of the Bankruptcy Act, 1914, be deemed to be goods in the possession, order, or disposition of the farmer, in his trade or business, by the consent and permission of the true owner thereof under such circumstances that he is the reputed owner thereof.
- (5) Where a farmer who is adjudged bankrupt has created in favour of a bank an agricultural charge on any of the farming stock or other agricultural assets belonging to him, and the charge was created within three months of the date of the presentation of the bankruptcy petition and operated to secure any sum owing to the authorised lender immediately prior to the giving of the charge, then, unless is is proved that the farmer immediately after the execution of the charge was solvent, the amount which but for this provision would have been secured by the charge shall be reduced by the amount of the sum so owing to the authorised lender immediately prior to the giving of the charge, but without prejudice to the authorised lender's right to enforce any other security for that sum or to claim payment thereof as an unsecured debt.
- (6) Where after the passing of this Ordinance the farmer has mortgaged his interest in the land comprised in the holding, then, if growing crops are included in an agricultural charge, the rights of the authorised lender under the charge in respect of the crops shall have priority to those of the mortgagee, whether in possession or not, and irrespective of the dates of the mortgage and charge.
- (7) An agricultural charge shall be no protection in respect of property included in the charge which but for the charge would have been liable to distress for rent, taxes, or rates.

Registration of agricultural charges.

6. (1) Every agricultural charge shall be registered under this Ordinance within twenty-eight clear days after the execution thereof, and, if not so registered, shall be void as against any person other than the farmer:

Provided that the Supreme Court on proof that omission to register within such time as aforesaid was accidental or due to inadvertence may extend the time for registration on such terms as the Court thinks fit.

- (2) The Registrar General shall keep a register of agricultural charges in such form and containing such particulars as may be prescribed.
- (3) Registration of an agricultural charge shall be effected by sending by post or delivering to the Registrar General a copy or memorandum of the instrument creating the charge and such particulars of the charge as may be prescribed, together with any prescribed fee; and the Registrar General shall enter the particulars in the register and shall file the copy or memorandum.

- (4) The register kept and the copies or memoranda filed under this section shall at all reasonable times be open to inspection by any person on payment (except where the inspection is made by or on behalf of an authorised lender) of any prescribed fee, and any person inspecting the register or any such filed copy or memorandum on payment (except as aforesaid) of any prescribed fee may make copies or extracts therefrom.
- (5) Any person may on payment of any prescribed fee require to be furnished with a copy of any entry in the register or of any filed copy or memorandum or any part thereof certified to be a true copy by the Registrar General.
- (6) Registration of an agricultural charge may be proved by the production of a certified copy of the entry in the register relating to the charge, and a copy of any entry purporting to be certified as a true copy by the Registrar General shall in all legal proceedings be evidence of the matters stated therein without proof of the signature or authority of the person signing it.
- (7) Registration of an agricultural charge under this section shall be deemed to constitute actual notice of the charge, and of the fact of such registration, to all persons and for all purposes connected with the property comprised in the charge, as from the date of registration or other prescribed date, and so long as the registration continues in force:

Provided that, where an agricultural charge created in favour of an authorised lender is expressly made for securing a current account or other further advances, the authorised lender, in relation to the making of further advances under the charge, shall not be deemed to have notice of another agricultural charge by reason only that it is so registered if it was not so registered at the time when the first-mentioned charge was created or when the last search (if any) by or on behalf of the authorised lender was made, whichever last happened.

- (8) The Governor in Council may make regulations prescribing anything which under this section is to be prescribed and generally as to the keeping of the register and the filing of memoranda, the removal of entries from the register on proof of discharge, and the rectification of the register.
- 7. (1) It shall not be lawful to print for publication or publish any list of agricultural charges.
- (2) If any person acts in contravention of this section, he shall in respect of each offence be liable on summary conviction to a fine not exceeding £200:

Provided that no person other than a proprietor, editor, master printer, or publisher, shall be liable to be convicted under this section.

- (3) No prosecution for an offence under this section shall be commenced without the consent of the Governor in Council.
- (4) For the purpose of this section, "publication" means the issue of copies to the public, and "publish" has a corresponding meaning, and without prejudice to the generality of the foregoing definition the confidential notification by an association representative of a particular trade to its members trading or carrying on business in the district in which property subject to an agricultural charge is situate of the creation of the charge shall not be deemed to be publication for the purposes of this section.
- 8. If, with intent to defraud, a farmer who has created an Frauds by farmers. agricultural charge
 - (a) fails to comply with the obligations imposed by this Ordinance as to the payment over to the authorised lender of any sums received by him by way of proceeds of sale, or in respect of other agricultural assets, or under a policy of insurance or by way of compensation; or

Restriction on publication of agricultural charges.

(b) removes or suffers to be removed from his holding any property subject to the charge;

he shall be guilty of a misdemeanour and liable on conviction on indictment to a fine not exceeding £500 or imprisonment for a term not exceeding six months, or on second or subsequent offence to both fine and imprisonment.

Rights of tenants.

9. Any farmer being the tenant of an agricultural holding shall have the right to create an agricultural charge notwithstanding any provision in his contract of tenancy to the contrary.

MERCHANT SHIPPING

MASTERS AND SEAMEN

The Merchant Shipping (Foreign Deserters) (Revocation) Order 1980

Made - - - - - 21st May 1980
Laid before Parliament 29th May 1980
Coming into Operation 19th June 1980

At the Court at Buckingham Palace, the 21st day of May 1980 Present,

The Queen's Most Excellent Majesty in Council

Whereas notwithstanding the repeal of the Foreign Deserters Act 1852 (a) Orders in Council made under section 1 of that Act shall by virtue of section 745 of the Merchant Shipping Act 1894 (b) (hereinafter referred to as "the Act") continue in force as if they had been made under the Act:

And whereas it is expedient that one such Order in Council and certain other Orders in Council made under section 238 of the Act should be revoked:

Now, therefore, Her Majesty, in exercise of the powers vested in Her by section 738 of the Act, is pleased, by and with the advice of Her Privy Council, to order, and it is hereby ordered as follows—

- 1. This Order may be cited as the Merchant Shipping (Foreign Deserters) (Revocation) Order 1980 and shall come into operation on 19th June 1980.
 - 2. The following are hereby revoked -
 - (a) the provisions of the Order in Council relating to seamen who desert from merchant ships belonging to subjects of the King of the Netherlands made on the 9th day of March 1854 (c), to the extent to which those provisions relate to seamen who when within any of the Channel Islands, the Isle of Man or any Colony desert from merchant ships belonging to subjects of the Kingdom of the Netherlands;
 - (b) the Merchant Shipping (Foreign Deserters) (Kingdom of Greece) Order 1954 (d);
 - (c) the Merchant Shipping (Foreign Deserters) (Federal Republic of Germany) Order 1958 (e);
 - (d) the Merchant Shipping (Foreign Deserters) (Kingdom of Denmark) Order 1963 (f).

N. E. Leigh, Clerk of the Privy Council.

(a) 1852 c. 26.

(b) 1894 c. 60.

(c) S.R. & O. Rev. XIV, p. 152.

(d) S.I. 1954/144. (e) S.I. 1958/142.

(f) S.I. 1963/375.

EXPLANATORY NOTE

(This Note is not part of the Order.)

This Order, which is made pursuant to the Merchant Shipping Act 1894, revokes the specified Orders to the extent to which they had provided for the apprehension and return to their ship of deserters from merchant ships of the Netherlands, Greece, the Federal Republic of Germany and Denmark at ports in the Channel Islands, the Isle of Man or any Colony. The provisions of section 89 of the Merchant Shipping Act 1970 (c. 36), which supersede the specified Orders as far as the United Kingdom is concerned, cease to apply to Denmark, the Federal Republic of Germany, Greece and the Netherlands by virtue of the Merchant Shipping (Foreign Deserters) (Disapplication) Order 1980 (S.I. 1980/716), which came into operation on 19th June 1980.

ADDRESS BY THE PRESIDENT

Henouroble Members,

****** bensizes Il

In welcoming you to the mreting of this Council it is my pleasant duty to welcome particularly the Hon Member for West Folkland, the Hon Tim Blake, and to congratulate him on his success in the recent by-election. He is no stranger to this House, having been a member from 1964 to 1968 and again from 1972 to 1977. I am sure that his long experience and sage advice will be most valuable in the important deliberations that we have before us in what is left of the life of this Council. I also welcome the Hon the Acting Chief Secretary, who is well known to you all, but not in his present capacity.

The main nurpose of this meeting does not appear on the Order Paper but will, with the leave of Council, be debated as a matter of urgent public importance. I refer, of course, to Mr Ridley's request to let him have your views - and, through them, the views of your constituents - on his ideas for the next round of talks with the Argentines. As Hon Members well know, he came to the Islanda at the end of November to seek Councillors' views on the possible options that he might discuss with the Argentines, and to explain that, next time, the Argentines would expect to have substantive talks on sovereignty. At your request, he explained his ideas in public throughout the Islands, and public debate has continued ever since. We meet today to heer Islanders' views on the way ahead. I am the first to admit that none of the options open to us appears perticularly attractive; but I think the majority would agree that we cannot stay as we are: we must either go forward or go back - life is too impermanent for us to try to stay as we are. As there still appears to be some confusion following Mr Ridley's visit, let me reassure you that Oritain has no doubt about her sovereignty over the Falkland Islands and she has made this perfectly clear throughout to the Argentines. The British aim for the Islands is quite simple: it is to secure a viable economic and political future for you under British administration in accordance with your wishes. The heart of the problem, however, is that you cannot anjoy such security as long as the dispute with Argentina continues. The dispute overshadows your deily lives and blights your economy. The result is economic stagnation and a declining population. If us are to reverse this trend, we have to look for ways of ending the dispute. That is why Mr Ridley put forward a number of suggestions for your consideration. should stress that, in endeavouring to find a solution to this longstanding disnute, he was not subjecting Islanders to any pressure. He emphasised that your wishes were paramount - that is why he came to seek your views on how we might proceed. If you now recommend any particular course of action, he is committed to act in accordance with your wishes and to refer back to you any specific proposals that may emerge from further talks with the Argentines. Any decision by you would then have to be further endorsed by the British Parlisment. I do not think therefore that there is any danger of a settlement being reached without the agreement of the vast majority of Islanders. look forward to an interesting and responsible debate on this subject and hope that a constructive Motion will be tabled which manifestly represents the views of Islanders as a whole. postate of new

The next most important issue before us is the sombre state of the Colony's finances. Owing to the depressed state of wool prices and the rising costs of production, company tax from the farms this year is likely to be down to about 20 per cent of last year's figure.

etal testaxo of alon on trata so feet but apionama alletata a part e

The Colony's reserves by the end of this financial year, that is June 1981, are estimated to be about £670,000. Unless we can find some unexpected source of revenue, or make some drastic cuts in public spending, we expect to have a deficit on the recurrent Budget of £½ million by June 1982. That will virtually wipe out what is left of our reserves, and there will be nothing in the Development Fund.

Against this gloomy foregast, I think that the Review of the Salary Structure and Conditions of Service of the Civil Service of the Falkland Islands recently undertaken by Mr Ritchie goes as far as it reasonably can to meet the representations of the Civil Servants' Association. The detailed recommendations have yet to be studied by Executive Council, but I can say that it is recognised that salaries of the Civil Service as a whole have lagged behind increases given to employees covered by the Agreements with the General Employees' Union and that Government accepts the need for some upward adjustment in the general level of Civil Service salaries. I should, however, utter a word of warning. In view of the current financial and economic position. Mr Ritchie recommends that Government should not commit itself in future to automatic adjustment based on the increase in the cost of living. What we must aim for is a salaries structure which the Colony can afford and which will not result in leapfrogging in other sections of the economy to the detriment of our major industry. It seems to me that the quarterly Cost of Living adjustments now being made under the two agreements with the General Employees Union are fast becoming - if indeed they have not already become - more than the economy can bear in present circumstances. The increasing wage bill is now reaching levels which the wool industry will find difficult if not impossible to meet unless there is a substantial increase in wool prices, and this seems unlikely in the short term.

Before leaving the financial scene, I should like to take this opportunity to thank Mr Ritchie on behalf of the Falkland Islands Government and the Civil Service for his sterling efforts in producing a most thorough and afficient review in the remarkably short time of 21 days - including the Xmas holidays. He leaves the Islands today and I wish him Godspeed and a well-earned rest.

Even more important than the Colony's finances is the Colony's population. As Hon Members know, we carried out a Census last month and, although the Census Forms are still being analysed, the Census Supervisor has let me have some provisional figures. Subject to minor corrections, total population of the Islands as at 7 December 1980 was 1,812, broken down as follows:

Stanley - 1,053 East Falkland - 435 West Falkland - 324

These figures do not include the Royal Marine detachment at Moody Brook, or people on board ships in the harbour at the time. The total is slightly better than we had feared after last year's immigration figures, which showed a net loss of over one hundred. But there is no room for complacency and we must continue to do what we can to attract more people to these Islands. I should like to thank all those who took part in the Census and particularly farm Managers and the pplice in Stanley for acting as enumerators in addition to their already onerous duties. Some of the questions in the Census form may have seemed a bit odd, or unduly inquisitive, but I assure you that it was a very worthwhile exercise and that we shall be able to extract lots of useful information from it.

SERVICE OF PROPERTY OF STREET, THE RESIDENCE I mentioned the Police just now, and I should like here to pay tribute to that grossly understaffed and overworked force. They have had more than their share of trouble recently and their normally long and unsocial hours may have stretched to the utmost. I'm glad to say that Mr Ritchie has recognised their heavy responsibilities in his salary recommendations, and I hope that his proposed regradings, if accepted by Government, will go some way to attracting more recruits. I am optimistic, too, that with ODA's help we shall soon be able to recruit a Chief Police Officer from the UK, and perhaps, too, a Sergeant. The Chief Secretary is actively pursuing this in England during his current leave and, when he spoke on the telephone the other day, he confirmed that ODA had agreed to pay supplementation for the Chief Police Officer, and the new Overseas Police Adviser was sounding out suitable nominees for him to interview. As Hon Members may recall. we also have an Islander undergoing police training in the UK at the present time. He is due back in April of this year and this should also help to bolster up the Force.

While on the subject of staff, I should like to take this opportunity of welcoming Dr Daniel Haines and Dr Hilary Haines, who arrived last week to take up duties in the Medical Department. Dr Daniel Haines will take over from Dr Summers as SMO when the latter leaves, but at present we have the unprecedented number of five doctors in the Colony. Our third pilot, Mr Selwood, is due to arrive early next month, by which time I hope that the spare parts for the Islander will have arrived and she will be flying again.

Finally, I should like to say a few words about our roads. The Darwin road is now progressing well and has reached 11 kilometres from Stanley. So for this season the road gang has constructed 2 kilometres and, if the weather holds, they should do another six before the winter sets in. The Stanley road gang is currently working on the airport road. They should complete the repair and resealing of this road by the end of January and their next job is to seal the Islander hangar taxi-way. They will then repair Davis Street and remake Brandon Road, with the aim of having a throughway from the west end of the airport road to the beginning of the Darwin road.

I now wish Hon Members well in their deliberations in this, the last year of the life of the present Council, and adjourn this session for half an hour.

MOTION OF THANKS TO HIS EXCELLENCY ON HIS ADDRESS

L. G. Blake

Your Excellency, Hon Members. I rise to propose this Motion with pleasure but I had hoped that perhaps I could listen to the other fellows first. However, Sir, may I thank you first of all for your kind remarks in welcoming me to this Council and may I also take the opportunity of thanking my supporters in the West Falkland. I would like particularly to commend the efforts of people who travelled some distance to vote and also as it was a holiday period those who interrupted their holidays to stay and await the ballot box. I feel that it can never be stressed enough how important it is that whether you like the fellow or not you at least vote. I believe that no-one should ever comment on the affairs of this Colony if they didn't vote in the last election because they have got what they deserve, even if they dislike it.

I would like now, Sir, to skirt around your earlier remarks to Council which no doubt we will discuss later in the Session - Mr Ridley's visit and take up your comments on the Colony's finances. I always seem to arrive at this Council or be on this Council when there is a cash crisis. In fact as far as I remember we were known as the "cowboy council" last time and I hope that it isn't my fault, but maybe it is, and perhaps that if you felt that it is my fault then the idea would be to desolve Council hastily and see if the money will start to flow again! But everyone must be aware of the state of the economy and the fact that our Financial Secretary is to be commended in many ways in keeping it as fluid as it has been to this point. In your comments on the finances you mentioned the fact that it is going to be necessary perhaps to control the use of thresh-hold payments. I hope, Sir, that if this is necessary Government will find some means also of controlling the prices of goods in this Colony. I have said this many times before in this Council and we have debated it before in this Council and the reply has always been oh well you'll need a fantastic staff to maintain some control, and I accepted that. In actual fact I now would dispute it in that all importers are required by law to furnish Government with the landed cost of the goods they import. Government could find a way of setting up a watch-dog committee where the consumer could complain about price increases or price levels and that Committee could then examine the figures which are within the Customs Department then I fail to see why it should take so much labour and be so costly to implement.

I would like to move on now to the population figures and these are of course disturbing and with the financial situation I think it underlines more than anything we can say. You commented in the beginning of your speech that we have got to go forward somehow, and this I wholly support. Things are not made easy, however, for employers to import labour and therefore perhaps improve our population status by the present Immigration Ordinance. Since a number of years ago we have been promised a review of this Ordinance but unfortunately it doesn't seem to have come about and employers are going to continue to hesitate to import labour that can turn around and say, "look sorry old chap I don't like this place I want to be shipped away again". But if we are to get people into this Colony somebody is going to have to bring them here, be it the industry we've got now or a new industry, hopefully, which would open up and to do this I think we are going to need to modify our Immigration Ordinance.

And finally, I would like to comment on overseas training and I can tie this fortunately to your remarks with regard to our police cadet in Britain and of course we have a number of others, students at Rye University, and we had, I'm not sure if we still have, students away on Commonwealth bursaries for higher education. I am disappointed that one of those students who always professed an interest in a totally different subject to the one he was sent away to pursue has cut his course short and emigrated elsewhere. I do feel that we are going to have to be rather careful, or more careful perhaps in the future in our selection of students for higher education.

Having got to this point, Sir, all I can say is thank you very much.

W. E. Bowles

Sir, I would like to second the Motion of Thankson your excellent address this morning and I would like to also congratulate Mr Blake on his success and welcome to the Table Mr Morrison. Going through your remarks this morning some of them we will come to later on and the economy of our Islands is naturally of prime concern to all of us. think we have got to work a lot harder with a lot more exertion if we are going to help to bring it into line. I would also like to thank Mr Ritchie for the hard work he has done in such a short time and join with you in wishing him bon voyage. I think Mr Bleke's idea of a price control is a good one and I think it is essential but we can work out the details of this at a later date. I was rather pleasantly surprised at the population figures. I thought they would be a bit lower than that. I would also like to join with you, Sir, in hoping that we can get our Police Force back into strength. I think that is very important. I welcome, too, Dr. Haines and his wife and hope they will be very happy here and enjoy their work and I have left to last the pet subject you mantioned this morning, our roads system. First of all I would like to congratulate the Darwin Road gang on the distance they have achieved in not the best of conditions and with not the best of equipment. I was pleasantly surprised when I went over the road not so long ago that I could get as far as Mount Harriet gate without any difficulty and also the planning ahead stage of the throughway, as we are calling it, from the Islander hangar to eventually Darwin Settlement and I'm sure that my constituents on Davis Street and Brandon Road will warmly welcome this one. And with that in mind I would like to conclude by welcoming Mr Brodrick and Mr Turner our new Director of Public Works and Superintendent of Buildings, who I am sure are going to do a lot to help this project go ahead, coupled with our other development plans. With that, Sir, I would like to say thank you for your address this morning.

S. B. Wallace

The state of the s

Your Excellency, Honourable Members. In rising to support this Motion of Thanks on Your Excellency's address I would like first to join you in welcoming Mr Tim Blake and Mr Doug Morrison to this House. I look forward to some interesting debates and I certainly hope that we won't be titled the "cowboy council" too; I expect that will depend on the effect of the Stanley Members. We will have an opportunity later in this meeting to talk on our current political situation and I will not dwell on it here.

The contract of the Ketter Child Secretary, 'no Chrysland

As Your Excellency remarked, our economic situation can certainly give cause for concern and generally I agree with Your Excellency but I do also think that we must guard against becoming too despondent and pessimistic about it. Weall know that wool prices are dismal, but let us also remember that the immediate loss is the company tax on profits but we still expect this year at least 20% of that. I often hear other Hon Members scoffing at our so-called windfall revenue yet this revenue seems fairly constant and is certainly the result of a great deal of thought and effort - it is no accident. I think its ridiculous to sneer at revenue simply because it does not derive from a sheep. It is surely diversification at its best even though small. Your Excellency mentioned the fact that we may no longer be able to pay people automatic cost of living awards and I too have been thinking that if on the one hand we cannot protect people against inflation we must in some way ensure that inflation doesn't run amok. I wonder though if legislation would be the answer for that, perhaps something on the lines of a consumer committee and using information which is available and simply put public pressure on those who are perhaps making extortionate profits. I would also like to associate myself with Your Excellency's remarks to Mr Ritchie for his invaluable services; especially his service as Fiscal Adviser.

I am relieved to hear that the ODA are at least moving to recruit a Chief Police Officer and possibly a sergeant. They are desperately needed as our Police Force have, as you remarked Sir, an extremely difficult job.

The Darwin Road seems to be progressing well. I remain convinced that this project is central to development of the Colony and I congratulate all those who are obviously working to effect on this project.

And lastly, Stanley roads. Well I am glad to hear that we have a repair. programme in the offing for these roads. As the Census has shown more than half the Islands population reside in Town and if we can we must provide such basic requirements which any community need, if not demand. In particular I should like to say that I am particularly happy to hear that Davis Street is going to be repaired.

Thank you.

ATT VOORSTRAND

Your Excellency, Honourable Members. In rising to support this Motion of Thanks I too would like to welcome my colleague from the West Falklands and the Acting Chief Sacretary, Mr. Morrison.

her princets and princetons but this brid of oall who is but in it could

In replying to your address I would like firstly to mention the present economic position of the Islands which you referred to, and the prospects. Our political position will be discussed later but the two, of course, go very much hand in hand. It is the economic position which will decide the future of the Falklands, whether we develop and expand in the next few years or whether we simply dwindle away and fizzle out. The present situation is not too bad, we will have, I believe, a deficit at the end of June 1981 of between £60 and £100 thousand pounds but we have reasonable reserves to cover this. However, as you explained Sir, the following year is somewhat

different. Wool prices are down and are unlikely to rise very significantly this year, and the amount of revenue from farm profits for the coming year depends on the previous years prices and you know what they are. Farm profits will be virtually nil and will be likely to remain so for some time and even if all the farms in the Falklands were split up and sub-divided it will not mean any more revenue at present. Small farm units do have lower operating costs but by their very nature as family units most of the profits, if any, will be being reinvested most of the time. Small farm units will, I firmly believe, benefit the economy and life of the Islands but only in the medium to long-term. The short term revenue to Government will decrease. Having said that I am quite confident that given time wool prices will rise and farming will become reasonably profitable. Wool prices have been down before and they have gone up and down again but I do not believe that sheep farming is likely to prosper to the extent that it will be able to provide the bulk of Government's money as it has done in the past. Sheep farming will survive but I don't think we can expect the revenue that we have had in the past even when prices do go up again. At present levels of income and expenditure I understand that a deficit of about half a million is forecast for the forthcoming Financial Year, 1981/82, this I believe was the figure you mentioned Sir. As an optimist I am convinced this figure is a bit too gloomy and that our able Financial Secretary will manage to reduce it somewhat. However, it is only too obvious that unless we can increase our revenue within a couple of years at the most we will probably be broke and the Falkland Islands Government will have to go cap in hand to the United Kingdom for grant in aid status and then, to my mind, we will really be in trouble because as I understand it when you go grant in aid the Legislative Council virtually becomes a rubber stamp for the UK Treasury and we more or less have to do what we are told because the money comes from elsewhere. It is unlikely that we can reduce revenue without effecting the social services that we have come to rely on so what can we do? I feel that the main revenue in future must come from off-shore. In other words from licensing fishing and possibly oil from a 200 mile economic zone of some sort. Without this 200 mile limit I can see us getting into serious financial difficulties. One of the main aims therefore of any future talks with Argentina must be to achieve this. If we are to gain this, however, whether we like it or not, and I most certainly do not like it, we are probably going to have to give something in return, and the question is what would be the least we can compromise on to get a reasonable return, whether it's political or economic compromise. It is a most unpleasant and distasteful fact, but it is a fact of life and we will have to accept it sooner or later. The only alternative that I can think of available to us other than the Ridley proposals is that of independence and is one that we should not rule out if we can get international acceptance. At present the entire world in the United Nations are solidly against us because we want to remain a Colony. I think it would be interesting to see what would happen if we started to seek independence and what sort of quarantee we would get if we cannot accept the Argentines conditions on any of the existing proposals that we may want to discuss with them. The concept of independence is not one that we should rule out entirely. Your Excellency, in referring to our economic situation you suggested that Government and the industry cannot afford to continue with the automatic cost of living bonus. I agree with you in this but I also support the remarks made by the earlier speakers

Ally School

 that if we are to do this and freeze the cost of living award we must also exercise some control over local prices and local labour charges as well.

Regarding FIGAS, I trust that the Islander spares will soon turn up and the aircraft will get into the air again and then I hope that the first priority will be to go to all those places not yet checked out but where considerable work on the strips has been carried out last autumn and during the winter and spring by the farms concerned. These farms and their employees are now, naturally, a bit apathetic about the whole concept of land-based aircraft. Every so called expert who comes out tells us in the Camp a different story about which way the airstrips should be, how hard they should be, how soft they should be, where the markers should be and what they should be made of and all the rest of it. We just seem to get more and more restrictions all the time. The way things are heading unless FIGAS can be allowed to adopt a more flexible attitude to operating the Islander I am beginning to feel that we might just as well sell it as it's never going to be allowed to operate practically and economically. FIGAS is by it's very nature a bush-type air ærvice, it's not British Airways flying Concorde! I am not suggesting in this, however, that safety standards should be lowered in any way, I am simply suggesting that a more practical attitude be adopted which will allow more flexibility for the pilot and local management of the Air Service.

Your Excellency referred to the Police Department and I, too, echo your feelings about this and I am very concerned about the present, I wouldn't say lack of law and order, but the present level of petty crimes and general vandalism that is going on. Would not perhaps one of the short-term answers be the advertising and possible recruitment of special constables to help fill the posts until more full-time recruits are appointed.

One other small matter, it is some time now since a full-time Agricultural Officer was advertised for. We all in the farming industry in particular, very much hope that the Acting Chief Secretary will shortly be able to tell us what the position is here, whether we've a candidate or whether we haven't.

Your Excellency I wish to support the Motion.

W. H. Goss

Your Excellency, Honourable Members. In rising to support this Motion I would first of all like to touch on the Darwin Road. I was quite impressed on going along the road on Sunday to see the progress that has been made in the short period of time this summer. As a matter of fact it give me a new lease in life. A couple of years ago I widely criticised the road and the progress there, it's still not going as fast as it should mind you, and my colleagues took me up and rolled me in the clay. Then they thought that I should open the road when it was completed. I asked them to dedicate the road to me when it was completed! But now with this new lease of life I think it is possible that I might see the road opened, it will be opened at this end I take it, either at the pasa libre or where it branches off down at Pony's Pass? Even if I can't get there, maybe some goodsamaritan will take me up in a wheel chair! But it is interesting to see that the road is now going forward, now that they have come up on top and are not digging out and then building up more than they dug out.

The School Hostel - I hear that that is going forward - I have given up even going to look at it, but I hear it is going forward with some probably inherited or built in ailments which I am quite sure PWD will overcome. We will eventually have a School Hostel.

Education I feel is on the up-lift and let us hope that that will continue. If many more people continue to leave we may of course have more chiefs than indians but we will just have to watch that.

I think there is too much emphasis put on the decline in wool - we have seen declines in wool prices before, and we have seen hard times before. You would think that we were the only people in the world who had a problem, a financial problem. There are plenty of other countries, all the rest of the world as far as I can see, which have bigger problems than we have and I am sure we will overcome this. But all we can think of is wool, nobody has yet got around to the export of sheep and there's just as much in the export of sheep and mutton as there is in wool if it's properly worked for. You may have to cut back in the stocks that you have here if you are going to go to both wool and mutton. The high prices that people get in the Colony is a well established fact and it comes from hunger fineness; it comes from starvation and not sound, fine wool fibre. If you were to cut back on alot of these forms you stock your wool prices will probably drop and you will get the same amount of wool but you would get coarser wool, it will be stronger and where you would get an increase in your stronger wool is if you were breeding carpet wool as it would even be stronger still - C grade - and there's quite a demand in the world for C grade. They are hardier sheep, they are tougher sheep, probably more suited to this Colony, particularly for dual purpose where you have got mutton as well.

Decline in population - I think this is over-emphasised too, we have always had ups and downs in population. At the moment there is a shortage of labour. At the present rate of pay I doubt if farms could afford to employ much more labour than they are doing at the moment. But there is something that has been very much missed out on regarding labour. How many people are doing a days work for a days pay? I think that needs looking into. The contract shearing gangs - I think they completely run away with profits from the farms judging by the figures we hear and that should be looked into again too, especially with the consolidation of wages.

One of the things that we badly need in farming if fertilizer and that has not been properly investigated here either. We have guage, and we have lime in a lime shell and I think that we should look into what it would cost to produce such types of fertilizer from our own resources. We know it's got to be processed and can't be just spread on the land, it would have to be processed first.

Your Excellency, Honourable Members. In rising to support the Motion of Thanks on Your Excellency's address I would like to welcome the Hon L G Blake to our midst and I was very happy that he spoke first and was thrown in at the deep end as it were. I must admit that I rather suggested that idea because I thought that having been away for some while he would Probably pick up quite a lot of things which missed us and I think he did.

I would like to support a lot of what the last speaker has said. I think there is far too much emphasis placed on our present financial problems, there is far too much emphasis placed on the wool prices and all the rest of it. It only needs, in fact, I think, as is well known, the United Kingdom interest rates to come down and the value of the pound, the decline against what used to be called hard currency, and we would probably see quite a dramatic rise in the price of wool almost instantly. That of course doesn't mean to say that we should be complacent.

With regard to the Hon L G Blake's remark that he thought perhaps the cash may have stopped flowing when he was elected, I assure you that the financial position today and I'm sure that the Hon Financial Secretary will bear me out, is no worse than it was yesterday or the day before he was elected so I don't think it's his fault!

With regard to revenue I always used to, I admit, call stamp revenue and things like this windfall revenue but I really think now I must agree that stamp revenue is in no way windfall revenue. It is permanent revenue. We have virtually an industry on a going basis and it's permanent revenue I think we are quite entitled to look forward year after year to substantial revenue from stamps. It's no longer windfall revenue. In fact really, just at the moment, I think you might just perhaps call revenue from wool windfall revenue because it seems to be very variable, we don't know quite where we are very often.

extregal time a financia With regard to automatic cost of living awards - I have felt and I think said once or twice that I doubted whether we could continue to go on paying automatic cost of living awards to every person in the Colony. It's a nice concept but I believe that it's a concept that's only afforded or only carried out by one other small country in the world. Every other country has faced the fact and realised that they cannot afford this practice but the problem here is that if we are to attract labour, people, artisans if you like, from elsewhere, well then nur pay structure plus the side benefits which are quite important out here must compare reasonably favourably with those in other parts of the world. I don't think it can be honestly said that they do, personally, speaking as a long-term resident here, and despite remarks made about my possible going when things get bad, which is quite untrue, I intend to remain a resident here, speaking as a long-term resident here I think our standard of life here is so much better than the sort of commuter form of life that you see in so called highly developed countries that it's a wonder that we really get peid at all for living here but one does have to consider prices of course and incomes together and I must admit that though the idea of prices incomes policy seems attractive I cannot see how you can really control prices here. The prices of 90% of our goods are just literally UK prices plus freight charges plus some mark-up here and I think that in the case of the Falkland Islands Company which imports the largest per centage of goods and materials, I believe the mark-up is about 30%, and I don't think anybody can honestly say any mark-up of that sort is unreasonable. I don't know about other businesses, what sort of policy they have, but I can't see how we can control the prices of these imported goods, we can't control the freight rates, we can't control the price at the other end and those are easily the two biggest parts in the price business. If you cannot control: prices except for one or two things like meat or, I can't at the moment think of anything else but I am sure there must be other

deline agent a "to tol o utilip de dole vibro ag electron al ille ence an"

things, well then how can you strictly control income? People have got to afford these things. I think we have got to keep income increases if we possibly can in line with price increases, certainly there shouldn't be unnecessary rises while we have our present rather stringent financial problem but I cannot see that you can strictly. control either for the reason I have given. I would be very happy to learn how it can be done.

Also, with regard to development the development is continuously held out as a carrot which we can only get if we have a fixed agreement with our neighbour and at the moment it is being held out as a carrot that we can only get if we sign sovereignty away. I, of course, do not agree with that latter observation. Now take our sheep farming industry, none of the problems concerning our sheep farming industry have anything to do with the sovereignty dispute, nothing whatsoever, we won't get any more for the wool if we join with Argentina, in fact we will get less, they get lower prices over there. It is nothing whatsoever to do with the sovereignty dispute. I think that there's quite a lot of development that can take place quite outside the sovereignty dispute, such things as inshore fishing and of course we had hoped at one time things like kelp and this sort of thing but there are other ways in fact I think we can develop to an extent. thoroughly agree with the Honourable Member for East Stanley when he said that we should develop our meat and livestock trade but the Darwin Road could provide local development and should provide local development, small local industries. I am quite convinced that if we had a central road system through this Colony farming businesses for one would be relieved of a tremendous amount of unnecessary cost. One wouldn't need to maintain vast heaps of spares and skilled people to use them and carpenters and all the rest of it because local businesses would contract for you to do these things. Also I think the Darwin Road should improve our farming because small organisations producing horticultural things, milk, anything you would like to mention could get their produce in and out of Stanley very quickly and another way I think we should use to improve our farming is that we should take into consideration that at the moment the large amount of imports of dairy produce, bacon and meat. I believe that we could gradually make this more and more uneconomic and thus encourage local produce to be produced. I think it's absolute nonsense that an almost completely farming country should be importing butter and bacon and all this stuff. It's just because we are too lazy to produce it ourselves and I say that as a farmer. I om too lazy to breed pigs because I can buy it and I don't mind admitting that if we had some sort of import duty or restrictions on imports I am perfectly certain that we would get our own farming industry building up in that manner. Actually I bought a pig from a local farmer and never had so much been paid for so little before. wit onto wishingthing bos editor who also

Your Excellency, in rising to support this Motion of Thanks I would like to join in the welcome extended to the elected member for the West Falklands, the Hon L G Blake, and I can see now that I will be able to continue some of the battles which I had on previous occasions with him and I must say at this point that I am pleased that the

elected member for East Falklands has put forward some proposals against a price control and I endorse the majority of the views expressed by the Member for the East Falklands. However, I am sure that it will not stop there and we will have a continuation of the battle elsewhere.

I am very pleased to hear of the progress on the Darwin Road. I think this is exceptionally good and from the comments made by the elected member for East Falkland I can see that we may get more revenue through farming from this venture. I think the road gang must be congretulated seeing the road is going well and I also think that some of the thanks must be extended to Mr. Buckett and his team of fitters for keeping some of the worn out machinery turning over. But I regret to inform the elected member for Stanley East to give an advanced warning that we will not be able to provide funds for a motorised wheel-chair!

Your Excellency, Honourable Members. I rise to support this Motion of Thanks. I too welcome back to this Table Mr. Blake, the Member for the West Falklands.

Perhaps before I go any further, as a newcomer to this Table, I would like to ask for forgiveness and forbearance when I go along and lose my place or don't give the right answers at the right time.

I, too, am pleased to hear in particular about Stanley roads and that there is a programme for their continued development which will provide a throughway from the Airport to, in time to come, Darwin Settlement. Also that when the Airport Road is finished and the Islander hangar mettleway is resurfaced that the road repair gang will move into Stanley and tackle Davis Street and then go on to Brandon Road. I only hope that the weather keeps fine to enable them to continue their good work.

If I may now turn to the point made by the Camp Member, Mr Miller, who asked where we are with the Agricultural Officer, I am pleased to say that the Board has had one meeting and considered quite a healthy list of applicants and before not too long I would think the Board will meet again but this depends on the presence of a member from Camp so I would hope that, say, by the end of this month we would be able to announce who would be our new Agricultural Officer.

With regard to population, I'm quite pleased that we didn't quite sink below the 1800 mark. Population, I think, attained it's peak in the early 1930s and particularly since the war has been going down.

One of the allied problems perhaps is the lack of housing. If I may speak for a few moments on that as you know Sir we are working on a modest housing project and have a loan of, I think, £100,000 from Government. The Public Works has annalysed the response to our call for tenders which went overseas as well as locally and maybe before not too long we will be able to announce something as to what is going to happen to the housing programme. If we had more houses available I am sure that we could get some immigrants from Britain because all too often I have to write to them and say sorry there's work for you here but I cannot guarantee a house so really you can't come until you can be sure of accommodation.

I, too, am worried about the economic situation and only hope that 1981 will not be too bleak a year with too many problems.

Thank you.

ANNOUNCEMENTS

President

It gives me great pleasure to announce the result of the election of a Member on Legislative Council to the Executive Council. That Member is the Hon S 8 Wallace, the elected member for West Stanley, and he takes the place in the Executive Council of the Honourable Member for Stanley Division, the Hon W E Bowles.

PAPERS TO BE LAID ON THE TABLE

The following papers were laid on the Table -

Copies of subsidiary legislation made and approved by the Governor in Council since 17th June 1980

Medical and Sanitary Report for the period 1st July 1979/30th June 1980.

QUESTIONS FOR ORAL REPLY

No. 1/81 by Hon W E Bowles

Sir, since the Budget Session of the Legislative Council and our concern for the Plant and Transport Authority will the Financial Secretary explain it's financial position.

Financial Secretary

Sir, the deficiency of the Plant and Transport Authority at 30th June 1980 amounted to £71,000. The Director of Public Works and the Mechanical Superintendent have now advised me that the gross income for 1980/81 should amount to £217,000. Expenditure is estimated at £196,000. The excess of income over expenditure for 1980/81 therefore should amount to £21,000 thereby reducing the deficiency of the Plant and Transport Authority to £50,000 at 30th June 1981. This is an improvement in the figures quoted to my Hon Friend last June but it should be noted that this is purely a cash improvement and has only been achieved at the cost of holding back on purchasing new plant. The possibility of raising a loan for the purchase of new plant is now being pursued.

W E Sowles

I would like to thank the Financial Secretary for his reply and I am heartened by his words and I am sure that the public in general will be pleased with the information so released.

Would the Chief Secretary tell Council how an individual gets his name on the Electoral Roll of a constituency.

Chief Secretary

Sir, a Registration Officer published a list of electors showing the persons appearing to him to be entitled to be registered as electors. Any person who is qualified to be registered as an elector and whose name is ommitted from the list of electors may apply to the Registration Officer within ten days to have his name inserted. New registers will be prepared for the General Election giving ample time for any person not registered to have his or her name inserted.

Chief Secretary

Sir, yes we were aware of that but the need was to meet this date of the 6th January and have a member elected for the West Falklands so there was really no time to prepare a new register and give time for objections or claims for insertions or appeals to Justices of the Peace. I regret this and am sorry for any inconvenience caused to anyone who couldn't vote at this By Election but hope that they will be able to exercise this vote in the General Election later this year.

Your Excellency, Honourable Members. In rising to propose this Motion I must say that the basic wording of it was only agreed amongst ourselves after some considerable debate and some of us may still not be too sure of it as our opinions differed somewhat as to how we want talks to continue with Argentina. I find myself in a bit of a fix in proposing this Motion at short notice as I had understood that the Honourable Member for East Falkland was going to, at least I understood that he was going to yesterday when we talked about this. None of us found any of Mr. Ridley's proposals very attractive but I think we are all agreed from our discussions with the people whom we represent that we must talk to try and get somewhere. At least if we talk we will find out what the other side thinks and until we do that we just really don't know where we are. Personally I would have preferred a more flexible Motion giving more opportunity to sound out, without commitment, Argentina's views on other options as well. However, this is the one that I think we can all be in general agreement on at this time and it is certainly the one that the people of these Islands find least objectionable to all the proposals. Many people whom I spoke to and listened to, and I would like to mention here that unlike the Member for East Falkland I listened to my constituents, I didn't try to force my opinion down their throats whether they approved of it or not, I sat and listened to them. Many of the people whom I sat and talked to and listened to realise and accept that we must at least discuss things with Argentina but were very, very wary of even discussing a lease-back and some felt that we might well lose support if we broached the subject to Argentina first. I was elected to Council three years ago largely on a mandate of keeping the

Falklands British and not talking much to the Argentines. Times may have changed and realisation of the situation has caused me to feel that we will probably have to talk seriously, some time, but as we are coming to the end of this Council I feel that I must go along with what appears to be the majority opinion of my fellow Councillors and the people whom I represent and that is that we should ask Her Majesty's Government to negotiate a sovereignty freeze and find out from Argentina what sort of deal would be agreeable in this area. don't know what the price might be until we try. These issues are very awkward ones for all of us in the Islands to discuss and think about and it can be argued that we need more time. However, discussion and thought must be done quietly and remonably and dement outbursts from people who try and dictate to others as to what they should and should not do I deplore totally. The Falklands are a democracy not a dictatorship and whilst I respect individuals for their views it is a pity that important people such as the Member for East Falkland could not take a more democratic line when approaching his constituents. He claims that everybody agreed with his thoughts, or a great majority agreed with his thoughts, this may well be so. However, I do know that some people to whom he talked to told me that they resented being told what should be acceptable and what shouldn't be acceptable and that if they didn't agree with that they would have to get somebody else to represent them. Your Excellency, I very much appreciated your recent talk over the radio when you said that if you felt you were being pushed by the United Kingdom and Foreign Office into proposing to us something that you felt was unacceptable to the Folkland Islanders then you would resign. I very much appreciated your saying that and also I know that in this debate we can rely on official members of Legislative Council to be quite open in their speaking and voting on this Motion which is of such crucial importance to the future of these Islands. Supposing we fail to negotiate suitable terms for a freeze? What then? Will we be forced to accept a lease-back on any conditions? No, I don't think so. We might possibly at that time decide to try and find out from the Argentine their views on the lease-back, that's if she hasn't already made them clear to us, and I think that might be quite likely at the next round of talks, even if we don't agree to talk about them I think they may well bring them up. The other alternative, if we don't like the idea of a lease-back, and a freeze doesn't work out, is the possibility of seeking independence if we can get it guaranteed and backed-up by Britain and the United Nations. I do not know if many people in the Islands have thought much about independence so perhaps we should start to think about it as an alternative if need be. may feel that the British Government doesn't want to talk about a freeze and that the only thing they want is a lease-back and that they won't be very determined in pushing for anything else such as we may propose. Well I think we are all aware, and especially those of us who have been to previous talks, that if the Falklands representatives feel that our side is being let down by lack of push by the British delegation in any way there is no better way of making our feelings known than simply walking out of the delegation. That round of talks then immediately ceases. So there is nothing to fear on the score that because we want a freeze and we ask Britain to negotate a freeze that she won't do it very well because Britain is only really interested in a lease-back. It will be far more suspicious if a round of talks were to be held on our request that the British Government should seek an agreement that there should be a freeze of the dispute over sovereignty if we weren't represented there. Then I think you would have to be very worried indeed. Sir, I wish to propose that the Motion be adopted.

withdrawing of aport wird to until on welfangons you an Alat of sutpo

Your Excellency, Honourable Members. In rising to support this Motion a freeze is a thing which as you all know is the only one of the three options put up by the Minister that I would give any support to. It would have to be a long freeze, not less than 25 years, and during the freeze let us participate in fish and oil and see where we go from there.

The lease-back - I can see grave disadvantages to that. At the end of the lease-back I think there would be nothing left. You would have exploitation of these Islands in a form hitherto not known to us. With a lease-back it would open the back door and the front door for people in other countries who wanted to use this as a means of getting money out of the country to somewhere else. I could not support a lease-back.

There are too many disadvantages to it. It has been said that perhaps we would get independence at the end of the lease-back. The only way in which we would get independence after the lease-back is if the Islands were just a cluster of little empty blisters on the top of the earth and of no value to anybody. Then of course there would be the possibility of independence. They have got value to other people at the moment. There is value to us but we are not able to utilise that value. A freeze is the only thing that I would give any thought or consideration to. That is not the feeling of the majority of my constituency, they say stand, they don't want any of it, they don't like any of it, but they do more favour a freeze than they do a leaseback or a condeminium. It has been said, independence - well we probably could, it's worth pursuing, worth looking into, the possibilities of independence, whether we can get that or not I don't know. There is one other possibility too, there's the possibility of becoming part of the Commonwealth of Nations. Could that not also be pursued. We know of other places that are small places, much smaller than the Falklands, that are members and under the protectate of the Commonwealth of Nations and I think that that is quite a feasible possibility.

Regarding the attack on the Member for East Falklands, I think it has been a little undue. He was very out-spoken - perhaps more outspoken than most of us have been - but my findings through feed-back from various parts of the Camp where everyone was supposed to be so in favour of a lease-back, on speaking to people from those arees I couldn't find a soul who was. They were just as much at a loss as many people are in Stanley to make a decision on any one of the three points and I think the Member for East Falklands was very right in coming out as strong as he did on the issue. Most of us, particularly Councillors, have sat on a fence, they haven't said enything, there have only been a few of us that have really come out and said what we thought, most didn't.

Your Excellency, Honourable Members. First of all may I say that I have no doubt about Her Majesty's position concerning our wishes, and I stress the word wishes. The question is to talk or not to talk, with emphasis on the word talk. Britain and Argentina have been asked by the United Nations to settle the dispute over the Falkland Islands peacefully. The word peacefully applies to all concerned and the best method I know of is via the conference table. The sudden rush to agree to talk on any suggestion or idea at this stage is potentially

risky. The Minister made it very clear to me, don't rush it, take your time and if any further ideas for talks come forward let's have them, as many as you like. Nothing worthwhile ever happened in a hurry. We have a right to self-determination, a right recognised by the United Nations. In my opinion talks should continue on the lines of the Motion before this House. This should then satisfy most of the population we are responsible for. No-one is ceding sovereignty or giving away anything. We will give ourselves time to consider things more in depth. After all, the whole impetus is berely one month old. Some of us have hardly got over the shock, let alone found time to come to a clear concensus over any issue. Now is the time for listing ideas, and talks later.

Sir, with those few words I beg to support the Motion.

A. B. Monk

Your Excellency, Honourable Members. In rising to speak to the Motion I must endorse what His Excellency said that without doubt the main talking point in these Islands recently has been Mr. Ridley, the Minister of State's visit here, and what he said. The Honourable Camp Member pointed out that I had originally agreed to propose this Motion. However on reflection I became certain that we were being rushed and that other options should be considered first. The Proposer said maybe we need more time and I think that is quite right. It is only a matter of weeks since Mr. Ridley's visit and we are being asked to agree to something of this importance. Without doubt the vast majority of Islanders, both in Stanley and the Camp, find any ideas about transfering our sovereignty either by lease-back or by any other method, entirely unacceptable and I am sure the Member for West Falklands would have taken that on board. In connection with this I must sincerely thank all those who sent me telegrams of support after my recent short broadcast. It was very heartening indeed to find that so many people from all over the Falklands value their British sovereignty so much. People have decisively shown that they want the British way of life more than they want some vaque promises in return for their hand-over of sovereignty. Councillors in my view should now tell Mr. Ridley firmly that we want no talks about any form of sovereignty transfer. With regard to the present Motion and the proposal to talk about a freeze. I personally don't think Mr. Ridley is the person we would wont to have talking to the Argentine Government. He made so plain what he considered we should go for - a lease-back solution - and I cannot see him putting his heart into talking about anything else. One thing this sovereignty give-away campaign has shown which is of great value I think, is people here have been able to express their views very freely in public. We have seen no repression, no cansorship. That's the British way of life. Who would want to change it to the mainland form of Government, who would want to wish it on their descendants. Since I gave my short address on the radio a lot of discussion has taken place publicly. A lot of hard things have been said and I don't think anybody who wants to keep our British sovereignty and who objects to the lease-back solution will be convinced that he or she is mistaken by all the verbiage and slanted propaganda. Those supporting a lease-back solution are able to offer nothing more concrete to us than that you might get development and riches if you knuckle down and give away soversignty. They of course don't know that you would get it. I can only suppose they think any price is not too high if one can get the possibility of peace in our time. Well a certain British Prime Minister, Mr. Chamberlain, adopted that attitude many years ago with Hitler, with disasterous consequences and which I became fully involved in. Unfortunately appeasement seldom gets you any long-term reward. The only certain thing that is known about adopting a

lease-back solution is that you are giving eway sovereignty. We are told that we will gradually collapse in the stagnation of our economy and the withdrawal of services etc. unless we knuckle down to Argentina. We are told by some that we must trust Mr. Ridley to do his best for us and yet at the same time we are told that the British Government is not interested in us and will not support us, will not supply adequate services etc. if we turn down the sovereignty give-away proposal. The fact is no-one really knows what lies in the future, whatever course we take, except that if you adopt a lease-back policy you give away your sovereignty, refuse to do that and you retain it. - anything else is pure conjection. It has been said, among other things, that I only propose to live in the Falklands for two years after my impending retirement in May. That is completely untrue. I propose to retire here but, I say this quite definitely, only if no change in sovereignty takes place. I am not living here if sovereignty is ceded either by lease-back or any other agreement, no rented country is for me thank you. There are however other alternatives, independence, the freeze, and I think we should make exhaustive enquiries about the possibilities of these alternatives to see what support etc. we get from other countries before we jump into negotiations only a few weeks after the proposals have been put to us. I think we should see what the United Nations view is on this, what the general world opinion would be on this. I think we should require more time before any further talks take place. Now, I am not infering that I oppose talks. I think that talking is the only way that we can make headway but I do think that we require more time to consider any other possible alternatives and see what outside support we get for them. We are being rushed and I don't think that we should support this Motion because of that fact, and that fact only. If it is supported by a majority Mr. Ridley will go to the Argentines and will soon be back to us saying no go, they want sovereignty. Then all the pressures we have recently experienced and more will again be ascerted upon us. We will in effect have expended one of our options needlessly. I think there is no way forward without talking but don't lets be rushed. This is absolutely vital for all of us. It is in effect about whether you and your descendants wish to reside on British soil or Argentine soil. Before we give away the authority to speak for us lets explore all the options, a negotiated moratorium on sovereignty perhaps, independence, maybe others, and before we give anybody permission to negotiate with Argentina about our future we must insist that we have a categorical assurance from the British Government that all Falkland Islanders have the right of entry into Britain. I have been accused on rabble rousing. I must say that I am proud to be supported by the numerous rabble who have supported me on my sovereignty stand. Far from insulting me I think these people who say that are insulting many hundreds of Falkland Islanders by referring to my supporters as rabble. As I think more time is needed I therefore cannot support this Motion. graphy breat in and A. . Talling, soming solling

Your Excellency, Honourable Members. I rise to support this Motion. I believe that of Mr. Ridley's, or rather the British Government's, proposals, the idea of a freeze is the only one which the people here are prepared to have discussed at this time. No-one is interested in a condiminium and few are interested in a lease-back arrangement, but almost without exception people wish the talks to continue and would be prepared to compromise in order to achieve a settlement; but to sell sovereignty for a mere hope of gain is repugnant to most people. We may be in some difficulty but it is not that desperate. I have

met and talked with many people during the last weeks and I received that message loud and clear. We have rehearsed the arguments for and against allowing Her Majesty's Government to discuss a possible leaseback over and over again. It is my view that to allow HMG to do this at this time would be disasterous. I am convinced that at a word of support from us a lease-back would be arranged in a very short while. I am equally convinced that the argument to the effect that to discuss it does not commit us is naive to say the least. There is a placid acceptance of the principle that if we allow a lease-back to be discussed it is ridiculous furthermore for anyone to say well we are against it but HMG can discuss it. We would soon find ourselves holding a referendum which would not be on the principle but, in effect, on the price. If we accept a lease-back we have taken an irreversible step. We will have given away our sovereignty for some empty hopes. There is no quarantee whatsoever that everything would be rosy. It is a very, very long chance. There would be no going back on such an agreement. We must try every possible option. The argument against the freeze goes along the line that basically the Argentines being aware of Her Majesty's Government's preference for a lease-back will not be interested. Well, at least we can establish what their attitude is without any danger of being seen to consider ceding sovereignty and in my view we must allow Her Majesty's Government to discuss any option that does not involve ceding sovereignty in exchange for a mere lease on our land. I also feel that Her Majesty's Government should be asked for a formal undertaking before any agreement with far reaching effect is agreed that in the event of such an agreement either failing or having an adverse effect on the community to the extent that we wish to leave then HMG will guarantee re-settlement. The thought that if things go wrong we could be left worries many people. There has been some criticism of Mr. Ridley making HMG's proposals public, and that by showing his obvious preference for a lease-back settlement he has weakened his negotiating position. In my opinion these proposals had to be made public. They demand the widest possible consideration and they have had it. Imagine the reaction if Mr. Ridley had not said a word about the purpose of his visit. The situation would be impossible. I accept the publicity given to the lease-back proposals, or rather Mr. Ridley's obvious preference to them, means that the Argentines are now aware that HMG are willing to talk about such a possibility now, but do we really believe that this was the first time they had heard of it? I cannot.

I would like to refer briefly to the attacks on the Honourable Member for East Falkland's address the other evening. I would agree that to some extent some, perhaps, of the personal remarks in that speech were uncalled for but I think that the general tenor of the speech was needed and that in fact that speech could only have been made by him.

I do not feel that if Ridley goes off and comes back with a no go we have lost anything at all. I do not think that we have lost an option, we will have tired an option, we will have gained the Argentines attitude. I think however that we should continue to explore every possible alternative and I also think that we should give serious and urgent consideration to our going to talk with the United Nations.

Thank you Sir, I beg to support the Motion.

Your Excellency, Honourable Members. I cannot claim to have sounded out public opinion on this issue as I was unable to do so. You Sir, appointed my predecessor to do that job and he did that job just as well as he could. He went and he listened and his work and his effort was greatly appreciated by all on West Falklands. In rising to support this Motion laid before the house I must be disappointed because I believe the mandate I was given was to find out what the bidding was and this is only going to find out what some of the bidding is. But support the Motion I most strongly do. But I still believe that the majority of the residents of these Islands wish to know under what circumstances we could settle our dispute with Argentina. The Honourable Member for East Falklands has received a lot of stick and I regret I am going to add to it. But I feel I must do so, he may dispute the mandate I was given because of the cables of support he had but I must deplore his broadcast on two accounts: the first was that it attacked two residents who had made statements in all good faith and for the second I believe that it set out to sew the seeds of distrust. Not very many years ago we had a similar sort of period. The distrust was not with regard to the British Government and its attitudes but within the Colony and it has taken about five years to get over that distrust and it is for this reason that I add to the pile of stick. Council in their addresses today have stressed that their is no guarantee that we would gain anything by settling the dispute. I would remind them that the hottest topic I think probably that this Colony has had since before Ridley were the tons and tons of fish that went out through the harbour entrance in the Polish trawlers and all we could do was collect a little bit in harbour dues. I have said before that we need that fish and oil and I believe that we must have that fish and oil but in the short term the fish is the most necessary.

There has been mention in the House today of the possibility of becoming independent. I understood that the desire of this Colony was to remain British. It would appear that the basic desire is to retain our sovereignty no matter what our nationality. I would remind them of the one example of a small territory which went independent, the Western Sahara, I have mentioned it before in this House. They went independent among the rejoicings of the major powers and the third world and all their guarantees. Six weeks later Morrocan and Algerian troops entered their borders and that was the last sight the world had of an independent Saharian nation. I would not countenance that possibility to these Islands.

We have heard alot about the support that we have in Britain and I think it was probably the saving grace of our sitation that we have that support both inside and outside the House of Parliament. But if anybody believes that this Government, and I refer now to the British Government, which will stand by while 10,000 plus steel workers become redundant, unemployment rise to towards 3 million, is going to dig its hand into its pocket to increase and supplement our budget - well, they're deluding themselves. We need that fish and oil and if as a result of talking to the Argentine we can get our hands on a little bit of it then this Council will have done this Colony a major service. It is my ferverent hope that a solution can be found to our problems by a long term freeze on our sovereignty dispute which would enable us to make use of our off-shore resources but if negotiations on that topic fail I also hope that in those discussions we may have learnt what other options are open to you.

Your Excellency, I beg to support the Motion.

Financial Secretary

Your Excellency. As an Ex-officio Member of this Council I feel that this is one time that I should not refer to other Members views and therefore I will give my personal views on the options which have been given to us and also my views on the political situation and the future of the economy of the Islands.

Firstly, the condominium. I agreed with what I've heard over the radio and from other sectors here that it is not a matter for real consideration.

to be a supported when the long and at particular On the matter of the lease-back, I have discussed this with a number of friends and colleagues and generally it would seem that there would be some doubt in long-term development of the Islands. There is the question that people may leave the Islands if there was a lease-back arranged and quite frankly I don't think we can afford to lose any more people from the Islands. There are also the smaller holdings which we are encouraging for the Green Patch sections of the Islands. These people who are thinking of their grand-sons and their great grandchildren and so forth and so on must give any change in the sovereignty. even though it may be efter a hundred years, very deep consideration and therefore I am doubtful whether there will be much development on these lines. That is my own personal view. Also there is the question of fish and oil. I agree that we need revenue from fish and oil and I agree that we should seek a solution to the problem if we can but one that is satisfactory to the whole community of the Falkland Islands.

I see no harm in talking of a freeze. The Minister has made it clear at this stage that it is only talking and I think that a further freeze, if the oil and fish can be extracted during that period may be worth considering.

On the question of a lease-back, as far as I can understand, this would not be acceptable and I think it would be rather dishonest to tell the Minister to go ahead and talk on this matter when we know he will come back here and say no. He was being very frank with us and I appreciate his frankness and I think we should be frank with him. \Box

I support the Motion.

Chief Secretary

Your Excellency, Honourable Members. I am very much aware that I am, too, an ex-officio member of this Council and therefore do not represent any section of the community and that I am only here because the Chief Secretary is on leave. Having said that I, of course, having been born and bred here, have my own opinions about this predicament in which we find ourselves. I, too, have no objection to the Minister going and talking about a freeze but I do have reservations and dislike the idea of the Minister talking about a leaseback. When I hear talk about a lease-back I get alarm bells ringing in my head because I fear that that is the end of the road and we should not only be thinking of ourselves, well those of us who are present here at the moment, but those who are going to come along and work and live in these Islands. I don't think there is anything else I can add to the speeches of my colleagues around this Table and all it leaves me to say is that I support the Motion.

T. J. D. Miller

let to propose continued to all the climate. Your Excellency, Honourable Members. In rising to wind up the debate on this Motion it would appear that there is agreement on this Motion to go forward in general. The only hesitation being that some of us feel that we are being rushed, but I feel that the majority of us have made it clear. We haven't ruled anything out, anything else out, in the future by agreeing to talk about a sovereignty freeze for a period of time. In the meantime we will all of course keep our options open and think of other possibilities, should the line that we are going to take not work out. Obviously the freeze should be for as long as we can get. My Honourable colleague for Stanley East suggested 25 years, I would be inclined to go for 50 years, but its just a case of seeing what comes out of the talks. We really don't know where we are until we hear from the other side. Our right to self-determination, to which we are entitled, I believe somebody said that it was recognised by the United Nations. Well I would dispute that. That is precisely our problem at the moment, our right of self-determination is not recognised by the U.N. We have said and Britain has voiced time and time again in the U.N. that we do not wish to become under Argentine sovereignty and that at present we wish to remain British, and yet still at least 130 countries in the United Nations, every time there is a vote, vote solidly against us, so our right of self-determination is not yet recognised there. However I agree most strongly that we should do all we can to either get the United Nations to come here or us to go there and try to find a way of putting this matter right for the future. I don't think there is anything left for me to say other than I think that the Motion finds the general support of the House.

MOTION by the Honourable T. J. D. Miller

That this House requests that Her Mojesty's Government grants full British Citizenship to Folkland Islanders.

T. J. D. Miller

Your Excellency, Honourable Members. In rising to propose this Motion I must say of course that this isn't the first time that a Motion along these lines has been before us. This is virtually a repeat of a Motion proposed and adopted by this House in June 1978 by the previous Member for West Falkland, Derek Evans. However, since that time there has been a change of government in the United Kingdom. The proposed British Nationality Act is coming up to the fore, I believe there are proposals in hand in England for it to be debated in this present session of Parliament, and also of course, since the visit here of Mr. Ridley, our own situation has changed somewhat considerably - as many speakers said when we were debating the previous Motion. I think it is essential that ωe have this Right of Citizenship and the Right of Entry to the United Kingdom, that we have full British Citizenship, particularly if we are going to become involved in any discussion with the Argentine on political affairs. What I would like to see happen, if this Motion is adopted, is that all Councillors would send a sort of open letter to all Members of Parliament and all Members of the House of Lords, putting forward our case with the Motion rather than just leave it up to the Foreign Office. If I may, I have prepared a possible paper, I would just like to say a few things from it as to why it is that we are seeking full British Citizenship. Almost 100% of Islanders have their origins in the United Kingdom and in no case are their origins more than 147 years old. We are descendants of the Colonialists who were sent here as part of UK policy to colonise the Falkland Islands. There was no indigenous population nor has there been any introduction of other nationalities since colonisation. The only language we speak is English. Although geographically close to South America we have nothing in common with any South American country whose culture is olien to our way of life. Dur only ties are with the United Kingdom. It is the wish of Islanders to strengthen ties with the United Kingdom where possible. A substantial propertion of the total population of about 1800 would retain full rights of entry to Britain as British citizens by mere descent under the proposed British Nationality Act. The smallness of the numbers in the rest of the population would have no significant impact on Britain's economy or social life if in the unlikely event we all decided we wanted to go to Britain. We have been offered in the past repeated assurances that it will be all right if the going gets rough, we will see you're DK somehow and if anybody wants to come to England, well just let us know and we will see if it can be arranged. Well like many others I don't like being regarded as a second-class citizen of my own Mother Country. We feel that we have a right to go to Britain if we so wish. According to the ideas behind the proposed British Nationality Act the granting of full British Citizenship will be for people who have a close link with the United Kingdom, identification with British society. Well I think we fully fulfill both of those qualifications. I know one orgument used against the Home Office to the granting of the right of entry to Falkland Islanders is that what they do for one Colony they have to do for all the others. I can understand that argument to a point but its fair to say that I don't think the Hume Office can feel that we are in a unique position in that we are virtually all of direct British descent and we are under claim by a large foreign country: with the second section to be presented at the little page of the

and also should we hopefully be granted full British Citizenship and the Right of Abode in the United Kingdom for Falkland Islanders. I think our own existing immigration laws would prevent any mass influx of people from other Commonwealth countries coming here so that they could then register to go to England. As it is under present legislation you have to be at least resident in the Falklands for 7 years to qualify for citizenship, so I don't think that the Home Office can use that excuse very well. Sir, I wish to propose the Motion.

A. B. Monk

Your Excellency, Honourable Members. I wish to second the Motion. I have very little to add to the Honourable Member's words. The only thing is I'm very unhappy that the Motion is not put in such a way that further talks with the Argentine are not continued upon Britain first granting this very reasonable request. We definitely have a lever. There is no question about it, the British Government wants us to talk, and badly, and come to a settlement with Argentina. Therefore we had the ideal opportunity to press this request for British Citizenship, but by tamely agreeing to just go and talk, just like that, whenever we are told, we have no lever left. We will talk and we still won't have British Citizenship, but however the concept that people should be granted full British Citizenship is one that I entirely agree with, and I support the Motion.

S. B. Wallace

Your Excellency, Honourable Members. I also do not have much to add to the Honourable mover of this Motion's presentation. It is certainly a matter uppermost in a lot of people's minds and one which we have attempted to change the attitude of the British Government on. We have tried with no success whatsoever to get Falkland Islanders the right to live and work in the United Kingdom. I believe that we must press Her Majesty's Government again to reconsider their attitude to us in this respect, especially now as we have already discussed our situation, and in fact our position has to a practical extent worsened since Mr. Ridley's visit. People are more worried about it. I think that were we granted the Right of Abode it would have a stabilising effect on the community. We have also, as we never cease to be thankful for, a large lobby in both Houses of Parliament which we must use if possible. I think in fact we should make more use of these friends. One of the problems is that our link of course is through official channels and I imagine that that means that any request of this nature would normally go to them alone and it is possible that our friends in Parliament could perhaps never hear of our request. I entirely agree with the Honourable Member for the Camp that we must give this Motion wider publicity than in the past. Thank you.

President

I think I might offer a word of explanation that any Motion that is debated in this House, the record of the debate, is sent to UK and is available in both Houses of Parliament for all MPs.

L. G. Blake

Your Excellency, Honourable Members, "I too Brutus" or whatever the words were that the famous Roman gentleman said. I would like to support the Motion most strongly. I am sure that Britain will be waiting for the results of our last debate very keenly and would ask if perhaps the Administration, in their rush to get those results off to Britain, should inadvertantly staple this debate on to the copies that they send forth. Your Excellency, in rising to support this Motion, the point has been made to me by a large number of people, and I would like to re-iterate what the Honourable Member for East Falkland said, that our position should be clarified with Britain before any talks take place. I think that this is a very very valid point ton, although we have passed this other Motion, to talk on a freeze, we haven't given away anything on talking about a freeze. Any Folkland Islander going to Britain and then wishing to stay ofter he's got there, by making application to the Home Office, is the one that has usually come unstuck. If he applies to live in Britain before he leaves here, an application is made through the proper channels and I understand that there has never been any problem, anyway, but this would allow the thing to come out in the open and be absolutely clear. and for that reason alone, Sir, I beg to support the Motion. was a wall was to want to a second your till your store and you add to

Motion by Hon T J D Miller

"That this House regrets that the present British Government feels unable to honour an understanding between it's predecessor and the Falklands regarding the financing of the oil/cargo jetty in Stanley. This action is forcing the Islands to accept virtual charity from Argentina, the country which claims our sovereignty."

T J D Miller

Your Excellency, Honourable Members. I must apologise I seem to be hogging the floor this afternoon, however, I can assure you that this is the last Motion that I have tabled for today. In proposing this Motion I wish to make it clear that although my initial reaction when I heard that the Argentines were prepared to build a jetty, if Britain wasn't, was one of horror and one of, well, in that case let's have no jetty. However, as I say with time and reflection I can see that that would be virtual economic sucide not to have it because lord knows what our, well we know the fuel costs from the Argentine will be going up but one thing is assured fuel costs from elsewhere will be a darn sight more expensive than that and we have to bear that in mind. I dread to think what our diesel will cost us in a couple of months time once the stocks at the Camber have been replenished. I would say in what I believe the officials call a "guestimate" probably anywhere between 80p and £1 a gallon, certainly whatever it is it will certainly be way above the present 57p a gallon. However, so much for that. The point of this Motion is that the previous British Government gave us an understanding, it wasn't written down, fortunately for them of course, but they gave us a clear understanding that the British Government would finance the construction of an oil jetty or oil facilities for the bulk off-loading of fuel products for YPF and that the Argentines would tender, as in fact they did, for the construction of that jetty. Well there's nothing wrong with them tendering for the construction of it, it doesn't matter who builds it, but the principle is in who pays for the construction, in other words who finances it, who gives it to us and the fact that this present British Government has changed their minds on this, they are putting us into a very difficult position. In order to survive economically we have more or less got to go cap in hand with our begging bowls to Buenos Aires and say, well, you know, please will you pay for it, please will you pay a million pounds towards the building of it. The Argentines claim that they are losing a considerable amount of money under the present operations and I am quite sure they are. But they are also, I don't blame them certainly if I was in the Argentine Government I would be fully prepared to make available all political capital I possibly could out of the fact that they are going to build us a jetty, that's assuming that they do and that Britain doesn't come up with any more money. I rather doubt that Britain will come up with any more money but I feel that we must make our point of view known in the strongest possible terms. Sir I wish to propose the Motion.

S B Wallace

Your Excellency, I would like to second this Motion. As far as I am concerned it is the master of understatements to say that we regret that they feel unable to honour a commitment and in fact as the Honourable Mr Miller said, there is no written commitment. If I recall correctly, the written Agreement says that the Argentine Government may construct a jetty. However, I also recall talking

to Ted Rowlands, perhaps two years ago now, and asking him what was happening about the jetty and apparently the Argentines had tendered an extremely low figure and the British Government accepted it, willingly of course, but then the Argentines found out that they couldn't build it for that price but at that time there was no question about it, the British Government were going to finance the entire cost of the jetty project. I think that HMG have renayed on the commitment and of course they will play with words and they will say theres nothing in it, we haven't written anything anywhere about that, you must have misunderstood us. It happens alot of course. The deplorable fact remains that Argentina will construct a jetty with a minimum contribution from HMG. Frankly if fuel prices from YPF go up much further it will not be worth continuing with the YPF Agreement - we seem to have imported South American inflation. Another aspect of the jetty saga which annoys me is that there was fierce opposition to the Argentines building the jetty and I accept that that particular battle is over bar the shouting but we were assured that we would have control of it. Of course we would have control, there was no question about it. But will we? I can see another battle developing over that. I beg to support the picture of the property of the

L G Blake

Your Excellency, Honourable Members. In rising to support the Motion I rise under the impression that under the original YPF Agreement Her Majesty's Government/Falkland Islands would provide jetty facilities. There may be exceptions which occur in the exchange of notes but I am sure that when we originally made this Agreement with Argentina we agreed to build the jetty in which case the British Government did write it down originally and perhaps if someone could turn it up we might remind them of the fact. Thank you Sir.

I think I can remember the wording to which you refer it was that the British Government, and in that Agreement that meant the Falkland Islands Government, would provide jetty facilities, that the jetty was specified as an existing jetty not building a new jetty.

W H Goss

Your Excellency, Honourable Members. I, too, support this Motion as my main worry with that jetty is going to be the control as another Member has already said. If Argentine puts in about 4/5ths of the money I don't think we can expect too much control over it, only with difficulty in gaining that control. I strongly support that the jetty should have been built by British capital and, also, with the present rise in the cost of fuel, if there is anything more added to it to off-set the expense of the jetty to Argentina it would be completely out of our reach. You could end up having an increase in the cost of fuel, somebody who is on fuel, oil fuel, quoted to me the other day that it is now going to cost him at present day prices I think it was £750 a year for fuel and he is going back to peat which will cost him £200 a year. I beg to support the Motion.

fears about the control aspect of it but I think if we are resolute and firm and make quite clear that the jetty is our territory, it is to be administered by us, then we can successfully control it, but it is a fact of life that no matter where the oil comes from you have to have a jetty or a discharge point with pipe-lines. The Interpretation and General Law (Amendment) Ordinance 1980

Chief Secretary

Your Excellency, Honourable Members. This Bill is designed to remedy an ambiguity in that under Section 2 of the 1977 Ordinance the Common Law of England applied to the Colony in toto whereas under the provisions of the Ordinance enacted in 1978 only the Common Law of England up to 22nd May 1900 applied to the Colony. Since 1900 the Common Law of England has been amended several times by statute and the object of this Bill is to remedy the ambiguity and thereby preserve the original intention of the principle Ordinance of 1977 that the Common Law of England shall apply to the Colony in toto. Sir, I beg to move the first reading of the Bill.

The Bill was read a first time and on the Motion that the Bill be read a second time Honourable Members spoke to the Motion as follows -

Your Excellency, Honourable Members, I always find it very strange that we manage to find time to page Bills of this nature and yet we can't find time to get a Bill on the stock which would allow us to obtain control of the land along the road which would be in a very definite public interest.

Well, it's comparing it, Sir. Anyway, the other point about this Bill, and others of this nature, is that it refers to a very complex piece of overseas legislation - the Common Law of England - which quite frankly I don't know the first thing about but we are not likely to know anything about it, to know whether it's objectionable to us, any parts of it, if we are only presented with the thing 24 hours before we are going to talk about it. Now I'm not going to be so silly as to say that had I been given it three weeks ago I would have read through the Common Law of England but I think one should be entitled to a little more notice. There may be certain aspects of the Common Law of England which you have objected to and you should be entitled to arm yourself with a few facts before you blindly rubber stamp this sort of thing.

There is an error in the principal Ordinance itself. It is the intention that the English Common Lew should apply in toto and not only to 1900. In toto because although the English Common Law is practically all unwritten since 1900 or has been amended by a statute, and that is the reason for that.

The Workmens Compensation (Amendment) Ordinance 1980

Chief Secretary

Your Excellency, Honourable Members. The Workmen's Compensation Accident Convention, No. 17 of 1925, of the International Labour Organisation has been applied to the Colony and its implementation is periodically reviewed by the International Labour Organisation's Committee of Experts. This Committee has urged us to make certain amendments to bring the law more closely into line with the Convention. To achieve this it is necessary to amend the definition of workmen in the Workmen's Compensation Ordinance so as to bring the local law more into line with the International Labour Organisation Convention concerning workmen's compensation accidents. At present the definition of workman does not permit any claim or compensation under the Ordinance by a member of the employers family dwelling in his house. The Committee of Experts considers that only such members of the employers family as not only dwell in an employers house but also who work exclusively on his behalf should be excluded from the benefits of the Ordinance. In other words an employee who is a member of a family and who lives with the family and who works exclusively on the employers behalf is not considered a workman under the Ordinance but any member of the employers family dwelling in his house but not working exclusively on the employers behalf would be included in the definition of workman and would be entitled to the benefits of the Ordinance. This Bill brings in the amendment necessary to achieve this object. I beg to move the first reading of the Bill.

Your Excellency, I don't wish to belabour the point that the Hon. Your Excellency, Honourable Members. Sir, this Ordinance provides for the inclusion of Cape Pembroke Peninsula in the Stanley Common. At the moment Cape Pembroke Peninsula does not legally form part of the Stanley Common and as it is desirable that this should be remedied the Bill before this House amends the Stanley Common Ordinance of 1963 by inserting the words "and Cape Pembroke Peninsula" in the definition of Stanley Common. Your Excellency, Honourable Members. Yes, I think this Bill will avoid a lot of misunderstanding that we have had in the past. For example, in the case we had just recently, the fact that just over half the horses and cows on Stanley Common, well, what should have been on Stanley Common, were in fact feeding in the Peninsula and it was thought at that time by some people that the Peninsula was also Common, which is not the case. The fact that the pasa libre down there is not cattle proof, means that enimals can just wander in and out at their leisure. I beg to support the 8ill.

The Registration of United Kingdom Patents Ordinance 1980

Chief Secretary

Your Excellency, Honourable Members. The Foreign and Commonwealth Office has drawn our attention to the need to consider amending our law on the registration of United Kingdom patents. In 1977 the United Kingdom revised its patent law to make it compatible with the European Community Patent Convention. This in turn makes it desirable to amend our principal Ordinance to enable European patents registered in the United Kingdom as well as ordinary United Kingdom patents to be registered in the Colony and this Bill will enable this to be done. Sir, I beg to move the first reading of the Bill.

At the Committee stage of the Bill the year 1980 in clause 1 was amended to read 1981.

Prayers were said by the Reverend Harry Bagnall, Rector of Christ Church Cathedral.

ADDRESS BY HIS EXCELLENCY THE GOVERNOR

Honourable Members,

Gentlemen. Having ascertained that there are no gunpowder plots to blow up this distinguished assembly today, I have great pleasure in declaring this, our first meeting of the new Legislative Council, open. I should like to congratulate the successful new representatives from the recent elections, to offer my sympathies to those who lost, and to say thank you to the electorate for turning out in such high numbers to vote. I understand that the average turnout was 78%, which is a very creditable performance and which indicates a healthy interest in our political affairs. It also shows that the majority of the population will be listening carefully to what their representatives have to say in this Legislative Council. This first meeting is very brief. The main purpose of it is to swear in the new members, to announce the election of two of their number to Executive Council and to reconstitute the Standing Committee on Education. Normal business will be carried out at our regular bi-annual meetings of Legislative Council in early January and in June. We now proceed to the administration of oaths.

ADMINISTRATION OF DATHS

After taking the prescribed oaths, Mr W.H. Goss, M.B.E., J.P., Mr L.G. Blake, O.B.E., J.P., Mr R.E. Binnie, Mr J.E. Cheek, Mr A.T. Blake and Mr T.J. Peck, C.P.M., took their seats as Members of Council.

Sometimes it consists of all Honourable Members, sometimes it consists of some of them. On this occasion, Sir, I have consulted the Honourable Elected Members beforehand and they have agreed that the membership of this committee should be proposed in this house in accordance with the wording of the motion recently read out by the clerk. I think, Sir, this has been sufficiently considered as far as this administration is concerned and I beg to move the motion."

"Your Excellency, Honourable Members. In rising to support the Motion for Adjournment, I'd like to draw Council's attention to our present constitutional instruments and laws. At the time of the last revision, I had the honour of serving on the commission. There are one or two items that seem: to have slipped through under the glove which we did not intend or didn't slip through under the glove which we did intend. One of these is the production of a regular electoral roll so that the electoral roll is operative at all times. I urge the administration to give thought to the introduction of further constitutional amendments. We know that there is a certain amount of anguish locally with regard to who may stand or may not stand for Council and in this age of political progress I think we should look again at our representation within Council and the make up of our two Councils. Your Excellency, I ask that this may be borne in mind. Thank you."

"Sir, in speaking to this motion I'm very conscious of the fact that we've got a lot of work to do the rest of today and tomorrow and I'11 keep my remarks very short. The Honourable Member for West Falklands is thinking along the same lines as myself and I too think that we and the administration need to look at the constitution as it is. Obviously we feel, and the electorate feels, there are changes that are necessary. One or two things that I thought of are, the system at _ the moment whereby we have two elections is complicated and expensive and in these days of financial restraint any expense that we can cut down the better. Over the years we have been slowly moving to a more democratic system of government, but we still have two nominated members on Executive Council, perhaps consideration could be given to giving these seats to elected members. Hon. T.J. Peck C.P.M.:

"Your Excellency, Honourable Members. In rising to support this motion for adjournment I'd like to say a few words on some matters which concern us all. Housing. A number of government-owned houses were offered for sale during this last year at what I consider to be exceptionally high prices. Why? Why were the local Falkland Islands residents not given the option to buy them at a reasonable price? A few of the same properties were offered for sale 100% cheaper only two to three years previously. The Government did not bind itself to accept the highest or any tender? Of course it did. There are still a few of these properties unsold as yet. There are individual persons waiting to buy a home of their own. These houses should be offered for sale at realistic prices. Prices within reach of the average Falkland Islander. This would go some way towards reassuring our own people that they are still wanted. The Hodson's Villas are owned by the Government. A rent of £20 per month each, that is £240 per annum is received. How much of this rent is returned for the upkeep of the property? When one looks at this row of houses, broken down fences, rusty and dilapidated sheds, unpainted walls and windows, while beneath the houses is a quagmire of mud caused by broken and poor drainage facilities, one could rightly assume that nothing was being spent on them. These properties are considered by the Administration as a C or D class, they are substandard and if we are to spend money on government houses, Sulivan House, Ross Road Flats and other properties, money must be spent on renovating Hodson's Villas. Those people who reside there are equally important as the rest of us. There is far too much class distinction and this must not continue. There are other matters relating to houses and accommodation which causes concern but as I'm awaiting a reply from the Administration on this matter I won't raise them now.

Hon T.J. Peck cont'd

The Darwin Road. Unless a more concerted effort is made by everyone directly involved, the Darwin Road project will never make any positive headway. It's not the lack of labour which is holding it back now but how the labour is being directed at progress that is at fault. Highly defective plant and transport also contribute a great deal to the slow progress. There was plenty of time during the winter months to repair, renew and fit out the plant and transport. Why wasn't this done? Someone has to accept responsibilities. Money was not available to buy spares? I do not accept this age old excuse. No matter whose money is being spent on this project, be it our own or Great Britain's, a great deal of money is being misused and wasted and action must be taken to put this right. I did touch on the plant and transport used in connection with the Darwin Road. It is time for Councillors to review P.A.T.A. structure and organisation. If it is not a viable concern, and it's certainly not proving to be, then it should be got rid of. We cannot afford to waste this time and money.

There are a number of other localised issues equally important but to raise them now would not produce any results as I am awaiting written reply.

Philipping to the common of th On the political scene, listening to the Argentine news on the 24-25th of October, I learned that Lord Carrington's secretary had told the Argentine Government of the decision to hold the next round of talks in New York, and that heading the agenda was the Hong Kong Amendment. In other words lease-back. We are told that things have changed and improved. Then why do we have to find out for ourselves and from a foreign source where the talks are to be held and the agenda? How many times do we have to repeat to the F.C.O. that we will not accept leaseback under any terms? Nor will we agree to any compromise which threatens our sovereignty. We do not need or want a jetty built and paid for by Argentina; if we are going to have a jetty, and if we cannot afford it then we will build it with British money and labour. Already we have L.A.D.E. houses, two L.A.D.E. houses, an airline office and two rented houses, a Y.P.F. fuel depot and now the site owned or leased by Gas del Estado. Through subterfuge and other means, glib talking by F.C.D. staff, we have all allowed ourselves to be used. I say no more. Enough is enough. "Your Excellency, Honourable Members. I don't have very much to say. Regarding the change of constitution. I raised this in Council before, but we got nowhere with making it more democratic. I think the same as the others that we should have elected members on the Executive Council. The political issue has been with us, and is perhaps more important at the moment than it was in the past, but I haven't any worries about that, that can be handled. I think we spend too much time thinking on the political issue and not enough on what could be done in the Colony. Development is what we want and that's within our reach.

Hon. W.H. Goss M.B.E., J.P. cont'd

There is something that you, Sir, mentioned yourself, not so very long ago, at a meeting, on a pilot scheme for the export of mutton. I think that that should be pursued, even if it is only two containers on the charter vessel, to see how acceptable the meat is at the other end. In the past this may not have been feasible. We didn't have the experts here, or the expertise for the classifying of meat. The meat would have to be classified. We now have, I think, in my opinion, the expertise in G.T.U. that could be meat inspectors and certify the meat before it had been frozen.

The charter vessel left from here, I believe, empty. If the wool could be spread over four voyages instead of three, and the vessel took away a part cargo of meat each voyage, it would be something to offset the low prices we are getting for the wool, but maybe farmers wouldn't want their wool spread over four voyages. It would have to be looked into with the Ministry of Food, also whether containers with frozen meat could be carried in the same hold as greasy wool. The containers are hermatically sealed. I don't think there would be any problem in that. This wouldn't require any great expense in the pilot scheme because the containers could be used and they wouldn't even need to increase their freezer space at the butchery. It could be done with the present freezer space, if the containers were filled up there and brought down on the low loader and put on board the ship for the pilot scheme. The Darwin Road I'm vary disappointed with. It's so late in the day getting under way and many excuses have been made which I don't accept and I think a lot falls on the administration and the running of P.A.T.A. The machinery we know is old and a lot of it is dilapidated but I don't see why the machinery wasn't ready to make a start in September. They've only just got the caravans and vehicles out to Bluff Cove. This could've been done long ago.

FILE IS IS IS IN A MORE

Pertaining to new industries and so forth it's going to cost a lot of money for whatever we do and I can see if we spend a million pounds on new industries or we spend a million pounds on our grasslands, we're going to make the same amount of money. I beg to support the motion."

The President:

"The Honourable Financial Secretary."

Hon. Financial Secretary:

"Your Excellency, I join in a welcome to this Council of two members who have been present for a number of years. I particularly welcome them back to continue many of the arguments we had before and I'm sure there'll be some lively debates. I also welcome the new members and it looks as if we're in for a very interesting time ahead.

Hon. Financial Secretary: cont'd

Much criticism has already been made at this meeting on such well-known targets as the Plant and Transport Authority and I'm sure we will have a lot more. Well as far as P.A.T.A. goes I think we're all criticising that from time to time, even the administration of P.A.T.A. What we need is a large sum of money for equipment. Much of the equipment was brought back into service and I'm advised by the experts that within a day or two of repair another part carries away and so forth. Also I think it might be remembered that the members of the Plant and Transport staff are not all fully trained engineers. We have some very good men, some who are very able, but much of the P.A.T.A. equipment is sophisticated heavy kind, and no doubt with time the training which is now being given to the apprentices, many of the problems that we are now suffering will be overcome more easily. But I will add again that funds are very restricted at present and we've been working in the red for some time.

I also heard mention this morning of pensions becoming inflation proof. Well, this is what we'd all like to aim for and what we've been trying to do within the last Council. I'm sure if we can find the money we'd all like to see higher pensions and so forth, but I would add at this point that finance is really limited at the moment. No doubt we'd all like to have Utopia here but we must find the finance somewhere and this is going to be a difficult job. I beg to support the motion."

The President:

"The Honourable Chief Secretary."

Hon. Chief Secretary:

"Your Excellency, may I first join my Honourable Colleague the Financial Secretary in welcoming both new Members of Council and older faces. We are indeed, it seems, in for some interesting times. A large number of important points have emerged in these brief speeches. I won't attempt to deal with them all now, Sir, as we all know we all have a full day's work ahead of us in Joint Council, Executive Council and indeed Standing Finance Committee, which will take up a good deal of tomorrow and no doubt many of these points will emerge again on many occasions. I would just like to say, though, that I'm very glad to see that everybody is keen to push ahead with constitutional amendments. We're not all agreed, I know, on what exactly they should be, but at least we're making a start at an early stage. I noticed, looking through the back papers, because we have been looking at this for some time of course, that the last time it took approximately four years from the starting point to the new constitution. So if we get cracking now we stand a chance of getting something in operation by the time these gentlemen are coming to the end of their term. I hope this time that it may go through a bit more quickly than that.

Another important topic mentioned was housing and this one is very near all our hearts. I'm glad to hear such enthusiasm on this topic because we shall be looking, I think, for an elected Member of this Council to serve on the Housing Committee and it's good to know there are some people with positive ideas about it.

Hon. Chief Secretary cont'd

As for P.A.T.A., well my friend the Financial Secretary as Chairman of P.A.T.A., knows more about this than anybody else and I'm glad to hear him say he's also worried about it. He has still got some of his hair left I've noticed; from time to time it's virtually moving in certain places; but we have, as he pointed out, a scheme in mind which may help us, we hope, to do something about the equipment. I don't want to say too much about it at this stage because, although we've gone a certain way along the road with it, there are still certain problems to be overcome and whatever we do is going to cost us a good deal of money.

Sir, a number of other points which were made are the subject of research which is being done in response to a letter from one Honourable Elected Member and will be dealt with in correspondence and no doubt some of the points will come up again in the next two days. Your Excellency, I beg to move the motion."

The President:

"Thank you. The Motion for the adjournment is carried and I therefore declare that this Council stands adjourned sine die."
